Item 4: Advisory Business

A. Description of the Advisory Firm

Investmenttips Inc. (hereinafter "INV") is a Corporation organized in the State of Delaware.

The firm was formed in January 2015, and the principal owner is MyPensionNet.

B. Types of Advisory Services

Investmenttips is a Personal Financial App (PFA) which helps people with modest means to save and invest. There is no minimum required to open an account and no trading fees. The mobile app monitors all dining credit card transactions of the account holder and calculates a fixed percentage of their total to transfer to the user's Investmenttips account. These transfers are triggered from the account holder's checking account several times a month and are invested 1st in a Money Market position at the account holder's Investmenttips account held and ran at a broker custodian.

Once reaching a certain threshold (\$200) they are reinvested in passive ETFs which track US stocks and US bonds. A 2nd threshold (\$500) diversifies further the account holder's holdings into a total of 6 ETFs which are allocated in accordance with the account holder's risk profile, age and a few other parameters to best suit the account holder's investment profile and needs per our developed computer algorithm base on Modern Portfolio Theory principles.

The users can track their holding via the app, transfer lump sums or withdraw or close their account with minimum notice.

Portfolio Management Services

INV offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. INV creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels). Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

INV evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. INV will request discretionary authority from clients in order to

select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

INV seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of INV's economic, investment or other financial interests. To meet its fiduciary obligations, INV attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, INV's policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is INV's policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent among its clients on a fair and equitable basis over time.

Services Limited to Specific Types of Investments

INV generally limits its investment advice to ETFs. INV may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

INV offers the same suite of services to all of its clients. However, specific client investment strategies and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels). Clients may not impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

D. Wrap Fee Programs

INV participates in wrap fee programs, which are investment programs where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and other administrative fees. INV manages the investments in the wrap fee program, but does not manage those wrap fee accounts any differently than non-wrap fee accounts. Fees paid under the wrap fee program will be given to INV as a management fee.

E. Assets Under Management

INV has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$836,140.00	\$0	October 2017

Item 5: Fees and Compensation

A. Fee Schedule

Asset-Based Fees for Portfolio Management

Total Assets Under Management	Annual Fee
Up to \$5,000	\$1/per month
Over \$5,001	.25%

The final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Clients may terminate the agreement without penalty for a full refund of INV's fees within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the Investment Advisory Contract generally with 30 days' written notice.

INV uses an average of the daily balance in the client's account throughout the billing period, after taking into account deposits and withdrawals, for purposes of determining the market value of the assets upon which the advisory fee is based.

B. Payment of Fees

Payment of Asset-Based Portfolio Management Fees

Asset-based portfolio management fees are withdrawn directly from the client's accounts with client's written authorization on a monthly basis. Fees are paid in arrears.

C. Client Responsibility For Third Party Fees

INV will wrap third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). INV will charge clients one fee, and pay all transaction fees using the fee collected from the client.

D. Prepayment of Fees

INV collects its fees in arrears. It does not collect fees in advance.

E. Outside Compensation For the Sale of Securities to Clients

Neither INV nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

INV does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

INV generally provides advisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals

Minimum Account Size

There is no account minimum for any of INV's services.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

INV's methods of analysis include modern portfolio theory.

Modern portfolio theory is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset.

Investment Strategies

INV uses long term trading and short term trading.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Modern Portfolio Theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Short term trading risks include liquidity, economic stability, and inflation, in addition to the long term trading risks listed above. Frequent trading can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below are not guaranteed or insured by the FDIC or any other government agency.

Exchange Traded Funds (ETFs): An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither INV nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither INV nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Eyal Fruchtmann is CEO of MyPensionNet. From time to time, he may offer clients advice or products from those activities and clients should be aware that these services may involve a conflict of interest. INV always acts in the best interest of the client and clients are in no way required to the services of any representative of INV in connection with such individual's activities outside of INV.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

INV does not utilize nor select third-party investment advisers. All assets are managed by INV management.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

INV has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. INV's Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

INV does not recommend that clients buy or sell any security in which a related person to INV or INV has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of INV may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of INV to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. INV will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of INV may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of INV to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, INV will never engage in trading

that operates to the client's disadvantage if representatives of INV buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on INV's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and INV may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in INV's research efforts. INV will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

INV will require clients to use TD Ameritrade Institutional, a division of TD Ameritrade, Inc. Member FINRA/SIPC/NFA.

1. Research and Other Soft-Dollar Benefits

While INV has no formal soft dollars program in which soft dollars are used to pay for third party services, INV may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). INV may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and INV does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. INV benefits by not having to produce or pay for the research, products or services, and INV will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that INV's acceptance of soft dollar benefits may result in higher commissions charged to the client.

2. Brokerage for Client Referrals

INV receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

INV will require clients to use a specific broker-dealer to execute transactions. Not all advisers require clients to use a particular broker-dealer.

B. Aggregating (Block) Trading for Multiple Client Accounts

If INV buys or sells the same securities on behalf of more than one client, it might, but would be under no obligation to, aggregate or bunch, to the extent permitted by applicable law and regulations, the securities to be purchased or sold for multiple Clients in order to seek more favorable prices, lower brokerage commissions or more efficient execution. In such case, INV would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. INV would determine the appropriate number of shares to place with brokers and will select the appropriate brokers consistent with INV's duty to seek best execution, except for those accounts with specific brokerage direction (if any).

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All client accounts for INV's advisory services provided on an ongoing basis are reviewed at least annually by Eyal Fruchtman, CEO with regard to clients' respective investment policies and risk tolerance levels. All accounts at INV are assigned to this reviewer.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client of INV's advisory services provided on an ongoing basis will receive a monthly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian. INV will also provide at least monthly a separate written statement to the client.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

INV does not receive any economic benefit, directly or indirectly from any third party for advice rendered to INV's clients.

B. Compensation to Non – Advisory Personnel for Client Referrals

INV may enter into written arrangements with third parties to act as solicitors for INV's investment management services. Solicitor relationships will be fully disclosed to each Client to the extent required by applicable law. INV will ensure each solicitor is exempt, notice filed, or properly registered in all appropriate jurisdictions. All such referral activities will be conducted in accordance with Rule 206(4)-3 under the Advisers Act, where applicable.

Item 15: Custody

When advisory fees are deducted directly from client accounts at client's custodian, INV will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

INV provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client sets forth the discretionary authority for trading. Where investment discretion has been granted, INV generally manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share.

Item 17: Voting Client Securities (Proxy Voting)

INV will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

INV neither requires nor solicits prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither INV nor its management has any financial condition that is likely to reasonably impair INV's ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

INV has not been the subject of a bankruptcy petition in the last ten years.
