The client always maintains asset control. ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC places trades for clients under a limited power of attorney.

Principal Owners

Douglas Mollin is a 33.34% stockholder. Michael Cascio is a 33.33% stockholder. Steven Ramusevic is a 33.33% stockholder.

Types of Advisory Services

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC provides investment supervisory services, also known as asset management services, and furnishes investment advice through consultations.

On more than an occasional basis, ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and estate planning.

As of 12/31/15, ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC manages approximately \$183,978,000 in assets for approximately 103 clients. All of this is managed on a discretionary basis.

Tailored Relationships

The goals and objectives for each client are outlined for each client. Investment policy statements are created that reflect the stated goals and objective.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The fee range is negotiable on a case by case basis.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-on implementation work is billed separately as is negotiable on a case by case basis.

Advisory Service Agreement

Most clients choose to have ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets. The basic rate is 1.00%, although these rates are negotiable on a case by case basis. These more typically range from 0.30% to 0.80% per year. Current client relationships may exist where the fees are higher or lower than the fee schedule.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client may terminate an Agreement by written notice at any time. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Retainer Agreement

In some circumstances, a Retainer Agreement is executed in lieu of an Advisory Service Agreement when it is more appropriate to work on a fixed-fee basis. The annual fee for a Retainer Agreement is negotiable on a case by case basis.

Investment Management Agreement

An Investment Management Agreement may be executed when financial planning is not provided as part of the relationship. The annual fees for an Investment Management Agreement are negotiable on a case by case basis.

Hourly Planning Engagements

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is negotiable on a case by case basis.

Asset Management

Assets are invested primarily in no-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC does not receive any compensation, in any form, from fund companies.

Initial public offerings (IPOs) are not available through ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC will refund any unearned portion of the advance payment.

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC bases its fees on a percentage of assets under management, hourly charges and fixed retainer fees.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are negotiable on a case by case basis.

Fee Billing

Investment management fees are billed quarterly, in arrears, meaning that we invoice you after the three-month billing period has ended. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC, in its sole discretion, may charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC reserves the right to stop work on any account that is more than 180 days overdue. In addition, ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 60 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

The main sources of information include financial newspapers and magazines and research materials prepared by others. Other sources of information that ENRIGHT, MOLLIN, CASCIO & RAMUSEVIC may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, Charles Schwab & Company's research, Fidelity research and Advisor Intelligence.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing actively managed funds. Portfolios are globally diversified to help manage the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement that documents their objectives and their desired investment strategy.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of

return (i.e. interest rate). This primarily relates to fixed income securities.

- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
