Item 4 - Advisory Business

A. Description of the Advisory Firm

Founded in 2015, Change Path, LLC (hereinafter "Change Path") is an investment advisory firm providing fee based asset management services for clients, as well as comprehensive financial planning services. Change Path is a Limited Liability Company organized in the State of Kansas.

The principal owners of Change path are CM2 Holding Company, Inc. and JRC Equity Partners, LLC.

B. Advisory Services Offered

Change Path provides Asset Management and Financial Planning Services for its clients, each of which is more fully described below. Clients collaborate with investment advisor representatives (IARs) to determine which services to employ to best help clients reach their financial goals.

Asset Management Services

Change Path's principal service is providing fee-based investment advisory services. Change Path manages investment portfolios, on a discretionary basis, in accordance with the client's objectives. Asset management services are based on the individual needs, goals, objectives, investment horizon, and risk tolerance of each client. Change Path uses a Risk Tolerance Questionnaire to gather this information and report such results on an Investment Policy Statement (IPS), which is analyzed by Change Path IARs. Once the analysis is completed, the IAR develops an investment strategy with the potential client that addresses specific investment styles and allocation of the client's assets. Asset management services include, but are not limited to Investment Strategy; Asset Allocation; Risk Tolerance; Personal Investment Policy; Asset Selection; and Regular Portfolio Monitoring. Change Path evaluates the current investments of each client, with respect to their risk tolerance levels and time horizon. Change Path will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client. Change Path may partner with Sub-Advisory firms to create and manage portfolio strategies.

Change Path offers a discretionary management program that consists of proprietary models. A Change Path IAR assists the client in completing an investment risk tolerance questionnaire which then creates an investment proposal ("Investment Proposal"). Change Path may use Unified Managed Accounts (UMA) whenever possible. This allows for multiple strategies to be managed and held within the same account. The Investment Proposal consists of model asset allocation recommendations based on the client's risk tolerance, time horizon, investment objectives and restrictions, tax status and financial sophistication. Each asset classes may include but not be limited to, stocks, exchange-traded funds ("ETFs"), mutual funds and external third-party money managers. The Investment Proposal may also recommend a percentage of the portfolio to be allocated to an Indexed Annuity product consistent with the client's investment objectives. Indexed Annuities are considered insurance products and are not sold through Change Path, but as indicated below in Item 10 Change Path IARs may also be insurance licensed. These products are sold through Creative One Marketing which is owned by CM2 Holding Company, a principal owner in Change Path as noted in subsection A above. The Change Path IAR does not have discretion over the purchase or sale of the insurance product. It is at the client's sole discretion to determine whether to include the Indexed Annuity product from the Investment Proposal within their investment portfolio. The Change Path IAR will only have discretionary trading authority over the assets included in the models. If the client chooses to include an Indexed Annuity product in their portfolio, the Change Path IAR, in their capacity as an insurance agent, will typically receive a sales

commission directly from the insurance carrier. The assets invested in the Indexed Annuity will not be included as assets under management when determining the advisory fee for the Change Path Platform service. The client's portfolio and its performance are monitored by the client's IAR.

Investments are not held by Change Path. Instead, all investments managed by Change Path through the Change Path Platform are held at the brokerage firm ("Custodian") through which transactions are placed. As noted above Change Path IARs will exercise discretionary authority granted by clients. When doing so, it allows IARs to select the securities to buy and sell, the amount to buy and sell, when to buy and sell, without obtaining specific consent from the client for each trade. Clients should be aware that IARs may make different recommendations and effect different trades with respect to the same securities and insurance products to different advisory clients. Rebalancing of the asset allocation models by Change Path will occur as necessary. Account rebalancing is accomplished by buying and selling shares of stocks, mutual funds or ETFs to reach target allocations, or moving funds between external third-party money managers to reach target allocations.

Selection of Other Advisers

Change Path has discretion to choose third-party investment advisers to manage all or a portion of the client's assets. Before selecting other advisers for clients, Change Path will always ensure those other advisers are properly licensed or registered as an investment adviser. Change Path conducts due diligence on any third-party investment adviser, which may involve one or more of the following: phone calls, meetings and review of the third-party adviser's performance and investment strategy. Change Path then makes investments with a third-party investment adviser by investing with the third-party adviser. These investments may be allocated either through the third-party adviser's fund or through a separately managed account managed by such third-party adviser on behalf of Change Path's client. Change Path will review the ongoing performance of the third-party adviser as a portion of the client's portfolio.

Recommendations of Strategies Outside the Change Path Models

In addition to the programs managed through Change Path, other programs offered by Change Path are sponsored and managed by various outside, unaffiliated registered investment advisers. Each of these programs will provide a copy of their disclosure documents (ADV Part 2A) which will further describe the program, account minimums, fees and risks. These additional disclosure documents are available from your IAR. Clients should be aware that by engaging in these services, they will pay a direct management fee to these program managers in addition to an indirect management fee to Change Path.

Financial Planning Services

Through its IARs, Change Path also offers comprehensive financial planning services for individuals, families and businesses. Financial Planning services include data gathering and analysis, along with creating a financial plan with specific recommendations and implementation advice tailored to client needs. Specific areas of advice include, but are not limited to investment planning, insurance needs assessment and advice, retirement planning, cash flow management, debt consolidation, capital needs assessments, educational planning, estate planning, and business planning.

The IAR may also, as requested, recommend changes to the client's investment portfolio or plan, either in writing or verbally. Changes in the client's financial condition, personal circumstances, goals, or general economic conditions may trigger changes in the plan. To the extent material changes have occurred to a client's circumstances or goals, or to the extent a client requests a new project, the client will be asked to sign a new Financial Planning Services

Agreement. The client may initiate contact with the client's IAR as often as needed and the IAR will schedule conferences as needed.

Clients decide which investment recommendations to accept and implement in connection with the financial plan. Clients are also free to select any brokerage, insurance or other product provider to purchase (or sell) the investments, insurance, or other products discussed with Change Path.

All planning is based on information provided by the client. It is the client's responsibility to be certain Change Path has current and accurate information to enable Change Path to prepare the initial plan, and it is the client's responsibility to inform the IAR of material changes affecting the investments and planning strategies implemented so the IAR has them for future reference.

If a conflict exists between the interests of Change Path and the interests of the client, the client is under no obligation to Change Path's recommendations and if the client elects to act on any of the recommendations, the client is under no obligation to affect the transaction through Change Path. There can be no assurance that Change Path's financial planning services or any products recommended by a financial plan are at the lowest available cost. Clients also should be aware that other advisory firms may charge lower fees for providing such services.

Information Related to the Firm's Advisory Services

Information Received by Individual Clients

Change Path will not assume any responsibility for the accuracy of the information provided by the client. Change Path is not obligated to verify any information received from the client or from the client's other professionals (e.g., attorney, accountant, etc.) and is expressly authorized to rely on such information. Under all circumstances, clients are responsible for promptly notifying Change Path in writing of any material changes to the client's financial situation, investment objectives, time horizon, or risk tolerance. In the event that a client notifies Change Path of changes in the client's financial circumstances, the firm will review such changes and recommend any necessary revisions to the client's portfolio.

Advisory Services, Agreements and Disclosures

Prior to engaging Change Path to provide Asset Management or Financial Planning Services, the client will be required to enter into one or more written agreements with Change Path setting forth the terms and conditions under which the firm shall render its services (collectively the "Agreement"). In accordance with applicable laws and regulations, Change Path will provide this brochure, the ADV Part 2B brochure that is specific to the IAR to each client or prospective client prior to or contemporaneously with the execution of the Agreement. The Agreement between Change Path and the client will continue in effect until terminated by either party pursuant to the terms of the Agreement. If the form ADV Part 2A is not delivered at least forty-eight (48) hours before the client enters into the contract, then the client has the right to terminate the contract within five (5) business days after entering into it without penalty. Upon termination, any fees paid in advance will be refunded to the client. Neither Change Path nor the client may assign the Agreement to a third party without the consent of the other party. Transactions that do not result in a change of actual control or management of Change Path shall not be considered an assignment.

Change Path will provide Asset Management and Financial Planning Services, but will not provide custodial or other administrative services. At no time, will Change Path accept or maintain custody of a client's funds or securities. Client is responsible for all custodial and securities execution fees charged by the custodian and executing broker/dealer, unless otherwise negotiated. Please refer to the Brokerage Practices section for more information.

Serving as a Sub-Advisor to Independently Sponsored Advisory Programs

Change Path may participate as a sub-advisor under other firms' advisory programs. A client of the other firm selects a registered investment advisor, such as Change Path, from a list of approved advisors to provide investment management services. Change Path receives a fee for portfolio management services provided to clients of an outside firm as outlined in a sub-advisory agreement. This agreement may also outline items such as the advisory services to be provided, the responsibilities of Change Path and the other firm and the terms of engagement including fees and termination. This agreement enables the independent investment advisor discretion, when determining the selection of investment strategies implemented, which may or may not include Change Path's proprietary models. Responsibilities such as collecting the client's investment objectives, determining the strategy best suited for the client, and communication with the client will be the responsibility of the outside firm. Change Path has no responsibility to assess the value of services provided by the outside firm, therefore the client should evaluate whether such a program is suitable for their needs and objectives, and whether comparable or similar services are available at a lower cost elsewhere.

Services Limited to Specific Types of Investments

Change Path generally limits its investment advice to mutual funds, fixed income securities, real estate funds (including REITs), insurance products including annuities, equities, hedge funds, ETFs (including ETFs in the gold and precious metal sectors), treasury inflation protected/inflation linked bonds and non-U.S. securities. Change Path may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services & Client Imposed Restrictions

Change Path offers the same suite of services to all its clients. However, specific client investment strategies and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels). Clients may impose restrictions on investing in certain securities or types of securities in accordance with their values or beliefs. To implement such restrictions, the client must inform their IAR of the restrictions in writing. If, for any reason, Change Path is unable to meet the client restrictions, the firm will notify the client. However, if the restrictions prevent Change Path from properly servicing the client account, or if the restrictions would require Change Path to deviate from its standard suite of services, Change Path reserves the right to end the relationship.

D. Wrap Fee Programs

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and other administrative fees. Change Path does not participate in any wrap fee programs.

E. Assets Under Management

Change Path has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$86,700,000.00	\$0.00	December 2016

Item 5 - Fees and Compensation

Fees paid to Change Path are for Change Path Advisory Services only. The fees do not include, for example, the fees charged by third parties such as third-party managers, or accountants and attorneys assisting with providing the client with accounting and legal advice. Change Path charges fees based on the particular types of Advisory Services to be provided. The specific fees charged by Change Path for its Advisory Services will be in each client's written agreement with the firm. Although Change Path believes its advisory fees are competitive, clients should be aware that lower fees for comparable services may be available from other sources.

Description of Fees***Asset Management Fees***

Generally, fees are negotiable and are signed and agreed to in the final fee schedule attached as Schedule A of the Client Discretionary Investment Management Agreement. IARs of Change Path, in their sole discretion, have the ability to recommend strategies outside the Change Path Platform. When using outside strategies, the Advisor's Fee is composed of, but is not limited to (i) an initial analysis and periodic re-evaluation of the client's investment objectives and needs, and discretionary allocation among portfolio managers, (ii) all advisory services, including fees of portfolio managers, (iii) Change Path Platform, including client portal, account aggregation, reporting statistics, and secure document storage vault.

Change Path's IARs are free to negotiate the fee with each client for many of the programs, including those noted above in Item 4. Thus, fees will vary from client to client and may be higher than obtainable from other advisers providing similar services, including Change Path itself. The range of fees for various programs utilized by Change Path differ but usually range between .55% - 2.25%. Program sponsors may also charge fees in these programs. Under no circumstance shall a client be assessed a total annual fee greater than 2.25%.

Fees are deducted from the client's account. Any prepaid unearned fee is prorated and returned to the client. Clients should also be aware that, absent transaction charges, total fees exceeding 2% per year are generally considered higher than those charged by other comparable programs available to a client.

The services, reports and contract termination provisions provided by these programs vary as do the costs. Clients are encouraged to obtain and carefully review the contracts and disclosure documents of the third-party manager and/or program sponsor whose services they are considering, including Part 2A of Form ADV, so they understand fully the services being provided and fees being charged. Clients are also encouraged to compare programs.

Negotiated Rate to Client

As stated within Schedule A of the Client Discretionary Investment Management Agreement may be negotiated between Change Path and the Client, but is limited to both minimum and maximum amounts as defined below. The negotiated rate is due monthly and is based on the month end balance in the client's account at the end of the billing period, after taking into account deposits and withdrawals, for purposes of determining the market value of the assets. If assets with a market value of \$10,000 or greater are deposited into or withdrawn from an account in a single day after the beginning of a billing period, the negotiated rate is prorated based on the number of days remaining in the billing period. Clients may terminate the agreement without penalty for a full refund of Change Path's fees within five business days of signing the Client Discretionary Investment Management Agreement. Thereafter, clients may terminate the Client Discretionary Investment Management Agreement generally with 30 days' written notice. Termination of this Agreement will not affect (a) the validity of any action previously taken by Change Path and third-party investment advisers under the agreement; (b)

the liabilities or obligations of the parties with respect to transactions initiated before termination of the agreement; or (c) Client's obligation to pay the negotiated rate (prorated through the date of termination).

In addition to the asset management fee, there may be transaction, commission, administrative, servicing and other fees charged by the Custodian. IRA accounts may be charged custodial or other service fees as well. If your account is invested in mutual funds, the mutual fund company may assess administrative charges against your investment in that fund. These fees are not charged by Change Path, but rather by the product sponsor, brokerage firm, or custodian firm. In the normal course of effecting transactions, prices for certain trades made on behalf of your account may include mark-ups, mark-downs and spread differentials

Selection of Other Advisers Fees

Change Path will be compensated via a fee share from the advisers to which it directs those clients. This relationship will be memorialized in each contract between Change Path and each third-party adviser. The fees shared will not exceed any limit imposed by any regulatory agency.

These fees are negotiable. Change Path may engage in the selection of third-party money managers, but does not have any such arrangements in place at this time. This service may be cancelled with 30 days' notice.

Change Path may direct clients to third-party investment advisers. Change Path will receive its standard fee on top of the fee paid to the third-party adviser. This relationship will be memorialized in each contract between Change Path and each third-party adviser. The fees shared are negotiable and will not exceed any limit imposed by any regulatory agency. The notice of termination requirement and payment of fees for third-party investment advisers will depend on the specific third-party adviser selected. Change Path's program fee is based on the fair market value of the managed assets as determined on the last business day of the applicable month.

Subadviser Services Fees

Change Path may also act as a subadviser to unaffiliated third-party advisers and Change Path would receive a share of the fees collected from the third-party adviser's client. In the event a subadviser selects Change Path's investment models, the fees are negotiated between the investment advisors and clients. The fees charged will not exceed any limit imposed by any regulatory agency. The notice of termination requirement and payment of fees for subadviser services will depend on the specific third-party investment adviser engaging Change Path as subadviser. This relationship will be memorialized in each contract between Change Path and each third-party adviser. The fees will not exceed any limit imposed by any regulatory agency.

A. Fee Schedule

Total Assets Under Management	Annual Advisor's Fee
\$0 - \$1,000,000	1.25%
\$1,000,001 - \$2,000,000	1.15%
\$2,000,001 – And Up	1.00%

Change Path Annual Program Fee:

ChangePath Models	Change Path Model Fee
ETF Only Models	0.55%
ETF UMA Models	0.75%

Additionally, Non-Managed Accounts will be charged a \$6.25 flat fee per month, per non-managed account. These fees will be deducted automatically from client accounts and shall be used by Change Path to utilize software allowing the firm and its IARs to consolidate all accounts through a portfolio accounting system and create consolidated, on-demand performance reports. Minimum fees are limited to 0.55% for ETF Only Models and 0.75% for ETF UMA Models.

Financial Planning Services Fees

As mentioned under Advisory Services Offered, Change Path also offers comprehensive financial planning services for individuals, families and businesses. Fees charged for Financial Planning are negotiable and are based on a fixed-fee per project basis, or on an hourly fee basis. The hourly rate ranges from \$100 - \$250 per hour and the fixed fee ranges from \$300 to \$10,000, depending on the complexity and nature of the project. The hourly rate may be negotiated. There is a minimum fee of \$300.

Hourly rates and total fees are determined by each Change Path IAR estimating the complexity of the client's circumstances, the level of skill required to perform the service, and the amount of time that will be required to perform research, analysis, and plan preparation. The estimated fee is disclosed to the client prior to contract signing.

The hourly or fixed fee is dependent upon the nature and scope of the advice requested by the client, nature and number of investments in a client's portfolio, amount and nature of research required to complete the project and the scope and number of reports requested by a client.

The fees described above may change based on special situations such as an expansion of a project, increase in the number of reviews, more specialized needs of the client, more complex planning, or more detailed reporting. Before such a change may be made, the client is given 30 days prior written notice. Financial Planning projects will be completed within 6 months of signing the Agreement.

Fees do not include product transaction commissions, or the fees for third-party professional services, e.g., investment managers, attorneys, accountants or other third parties.

B. Payment of Fees***Payment of Asset Management Fees***

Asset management fees are withdrawn directly from the client's accounts with client's written authorization on a monthly basis. Fees are paid in arrears.

Payment of Selection of Other Advisers Fees

The timing, frequency, and method of paying fees for selection of third-party managers will depend on the specific third-party adviser selected.

Payment of Sub-Adviser Fees

Subadviser fees may be withdrawn from clients' accounts or clients may be invoiced for such fees, as disclosed in each contract between Change Path and the applicable third-party adviser.

Payment of Financial Planning Fees

The fee is due upon signing of the Financial Planning Services Agreement. The fee is payable directly by a client and not deducted from the client's account. Payment arrangements are established in the services agreement. The fee may be waived in whole or in part by the IAR or Change Path at their sole discretion. Each client retains the right to terminate the Financial Planning Services Agreement with Change Path at any time, in writing and without prior notice, for any reason. Change Path retains the right to terminate any engagement at any time, for any reason, by giving 10 days' written notice. Any unearned pre-paid fee is returned to the client upon termination. When calculating any refund, a rate of \$150 per hour shall apply to work already performed on a fixed fee basis.

C. Client Responsibility for Third-Party Fees

All fees paid to Change Path for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds, ETFs, Variable Annuities, and other investment advisers, broker/dealers and custodians retained by clients, if any. Such fees and expenses are described in each mutual fund's and Variable Annuity's prospectus, each third-party investment adviser's Form ADV Part 2A, Wrap Brochure or similar disclosure statement, and by any broker/dealer or custodian retained by a client. Refer to the mutual fund or variable annuity prospectus for a complete description of fees and services.

Certain ETFs pay advisory fees to their investment advisors, which reduces the net asset value of the fund. Some ETFs are organized as unit investment trusts and do not have an investment advisor. However, all ETFs do incur expenses related to their management and administration that are analogous to an investment advisor's management fee. These expenses affect the value of the investment.

Furthermore, clients may incur brokerage commissions and other execution costs charged by the custodian or executing broker/dealer in connection with transactions for a client's account. Clients should further understand that all custodial fees and any other charges, fees and commissions incurred in connection with transactions for a client's account will be paid out of the assets in the account. Please refer to the Brokerage Practices section of this Brochure for additional important information about the brokerage and transactional practices of Change Path. Accordingly, the client should review both the fees charged by the product sponsor and the fees charged by Change Path to fully understand the total fees to be paid.

D. Prepayment of Fees**Asset Management Fees**

Change Path collects its investment fees in arrears. It does not collect fees in advance.

Financial Planning Service Fees

Any unearned pre-paid fee is returned to the client upon termination. When calculating any refund, a rate of \$150 per hour shall apply to work already performed on a fixed fee basis.

E. Outside Compensation for the Sale of Securities to Clients

Neither Change Path nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or service fees from the sale of mutual funds.

Item 6 - Performance Fees

Change Path does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client

Item 7 - Types of Clients

Change Path generally provides advisory services to individuals, high-net-worth individuals and third-party investment advisers.

Item 8 - Methods of Analysis, Investment Strategies, Risk of Loss

All investment strategies involve risk. There is no assurance that a positive return will be obtained in any managed investment account program. Neither Change Path nor any selected third-party investment advisers guarantee the performance of the account, or promise any specific level of performance, or promise that investment decisions, strategies or overall management of the account will be successful. Investment decisions are subject to various market, currency, economic, political, interest rate and business risks, will not necessarily be profitable, and are subject to investment risk, including possible loss of principal.

A. Methods of Analysis and Investment Strategies**Methods of Analysis**

Change Path's methods of analysis include charting analysis, fundamental analysis, technical analysis, cyclical analysis, quantitative analysis and modern portfolio theory.

Charting analysis involves the use of patterns in performance charts. Change Path uses this technique to search for patterns used to help predict favourable conditions for buying and/or selling a security.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Cyclical analysis involves the analysis of business cycles to find favourable conditions for buying and/or selling a security.

Quantitative analysis deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on.

Modern portfolio theory is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset.

B. Material Risks Involved

Methods of Analysis

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

Quantitative Model Risk: Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

Modern Portfolio Theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Selection of Other Advisers: Although Change Path will seek to select only money managers who will invest clients' assets with the highest level of integrity, Change Path's selection process cannot ensure that money managers will perform as desired and Change Path will have no control over the day-to-day operations of any of its selected money managers. Change Path would not necessarily be aware of certain activities at the underlying money manager level, including without limitation a money manager's engaging in unreported risks, investment "style drift" or even regulatory breaches or fraud.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

Mutual Funds: Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. The funds can be of bond "fixed income" nature (lower risk) or stock "equity" nature.

Equity investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary. This type of investment can include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best known type of fixed income security. In general, the fixed income market is volatile and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

Exchange Traded Funds (ETFs): An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Precious Metal ETFs (e.g., Gold, Silver, or Palladium Bullion backed "electronic shares" not physical metal) specifically may be negatively impacted by several

unique factors, among them (1) large sales by the official sector which own a significant portion of aggregate world holdings in gold and other precious metals, (2) a significant increase in hedging activities by producers of gold or other precious metals, (3) a significant change in the attitude of speculators and investors. Information on a specific ETF risk and its policies regarding the above topics can be found in its prospectus and Statement of Additional Information. Clients are encouraged to review the prospectus before investing.

Real Estate funds (including REITs) face several kinds of risk that are inherent in the real estate sector, which historically has experienced significant fluctuations and cycles in performance. Revenues and cash flows may be adversely affected by: changes in local real estate market conditions due to changes in national or local economic conditions or changes in local property market characteristics; competition from other properties offering the same or similar services; changes in interest rates and in the state of the debt and equity credit markets; the ongoing need for capital improvements; changes in real estate tax rates and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; the impact of present or future environmental legislation and compliance with environmental laws.

Annuities are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet requirement or other long-term goals. An annuity is not a life insurance policy. Variable annuities are designed to be long-term investments, to meet retirement and other long-range goals. Variable annuities are not suitable for meeting short-term goals because substantial taxes and insurance company charges may apply if you withdraw your money early. Variable annuities also involve investment risks, just as mutual funds do.

Non-U.S. securities present certain risks such as currency fluctuation, political and economic change, social unrest, changes in government regulation, differences in accounting and the lesser degree of accurate public information available.

Cybersecurity Risk

Investment advisers and their service providers may be prone to operational and information security risks resulting from cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally (including, for example, through cyber-attacks known as “phishing” and “spear-phishing”), denial-of-service attacks on websites, the unauthorized release of confidential information and causing operational disruption. Cyber-attacks may interfere with the processing of transactions, cause the release of private information or confidential information of Change Path, cause reputational damage, and subject Change Path to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and/or additional compliance costs. While Change Path has established business continuity plans and systems designed to prevent such cyber-attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

D. Additional Risk Statement

The foregoing list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment strategy. Prospective and existing clients are encouraged to consult their own financial, legal and tax professionals in connection with the selection of and investment in a particular strategy or product. In addition, due to the dynamic nature of investments and markets, strategies may be subject to additional and different risk factors not discussed herein.

Investing in securities involves a significant risk of loss. Change Path's investment recommendations are subject to various market, inflation, currency, economic, political and business risks, and such investment decisions may not always be profitable. Clients should be aware that there may be a loss or depreciation to the value of the client's account, which clients should be prepared to bear. There can be no assurance that the client's investment objectives will be obtained and no inference to the contrary should be made. Prior to entering into an agreement with Change Path, a client should carefully consider: (1) committing to management only those assets that the client believes will not be needed for current purposes and that can be invested on a long-term basis, (2) that volatility from investing in the stock market can occur, and (3) that over time the client's assets may fluctuate and at any time be worth more or less than the amount invested.

Change Path does not represent, guarantee or imply that the services or methods of analysis employed by the firm can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines.

Item 9 - Disciplinary Information

Firms are required to report any legal or disciplinary events that are material to a client's evaluation of our advisory business and the integrity of our management. There are no required disclosures in relation to Change Path and its management team.

Disclosure information specific to your investment advisor representative (if applicable) can be found on their supplemental ADV 2B and is available at www.adviserinfo.sec.gov

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10 - Other Financial Industry Activities and Affiliations

IARs of Change Path may also be agents/registered representatives of a non-affiliated firm such as a broker/dealer or insurance agency, engaging in the business of selling life, health, long-term care, disability and annuity insurance products as well as securities. As registered representatives, associates may receive separate compensation in the form of commissions for the purchase of securities through their affiliated broker/dealer as well as for the sale of insurance products.

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Change Path is not registered as or have pending applications to become a broker/dealer or a representative of a broker/dealer.

Affiliation with ClientOne Securities, LLC.

Change Path is under common ownership with a registered broker/dealer, ClientOne Securities, LLC ("CIS"). Change Path and CIS are both commonly owned by CM2 Holdings Company, Inc.

Change Path advisor representatives may be licensed to sell securities in the capacity as Registered Representatives with CIS. Change Path advisor representatives, acting in their separate capacities as Registered Representatives of CIS, may sell, for commissions, general securities products such as stocks, bonds, mutual funds, exchange-traded funds, alternative investments, and variable annuity and variable life products to advisory clients. As such, Change Path advisor representatives may suggest that advisory clients implement investment advice by purchasing securities products through a commission-based CIS account in addition to an advisory account. In the event investment advisory clients elect to purchase these products through CIS, CIS and the client's Change Path advisor representative, in the capacity as CIS Registered Representative, will receive the normal and customary commission compensation in connection with the specific product purchased. Change Path does not require its Change Path advisor representatives to encourage clients to implement investment advice through CIS. Clients of Change Path are free to implement investment advice through any broker/dealer or product sponsor they may select. Change Path and CIS are also located within the same building complex. However, clients should understand that, due to certain regulatory constraints, a Change Path advisor representative must place all purchases and sales of securities products in commission-based brokerage accounts through CIS or other CIS approved institutions.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither Change Path nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Cory Lynn Lagerstrom is a consultant. From time to time, he may offer clients advice or products from those activities and clients should be aware that these services may involve a conflict of interest. Change Path always acts in the best interest of the client and clients are in no way required to the services of any representative of Change Path in connection with such individual's activities outside of Change Path.

Affiliation with CreativeOne, LLC.

Change Path is under common ownership with CreativeOne, LLC. ("CI"), a licensed insurance agency. Change Path and CI are owned by CM2 Holding Company, Inc.

Change Path advisor representatives may be licensed life insurance agents with CI and may sell insurance products to Change Path's advisory clients. Therefore, the client's Change Path advisor representative, in the capacity as a licensed life agent, may be able to implement insurance recommendations for advisory clients electing to receive this service. The determination of whether or not an insurance product is included within a client's financial plan is solely in the discretion of the advisor representative. In this event, Change Path advisor

representatives, in their separate capacities as licensed insurance agents, will receive separate and typical commission compensation for insurance and/or annuity sales. Change Path and CI are also located within the same building complex. Clients of Change Path are not obligated in any manner to use the insurance services provided by Change Path advisor representatives.

Change Path does retain an exclusive relationship with CI for the sale of annuities offered, as determined by the risk tolerance questionnaire taken by the client, within the portfolio by means of systematic integration. The inclusion of a fixed indexed annuity is left to the discretion of both the client and advisor representative and is enabled as an option within the portfolio by way of a proprietary algorithm that determines an optimal dollar amount for each individual client. Change Path does receive compensation from CI upon the client concluding the integration of an annuity is desired within their investment portfolio through the Change Path Platform. Change Path's clients are not obligated in any manner to use the insurance services provided by Change Path advisor representatives, nor selection of any insurance product allocation determined by Change Path's investment platform.

Change Path Advisor Representatives Other Business Activities – Insurance Agencies

Advisor representatives may be licensed life insurance agents with various insurance companies and may sell insurance products to Change Path's advisory clients. Therefore, the client's Change Path advisor representative, in the capacity as a licensed life agent, may be able to implement insurance recommendations for advisory clients electing to receive this service. In this event, Change Path advisor representatives, in their separate capacities as licensed insurance agents, will receive separate and typical commission compensation for insurance and/or annuity sales. There may be a conflict of interest present in that the Change Path advisor representative has an incentive to recommend products to be purchased through the Change Path advisor representative thus increasing the compensation earned by the Change Path advisor representative. Clients of Change Path are not obligated in any manner to use the insurance services provided by Change Path advisor representatives.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

Change Path has discretion to choose third-party investment advisers to manage all or a portion of the client's assets. Change Path will be compensated via a fee share from the advisers to which it directs those clients. This relationship will be memorialized in each contract between Change Path and each third-party advisor. The fees shared will not exceed any limit imposed by any regulatory agency. This creates a conflict of interest in that Change Path has an incentive to direct clients to the third-party investment advisers that provide Change Path with a larger fee split. Change Path will always act in the best interests of the client, including when determining which third-party investment adviser to recommend to clients. Change Path will ensure that all recommended advisers are licensed or notice filed in the states in which Change Path is recommending them to clients.

Item 11 - Code of Ethics, Participation/Interest in Client Transactions, Personal Trading

In accordance with SEC Rule 204a-1 of the Investment Advisers Act of 1940, Change Path maintains and enforces a Code of Ethics. The Code requires employee, including investment advisor representatives, reporting of all securities holdings and transactions may require prior pre-clearance from the firm's CCO for certain securities transactions. The Code contains requirements regarding compliance with all Laws, Rules and Regulations, and it contains provisions for reporting violations of the Code to Change Path CCO. All Change Path

investment advisor representatives are expected to be honest and ethical, make full and accurate disclosures, remain in compliance with all applicable rules and regulations, and be accountable for what they do.

Change Path and its IARs act as fiduciaries for their clients. They have a fundamental obligation to act in the best interest of their clients and to provide investment advice in the clients' best interest. They owe their clients a duty of undivided loyalty and utmost good faith. They should not engage in any activity in conflict with the interest of any client, and they should take steps reasonably necessary to fulfil these obligations. Change Path and its IARs must employ reasonable care to avoid misleading clients and must provide full and fair disclosure of all material facts to their clients and prospective clients. Generally, facts are "material" if a reasonable investor would consider them to be important. They must eliminate, or at least disclose, all conflicts of interest that might incline them – consciously or unconsciously – to render advice that is not disinterested. If they do not avoid a conflict of interest that could impact the impartiality of their advice, they must make full and frank disclosure of the conflict. Change Path and its IAR cannot use their clients' assets for their own benefit or the benefit of other clients. Departure from this fiduciary standard may constitute "fraud" upon their clients under the Investment Advisers Act.

A. Code of Ethics

Change Path has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Outside Business Activities, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, and Reporting Violations. Change Path's Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

Change Path does not recommend that clients buy or sell any security in which a related person to Change Path or Change Path has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of Change Path may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of Change Path to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. Change Path will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of Change Path may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of Change Path to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, Change Path will never engage in trading that operates to the client's disadvantage if representatives of Change Path buy or sell securities at or around the same time as clients.

To review a copy of Change Path's Code of Ethics, please make a written request to your investment advisor representative, contact Change Path at 888.798.2360

Item 12 - Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on Change Path's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favourable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and Change Path may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in Change Path's research efforts. Change Path will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

Change Path will require clients to use Schwab Institutional, a division of Charles Schwab & Co., Inc. and TD Ameritrade, Inc.

1. Research and Other Soft-Dollar Benefits

While Change Path has no formal soft dollars program in which soft dollars are used to pay for third party services, Change Path may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). Change Path may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and Change Path does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. Change Path benefits by not having to produce or pay for the research, products or services, and Change Path will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that Change Path's acceptance of soft dollar benefits may result in higher commissions charged to the client.

2. Brokerage for Client Referrals

Change Path receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

Change Path will require clients to use a specific broker-dealer to execute transactions. Not all advisers require clients to use a particular broker-dealer.

B. Aggregating (Block) Trading for Multiple Client Accounts

If Change Path buys or sells the same securities on behalf of more than one client, then it may (but would be under no obligation to) aggregate or bunch such securities in a single transaction for multiple clients in order to seek more favourable prices, lower brokerage commissions, or more efficient execution. In such case, Change Path would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. Change Path would determine the appropriate number of shares and select the appropriate brokers consistent with its duty to seek best execution, except for those accounts with specific brokerage direction (if any).

Item 13 - Review of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All client accounts for Change Path's advisory services provided on an ongoing basis are reviewed by the IARs on a periodic basis with regard to clients' respective investment policies and risk tolerance levels.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by but is not limited to material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance). The client is encouraged to notify Change Path or their investment advisor representative if changes occur in his/her personal financial situation that might adversely affect his/her investment plan.

C. Content and Frequency of Regular Reports Provided to Clients

Each client of Change Path's advisory services provided on an ongoing basis will receive a quarterly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian. Change Path will also provide at least quarterly a separate written or electronic statement to the client.

Item 14 - Client Referrals and Other Compensation

**A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients
(Includes Sales Awards or Other Prizes)**

Change Path may accept compensation for client referrals, but does not have any such arrangements in place at this time. Change Path will fully disclose to clients the details of any referral relationships.

Additionally, as described in Item 10: Other Financial Industry Activities and Affiliations above, Principals and IARs of Change Path may receive compensation from other affiliates or non-affiliates. Such compensation shall only be received in conjunction with those services provided to such affiliates or non-affiliates.

B. Compensation to Non – Advisory Personnel for Client Referrals

Change Path may enter into written arrangements with third parties to act as solicitors for Change Path's investment management services. Solicitor relationships will be fully disclosed to each Client to the extent required by applicable law. In the instance where Change Path receives a client referral from a solicitor, Change Path will pay a cash referral fee to the solicitor based upon a percentage of the client's Negotiated Fee received from that particular client. Change Path will ensure each solicitor is exempt, notice filed, or properly registered in all appropriate jurisdictions. All such referral activities will be conducted in accordance with Rule 206(4)-3 under the Advisers Act, where applicable.

Under these circumstances, Change Path will enter into a solicitor's agreement with the other party. All such agreements will be in writing and comply with the applicable state and federal regulations. While the specific terms of each agreement may differ, generally, the compensation will be based upon a varying percentage of the assets under management by the client, which shall be paid by the advisor until the account is closed by written authorization from the client. Any such fee shall not result in any additional charge to the client.

Each prospective client who is referred under such an arrangement will receive a copy of applicable advisor's Form ADV Part 2A and a separate written disclosure document disclosing the nature of the relationship between the solicitor and the advisor and the amount of compensation that will be paid to the third-party solicitor, which must be acknowledged in writing by the solicited client.

Item 15 - Custody

Change Path does not custody client assets and uses an independent third party custodian to hold all client securities and assets. When advisory fees are deducted directly from client accounts at client's custodian, Change Path will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16 - Investment Discretion

Change Path and its IARs have discretion over the selection and amount of securities to be bought or sold in client accounts without obtaining prior consent or approval from the client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the client and agreed to by Change Path.

The granting of discretionary authority will be evidenced by the client's execution of an Investment Management Agreement, containing all applicable limitations to such authority. All discretionary trades executed by Change Path will be in accordance with each client's investment objectives and goals.

Item 17 - Voting Client Securities

Change Path will not vote proxies on behalf of our advisory accounts. At the client's request, we may offer advice regarding corporate actions and the exercise of client proxy voting rights. If a client owns shares of applicable securities, that client is responsible for exercising the right to vote as a shareholder. In most cases, the client will receive proxy materials directly from the account custodian.

For accounts subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), the plan fiduciary specifically keeps the authority and responsibility for the voting of any proxies for securities held in plan accounts. Also, Change Path cannot give any advice or take action with respect to the voting of these proxies.

Item 18 - Financial Information

A. Balance Sheet

Change Path neither requires nor solicits prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither Change Path nor its management has any financial condition that is likely to reasonably impair Change Path's ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

Change Path has not been the subject of a bankruptcy petition in the last ten years.
