SERVICES, FEES AND COMPENSATION

Barclays Wealth, as a part of Barclays PLC and its subsidiaries (the “Barclays Group”) and functioning through Barclays Capital Inc. (“BCI”), offers a wide range of investment advisory services to meet the needs of clients with diverse investment objectives and goals. This Brochure relates to the Barclays Wealth ETF Tactical Allocation Program (the “Program”), which is a fee-based investment advisory service designed to assist clients in investing in a multi-asset class or single asset class portfolio primarily through the use of exchange traded funds (“ETFs”).

Overview of the BETA Program

The Program is designed to meet client objectives through the use of different investment portfolios (“Portfolios”).¹ Each Portfolio is managed to replicate, through investments in ETFs (and exchange traded notes (“ETNs”) to the extent that the desired ETFs are not available), a particular “Tactical Asset Allocation” developed by Barclays Wealth, as described below. Each Tactical Asset Allocation provides a target asset allocation among specified asset classes and sub asset classes (for example, equity, fixed income, etc.) for investors with a specific objective and specific tax status.

The Program uses ten ETF-based Portfolios -- eight of which are designed to replicate Tactical Asset Allocations specific to two defined levels of risk tolerance and take into account four categories of tax situations and two of which include equity only or primarily equity investments. The Portfolios are as follows:

- 1) Moderately Aggressive /Federal Tax Payer Only
- 2) Moderately Aggressive / Federal & State of New York Tax Payer
- 3) Moderately Aggressive / Federal & State of California Tax Payer
- 4) Moderately Aggressive / Exempt Tax Payer
- 5) Moderately Conservative / Federal Tax Payer Only
- 6) Moderately Conservative / Federal & State of New York Tax Payer
- 7) Moderately Conservative / Federal & State of California Tax Payer
- 8) Moderately Conservative / Exempt Tax Payer
- 9) Equity Only
- 10) Equity Focused

The Tactical Asset Allocations used by the Moderately Aggressive Portfolios and the Moderately Conservative Portfolios generally are comprised of asset classes including equity, fixed income, real estate, and commodities with different allocations to the asset classes to reflect the two different Portfolio risk profiles. The Moderately Aggressive Portfolios may experience increased levels of volatility when compared to the Moderately Conservative Portfolios in seeking to achieve increased levels of return.

The Equity Only and Equity Focused Portfolios are based primarily on the equity sub asset classes in the Moderately Aggressive Tactical Asset Allocations.

The tax status differentiation for the Portfolios is implemented mainly through the types of government bond ETFs used in the Portfolios.²

All Portfolios seek performance against an appropriate benchmark.³

¹ Barclays Wealth reserves the right to add or remove a Portfolio from the Program at any time. Clients invested in a Portfolio to be removed from the program will be notified with reasonable advance notice so that another appropriate Portfolio may be selected by the client or to allow sufficient time for the client to terminate participation in the Program.

² BCI and its affiliates do not provide tax advice. Please note that: (i) any discussion of US tax matters contained in this communication cannot be used by you for the purpose of avoiding tax penalties; (ii) this communication was written to support the promotion or marketing of the matters addressed herein; and (iii) you should seek advice based on your particular circumstances from an independent tax advisor.

Barclays Wealth will identify for a client the Portfolio that is most appropriate for the client based on the investment objectives, financial situation and tax status of that client (as indicated by the client on the Program Suitability Questionnaire, which is discussed below).

Investing in the BETA Program

The Program is designed for clients who want a diversified multi asset class portfolio or an equity asset class based portfolio. Participation in the Program requires a client to grant Barclays Wealth full discretionary authority over its Program account ("Account"), including cash deposited to fund the Account, and the authority to buy ETFs and ETNs for the Account.

Client Suitability

A Barclays Wealth Investment Representative ("Investment Representative") will determine whether the Program is suitable for a client based upon the information the client provides in the suitability questionnaire ("Suitability Questionnaire"). In addition, an Investment Representative will rely on this information when identifying an initial Portfolio for a client, and will continue to rely on this information during the time a client remains invested in a Portfolio. Therefore, it is important that the information a client provides to Barclays Wealth in the Questionnaire is accurate and complete. Any changes in such information should be provided to the Investment Representative on a timely basis.

Investment Restrictions

Program clients may impose certain reasonable restrictions on the purchase of specific securities in their Account. Barclays Wealth will not accept any restrictions that are unreasonable or inconsistent with the stated investment strategy or philosophy of the Program or that are inconsistent with the Program's nature or operation (i.e., ETF Portfolios based on Barclays Wealth Tactical Asset Allocations). The determination of whether to accept a requested restriction is made solely at the discretion of Barclays Wealth. If Barclays Wealth accepts a restriction on an Account, the performance of that Account may differ from similar unrestricted accounts.

Investment Management of the BETA Program

Barclays Wealth's Tactical Asset Allocations

As mentioned above, each Program Portfolio is managed to replicate a particular "Tactical Asset Allocation." Specifically, the Tactical Asset Allocations are developed for U.S. investors by the Barclays Wealth Global Investment Advisory Committee ("BWGIAC") based on Barclays Wealth market and economic analysis. BWGIAC is comprised of strategists who specialize in analyzing various asset classes including equities, fixed income and alternative products from within and outside the U.S. In developing the Tactical Asset Allocations, the BWGIAC also draws on the experience of the Barclays Wealth Investment Strategy Committee (the "Committee"), which is comprised of senior research and strategy professionals from across the Barclays Group.

The BWGIAC and the Committee determine when and how changes to the Tactical Asset Allocations will be adjusted by actively monitoring certain factors that they believe influence market cycles. These factors include, but are not limited to, economic factors such as growth rates and inflation rates, the geopolitical environment and monetary and fiscal policies, and securities market factors such as corporate profits, valuation levels, yields of short-term and long-term bonds and technical conditions.

³ The benchmarks are as follows: (i) for the moderately aggressive portfolios: 75% global equities (MSCI All World returns in USD, unhedged), and 25% Barclays Capital U.S. Aggregate Bond Market Index; and (ii) for the moderately conservative portfolios: 25% global equities (MSCI All World returns in USD, unhedged) and 75% Barclays Capital U.S. Aggregate Bond Market Index; and the MSCI All World Index for Equity Only and Equity Focused portfolios.

A team of portfolio managers for the Program (the “Portfolio Management Team”) has final discretion for the construction and management of the Program Portfolios. The Portfolio Management Team will periodically make adjustments to each BETA Portfolio as needed.

Permitted Portfolio Investments

The Program Portfolio Management Team will use ETFs (and ETNs to the extent that the desired ETFs are not available) in the Program Portfolios.

ETFs. ETFs are open-end investment companies registered with the Securities and Exchange Commission under the Investment Company Act of 1940. The ETFs used in the Portfolios are designed to track an index. Unlike mutual funds, individual investors do not purchase or redeem shares from the fund. Instead, individuals buy and sell shares of ETFs like stocks on an exchange. Because of their unique structure, ETFs may offer lower operating expenses and greater investment flexibility than mutual funds and broader diversification opportunities than investments in individual stocks or other securities.

A majority of Program assets will be invested in ETFs listed on various U.S. stock exchanges. The Program is an open architecture program, and the Portfolio Management Team will select ETFs from the ETF universe for the Portfolios. The ETFs eligible for inclusion are non-proprietary ETFs and ETFs managed by Blackrock Investment Management, LLC (“BlackRock”), which is affiliated with Barclays Wealth by virtue of an equity ownership interest in BlackRock, Inc. Information about potential conflicts of interest related to an ETF is provided below in the subsection entitled “Participation or Interest in Client Transactions.”

ETNs. ETNs are senior, unsecured, unsubordinated debt securities of an issuer. They are designed to provide investors with a way to access the returns of market benchmarks or strategies. ETNs are not equities or index funds, but they do share several characteristics. For example, like equities, they trade on an exchange and can be sold short. Like an index fund, they are linked to the return of a benchmark index. ETNs issued by Barclays PLC or any of its subsidiaries are not permitted investments for Program Portfolios. Cumulative positions in any other ETN issuer in any Portfolio is restricted to 5% of the Portfolio.

Investment Selection and Due Diligence

The Portfolio Management Team’s construction of the Portfolios generally will be driven by finding the ETF that best replicates and represents the performance and risk of each asset class and/or sub asset class within the relevant Tactical Asset Allocation. The Portfolio Management Team will identify ETF investments using various qualitative and quantitative measures, including, lowest tracking error, highest liquidity, highest trading volume and lowest fees. The selection criteria for ETNs will be conceptually consistent with the process for ETF selection.

Investments that meet the defined criteria are then purchased by the Portfolio Management Team according to the weights provided in the relevant Tactical Asset Allocation. Investments also are selected with the intention of providing exposure to the various assets classes in the relevant Tactical Asset Allocation.

Account Activity and Rebalancing

The Portfolio Management Team is responsible for the choice of ETFs and any ETNs in the Portfolios and may decide to buy or sell investments for various reasons, including to remain consistent with the Tactical Asset Allocation or to reflect a change in a client’s personal or financial situation which might warrant a change in the client’s recommended Portfolio. In the event of a change in a client’s personal or financial situation, or if Client requests a change to a different BETA Portfolio, Client understands that the initial Account will be closed, and a new Account will be opened. Barclays Wealth will exercise best efforts to minimize potential adverse tax consequences related thereto. Please ask your Investment Representative for the BETA Account Change Form.

Tax Loss Harvesting

Tax loss harvesting is generally available to clients investing in the Program upon request. Barclays Wealth will make best efforts to accommodate such requests by clients. In order to take advantage of tax loss harvesting, a client should be aware that they must sell out of the portfolio for thirty (30) days, remain in cash (or in assets that are not substantially identical stocks or securities) for those thirty (30) days, and then reinvest to comply with any tax related rules and regulations. If Barclays Wealth accepts a tax loss harvesting request on an Account, the performance of that Account may differ from similar accounts without a tax loss harvesting request. As neither Barclays Wealth nor its affiliates are tax advisors, clients must consult their tax advisor for specific tax planning advice pertaining to their situation.

Administrative Services and Custody

Barclays Wealth performs certain services for Program clients, including certain administrative, custodial and related services. Barclays Wealth will open and maintain one or more brokerage accounts in each client's name with Barclays Wealth located at 200 Park Avenue, New York, New York 10166.

If a change in Portfolio composition includes the selection of a new ETF or ETN, Barclays Wealth will send the affected clients a copy of the prospectus or summary prospectus for that particular investment to the extent required by law.

Voting Client Securities

If instructed by a client, Barclays Wealth will vote on proposals presented to shareholders of ETFs or ETNs held in the client's Account. For Accounts custodied outside Barclays Wealth, client will be responsible for instructing its custodian to forward all proxies, proxy solicitations and other issuer-related materials to Barclays Wealth.

Alternatively, a client may instruct Barclays Wealth to send directly to the client all proxies and proxy solicitations on the securities held in its Account. If Barclays Wealth does not have authority to vote proxies and has custody of the assets, Barclays Wealth will send clients all proxies, proxy solicitations and other issuer-related materials relating to the ETFs or ETNs in the account. In cases where it does not have the authority to vote securities, Barclays Wealth does not render any advice with respect to a particular proxy solicitation.

Notwithstanding a client's selection regarding proxies, legal notices related to investments in a client's BETA Portfolio will be sent to clients directly by Barclays Wealth. Barclays Wealth will not advise or act for clients in legal proceedings, including class action litigations and bankruptcies, involving securities in client accounts. Clients will be fully responsible for acting with respect to such legal proceedings.

Summary of Proxy Voting Policies and Procedures

Barclays Wealth has implemented written Proxy Voting Policies and Procedures ("BCI Proxy Voting Policy") that are designed to reasonably ensure that Barclays Wealth votes proxies prudently and in the best interest of its advisory clients for whom the advisor has voting authority. The BCI Proxy Voting Policy also describes how Barclays Wealth addresses any conflicts that may arise between its interests and those of its clients with respect to proxy voting.

Barclays Wealth's Proxy Committee is responsible for developing, authorizing, implementing and updating the BCI Proxy Voting Policy, overseeing the proxy voting process and engaging and overseeing any independent third-party vendors as voting delegate to review, monitor and/or vote proxies. In order to apply the BCI Proxy Voting Policy in a timely and consistent manner, and to the extent permitted under contract, Barclays Wealth uses RiskMetrics/ISS Governance Services ("ISS") to vote proxies in accordance with the Barclays Wealth's voting guidelines.

To obtain a copy of Barclays Wealth's BCI Proxy Voting Policy, please call Barclays Wealth (toll-free) at 1-800-253-4626. Clients may also obtain information about how Barclays Wealth voted their specific proxies by calling their Investment Representative.

Fees

Information about the Program Fees

Barclays Wealth will charge a single Program fee covering discretionary investment management, brokerage and custodial services, the services the client receives from Barclays Wealth Investment Representatives, and the communications clients are provided to keep them informed about their Accounts.

Program fees will be charged quarterly in arrears and deducted directly from a client's Account. Fees will begin accruing as soon as the Account is funded by the client. The Program fee for each quarterly period will be determined as follows: (Average Daily Account Value) x (Fee Rate) x (Days in Period)/(Days in Year). Barclays Wealth reserves the right to amend Program fees at any time upon thirty (30) days' prior written notice to clients. Please see the BETA Program Client Agreement for additional information about Program fees and minimums.

The Program fees shown below are expressed as a percentage of assets under management in an Account and is based on the amount of the initial investment in the Account. **The following table sets forth the standard range of Program annual fees effective March 31, 2011:**

Initial Investment	Fee
\$200,000 - \$499,999	1.25%
\$500,000 - \$999,999	1.15%
\$1,000,000 - \$1,999,999	1.05%
\$2,000,000 - \$4,999,999	0.90%
\$5,000,000 - \$9,999,999	0.80%
\$10,000,000 - \$19,999,999	0.70%
\$20,000,000 +	negotiable

The Program fee may be negotiable based upon a number of factors including, but not limited to, the size of the Program account and the nature of the client's relationship with Barclays Wealth. Note that there may be some fee schedules that are no longer offered to new clients. Additionally, some clients may pay different fees which may be higher or lower and that are not currently available.

For clients who invest in a particular money market fund in connection with the Program through the Barclays Wealth Cash Sweep Program, Barclays Wealth may be compensated for providing transfer agency, shareholder servicing, distribution and/or custodial services with respect to such funds. The particular cash sweep product may be considered part of the cash component of the particular BETA Portfolio, and a client will not be charged a separate fee for this product. The Program fee will not be reduced by amounts received by Barclays Wealth with respect to its services to such money market funds.

The Investment Representative for an Account will receive a portion of the fee charged to the Account.

Cost for Clients

Participation in the Program and the payment of the inclusive Program fee may cost a client more or less than the client would pay if the client were to purchase separately the services provided under the Program. Factors that bear upon the cost of the Program wrap fee arrangement in relation to the cost of the same services purchased separately include, among others, the expected and/or historical size or number of trades for the account, the type and size of the account and the number and range of supplementary advisory and client-related services provided to the account.

Furthermore, an investor could invest directly in the securities included in a Portfolio outside of the Program without incurring the Program fee, but such an investor would not receive the active management services Barclays Wealth provides and may incur transaction and redemption charges.

Other Fees and Expenses

In addition to the Program fees described above, clients may bear additional fees or charges relating to transactions which are conducted by broker-dealers other than BCI. These additional fees and charges may include any execution or service charges, dealer mark-ups and mark-downs, odd-lot differentials, exchange fees, transfer taxes, electronic fund transfer fees, and any charges mandated by law.

Compensation for Recommending the Wrap Fee Program

A portion of the fees and charges under the Program may be paid to Barclays Wealth Investment Representatives or employees of BCI affiliates in the event that such persons introduce the Program to clients. Such payments may be made for the duration of the Accounts. The amount of the fees received by Barclays Wealth Investment Representatives and/or employees of BCI affiliates may be greater if the client participates in the Program than they would be if the client paid separately for investment advice, brokerage and other services. Therefore, Barclays Wealth Investment Representatives and employees of BCI affiliates may have a financial incentive to recommend the Program over another alternative.

ACCOUNT REQUIREMENTS AND TYPES OF CLIENTS

Account Requirements

To open an Account, a client must generally deposit at least \$200,000 in cash. Subsequent contributions to an Account may be in any amount. Barclays Wealth reserves the right to close an Account if the Account balance falls below the minimum initial investment due to withdrawals. Barclays Wealth may waive the minimum initial investment and balance requirement in its sole discretion.

Types of Clients

Barclays Wealth may recommend the Program to different investors with substantially similar investment objectives. Subject to a determination by Barclays Wealth that the Program is suitable for a particular client, the Program is available to any of Barclays Wealth's current or potential clients, including, but not limited to, individuals, joint accounts, plans, trusts, other pooled investment vehicles, charitable organizations, corporations or other business entities.

Termination of BETA Program Accounts

The BETA Client Agreement may be terminated at any time on written notice by Barclays Wealth or the client, and termination will become effective on receipt of such notice. The procedures and conditions pursuant to which Barclays Wealth or any client may terminate the BETA Client Agreement are described in the BETA Client Agreement. If the BETA Client Agreement is terminated, the Program fee will be pro-rated until such time as the assets are transferred out of the Account. Termination of the BETA Client Agreement will not affect or preclude the consummation of any transaction initiated prior to termination.

PORTFOLIO MANAGER SELECTION AND EVALUATION

Barclays Wealth does not select or recommend portfolio managers in connection with the Program. Please see the section of this Brochure entitled "Services, Fees and Compensation" for a discussion of the investment selection and due diligence process for ETFs and ETNs that are made available through the Program.

CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGERS

Barclays Wealth does not select or recommend portfolio managers in connection with the Program. However, as noted above, each client is asked to complete a Suitability Questionnaire prior to opening an account. The Investment Representative will rely on this information when identifying an initial Portfolio for a client, and will continue to rely on this information during the time a client remains invested in a Portfolio. Therefore, it is important that the information a client provides to Barclays Wealth in the Suitability Questionnaire is accurate and complete. Any changes to such information should be provided to the Investment Representative on a timely basis.

An investment representative may consider assets that are managed outside of the Program in connection with the identification of an initial Portfolio for the client.

CLIENT CONTACT WITH PORTFOLIO MANAGERS

Barclays Wealth does not select or recommend portfolio managers in connection with the Program. However, Barclays Wealth will make available on request appropriate investment personnel, including potential representatives of the Portfolio Management Team, who are knowledgeable about the client's account and its management. A Barclays Wealth Investment Representative may elect to participate in any communications involving representatives of the Portfolio Management Team.

ADDITIONAL INFORMATION

Disciplinary Information

Below are summaries of certain legal or disciplinary events that may be material to a client's decision whether to retain Barclays Wealth. Additional information regarding these legal and disciplinary events is available in Part 1 of BCI's Form ADV at www.adviserinfo.sec.gov.

Barclays Bank PLC ("BBPLC") has disclosed in annual results announcements, annual reports and accounts and Forms 20-F and other publicly available filings since 2007 that it has been conducting an internal review of its conduct with respect to U.S. dollar payments made between January 1, 2000 and July 31, 2007, involving countries, persons and entities subject to U.S. economic sanctions and that it has been reporting the results of that review to the U.S. Authorities (as defined below). BBPLC announced on August 18, 2010 that it had reached settlements (the "Settlements") with the United States Department of Justice, the Manhattan District Attorney's Office, and the US Department Of Treasury's Office of Foreign Assets Control ("OFAC") (together the "U.S. Authorities") in relation to the investigation by those agencies into compliance with U.S. sanctions and U.S. dollar payment practices. In addition, an Order to Cease and Desist has been issued upon consent by the Federal Reserve Bank of New York and the New York

State Banking Department. BBPLC has agreed to pay a total penalty of US\$298 million and has entered into Deferred Prosecution Agreements covering a period of 24 months. The Deferred Prosecution Agreements mean that no further action will be taken against BBPLC by the U.S. Authorities if, as is BBPLC's intention, for the duration of the defined period it meets the conditions set forth in its agreements with the U.S. Authorities. The Settlements did not involve Barclays Wealth or its investment advisory activities and the Settlements will not have any impact on clients' account or the services that Barclays Wealth provides to clients.

On January 14, 2011, BBPLC reached a settlement with the Financial Services Authority ("FSA") in which the FSA alleged that BBPLC violated Principle 9 and rules COB 5.3.5 R and COBS 9.2.1 R because it failed to take reasonable care to ensure the suitability of the advice it gave with respect to two funds that it sold, the Aviva Global Balanced Income Fund and the Aviva Global Cautious Income Fund. BBPLC agreed to a fine of approximately US\$12 million, to pay restitution to any customers whose sales were deemed unsuitable and to enhance its sales processes.

On May 6, 2007, BBPLC, without admitting or denying the findings contained therein, consented to the issuance of a court order in which the SEC found that BBPLC violated Section 17(a) of the Securities Act of 1933, Section 10(b) of the Securities Exchange Act of 1934 and Exchange Act Rule 10b-5 by engaging in the purchase and sale of certain distressed debt securities while aware of material non-public information concerning such debt issuers and not enforcing trading restrictions when in possession of material non-public information. Based on these findings, BBPLC agreed to a fine of US\$6 million, disgorgement of approximately US\$4 million and prejudgment interest of approximately US\$1 million.

Other Financial Industry Activities and Affiliations

Other Business Activities

BCI's principal business is that of a registered securities broker-dealer and provider of investment banking services. BCI's principal activities include securities and commodities trading as principal and agent, securities underwriting, investment banking and financial services and investment management and wealth services. Its current client base is primarily large corporate, government and institutional clients. BCI is a registered securities broker-dealer, commodity pool operator, commodity trading adviser and futures commission merchant. In addition, certain of BCI's management persons may be registered representatives or associated persons of BCI to the extent necessary or appropriate to perform their responsibilities.

Barclays Wealth generally executes client trades through BCI. BCI may receive compensation including, but not limited to, commissions when it executes transactions for advisory clients. Additional information about Barclays Wealth's brokerage practices is available in the section of this Brochure entitled "Brokerage Practices."

Other Financial Industry Activities or Affiliations

BCI is headquartered in New York with 12 registered domestic branch offices. As the Barclays Bank PLC "4(K)(4E)" securities subsidiary under the Bank Holding Company Act, BCI is permitted to engage in securities underwriting, dealing and market-making activities. BCI's activities include transactions in equity and debt securities, asset-backed securities, agency mortgage-backed securities, international debt securities, and other corporate related securities and securities lending. BCI is also a primary dealer in U.S. government securities. BCI is under the control of Barclays Bank PLC, which is a bank and both a non-U.S. broker-dealer and non-U.S. investment adviser with a licence to provide, in various jurisdictions, investment and banking products.

Barclays Wealth may recommend that clients invest in certain separate accounts and investment products managed or sponsored by BlackRock Investment Management, LLC ("BlackRock"), which is affiliated with Barclays Wealth by virtue of an equity ownership interest in BlackRock, Inc. As a result, BCI and its affiliates may benefit when client assets are invested in investment products managed by

BlackRock to a greater extent than from advisory services and investment products managed or sponsored by other firms in which BCI and its affiliates do not have a similar economic interest.

Barclays Wealth serves as investment adviser for the Barclays Wealth Advisor Series ("BWAS") Funds. BCI and its affiliates may also serve as sponsor or placement agent for certain private investment funds and feeder funds offered to Barclays Wealth clients.

Barclays Wealth may recommend that clients invest in certificates of deposit ("CDs") that are issued by Barclays Bank PLC, NY Branch ("BBNY"), an affiliate of Barclays Wealth. BBNY may economically benefit from the sales of CDs to Barclays Wealth clients. As a result, BCI and its affiliates may benefit from increased sales of CDs issued by BBNY.

Barclays Wealth may offer clients cash sweep options called the Insured Network DepositsSM ("IND") and Insured Network Deposits BusinessSM ("INDB") under which available cash in a client's account may be deposited into interest-bearing deposit accounts at up to 20 banks. The first bank will receive up to the \$250,000 of the available cash in a client's account or \$500,000 for joint accounts. Once this total has been reached, the next \$250,000 (or \$500,000 for joint accounts) will be deposited in the next bank that is participating in this program. This process will continue until all of the available cash has been deposited or, if the client has more than \$5,000,000 (\$10,000,000 per joint account) ("Excess Cash"), the Excess Cash will be placed in one bank. Clients may specify certain banks as ineligible to hold their available cash. Unless the client specifies otherwise, Barclays Bank Delaware (Member FDIC) will be the bank that receives the first \$250,000 of the client's available cash and will hold any Excess Funds. Because Barclays Bank Delaware is affiliated with BCI, Barclays Wealth and its affiliates may benefit more from having the client's available funds deposited at Barclays Bank Delaware than at an unaffiliated bank.

Certain management persons of Barclays Wealth are also directors, trustees and/or officers of the entities described above. In carrying out their responsibilities, these management persons may have some responsibility for the business of these affiliates and the compensation of these management persons may be based, in part, on the profitability of other parts of BCI.

Barclays Wealth has established a variety of restrictions, policies, procedures, and disclosures designed to address potential conflicts that may arise between Barclays Wealth, its management persons and its affiliates. Additional information about these conflicts and the policies and procedures to address them is provided below in the subsections entitled, "Code of Ethics", "Participation or Interest in Client Transactions" and "Participation or Interest in Personal Trading".

Receipt of Compensation from Investment Advisers

Barclays Wealth does not recommend or select other investment advisers for its clients in connection with the Program.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

The Barclays Wealth Code of Ethics (the “Barclays Wealth Code”) acknowledges Barclays Wealth’s responsibilities as a fiduciary and states Barclays Wealth’s firm commitment to high ethical standards and adherence to not only the letter but also the spirit of all applicable laws and regulations. The Barclays Wealth Code addresses general standards of business conduct related to the provision of advisory services, compliance with applicable federal securities laws and regulations, procedures for reporting violations, safeguarding client information, and personal conflicts of interest. Barclays Wealth has also adopted a Personal Account Dealing Policy, which requires certain supervised persons (“access persons”) to report personal securities transactions as described below and imposes other restrictions on an access person’s personal trading activity. Each supervised person receives a copy of the Barclays Wealth Code and Personal Account Dealing Policy upon hiring and annually thereafter. In addition, each supervised person is required to initially and annually certify that he or she has read, understood and complied with the Barclays Wealth Code and acknowledge receipt of any amendments to the Barclays Wealth Code.

The Barclays Wealth Personal Account Dealing Policy allows access persons to maintain personal securities accounts provided any personal investing by an access person in any accounts in which he or she has a beneficial interest, including any accounts for any immediate family or household members, is consistent with Barclays Wealth’s fiduciary duty to its clients and consistent with regulatory requirements. The Barclays Wealth Personal Account Dealing Policy also requires pre-approval for transactions involving “covered securities” and restricts trading by access persons of securities on the BCI Watch List and Restricted List.

Barclays Wealth clients may request a copy of the Barclays Wealth Code by contacting the client service division at Barclays Wealth at 800.253.4626.

Participation or Interest in Client Transactions

Barclays Wealth and its affiliates are engaged in providing a wide variety of financial services and, as a result, may serve in various capacities in connection with the separate accounts and investment products and the managers and sponsors of those separate accounts and investment products. Barclays Wealth and its affiliates provide investment banking services, advisory services, prime brokerage services, brokerage services, placement agent, referral or other services for some or all of the separate accounts and investment products in which Barclays Wealth recommends allocations and/or invests client assets. In addition, Barclays Wealth and its affiliates may receive advisory and other fees and expenses, distribution, administrative and shareholder servicing, prime brokerage, placement agent, interest and other fees or compensation from the separate accounts and investment products and the managers and sponsors of those separate accounts and investment products with which clients invest some or all of their assets. The fees and profits earned by Barclays Wealth and its affiliates on transactions for or with client accounts are in addition to the investment advisory and other fees clients pay Barclays Wealth. Barclays Wealth and its affiliates will not be required to share such compensation with client or to offset such compensation against fees and expenses clients may otherwise owe Barclays Wealth or its affiliates.

As a consequence of BCI’s other activities, Barclays Wealth is likely to buy or sell for its clients securities or investment products in which BCI has a direct or indirect financial interest. Such financial interest could include, but is not limited to, BCI’s role as a market-maker in the security, manager or co-manager or other participant in the underwriting of initial and secondary public offerings of securities, or financial advisory services provided to a securities issuer, such as merger and acquisition strategy or corporate finance. In such instances, the purchase or sale of a security as directed by Barclays Wealth on behalf of its clients may have an impact on the price of such security, which may indirectly benefit (or act to the detriment of) BCI. As such, Barclays Wealth may be deemed to have a conflict of interest. In addition,

BCI and its affiliates may buy and sell securities that are bought and sold in the accounts of Barclays Wealth clients.

Additionally, to the extent otherwise permitted by law, Barclays Wealth may receive remuneration, compensation, or other consideration for directing client orders to particular broker-dealers or market centers for execution.

When appropriate and permitted by law, Barclays Wealth may utilize investment products or services, including sweep vehicles (collectively "Cash Investments"), from which Barclays Wealth derives compensation and which Barclays Wealth has an incentive to use instead of other similar investments which could be more or less beneficial to a client. Barclays Wealth acts in various capacities with respect to such products and services and receives fees for doing so. The use of Cash Investments for managed accounts, either in "sweep" arrangements, for temporary investment purposes or otherwise, will result in Barclays Wealth earning advisory, distribution or other fees in addition to the fees described herein. Barclays Wealth may also receive a benefit from its possession and temporary investment of cash balances in managed accounts prior to investment, in a sweep arrangement or otherwise.

Barclays Wealth and its affiliates will on an overall basis receive higher fees, compensation and other benefits if client assets are allocated to ETFs or ETNs managed or sponsored by BlackRock. Barclays Wealth and its Investment Representatives, therefore, have a financial incentive to recommend or select affiliated ETFs or ETNs.

Best Execution

Under the terms of its investment advisory agreements for the Program, Barclays Wealth has the discretion to select broker-dealers to execute trades for Program accounts, subject to its duty of best execution. As a general matter, BCI will be selected to act as executing broker-dealer because the inclusive fee paid by each client includes commissions charged by BCI and its affiliates for executing trades in Program accounts. However, other broker-dealers may be used from time to time when deemed appropriate or when BCI and its affiliates are otherwise restricted from trading. In selecting other broker-dealers, Barclays Wealth will take into account the net price (after giving effect to brokerage commissions and other costs) as well as other factors, such as capital position of the broker-dealers, ability to consummate and clear trades in an orderly and satisfactory manner, consistent quality of service, risks taken in positioning a block of securities and broad market coverage.

Client trades executed through BCI are subject to BCI's best execution policy, which requires BCI to use "reasonable diligence" to learn the best market for a security that is the subject of a customer order, and to buy or sell in that market to obtain for the customer the best price possible under prevailing market conditions. Although price is generally the most important determinant in any transaction, many other factors may be considered before a trade is executed, including general market conditions; character of the market for the particular security (e.g., price, volatility, relative liquidity, and pressure on available communications); size and type of the transaction; and time limitations (market vs. limit order). BCI will use reasonably available sources of relevant information regarding the current market value of the security, which could include inter-dealer broker screens; recent transactions in the same or a comparable security and quotes from other dealers.

BCI will provide execution services relative to the purchase and/or sale of securities for Program client accounts where the client has so agreed and will be entitled to receive compensation for such services. Any such transactions are executed in compliance with Section 11(a) of the Securities Exchange Act of 1934 and Rule 11a2-2(T), to the extent applicable.

Principal Transactions

In the case of certain advisory accounts, BCI or an affiliate of BCI may, for its own account, buy securities from or sell securities to an advisory client (a "principal transaction"), when permitted by law. In these instances, BCI, in accordance with Section 206(3) of the Advisers Act, will disclose to the advisory client

in writing before the completion of the transaction the capacity in which Barclays Wealth is acting and obtain specific consent from the advisory client for such transaction prior to settlement.

Agency Cross Transactions

With respect to certain portfolio transactions conducted on behalf of advisory client accounts, when appropriate and permitted by law, BCI or an affiliate of BCI may act as broker for the party or parties on both sides of the transaction (an “agency cross transaction”). BCI or its affiliate will receive a brokerage commission from the other party with respect to the transaction, and as such BCI will have a potentially conflicting division of loyalties and responsibilities. Barclays Wealth will obtain written consent from its advisory clients prospectively for any agency cross transactions and such transactions will be conducted in accordance with Rule 206(3)-2 of the Advisers Act. An advisory client may revoke its written consent at any time by written notice to the Barclays Wealth.

Cross Transactions

With respect to certain portfolio transactions conducted on behalf of advisory client accounts, when appropriate and permitted by law, Barclays Wealth may cause client accounts to engage in a cross transaction between two or more of its client accounts without involving a broker-dealer or sending the orders to the market (a “cross trade”). In a cross trade, Barclays Wealth may have a potentially conflicting division of loyalties and responsibilities to both sides of the cross trade. Barclays Wealth will only execute cross trades to the extent consistent with best execution and so long as no client is disfavored by the cross trade.

Participation or Interest in Personal Trading

Barclays Wealth and its affiliates may give advice and take action in the performance of their duties for any of their other clients or accounts, including their own accounts, that may differ from the timing or nature of the action with respect to clients’ accounts. Barclays Wealth and its affiliates may receive more or less compensation for services provided to other clients or accounts, including their own accounts, as compared to the compensation they receive from the client accounts. Barclays Wealth is not under any obligation to recommend that an advisory client purchase or sell any security or other instrument that Barclays Wealth or its affiliates may purchase or sell for their own accounts or recommend for the purchase or sale for the account of another client, if in the discretion of Barclays Wealth, such action is not practical or desirable for the client.

Barclays Wealth’s access persons are prohibited from engaging in transactions that are inconsistent with the duties owed to their clients. Before any access person engages in a transaction for their personal account, they must obtain pre-approval from Barclays Wealth’s compliance team. The Personal Account Dealing Policy prohibits access persons from engaging in any transaction if the access person knows, or might reasonably be expected to have known, that an advisory client is dealing in the same security or underlying instrument or the transaction involves a security or underlying instrument that is the subject of orders that are being solicited, research being written or oral communications.

Managing Conflicts Associated with Participation or Interest in Client Transactions

Barclays Wealth participates in a comprehensive compliance program and has adopted policies and procedures that impose certain conditions and restrictions as to transactions for proprietary accounts or the accounts of employees. Barclays Wealth instills in its employees assigned to its advisory business an awareness of the fiduciary principles that govern its business and a sensitivity to conflicts of interest that may arise as a result of its business. Barclays Wealth also has implemented information barriers between itself, BCI and BCFS – Americas, and between itself and other divisions within the Barclays Group. Such policies and procedures are reasonably designed to detect and prevent, among other things, any improper or abusive conduct wherever any potential material conflict of interest may exist with respect to a customer or client.

Review of Accounts

General Description

Tactical Asset Allocation changes will be implemented within the Portfolios on at least a quarterly basis. In addition, the Portfolio Management Team's decisions and transactions are reviewed by the BWGIAC and the Committee on an on-going basis.

The Branch Administrative Manager, or his or her delegates, periodically reviews client accounts in order to assess whether the Portfolio continues to be appropriate to meet client investment objectives.

Barclays Wealth may conduct a review of a client account if a client contacts Barclays Wealth to request changes to their investment objectives or in response to significant changes to the portfolio or the account that Barclays Wealth deems sufficient to warrant such a review. Barclays Wealth may also review the performance and trading activity of particular client accounts as part of a broader review of an investment strategy.

Client Reports

Clients are kept informed of account activity through written confirmations of all portfolio trades should the clients elect to receive them, and a monthly statement sent for each month in which there is portfolio activity. A monthly account statement and quarterly performance reports will also be sent to a client. A client may not receive the first quarterly performance report until the end of the first full calendar quarter following the client's initial investment. Clients should carefully review the materials and reports and report any discrepancies to the Investment Representative servicing their Account immediately.

Client Referrals and Other Compensation

Barclays Wealth on occasion may refer a client to a third party and receive in return some economic benefit from the third party. Such referral fee arrangements will be structured in accordance with applicable law. If a client is referred to a third party, the client must sign documentation acknowledging such referral fees.

As described above, a portion of the fees and charges imposed by Barclays Wealth is paid to Barclays Wealth Investment Representatives and may be paid to employees of BCI affiliates in the event that such persons introduce Program accounts or provide services to the accounts.

In addition, Barclays Wealth may enter into third party solicitation agreements for certain advisory products for marketing purposes. Under such agreements, the third party may refer or solicit clients to Barclays Wealth, as appropriate, and receive compensation for such services. As a result of these arrangements, fees paid by certain Barclays Wealth clients may differ from (and be higher or lower than) the standard rate. All compensation paid to the third party soliciting or referring the client and the structure of the agreement will be disclosed to the client as required by applicable law.
