## **Item 4    Advisory Business**

Chartwell Consulting (USA) LLC is a SEC-registered non-discretionary investment adviser with its principal place of business located in New Jersey. Chartwell Consulting (USA) LLC began conducting business in 1994.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Nataalka O. Bukalo,
- Richard D. Shaffer,

Chartwell Consulting (USA) LLC offers the following advisory services to our clients:

### **ASSET CONSULTING SERVICES**

The primary clients for these services will be pension, profit sharing and 401(k) plans, endowments and foundations. We offer these services, where appropriate, to individuals and trusts, estates and charitable organizations. Asset Consulting Services are comprised of the following distinct services. Clients may choose to use any or all of these services.

#### *Investment Policy Statement Preparation (hereinafter referred to as "IPS"):*

We will meet with the client to determine an appropriate investment strategy that reflects the plan/fund sponsor's stated investment objectives for management of the overall plan. Our firm then prepares a written IPS detailing those needs and goals, including an encompassing policy under which these goals are to be achieved. The IPS also lists the criteria for: selection of investment vehicles, strategic asset allocation and rebalancing criteria, procedures and timing interval for monitoring investment performance and any pertinent investment restrictions.

#### *Selection of Investment Vehicles:*

We assist plan/fund sponsors in constructing appropriate strategic asset allocation targets. We will then review various investment funds (active and passive), individual manager strategies and/or fund of funds to determine which investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the IPS.

### *Monitoring of Investment Performance:*

We monitor client investments continually, based on the procedures and timing intervals delineated in the Investment Policy Statement. Although our firm is not involved in any way in the purchase or sale of these investments, we supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

### *Employee Communications:*

For pension, profit sharing and 401(k) plan clients with individual plan participants exercising control over assets in their own account ("self-directed plans"), we also provide educational support and investment workshops designed for the plan participants when the plan sponsor engages our firm to provide these services. The nature of the topics to be covered will be determined by us and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

### **METHODS OF ANALYSIS**

We use the following methods of analysis in formulating our consulting advice:

***Asset Allocation.*** We attempt to identify an appropriate strategic allocation of asset class exposure; equity, fixed income, real assets and cash suitable to the client's investment goals and risk tolerance.

A risk of strategic asset allocation is that the ratio of asset classes will change over time due to stock and market movements, changes in interest rates and, if not rebalanced will no longer be appropriate for the client's goals.

***Risks for all forms of analysis.*** Our analysis methods rely on the assumption that the long-term asset class return assumptions and inflation forecasts that are available from public sources, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.
