This brochure provides information about the qualifications and business practices of Lindbrook Capital, LLC. If you have any questions about the contents of this brochure, please contact our firm by telephone at (424) 208-8000 or by email at tyler@lindbrookcapital.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any State Securities Authority.

Additional information about Lindbrook Capital, LLC also is available on the SEC's website at www.adviserinfo.sec.gov by searching CRD# 155812.

Please note that the use of the term "registered investment adviser" and description of Lindbrook Capital, LLC and/or our associates as "registered" does not imply a certain level of skill or training. You are encouraged to review this Brochure and Brochure Supplements for our firm's associates who advise you for more information on the qualifications of our firm and its employees.

Item 2: Material Changes

Lindbrook Capital, LLC is required to advise you of any material changes to the Firm Brochure ("Brochure") from its last annual update. We must state clearly that we are discussing only material changes since the last annual update of our Brochure, and we must provide the date of the last annual update.

Since the last annual amendment filed on February 16, 2016, the following changes have been made:

- Upon the expected implementation of the Department of Labor's Fiduciary Rule, the "Compliance with the DOL Fiduciary Rule" section of our Code of Ethics disclosed herein will be effective. This addition includes, among other things, important procedures defining Lindbrook Capital, LLC as a level-fee fiduciary and our compliance with the Impartial Conduct Standard.
- We have revised our firm's ownership structure. Previously, majority ownership of the firm was equally split between Tyler Dritz and Benjamin Posen. Majority ownership of the firm is currently equally split between the Tyler and Taryn Dritz Revocable Trust and the Posen/Degal Living Trust. There has been no practical change in management or control since Messrs. Dritz and Posen are maintaining control of the firm.

Item 4: Advisory Business

Our firm is a limited liability company formed in the State of Delaware. We have been in business as a Registered Investment Adviser since 2011. Majority ownership of the firm is equally split between the Tyler and Taryn Dritz Revocable Trust and the Posen/Degal Living Trust .

Description of the Types of Advisory Services We Offer

Comprehensive Portfolio Management:

Our comprehensive portfolio management service encompasses asset management as well as providing financial planning/financial consulting to clients. It is designed to assist clients in meeting their financial goals through the use of financial investments. We conduct at least one, but sometimes more than one meeting (in person if possible, otherwise via telephone conference) with clients in order to understand their current financial situation, existing resources, financial goals, and tolerance for risk. Based on what we learn, we propose an investment approach to the client. We may propose an investment portfolio, consisting of exchange traded funds, mutual funds, individual stocks or bonds, or other securities. Upon the client's agreement to the proposed investment plan, we work with the client to establish or transfer investment accounts so that we can manage the client's portfolio. Once the relevant accounts are under our management, we review such accounts on a regular basis and at least quarterly. We may periodically rebalance or adjust client accounts under our management. If the client experiences any significant changes to his/her financial or personal circumstances, the client must notify us so that we can consider such information in managing the client's investments.

We may utilize Independent Money Managers, where we may design an investment portfolio and provide ongoing corresponding comprehensive portfolio management services on a fee-only basis for a percentage of assets in conjunction with another investment advisory firm. Before selecting other advisers, we make sure that the other advisers are properly licensed or registered.

Portfolio Monitoring:

Our Portfolio Monitoring Service provides for safekeeping/housekeeping of assets on behalf of clients with no on-going supervision, trading, nor discretion with respect to securities transactions. Clients are responsible for placing and executing their own trades, either on their own or with another investment adviser. We provide non-continuous and periodic outside account monitoring.

Tailoring of Advisory Services

We offer individualized investment advice to all of our clients. We usually do not allow clients to impose restrictions on investing in certain securities or types of securities due to the level of difficulty this would entail in managing their account. In the rare instance that we would allow restrictions, it would be limited to our Comprehensive Portfolio Management.

Participation in Wrap Fee Programs

We offer wrap fee programs as further described in Part 2A, Appendix 1 (the "Wrap Fee Program Brochure") of our Brochure. Our wrap fee and non-wrap fee accounts are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc. We do not manage wrap fee accounts in a different fashion than non-wrap fee accounts. As further described in our Wrap Fee Program Brochure, we receive a portion of the wrap fee for our services.

Regulatory Assets under Management

We manage \$781,900,000 on a discretionary basis and \$142,400,000 on a non-discretionary basis as of December 31, 2016. The total amount of assets under our management is \$924,300,000.

Item 5: Fees & Compensation

How We Are Compensated for Our Advisory Services

Comprehensive Portfolio Management:

Our firm's annual fees for investment management services provided under the Comprehensive Portfolio Management Agreement shall be based on the market value of assets under management and shall be calculated at up to one and a half percent (1.50%) of all assets under management. These fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter.

In some cases, we offer direct billing as an option to our clients. However, fees will generally be automatically deducted from your managed account. As part of the automatic fee deduction process, you understand and acknowledge the following:

- a) The qualified custodian sends statements at least quarterly to you showing the market values for each security included in the account and all disbursements from your account including the amount of the advisory and custodial fees paid;
- b) You provide authorization permitting us to be directly paid by these terms;
- c) As required by paragraph (a)(2) of Rule 206(4)-2 under the Investment Advisers Act of 1940, if we send our own statement to our clients, we urge them to compare information provided in their statements with those from the qualified custodian in account opening notices and subsequent statements.

You pay compensation to Independent Managers for services rendered by these firms. This compensation is typically equal to a percentage of the overall investment advisory fee charged by our firm or an agreed upon fixed fee. The advisory fee paid to Independent Managers shall be negotiable in certain circumstances, but shall never exceed the overall amount in their published fee statement.

Portfolio Monitoring:

Our firm's annual fees for investment management services provided under the Portfolio Monitoring Agreement shall be based on the market value of assets under management and shall be calculated at up to one and a half percent (1.50%) of all assets. We will directly bill you for our portfolio monitoring service. Our bill is due and payable within thirty (30) days. These fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter.

Other Types of Fees & Expenses

Non-Wrap fee clients will incur transaction charges for trades executed in their accounts. These transaction fees are separate from our fees and will be disclosed by the firm that the trades are executed through. Also, clients will pay the following separately incurred expenses, which we do not receive any part of: charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses).

If our client chooses to have a mutual fund position, we will manage those securities under our Wrap Fee Program. Wrap fee clients will receive our Form ADV, Part 2A, Appendix 1 (the "Wrap Fee Program Brochure"). Our wrap fee clients will not incur transaction costs for trades. More information about our "Mutual Fund Wrap Fee Program" is disclosed in our separate Wrap Fee Program Brochure.

Termination & Refunds

We charge our advisory fees quarterly in advance. In the event that you wish to terminate our services, we will refund the unearned portion of our advisory fee to you. You need to contact us in writing and state that you wish to terminate our services. Upon receipt of your letter of termination, we will proceed to close out your account and process a pro-rata refund of unearned advisory fees.

Commissionable Securities Sales

We do not sell securities for a commission. In order to sell securities for a commission, we would need to have our associated persons registered with a broker-dealer. We have chosen not to do so.

Item 6: Performance-Based Fees & Side-By-Side Management

We do not charge performance fees to our clients.

Item 7: Types of Clients & Account Requirements

We have the following types of clients:

- Individuals;
- Trusts, Estates or Charitable Organizations;
- Pension and Profit Sharing Plans;
- Corporations, limited liability companies and/or other business types.

Our requirements for opening and maintaining accounts or otherwise engaging us:

- We do not require a minimum account balance for our Comprehensive Portfolio Management service.

Item 8: Methods of Analysis, Investment Strategies & Risk of Loss

Methods of Analysis

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

- **Fundamental Analysis:** We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements.
- **Technical Analysis:** We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement. Technical analysis does not consider the underlying financial condition of a company or market.
- **Charting Analysis:** In this type of technical analysis, we review charts of market and security activity in an attempt to identify when the market or security is moving up or down and to predict when that trend might reverse.
- **Cyclical Analysis:** In this type of technical analysis, we measure the movements of a particular market or security against other markets or securities in an attempt to predict the price movement of the security.

Investment Strategies We Use

We use the following strategies in managing client accounts, provided that such strategies are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

- **Long-Term Purchases:** (Securities Held At Least a Year): When utilizing this strategy, we may purchase securities with the expectation of holding them for a relatively long time (typically held for at least a year). A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell. Typically we employ this sub-strategy when we believe the securities to be well valued; and/or we want exposure to a particular asset class over time, regardless of the current projection for this class.
- **Short-Term Purchases:** When utilizing this strategy, we may purchase securities with the expectation of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase. The risk in this strategy is that the funds invested may decline sharply in value before we make a decision to sell.

- **Trading:** While not our standard practice, we may purchase securities with the expectation of selling them very quickly (within 30 days or less). We would do this in an attempt to take advantage of our predictions of brief price swings. The risk associated with this strategy is that a high volume of trading activity may lead to increased transaction fees, returns are not guaranteed on any transaction and that the market can be volatile.

Additional strategies we utilize include:

- Underlying Fund Investments;
- Co-Investments;
- Direct Investments;
- Purchases of Secondary Partnership Interests.

Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. While the financial markets and value of the securities your portfolio is invested in may increase and your account(s) could enjoy a gain, it is also possible that the financial markets and the value of the securities your portfolio is invested in may decrease and your account(s) could suffer a loss. It is important that you understand the risks associated with investing in the financial markets, that the risks are appropriately diversified in your investments, and that you ask us any questions you may have.

Description of Material, Significant or Unusual Risks

We generally invest clients' cash balances in FDIC insured bank deposit programs or money market funds, FDIC Insured Certificates of Deposit, high-grade commercial paper and/or government backed debt instruments. Some cash will be maintained so that our firm may debit advisory fees for our services related to Comprehensive Portfolio Management as applicable. Ultimately, we try to achieve the highest return on our clients' cash balances through relatively low-risk conservative investments.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to our client's or prospective client's evaluation of our advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities & Affiliations

Lindbrook Capital is a partner of LK Opportunities Fund, L.P. (the "Fund"). While the Fund is still active, it is not open to new investors. The Fund invests in a highly diversified portfolio of private debt-oriented investments, specialty finance opportunities and undervalued assets. Lindbrook Capital along with co-partner Keystone National Group, LLC shall make up the Fund's investment committee, which requires unanimous consent on all investments. Additionally, Lindbrook Capital is part of the investment committee for LK Opportunities Fund II, L.P. (the "Fund II") which is an extension of the strategy, structure and terms of LK Opportunities Fund, L.P.

The conflict of interest inherent in these types of relationships has been removed since partners of the Fund affiliated with Lindbrook Capital will not accept their fund management fee for clients of Lindbrook Capital who become partners in the Fund. Management fees earned by non-affiliated Fund partners will be collected. It should still be noted that clients' interests will be placed above those of our firm and its related persons as well as the Fund, particularly when our clients are recommended to invest in the Fund. Clients are never under any obligation to invest in the Fund.

Item 11: Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

We recognize that the personal investment transactions of members and employees of our firm demand the application of a high Code of Ethics and require that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, we believe that if investment goals are similar for clients and for members and employees of our firm, it is logical and even desirable that there be common ownership of some securities. Therefore, in order to prevent conflicts of interest, we have in place a set of procedures (including a pre-clearing procedure) with respect to transactions effected by our members, officers and employees for their personal accounts.

In order to monitor compliance with our personal trading policy, we have a quarterly securities transaction reporting system for all of our associates. Furthermore, our firm has established a Code of Ethics which applies to all of our associated persons. An investment adviser is considered a fiduciary. As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. We have a fiduciary duty to all clients. Our fiduciary duty is considered the core underlying principle for our Code of Ethics which also includes Insider Trading and Personal Securities Transactions Policies and Procedures.

We require all of our supervised persons to conduct business with the highest level of ethical standards and to comply with all federal and state securities laws at all times. Upon employment or affiliation and at least annually thereafter, all supervised persons will sign an acknowledgement that they have read, understand, and agree to comply with our Code of Ethics. Our firm and supervised persons must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics. However, if a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided promptly upon request.

Compliance with Department of Labor Fiduciary Rule

Our firm provides investment advice to assets affected by the Department of Labor ("DOL") Fiduciary Rule for a level fee. As such, we abide by the Impartial Conduct Standards as defined by the DOL. To comply with these standards, our firm and our advisors give advice that is in our clients' best interest, charge no more than reasonable compensation (within the meaning of ERISA Section 408(b)(2) and Internal Revenue Code Section 4975(d)(2)), and make no misleading statements about investment transactions, compensation, conflicts of interest, and any other matters related to investment decisions.

As a level-fee fiduciary, we maintain a non-variable compensation structure that is provided on the basis of a fixed percentage of the value of assets or a set fee that does not vary with the particular investment recommended, as opposed to a commission or other transaction based fee.

Item 12: Brokerage Practices

Selecting a Brokerage Firm

We seek to recommend a custodian/broker who will hold your assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. We consider a wide range of factors, including, among others, the following:

- Timeliness of execution
- Timeliness and accuracy of trade confirmations
- Research services provided
- Ability to provide investment ideas
- Execution facilitation services provided
- Record keeping services provided
- Custody services provided
- Frequency and correction of trading errors
- Ability to access a variety of market venues
- Expertise as it relates to specific securities
- Financial condition
- Business reputation
- Quality of services

With this in consideration, our firm has arrangements with Fidelity Brokerage Services LLC (together with all affiliates, “Fidelity”) and Charles Schwab & Co., Inc. (“Schwab”) (collectively “Our Custodians”), qualified custodians from whom our firm is independently owned and operated. Our Custodians offer services to independent investment advisers which includes custody of securities, trade execution, clearance and settlement of transactions. Our Custodians enable us to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges. Our Custodians do not charge client accounts separately for custodial services. Client accounts will be charged transaction fees, commissions or other fees on trades that are executed or settle into the client’s custodial account. Transaction fees are negotiated with our Custodians and are generally discounted from customary retail commission rates. This benefits clients because the overall fee paid is often lower than would be otherwise.

Our Custodians may make certain research and brokerage services available at no additional cost to our firm. Research products and services provided by our Custodians may include: research reports on recommendations or other information about particular companies or industries; economic surveys, data and analyses; financial publications; portfolio evaluation services; financial database software and services; computerized news and pricing services; quotation equipment for use in running software used in investment decision-making; and other products or services that provide lawful and appropriate assistance by our Custodians to our firm in the performance of our investment decision-making responsibilities. The aforementioned research and brokerage services qualify for the safe harbor exemption defined in Section 28(e) of the Securities Exchange Act of 1934.

The aforementioned research and brokerage services are used by our firm to manage accounts. Without this arrangement, our firm might be compelled to purchase the same or similar services at our own expense.

As part of our fiduciary duty to our clients, our firm will endeavor at all times to put the interests of our clients first. Clients should be aware, however, that the receipt of economic benefits by our firm or our related persons creates a potential conflict of interest and may indirectly influence our firm’s choice of our Custodians as a custodial recommendation. Our firm examined this potential conflict of interest when our firm chose to recommend our Custodians and have determined that the recommendation is in the best interest of our firm’s clients and satisfies our fiduciary obligations, including our duty to seek best execution.

Our non-wrap fee clients may pay a transaction fee or commission to our Custodians that is higher than another qualified broker dealer might charge to effect the same transaction where our firm determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided to the client as a whole.

In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Although our firm will seek competitive rates, to the benefit of all clients, our firm may not necessarily obtain the lowest possible commission rates for specific client account transactions.

Soft Dollars

Our firm does not accept products or services that do not qualify for Safe Harbor outlined in Section 28(e) of the Securities Exchange Act of 1934, such as those services that do not aid in investment decision-making or trade execution.

Client Brokerage Commissions

We do not acquire client brokerage commissions (or markups or markdowns).

Procedures to Direct Client Transactions in Return for Soft Dollars

We do not direct client transactions to a particular broker-dealer in return for soft dollar benefits.

Brokerage for Client Referrals

Our firm does not receive brokerage for client referrals.

Directed Brokerage

Neither we nor any of our firm's related persons have discretionary authority in making the determination of the brokers with whom orders for the purchase or sale of securities are placed for execution, and the commission rates at which such securities transactions are effected.

We routinely recommend that a client directs us to execute through a specified broker-dealer. Our firm recommends the use of Fidelity Brokerage Services LLC (together with all affiliates, "Fidelity") and Charles Schwab & Co., Inc. ("Schwab") through which Fidelity and Schwab provide our firm with their platform services.

Permissibility of Client-Directed Brokerage

We allow clients when possible to direct brokerage outside our recommendation. We may be unable to achieve the most favorable execution of client transactions. Client directed brokerage may cost clients more money. For example, in a directed brokerage account, you may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or you may receive less favorable prices.

Special Considerations for ERISA Clients

A retirement or ERISA plan client may direct all or part of portfolio transactions for its account through a specific broker or dealer in order to obtain goods or services on behalf of the plan. Such direction is permitted provided that the goods and services provided are reasonable expenses of the plan incurred in the ordinary course of its business for which it otherwise would be obligated and empowered to pay. ERISA prohibits directed brokerage arrangements when the goods or services purchased are not for the exclusive benefit of the plan. Consequently, we will request that plan sponsors who direct plan brokerage provide us with a letter documenting that this arrangement will be for the exclusive benefit of the plan.

Aggregation of Purchase or Sale

We perform investment management services for various clients. There are occasions on which portfolio transactions may be executed as part of concurrent authorizations to purchase or sell the same security for numerous accounts served by our firm, which involve accounts with similar investment objectives. Although such concurrent authorizations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they are affected only when we believe that to do so will be in the best interest of the effected accounts. When such concurrent authorizations occur, the objective is to allocate the executions in a manner which is deemed equitable to the accounts involved. In any given situation, we attempt to allocate trade executions in the most equitable manner possible, taking into consideration client objectives, current asset allocation and availability of funds using price averaging, proration and consistently non-arbitrary methods of allocation.

Item 13: Review of Accounts or Financial Plans

We review accounts on at least a quarterly basis for our clients subscribing to our Comprehensive Portfolio Management and Portfolio Monitoring services. The nature of these reviews is to learn whether clients' accounts are in line with their investment objectives, appropriately positioned based on market conditions, and investment policies, if applicable. Only our Financial Advisors or Portfolio Managers will conduct reviews.

We may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc. We do not provide written reports to clients, unless asked to do so. Verbal reports to clients take place on at least an annual basis when we meet with clients or when we contact them.

Item 14: Client Referrals & Other Compensation

Referral Fees

Our firm may pay referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm in accordance with Rule 206 (4)-3 of the Investment Advisers Act of 1940. Such referral fee represents a share of our investment advisory fee charged to our clients. This arrangement will not result in higher costs to the referred client. In this regard, our firm maintains Solicitors Agreements in compliance with Rule 206 (4)-3 of the Investment Advisers Act of 1940 and applicable state and federal laws. All clients referred by

Solicitors to our firm will be given full written disclosure describing the terms and fee arrangements between our firm and Solicitor(s). In cases where state law requires licensure of solicitors, our firm ensures that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our firm. If our firm is paying solicitation fees to another registered investment adviser, the licensure of individuals is the other firm's responsibility.

Alternatively, our firm will be paid a referral fee for non-Lindbrook clients that we refer to invest in the LK Opportunities Fund II.

Other Compensation

We receive an economic benefit from Fidelity Brokerage Services LLC (together with all affiliates, "Fidelity") and Charles Schwab & Co., Inc. ("Schwab") in the form of the support products and services it makes available to us and other independent investment advisors that have their clients maintain accounts with them. These products and services include certain research and brokerage services, including research services obtained by the Fidelity and Schwab directly from independent research companies, as selected by our firm (within specific parameters).

Research products and services provided by Fidelity and Schwab to our firm may include research reports on recommendations or other information about, particular companies or industries; economic surveys, data and analyses; financial publications; portfolio evaluation services; financial database software and services; computerized news and pricing services; quotation equipment for use in running software used in investment decision-making; and other products or services that provide lawful and appropriate assistance by the custodians to our firm in the performance of our investment decision-making responsibilities. The aforementioned research and brokerage services are used by our firm to manage accounts for which we have investment discretion. Without this arrangement, our firm might be compelled to purchase the same or similar services at our own expense.

As a result of receiving the aforementioned research and brokerage services, we may have an incentive to continue to use or expand the use of Fidelity and Schwab's services. Our firm examined this potential conflict of interest when we chose to enter into the relationship with Schwab and we have determined that the relationship is in the best interest of our firm's clients and satisfies our client obligations, including our duty to seek best execution. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although we will seek competitive rates, to the benefit of all clients, we may not necessarily obtain the lowest possible commission rates for specific client account transactions.

Item 15: Custody

All of our clients receive at least quarterly account statements directly from their custodians. Upon opening an account with a qualified custodian on a client's behalf, we promptly notify the client in writing of the qualified custodian's contact information. If we decide to also send account statements to clients, such notice and account statements include a legend that recommends that the client compare the account statements received from the qualified custodian with those received from our firm.

We encourage our clients to raise any questions with us about the custody, safety or security of their assets. The custodians we do business with will send you independent account statements listing your account balance(s), transaction history and any fee debits or other fees taken out of your account.

Item 16: Investment Discretion

We accept discretionary authority to manage client accounts. Our clients need to sign a discretionary investment advisory agreement with our firm for the management such accounts. This type of agreement only applies to our Comprehensive Portfolio Management clients. We do not take or exercise discretion with respect to our other clients.

Item 17: Voting Client Securities

SEC Rule 206(4)-6 requires investment advisers who have voting authority with respect to securities held in their clients' accounts to monitor corporate actions and vote proxies in their clients' interests. In all cases, Lindbrook Capital will abstain or vote in accordance with the board's recommendation.

We will determine how to vote proxies based on our reasonable judgment of the vote most likely to produce favorable financial results for the client. Proxy votes generally will be cast in favor of proposals that maintain or strengthen the shared interests of shareholders and management, increase shareholder value, maintain or increase shareholder influence over the issuer's board of directors and management, and maintain or increase the rights of shareholders. Generally, proxy votes will be cast against proposals having the opposite effect. However, we will consider both sides of each proxy issue. Unless we receive specific instructions from the client, we will not base votes on social considerations. Conflicts of interest between the client and our firm, or a principal of our firm, regarding certain proxy issues could arise. If we determine that a material conflict of interest exists, we will take the necessary steps to resolve the conflict before voting the proxies. For example, we may disclose the existence and nature of the conflict to the client, and seek direction from you as to how to vote on a particular issue; we may abstain from voting, particularly if there are conflicting interests for you (for example, where your account(s) hold different securities in a competitive merger situation); or, we will take other necessary steps designed to ensure that a decision to vote is in your best interest and was not the product of the conflict.

We will maintain files relating to our proxy voting procedures. Records will be maintained and preserved for five years from the end of the fiscal year during which the last entry was made on a record, with records for the last two years kept on our premises. The aforementioned shall also include a copy of each written client request for information on how we voted such client's proxies, and a copy of any written response to any client request for information on how we voted their proxies.

Clients may request a copy of our written policies and procedures regarding proxy voting and/or information on how particular proxies were voted by contacting our Chief Compliance Officer, Tyler Dritz by phone at (424) 208-8000 or email at tyler@lindbrookcapital.com

Item 18: Financial Information

We do not require nor do we solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore we have not included a balance sheet for our most recent fiscal year. Furthermore, Lindbrook Capital LLC has never been the subject of any bankruptcy petition.
