Girard Securities, Inc. offers the following advisory services to our clients:

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities

- Variable life insurance
- Variable annuities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Interests in partnerships investing in real estate
- Interests in partnerships investing in oil and gas interests

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

INVESTMENT SUPERVISORY SERVICES ("ISS") MODEL PORTFOLIO MANAGEMENT

Our firm provides portfolio management services to clients using model asset allocation portfolios. Each model portfolio is designed to meet a particular investment goal.

GAMA PREMIER PROGRAM AND ENVESTNET ASSET MANAGEMENT

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Through personal discussions with the client in which the client's goals and objectives are established, we determine if the model portfolio is suitable to the client's circumstances. Once we determine the suitability of the portfolio, the portfolio is managed based on the portfolio's goal, rather than on each client's individual needs. Clients, nevertheless, have the opportunity to place reasonable restrictions on the types of investments to be held in their account. Clients retain individual ownership of all securities.

Our investment recommendations are not limited to any specific product or service offered by a broker dealer or insurance company and will generally include advice regarding the following securities:

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

To ensure that our initial determination of an appropriate portfolio remains suitable and that the account continues to be managed in a manner consistent with the client's financial circumstances, we will:
