This brochure provides information about the qualifications and business practices of Rhame & Gorrell Wealth Management, LLC (hereinafter “R&GWM” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, R&GWM is required to discuss any material changes that have been made to the brochure since the last annual amendment. The Firm has not had any annual amendments as of filing.

Item 7. Client Information Provided to Portfolio Managers	12
Item 8. Client Contact with Portfolio Managers	12
Item 9. Additional Information	13

Item 4. Advisory Business

The Rhame & Gorrell Wrap Fee Program (the “Program”) is an investment advisory program sponsored by R&GWM. In addition to the Program, the Firm offers a variety of advisory services, which include financial planning, consulting, and investment management services under different arrangements than those described herein. Prior to R&GWM rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with R&GWM setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

R&GWM has been registered as an investment adviser since 2016 and is owned by Jeffrey Rhame and Michael Gorrell. As of the date of this filing, R&GWM does not have any assets under management; however, the Firm reasonably expects to be eligible for registration with the SEC within 120 days of approval as an investment adviser.

While this brochure generally describes the business of R&GWM, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on R&GWM’s behalf and is subject to the Firm’s supervision or control.

Description of the Program

The Program is offered as a wrap fee program, which provides clients with the ability to trade in certain investment products without incurring separate brokerage commissions or transaction charges. A wrap fee program is considered any arrangement under which clients receive investment advisory services (which may include portfolio management or advice concerning the selection of other investment advisers) and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. Clients must also open a new securities brokerage account and complete a new account agreement with Schwab Advisor Services™ (“Schwab”), or another broker-dealer that R&GWM approves under the Program (collectively “Financial Institutions”).

At the onset of the Program, and after clients analysis of the relevant information, R&GWM assists its clients in developing an appropriate strategy for managing their assets. Clients’ investment portfolios are generally managed on a discretionary or non-discretionary basis by either R&GWM’s investment adviser representatives or an independent investment manager (collectively “Independent Managers”), as recommended or selected by R&GWM. R&GWM and/or the Independent Managers generally allocate clients’ assets among the various investment products available under the Program, as described further in Item 6 (below).

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

Wealth Management Services

Financial Planning and Consulting

R&GWM offers clients a broad range of financial planning and consulting services as part of its wealth management services, which may include any or all of the following functions:

- Cash Flow Forecasting
- Trust and Estate Planning
- Financial Reporting
- Insurance Planning
- Retirement Planning
- Risk Management
- Charitable Giving
- Distribution Planning
- Tax Planning
- Manager Due Diligence

In performing these services, R&GWM is not required to verify any information received from the client or from the client's other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. R&GWM may recommend clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists if clients engage R&GWM or its affiliates to provide additional services for compensation. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by R&GWM under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising R&GWM's recommendations and/or services.

Investment Management

R&GWM manages client investment portfolios on a discretionary or non-discretionary basis.

R&GWM primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities, options and independent investment managers ("Independent Managers") in accordance with their stated investment objectives.

Where appropriate, the Firm may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage R&GWM to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, R&GWM directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

R&GWM tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. R&GWM consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify R&GWM if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients may impose reasonable restrictions or mandates on the management of their accounts if R&GWM determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Use of Independent Managers

As mentioned above, R&GWM may select certain Independent Managers to actively manage a portion of its clients' assets. The specific terms and conditions under which a client engages an Independent Manager may be set forth in a separate written agreement with the designated Independent Manager. In addition to this brochure, clients may also receive the written disclosure documents of the respective Independent Managers engaged to manage their assets.

R&GWM evaluates a variety of information about Independent Managers, which may include the Independent Managers' public disclosure documents, materials supplied by the Independent Managers themselves and other third-party analyses it believes are reputable. To the extent possible, the Firm seeks to assess the Independent Managers' investment strategies, past performance and risk results in relation to its clients' individual portfolio allocations and risk exposure. R&GWM also takes into consideration each Independent Manager's management style, returns, reputation, financial strength, reporting, pricing and research capabilities, among other factors.

R&GWM continues to provide services relative to the discretionary or non-discretionary selection of the Independent Managers. On an ongoing basis, the Firm monitors the performance of those accounts being managed by Independent Managers. R&GWM seeks to ensure the Independent Managers' strategies and target allocations remain aligned with its clients' investment objectives and overall best interests.

Fees for Participation in the Program

The Program is offered on a fee basis, meaning participants pay a single annualized fee based upon assets under management ("Program Fee"). This Program Fee varies in accordance with the strategy utilized and the amount of assets being managed.

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

Stock and/or Options Program: 1.25% annually.

Tactical Asset Allocation Portfolio ("TAAP"): The Program Fee is based on the following blended fee schedule:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
First \$700,000	1.25%
Next \$300,000	1.10%
Above \$1,000,000	0.95%

All other strategies: The Program Fee is based on the following blended fee schedule:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
First \$100,000	1.00%
Next \$100,000	0.75%
Next \$100,000	0.50%
Above \$300,000	0.25%

The annual Program Fee is prorated and charged quarterly, in advance, based upon the market value of the assets being managed by R&GWM on the last day of the previous billing period. If assets in excess of \$100,000 are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the Program Fee is calculated on a *pro rata* basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), R&GWM may negotiate a fee rate that differs from the range set forth above.

Fee Comparison

As referenced above, a portion of the fees paid to R&GWM are used to cover the securities brokerage commissions and transactional costs attributed to the management of its clients' portfolios, as well as the fees charged by the Independent Managers engaged to provide services under the Program.

Services provided through the Program may cost clients more or less than purchasing these services separately. The number of transactions made in clients' accounts, as well as the commissions charged for each transaction, determines the relative cost of the Program versus paying for execution on a per transaction

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

basis and paying a separate fee for advisory services. Fees paid for the Program may also be higher or lower than fees charged by other sponsors of comparable investment advisory programs.

Fee Discretion

R&GWM, in its sole discretion, may negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Other Charges

In addition to the advisory fees paid to R&GWM, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions. These additional charges may include fees attributable to alternative assets, reporting charges, margin costs, charges imposed directly by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund Program Fees and other fund expenses), fees and commission for assets not held with Schwab (such as 401(k) or 529 plan assets), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees.

Direct Fee Debit

Clients generally provide R&GWM and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to R&GWM.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to R&GWM's right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or decline to accept particular securities into a client's account. Clients may withdraw account assets on notice to R&GWM, subject to the usual and customary securities settlement procedures. However, R&GWM designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client's investment objectives. R&GWM may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

are liquidated, they may be subject to transaction fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charge) and/or tax ramifications.

Compensation for Recommending the Program

R&GWM has no internal arrangements in place whereby persons recommending the Program are entitled to receive additional compensation as a result of clients' participation. A person recommending the Program will not earn more compensation than he or she would otherwise receive if a client elected another investment management program.

Item 5. Account Requirements and Types of Clients

R&GWM offers services to individuals, corporations and business entities.

Minimum Account Fee

As a condition for starting and maintaining an investment management relationship, R&GWM generally imposes a minimum quarterly fee of \$375. This minimum fee may cause clients with smaller portfolios to incur an effective fee rate that is higher than the Firm's stated fee schedule. R&GWM may, in its sole discretion, elect to waive its minimum fee based upon certain criteria, including anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing client, account retention, and pro bono activities.

Item 6. Portfolio Manager Selection and Evaluation

Clients' investment portfolios are generally managed directly by R&GWM. R&GWM may also utilize the discretionary investment of certain Independent Managers, as referenced above. Where R&GWM provides services outside of the Program, there is no difference in how assets are managed other than those non-wrap clients paying transaction fees separately.

Side-By-Side Management

R&GWM does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Methods of Analysis and Investment Strategies

R&GWM may utilize the following methods of security analysis:

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

- Charting - Analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices.
- Fundamental - Analysis performed on historical and present data, with the goal of making financial forecasts.
- Technical – Analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices
- Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices.

R&GWM may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases - Securities held at least a year.
- Short Term Purchases - Securities sold within a year.
- Trading - Securities sold within thirty (30) days.
- Options - Contract for the purchase or sale of a security at a predetermined price during a specific period of time.

R&GWM recommends asset allocations based on a particular client's: economic situation, liquidity needs, risk tolerance, proposed investment period, need for diversification, reliance upon current income, present and anticipated tax situation. R&GWM also considers historical yields, potential appreciation and marketability before making investment recommendations. R&GWM recommends and manages many types of asset allocations, including: exchange-listed securities, mutual fund shares, corporate debt, ETFs, US government securities, real estate investment trusts, and certificates of deposit on a discretionary basis in accordance with the client's designated investment objective(s).

Risk of Loss

R&GWM's methods of analysis, like every method of analysis, has its own inherent risks. To perform an accurate market analysis the Firm must have access to current/new market information. R&GWM has no control over the dissemination rate of market information; therefore, unbeknownst to R&GWM, certain analyses may be compiled with outdated market information, severely limiting the value of R&GWM's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Firm's primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading—are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

period. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period, involves a very short investment time period.

Options

In addition to the fundamental investment strategies discussed above, R&GWM may also implement and/or recommend options transactions. Option transactions establish a contract between two parties concerning the buying or selling of an asset at a predetermined price during a specific period of time. During the term of the option contract, the buyer of the option gains the right to demand fulfillment by the seller. Fulfillment may take the form of either selling or purchasing a security depending upon the nature of the option contract. Generally, the purchase or the recommendation to purchase an option contract by R&GWM shall be with the intent of offsetting/"hedging" a potential market risk in a client's portfolio. *Please Note:* Although the intent of the options-related transactions that may be implemented by R&GWM is to hedge against principal risk, certain of the options related strategies (i.e. straddles, short positions, etc.), may, in and of themselves, produce principal volatility and/or risk. Thus, a client must be willing to accept these enhanced volatility and principal risks associated with such strategies. In light of these enhanced risks, client may direct R&GWM, in writing, not to employ any or all such strategies for his/her/their/its accounts.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares

or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, R&GWM may select certain Independent Managers to manage a portion of its clients' assets. In these situations, R&GWM continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully implement their investment strategies. In addition, R&GWM generally may not have the ability to supervise the Independent Managers on a day-to-day basis.

Voting of Client Securities

R&GWM generally does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 7. Client Information Provided to Portfolio Managers

In this Item, R&GWM is required to describe the type and frequency of the information it communicates to the Independent Managers, if any, managing its clients' investment portfolios. Clients participating in the Program generally grant R&GWM the authority to discuss certain non-public information with the Independent Managers engaged to manage their accounts. Depending upon the specific arrangement, the Firm may be authorized to disclose various personal information including, without limitation: names, phone numbers, addresses, social security numbers, tax identification numbers and account numbers. R&GWM may also share certain information related to its clients' financial positions and investment objectives in an effort to ensure that the Independent Managers' investment decisions remain aligned with its clients' best interests. This information is communicated on an initial and ongoing basis, or as otherwise necessary to the management of its clients' portfolios.

Item 8. Client Contact with Portfolio Managers

In this Item, R&GWM is required to describe any restrictions on clients' ability to contact and consult with the portfolio managers managing their investment portfolios. There are no restrictions on clients' ability to correspond with R&GWM. Clients can generally contact the Independent Managers managing their portfolios through R&GWM by providing the Firm with written request and identification of the questions

or issues to be discussed with the Independent Managers. After receiving the client's written request, R&GWM, at its sole discretion, may contact the Independent Managers for the client or arrange for the Independent Managers and the client to communicate directly.

Item 9. Additional Information

Disciplinary Information

R&GWM has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that R&GWM recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interest regardless of any such affiliations.

Code of Ethics

R&GWM has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Supervised Persons. R&GWM's Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of R&GWM's personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm's Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm's policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person with access to this information may knowingly effect for themselves or for their immediate family (i.e., spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact R&GWM to request a copy of its Code of Ethics.

Account Reviews

R&GWM monitors client portfolios on a continuous and ongoing basis. Such reviews are conducted by the Firm's investment adviser representatives. The investment adviser representative will allocate and/or recommend that the client allocate investment assets consistent with the designated investment objectives. Once allocated, the investment adviser representative provides ongoing monitoring and review of account performance, asset allocation and client investment objectives. All investment advisory clients are encouraged to discuss their needs, goals and objectives with R&GWM and to keep the Firm informed of any changes thereto.

Account Statements and General Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from R&GWM and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from R&GWM or an outside service provider.

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

Client Referrals

The Firm does not currently provide compensation to any third-party solicitors for client referrals.

Receipt of Economic Benefit and Brokerage Practices

R&GWM requires that clients utilize the custody, brokerage and clearing services of Schwab for investment management accounts in the Program. Factors which R&GWM considers in recommending Schwab or any other broker-dealer to clients include its financial strength, reputation, execution, pricing, research and service.

In seeking best execution in recommending Schwab, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution's services, including among others, the value of research provided, execution capability, commission rates and responsiveness.

Consistent with obtaining best execution, brokerage transactions may be directed to certain broker/dealers in return for investment research products and/or services which assist R&GWM in its investment decision-making process. The receipt of investment research products and/or services poses a conflict of interest because R&GWM does not have to produce or pay for the products or services.

R&GWM may receive without cost from Schwab computer software and related systems support, which allow R&GWM to better monitor client accounts maintained at Schwab. R&GWM may receive the software and related support without cost because the Firm renders investment management services to clients that maintain assets at Schwab. The software and support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The software and related systems support may benefit R&GWM, but not its clients directly. In fulfilling its duties to its clients, R&GWM endeavors at all times to put the interests of its clients first. Clients should be aware, however, that R&GWM's receipt of economic benefits from a broker/dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker/dealer over another that does not furnish similar software, systems support or services.

Specifically, R&GWM may receive the following benefits from Schwab:

- Credits to be used toward qualifying third-party service providers used in connection with the initial set up of the Firm's research, technology and software platforms;
- Receipt of duplicate client confirmations and bundled duplicate statements;
- Access to a trading desk that exclusively services its institutional traders;

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

- Access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and
- Access to an electronic communication network for client order entry and account information.

Trade Aggregation

Transactions for each client generally will be effected independently, unless R&GWM decides to purchase or sell the same securities for several clients at approximately the same time. R&GWM may (but is not obligated to) combine or “batch” such orders to obtain best execution or to allocate equitably among the Firm’s clients differences in prices that might not have been obtained had such orders been placed independently. Under this procedure, transactions will generally be averaged as to price and allocated among R&GWM’s clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which R&GWM’s Supervised Persons may invest, the Firm generally does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. R&GWM does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which may include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account’s assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Financial Information

R&GWM is not required to disclose any financial information due to the following:

Wrap Fee Program Brochure of Rhame & Gorrell Wealth Management, LLC

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.
