(Item 1)

Auour Advisory

162 Main Street, Suite 2
Wenham, MA 01984

978-338-4830

www.auour.com

March 1, 2016

This brochure provides information about the qualifications and business practices of Auour Advisory. If you have any questions about the contents of this brochure, please contact the Compliance Department at 978-338-4830. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about the Adviser is available on the SEC's website at www.adviserinfo.sec.gov

Form ADV 2 is divided into two parts: Part 2A (the "Disclosure Brochure") and Part 2B (the "Brochure Supplement"). The Disclosure Brochure provides information about a variety of topics relating to an Advisor's business practices and conflicts of interest. The Brochure Supplement provides information about the advisory personnel of Auour Advisory and is available upon request. Additional information about Auour Advisory is available on the SEC's website at www.adviserinfo.sec.gov.

ITEM: 2 MATERIAL CHANGES

ANNUAL UPDATE

The purpose of Item 2 is to discuss specific, material changes that have been made relative to the prior Disclosure Brochure and to provide Clients with a summary of such changes.

MATERIAL CHANGES SINCE THE LAST UPDATE

Since the last distribution of this Disclosure Brochure, the firm has had the following changes:

1. (At Item 4 – Advisory Services) Auour has updated the assets under management with amounts as of December 31, 2015.
2. (At Item 4 - Third party Solicited Managed Separate Accounts) The section has been amended including the following particular disclosure: Clients are advised that fees charged by the Solicitor are in addition to the management fees charged by Auour. Therefore, clients in Third party Solicited Managed Separate Accounts pay higher fees than clients in Directly Managed Separate Accounts.
3. (At Item 5 – Written Agreement) Auour has amended the disclosure to include: It is noted that Auour will not assign the advisory agreement without the client's consent.
4. (At Item 7 – Account Minimums) Auour has not changed its policy regarding minimum account size (there is none) but it has added disclosure of its minimum account fee = \$400 per year.
5. (At Item 10 – Financial Industry Affiliations) Auour and its employees have no financial industry affiliations.

FULL BROCHURE AVAILABLE

Whenever you would like to receive a complete copy of our Firm Brochure, please contact us by telephone at: (978) 338-4830 or request by sending an email to info@auour.com.

ITEM 4: ADVISORY BUSINESS

Being registered does not mean Auour is endorsed by any regulatory authority or imply any level of skill or training. The Adviser is headquartered in Wenham, MA. Auour's services involve portfolio management and investment advisory services.

ASSETS UNDER MANAGEMENT

Total assets under management ("AUM") as of the December 31, 2015:

Non-Discretionary	\$10,865,432
Discretionary	\$64,978.987
Total	\$75,844,419

PRINCIPAL OWNERS

Auour Advisory, founded in 2013 as a Massachusetts limited liability company, is owned by its founding principals, Joseph Hosler, Robert Kuftinec, and Kenneth Doerr through direct ownership. Mr. Hosler and Mr. Kuftinec each own 40% of the firm. Mr. Doerr owns 20%.

FIRM DESCRIPTION

Auour Advisory uses proprietary asset allocation investment processes and models to help guide investment decisions in an attempt to manage portfolio risk to best protect and grow clients' future purchasing power. Client assets are generally invested using a passive exchange traded fund ("ETF") strategy but may also hold stocks, bonds, mutual funds, and other types of securities.

The firm's investment strategies are offered as described below.

TYPES OF SERVICES

Directly Managed Separate Accounts

Auour provides customized investment management services on a discretionary basis to individuals, family offices, family & charitable trusts, and high net worth clients through our investment advisor representatives ("IAR"). After discussions around risk tolerance, investment time horizon, asset allocation and income requirements, among other things, Auour through our IARs will discuss investment options appropriate and suitable to the client based on the client's investment needs.

Account supervision is guided by the stated objectives of the client (i.e., capital appreciation, growth, income etc.), and all managed accounts will be maintained with an independent, qualified custodian. Clients can impose reasonable restrictions on our management of their accounts as long as the investment restrictions fit within our investment strategies. For example, we have structure custom portfolios to accommodate some clients who have asked us not to sell certain securities due to a particularly low tax basis. Clients who impose these types of investment restrictions should be aware that the performance of their accounts may differ from that of the model investment strategies.

Auour accounts are managed on a discretionary or non-discretionary basis as indicated on the Auour Investment Advisory Agreement.

Third-Party Solicited Managed Separate Accounts

The Firm also provides discretionary investment advisory services to separate account clients through independent, un-affiliated, third-party solicitors (“Solicitors”), for example, broker-dealers and unaffiliated registered investment advisers. Third-party solicited managed separate account clients select an investment strategy after consultation with the Solicitor.

In opening an account at Auour (“indirectly managed separate account”), clients complete an Auour Investment Advisory Agreement between the Client and Auour, a separate written solicitor disclosure statement, along with an application for the selected Qualified Custodian. The Solicitors collect the necessary information including, but not limited to, investment goals, income requirements, time horizon and risk tolerance. The Solicitor assists the client in setting appropriate investment objectives and goals. The information provided by the client to the Solicitor is shared with Auour for purposes of better understanding the client’s objectives and risk tolerance. The Solicitor and client are responsible for providing updates to Auour as and when applicable.

Solicitors must provide a copy of the Auour’s Brochure and a separate Solicitor’s disclosure statement regarding the relationship between the Solicitor and Auour to the prospective client at the time of the solicitation or referral. The prospective client will be required to acknowledge the arrangement, including the fees charged by the parties, in writing prior to acceptance of the account for advisory services.

Clients are advised that fees charged by the Solicitor are in addition to the management fees charged by Auour. Therefore, clients in Third party Solicited Managed Separate Accounts pay higher fees than clients in Directly Managed Separate Accounts.

ITEM 5: FEES AND COMPENSATION

Auour receives fees for its advisory services based on assets under management. All advisory fees are subject to negotiation. For directly managed separate accounts, some assets in a managed account may not be included in the calculation of the client’s advisory fee if those assets are deemed to be non-discretionary investments. In general, the fee charged by Auour is established in the client’s written agreement with Auour. Auour may bill its fees on a monthly or quarterly basis depending on the client’s preference. Clients pay fees in arrears as specified in the advisory agreement.

For Third Party Solicited Managed Separate Accounts, Auour charges its portion of the advisory fee and in addition charges a fee that is paid to the Solicitor. As such, the costs associated with a program are more than costs associated with a traditional brokerage account arrangement or Auour's Direct Managed Separate Accounts. In general, the client is paying for ongoing investment advice and portfolio management from the Solicitor and Auour. The fee paid to the Solicitor is likely more or less than what the Solicitor would receive if the client participated in another program. As a result, the Solicitor has a financial incentive to recommend Auour's program or service over other programs or services.

The Qualified Custodian generally deducts advisory fees from the client account upon instruction from Auour. The Qualified Custodian will send statements directly to the client reflecting the deduction of these fees. Clients are encouraged to contact Auour, or the Custodian, with any questions or concerns related to the fees.

In addition to the investment advisory fees and transaction charges, accounts may also incur certain charges imposed by third parties in connection with investments made through the program. These may include, but are not limited to, the following: mutual fund or money market 12b-1 fees, mutual fund, money market or ETF management fees and administrative expenses, mutual fund transaction fees, other transaction charges and service fees, IRA and qualified plan fees, processing and handling fees or other charges on a fully disclosed basis. Further information regarding charges and fees assessed by a mutual fund are available in the appropriate prospectus, which is delivered to the client by the Custodian under a contractual arrangement with Auour.

Mutual funds and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees and commissions are exclusive of and in addition to Auour's fee. Auour shall not receive any portion of these commissions, fees, and costs. Clients may generally avoid additional fees by purchasing funds directly from a fund family and not receiving investment advice.

From time to time, Auour will blend models in a client account to best achieve the client's objectives. Blended accounts may cost the client more or less than investing in one model only, or by purchasing the services separately. Factors that bear upon the cost of the account in relation to the cost of the same services purchased separately include: the type and size of the account, the historical and/or expected size or number of trades for the account, and the number and range of supplementary advisory and client related services provided to the account.

FEE SCHEDULE

Auour Advisory

Adviser, for Directly Managed Separate Accounts, Auour charges a fee (the "Fee") for investment supervision and management of the Account(s) based on the current market value assets in the Account(s) (including cash and equivalent items) according to the following schedule:

<u>Assets Under Management</u>	<u>Annual Fee</u>
On the first \$1 Million	1.00%

On the next \$4 Million	0.75%
Above \$5 Million	0.50%

Fees are payable in arrears in quarterly installments with each installment based on the market value of the Account(s) as of the end of the calendar quarter, or in arrears in monthly installments based on the market value of the Account(s) as of the end of the calendar month. Payment will be due to Adviser within 30 days after receipt of billing by Client. Interest of 1.0% per month will be charged on unpaid invoices after 30 days. As noted above, fees charged by Solicitors in Third Party Solicited Managed Accounts are in addition to the fees charged by Auour, resulting in higher total fees. All fees are negotiable and agreed upon among the Solicitor, Auour and Client and are disclosed in the Investment Advisory Agreement, and when applicable the Solicitor Disclosure Statement.

If this Agreement starts at a date other than the beginning of a calendar quarter (or month for clients paying monthly), the Fee for that partial quarter/month shall be prorated accordingly. In the event of any termination of this Agreement, the Adviser's Fees will be calculated on a pro rata basis through the date of termination.

The Adviser shall compute the market value of assets in the Account(s) in accordance with the Valuation of Securities section of its Policies and Procedures manual.

The Client will be responsible for all other expenses, such as broker commissions, fund loads, fund management fees, and custody fees. Those fees are separate, apart and in addition to the fees to Auour.

INVESTMENT ADVISORY AGREEMENT

All clients are required to sign an advisory agreement with Auour. The client or Auour may terminate or assign the advisory relationship in accordance with the provisions of those agreements. It is noted that Auour will not assign the advisory agreement without the client's consent. Additionally, a client may terminate its advisory relationship with Auour without being assessed any penalty within five (5) business days of its signing an advisory agreement. Auour encourages clients to carefully review the terms set forth in the agreement prior to signing the agreement.

ITEM 6: PERFORMANCE FEES AND SIDE-BY-SIDE MANAGEMENT

Auour does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client). Auour does not engage in side-by-side management of client accounts.

ITEM 7: TYPES OF CLIENTS

Auour Advisory primarily provides investment advisory services to individuals, high net worth individuals, trusts, estates, corporations and charitable organizations. Auour does not impose a minimum

account size in order for clients to open or maintain an account, however Auour does charge a minimum annual fee of \$400.

ITEM 8: METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Auour's investment strategy combines global strategic asset allocations with disciplined tactical adjustments driven through our proprietary multi-factor model that assesses the risk appetite of the global markets. Auour currently offers investors five globally diversified portfolios constructed using proprietary asset allocation strategies.

Shifts, both strategic and tactical, to the strategies will be based on our quantitative model ("Auour Regime Model", or "ARM") which analyzes macroeconomic factors such as geographically-based return diffusions, style-based return diffusions, credit market conditions, pricing momentum, market valuations, and market volatility. We will also consider political events and country specific dynamics in our investment decision-making process.

Auour believes in and employs several investment biases to portfolio construction. These include:

- (a) passive management generally outperforms active management
- (b) investment returns are primarily driven by asset allocation versus stock selection,
- (c) avoiding major market corrections drives investment returns, and
- (d) asset class returns revert to the mean over time.

These beliefs influence the design of the Auour investment processes.

The Auour Investment Committee regularly (but no less frequently than weekly) monitors the strategic and tactical allocations for each strategy. The monitoring includes reviewing the asset class, sector, and geographical exposures of each strategy while evaluating the liquidity and construction of the underlying securities. We rebalance when market conditions dictate to our asset class exposure while also adjusting this exposure based on our model's risk regime calculation.

Auour prefers to implement our globally diversified asset allocation model using Exchange Traded Funds ("ETFs"), or mutual funds when ETFs are not available for any reason. ETFs provide liquidity, transparency, tax efficiency, and diversification in a low cost investment vehicle. The Auour Investment Committee routinely evaluates each ETF investment based on liquidity, capitalization, transparency, relative cost, investment objective, tax implications, tracking error and premium/discount. The strategy may include the limited use of Exchange Traded Notes ("ETNs") and other investment vehicles that assist in producing the desired outcome. Our investment process does not anticipate the use of margin, leverage, or derivatives but does use 2x "ultra" ETFs within our most aggressive strategy. The strategy does not include direct shorting of securities, but may employ selective use of inverse ETFs.

Auour manages five distinct investment strategies. Each is managed with an objective to reduce risk through diversification and avoidance of material losses in the financial markets.

Instinct Global Fixed Income strategy provides exposure to global income and liquid alternative investments. The primary investment objective is current dividend and interest income, although growth of income and capital is considered.

Instinct Global High Yield strategy provides exposure to global equities, global income, and liquid alternative investments. The primary investment objective is current dividend and interest income, although growth of income and capital is considered.

Instinct Global Balanced strategy provides exposure to global equities, global income, and liquid alternative investments. The primary investment objective is a combination of capital growth with current income.

Instinct Global Equity strategy provides broad exposure to a combination of domestic/international, value/growth, small/large, sectors/country and liquid alternative investments. The primary investment objective is long term capital growth, with current income a secondary consideration.

Instinct Global Equity Levered strategy provides broad exposure to a combination of domestic/international, value/growth, small/large, sectors/country and liquid alternative investments and “ultra” ETF’s to provide leverage to market returns. The primary investment objective is long term capital growth. Current income is not consideration in this strategy.

Each Auour portfolio typically owns between 5 and 20 separate securities, and no individual security will represent >50% of total portfolio assets except within extreme market conditions.

Investing in Auour portfolios involves risks, including the potential for loss of capital. Auour’s investment strategies are focused on investments in exchange traded funds (ETFs) that hold domestic and international equities, fixed income, real estate, commodities, precious metals, currencies, derivatives, cash and other instruments. The returns generated by these ETFs are subject to numerous risks, including economic, social and political uncertainty, market volatility, foreign currency exchange rate volatility, and tracking error versus an underlying index. ETFs that hold fixed income securities are also subject to default risk and interest rate risk. There can be no assurance that the investment objectives of any portfolio managed by Auour will be achieved.

ITEM 9: DISCIPLINARY DISCLOSURES

Auour is required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of Auour or the integrity of Auour’s management. Auour has no information applicable to this item. Although Auour is required to and will make separate disclosure in the event disciplinary disclosure information changes, clients are encouraged to review publicly available information about the entity and the individuals and www.adviserinfo.sec.gov.

ITEM 10: OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Auour and its employees have no other financial industry affiliations. Aside from the Solicitor arrangements disclosed earlier in this brochure, Auour and its employees do not have any relationships or arrangements with other financial services companies that pose material conflicts of interest.

ITEM 11: CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Auour places significant value on ethical conduct for all advisory business. As such, Auour has adopted a Code of Ethics (“Code”) for the purpose of establishing and implementing ethical obligations and to provide rules for review of the personal securities transactions of its supervised persons. Auour owes a duty of loyalty, fairness and good faith towards its clients, and it is obligated to adhere not only to the specific provisions of the Code but to the general principles that guide the Code.

The Code covers a range of topics that may include: general ethical principles, reporting personal securities trading, exceptions to reporting securities trading, reportable securities, initial public offerings and private placements, reporting ethical violations, distribution of the Code, review and enforcement processes, amendments to Form ADV and supervisory procedures. The Code also includes Auour’s policy that prohibits the use of material non-public information. Any principal or associate that does not observe the provisions of the Code may be subject to discipline.

An Adviser, as a fiduciary to its clients, is responsible for providing professional, continuous, and unbiased investment advice. Fiduciaries owe their clients a duty of honesty, good faith, and fair dealing.

In order to ensure that our employees strictly adhere to the highest of conduct and integrity in conducting business on behalf of our clients, we require that each year, every Auour associate must certify that he or she: (1) has read and understands the Code, (2) recognizes that the Code applies to him or her, and (3) has complied with all of the rules and requirements of the Code.

Auour will provide a copy of its Code of Ethics at no charge to any client or prospective client upon request.

PARTICIPATION OR OTHER INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

On occasion, Auour may employ a security within its strategies in which the firm or an employee of the firm own shares or have some other financial interest. Although rare, when this occurs, Auour’s procedures require the firm to determine that the investment is suitable to the client’s needs and risk profile, and that any corresponding transactions in the security in the Auour employee’s account are conducting in a manner equal or more favorable to the client. In the event that an employee of the firm wishes to buy or sell for himself/herself a model portfolio security that has also been recommended to a client, the Auour employee transaction is placed at the same time and same terms as the client transaction.

No agency cross transactions or principal trades will be affected in an advisory account.

ITEM 12: BROKERAGE PRACTICES

Auour will recommend that clients establish brokerage accounts with TD Ameritrade Institutional, a division of TD Ameritrade, Inc. Member FINRA/SIPC/NFA, to maintain custody of clients' assets and to effect trades for our accounts. However, Auour does not require clients to use TD Ameritrade. Auour is independently owned and operated and not affiliated with TD Ameritrade. TD Ameritrade provides us with access to their institutional trading and custody services, which are typically not available to TD Ameritrade retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a total of at least \$20 million of the advisor's clients' assets are maintained in accounts at TD Ameritrade, and are not otherwise contingent upon Auour committing to TD Ameritrade any specific amount of business (assets in custody or trading). TD Ameritrade's services include brokerage, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For clients in custodial relationships with TD Ameritrade, Auour employs block-trading principals. (See "Trade Aggregation" below) This process is designed to result in all clients receiving the same price for the purchase or sale of securities. Clients opting for custody outside of TD Ameritrade may not get the same price. To best ensure fairness across all custodian and execution venues, Auour places trades first at TD Ameritrade, then randomly (but within 30 minutes) at all other custodians.

For our client accounts maintained in its custody, TD Ameritrade generally does not charge separately for custody but is compensated by account holders through commissions or other transaction-related fees for securities trades that are executed through TD Ameritrade that settle into TD Ameritrade accounts.

A client may direct us in writing to use a particular broker/dealer to execute all transactions for client's account. When a client selects the broker to be used for his account, the commission rates are decided upon between the client and his broker. In addition, Auour does not have any responsibility for obtaining for the client from any such broker the best prices or particular commission rates, and the client may not obtain rates as low as it might otherwise obtain if Auour had discretion to select broker-dealers other than those chosen by the client. Therefore, directing brokerage to a particular broker/dealer may cost clients more or less money.

Clients that restrict us to using a particular broker/dealer (or direct us to use a particular broker/dealer) for executing their transactions generally will be unable to participate in aggregated orders and will be precluded from receiving the benefits, if any, of an aggregation which other clients may receive.

SOFT DOLLARS OR ECONOMIC BENEFITS

TD Ameritrade also makes available to us other products and services that benefit Auour but may not benefit our clients' accounts. Some of these other products and services assist us with managing and administering clients' accounts. These include software and other technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our fees from client accounts, and assist with back-office functions, recordkeeping and client reporting. Many of these services generally may be used to service all

or a substantial number of Auour's accounts, including accounts not maintained at TD Ameritrade. TD Ameritrade also makes available to Auour other services intended to help us manage and further develop our business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, TD Ameritrade may make available, arrange and/or pay for these types of services rendered to us by independent third parties. TD Ameritrade may discount or waive fees they would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to Auour. While as a fiduciary, Auour endeavors to act in its clients' best interests, our recommendation that clients maintain their assets in accounts at TD Ameritrade may be based in part on the benefit to Auour of the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by TD Ameritrade, which may create a potential conflict of interest.

Auour may receive services from other broker-dealers that enhance its ability to service its clients. For instance, recommended broker-dealers may provide Auour with automated or electronic access to client account information, duplicate statements, or consolidated reports.

BROKERAGE FOR CLIENT REFERRALS

Auour does not refer clients to brokers in exchange for referrals.

TRADE AGGREGATION

Auour may combine orders into block trades when more than one account is participating in the trade. This blocking or bunching technique must be equitable and potentially advantageous for each such account (e.g. for the purposes of reducing brokerage commissions or obtaining a more favorable execution price). Block trading is performed when it is consistent with the duty to seek best execution and is consistent with the terms of Auour's investment advisory agreements. Equity trades are blocked based upon fairness to client, both in the participation of their account, and in the allocation of orders for the accounts of more than one client. Allocations of all orders are performed in a timely and efficient manner. All managed accounts participating in a block execution receive the same execution price (average share price) for the securities purchased or sold in a trading day. Any portion of an order that remains unfilled at the end of a given day will be rewritten on the following day as a new order with a new daily average price to be determined at the end of the following day. Due to the low liquidity of certain securities, broker availability may be limited. Open orders are worked until they are completely filled, which may span the course of several days. If an order is filled in its entirety, securities purchased in the aggregated transaction will be allocated among the accounts participating in the trade in accordance with the allocation statement. If an order is partially filled, the securities will be allocated pro rata based on the allocation statement. Auour may allocate trades in a different manner than indicated on the allocation statement (non-pro rata) only if all managed accounts receive fair and equitable treatment.

ITEM 13: REVIEW OF ACCOUNTS AND REPORTS

The day-to-day supervision of each account is the responsibility of the Investment Committee. Each account is reviewed at least monthly. At least quarterly, each portfolio is reviewed by the Chief Compliance Officer and the Investment Committee to ensure that the holdings are suitable for the client's objectives.

Clients are furnished a written quarterly analysis of the portfolio including the following for each security: cost basis, market value, annual income, current yield, and asset class. The Investment Committee members meet with clients when and if necessary. Clients also receive account statements directly from their chosen custodian on a monthly basis.

ITEM 14: CLIENT REFERRALS AND OTHER COMPENSATION (SOLICITOR ARRANGEMENTS)

Solicitors, for example, unaffiliated broker/dealers and investment advisers, who are directly responsible for bringing a client to Auour Advisory, receive separate compensation from us for client referrals. Such arrangements comply with the requirements set forth under the Investment Advisers Act of 1940 and/or applicable law, including an agreement between the Firm and the Solicitor. Solicitors must provide a copy of the Auour's Brochure and a separate Solicitor's Disclosure Statement regarding the relationship between the Solicitor and Auour to the prospective client at the time of the solicitation or referral. The prospective client is required to acknowledge this arrangement prior to acceptance of the account for advisory services.

A conflict of interest exists due to the nature of the arrangements whereby third-party Clients are advised to pay particular attention to the separate fees earned by the Solicitor in connection with the referral to Auour. Referral fees paid to a third-party Solicitor are contingent upon the client engaging Auour Advisory to provide investment management services. The referral fee incentivizes the Solicitor.

ITEM 15 CUSTODY

All clients' assets are held in custody by qualified custodians (all of which unaffiliated broker/dealers). Auour can access clients' assets solely through its ability to debit advisory fees. For this purpose, Auour maintains the following safeguards:

- The client has provided written authorization to deduct advisory fees directly from the client's account, and
- Each time a fee is directly deducted from the client's account, Auour will:
 - send the qualified custodian an invoice of the amount of the fee to be deducted from the client's account,
 - require the Custodian to provide detail regarding the fee deduction, including the asset base on which the fee was calculated, the date, the dollar amount and the period covered by the fee on its monthly statements

- Account custodians send statements directly to the account owners on a monthly basis. Clients should carefully review these statements, and should compare these statements to any account information provided by Auour.

ITEM 16 INVESTMENT DISCRETION

Auour has investment discretion over the majority of clients' accounts. Auour's authority include the discretion to determine the securities and amount of securities to be bought and sold for a client's account. Auour does not have the authority to disburse funds from client accounts. Clients grant us trading discretion through the execution of a limited power of attorney included in Auour's advisory contract and custodian account opening documentation.

Clients can place reasonable restrictions on Auour's investment discretion as long as the restrictions fit within our investment strategies. For example, some clients have asked us not to sell certain securities where the client has a particularly low tax basis.

Other clients, such as clients invested in self-directed 401ks, can manage their investments directly by selecting investment options that include the Auour model portfolios, among other selections.

ITEM 17 VOTING CLIENT SECURITIES

Auour's policy on proxy voting with respect to client accounts is to vote proxies consistent with its fiduciary duty to clients. Auour shall be responsible for voting proxies on behalf of client accounts however certain clients may retain full proxy voting authority. Proxy voting authority is assigned in the Custodian's account opening application. In cases where Auour retains full responsibility over the proxy voting activities of an account, Auour shall vote client proxies in a way that it believes will cause securities to increase the most or decline the least in value in order to maximize shareholder value. Consideration will be given to both the short- and long-term implications of the proposal to be voted on when considering the optimal vote. Conflicts of interest will be identified and addressed in such a manner as to benefit the majority of clients and shareholders.

Notwithstanding Auour's discretionary authority to make investment decisions on behalf of its clients, Auour will not exercise proxy voting authority over certain of its clients' accounts. Clients shall in no way be precluded from contacting Auour for advice or information about a particular proxy vote.

Both the Auour Proxy Voting Policy and a record of all the proxy votes cast on behalf of our clients are available to our clients upon request.

ITEM 18 FINANCIAL INFORMATION

The firm's principals are not aware of any financial condition that would prevent Auour from delivering contractual services to clients.

Auour and its principals have neither claimed protection from creditors nor have they ever filed bankruptcy.

BUSINESS CONTINUITY PLAN

Auour has a business continuity plan in place that provides for steps to mitigate and recover from the loss of or interruption to office space, communications, services or key people.

The business continuity plan is designed to address natural and man-made disasters.. Auour's electronic files are backed up daily and archived offsite through cloud based technologies.

Alternate offices are identified to support ongoing operations in the event the main office is unavailable. It is our intention to contact notify clients through our website if access to our physical office is impeded.

INFORMATION SECURITY PROGRAM

The Adviser maintains an information security program to reduce the risk that your personal and confidential information may be breached. The information security program includes protocols for review of vendor systems, password protection of client records and encryption of portable electronic devices among other protections.

PRIVACY PRACTICES

Below is a summary of the Adviser's Privacy Policy regarding client personal information. A complete version of the Privacy Policy is contained in your client advisory agreement and may be obtained by contacting the Compliance Officer of the Adviser.

Auour collects non-public personal information about its clients from the following sources:

- Information received from clients on applications or other forms;
- Information provided by Solicitors,
- Information about clients' transactions with Auour, its affiliates and others;
- Information received from our correspondent clearing broker with respect to client accounts;
- Information received from service bureaus or other third parties.

Auour will not share such information with any affiliated or nonaffiliated third party except:

- When necessary to complete a transaction in a customer account, such as with the clearing firm or account custodians;
- When required to maintain or service a customer account;
- To resolve customer disputes or inquiries;
- With persons acting in a fiduciary or representative capacity on behalf of the customer;
- With rating agencies, persons assessing compliance with industry standards, or to the attorneys, accountants and auditors of the firm;
- To protect against or prevent actual or potential fraud, identity theft, unauthorized transactions, claims or other liability;
- To comply with federal, state or local laws, rules and other applicable legal requirements;
- In connection with a written agreement to provide investment management or advisory services when the information is released for the sole purpose of providing the products or services covered by the agreement;
- In any circumstances with the customer's instruction or consent.

Auour restricts access to confidential client information to individuals who are authorized to have access to confidential client information and need to know that information to provide services to clients.

Auour maintains physical, electronic and procedural security measures that comply with applicable state and federal regulations to safeguard confidential client information.
