This wrap fee brochure provides information about the qualifications and business practices of Chase Investment Services Corp. If you have any questions about the contents of this brochure, please contact us at 800-392-5749. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission ("SEC") or by any state securities authority.

Additional information about Chase Investment Services Corp. also is available on the SEC's website at www.adviserinfo.sec.gov. Registration with the SEC or with any state securities authority does not imply a certain level of skill or training.

ITEM 2 – MATERIAL CHANGES

This Brochure is a new document prepared to comply with the SEC's 2010 amendments to the Form ADV and effective in 2011. In the future, this item will provide a summary of material changes made to this Brochure since the last annual update.

ITEM 4 – SERVICES, FEES AND COMPENSATION

Description of Firm and Advisory Services

Chase Investment Services Corp. ("CISC" or the "Firm") is a wholly-owned subsidiary of JPMorgan Chase & Co. and is registered as a broker dealer with the U.S. Securities and Exchange Commission and is a member of FINRA. CISC's investment advisory services are limited to sponsoring wrap fee accounts. Currently, CISC sponsors three wrap fee programs:

- *Portfolio Manager Program ("PMP")*: PMP provides clients with access to investment advisory and brokerage services and recommendations of professional portfolio managers. PMP clients pay an all-inclusive, asset-based fee that covers investment management, execution, custody and reporting services.
- *Chase Strategic Portfolio ("CSP")*: CSP is a unified managed account that provides clients with access to discretionary investment advisory and brokerage services and allocates investment assets among mutual funds and exchange traded funds, and at certain asset levels, individual securities invested in accordance with models provided by one or more portfolio managers. CSP clients pay an all-inclusive asset based fee that covers investment management, asset allocation, rebalancing, execution custody and reporting services.
- *Mutual Fund Advisory Portfolio ("MFAP")*: MFAP provides clients with access to discretionary advisory and brokerage services and allocates investment assets among mutual funds and exchange traded funds. MFAP Clients pay an all-inclusive asset-based fee that covers investment management, asset allocation, rebalancing, execution, custody and reporting services.

This Wrap Fee Brochure provides information about CISC and Portfolio Manager Program ("PMP" or the "Program"). Information about other wrap fee programs sponsored by CISC is contained in separate Wrap Fee brochures, which can be obtained upon request from CISC.

PORTFOLIO MANAGER PROGRAM

Program Description. PMP provides CISC clients with access to a select group of professional Portfolio Managers to provide discretionary investment management in separately managed accounts, and brokerage and reporting services in connection with the accounts. Clients select the Portfolio Manager and investment style from among the Portfolio Managers and investment styles made available by CISC. Program clients pay an all-inclusive asset based fee that covers investment management, execution, custody and reporting services.

Client Profile and Account Opening. Prior to opening a Program account, the CISC Investment Advisory Representative ("IAR") meets with the Client to create a Client Profile based upon the Client's responses to questions regarding their financial situation, investment experience, investment objectives, time horizon and risk tolerance. The information is evaluated and incorporated into an Investment Proposal. Based on the information in the Client Profile and Investment Proposal, the IAR will assist the Client in selecting an investment style and a Portfolio Manager. Although only a single Portfolio Manager will be selected for each of the Client's PMP accounts, the Client may open multiple PMP accounts as part of their overall strategy.

At the Client's request, CISC may assist the Client in developing one or more asset allocations based upon information that the Client has provided to CISC. The Client is solely responsible for making all decisions regarding the adoption and implementation of any investment objectives or policies and any asset allocation. If the Client adopts an asset allocation strategy, the asset allocation may change over time due to fluctuations in market value of assets and/or additions or withdrawals by the Client. The Client is solely responsible for monitoring its investment objectives and policies, including whether the management of the assets conforms to those investment objectives and policies. The Client is also solely responsible for monitoring any asset allocation on an ongoing basis and determining whether to rebalance and/or reallocate assets among strategies. CISC is not obligated to review, update, rebalance or provide any other ongoing advice with respect to any asset allocation or the Client's investment objectives and policies. The Client retains final decision-making authority and responsibility for the selection of, and any changes made to, an asset allocation.

Upon the Client's selection of a Portfolio Manager, the Client will sign the Investment Proposal, a Client Services Agreement and a CISC brokerage account application and agreement. The Client may request reasonable restrictions on management of their account, subject to the Portfolio Manager's acceptance. Any restrictions a Client imposes on the management of the account may cause the account to perform differently than similar unrestricted accounts.

Clients will receive their selected Portfolio Manager's Form ADV Part 2A and Part 2B or an equivalent disclosure document ("Portfolio Manager Disclosure Document") from CISC. Clients should review the Portfolio Manager's Disclosure Document carefully for important information about the Portfolio Manager.

Custodian. National Financial Services LLC ("NFS"), an SEC registered NYSE member broker-dealer, provides clearing and trade execution services for and serves as the custodian for the Program accounts. NFS is a "qualified custodian" as defined in Rule 206(4)-2 under the Investment Advisers Act of 1940 (the "Advisers Act"). NFS is not an affiliate of CISC.

Trade Confirmations, Statements and Performance Reporting. Clients will receive trade confirmations of all transactions but may waive receipt of individual confirmations and instead receive a periodic statement of all transactions that will contain the information required to be in a confirmation. A Client who elects to receive a periodic statement in lieu of individual confirmations may later choose to receive from CISC, at no additional cost, transaction confirmations for any prior transactions effected during the period in which the Client previously elected not to receive separate transaction confirmations. Clients will not pay a different fee based upon this election and may rescind this election at any time upon written notice to CISC. Clients will receive account statements from the custodian of the program at least quarterly (monthly for months when there is activity in their account). Clients will also receive quarterly performance reports from an independent third party administrator. The quarterly performance report contains general market commentary and analysis, charts and graphs detailing the quarterly performance of the account versus relevant industry benchmarks and indices, and the trading activity in the account during the quarter. CISC performs periodic testing of a limited number of randomly selected Program accounts to validate the administrator's performance calculations.

Wrap Account Fees

General. Clients pay an annual asset based account fee for the Program. This fee includes CISC's consulting services, the services of the Portfolio Managers and CISC's other services including trade execution, administration, reporting services, and custody. The standard fee schedule for the Program is set forth below, expressed as an annual percentage. The account fee for Program accounts will be computed and payable quarterly in advance based upon the average daily balance of Program account assets during the preceding quarter. No minimum fee requirement is applied to accounts. Program accounts will be charged the appropriate fee percentage for the account value or for the value of assets in managed accounts they have combined for fee calculation purposes. Unless the Client has elected to pay the account fee from a related CISC managed account, if there are sufficient funds in the money market sweep fund ("MMF") to pay the entire amount, the quarterly fee will be paid out of the MMF within the Program account. If the MMF does not have sufficient funds to pay the fee in its entirety, at the discretion of the Portfolio Manager, securities in the portfolio will be sold to pay the entire fee rather than paying any of the fee from the MMF. Fees for partial quarters upon the inception or termination of a Program account will be prorated. If, due to withdrawals, payment of fees, or otherwise, the value of the MMF falls to zero or below, at the discretion of the Portfolio Manager, sufficient securities in the portfolio will be sold to clear the debit and replenish the MMF to its current target amount. If a Program account is terminated during a quarter for which a fee has been paid in advance, CISC will refund a prorated portion of the account fee attributable to the remainder of the quarter. Account fees for Program accounts are:

FEE SCHEDULE

Equity Accounts			
Account Value	Annual Fee	Portfolio Manager Retention	Quarterly Fee
First \$500,000	2.90%	.35-.50%	.725%
Next \$500,000	2.25%	.35-.50%	.5625%
Next \$1,000,000	1.85%	.35-.50%	.4625%
Next \$2,000,000	1.75%	.35-.50%	.4375%
\$4,000,000 or more	1.65%	.35-.50%	.4125%

Fixed Income Accounts			
Account Value	Annual Fee	Portfolio Manager Retention	Quarterly Fee
First \$500,000	1.50%	.20-.35%	.375%
Next \$500,000	1.35%	.20-.35%	.3375%
Next \$1,000,000	1.10%	.20-.35%	.275%
Over \$2,000,000	.85%	.20-.35%	.2125%

Waivers, Reductions and Negotiated Fees. A reduction in or a complete waiver of the Account fee may be negotiated at the discretion of CISC. Fees may be discounted for employees of CISC or its affiliates. From time to time Program account fees may be increased. CISC will promptly notify the Client whenever a fee increase is made to the Program. The Account fee includes investment management, brokerage, execution, custody and reporting services. Client may combine assets held in other CISC advisory products to determine the applicable fee percentage. Advisory Accounts under the same social security number are automatically linked for fee calculations; Client must submit a Householding request form to link other related advisory accounts. When the combined assets in the linked accounts are sufficient to reach the next advisory fee breakpoint, the Client will benefit from a lower overall fee. The combined fee is then divided ratably and assessed over all of the related advisory accounts. Client may request that one of the related accounts pay the entire fee for the combined holdings.

The Program account fees may be more or less than the cost of paying for investment advice, trade execution, custody and reporting services separately, depending on the cost of these services if provided separately and the level of trading activity in the Client's account.

Other Fees and Expenses. The account fee does not include various additional fees that may be incurred within Client's Program account, including, but not limited to, Fund fees and expenses, transfer taxes, electronic fund and wire fees, IRA and retirement plan account fees, margin interest, ADR fees, or any other fees that would reasonably be assessed to a brokerage account. If these fees are for services performed by CISC or their affiliates, CISC or an affiliate may receive all or a portion of the revenue from the fee.

IAR Compensation. The Programs are recommended to CISC clients by IARs associated with CISC. A portion of the Program Fee paid to CISC is paid to the IAR who recommended and/or services the Program account. CISC IARs have a number of opportunities for selling products or services in their capacity as CISC registered representatives or insurance agents. Depending on a number of factors, including the size of the Program account, changes in its value over time, the number of transactions and the ability to negotiate fees and commissions, the amount of compensation a CISC IAR receives from a Program account may be more or less than CISC and the IAR would receive if the client paid separately for investment advice, brokerage and other services. Since the IAR who recommends and/or services the Program account will receive ongoing compensation as a result of Client's participation in the Program, the IAR may have a financial incentive to recommend the Program, especially if the IAR believes that this compensation would be more than if the services were provided separately or if the Client had purchased a different program sponsored by CISC.

ITEM 5 – ACCOUNT REQUIREMENTS AND TYPES OF CLIENTS

CISC offers and sells its wrap fee programs to individuals, trusts, estates, charitable organizations, and corporations and other business entities, and to a Client's assets held in certain types of retirement accounts. PMP is available to certain accounts governed by ERISA.

The Program is not intended for investors who seek to maintain control over trading in their account, who have a short-term time horizon (or expect ongoing and significant withdrawals), or who expect or desire to maintain consistently high levels of cash or money market funds.

Participation in the Program generally requires a minimum \$100,000 investment for Equity Accounts and \$250,000 for Fixed Income Accounts. Certain Portfolio Managers may require higher minimum amounts. If a Program account falls below the minimum, the account is subject to termination at the discretion of CISC or the Portfolio Manager. Under normal market conditions, it may take 2-4 days to process the investment of funds in Program accounts (whether initial

investments or additions) and requests to sell or withdraw funds from Program accounts, but these timeframes may be longer during conditions of unusual market volatility.

ITEM 6 – PORTFOLIO MANAGER SELECTION AND EVALUATION

Introduction

The Portfolio Managers available in PMP include affiliated and non-affiliated Portfolio Managers. CISC uses the same criteria to evaluate affiliated and non-affiliated Portfolio Managers. CISC may have a conflict of interest in including affiliated Portfolio Managers in the Program because CISC and/or its affiliates will receive additional compensation when clients select an affiliated Portfolio Manager. For more information, see *Potential Conflicts of Interest* below.

CISC is not responsible for the performance of any Portfolio Manager in the Program or any Portfolio Manager's compliance with laws or regulations, or other matters within the Portfolio Manager's control. Each Portfolio Manager is solely responsible for the management of its designated accounts. CISC coordinates services with the Portfolio Manager and NFS, but is not responsible for coordinating services among multiple Portfolio Managers if the Client has allocated assets among more than one Portfolio Manager.

CISC has engaged an unaffiliated third party consultant, Prima Capital Holding, Inc. ("Prima Capital"), to perform due diligence on affiliated and unaffiliated Portfolio Managers for potential inclusion in the Program, and to recommend the selection of Portfolio Managers for the Program, monitor the selected Portfolio Managers and recommend the termination of Portfolio Managers to the CISC Investment Committee (the "Investment Committee"), an internal committee comprised of senior management of CISC.

Initial Portfolio Manager Selection Process

Prima Capital evaluates Portfolio Managers using quantitative and qualitative factors. Prima Capital may review quantitative factors such as: (1) Performance: absolute and risk adjusted returns; (2) Risk: Absolute, relative, and downside; and (3) Consistency of returns. Qualitative factors that are reviewed may include the overall process and philosophy, Portfolio Manager/team tenure and resources allocated to each strategy. The Investment Committee approves Portfolio Managers for the Program based upon the information and recommendations provided by Prima Capital and such other information and resources it deems appropriate.

Ongoing Monitoring Portfolio Managers

On behalf of CISC, Prima Capital periodically reevaluates all Portfolio Manager to evaluate the key drivers of performance, determine whether performance is in line with expectations and ensure that the Portfolio Manager's overall process and philosophy remain unchanged. Portfolio Managers that do not pass the ongoing evaluation tests may be recommended to the Investment Committee for removal from the Program.

Terminating Portfolio Managers

When the ongoing Portfolio Manager monitoring process uncovers a concern, Prima Capital may recommend to the Investment Committee that the Portfolio Manager be terminated from the Program. The Investment Committee may terminate a Portfolio Manager because of personnel turnover, organizational changes, disconnect between investment philosophy and process, loss of competitive advantage, inconsistent or unexplainable performance, and capacity constraints. If the Investment Committee approves a recommendation to terminate a Portfolio Manager, affected Clients will be notified and asked to select a new Portfolio Manager available in that asset class. If a Client does not select a new Portfolio Manager within 30 days of notification, CISC will designate a new Portfolio Manager. A new Portfolio Manager may decline the account if it deems the Client's investment restrictions unreasonable or if the Client's account is below the new Portfolio Manager's minimum account size. The new Portfolio Manager may sell securities to align the account with its investment style, which may have tax consequences.

Recommendations of Portfolio Managers for Particular Clients

In connection with opening a PMP account, Clients complete a Client Profile which requests information about the Client's financial situation, investment experience, investment objectives, time horizon and risk tolerance. Based upon this information, the Client, with the consultation of the IAR, will specify in what asset class the account will be invested. Examples of available asset classes are U.S. Large Cap Growth, U.S. Small Cap Value, Municipal Fixed Income and Taxable Fixed Income. Based upon the Client's asset class selection, the IAR will provide the Client with information about the Portfolio Managers available in the Program in the selected asset class and assist Client in selecting a Portfolio Manager.

Information about Portfolio Managers

CISC provides Clients and prospective Clients with information about Portfolio Managers that has been prepared by Prima Capital and is based on and/or incorporates information provided by the Portfolio Managers or other third parties. CISC believes this information to be accurate; however, CISC does not independently verify or guarantee the completeness or accuracy of this information. The information provided may include the Portfolio Manager's performance composites. This performance is calculated by the Portfolio Managers themselves or by third parties. This performance information is not calculated by CISC or Prima Capital and may not be calculated on a uniform and consistent basis. CISC does not independently review Portfolio Manager performance for accuracy.

Potential Conflicts of Interest

The Portfolio Managers available in the Program include Portfolio Managers affiliated with CISC. CISC may have a conflict of interest including affiliated Portfolio Manager in the Program because CISC and/or its affiliates and parent company will receive more overall compensation when those Portfolio Managers are selected by Clients. CISC manages this conflict through disclosure to Clients and by subjecting affiliated Portfolio Managers to the same selection and review process and standards as non-affiliated Portfolio Managers.

For additional potential conflicts of interest, please refer to Item 9.B., below.

ITEM 7 – CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGERS

CISC provides to the Portfolio Manager a summary of information relevant to Portfolio Manager's services to the Client, including the Client's name, address, account number, social security number or taxpayer identification number, whether the account is taxable or non-taxable, the name of the IAR, investment strategy selected, and amount invested. CISC also provides the Portfolio Manager with a copy of the Client's signed Investment Proposal and any investment restrictions requested by the Client. That information is updated if it becomes materially incorrect, such as in the event that the Client changes the investment restrictions.

ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGERS

Portfolio Managers are available for consultation by Clients upon reasonable request. Clients should contact their IAR if they wish to consult with their Portfolio Manager.

ITEM 9 – ADDITIONAL INFORMATION

CISC has been the subject of various disciplinary events that may be considered material to a client's or prospective client's evaluation of CISC's investment advisory business or the integrity of its management. The following disciplinary events all involved CISC acting in its capacity as a registered broker dealer and not in its capacity as a registered investment advisor.

A. Disciplinary Information

1. Auction Rate Securities Settlements

Between June 2009 and January 2011, CISC entered into substantially similar settlements with 42 securities regulators in connection with investigations concerning alleged misrepresentations and omissions in connection with the marketing, sale and distribution of auction rate securities ("ARS"). The principal allegations were that CISC misrepresented to customers that ARS were safe, highly liquid investments comparable to money market instruments and when the auctions that provided liquidity for ARS failed in February 2008, customers held illiquid ARS instead of the liquid, short term investments CISC had represented them to be and were unable to sell the ARS. Without admitting or denying the allegations, CISC entered into consent decrees in which CISC agreed to repurchase ARS from certain customers and paid fines, penalties, disgorgement and restitution in amounts ranging from \$42,017 to \$6,742,610 and totaling \$22,276,391.

2. On 12/21/10, CISC submitted a Letter of Acceptance, Waiver and Consent ("AWC") to FINRA pursuant to which the firm was censured, fined and required to provide remediation to customers who purchased unit investment trusts ("UITs") and did not receive applicable sales charge discounts. Additionally, CISC's UIT purchase confirmations failed to disclose that a deferred sales charge may be imposed. Without admitting or denying the allegations, CISC consented to the findings and paid a monetary fine of \$100,000.

3. On 3/23/09, CISC submitted an AWC to FINRA in connection with alleged deficiencies related to the completion of the Firm's self-assessment of mutual fund breakpoint discount compliance required pursuant to previously imposed FINRA (then NASD) requirements. Without admitting or denying the allegations, CISC consented to findings that it failed to deliver breakpoint discounts during a later review period and continued to fail to have reasonable written supervisory procedures to assure that appropriate breakpoints would be delivered to customers, and paid a monetary fine of \$32,500.

4. On 11/6/06, CISC submitted an AWC to the NASD (now FINRA) in connection with allegations that from 1/02 through 8/04, the Firm failed to establish systems and procedures to supervise the sales of 529 college savings plans. Without admitting or denying the allegations, CISC consented to the entry of the NASD's findings and paid a monetary fine of \$500,000 and agreed to compensate customers disadvantaged by the alleged supervisory failures.
5. On 3/22/05, CISC submitted an AWC to the NASD (now FINRA) in connection with alleged suitability and supervisory violations related to mutual fund sales practices between 1/02 and 7/03. The NASD alleged, among other things, that CISC made recommendations and sales of mutual funds to customers without considering or adequately disclosing on a consistent basis that an equal investment in Class A shares would generally have been more economically advantageous to customers than Class B shares due to breakpoints. Without admitting or denying the allegations, CISC agreed to the entry of the NASD's findings, paid a monetary fine of \$250,000 and agreed to a remediation plan to restore affected customers to the position they would have been in had they originally purchased Class A shares.

B. Other Financial Industry Activities and Affiliation

CISC's primary business is providing brokerage products and services as a bank affiliated broker-dealer and making available to its customers, in addition to investment advisory services, a variety of bank, securities and insurance products through its affiliates. CISC's officers, managers and IARs spend the majority of their time in administrative or supervisory duties with broker-dealer activities rather than investment advisor activities.

CISC is affiliated with several other SEC registered broker-dealers, investment companies, investment advisers, insurance agencies, mortgage companies and JPMorgan Chase Bank, N.A. Other registered investment advisers, collectively referred to as JPMorgan Asset Management, are affiliated with CISC under the common ownership of JPMorgan Chase & Co. Affiliated Portfolio Managers are subject to the same selection and review process as non-affiliated Portfolio Managers. One or more of these investment advisers are among the Portfolio Managers available in the Program and may serve as the investment adviser to the various JPMorgan Funds. Should Program Clients select an affiliated Portfolio Manager or invest in JPMorgan Funds within their Program account, CISC affiliates will benefit from such selection and/or purchase as the result of receipt of the investment advisory fees received for their portfolio management services. CISC addresses this conflict through disclosure to clients.

CISC may receive as additional compensation distribution (Rule 12b-1) fees on money market fund assets held in PMP accounts. If a Client selects a money market fund for which an affiliate of CISC serves as investment advisor, the Client will pay both its pro rata share of the money market funds advisory fees paid to CISC or an affiliate, as well as the Program fee on the assets invested in the money market fund. However, any 12b-1 fees received by CISC will be rebated to the Client's Program account.

Potential Conflicts of Interest

CISC and/or its IARs may recommend affiliated Portfolio Managers to Program clients. Selection of an affiliated Portfolio Manager is an indirect benefit to CISC since it increases the overall revenue of the parent company. CISC manages these conflicts through disclosure to clients.

Portfolio Managers may execute trades on foreign exchanges and convert them to American Depositary Receipts (ADRs) for their client's portfolios, if the total cost of the purchase and conversion is better than directly purchasing the ADRs. To the extent that a subsidiary of JP Morgan Chase assists in the conversion of foreign stock, CISC affiliates will receive additional compensation from the transaction but in no event should the total cost of the purchase and conversion costs exceed the cost if they had originally purchased the ADR in U.S. markets.

Certain Portfolio Managers seek to execute trades for institutional and other non-wrap fee clients before executing trades for clients in separately managed account programs, such as PMP. As a result, Program accounts may pay a higher price, or receive a lower price, than the Portfolio Manager's trades in the same security for institutional or other clients. Trade execution practices of the Portfolio Managers are described in the Portfolio Manager Disclosure Document, which is provided to Program Clients.

C. Code of Ethics

The Firm's Code of Ethics (the "Code") governs the conduct of IARs and other Firm employees who have access to client information. The Code requires IARs and other Firm employees with access to client information to acknowledge that they understand and are in compliance with its policies. The Code's policies require that IARs: (1) report personal securities

trades; (2) acknowledge their ongoing compliance with SEC broker-dealer and investment advisor rules and regulations; and (3) report any violations of the Code of which they are aware to the Firm's Chief Compliance Officer. Clients may telephone or write their IAR or the Firm to request a copy of the Code.

The Firm has a personal trading policy for its IARs and registered personnel and the Firm monitors the personal trading activity of each IAR in compliance with its internal supervisory process.

D. Review of Accounts

CISC IARs are available to meet with Clients upon request to discuss their Program account. CISC also contacts Clients at least once annually to determine whether there have been any changes in the Client's financial situation, investment objectives or investment restrictions that would require changes to the account. CISC personnel who are knowledgeable about the management of Client accounts are available for Client consultation upon reasonable request. To ensure that the Program and the selected Investment Strategy and Portfolio Manager remain suitable for the Client, Clients are instructed to promptly notify CISC of any material changes to their investment objectives and/or financial situation. As most Program accounts are managed in a similar manner according to the Investment Strategy selected by the Client, CISC does not review individual trades or individual Program accounts. As described in this Brochure, CISC periodically reviews the Investment Strategies and the Portfolio Managers available in the Program to assure that the Investment Strategies and Portfolio Managers continue to meet the Program's requirements. For Program accounts that have requested investment restrictions, CISC periodically monitors the accounts to ensure compliance with the requested restrictions. CISC does not provide tax advice, and the account reviews should not be construed as tax advice. Account reviews are not a substitute for careful review of account statements or tax reporting forms.

Clients receive written account statements from the custodian at least quarterly and also receive written quarterly performance reports. See "Trade Confirmations, Statements and Performance Reporting", above.

E. Client Referrals and Other Compensation

Program Accounts are offered and sold only through IARs associated with CISC. CISC has not entered into any referral arrangements with other persons or entities.

F. Financial Information

CISC does not have custody of client funds or securities or require payment of more than \$1200 in fees per client and six months or more in advance. CISC does have discretion over Program Accounts, but CISC is not aware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments to its clients, nor has CISC been the subject of a bankruptcy petition at any time during the past ten years.
