Item 4 Advisory Business

AVP Advisors, LLC ("AVP" or "the Firm") is a registered investment adviser based in Los Angeles, California. AVP is organized as a limited liability company under the laws of the State of Delaware and has been providing investment advisory services since its founding in 2004. The firm is wholly owned and managed on a day-to-day basis by a team of real estate investment professionals including Richard Ziman, Barry Chase, Amy Ko and Mark Albertson. The Firm became an SEC-registered investment adviser on June 24, 2010.

AVP serves as the investment adviser for the AVP Emerging Manager fund of funds platform which is a series of private equity investment vehicles with an investment strategy of linking institutional investors with successful small to mid-sized real estate managers referred to as "Emerging Managers". The AVP fund series provides an opportunity for institutional investors to access top performing local real estate investment managers. AVP believes these firms will deliver superior access to investment opportunities in the local markets in which the Emerging Managers specialize. Our Emerging Managers platform is the only advisory service that we offer, and this service is offered strictly to institutional clients.

The following paragraphs describe our service. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to the needs of our institutional clients. As used in this brochure, the words "we", "our" and "us" refer to AVP Advisors, LLC and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this brochure. As used in this brochure, our Associated Persons are our firm's officers, employees and all individuals providing investment advice on behalf of our firm.

American Value Partners Fund I

The Firm currently serves as the investment adviser to the American Value Partners Fund I, L.P. (the "Fund"), a discretionary private real estate fund formed for the purpose of investing in other real estate funds and joint ventures organized by Emerging Managers to invest predominantly within dynamic growth markets and areas of urban revitalization.

Interests in the Fund were offered to a limited number of institutional investors on a private placement basis. The Fund is currently closed to additional investors.

Separately Managed Account

AVP provides discretionary management services to a separately managed institutional account that is structured as a single investor fund, where the investment objectives are tailored to meet the needs of the client. This account co-invests with the Fund in opportunities identified by one of our Emerging Managers. Once capital is committed to an investment, we monitor the investment's performance on an ongoing basis.

Assets Under Management

The Firm's unaudited, regulatory assets under management totals \$212.8 million as of 12/31/2013. Additionally, the Firm has \$442.5 million of investor capital commitments as of 12/31/2013.

Item 5 Fees and Compensation

For both the Fund and separately managed accounts, we are compensated through a quarterly asset management fee, payable at the beginning of each quarter, and profit participation upon the achievement of a certain return threshold as defined in the respective partnership agreement. At AVP's election asset management fees are paid from the proceeds derived by the real estate ventures or through capital contributions from the investors.

The Fund and separately managed accounts will bear certain expenses that arise due to operating activities, including but not limited to evaluation, acquisition, holding and disposition of each investment as well as audit and tax fees, interest on indebtedness and insurance premiums.

Item 6 Performance-Based Fees and Side-By-Side Management

Our fee structure includes a performance-based fee paid to an affiliate of the Firm based on a profits participation after a certain threshold is met.

Item 7 Types of Clients

AVP serves as the investment adviser to private real estate funds and separately managed institutional accounts that are organized as single-investor funds. Investors in the Fund and separately managed accounts will be required to make a minimum capital commitment of \$25 million, which we may be waived at AVP's discretion. Investors in the Fund and separate accounts must be (i) "accredited investors," as defined in Regulation D of the Securities Act of 1933, as amended, and "qualified purchasers" under section 2(a)(51) of the Investment Company Act of 1940.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

AVP's investment objective is to invest with real estate managers seeking value-added or opportunistic real estate investments and separately managed institutional accounts, where the investment objectives are tailored to meet the needs of the client. Typically, AVP's investment strategy is to select Emerging Managers or joint venture partners who have an established expertise in a specific local market and who invest primarily in office, retail, multi-family, hospitality, mixed-use and industrial real estate asset classes. Managers are selected based on their ability to add value through capital improvements, intensive property management, aggressive leasing or redevelopment/development.

Prior to investing in the Fund or a separately managed account, prospective investors are furnished a private placement memorandum that describes the material risks of the proposed investment. Investors should refer to the offering documents for the Fund and separately managed accounts for a complete description of the risks, investment objectives and strategies, fees and other relevant information.

Risk of Loss

Investment in the Fund and separately managed accounts involves a significant degree of risk and is suitable only for sophisticated investors and only as part of such investors' investment program. In addition, there are risks associated with investing in Emerging Funds and separate accounts and with the business activities of such entities. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines.
