## Item 4: Advisory Business

### A. Description of the Advisory Firm

The firm is a limited liability company organized in the State of New Jersey. The inception date of the firm was April 14, 2009 and the firm became approved in August of 2009; the principal owner is Mark Stuart Friedenthal.

### B. Types of Advisory Services

Friedenthal Financial, LLC (hereinafter "FF") offers the following services to advisory clients:

#### *Investment Supervisory Services*

FF offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. FF creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

FF evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client. FF offers two strategies for investment supervisory services: Strategic Asset Allocation (static) and Tactical Asset Allocation (dynamic).

#### *Investment Consulting:*

Friedenthal Financial provides a variety of Investment Consulting services which may include but are not limited to Portfolio Reviews, Comprehensive Risk Tolerance Assessment, Participant Directed 401(k)/403(b) Portfolio Review, Retirement Plan level Advisory Consulting, and other ad-hoc projects.

These services are based on fixed fees or hourly fees and the final fee structure is documentation in the Investment Consulting Services Agreement.

## ***Services Limited to Specific Types of Investments***

FF limits its investment advice and money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, real estate, hedge funds, third party money managers, REITs, insurance products including annuities, private placements, government securities. FF may use other securities as well to help diversify a portfolio when applicable.

### **C. Client Tailored Services and Client Imposed Restrictions**

FF offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may not impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

### **D. Wrap Fee Programs**

FF does not participate in any wrap fee programs.

### **E. Amounts Under Management**

FF has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$116,187,000	\$0.00	December 2017

## **Item 5: Fees and Compensation**

### **A. Fee Schedule**

Clients should be advised that lower fees for comparable services may be available from other sources.

### ***Investment Supervisory Services Fees***

FF offers two investment management services: Strategic Asset Allocation and Tactical Asset Allocation. Strategic Asset Allocation is a static (constant target) asset allocation, often called a "Buy, Hold, and Rebalance" portfolio. Tactical Asset Allocation is a dynamic asset allocation that shifts assets between different classes, geographies, and

industries as market trends and conditions change.

*Strategic Asset Allocation (buy/hold/rebalance) Fee Schedule:*

<b>Total Assets Under Management</b>	<b>Annual Fee</b>
First \$500,000	0.60%
Next \$500,000	0.50%
Next \$2,000,000	0.40%
Next \$7,000,000	0.30%
Next \$10,000,000	0.20%
Above \$20,000,000	0.10%

*Tactical Asset Allocation Fee Schedule:*

<b>Total Assets Under Management</b>	<b>Annual Fee</b>
First \$500,000	1.20%
Next \$500,000	1.00%
Next \$2,000,000	0.80%
Next \$7,000,000	0.60%
Next \$10,000,000	0.40%
Above \$20,000,000	0.20%

The fee schedule is attached as Exhibit B of the Investment Advisory Contract. Fees are paid quarterly in arrears, based on the average daily balance during the period, and clients may terminate their contracts with written notice. Because fees are charged in arrears, no refund policy is necessary. Clients may terminate their accounts without penalty within 5 business days of signing the advisory contract. Advisory fees are withdrawn directly from the client's accounts with client written authorization.

Because client fees will be withdrawn directly from client accounts, this advisor must:

- (A) Possess written authorization from the client to deduct advisory fees from an account held by a qualified custodian.
- (B) Send the qualified custodian written notice of the amount of the fee to be deducted from the client's account.
- (C) Send the client a written invoice itemizing the fee prior to fee deduction, including any formulae used to calculate the fee, the time period covered by the fee and the amount of assets under management on which the fee was based.

### *Investment Consulting Fees Hourly Fees*

The hourly fee for these services range from \$100 to \$500. The fees are negotiable and the final fee schedule will be included in the Investment Consulting Engagement Letter.

#### **B. Payment of Fees**

### *Payment of Investment Supervisory Fees*

Advisory fees are withdrawn directly from the client's accounts with client written authorization. Fees are paid quarterly in arrears.

#### **C. Clients Are Responsible For Third Party Fees**

Clients are responsible for the payment of all third party fees (i.e. brokerage fees, custodian fees, mutual fund fees, transaction fee etc.). Those fees are separate and distinct from the fees and expenses charged by FF. Please see Item 12 of this brochure regarding broker/custodian.

#### **D. Prepayment of Fees**

FF collects its fees in arrears. It does not collect fees in advance.

#### **E. Outside Compensation For the Sale of Securities to Clients**

Neither FF nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or services fees from the sale of mutual funds.

## **Item 6: Performance-Based Fees and Side-By-Side Management**

FF does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

## **Item 7: Types of Clients**

FF generally provides investment advice and management supervisory services to the following Types of Clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals
- ❖ Pension and Profit Sharing Plans
- ❖ Charitable organizations

❖ Corporations

### *Minimum Account Size*

There is an account minimum of \$250,000 which may be waived by the investment advisor, based on the needs of the client and the complexity of the situation.

## **Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss**

### **A. Methods of Analysis and Investment Strategies**

FF's methods of analysis include charting analysis, fundamental analysis, technical analysis, and cyclical analysis.

**Charting analysis** involves the use of patterns in performance charts. FF uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

**Fundamental analysis** involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

**Technical analysis** involves the analysis of past market data; primarily price and volume.

**Cyclical analysis** involved the analysis of business cycles to find favorable conditions for buying and/or selling a security.

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

### **B. Material Risks Involved**

#### *Methods of Analysis*

**Charting analysis** strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in solely using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

**Fundamental analysis** concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

**Technical analysis** attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not

always follow patterns and relying solely on this method may not work long term.

**Cyclical analysis** assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns and 2) if too many investors begin to implement this strategy, it changes the very cycles they are trying to take advantage of.

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

### C. Risks of Specific Securities Utilized

FF generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize short sales, margin transactions, and options writing. Short sales, margin transactions, and options writing generally hold greater risk of capital loss and clients should be aware that there is a material risk of loss using any of those strategies.

**Mutual Funds:** Investing in mutual funds carries the risk of capital loss. Mutual funds are not guaranteed or insured by the FDIC or any other government agency. You can lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond “fixed income” nature (lower risk) or stock “equity” nature (mentioned above).

**Equity** investment generally refers to buying shares of stocks by an individual or firms in return for receiving a future payment of dividends and capital gains if the value of the stock increases. There is an innate risk involved when purchasing a stock that it may decrease in value and the investment may incur a loss.

**Treasury Inflation Protected/Inflation Linked Bonds:** The Risk of default on these bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal.

**Fixed Income** is an investment that guarantees fixed periodic payments in the future that may involve economic risks such as inflationary risk, interest rate risk, default risk, repayment of principal risk, etc.

**Debt securities** carry risks such as the possibility of default on the principal, fluctuation in interest rates, and counterparties being unable to meet obligations.

**Stocks & Exchange Traded Funds (ETF):** Investing in stocks & ETF's carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Investments in these securities are not guaranteed or insured by the FDIC or any other government agency.

**Real Estate** funds face several kinds of risk that are inherent in this sector of the market. Liquidity risk, market risk and interest rate risk are just some of the factors that can influence the gain or loss that is passed on to the investor. Liquidity and market risk

tend to have a greater effect on funds that are more growth-oriented, as the sale of appreciated properties depends upon market demand. Conversely, interest rate risk impacts the amount of dividend income that is paid by income-oriented funds.

**Hedge Funds** are not suitable for all investors and involve a high degree of risk due to several factors that may contribute to above average gains or significant losses. Such factors include leveraging or other speculative investment practices, commodity trading, complex tax structures, a lack of transparency in the underlying investments, and generally the absence of a secondary market.

**REITs** have specific risks including valuation due to cash flows, dividends paid in stock rather than cash, and the payment of debt resulting in dilution of shares.

**Private placements** carry a substantial risk as they are largely unregulated offerings not subject to securities laws.

**Long term trading** is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various other types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

**Short term trading** risks include liquidity, economic stability and inflation.

**Short sales** risks include the upward trend of the market and the infinite possibility of loss.

**Margin transactions** use leverage that is borrowed from a brokerage firm as collateral.

**Options writing** involve a contract to purchase a security at a given price, not necessarily at market value, depending on the market.

**Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **Item 9: Disciplinary Information**

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of this advisory business or the integrity of our management.

## **Item 10: Other Financial Industry Activities and Affiliations**

### **A. Registration as a Broker/Dealer or Broker/Dealer Representative**

Neither FF nor its representatives are registered as a broker/dealer or as representatives of a broker/dealer.

### **B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor**

Neither FF nor its representatives are registered as a FCM, CPO, or CTA.

### **C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests**

Neither FF nor its representatives have any material relationships to this advisory business that would present a possible conflict of interest.

### **D. Selection of Other Advisors or Managers and How This Adviser is Compensated for Those Selections**

FF does not utilize nor select other advisors or third party managers. All assets are managed by FF management.

## **Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

### **A. Code of Ethics**

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Clients or prospective clients may request a copy of our Code of Ethics from management.

### **B. Recommendations Involving Material Financial Interests**

FF does not recommend that clients buy or sell any security in which a related person to

FF has a material financial interest.

### **C. Investing Personal Money in the Same Securities as Clients**

Representatives of FF may buy or sell securities for themselves that they also recommend to clients. FF will always document any transactions that could be construed as conflicts of interest.

### **D. Trading Securities At/Around the Same Time as Clients' Securities**

Representatives of FF routinely trade the exact same securities at the same time and price as clients. FF will always act in the best interest of the client.

## **Item 12: Brokerage Practices**

### **A. Factors Used to Select Custodians and/or Broker/Dealers**

The Custodian, Schwab Institutional, is a division of Charles Schwab & Co., Inc., was chosen based on their relatively low transaction fees and access to mutual funds and ETFs as well as industry reputation. FF will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

#### ***1. Research and Other Soft-Dollar Benefits***

FF receives research, products, or other services from its broker/dealer or another third-party in connection with client securities transactions ("soft dollar benefits"). There is no minimum client number or dollar number that FF must meet in order to receive free research from the custodian or broker/dealer. There is no incentive for FF to direct clients to this particular broker-dealer over other broker-dealers who offer the same services. However, because this firm does not have to produce or pay for services or products it has an incentive to choose a custodian that provides those services based on its interests rather than the clients' interests. The first consideration when recommending broker/dealers to clients is best execution. FF always acts in the best interest of the client.

#### ***2. Brokerage for Client Referrals***

FF receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

#### ***3. Clients Directing Which Broker/Dealer/Custodian to Use***

FF will not allow clients to direct FF to use a specific broker-dealer to execute

transactions. Clients must use FF recommended custodian (broker-dealer). Not all investment advisers require their clients to direct brokerage. By requiring clients to use our specific custodian, FF may be unable to achieve most favorable execution of client transaction and that this may cost clients money over using a lower-cost custodian.

## **B. Aggregating (Block) Trading for Multiple Client Accounts**

FF maintains the ability to block trade purchases across accounts. While block trading may benefit clients by purchasing larger blocks in groups, we do not feel that the clients are at a disadvantage due to the best execution practices of our custodian.

# **Item 13: Reviews of Accounts**

## **A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews**

Client accounts are reviewed at least quarterly by a member of the Portfolio Management team. The Portfolio Management Team is instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at FF are assigned to the members of this team.

## **B. Factors That Will Trigger a Non-Periodic Review of Client Accounts**

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

## **C. Content and Frequency of Regular Reports Provided to Clients**

Each client will receive at least quarterly a written report detailing the clients account performance, which will come from the custodian.

# **Item 14: Client Referrals and Other Compensation**

## **A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)**

FF does not receive any economic benefit, directly or indirectly from any third party for advice rendered to FF clients.

## **B. Compensation to Non –Advisory Personnel for Client Referrals**

FF does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

### **Item 15: Custody**

FF, with client written authority, has limited custody of client's assets through direct fee deduction of FF's Fees only. If the client chooses to be billed directly by Charles Schwab & Co., Inc., FF would have constructive custody over that account and must have written authorization from the client to do so. Clients will receive all required account statements and billing invoices from the custodian, that are required in each jurisdiction, and they should carefully review those statements for accuracy.

### **Item 16: Investment Discretion**

For those client accounts where FF provides ongoing supervision, the client has given FF written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides FF discretionary authority via a limited power of attorney that the client must review and execute in the Investment Advisory Contract and in the contract between the client and the custodian.

### **Item 17: Voting Client Securities (Proxy Voting)**

FF will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

### **Item 18: Financial Information**

#### **A. Balance Sheet**

FF does not require nor solicit prepayment of more than \$1,200 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

#### **B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients**

Neither FF nor its management have any financial conditions that are likely to reasonably impair our ability to meet contractual commitments to clients.

### **C. Bankruptcy Petitions in Previous Ten Years**

Neither FF nor its management has been the subject of a bankruptcy petition in the last ten years.

## **Item 19: Requirements For State Registered Advisers**

### **A. Principal Executive Officers and Management Persons; Their Formal Education and Business Background**

FF currently has only one management person/executive officer: Mark Stuart Friedenthal. Education and business background can be found on the Form ADV Part 2B brochure supplement for such individual.

### **B. Other Businesses in Which This Advisory Firm or its Personnel are Engaged and Time Spent on Those (If Any)**

Other business activities for each relevant individual can be found on the individual's Form ADV Part 2B brochure supplement.

*This brochure supplement provides information about Mark Stuart Friedenthal that supplements the Friedenthal Financial, LLC brochure. You should have received a copy of that brochure. ##### **CFP® - Certified Financial Planner**

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 62,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- i. Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- ii. Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
