Item 4 Services, Fees and Compensation

About the Firm

Capstone Investment Financial Group Inc. is a registered investment advisory firm located in Colorado Springs, Colorado. Capstone Investment Financial Group Inc. ("Capstone", "We", or the "Firm.") offers the Wrap Fee program discussed in this brochure. A Wrap fee program is a program for which you pay one fee for both investment advice and custodial/trading services. More information about these services and the fees associated with these services is contained in this brochure.

The Firm commenced business on September 22, 2004. Our owners are Theodore Schwartz and Kevin Starkey.

Our Wrap Fee program services are investment supervisory services which are ongoing portfolio management services based on your individual goals, objectives, time horizon and risk tolerance. Investment supervisory services include, but are not limited to, the following:

- Investment strategy
- Personal investment policy
- Asset allocation
- Asset selection
- Regular and/or continuous portfolio monitoring

For our Investment Supervisory services, we collect a Wrap program fee based upon a percentage of Assets under Management as follows:

ASSETS UNDER MANAGEMENT	ANNUAL FEE
\$1 – \$250,000	1.10%
\$250,001 – \$1,000,000	1.00%
\$1,000,000 – \$2,000,000	0.75%
Above \$2,000,000	0.60%

These fees are negotiable and your final fee schedule is Exhibit II of the Investment Advisory Contract.

Fees for Investment Supervisory services are paid quarterly in advance and are typically debited directly from your account. In certain instances, you may elect to be billed directly and to pay quarterly fees by check. We refund any pre-paid advisory fees for accounts terminated mid-quarter. You must notify us of the account termination to receive this refund. We calculate the amount owed to you based upon the number of days remaining in the quarter. You have the right to terminate our services within five days of signing the client agreement. If you do so, you will receive a refund of all pre-paid fees.

The Wrap fee program may cost you more or less than purchasing such services separately. For

example, if the program trading costs were paid by you, and we traded frequently, you may pay more than the Wrap fee. If the program trading costs were paid by you and we traded infrequently, the total cost to you may be less than the Wrap fee.

Other Information about Advisory Fees

You do not typically pay custodial fees and mutual fund expenses. Your trading costs are included in the Wrap Fee. You may be charged a fee for such things as margin interest, a fee for a retirement account, or a transfer fee. To learn more about the custodial and brokerage expenses, consult your agreement with the custodian of your assets.

The Advisory Representative who recommends the program receives compensation for this recommendation in that he shares in a percentage of the collected fees.

Item 5 Account Requirements and Types of Clients

In our Wrap Fee Program, we provide investment advice to Individuals, Trusts, Estates, Corporations and other business entities.

The Firm has a minimum family of accounts value of \$25,000. We may waive this based on the complexity of the situation or your needs.

Item 6 Portfolio Manager Selection and Evaluation.

We are the Portfolio Manager for the Wrap fee program. This could create a conflict of interest in that we are recommending ourselves as the manager of our assets. To address this conflict of interest, we consistently monitor the performance and quality of the advice we provide. Because we are a portfolio manager for the program, a description of the services we provide is below.

Advisory Services

When providing investment supervisory services, we evaluate your current investments with respect to your risk tolerance levels and time horizon. Capstone believes that a prudent investment strategy reacts to current market conditions and does not lock a portfolio into a fixed allocation. We are an active manager, meaning we build portfolios with the flexibility to diversify among asset classes and management styles.

Clients electing to use our investment supervisory services give us discretionary authority, meaning that based upon your investment strategy, Capstone will make decisions about the purchases and sales of securities on an ongoing basis. You will receive an Investment Policy Statement, which documents risk tolerance levels.

We tailor advisory services to your individual needs. For average net worth clients, we do so through conversations. For our higher net worth clients, we may use a tool called Money Guide Pro to help establish your goals and objectives. You may impose restrictions on investing in certain securities or types of securities.

Capstone manages client assets. As of 12/31/2010, its discretionary assets under management were \$3,119,652. As of 12/31/2010, its non-discretionary assets under management were \$877,764.

Investment Strategies and Risk of Loss

We offer tactical asset management, emphasizing broad diversification, but with a tactical overlay that is used for risk management. The broad diversification includes stocks, bonds, real assets, real estate investments, market neutral and absolute return strategies and cash. This is sometimes referred to as an endowment model of investing. While starting with thematic fundamental analysis, the Firm also drills down to technicals and charting before investing. After selecting investments based on the above, we maintain sell stops and monitor the moving average of assets in order to manage risk. If an investment falls below these criteria, we sell or hedge the risk of the investment.

The risk of our strategy is that clients may not fully participate in rising markets. The investments may either be in themes that underperform the benchmarks or may be diversified into lower performing asset types. Your accounts may suffer from underperformance during some time periods. The Firm believes that the risk management offered by the methodology provides you with the ability to compound their assets while potentially reducing their downside risks.

We recommend a wide variety of publicly traded securities including stocks, bonds, exchange traded funds, mutual funds, CDs, and fixed income securities. Some clients may own private partnerships but the Firm does not recommend these products as part of the typical investment portfolio management.

Investing in securities involve risk of loss that you should be prepared to bear.

Our investment methodology involves risks. The primary risks you should consider are market risk, company risk and sector risk. These primary risks are described below. Other risks include small and medium capitalization risk, ETF risks, Inverse ETF risks, mutual fund risks, and global geo-political risks.

Market risk is the risk that your investments will be worth less than when you originally invested. Markets fluctuate, causing the value of your investments to fluctuate.

Company risk is the risk that a specific company we recommend fails to perform as expected, causing a portion of your investment to be worth less than originally invested or nothing at all.

Another area of risk is the focus of your assets in securities of a particular sector. Sector risk is the possibility that securities within the same group of industries will decline in price due to sector-specific market or economic developments. If a Fund invests more heavily in a particular sector, the value of its shares may be especially sensitive to factors and economic risks that specifically affect that sector. Certain sectors are subject to greater government regulation and changes in regulatory policies for those sectors may have a material effect on the value of securities issued by companies in those sectors.

Performance-Based Fees and Side By Side Management

We do not accept performance-based fees.

Voting Client Securities

For its investment management accounts, Capstone does not vote proxies. You retain this right. Clients may receive a copy of our proxy voting policies and procedures upon request.

Item 7 Client Information Provided to Portfolio Managers

You will provide information to us. We are the portfolio manager of your account and will use that information to manage your investments.

Item 8 Client Contact with Portfolio Managers

There are no limitations on your contact with us as your portfolio manager. You may contact us at any time to discuss your account.

Item 9 Additional Information

Neither the Firm nor any of our management persons have been involved in any event that are material to a client's or prospective client's evaluation of the Firm or the integrity of its management.

Other Financial Industry activities and Affiliations

Kevin Starkey is a licensed insurance agent in Colorado. From time to time, they may offer you advice on insurance products. If you elect to purchase an insurance product from one of these associates, the associate will receive customary sales compensation for these products in addition to receiving fees for the management of your other assets. This creates a conflict of interest. You are under no obligation to purchase insurance products from any associate of Capstone Investment Financial Group, Inc.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Associated persons may buy or sell for their own accounts the same securities recommended to you. This creates a conflict of interest. Associated persons seek to ensure that they do not personally benefit from the short-term market effects of their recommendations to you and we monitor their personal trading.

Associated persons are aware of the rules regarding material non-public information and insider trading. Associated persons may also buy or sell a specific security for their own account based on personal investment considerations, which the Advisor does not deem appropriate to buy or sell for clients.

We have adopted a Code of Ethics to instruct its personnel in their ethical obligations and to provide rules for their personal securities transactions. The Firm and our personnel owe a duty of loyalty, fairness and good faith to their clients, and the obligation to adhere not only to the specific provisions of the code but also to the general principles that guide the Code. The Code covers a range of topics including general ethical principles, reporting personal securities trading, exceptions to reporting securities trading, reportable securities, initial public offerings and private placements, reporting ethical violations, distribution of the Code, review and enforcement processes, amendments to Form ADV and

supervisory procedures. We will provide a copy of the Code to any client or prospective Client upon request.

Brokerage Practices

We do not receive any research or other products or services other than execution from a broker-dealer or third party in connection with your securities transactions. Nor do we receive any client referrals from a broker-dealer or third party.

We typically recommend TD AMERITRADE Institutional, Division of TD AMERITRADE, Inc. member FINRA/SIPC, as a custodian. The Firm chose TD Ameritrade as our main custodian because of their customer service, technology, trade execution, and low expenses to clients. They have relatively low transaction fees, no custodial fees, provide many client services free of charge, and provide documentation on best execution for our review and monitoring.

We may “bunch” buy or sell orders for two or more clients into a single large order, and place the bunched order with a single broker or dealer for execution. We are not obligated to place all transactions on a “bunched” basis. When determining whether to “bunch” orders, we rely on the judgment of the Chief Compliance Officer (CCO) as to what course of action is likely to be fair and in the best interests of the relevant accounts on an overall basis. That is, we seek to avoid putting any client account at an advantage or disadvantage compared to our other client accounts that are buying or selling the same security.

Block trading is permitted where the following conditions are met:

Orders of two or more clients may be bunched only if CIFG has determined, on an individual basis that the securities order is:

1. In the best interests of each client participating in the order;
2. Consistent with CIFG's duty to obtain best execution; and
3. Consistent with the terms of the investment Advisory agreement of each participating client.

Where conducting a block trade, the CCO will determine the accounts that will participate, and the specific allocations in advance of the transaction. If the entire order is filled, you will receive your portion of the allocation specified on the trade ticket. All allocations are prior to the close of business on trade date. Client accounts participating in the transaction will receive the weighted average price of the security and will incur a pro-rata share of the transaction cost.

If part of the order is unfilled, the allocation is based upon an alphabetical order pre-determined with a random alphabet generator. The trading allocation is made in order based on the last name of the client using this list. This list is amended every six months. The allocation shall be made in the best interests of all the clients, taking into account all relevant factors, including, but not limited to, the size of each client's allocation, clients' liquidity needs, and previous allocations. If appropriate, we will then re-

submit the trade on the following business day for completion of the balance of the order if the portfolio manager determines that the price is still advantageous for the remaining accounts.

The books and records of the Firm separately reflect, for each client for whom an order is bunched, the securities held by, purchased, and sold for that client.

Review of Accounts

We continuously review the securities in every client's account. The accounts are reviewed quarterly. Accounts are reviewed by an investment committee composed of all owners of Capstone Investment Financial Group, Inc., who are Investment Advisor Representatives.

Client Referrals and Other Compensation

We do not pay anyone for client referrals for our wrap fee accounts.

Financial Information

Capstone has no financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients.

Custody

We have custody of client assets only due to its ability to withdraw fees from customer accounts. The qualified custodian of client assets sends account statements directly to clients. You will receive account statements from the broker-dealer or other qualified custodian. Clients should carefully review those statements.

We send clients an enhanced performance report at least annually. This report shows clients the rate of return on their investments and management fees.

Investment Discretion

For those investment supervisory accounts, we maintain limited power of authority over your account with respect to securities to be bought and sold and amount of securities to be bought and sold.

Brochure Supplement

Item 1 Cover Page

This brochure supplement provides information about Theodore Schwartz and Kevin Starkey. Please contact us at (719) 477- 9883 if you did not receive Capstone Investment Financial Group, Inc.'s brochure or if you have any questions about the contents of this supplement.

2006 - 2007	Registered Rep	Wedge Securities, LLC

Theodore Schwartz holds the CFP® designation. The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 62,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances.
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year).
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® mark:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field.
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Item 3 Disciplinary Information

None of our supervised persons is subject to any material legal or disciplinary event.

Item 4 Other Business Activities

Please see item 9 of the Firm Brochure (attached) for more information about our Other Business Activities.

Item 5 Additional Compensation

There are no such issues to be disclosed.

Item 6 Supervision

The person responsible for supervision is Kevin Starkey. He supervises the associates by monitoring their emails, reviewing paperwork they complete, meeting with them regularly, and enforcing the Firm's Written Supervisory Procedures and Code of Ethics. Ted Schwartz supervises Kevin Starkey. You may contact Kevin or Ted at (719) 477- 9883 with any concerns.
