This brochure provides information about the qualifications and business practices of Rubicon Advisors, GP dba Rubicon Advisors. If clients have any questions about the contents of this brochure, please contact us at (530) 223-5357 or steven.boero@lpl.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any State Securities Authority. Additional information about our firm is also available on the SEC's website at www.adviserinfo.sec.gov by searching CRD #174447.

Please note that the use of the term "registered investment adviser" and description of our firm and/or our associates as "registered" does not imply a certain level of skill or training. Clients are encouraged to review this Brochure and Brochure Supplements for our firm's associates who advise clients for more information on the qualifications of our firm and our employees.

Item 2: Material Changes

Rubicon Advisors is required to make clients aware of information that has changed since the last annual update to the Firm Brochure ("Brochure") and that may be important to them. Clients can then determine whether to review the brochure in its entirety or to contact us with questions about the changes.

Since the last annual amendment filed on 01/19/2017, the following changes have been made:

- Our firm now offers a Guided Wealth Portfolio Service to LPL Sponsored Advisory Program Clients. Please refer to Item 4 and Item 5 for additional information.

Item 4: Advisory Business

Our firm is a full service financial services firm that was organized in January 2015 as a California general partnership and registered as an investment adviser in March of 2015. We assist clients throughout the U.S. who want objectivity without any product or sales influence. We begin our investment process by determining our clients' financial and personal goals as well as their risk tolerance. This process is very important and key to the success of the financial goals.

Our highest priority is to create value and confidence for our clients by offering the following comprehensive services:

- Portfolio analysis
- Asset allocation design
- Investment management
- Financial Planning
- Estate planning
- Retirement planning
- College funding strategies

We recognize that our clients lead active and complex lives. They understand that managing their investments is more complicated and time-consuming than ever before. They acknowledge that working with specialized investment professionals provides them with a level of confidence and security. Wealth accumulation and estate preservation includes coordinating our planning with tax, legal and insurance professionals. We follow a disciplined approach to balance risk and return, and believe that educating clients enables them to make informed decisions.

For more information on our firm, we invite you explore our website, call, or email us. We look forward to discussing your personal needs and how we might provide investment and planning services support to you.

Types of Advisory Services Offered

Comprehensive Portfolio Management:

Our firm provides ongoing investment advice and management on assets in the client's custodial Strategic Wealth Management (SWM) account held at LPL Financial. Strategic Wealth Management is the name of the custodial account offered through LPL to support investment advisory services provided by Rubicon Advisors to our clients. More specific account information and acknowledgements are further detailed on the account application and the account agreement.

As part of our Comprehensive Portfolio Management service clients will be provided asset management. Financial planning and consultation services are included in our Comprehensive Portfolio Management. Our firm believes that financial planning is one of the core services we provide to individuals and families that are seeking to protect, grow and manage their wealth over time. Retirement income planning, estate planning and risk management services are components of a larger, more comprehensive financial plan designed to address multiple financial and lifestyle

goals. Generally, our firm's financial planning and consulting services will involve preparing a financial plan or rendering a financial consultation for clients based on the client's financial goals and objectives. This planning or consulting may encompass one or more of the following areas: Investment Planning, Retirement Planning, Estate Planning, Charitable Planning, Education Planning, Corporate and Personal Tax Planning, Cost Segregation Study, Corporate Structure, Real Estate Analysis, Mortgage/Debt Analysis, Insurance Analysis, Lines of Credit Evaluation, Business and Personal Financial Planning. This service is designed to assist clients in meeting their financial goals through the use of a financial plan or consultation. Our firm conducts client meetings to understand their current financial situation, existing resources, financial goals, and tolerance for risk. Based on what is learned, an investment approach is presented to the client, consisting of individual stocks, bonds, ETFs, options, mutual funds and other public and private securities or investments. Once the appropriate portfolio has been determined, portfolios are continuously and regularly monitored, and if necessary, rebalanced based upon the client's individual needs, stated goals and objectives. Upon client request, our firm provides a summary of observations and recommendations for the planning or consulting aspects of this service.

LPL Sponsored Advisory Programs:

When appropriate we have the ability to provide advisory services through certain programs sponsored by LPL Financial, LLC ("LPL"). Below is a brief description of each LPL advisory program available to us. Annualized fees for participation in LPL advisory programs vary up to maximum of 1.80%. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs please see the LPL Financial Form ADV Part 2 or the applicable LPL program's Wrap Fee Program Brochure and the applicable LPL Financial client agreement.

- **Manager Access Select Program ("MAS"):**

MAS provides clients access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. We will assist client in identifying a third party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL Financial. The Portfolio Manager manages client's assets on a discretionary basis. We will provide initial and ongoing assistance regarding the Portfolio Manager selection process. A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

- **Optimum Market Portfolios Program ("OMP"):**

OMP offers clients the ability to participate in a professionally managed asset allocation program using Optimum Funds Class I shares. Under OMP, the client will authorize LPL Financial on a discretionary basis to purchase and sell Optimum Funds pursuant to investment objectives chosen by the client. We will assist the client in determining the suitability of OMP for the client and assist the client in setting an appropriate investment objective. Adviser will have discretion to select a mutual fund asset allocation portfolio designed by LPL consistent with the client's investment objective. LPL Financial will have discretion to purchase and sell Optimum Funds pursuant to the portfolio selected for the client. LPL Financial will also have authority to rebalance the account. A minimum account value of \$15,000 is required for OMP.

- **Model Wealth Portfolios Program (“MWP”):**

MWP offers clients a professionally managed mutual fund asset allocation program. We will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. We initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL Financial’s Research Department consistent with the client’s stated investment objective. LPL Financial’s Research Department is responsible for selecting the mutual funds within a model portfolio and for making changes to the mutual funds selected. The client will authorize LPL Financial to act on a discretionary basis to purchase and sell mutual funds, including in certain circumstances exchange traded funds and to liquidate previously purchased securities. The client will also authorize LPL Financial to effect rebalancing for MWP accounts.

The MWP program may make available model portfolios designed by strategists other than LPL’s Research Department. If such models are made available, we will have discretion to choose among the available models designed by LPL and outside strategists. A minimum account value of \$100,000 is required for MWP.

- **Personal Wealth Portfolios Program (“PWP”):**

PWP offers clients an asset management account using asset allocation model portfolios designed by LPL Financial. We will have discretion for selecting the asset allocation model portfolio based on client’s investment objective. We will also have discretion for selecting third party money managers (PWP advisors) or mutual funds within each asset class of the model portfolio. LPL Financial will act as the overlay portfolio manager on all PWP accounts and will be authorized to purchase and sell on a discretionary basis mutual funds and equity and fixed income securities. A minimum account value of \$250,000 is required for PWP.

- **Guided Wealth Portfolios Program (“GWP”):**

GWP offers clients the ability to participate in a centrally managed, algorithm-based investment program, which is made available to users and clients through a web-based, interactive account management portal (“Investor Portal”). Investment recommendations to buy and sell open-end mutual funds and exchange-traded funds are generated through proprietary, automated, computer algorithms (collectively, the “Algorithm”) of Xulu, Inc., doing business as FutureAdvisor (“FutureAdvisor”), based upon model portfolios constructed by LPL and selected for the account as described below (such model portfolio selected for the account, the “Model Portfolio”). Communications concerning GWP are intended to occur primarily through electronic means (including but not limited to, through email communications or through the Investor Portal), although our firm will be available to discuss investment strategies, objectives or the account in general in person or via telephone.

A preview of the GWP Program (the “Educational Tool”) is provided for a period of up to 45 days to help users determine whether they would like to become advisory clients and receive ongoing financial advice from LPL, FutureAdvisor and our firm by enrolling in the advisory service (the “Managed Service”). The Educational Tool and Managed Service are described in more detail in the GWP Program Brochure. Users of the Educational Tool are not considered to be advisory clients of LPL, FutureAdvisor or our firm, do not enter into an advisory agreement with LPL, FutureAdvisor or our firm, do not receive ongoing investment advice or

supervisions of their assets, and do not receive any trading services. A minimum account value of \$5,000 is required to enroll in the Managed Service.

Tailoring of Advisory Services

Our firm offers individualized investment advice to our Comprehensive Portfolio Management clients.

Each Comprehensive Portfolio Management client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

Participation in Wrap Fee Programs

Our firm offers a wrap fee program as further described in Part 2A, Appendix 1 (the “Wrap Fee Program Brochure”). Our firm does not manage wrap fee accounts in a different fashion than non-wrap fee accounts. All accounts are managed on an individualized basis according to the client’s investment objectives, financial goals, risk tolerance, etc.

Regulatory Assets Under Management

As of December 31, 2016, our firm manages \$101,403,576 on a discretionary basis and \$0 on a non-discretionary basis.

Item 5: Fees & Compensation

Compensation for Our Advisory Services

Comprehensive Portfolio Management:

The maximum annual fee to be charged to the client’s account(s) will not exceed 1.75%. The fee to be assessed to each account will be detailed in the client’s signed advisory agreement, LPL Account Application or LPL Tiered Fee Authorization form. The total estimated fee, as well as the ultimate fee charged, is based on the number of client’s asset managed by our firm as well as the scope and complexity of our engagement with the client. Fees are billed on a pro-rata basis quarterly in advance based on the value of the account(s) on the last day of the previous quarter. Fees are negotiable and will be deducted from the account(s). Please note that fees will be adjusted for deposits and withdrawals made during the quarter. If accounts are opened during the quarter, the pro-rata advisory fees will be deducted during the next regularly scheduled billing cycle. In rare cases, our firm will agree to direct bill clients. As part of this process, Clients understand the following:

- a) LPL as the client’s custodian sends statements at least quarterly, showing all disbursements for each account, including the amount of the advisory fees paid to our firm;
- b) Clients provide authorization permitting LPL to deduct these fees;
- c) LPL calculates the advisory fees for all fee schedules and deducts them from the client’s account.

LPL Sponsored Advisory Programs:

The account fee charged to the client for each LPL advisory program is negotiable, subject to the following maximum account fees which includes the third party manager fees:

Advisory Program	Annual Percentage of Assets Charge
Manager Access Select	Up to 1.80%
Model Wealth Portfolio	Up to 1.80%
Optimum Market Portfolio	Up to 1.80%
Personal Wealth Portfolio	Up to 1.80%
Guided Wealth Portfolio	Up to 1.35%

LPL has a separate billing process which we have no control over. In general, they will directly bill you and a portion of this fee will be paid to our firm and will be outlined their separate written disclosure documents.

Other Types of Fees & Expenses

Clients will incur transaction charges for trades executed in their accounts. These transaction fees are separate from our firm's advisory fees and will be disclosed by the chosen custodian. Clients may also pay holdings charges imposed by the chosen custodian for certain investments, charges imposed directly by a mutual fund, index fund, or exchange traded fund, which shall be disclosed in the fund's prospectus (i.e., fund management fees, initial or deferred sales charges, mutual fund sales loads, 12b-1 fees, surrender charges, variable annuity fees, IRA and qualified retirement plan fees, and other fund expenses). Our firm does not receive a portion of these fees.

Termination & Refunds

Either party may terminate the signed advisory agreement at any time. Upon receipt of your notice of termination, LPL will process a pro-rate refund of the unearned portion of the advisory fees charged in advance at the beginning of the quarter.

Commissionable Securities Sales

Representatives of our firm are registered representatives of LPL Financial, LLC ("LPL Financial"), member FINRA/SIPC. As such they are able to accept compensation for the sale of securities or other investment products, including distribution or service ("trail") fees from the sale of mutual funds. Clients should be aware that the practice of accepting commissions for the sale of securities presents a conflict of interest and gives our firm and/or our representatives an incentive to recommend investment products based on the compensation received. Our firm generally addresses commissionable sales conflicts that arise when explaining to clients these sales create an incentive to recommend based on the compensation to be earned and/or when recommending commissionable mutual funds, explaining that "no-load" funds are also available. Our firm does not prohibit clients from purchasing recommended investment products through other unaffiliated brokers or agents.

Item 6: Performance-Based Fees & Side-By-Side Management

Our firm does not charge performance-based fees.

Item 7: Types of Clients & Account Requirements

The advisory services offered by our firm are available for individuals, individual retirement accounts ("IRAs"), banks and thrift institutions, pension and profit sharing plans, including plans subject to Employee Retirement Income Security Act of 1974 ("ERISA"), trusts, estates, charitable organizations, state and municipal government entities, corporations and other business entities.

However, our firm generally provides investment advice to individuals and high net worth individuals. Our firm is currently not working with other types of clients or pursuing them as prospects, but would not turn away any opportunities that may arise.

Our firm does not impose requirements for opening and maintaining accounts or otherwise engaging with us. However, LPL Financial Sponsored Advisory Programs have the following account minimums:

- Optimum Market Portfolios Program (OMP): \$15,000
- Personal Wealth Portfolios Program (PWP): \$250,000
- Model Wealth Portfolios Program (MWP): \$25,000
- Manager Access Select Program (MAS): \$100,000 (in certain instances, the minimum account size may be lower or higher).
- Guided Wealth Portfolio (GWP): \$5,000

For customized advisory services, any required minimum account value will be set out in the client agreement.

Item 8: Methods of Analysis, Investment Strategies & Types of Risk

Methods of Analysis

We emphasize continuous and regular account supervision. As part of our asset management service, we generally create a portfolio, consisting of individual stocks or bonds, exchange traded funds ("ETFs"), options, mutual funds and other public and private securities or investments.

The client's individual investment strategy is tailored to their specific needs and may include some or all of the previously mentioned securities. Each portfolio will be initially designed to meet a particular investment goal, which we determine to be suitable to the client's circumstances. Once the appropriate portfolio has been determined, we review the portfolio at least quarterly and if necessary, rebalance the portfolio based upon the client's individual needs, stated goals and

objectives. Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio.

The firm uses a combination of charting, fundamental and technical analysis in order to formulate investment advice when managing assets. Depending on the analysis the firm will implement a long or short term trading strategy based on the particular objectives and risk tolerance of a particular client.

Investment Strategies We Use

We use the following strategies in managing client accounts, provided that such strategies are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Alternative Strategy Mutual Funds: Certain mutual funds invest primarily in alternative investments and/or strategies. Investing in alternative investments and/or strategies may not be suitable for all investors and involves special risks, such as risks associated with commodities, real estate, leverage, selling securities short, the use of derivatives, potential adverse market forces, regulatory changes and potential illiquidity. There are special risks associated with mutual funds that invest principally in real estate securities, such as sensitivity to changes in real estate values and interest rates and price volatility because of the fund's concentration in the real estate industry.

Closed-End Funds: Client should be aware that closed-end funds are not readily marketable. In an effort to provide investor liquidity, the funds may offer to repurchase a certain percentage of shares at net asset value on a periodic basis. Thus, clients may be unable to liquidate all or a portion of their shares in these types of funds.

Exchange-Traded Funds (ETFs): ETFs are typically investment companies that are legally classified as open end mutual funds or UITs. However, they differ from traditional mutual funds, in particular, in that ETF shares are listed on a securities exchange. Shares can be bought and sold throughout the trading day like shares of other publicly-traded companies. ETF shares may trade at a discount or premium to their net asset value. This difference between the bid price and the ask price is often referred to as the "spread." The spread varies over time based on the ETF's trading volume and market liquidity, and is generally lower if the ETF has a lot of trading volume and market liquidity and higher if the ETF has little trading volume and market liquidity. Although many ETFs are registered as an investment company under the Investment Company Act of 1940 like traditional mutual funds, some ETFs, in particular those that invest in commodities, are not registered as an investment company.

Exchange-Traded Notes (ETNs): An ETN is a senior unsecured debt obligation designed to track the total return of an underlying market index or other benchmark. ETNs may be linked to a variety of assets, for example, commodity futures, foreign currency and equities. ETNs are similar to ETFs in that they are listed on an exchange and can typically be bought or sold throughout the trading day. However, an ETN is not a mutual fund and does not have a net asset value; the ETN trades at the prevailing market price. Some of the more common risks of an ETN are as follows. The repayment of the principal, interest (if any), and the payment of any returns at maturity or upon redemption are dependent upon the ETN issuer's ability to pay. In addition, the trading price of the ETN in the secondary market may be adversely impacted if the issuer's credit rating is downgraded. The index or asset class for performance replication in an ETN may or may not be concentrated in a specific sector, asset class or country and may therefore carry specific risks.

Inverse ETFs, ETNs and Mutual Funds: ETNs and mutual funds are designed to provide a multiple of the underlying index's return, typically on a daily basis. Inverse products are designed to provide the opposite of the return of the underlying index, typically on a daily basis. These products are different from and can be riskier than traditional ETFs, ETNs and mutual funds. Although these products are designed to provide returns that generally correspond to the underlying index, they may not be able to exactly replicate the performance of the index because of fund expenses and other factors. This is referred to as tracking error. Continual re-setting of returns within the product may add to the underlying costs and increase the tracking error. As a result, this may prevent these products from achieving their investment objective. In addition, compounding of the returns can produce a divergence from the underlying index over time. In highly volatile markets with large positive and negative swings, return distortions are magnified over time. Because of these distortions, these products should be actively monitored, as frequently as daily, and are generally not appropriate as an intermediate or long-term holding. To accomplish their objectives, these products use a range of strategies, including swaps, futures contracts and other derivatives. These products may not be diversified and can be based on commodities or currencies. These products may have higher expense ratios and be less tax-efficient than more traditional ETFs, ETNs and mutual funds.

Options: Certain types of option trading are permitted in order to generate income or hedge a security held in the program account; namely, the selling (writing) of covered call options or the purchasing of put options on a security held in the program account. Client should be aware that the use of options involves additional risks. The risks of covered call writing include the potential for the market to rise sharply. In such case, the security may be called away and the program account will no longer hold the security. The risk of buying long puts is limited to the loss of the premium paid for the purchase of the put if the option is not exercised or otherwise sold by the program account.

Structured Products: Structured products are securities derived from another asset, such as a security or a basket of securities, an index, a commodity, a debt issuance, or a foreign currency. Structured products frequently limit the upside participation in the reference asset. Structured products are senior unsecured debt of the issuing bank and subject to the credit risk associated with that issuer. This credit risk exists whether or not the investment held in the account offers principal protection. The creditworthiness of the issuer does not affect or enhance the likely performance of the investment other than the ability of the issuer to meet its obligations. Any payments due at maturity are dependent on the issuer's ability to pay. In addition, the trading price of the security in the secondary market, if there is one, may be adversely impacted if the issuer's credit rating is downgraded. Some structured products offer full protection of the principal invested, others offer only partial or no protection. Investors may be sacrificing a higher yield to obtain the principal guarantee. In addition, the principal guarantee relates to nominal principal and does not offer inflation protection. An investor in a structured product never has a claim on the underlying investment, whether a security, zero coupon bond, or option. There may be little or no secondary market for the securities and information regarding independent market pricing for the securities may be limited. This is true even if the product has a ticker symbol or has been approved for listing on an exchange. Tax treatment of structured products may be different from other investments held in the account (e.g., income may be taxed as ordinary income even though payment is not received until maturity). Structured CDs that are insured by the FDIC are subject to applicable FDIC limits.

Hedge Funds and Managed Futures: Hedge and managed futures funds are available for purchase by clients meeting certain qualification standards. Investing in these funds involves additional risks including, but not limited to, the risk of investment loss due to the use of leveraging and other speculative investment practices and the lack of liquidity and performance volatility. In addition,

these funds are not required to provide periodic pricing or valuation information to investors and may involve complex tax structures and delays in distributing important tax information. Client should be aware that these funds are not liquid as there is no secondary trading market available. At the absolute discretion of the issuer of the fund, there may be certain repurchase offers made from time to time. However, there is no guarantee that client will be able to redeem the fund during the repurchase offer.

Variable Annuities: If client purchases a variable annuity, client will receive a prospectus and should rely solely on the disclosure contained in the prospectus with respect to the terms and conditions of the variable annuity. Client should also be aware that certain riders purchased with a variable annuity may limit the investment options and the ability to manage the subaccounts.

Margin Accounts: Client should be aware that margin borrowing involves additional risks. Margin borrowing will result in increased gain if the value of the securities in the account go up, but will result in increased losses if the value of the securities in the account goes down. The custodian, acting as the client's creditor, will have the authority to liquidate all or part of the account to repay any portion of the margin loan, even if the timing would be disadvantageous to the client. For performance illustration purposes, the margin interest charge will be treated as a withdrawal and will, therefore, not negatively impact the performance figures reflected on the quarterly advisory reports.

Types of Risk

Investing in securities involves risk of loss that clients should be prepared to bear. While the stock market may increase and the account(s) could enjoy a gain, it is also possible that the stock market may decrease and the account(s) could suffer a loss. It is important that clients understand the risks associated with investing in the stock market, are appropriately diversified in investments, and ask any questions:

Market Risk: The risk that the value of securities may go up or down, sometimes rapidly or unpredictably, due to factors affecting securities markets generally or particular industries.

Interest Rate Risk: The risk that fixed income securities will decline in value because of an increase in interest rates; a bond or a fixed income fund with a longer duration will be more sensitive to changes in interest rates than a bond or bond fund with a shorter duration.

Credit Risk: The risk that an investor could lose money if the issuer or guarantor of a fixed income security is unable or unwilling to meet its financial obligations.

Description of Material, Significant or Unusual Risks

Our firm generally invests client cash balances in money market funds, FDIC Insured Certificates of Deposit, high-grade commercial paper and/or government backed debt instruments. Ultimately, our firm tries to achieve the highest return on client cash balances through relatively low-risk conservative investments. In most cases, at least a partial cash balance will be maintained in a money market account so that our firm may debit advisory fees for our services related to our services, as applicable.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to the evaluation of our advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities & Affiliations

Representatives of our firm are registered representatives of LPL Financial, member FINRA/SIPC. In addition, Representatives are licensed insurance agents which takes up approximately 10% of their time. As a result of these transactions, they receive normal and customary commissions. A conflict of interest exists as these commissionable securities sales create an incentive to recommend products based on the compensation earned. To mitigate this potential conflict, our firm will act in the client's best interest.

Certain representatives of our firm are Certified Public Accountants. In such capacity, they may also provide income tax preparation or accounting services. These services are independent of our financial planning and investment advisory services and are governed under a separate engagement agreement.

Representatives of our firm are not registered nor has a registration pending as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

Please see Item 4 above for more information about the selection of LPL Sponsored Programs. The compensation paid to our firm by third party managers may vary, and thus, creates a conflict of interest in recommending a manager LPL Sponsored Program who shares a larger portion of its advisory fees over another manager Program. Prior to referring clients to third party advisors LPL Sponsored Programs, our firm will ensure that third party advisors LPL Sponsored Programs are appropriately licensed or notice filed with the respective authorities. A potential conflict of interest in utilizing third party advisors LPL Sponsored Programs may be an incentive to us in selecting a particular advisor them over another in the form of fees or services. In order to minimize this conflict, our firm will make our recommendations/selections in the best interest of our clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. Our fiduciary duty is the underlying principle for our firm's Code of Ethics, which includes procedures for personal securities transaction and insider trading. Our firm requires all representatives to conduct business with the highest level of ethical standards and to comply with all federal and state securities laws at all times. Upon employment with our firm, and at least annually thereafter, all representatives of our firm will acknowledge receipt, understanding and compliance with our firm's Code of Ethics. Our firm and

representatives must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics. If a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided promptly upon request.

Our firm recognizes that the personal investment transactions of our representatives demands the application of a Code of Ethics with high standards and requires that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, our firm also believes that if investment goals are similar for clients and for our representatives, it is logical, and even desirable, that there be common ownership of some securities.

In order to prevent conflicts of interest, our firm has established procedures for transactions effected by our representatives for their personal accounts¹. In order to monitor compliance with our personal trading policy, our firm has pre-clearance requirements and a quarterly securities transaction reporting system for all of our representatives.

Neither our firm nor a related person recommends, buys or sells for client accounts, securities in which our firm or a related person has a material financial interest without prior disclosure to the client.

Related persons of our firm may buy or sell securities and other investments that are also recommended to clients. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request.

Likewise, related persons of our firm buy or sell securities for themselves at or about the same time they buy or sell the same securities for client accounts. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request. Further, our related persons will refrain from buying or selling the same securities prior to buying or selling for our clients in the same day unless included in a block trade.

Compliance with Department of Labor Fiduciary Rule

Our firm provides investment advice to assets affected by the Department of Labor ("DOL") Fiduciary Rule for a level fee. As such, we abide by the Impartial Conduct Standards as defined by the DOL. To comply with these standards, our firm and our advisors give advice that is in our clients' best interest, charge no more than reasonable compensation (within the meaning of ERISA Section 408(b)(2) and Internal Revenue Code Section 4975(d)(2), and make no misleading statements about investment transactions, compensation, conflicts of interest, and any other matters related to investment decisions.

As a level-fee fiduciary, we maintain a non-variable compensation structure that is provided on the basis of a fixed percentage of the value of assets or a set fee that does not vary with the particular investment recommended, as opposed to a commission or other transaction based fee.

¹ For purposes of the policy, our associate's personal account generally includes any account (a) in the name of our associate, his/her spouse, his/her minor children or other dependents residing in the same household, (b) for which our associate is a trustee or executor, or (c) which our associate controls, including our client accounts which our associate controls and/or a member of his/her household has a direct or indirect beneficial interest in.

Item 12: Brokerage Practices

Our firm may recommend that clients establish brokerage accounts with LPL Financial, LLC ("LPL"), member FINRA/SIPC. Clients are advised that they are under no obligation to implement our recommendations and may choose a broker-dealer at their discretion. Clients may pay commissions or fees that are higher or lower than those that may be obtained from elsewhere for similar services.

Our firm does not receive soft dollars generated by client securities transactions. The term "soft dollars" refers to funds which are generated by client trades "commission rebates or credits" being used by our firm to purchase products or services (such as research and enhanced brokerage services) from or through the broker-dealers whom our firm engages to execute securities transactions. In addition, neither our firm nor our related person(s) have authority to determine, without specific client consent, the broker-dealer to be used in any securities transaction or the commission rate to be paid.

Our firm, however, does receive some "eligible" products and services under safe harbor as determined under the Securities and Exchange Act, Section 28(e). These products and services include: national, regional or investment adviser specific educational events organized and/or sponsored by LPL Financial; professional compliance; legal and business consulting; publications and conferences on practice management; information technology; business succession; employee benefits providers; human capital consultants; insurance; and marketing. In addition, LPL may make available, arrange and/or pay vendors for these types of services rendered to our firm by independent third parties. LPL may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. While, as a fiduciary, our firm endeavors to act in its clients' best interests, our recommendation/requirement that clients maintain their assets in accounts at LPL may be based in part on the benefit to our firm of the availability of some of the foregoing products and services and other arrangements, and not solely on the nature, cost, or quality of custody and brokerage services provided by LPL, which may create a potential conflict of interest.

As a result of receiving such "eligible" products and services for no cost, our firm may have an incentive to continue to place client trades through broker-dealers that offer those products and services. This interest conflicts with the clients' interest of obtaining the lowest commission rate available. Therefore, our firm must determine in good faith, that such commissions are reasonable in relation to the value of the services provided by such executing broker-dealers. Our firm examined this potential conflict of interest when deciding to enter into the relationship with LPL and have determined that the relationship is in the best interest of our firm's clients and satisfies our client obligations, including our duty to seek best execution.

In seeking "best execution", the determinative factor is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution. LPL also takes into consideration the full range of a broker-dealer's services including execution capability, commission rates, and responsiveness. Although LPL will seek competitive commission rates, it may not necessarily obtain the lowest possible commission rates for all account transactions.

Over-the-Counter (OTC) securities transactions are generally effected based on two (2) separate broker-dealers: (1) a "dealer" or "principal" acting as market-maker; and (2) the executing broker-

dealer that acts in an agency capacity. Dealers executing principal transactions typically include a mark-up/down, which is included in the offer or bid price of the securities purchased or sold. In addition to the dealer mark-up/down, the client may also incur the transaction fee imposed by the executing broker-dealer. We do not receive any portion of the dealer mark-up/down or the executing broker-dealer transaction fee.

Transactions for each client account will be effected independently. We individually review each client's account and place trades accordingly. Despite being purchased or sold at approximately the same time all clients' transactions will incur individual transaction fees.

Our firm provides investment management services for various clients. There are occasions on which portfolio transactions may be executed as part of concurrent authorizations to purchase or sell the same security for numerous accounts served by our firm, which involve accounts with similar investment objectives. Although such concurrent authorizations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they are affected only when our firm believes that to do so will be in the best interest of the effected accounts. When such concurrent authorizations occur, the objective is to allocate the executions in a manner which is deemed equitable to the accounts involved. In any given situation, our firm attempts to allocate trade executions in the most equitable manner possible, taking into consideration client objectives, current asset allocation and availability of funds using price averaging, proration and consistently non-arbitrary methods of allocation.

Item 13: Review of Accounts or Financial Plans

Our management personnel or financial advisors review accounts on at least an annual basis for our Comprehensive Portfolio Management. The nature of these reviews is to learn whether client accounts are in line with their investment objectives, appropriately positioned based on market conditions, and investment policies, if applicable. Our firm provides written reports to clients on at least an annual basis. Verbal reports to clients take place on at least an annual basis when our Comprehensive Portfolio Management clients are contacted.

Our firm may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc.

Item 14: Client Referrals & Other Compensation

LPL Financial, LLC

Our firm receives reimbursements from LPL for marketing related expenses in order to assist with transitioning business onto the LPL custodial platform. These marketing related activities may include, but are not necessarily limited to, business cards, letterhead, brochures, website design services, seminars and other client events. This presents a conflict of interest in that our firm has a financial incentive to recommend that Clients maintain accounts with LPL. To the extent our firm recommends the use of LPL for such services, it is because our firm believes that it is in the Client's

best interest to do so based on the quality and pricing of the execution, benefits of an integrated platform for brokerage and advisory accounts, and other services provided by LPL Financial.

Representatives may receive additional compensation from product sponsors. However, such compensation may not be tied to the sale of any product. Compensation may include such items as gifts valued at less than \$100 annually, an occasional dinner or ticket to a sporting event, or reimbursement in connection with educational meetings with investment advisor representative, client workshops or events, marketing events or advertising initiatives, including services for identifying prospective clients. Product sponsors may also pay for, or reimburse Rubicon Advisors for the costs associated with, education or training events that may be attended by Rubicon Advisors employees and investment advisor representatives and for Rubicon Advisors sponsored conferences and events.

Referral Fees

Our firm does not pay referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm in accordance with Rule 206 (4)-3 of the Investment Advisers Act of 1940.

Item 15: Custody

Our firm does not have actual or constructive custody of client funds. LPL Financial will serve as the custodian of client assets on behalf of our firm. Our firm may also provide advisory services on assets held at different third party custodians. Our firm urges you to carefully review the statements provided by the custodian and compare such official custodial records to the account statements that may be provided by our firm.

LPL Financial as the custodian sends statements at least quarterly to clients showing all disbursements in account including the amount of the advisory fees paid to advisor, the value of client assets upon which advisor's fee was based, and the specific manner in which advisor's fee was calculated. Clients provide authorization to LPL Financial permitting advisory fees to be deducted from client advisory account. LPL Financial calculates the advisory fees and deducts them from client's account every quarter.

Item 16: Investment Discretion

Clients have the option of providing our firm with investment discretion on their behalf, pursuant to an executed investment advisory client agreement. By granting investment discretion, our firm is authorized to execute securities transactions, determine which securities are bought and sold, and the total amount to be bought and sold. Limitations may be imposed by the client in the form of specific constraints on any of these areas of discretion with our firm's written acknowledgement.

Item 17: Voting Client Securities

Our firm does not accept the proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. In the event that proxies are sent to our firm, our firm will forward them to the appropriate client and ask the party who sent them to mail them directly to the client in the future. Clients may call, write or email us to discuss questions they may have about particular proxy votes or other solicitations.

Item 18: Financial Information

Our firm is not required to provide financial information in this Brochure because:

- Our firm does not require the prepayment of more than \$1,200 in fees when services cannot be rendered within 6 months.
- Our firm does not take custody of client funds or securities.
- Our firm does not have a financial condition or commitment that impairs our ability to meet contractual and fiduciary obligations to clients.

Our firm has never been the subject of a bankruptcy proceeding.
