RMB Retirement Plan Solutions is compensated for its services on a fixed fee basis or on a percentage of assets of the employee benefit plan. Fees are payable in advance at the beginning of each quarter. RMB Retirement Plan Solutions does not generally charge any performance-based fees. Fees are dependent on the scope and depth of the services provided. The fee may be prorated to cover the period from either: (1) the time of execution of the advisory agreement, or (2) the effective date of the advisory agreement through the expected completion of the project or the time period covered by the advisory agreement. Clients may pay fees directly to RMB Retirement Plan Solutions or instruct their retirement plan service providers to deduct the fees from the retirement plan assets or from excess revenue generated by the retirement plan's investments.

PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

RMB West does not charge any performance-based fees.

TYPES OF CLIENTS

RMB West provides consulting and advisory services to employer organizations which may be for-profit or not-for-profit entities. The consulting and advisory services relate to the client's defined benefit pension plans, 401(k), 403(b), and 457 plans, profit-sharing plans, and Taft-Hartley plans. Such clients are generally considered to be institutional clients and are named fiduciaries of the retirement plans they sponsor.

METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

A. METHOD OF ANALYSIS: RMB West's method of analysis follows a prudent and documented process to help ensure that a Retirement Plan Sponsor meets the requirements of the "Prudent Man Rule" (as described in ERISA §404). Investment research is based on interviews with investment managers and plan service providers and includes subscriptions access to third party sources of information. Analysis includes searching databases of investment analytics and research information covering over 300,000 investment products and securities through subscription data bases. Such data bases are also used in the ongoing performance monitoring of investment alternatives for plan sponsors. While RMB West has confidence in the veracity of the information contained the data bases, there is the risk that such data bases contain inaccurate information which could lead to misconfigured recommendations.

B. INVESTMENT STRATEGIES: The investment strategies utilized are those of the investment managers recommended to be appropriate, based on the client's objectives, for the management of the Retirement Plan's assets. Open-end funds and/or investment managers are recommended to allow reasonable diversification among asset classes and investment styles.

RMB West does not imply, represent, or warrant that its services or its methods of analysis can or will predict future results, identify market tops or bottoms, or insulate clients and their plan participants from losses due to major market corrections, crashes, or detect negligence on the part of the manager of an open-end fund or separately managed account.

RMB West, from time to time, may use the services of an affiliate, RMB Capital, to assist in RMB West's due diligence process. No guarantees are provided that a client's goals or objectives or those of its plan participants can or will be achieved.

C. **RISK OF LOSS:** Investing in securities involves risk of loss that clients must assess and must be prepared to bear.

Investment Selection

The success of client positions depends in large part on RMB West's ability to accurately assess the fundamental value of those positions and to make recommendations to clients. No assurance can be given that RMB West will be in a position to assess the nature and magnitude of all material factors having a bearing on the value of client positions, or that RMB West will accurately assess the impact of all factors of which it is aware.

Client Goals

There is no guarantee that a client's goals or objectives or those of its plan participant can or will be achieved.

General Risks

Investing in securities involves risk of loss that clients must assess and must be prepared to bear.

Reliance on Corporate Management and Financial Reporting

Many of the investment strategies recommended to a client rely on the financial information made available by the issuers in which it invests. The Adviser may not have the ability to independently verify the financial information disseminated by the issuers in which an account invests and will consequently be dependent upon the integrity of both the management of these issuers and the financial reporting process in general. Recent events have demonstrated the material losses that investors such as an account can incur as a result of corporate mismanagement, fraud and accounting irregularities.

THERE CAN BE NO ASSURANCE THAT THE METHODS DESCRIBED ABOVE WILL BE SUCCESSFUL OR THAT CLIENTS WILL NOT SUFFER LOSSES. INVESTING IN SECURITIES INVOLVES RISK OF LOSS THAT CLIENTS SHOULD BE PREPARED TO BEAR.

DISCIPLINARY INFORMATION

RMB West is required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of it or the integrity of its management. RMB West has no information applicable to this section.

OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

RMB West is affiliated with RMB Capital. RMB Retirement Solutions is a division of RMB West which is affiliated with RMB Capital. The Managing Director-Western Region, Donald Bechter and all of the employees working for RMB West are employees of RMB Capital.

BROKERAGE PRACTICES

RMB West assists its clients with the selection of retirement plan services providers which may also be registered broker-dealers. REVIEW OF ACCOUNTS

RMB West regularly monitors investments recommended to clients and provides periodic reports each year summarizing the client's retirement plan design, investment performance, and advisory fees. RMB West meets with clients on an annual, semi-annual or, quarterly basis, depending on the client's preference, to review the recent period's data, recommended changes and discuss possible changes in the client's investment objectives and needs. Clients must inform RMB West of any interim changes that would indicate a need to change investment recommendations.

CLIENT REFERRALS AND OTHER COMPENSATION

RMB West may refer clients to its affiliate, RMB Capital. Currently, RMB West does not receive additional compensation for such referrals.

CUSTODY

RMB West does not have custody or any other form of access to clients' assets or the assets of the ERISA Plans sponsored by clients. Such assets are held by the custodian of the Plan for the exclusive benefit of the Plan participants.

INVESTMENT DISCRETION

RMB West does not have discretionary authority for the selection of any securities or other investments for client accounts. When recommending investments, RMB West observes the investment policies, limitations and restrictions of the clients or the Plans it advises. The selection of Plan investments is generally subject to the approval of Plan Trustees. For most retirement savings plans, the Plan participants direct the investment of their funds. The Plan's investment guidelines and restrictions must be provided to RMB West in writing.

VOTING CLIENT SECURITIES

RMB West will not provide proxy voting services on behalf of clients, unless required to do so by law (interpretations of ERISA may require investment managers to vote proxies as part of their duties to the Plan). RMB West may provide general consulting services to help the client understand its responsibilities relating to proxy voting. All proxy notices are sent directly to the client.
