Firm Brochure

Strategic Wealth Advisors Group, LLC

3610 American River Drive, Suite 120

Sacramento, CA 95864

(650) 571-1934

September 29, 2017

<http://www.fsnweb.com>

This disclosure brochure (“Brochure”) provides information about the qualifications and business practices of Strategic Wealth Advisors Group, LLC (CRD # 283824). If you have any questions about the contents of this Brochure, please contact Keren Ackerman, Chief Compliance Officer by telephone at (650) 571-1934 or kackerman@fsnweb.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (the “SEC”) or by any state securities authority.

Please note that the use of the term “registered investment adviser” and description of Strategic Wealth Advisors Group, LLC and our associates as “registered” does not imply a certain level of skill or training. You are encouraged to review this Brochure and Brochure Supplements for our firm’s associates who advise you for more information on the qualifications of our firm and our associates. Additional information about Strategic Wealth Advisors Group is also available on the SEC’s Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov.

ITEM 1: COVER PAGE

Please refer to previous page.

ITEM 2: MATERIAL CHANGES

The previous version of this Brochure was dated March 31, 2017. This Brochure has been changed materially since the previous filing, and as such, Strategic Wealth Advisors Group, LLC strongly encourages clients and prospective clients to review this Brochure in its entirety very carefully and to call us with any questions you may have. Particular attention should be paid to the following material changes:

- Item 4 – to provide additional information about Registrant’s business and service offerings; and
- Item 5 – to update information about fee options and fees charged to and paid by clients and their investment advisers.

ITEM 4: ADVISORY BUSINESS

A. FIRM DESCRIPTION

Strategic Wealth Advisors Group, LLC (the “Registrant,” “us,” “we,” “our,” “the Firm”) is registered with the SEC as a registered investment adviser. We are a limited liability company formed in the State of California. Our firm has been in business as an investment adviser since 2006.

B. PRINCIPAL OWNERS

On April 27, 2016, the Firm underwent a corporate reorganization and change of ownership, and is 100% owned by Honor Bound Partners, LLC (“HBP”). HBP’s managing members and owners are Daxs Stadjuhar, Christopher Mercado and Jeremy Olen.

C. ADVISORY SERVICES OFFERED

The Registrant’s business model is based on a decentralized network of Investment Advisor Representatives (“IARs”) doing business in disparate offices located in numerous states and cities. Although all IARs are registered with, and subject to oversight by the Registrant, they operate their businesses independently. Most offices work under a separate “doing business as” name (“DBA”). IARs associated with the Registrant may provide IAR services to clients under a DBA name that is owned and registered by one or more IARs. As such, marketing materials provided to clients and potential clients may include the DBA name and may include a logo associated with the DBA name. The Registrant reviews and approves marketing materials related to the IAR or investment advisory firm services offered and provided to clients.

The Registrant supervises IARs in the performance of their IAR duties whether the services are performed under the IAR’s name, the DBA name or the Registrant’s name. If properly disclosed as an outside business activity of the IAR, the Registrant allows IARs to provide other products and services through their DBA so long as they are unrelated to the Registrant’s investment advisory business. These outside business activities are not associated with or supervised by the Registrant.

Our IARs operate their businesses independently from one another, and they have significant flexibility in providing individualized investment advice to clients. The Registrant assists the IARs with marketing, back-office functions and compliance responsibilities. For a list of our DBAs, please refer to Schedule D in Section 1.B (Other Business Names) of Form ADV Part 1, which can be found on the SEC’s Investment Advisor Public Disclosure website at www.adviserinfo.sec.gov.

D. DIRECT ASSET MANAGEMENT SERVICES

We utilize the services of various broker-dealers, such as asset allocation planning software, execution, clearing and custodial services, to provide comprehensive investment management of client assets (“Direct Asset Management Services”). The planning software enables our IARs to utilize client risk tolerance assessment, efficient frontier plotting, fund profiling and performance data, as well as portfolio optimization and re-balancing tools.

We offer Direct Asset Management Services to our advisory clients on both a discretionary and non-discretionary basis. Our IARs act as portfolio managers for these accounts. In a discretionary account, 1) the client has granted discretionary authority to the IAR in the Investment Advisory Agreement and 2) the Registrant has authorized the IAR to manage accounts on a discretionary basis. The purchase and sale of securities in discretionary accounts does not require advance client approval. Please see Item 16 of this Brochure for further information about discretionary accounts.

In a non-discretionary account, the IAR will recommend the purchase or sale of securities for review and approval by their clients. The IARs will only purchase or sell securities which have been approved by clients in advance. Please note: clients that determine to engage the Registrant on a non-discretionary investment advisory basis must be willing to accept that the Registrant cannot effect any account transactions without obtaining verbal consent to any such transaction(s) from the client. Thus, in the event of a market correction during which the client is unavailable, the Registrant will be unable to effect any account transactions (as it would for its discretionary clients) without first obtaining the client's verbal consent.

Our IARs work with their clients to identify their investment goals, objectives, and risk tolerance in order to create an initial portfolio allocation designed to complement the client's financial situation and personal circumstances. The overall investment portfolio(s) typically consist of exchange-traded index funds, mutual funds, stocks, options, bonds, direct participation programs, alternative investments, and/or fee based variable annuity contracts. The investment strategies utilized and portfolios constructed and managed depend on the individual client's investment objectives and goals as provided to the IAR. Model portfolios, sub-advisers, options, and/or margins are available to be used as a part of this strategy upon request of the IAR. However, each client has the opportunity to place reasonable restrictions on the type of investments to be held in the portfolio. The IAR can periodically change the allocation of the client's account to maintain either the strategic or tactical plan for the client. However, no changes are made to the initially agreed-upon asset allocation in non-discretionary accounts without prior client review and consent.

Clients have ready access to their IAR. IARs are not required to be available for unscheduled or unannounced visits by clients. However, IARs will periodically meet with clients and are generally available to take client telephone calls on advisory-related matters.

In performing its services, the Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains his/her/its responsibility to promptly notify the Registrant if there is every any change in his/her/its financial situation, investment objectives or risk tolerance for the purpose of reviewing, evaluating or revising Registrant's previous recommendation and/or services.

LPL Managed Account and Asset Allocation Programs

The following LPL Financial ("LPL") sponsored platforms are offered to our clients:

- *Strategic Wealth Management ("SWM")* - The SWM platform is an open architecture, fee-based investment platform. Through this platform, clients can consolidate multiple

investments into one account and receive one statement. There is no minimum account size required for utilizing the SWM platform. The platform is available in two forms:

- SWM – clients pay all transaction costs. Please refer to Item 5 for information regarding fees charged for this platform.
 - SWM II – transaction costs are included in a single fee that covers both advisory fees and transaction costs. Please refer to Item 5 for information regarding fees charged for this platform.
- *Model Wealth Portfolios (“MWP”)* – The MWP platform is a professionally managed mutual fund and exchange-traded fund (“ETF”) asset allocation program. Our IARs will initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL’s Research Department or a third-party investment strategist, consistent with the client’s stated investment objective. LPL’s Research Department or third-party portfolio strategists are responsible for selecting the mutual funds or ETFs within a model portfolio and for making changes to the mutual funds or ETFs selected. The client will authorize LPL to act on a discretionary basis to purchase and sell mutual funds and ETFs and to liquidate previously purchased securities. The client will also authorize LPL to effect rebalancing for MWP accounts. MWP requires a minimum asset value for a program account to be managed, and the minimums vary depending on the portfolio(s) selected and the account’s allocation amongst portfolios. The lowest minimum for a portfolio is \$25,000. In certain instances, a lower minimum for a portfolio is permitted.
- *Optimum Market Portfolios (“OMP”)* - The OMP platform is a managed mutual fund asset allocation platform. Clients invest in one or more model portfolios designed by LPL’s Research Department, which consist of up to six mutual funds from the Optimum Family of Funds.
- *Personal Wealth Portfolios (“PWP”)* -The PWP platform is a unified managed account platform. Clients invest in one or more asset allocation portfolios designed by LPL’s Research Department, which include a combination of mutual funds, ETFs, and investment models (“Models”) provided to LPL by third party money managers (“PWP Advisors”).
- *Manager Access Select (“MAS”)* - The MAS platform provides clients with access to the investment advisory services of third party asset managers (“TPAMs”).
- *Manager Access Network (“MAN”)* – The MAN platform provides clients with access to TPAMs to provide investment management services.
- *Small Market Solution Program (“SMS”)* - Under SMS, LPL Research creates and maintains a series of different investment menus (“Investment Menus”) consisting of a mix of different asset classes and investment vehicles (“investment options”) for clients that sponsor and maintain participant-directed defined contribution plans (“Plan Sponsors”). The Plan Sponsor is responsible for selecting the Investment Menu that it

believes is appropriate based on the demographics and other characteristics of the Plan and its participants. LPL Research is responsible for the selection and monitoring of the investment options made available through Investment Menus. The investment options that are offered through SMS are limited to the specific investments available through the record keeper that the Plan Sponsor selects. The Plan Sponsor may only select an Investment Menu in its entirety and does not have the option to remove or substitute an investment option.

In addition to the SMS services described above, Plan Sponsor may also select from a number of consulting services available under SMS that are provided by our IARs. These consulting services may include, but are not limited to: general education, and support regarding the Plan and the investment options selected by Plan Sponsor; assistance regarding the selection of, and ongoing relationship management for, record keepers and other third-party vendors; Plan participant enrollment support; and participant-level education regarding investment in the Plan. These consulting services do not include any individualized investment advice to the Plan Sponsor or Plan participants with respect to Plan assets.

- *Guided Wealth Portfolios (“GWP”)* - GWP offers clients the ability to participate in a centrally managed, algorithm-based investment program, which is made available to users and clients through a web-based, interactive account management portal (“Investor Portal”). Investment recommendations to buy and sell ETFs and open-end mutual funds are generated through proprietary, automated, computer algorithms (collectively, the “Algorithm”) of FutureAdvisor, Inc. (“FutureAdvisor”), based upon model portfolios constructed by LPL and selected for the account as described below (such model portfolio selected for the account, the “Model Portfolio”). Communications concerning GWP are intended to occur primarily through electronic means (including but not limited to, through email communications or through the Investor Portal), although our IARs will be available to discuss investment strategies, objectives or the account in general in person or via telephone.

A preview of the GWP program (the “Educational Tool”) is provided for a period of up to forty-five (45) days to help users determine whether they would like to become advisory clients and receive ongoing financial advice from LPL, FutureAdvisor, and Registrant by enrolling in the advisory service (the “Managed Service”). The Educational Tool and Managed Service are described in more detail below and in the GWP Program Brochure. Users of the Educational Tool are not considered to be advisory clients of LPL, FutureAdvisor, or Registrant, do not enter into an advisory agreement with LPL, FutureAdvisor, or Registrant, do not receive ongoing investment advice or supervisions of their assets, and do not receive any trading services.

A minimum account value of \$5,000 is required to enroll in the Managed Service.

Features of the Educational Tool

Users of the Educational Tool (each, a “user”) agree to a terms of use (“Terms of Use”)

and complete an investor profile. An investment objective (“Investment Objective”) and Model Portfolio is assigned to each user based upon factors in the investor profile, including risk tolerance and the number of years remaining until the age of retirement (such time being referred to herein as the “Retirement Age”). (See description in “Features of the Managed Service” below for information regarding the design of the Model Portfolios.) Based on the Investment Objective and Model Portfolio, the Educational Tool generates sample analysis, advice and investment recommendations (“Sample Recommendations”).

The Educational Tool provides Sample Recommendations that may assist users in determining whether to utilize the Managed Service. Access to the Educational Tool is generally limited to a period of forty-five (45) days. The Educational Tool is intended to be used for educational and informational purposes only. The Educational Tool does not provide comprehensive financial planning and is not intended to constitute legal, financial or tax advice. There may be other relevant factors and financial considerations (e.g., debt load or financial obligations) that LPL, FutureAdvisor, and our IARs do not take into consideration in formulating any Sample Recommendations provided. The Sample Recommendations made are meant solely as a sample of the types of recommendations available through the Managed Service. LPL, FutureAdvisor, and Registrant are not responsible for any actions taken with respect to the Sample Recommendations, and users are solely responsible for making their own investment decisions. The Educational Tool is only one of many tools that users may use as part of a comprehensive investment analysis process. Users should not rely on the Educational Tool as the sole basis for investment decisions.

Although LPL is an investment adviser and broker-dealer registered with the SEC and a member of the FINRA, and FutureAdvisor is an investment adviser registered with the SEC, in providing access to the Educational Tool, LPL, FutureAdvisor and Registrant do not intend to establish an advisory relationship, or in the case of LPL, a brokerage relationship, with users of the Educational Tool. Users are not charged an advisory fee or any other fee or expense to use the Educational Tool. The scope of any investment advisory relationship with LPL, FutureAdvisor and Registrant begins when users enroll in the Managed Service. The output that users receive by using the Educational Tool, including the Sample Recommendations, may differ materially from the advice users would receive as an advisory client of LPL, FutureAdvisor and Registrant.

None of LPL, FutureAdvisor or Registrant provides ongoing investment management or trading services for assets of users of the Educational Tool, makes any determination as to whether the website through which the Program is accessed or the Educational Tool is appropriate for any user, can access any assets in any accounts users aggregate in the Educational Tool, places any trades on behalf of users of the Educational Tool, or provides ongoing supervision of assets of users of the Educational Tool. The Sample Recommendations provided are intended as an informational preview of the Managed Service, and the Sample Recommendations are being provided to demonstrate the types of analysis, advice and recommendations provided by the Managed Service.

Features of the Managed Service

Investors participating in the Managed Service complete an account application (the “Account Application”) and enter into an account agreement (the “Account Agreement”) with LPL, Registrant and FutureAdvisor. As part of the account opening process, such clients are responsible for providing complete and accurate information regarding, among other things, their age, risk tolerance, and investment horizon (collectively, “Client Profile”). LPL, the IAR and FutureAdvisor rely on the information in the Client Profile in order to provide services under the Program, including but not limited to, determination of suitability of the Program for clients and an appropriate Investment Objective and Model Portfolio for clients. The Model Portfolios have been designed and are maintained by LPL or, in the future, a third-party investment strategist (as applicable, the “Portfolio Strategist”) and shall include a list of securities holdings, relative weightings and a list of potential replacement securities for tax harvesting purposes. FutureAdvisor, Registrant, IARs and participating clients cannot access, change or customize the Model Portfolios. Only one Model Portfolio is permitted per account.

Based upon a participating client’s risk tolerance as indicated in the Client Profile, the client is assigned an investment allocation track (currently Fixed Income Tilt, Balance Tilt or Equity Tilt), the purpose of which is to slowly rotate the client’s equity allocation to fixed income over time. LPL Research created these tracks using academic research on optimal retirement allocations, the industry averages as calculated by Morningstar for the target date fund universe, and input from FutureAdvisor.

Within the applicable allocation track and based upon a participating client’s chosen Retirement Age in the Client Profile, such client will be assigned a Model Portfolio and one of five of LPL’s standard investment objectives:

- *Income with capital preservation.* Designed as a longer term accumulation account, this investment objective is considered generally the most conservative. Emphasis is placed on generation of current income with minimal risk of capital loss. Lowering the risk generally means lowering the potential income and overall return.
- *Income with moderate growth.* This investment objective emphasizes generation of current income with a secondary focus on moderate capital growth.
- *Growth with income.* This investment objective emphasizes modest capital growth with some focus on generation of current income
- *Growth.* This investment objective emphasizes achieving high long-term growth and capital appreciation. There is little focus on generation of current income.

- *Aggressive growth.* This investment objective emphasizes aggressive growth and maximum capital appreciation, with no focus on generation of current income. This objective has a very high level of risk and is for investors with a longer timer horizon.

Both the participating client and our IARs are required to review and approve the initial Investment Objective. As such client approaches the Retirement Age, the Algorithm will automatically adjust the client's asset allocation. Any change to the Investment Objective directed by a client due to changes in the client's risk tolerance and/or Retirement Age will require written approval from the client and our IAR before implementation. Failure to approve the change in Investment Objective may result in a client remaining in a Model Portfolio that is no longer aligned with the applicable Client Profile. The Investment Objective selected for the account is an overall objective for the entire account and may be inconsistent with a particular holding and the account's performance at any time and may be inconsistent with other asset allocations suggested to client by LPL, our IARs or FutureAdvisor prior to client entering into the Account Agreement. Achievement of the stated investment objective is a long-term goal for the account, and asset withdrawals may impair the achievement of client's investment objectives. A Client Profile that includes a conservative risk tolerance over a long-term investment horizon may result in the selection of an Investment Objective that is riskier than would be selected over a shorter-term investment horizon. Clients should contact their IAR if they believe the Investment Objective does not appropriately reflect the Client Profile, such as their risk tolerance.

By executing an Account Agreement, clients authorize LPL and FutureAdvisor to have discretion to buy and sell only ETFs and open-end mutual funds (collectively, "Program Securities") according to the Model Portfolio selected and, subject to certain limitations described in the Account Agreement, hold or liquidate previously purchased non-model securities that are transferred into the account ("Legacy Securities"). In order to be transferred into an account, Legacy Securities must be open end mutual funds with which LPL has a full or partial selling agreement, ETFs or individual U.S. listed stocks. Securities that are not Program Securities included within the Model Portfolio will not be purchased for an account, and FutureAdvisor, in its sole discretion, will determine whether to hold or sell Legacy Securities, generally, but not solely, with the goal of optimizing tax impacts for accounts that are subject to tax. Additional Legacy Securities will not be purchased for the account. Clients may not impose restrictions on liquidating any Legacy Securities for any reason. Clients should not transfer in Legacy Securities that they are not willing to have liquidated at the discretion of FutureAdvisor.

In addition, uninvested cash may be invested in money market funds, the Multi-Bank Insured Cash Account ("ICA") or the Deposit Cash Account ("DCA"), as applicable, as described in the Account Agreement. Dividends paid by the Program Securities in the account will be contributed to the cash allocation and ultimately reinvested into the account based on the Model Portfolio once the tolerance within cash allocation is

surpassed.

Pursuant to the Account Agreement, FutureAdvisor is authorized to perform tax harvesting when deemed acceptable by the Algorithm. LPL, our IARs and clients cannot alter trades made for tax harvesting purposes. In order to permit trading in a tax-efficient manner, the Account Agreement also grants FutureAdvisor the authority to select specific tax lots when liquidating securities within the account. Although the Algorithm attempts to achieve tax efficiencies, by doing so a client's portfolio may not directly align with Model Portfolio. As a result, a client may receive advice that differs from the advice received by accounts using the same Model Portfolio, and the client's account may perform differently than other accounts using the same Model Portfolio. During the term of the Account Agreement, FutureAdvisor will perform a daily review of the account to determine if rebalancing is appropriate based on tolerance thresholds established by LPL and/or FutureAdvisor. At each rebalancing review, the account will be rebalanced if at least one of the account positions is outside such thresholds, subject to a minimum transaction amount established by LPL and/or FutureAdvisor. In addition, LPL and/or FutureAdvisor may review the account for rebalancing in the event that the Portfolio Strategist changes a Model Portfolio. FutureAdvisor may delay placing rebalancing transactions for non-qualified accounts by a number of days, to be determined by FutureAdvisor, in an attempt to limit short-term tax treatment for any position being sold. In addition, trading in the account at any given time is also subject to certain conditions, including but not limited to, conditions related to trade size, compliance tests, the target cash allocation and allocation tolerances. LPL, IARs and clients can alter the rebalancing frequency.

FutureAdvisor is compensated directly by LPL for its services, including the Algorithm and related software, through an annual sub-advisory fee (tiered based on assets under management by FutureAdvisor, at a rate ranging from 0.10% to 0.17%). As each asset tier is reached, LPL's share of the compensation shall increase and clients will not benefit from such asset tiers. No additional fee is charged for FutureAdvisor's services.

Registrant believes that certain clients will benefit from GWP's advisor-enhanced advisory services, particularly due to the relatively low minimum account balance and the combination of a digital advice solution with access to an advisor. Unlike direct-to-consumer robo platforms, our IARs are responsible on an ongoing basis as investment advisors and fiduciaries for the client relationship, including for recommending the program for the client; providing ongoing monitoring of the program, the performance of the account, the services of LPL and FutureAdvisor; determining initial and ongoing suitability of the program for the client; reviewing clients' suggested portfolio allocations; reviewing and approving any change in Investment Objective due to changes clients make to their Client Profile; answering questions regarding the program, assisting with paperwork and administrative and operational details for the account; and being available to clients to discuss investment strategies, changes in financial circumstances, objectives or the account in general in person or via telephone. Our IARs can also recommend other suitable investment programs if clients have savings goals or investment needs for which GWP is not the

optimal solution.

(SWM, MWP, OMP, PWP, MAS, MAN, SMS and GWP are collectively referred to as the “LPL Platforms”).

Under the SWM, MWP, OMP, PWP, MAS, SMS and GWP (subject to the limitations described above) platforms, LPL and the Registrant provide ongoing investment advice to Registrant’s clients in the platform. Initially, an IAR will obtain necessary client financial data and assist the client in determining the appropriate platform and asset allocation model(s) best suited for the client’s overall investment objectives and guidelines.

Under the MAN platform, LPL serves as the client’s custodian and broker and the Registrant provides ongoing investment advisory services, including gathering necessary client financial data and assisting the client in determining an appropriate TPAM with an investment strategy or strategies suitable for and in line with each client’s investment guidelines.

Each client entering into a LPL Platform, with the exception of the MAN platform, will be provided a written LPL disclosure brochure that outlines in detail the services provided and fees charged, along with other important information about the selected platform. Clients should thoroughly read the brochure upon receipt.

The LPL Platforms may not be suitable for, and therefore not offered to, all of our clients.

Schwab Managed Account and Asset Allocation Programs

The following Charles Schwab & Co., Inc. (“Schwab”) sponsored programs are offered to our clients:

- *Schwab Institutional* (“*SCHWAB INSTITUTIONAL*”) – The Schwab Institutional program is an open architecture, fee-based investment platform. Through this platform, clients can consolidate multiple investments into one account and receive one statement. There is no minimum account size required for utilizing the Schwab Institutional program.
- *Managed Account Select* (“*SELECT*”) – The *SELECT* program provides our clients with access to the investment advisory services of TPAMs. The TPAMs and their investment strategies offered are evaluated and monitored by Charles Schwab Investment Advisory, Inc. (“CSIA”), an affiliate of Schwab.
- *Managed Account Access* (“*ACCESS*”) – The *ACCESS* program also provides our clients with access to investment advisory services of TPAMs. The investment strategies are not evaluated by Schwab, and there are no eligibility criteria for the TPAM.
- *Managed Account Marketplace* (“*MARKETPLACE*”) – With the *MARKETPLACE* program, the IAR and the client can choose a TPAM from an extensive list that Schwab has compiled, but neither Schwab nor CSIA screen, evaluate or monitor the TPAMs in the *MARKETPLACE* program.

(SCHWAB INSTITUTIONAL, SELECT, ACCESS and MARKETPLACE are collectively referred to as the “Schwab Programs”).

Under each of the Schwab Programs, with the exception of SCHWAB INSTITUTIONAL, the TPAMs provide discretionary investment advisory services and will manage clients’ assets in the programs in accordance with the investment strategies chosen by the clients.

Also, Schwab serves as the client’s custodian and broker in the Schwab Programs and the Registrant provides ongoing investment advisory services, including gathering necessary client financial data and assisting the client in determining an appropriate Schwab Program, including TPAMs, in accordance with the investment strategy or strategies suitable for and in line with each client’s investment guidelines.

Each client entering into a Schwab Program will be provided with a written Schwab disclosure brochure that outlines in detail the services provided and fees charged, along with other important information about the selected Schwab Program. Clients should thoroughly read the brochure upon receipt.

The Schwab Programs may not be suitable for, and therefore are not offered to, all of our clients.

TD Managed Account and Asset Allocation Programs

The following programs sponsored by TD Ameritrade Institutional, a division of TD Ameritrade, Inc. (“TD”) are offered to our clients:

- *TD Institutional (“TD INSTITUTIONAL”)* – The TD Institutional program is an open architecture, fee-based investment platform. Through this platform, clients can consolidate multiple investments into one account and receive one statement. There is no minimum account size required for utilizing the TD Institutional program.
- *Separate Account Exchange (“SAE”)*
- *Unified Managed Account Exchange (“UMAE”)*
- *Third Party Providers (“TPPs”)*

(TD INSTITUTIONAL, SAE, UMAE and TPPs are collectively referred to as the “TD Programs”).

Under SAE, UMAE and TPPs, third party asset managers provide discretionary investment advisory services and will manage clients’ assets in the programs in accordance with the investment strategies chosen by the clients.

Also, TD serves as the client’s custodian and broker in the TD Programs and the Registrant provides ongoing investment advisory services, including gathering necessary client financial data and assisting the client in determining an appropriate TD Program, including TPPs, in accordance with the investment strategy or strategies suitable for and in line with each client’s investment guidelines.

Each client entering into a TD Program will be provided with a written TD disclosure brochure that outlines in detail the services provided and fees charged, along with other important information about the selected TD Program. Clients should thoroughly read the brochure upon receipt.

The TD Programs may not be suitable for, and therefore are not offered to, all of our clients.

Please refer to Items 5, 8 and 12 for further information regarding the LPL Platforms, the Schwab Programs and the TD Programs.

E. CONSULTING AND FINANCIAL PLANNING SERVICES

Our IARs may provide consulting and financial planning services (“Consulting and Financial Planning Services”), including preparing and providing clients with a financial plan. Financial planning services are based on an analysis of the client’s current financial circumstances, goals and objectives. Provision of these services typically necessitates that the client provide the IAR with personal data such as family records, budgeting, personal liability, estate information and additional financial goals. These Consulting and Financial Planning services include any or all of the following services as requested and/or directed by the client: asset protection, tax planning, business succession, strategies for exercising stock options, cash flow, education planning, estate planning, multi-generational planning, wealth transfer, charitable gifting, long-term care and disability planning, retirement planning, insurance planning, asset allocation comparisons and risk management.

Implementation of these consulting recommendations or the financial plan recommendations is entirely at the client’s discretion. Our firm is not qualified to offer legal or accounting advice and we refer clients to an accountant, attorney or other specialist as necessary for non-advisory related services.

Consulting and Financial Planning Services are provided pursuant to a separate written Financial Planning and Hourly Consulting Agreement with the client.

Comprehensive Financial Planning

Generally, financial planning services are based on an analysis of the client’s current financial circumstances, goals and objectives. This involves a process of information gathering by the IAR, then preparation of a financial plan or other written report. Specifically, Comprehensive Financial Planning will address each of the six key areas of financial planning:

- Financial Position
- Protection Planning
- Investment Planning
- Corporate and Personal Income Tax Planning
- Retirement Planning
- Estate Planning

Our written financial plans provided to clients or financial planning consultations rendered to

clients usually include general recommendations for a course of activity or specific actions to be taken by the clients. For example, recommendations may be made that the clients begin or revise investment programs, create or revise wills or trusts, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs.

For Comprehensive Financial Planning engagements, we provide our clients with a written summary of their financial situation, observations, and recommendations. Financial plans or consultations are typically completed within four (4) months of a client signing a contract with us, provided that all the information and documents we request from the client are provided to us promptly. Implementation of the recommendations will be at the discretion of the client. Clients are free to implement investment recommendations through brokers unaffiliated with the Registrant or its IARs.

Hourly Consulting Services

General hourly consulting services are provided for a variety of purposes including, but not limited to:

- Annual Update to Financial Plan
- Asset Allocation Recommendations
- Portfolio Management Recommendations
- Expert Testimony
- Individual Issue Consulting
- Third-Party Review (2nd opinion)

For hourly consulting engagements, we usually do not provide our clients with a written summary of our observations and recommendations as the process is less formal than our financial planning services. Implementation of any recommendations or next steps to be taken will be at the discretion of the client.

F. RETIREMENT PLAN CONSULTING SERVICES (i.e., 401(k) PLANS)

Retirement Plan Consulting services are provided in compliance with the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans (“Plan”) governed by the Employee Retirement Income Security Act of 1974, as amended (“ERISA. Retirement Plan Consulting Services are provided pursuant to a separate written Retirement Plan Consulting Agreement (“RPCA”) that is entered into between the Registrant and the Client, Sponsor and/or Responsible Plan Fiduciary. If the client accounts are part of a Plan, and we accept appointments to provide our services to such accounts, we acknowledge our fiduciary role within the meaning of Section 3(21) of ERISA, but only with respect to the provision of services described in the Services section of the RPCA. When providing Retirement Plan Consulting Services we will solely be making recommendations to the Client, Sponsor and/or RPF. Under a RPCA, IARs provide a number of different services, as described below:

- IARs serve as a fiduciary for the Plan, as such term is defined in Section 3(21) of ERISA. IARs serve as a limited scope fiduciary, also known as a Limited Scope Section (3)(21) fiduciary. As such, IARs perform some or all of the following services:
 - recommend investment options for the Plan to offer to participants;
 - periodically review the Plan's investment options;
 - assist Plan fiduciaries in creating and/or updating the Plan's written Investment Policy Statement ("IPS");
 - provide general investment educational seminars to Plan participants; and
 - work with other Plan service providers.

IARs shall not however, have discretion over: i) the establishment of the Plan's IPS, ii) the selection, monitoring, removal and replacement of the Plan's investment options, or (iii) the creation and management of Model Portfolios to be offered to participants as investment options in the Plan. The Plan retains the sole responsibility for determining whether to implement any recommendations made by the IAR and is not required to implement any such recommendations or conduct business through IAR.

- IARs serve as the investment manager for the Plan, as such term is defined in Section 3(38) of ERISA. As such, in addition to the 3(21) Services described above, IARs have discretion over the following:
 - the establishment of the Plan's IPS;
 - the prudent selection, monitoring, removal and replacement of the Plan's investment options.

For all Retirement Plan Consulting Services, clients will be required to provide information to the IAR in the form of written responses to questionnaires, documentation, or in face-to-face or telephone discussions. IARs will rely upon the information provided by Client, Sponsor or Responsible Plan Fiduciary. Clients are advised that it remains their responsibility to promptly advise the IAR of any changes to this information.

IARs shall provide Retirement Plan Consulting Services only with respect to the selection and retention of the Plan's assets and shall not: (i) serve as a Plan custodian; (ii) provide advice or recommendations with respect to the Plan's choice of Third Party Administrator, Record-keeper or other service provider; or (iii) assume the duties of a trustee of the Plan or administrator (as such term is defined in Section 3(16) of ERISA); or (iv) provide any other services to participants, including without limitation, quarterly investment performance measurement reports, participant communications, notices, benefit statements or other information not specifically related to the use of the investment options offered under the Plan. IARs have no authority or responsibility to provide services with respect to voting proxies for securities held by the Plan or take other action related to the exercise of shareholder rights regarding such securities, including prospectus delivery. IARs do not provide legal or tax advice to Client, RPF and/or the Plan (or any Plan Participant or beneficiary), and clients must seek the advice of its own legal and/or tax adviser, as to all matters that might arise relating to the Plan, including, without limitation, the operations and administration of the Plan and the compliance of the Plan with applicable law. IARs are not responsible or liable for the recommendation of or services rendered by any other provider as a result of such services or the other provider's compliance with applicable laws, including, without

limitation, ERISA and the Internal Revenue Code, as amended with respect to such services.

G. PORTFOLIO CONSULTING SERVICES

IARs of the Registrant who act as their own portfolio manager may utilize Portfolio Consulting Services (“PCS”), which is a separate offering consisting of portfolio design, investment consulting, trade execution, and portfolio re-balancing services. PCS services are provided through the Registrant’s affiliate, Honor Bound Consulting Services, LLC (“HBC”) and governed by a separate written Portfolio Consulting Services Agreement with HBC. See Item 5 for additional information about fees charged to IARs for utilization of PCS services. HBP is the parent company of and controls HBC. See Item 10 for additional information about HBP. Our IARs are under no obligation to utilize the PCS services. Clients whose IARs utilize PCS services are not charged a separate fee for such services.

H. ASSETS UNDER MANAGEMENT

Our assets under management totaled \$2,269,351,959 as of February 15, 2017. The assets are broken down as follows: Discretionary: \$2,247,682,355 and Non-Discretionary: \$21,669,604.

ITEM 5: FEES AND COMPENSATION

General Fee Information

Fees are due and payable in advance (unless otherwise stated in the client agreement) and are based upon the market value of the client’s account assets as determined by the custodian as of the close of business on the last day of the previous calendar quarter. Fees for the initial quarter are adjusted pro rata based upon the number of calendar days in the calendar quarter that the Investment Advisory Agreement goes into effect. Fees are negotiable at the sole discretion of the Registrant and vary depending upon the complexity of the client situation, scope of the services provided, and experience and expertise of the IAR.

The advisory relationship may be terminated by the client or by third parties to the contract in accordance with the provisions of the Investment Advisory Agreement. The client receives a pro rata refund of any prepaid unearned advisory fees. Any unpaid fees become immediately due and payable. Additionally, a client may terminate an advisory agreement without being assessed any fees or expenses within (5) business days of its signing.

Clients receive an account statement from their custodian at least quarterly. The statement includes the amount of any fees paid directly to the Registrant. Generally, fees are automatically debited from client accounts pursuant to written authorization.

Clients should note that the same or similar services to those described above may be available elsewhere at a lower cost to the client. Clients should consider that depending upon the level of the fee charges, the amount of portfolio activity in their accounts, the value of services that are provided, and other factors, the ABFO fee (defined below) may exceed the aggregate cost of services if they were to be provided separately. A transaction based pricing arrangement may be more cost effective for accounts that do not experience frequent trading activity.

Available Fee Options are described in additional detail below.

Asset Based Fee Option

If a client chooses the Asset Based Fee Option (“ABFO”), the client’s account will be charged a single periodic fee for brokerage and related services based on the value of assets in a client’s account. Those fees are generally in lieu of regular transaction based brokerage commissions and do not vary based on the number or size of trades in a client’s account. The appropriateness of the ABFO may depend on a number of factors, including, among other things, client investment objectives and financial situation, our IAR’s investment strategies and trading patterns including the frequency of trading and the number and size of the transactions. This may cost the client more or less than purchasing these products/services separately. The ABFO is available on the Schwab advisory custodial platform.

Under the ABFO, advisory fees are paid by the client and brokerage commissions and other trading costs of transactions are paid by the client’s IAR.

Transaction Based Fee Option

Registrant offers two forms of transaction based fees (hereinafter, the Transaction Based Fee Option (“TBFO”). Under the TBFO, clients pay separate transaction charges and/or commissions at the time each transaction in addition to the advisory fees. As a fee-based investment adviser, the Registrant generally avoids investment vehicles that charge the client a commission for their sale or purchase. However, if a commission is charged, this cost will be passed on to the client. Most brokers and custodians charge transaction fees to effect trades for a client’s account. These fees are levied by the broker or custodian to cover their costs. The Registrant does not share or participate in any such transaction fees. As an alternative under the TBFO, the IAR can agree to pay transaction charges and/or commissions pursuant to a written agreement between the client and IAR. Transaction fees vary by broker and/or custodian and may vary by IAR. Please ask your IAR for details on transaction fees and/or commissions specific to your account. The TBFO is available on the LPL, Schwab and TD advisory custodial platforms.

LPL Sponsored Platform Fees

The total platform fees charged under the MWP, OMP, PWP and MAS platforms are fully outlined in the LPL disclosure brochure and the platform agreement entered into between LPL, the client, and the Registrant. The platform fee is charged to the client as part of the Registrant’s advisory fee. LPL will receive the portion of the advisory fee that represents the amount of the platform fee. The advisory fee received by the Registrant and its IARs is based on a negotiated percentage of the maximum platform fee and varies depending on the extent of services being provided.

The platform fees for the MWP, OMP, PWP and MAS platforms are negotiable and calculated by LPL at the beginning of each quarter based on the value of the client’s assets invested in the platform as of the close of business on the last day of the preceding quarter. LPL will deduct the full platform fee from the client’s platform account as authorized by the client in the platform agreement, unless other arrangements have been agreed to in writing, and will pay the Registrant

its advisory fee. LPL's refund policy is fully outlined in the LPL disclosure brochure for each platform, which is provided to platform clients and should be fully reviewed upon receipt.

For the MAN platform, LPL will deduct and pay the Registrant's advisory fee from the client's platform account as authorized by the client in the Investment Advisory Agreement, unless other arrangements have been agreed to in writing.

Further information regarding fees and charges assessed by any mutual fund held in a client's platform account is outlined in that fund's prospectus and available upon request. Additionally, please refer to Item 14 for further details regarding fees.

Schwab Sponsored Program Fees

The total program fees charged under the *SELECT*, *ACCESS*, and *MARKETPLACE* programs are fully outlined in the Schwab disclosure brochure and the program agreement entered into between Schwab, the client, and the Registrant. The Schwab Program fees are in addition to the investment advisory fees charged by the Registrant, which are outlined above.

The program fees for the *SELECT*, *ACCESS*, and *MARKETPLACE* programs are negotiable at Schwab's discretion and are calculated and deducted by Schwab from the client's program account in the month following the month for which the fees were incurred. Schwab's refund policy is fully outlined in the Schwab disclosure brochure, which is provided to program clients and should be fully reviewed upon receipt.

Clients in all the Schwab Programs are expected to also incur certain charges imposed by Schwab or third parties other than the Registrant in connection with investments made through the program account, including among others the following types of charges: mutual fund 12b-1, sub-transfer agent, networking and omnibus processing fees; fund management fees and administrative servicing fees; certain deferred sales charges on previously purchased mutual funds and other transaction charges and service fees; IRA and Qualified Retirement Plan fees; custodial fees; administrative servicing fees for trust accounts; and other taxes and charges required by law or imposed by exchanges or regulatory bodies (collectively, "Schwab Program Additional Charges"). Schwab, the Registrant and the Registrant's IARs may receive all or a portion of certain of these Schwab Program Additional Charges. Further information regarding fees and charges assessed by any mutual fund held in a client's program account is outlined in the fund's prospectus and available upon request. Additionally, please refer to Item 14 – Client Referrals and Other Compensation for further details regarding fees.

TD Sponsored Program Fees

The total program fees charged under the TD Institutional programs are fully outlined in the TD disclosure brochure and the program agreement entered into between TD, the client, and the Registrant. The TD Program fees are in addition to the investment advisory fees charged by the Registrant, which are outlined above.

The program fees for the TD programs are negotiable at TD's discretion and are calculated and deducted by TD from the client's program account in the month following the month for which the fees were incurred. TD's refund policy is fully outlined in the TD disclosure brochure, which is provided to program clients and should be fully reviewed upon receipt.

Clients in all the TD Programs are expected to also incur certain charges imposed by TD or third parties other than the Registrant in connection with investments made through the program account, including among others the following types of charges: mutual fund 12b-1, sub-transfer agent, networking and omnibus processing fees; fund management fees and administrative servicing fees; certain deferred sales charges on previously purchased mutual funds and other transaction charges and service fees; IRA and Qualified Retirement Plan fees; custodial fees; administrative servicing fees for trust accounts; and other taxes and charges required by law or imposed by exchanges or regulatory bodies (collectively, "TD Program Additional Charges"). TD, the Registrant and the Registrant's IARs may receive all or a portion of certain of these TD Program Additional Charges. Further information regarding fees and charges assessed by any mutual fund held in a client's program account is outlined in the fund's prospectus and available upon request. Additionally, please refer to Item 14 – Client Referrals and Other Compensation for further details regarding fees.

Clients should also understand that LPL is responsible under FINRA rules for supervising certain business activities of the Registrant and its Dually Registered Persons that are conducted through broker-dealers and custodians other than LPL. LPL charges a fee for its oversight of activities conducted through these other broker-dealers and custodians. This fee is equal to 5% of the investment advisory fee paid to the Registrant. This arrangement presents a conflict of interest because the Registrant has a financial incentive to recommend that you maintain your account with LPL rather than with another broker-dealer or custodian to avoid incurring the oversight fee.

In addition, all clients, whether engaging the Registrant under the ABFO or TBFO, will incur additional charges as detailed above.

The recommendation by Registrant's IARs that a client purchase a securities and/or insurance commission product presents a conflict of interest as the receipt of commissions provides an incentive to recommend investment or insurance products based on commissions received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's IARs. Clients are reminded that they may purchase investment or insurance products recommended by Registrant through other non-affiliated broker dealers or insurance agents.

For additional information on our financial affiliations please refer to Item 10 of this Brochure.

Please Note: LPL is affiliated with Private Trust Company, N.A., a trust company licensed in all 50 states under a national bank charter ("PTC"). To the extent that a client elects to utilize LPL as their custodian, LPL will direct the client's IRA assets to be held at PTC. As such, clients may incur an Annual IRA maintenance fee charged by PTC. Any Annual IRA maintenance fees incurred by the client shall be separate and in addition to the Registrant's investment advisory fee.

Consulting and Financial Planning Services

Consulting and Financial Planning Services are charged through a fixed fee or hourly arrangement as agreed upon between the client and the IAR. Fees are negotiable and vary depending upon the complexity of the client's situation and services to be provided. Fixed fees typically range from \$100 to \$40,000 depending on the complexity of the project and services. Hourly rates range from \$100 - \$400 per hour, depending on the experience and qualifications of the IAR. An estimate for total hours is determined at the start of the Consulting and Financial Planning Services relationship.

Fees for Consulting and Financial Planning Services are subject to negotiation and, in the discretion of the Registrant, will differ from the above schedule due to size of total estate, complexity, additional services needed, and time commitment.

The fee paid by the client for Consulting and Financial Planning Services may be recovered through a reduction in our investment advisory fee in an amount equal to the cost of the financial plan should the recipient of the financial plan choose to become a client of ours. Similar financial planning services may be available elsewhere for a lower cost to the client.

Educational Events

IARs may host educational events ("Events") on various financial topics, at no charge to clients, that encourage clients to seek investment advisory services. From time to time, the Registrant's personnel, including executive officers, may participate in such Events.

Internal Mutual Fund & Fee-based Variable Annuity Expenses

Generally, mutual fund and variable annuity companies impose internal fees and expenses to manage their investment companies. Such fees are in addition to any program costs and advisory fees associated with the investment advisory services described above. Complete details of such internal expenses are specified and disclosed in each mutual fund and variable annuity company's prospectus. Clients are strongly advised to review the prospectus(es) prior to investing in such securities.

Fee-based Variable annuities are not assessed transaction fees since the reallocation of transactions are placed directly with the variable annuity sponsor.

However, variable annuity companies generally impose mortality charges of approximately .75% - 1.5% annually on such accounts. Variable annuity companies often also have additional riders or features on the contract as well which add additional costs. Please read and understand the total fees for your contract. Clients are encouraged to review the variable annuity prospectus prior to investing.

Clients may purchase shares of mutual funds directly from the mutual fund issuer, its principal underwriter or a distributor without paying for the services of the Registrant. Certain mutual funds are offered to the public without a sales charge. In the case of mutual funds offered with a sales charge, the prevailing sales charge (as described in the mutual fund prospectus) may be more or less than the applicable advisory fee and is in addition to such fee. However, if clients were to

purchase shares directly, then clients would not receive any investment advice from the Registrant, including the IAR's assistance in developing an investment strategy, selecting securities, monitoring performance of the account, and making changes as necessary.

Clearing and Custodial Arrangements

LPL, Schwab or TD may execute trades, settle securities transactions, and custody client assets on behalf of our clients using Direct Asset Management Services. For further details concerning these arrangements, clients should refer to the Investment Advisory Agreement and/or other related disclosure documents relative to the type of account they select.

Due to the unique nature of fee-based variable annuities, they must be maintained directly with the variable annuity sponsor. Neither the IAR nor the Registrant creates or forwards client account statements or confirmations. This responsibility remains exclusively with the variable annuity sponsor. All subaccount reallocations are directed to and executed at the variable annuity sponsor company.

Referral/Solicitor Fees

The Registrant acts as a solicitor for referring potential clients to third party investment advisory firms. As set forth in the written agreement relating to such arrangements, the Registrant will receive a portion of the annual management fee that the third party advisory firm collects from the client. To the extent that the Registrant receives compensation for such referrals, a conflict of interest exists because the Registrant will be inclined to recommend advisers from which Registrant receives a referral fee. Please see Item 14 for additional information.

ITEM 6: PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We do not charge fees based on capital gains or the amount of capital appreciation of the assets under management.

No performance based fees are charged by us or any third party on assets invested in the LPL Programs, Schwab Programs or TD Programs.

ITEM 7: TYPES OF CLIENTS

There are minimum account size requirements for Direct Asset Management Services offered through the LPL Programs, Schwab Programs or TD Programs. These programs establish their own minimum account size requirements.

There are minimum account size requirements for Direct Asset Management Services offered through the Registrant, including Consulting and Financial Planning Services, which are established by the Registrant and are based on the particular program of the Registrant that the client chooses. These minimum account size requirements may be waived at the sole discretion of the Registrant.

Our IARs provide personal advisory services to individuals, high net worth individuals, pension and profit sharing plans, including plans subject to the ERISA, trusts, estates, charitable organizations, and corporations, as well as other business entities.

If a client's account is a pension or other employee benefit plan governed by ERISA, the Registrant may be a 3(21) fiduciary to the plan. In providing our investment advisory services, the sole standard of care imposed upon us is to act with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

We will provide certain required disclosures to the "Responsible Plan Fiduciary" (as such term is defined in ERISA) in accordance with Section 408(b)(2), regarding the services we provide and the direct and indirect compensation we receive by such clients. Generally, these disclosures are contained in this Brochure, the Retirement Plan Consulting Agreement or in separate ERISA disclosure documents, and are designed to enable the ERISA plan's fiduciary to: (1) determine the reasonableness of all compensation received by us; (2) identify any potential conflicts of interest; and (3) satisfy reporting and disclosure requirements to plan participants.

ITEM 8: METHODS OF ANALYSIS, SOURCES OF INFORMATION, AND INVESTMENT STRATEGIES

Our IARs providing Direct Asset Management Services work independently from one another and employ varying philosophies, strategies, and tools in their investment analysis and due diligence processes. Any one of our IARs could utilize the following methods of analysis and strategies:

- Fundamental
- Technical
- Quantitative
- Qualitative

Our IARs provide advice and recommendations on equity securities, warrants, options, certificates of deposit, limited partnerships, futures contracts, variable life insurance, fee-based variable annuities, mutual funds, ETFs, municipal securities, U.S. government securities, structured notes and debt instruments.

Our IARs apply generally accepted investment theories so that investment choices for clients align with the client's investment needs and objectives and are made with the objective to reasonably diversify client assets to help minimize the risk of large losses and to provide the potential for varying degrees of long term appreciation and capital preservation. Our IARs generally use a mix of equity and fixed income exposures to achieve the desired investment objective. IARs will diversify, reallocate and rebalance the investments and associated risk levels over time in accordance with generally accepted investment theories and consistent with the client's investment objective. IARs may make recommendations for changes to the underlying investments and/or the asset allocation percentages of any model portfolios as well.

IARs providing Direct Asset Management Services have access to online portfolio software tools

that assist in analyzing client portfolios. Such software is based upon Modern Portfolio Theory (“MPT”). MPT attempts to balance a portfolio’s risk and return level based on a particular client’s risk tolerance and investment objectives. Various research tools are used in conjunction with asset allocation software to provide clients with access to risk tolerance assessments, efficient frontier plotting, fund profiling and performance data, as well as portfolio optimization and re-balancing tools.

In addition, our IARs may use, without limitation, any of the following methods of analysis and sources of information: charting, fundamental technical and cyclical analysis; financial newspapers and magazines; research materials prepared by others; timing services; corporate rating services such as Morningstar, annual reports, prospectuses and press releases.

In the implementation of their analyses, IARs use some or all of the following strategies at any given time:

- Long-Term Purchases – securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- Short-Term Purchases – securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities’ short-term price fluctuations. Short-term gains in taxable accounts are subject to federal income tax at higher rates than long-term gains. This difference in tax treatment is a disadvantage of short-term trades for taxable clients.
- Trading – Representatives may use short-term trades (in general, selling securities within 30 days of purchasing the same securities) when managing account(s). An IAR may sell a security soon after purchasing it on occasions when they determine that there is a reasonable basis for the sale and it is suitable given a client’s stated investment objectives and tolerance for risk. Short-term gains in taxable accounts are subject to federal income tax at higher rates than long-term gains, while losses realized on securities held 30 days or less are generally not tax deductible. These differences in tax treatment are disadvantages of short-term trades for taxable clients. There is also risk in that high velocity trading creates substantial transaction costs that in aggregate could negatively impact account performance.
- Short Sales – securities transactions in which an investor sells securities he or she borrowed in anticipation of a price decline. The investor is then required to return an equal number of shares at some point in the future. A short seller will profit if the stock goes down in price. The risk associated with a short sale is the potential of unlimited loss should the underlying value of the short position increase in value instead of the anticipated decline. Another risk is buy-in risk. Once borrowed, the shares are subject to buy-in at any time, which could force the client to cover the short position at a disadvantageous time or price. Short sales require the use of margin, which may increase cost and risk. Additional costs include interest on the value of borrowed securities. Risks also include additional margin calls in response to market fluctuations or at the discretion of the custodian.
- Margin Transactions – a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan. This

allows the client to purchase more stock than they would otherwise be able to, based on the account's available cash, and would allow the IAR to purchase stock without selling other holdings, which is therefore a higher risk strategy. Securities purchased on margin are subject to liquidation, additional margin calls, and interest on the funds borrowed. Should the value of the securities decline, clients may be forced to deposit additional margin with limited notice, or to liquidate their securities at substantial losses.

- **Option Purchases and Option Writing** – Purchasing a long option gives the buyer the right, but not the obligation, to buy or sell a particular security at a specified price before the expiration date of the option. When an investor writes (or sells) an option, he or she is obligated to deliver to the buyer of the option a specified number of shares (or the calculated money difference) if the buyer exercises the option. The Registrant does not generally permit uncovered option writing in advisory accounts. The seller receives a premium in exchange for writing the option. Options are wasting assets and expire at pre-determined dates. Commission charges for options transactions may be higher than the charges assessed for other assets, such as individual equities.

Please note: Investing in securities involves risk of loss that clients should be prepared to bear. While the value of your investments could increase and your account(s) thereby enjoy a gain, it is also possible that the value of your investments could decrease and your account(s) thereby suffer a loss. It is important that you understand the risks associated with investing in the securities markets, that you be appropriately diversified in your investments, and that you ask us any questions you may have.

Although we manage your account assets in a manner consistent with your stated investment objectives and risk tolerances, we do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees that your financial goals and objectives will be met. Past performance is in no way an indication or guarantee of future performance.

Prior to entering into an Investment Advisory Agreement with us, a client should carefully consider: 1) committing to management only those assets that the client believes will not be needed for current purposes and that can be invested on a long-term basis, usually a minimum of three to five years, 2) that volatility from investing in the stock and bond markets can occur, and 3) that over time the client's assets may fluctuate and at any time be worth more or less than the amount invested.

Described below are some particular risks associated with some types of investments we may recommend. Risk is inseparable from return. Every investment involves some degree of risk, and both the degree of risk and the type of risk varies depending on the investment. For example, the risk of loss to principal can be very close to zero in the case of a US Treasury security, or very high for something such as a concentrated exposure to one specific foreign security. On the other hand, purchasing power risk for a US Treasury security may be higher than the purchasing power risk of a higher-yield corporate bond or an equity. An understanding of risk in different forms can help clients to understand the opportunities, trade-offs and costs involved with different investment

approaches. The principal risk of any investment is that despite any comprehensive analysis, the security or instrument will not perform as expected. This can be due to, among other things:

- Alternative Investment Risk: There are a number of different risks involved with alternative investments, including some or all of those listed below. The risks vary depending on the type of alternative investment, with the main risks generally being illiquidity, higher and multi layered fee structures, complex investments, less transparency, tax issues; and lack of diversification of investment;
- Interest-Rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline;
- Equity Risk: Investments in equity securities generally involve a high degree of risk. Prices are volatile and market movements are difficult to predict. These price movements may result from factors affecting individual companies or industries. Price changes may be temporary or last for extended periods. In addition to, or in spite of, the impact of movements in the overall stock market, the value of investments may decline if the particular investments within the portfolio do not perform well in the market. Prices of growth stocks may be more sensitive to changes in current or expected earnings than prices of other stocks. Prices of stocks may fall or fail to appreciate regardless of movements in securities markets. A higher turnover rate, or increased trading may result in higher transactions costs and higher taxes in taxable accounts and may also affect the strategies' overall performance;
- Market Risk: The price of a stock, bond, mutual fund or other security may drop in reaction to tangible and intangible economic and market conditions, such as interest rates, availability of credit, inflation rates, commodity prices, economic uncertainty, changes in laws, trade barriers, currency fluctuations and controls, and national and international political circumstances. These factors may affect the levels of volatility of securities prices and the liquidity of investments in client portfolios. Such volatility or illiquidity could impair profitability or result in losses;
- Management Risk: the strategies utilized by the Registrant, as well as portfolio managers of mutual funds and ETFs, may not be successful in some market conditions;
- Inflation Risk: When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation;
- Fixed Income Risks: investments in fixed income securities represent numerous risks such as credit, interest rate, reinvestment, and prepayment risk, all of which affect their price/value. These risks represent the potential for a large amount of price volatility. In general, securities with longer maturities are more sensitive to price changes. Additionally, the prices of high-yield, fixed income securities fluctuate more than high-quality debt issues. Prices are especially sensitive to developments affecting the company's business and to changes in the ratings assigned by rating agencies. Prices are often closely linked with the company's stock prices. High-yield securities can experience sudden and sharp price swings due to changes in economic conditions, stock market activity, large sales by major investors, default, or other factors. In the event of a default, the investment may suffer a partial or total loss;

- Business Risk: These risks are associated with a particular industry or a particular company within an industry. Generally, business risk is that a company will go bankrupt or perform below expectations. Every company carries the business risk that it will produce insufficient cash flow in order to maintain operations. Business risk can come from a variety of sources, some systemic and others un-systemic. That is, every company has the business risk that the broader economy will perform poorly and therefore that sales will be poor, and also the risk that the market simply will not like its products;
- Market Liquidity Risk: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if there is an active market for the asset. For example, Treasury Bills are highly liquid, while real estate properties are not. The value of securities held in client accounts that are traded on exchanges and the risks associated with holding these positions vary in response to events that affect asset markets in general. Market disruptions such as those that occurred in 1987, in September 2001, and more recently the “Flash Crash” in May 2010 (the biggest one-day point decline, 998.5 points, on an intraday basis in Dow Jones Industrial average history) could lead to violent price swings in securities held within client portfolios and could result in substantial losses;
- Increased Regulations: Events during the past several years and adverse financial results have focused attention upon the necessity to maintain adequate risk controls and compliance procedures. These events have led to increased governmental and self-regulatory authority scrutiny of the financial industry. Various national governments have also expressed concern regarding disruptive effects of speculative trading and the need to regulate the markets in general. Any regulations that restrict the ability to employ, or broker-dealers and counterparties to extend credit or restrict trading activities could adversely impact profit potential;
- Leverage Risk: Excessive borrowing to finance a business’ operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value;
- Short Sales, Leverage and Derivatives Risk: Short sales, leverage and derivatives all represent substantial risks given their inherent heightened risk of loss. Leverage and derivatives imply borrowing capital. When such borrowing is deployed, losses can escalate quickly should investment suffer even small losses. Short sales involve a finite opportunity for appreciation, but a theoretically unlimited risk of loss. Short positions can also be subject to a “short squeeze” that could lead to accelerating losses for those short that particular security;
- Counterparty Risk: the risk that the other party in a transaction will not fulfill its contractual obligations;
- Expenses Risk: When investing in mutual funds and exchange traded funds, master limited partnerships, and REITs, and other pooled investments, the investor will incur a proportionate share of the expenses of the investment (including operating costs and investment management fees), in addition to the advisory fees and other expenses charged to the investor’s assets invested in the pooled investment;
- Small Capitalization Companies: a portion of assets may be invested in smaller and less established companies. Both debt and equity securities of such issuers tend to be more

volatile than larger, more established companies. Such volatility could adversely impact client portfolios;

- Large Company Risk: The stocks of large capitalization companies can perform differently from other segments of the equity market or from the equity market as a whole. Large capitalization companies may be less flexible in evolving markets or unable to implement change as quickly as smaller capitalization companies;
- Credit Risk: the market's perception of a bond issuer's ability to pay interest and repay principal;
- Convertible Arbitrage Risk: If interest rates on the convertible security rise, its value usually falls;
- Tax Risk: The Registrant in some cases may not manage client accounts with tax consequences in mind. Some strategies, including transactions in options and futures contracts, can be subject to special tax rules, which may have adverse consequences for the account holder;
- Non-US Investments: Client funds may be invested in securities (e.g., debt, equity, currencies, derivatives, etc.) of issuers domiciled outside the United States. Such investments expose a portfolio to a number of risks that may not exist in the domestic market alone. Such risks include, among other things, trade balances and imbalances and related economic policies, currency exchange rate fluctuations, imposition of exchange control regulation, withholding taxes, limitations on the removal of funds or other assets, possible nationalization of assets or industries, political difficulties, and political instability in foreign nations;
- Extraordinary Events: global terrorist activity and United States involvement in armed conflict may negatively affect general economic prospects, including sales, profits, and production, and may lead to depressed securities prices and problems relating to infrastructure and trading facilities;
- Potential Concentration: Client portfolios may have highly concentrated positions in issuers engaged in one or a few industries. This increases the risk of loss relative to the market as a whole.

Our clients also can elect to open margin accounts. Clients should be aware that there are a number of additional risks that all investors need to consider in deciding to trade securities on margin. The risks associated with margin include, but are not limited to, the following:

- Clients can lose more funds than they deposit in the margin account. A decline in the value of securities that are purchased on margin may require the client to provide additional funds to the firm that has made the loan to avoid the forced sale of those securities or other securities in the account;
- The lending firm may be able to force the sale of securities in a margin account. If the equity in margin account falls below the maintenance requirements under the law—or the lending firm's higher "house" requirements—the firm may be able to sell the securities in the margin account to cover the margin deficiency. Clients using margin may also be responsible for any short fall in the account after such a sale.

In a cash account, your risk is limited to the amount of money that you have invested. In a margin account, your risk includes the amount of money invested plus the amount that has been loaned to you.

It is important that investors take time to learn about the risks involved in trading securities on margin, and investors should consult IARs regarding any questions or concerns they may have with their margin accounts.

All investments involve risks that can result in loss including loss of principal, a reduction in earnings (including interest, dividends and other distributions), and the loss of future earnings.

ITEM 9: DISCIPLINARY INFORMATION

Neither our firm nor any of our management persons have been subject to any material legal or disciplinary events.

ITEM 10: OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Honor Bound Partners, LLC (“HBP”) owns one hundred percent (100%) of the Registrant’s outstanding membership units. HBP’s managing members and owners are Daxs Stadjuhar, Christopher Mercado, and Jeremy Olen, all of whom are executive officers of the Registrant and manage the Registrant’s day-to-day operations.

Honor Bound Consulting Services, LLC (“HBC”) is a California limited liability company that offers PCS services to IARs of the Registrant and IARs of other registered investment advisers, which services include portfolio design, investment consulting, trade execution, and re-balancing services. HBP owns one hundred percent (100%) of the outstanding membership units and controls HBC. (See Item 4 of this Brochure for additional information about HBC).

Honor Bound Network, LLC (“HBN”) is a California limited liability company owned one hundred percent (100%) by HBP and primarily serves to hold the assets and income of an office of supervisory jurisdiction. In this capacity, HBN is responsible for overseeing the activities of registered representatives assigned to the branch. In many instances, these same registered representatives serve as IARs of the Registrant.

As described in further detail in Item 12 of this Brochure, members of the Registrant’s management team and our IARs have outside business activities as registered representatives of LPL, for which they receive additional compensation. These outside business activities and additional compensation create conflicts of interest. For example, from time to time, our IARs recommend or invest on behalf of clients in investment products sold through LPL and by doing so receive usual and customary commissions and/or other compensation. This presents a conflict of interest to the extent that the IAR recommends that a client invest in a security which results in a commission being paid to him/her. The receipt of commissions provides an incentive to recommend investment products based on commissions received rather than on a particular client’s

need. Clients should be aware that they may purchase investment products recommended by Registrant through other non-affiliated broker-dealers.

Several of our IARs are also licensed insurance agents of various independent insurance companies. In the course of providing investment advisory services, these individuals can recommend that clients purchase products or policies underwritten by certain insurance carriers. Please note that a conflict of interest exists to the extent that certain recommendations result in a commission being paid to these individuals by the insurance company should a client purchase that company's insurance products or policies. The amount paid is the normal commission paid for services rendered as an insurance representative. Clients should be aware that they are under no obligation to purchase insurance products or policies recommended by the Registrant or any of its IARs, and may purchase insurance products or policies from non-affiliated insurance agents.

The conflicts surrounding these outside business activities are disclosed to clients at the time of entering into an Investment Advisory Agreement with the Registrant, primarily through the delivery of this Brochure and the Supplemental Brochures (ADV Part 2Bs). Additionally, the Registrant has implemented certain policies, procedures and internal controls to help mitigate these conflicts, including having supervisory procedures to oversee and monitor the outside business activities of the IARs. Importantly, as part of our fiduciary duty to clients, the Firm and its IARs endeavor at all times to put the interests of the clients first, and recommendations and investments will only be made to the extent that they are reasonably believed to be suitable and in the best interests of the client.

Additionally, as a result of the relationship with LPL, LPL will have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about the Registrant's clients, even if the client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact Keren Ackerman, Chief Compliance Officer, at (650) 571-1934.

ITEM 11: CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

A. CODE OF ETHICS

The Registrant has adopted a Code of Ethics (the "Code") to address securities-related conduct. The Code applies to all of our associated persons, including our IARs. An investment adviser is considered a fiduciary. As a fiduciary, the Registrant has adopted policies and procedures that embrace certain fiduciary principles, such as:

- The responsibility to provide full and fair disclosure of all material facts;
- The duty at all times to act in the best interests of each of our clients and to place the interests of clients first;
- The requirement that all personal securities transactions be conducted in such a manner as to be consistent with the Code and to avoid any actual or potential conflict of interest or any abuse of an access person's position of trust and responsibility;

- The principle that investment adviser personnel should not take inappropriate advantage of their positions;
- The fiduciary principle that information concerning the identity of security holdings and financial circumstances of clients is confidential; and
- The principle that independence in the investment decision-making process is paramount.

The Code focuses primarily on fiduciary duty, personal securities transactions, insider trading, gifts, and conflicts of interest. We require all of our supervised persons to conduct business with the highest level of ethical standards and to comply with federal and state securities laws at all times. Upon employment or affiliation and at least annually thereafter, all supervised persons will sign an acknowledgment that they have read, understood and agreed to comply with our Code of Ethics. Our firm must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients.

We will provide a copy of the Code in its entirety, at no cost, to any client or prospective client upon request.

B. PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS

The Registrant's access persons do engage in personal securities transactions. The personal securities transactions of our access persons may raise potential conflicts of interest when such persons trade in a security that is 1) owned by a client or 2) considered for purchase or sale for a client. The Registrant has adopted policies and procedures that are intended to ensure that transactions are effected for clients in a manner that is consistent with the fiduciary duty and in accordance with applicable law. Access persons that wish to purchase or sell securities of the types purchased or sold for clients may do so only in a manner consistent with the Registrant's policies and procedures.

Registrant does not engage in principal transactions or agency cross transactions. Principal transactions occur where an adviser, acting as principal for its own account, buys securities from or sells securities to any advisory client. Agency cross transactions occur where a person acts as an investment adviser in relation to a transaction in which the adviser, or an affiliate of the adviser, acts as broker for both the advisory client and for another person on the other side of the transaction.

ITEM 12: BROKERAGE PRACTICES

A. LPL FINANCIAL

Our IARs are also registered representatives of LPL ("Dually Registered Persons") and our primary custodial relationship is with LPL. Prior to engaging the Registrant to provide investment management services, the client will be required to enter into a formal Investment Advisory Agreement with Registrant setting forth the terms and conditions under which Registrant shall manage client assets, and a separate custodial agreement with each designated broker-dealer or custodian. If the client desires to engage the IAR to provide brokerage services acting as a

registered representative of LPL, the IAR has the option to place clients in investment products sold through LPL and will receive brokerage-related compensation for those services, such as commissions and trail fees. Many such products have fixed commissions as they are sold through a prospectus. For example, Dually Registered Persons, in their capacity as registered representatives of LPL, receive compensation (such as 12b-1 fees) from the sale of mutual fund products to clients of the Registrant. This compensation is consideration for various services that the representative provides, such as presenting information to the Registrant's clients regarding the funds and recommending shares of the funds for investment. Payment of these fees is included in the expense ratios of the mutual funds. Registered representatives may have a greater incentive to recommend certain funds or fund families with 12b-1 fees or funds with higher 12b-1 fees over other funds or fund families with no or lower 12b-1 fees.

LPL provides information regarding such brokerage compensation at the time of a brokerage transaction. When considering whether to implement a recommendation through your IAR and LPL, clients should discuss with the IAR how LPL and the IAR will be compensated. Fees and commissions may also be higher or lower than services provided by other vendors. Using our IARs to provide brokerage services to you creates a potential conflict of interest that may give an IAR an incentive to recommend services based on the compensation they will receive. This in no way prohibits you from purchasing investment products recommended by us through other brokers or agents which are not affiliated with us. Please refer to Item 10 for additional information on this potential conflict of interest. Please refer to Item 5 of this Brochure for additional detail on fees.

LPL Services That Generally Benefit Us

Our IARs will also receive from LPL bonuses based on their production, issued restricted stock units of shares of LPL's parent company, LPL Investment Holdings, Inc., reimbursement of fees they pay to LPL for items such as administrative services, and other items of value such as complimentary or reduced-cost attendance at LPL's national sales conference or top producer forums and events. These financial incentives from LPL are based on their overall business production.

LPL also provides various benefits and payments to Dually Registered Persons that are new to LPL to assist the representative with the costs (including foregone revenues during account transition) associated with transitioning his or her business to LPL (collectively referred to as "Transition Assistance"). The proceeds of such Transition Assistance payments are intended to be used for a variety of purposes, including but not necessarily limited to, providing working capital to assist in funding the Dually Registered Person's business, satisfying any outstanding debt owed to the Dually Registered Person's prior firm, offsetting account transfer fees (ACATs) payable to LPL as a result of the Dually Registered Person's clients transitioning to LPL's custodial platform, technology set-up fees, marketing and mailing costs, stationary and licensure transfer fees, moving expenses, office space expenses, staffing support and termination fees associated with moving accounts.

The amount of the Transition Assistance payments are often significant in relation to the overall revenue earned or compensation received by the Dually Registered Person at his/her prior firm. Such payments are generally based on the size of the Dually Registered Person's business established at his/her prior firm and/or assets under custody with LPL. Please refer to the relevant Part 2B brochure supplement for more information about the specific Transition Payments your

IAR receives.

Transition Assistance payments and other benefits are provided to associated persons of the Registrant in their capacity as registered representatives of LPL. However, the receipt of Transition Assistance by such Dually Registered Persons creates conflicts of interest relating to the Registrant's advisory business because it creates a financial incentive for Registrant's representatives to recommend that its clients maintain their accounts with LPL. In certain instances, the receipt of such benefits is dependent on a Dually Registered Person maintaining its clients' assets with LPL and therefore the Registrant has an incentive to recommend that clients maintain their account with LPL in order to generate such benefits.

The Registrant attempts to mitigate these conflicts of interest by evaluating and recommending that clients use LPL's services based on the benefits that such services provide to our clients, rather than the Transition Assistance earned by any particular Dually Registered Person. As discussed further in Section C – Best Execution of this Item 12, the Registrant considers a number of factors when recommending that clients maintain accounts with LPL. However, clients should be aware of this conflict and take it into consideration in making a decision whether to custody their assets with LPL.

LPL Services That May Not Directly Benefit Clients

LPL also makes available to us other products and services that benefit us but may not directly benefit our clients or their accounts held at LPL. These products and services assist us in managing and administering our clients' accounts. They include investment research, both LPL's own and that of third parties. The Registrant and its IARs may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at LPL. In addition to investment research, LPL also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements);
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- Provide pricing and other market data;
- Facilitate payment of the Registrant's advisory fees from clients' accounts; and
- Assist with back-office functions, recordkeeping, and client reporting.

LPL Sponsored Platforms

For the MWP, OMP, and PWP platforms, each such platform client grants LPL, via the client platform agreement, discretionary trading authorization with respect to the purchase and sale of the assets in the client's LPL Platform account. LPL also is responsible for the rebalancing of platform client accounts.

In accordance with the PWP platform client agreement, PWP platform clients authorize LPL to delegate PWP Advisors (as such term is defined in the PWP platform client agreement) with investment and trade discretion over a portion of the PWP account. For example, if a PWP account is selected that includes a municipal security allocation managed by a PWP Advisor, then LPL can give the PWP Advisor discretionary trading authorization with respect to the purchase and sale of

the municipal securities portion of the PWP account.

For the MAS and MAN platforms, the TPAM(s) will have investment discretion and trading authority with respect to the purchase and sale of the assets in a MAS or MAN platform client account.

The trading and rebalancing information is outlined in the platform client agreement and the LPL disclosure brochure for each platform. A copy of the brochure is provided to platform clients and should be read thoroughly upon receipt.

B. RECOMMENDATION OF OTHER BROKER-DEALERS/CUSTODIANS

We may recommend that clients establish brokerage accounts with LPL, Schwab or TD (collectively, "Custodian Brokers") to maintain custody of client assets and effect trades for client accounts. Clients are advised that there may be transaction charges involved when purchasing or selling securities.

The commission rates and transaction fees charged by the Custodian Brokers may be higher or lower than those charged by other broker dealer/custodians. Further, the fees charged by any designated Custodian Broker are exclusive of, and in addition to, the Registrant's investment advisory fees. In addition, clients shall also incur charges imposed at the mutual fund level (e.g. management fees and other fund expenses) as outlined in Item 5 of this Brochure. Please refer to Item 5 of this Brochure for additional detail on fees.

C. BEST EXECUTION

Under the Custodian Broker arrangements, the Custodian Brokers generally do not charge a custodial fee so long as client transactions are placed with the Custodian Broker for execution. It is the policy and practice of the Registrant to strive for the best price and execution that are competitive in relation to the value of the transaction ("best execution"). In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the overall best qualitative execution, taking into consideration the full range of the Custodian Broker's services, including, among other things, the value of research provided, execution capability, commission rates, and responsiveness. Consistent with the foregoing, while the Registrant will seek competitive rates among various Custodian Brokers, it will not necessarily obtain the lowest possible commission rates or transaction fees for client transactions. The Registrant is not required to negotiate "execution only" commission rates, thus the client may be deemed to be paying for research and related services (*i.e.*, "soft dollars") provided by the Custodian Broker which are included in the commission rate/ transaction fee.

To ensure that Custodian Brokers recommended by the Registrant are conducting overall best qualitative execution, the Registrant will periodically (and no less often than annually) evaluate the trading process and Custodian Brokers utilized. Such evaluation will consider the full range of brokerage services offered by the Custodian Brokers, which may include, but is not limited to, price, commission, timing, research, aggregated trades, capable floor brokers or traders, competent block trading coverage, ability to position, capital strength and stability, reliable and accurate

communications and settlement processing, use of automation, knowledge of other buyers or sellers and administrative ability.

D. AGGREGATION AND ALLOCATION OF CLIENT ORDERS

The Registrant expects to aggregate orders in a bunched trade or trades when securities are purchased or sold through the same Custodian Broker for multiple discretionary accounts. Non-discretionary accounts are not included in bunched trades for discretionary accounts.

The portfolio manager/IAR for each account must reasonably believe that the bunched order is consistent with the Registrant's duty to seek best execution and may benefit each client participating in the aggregated order. The average price per share of each bunched trade is allocated to each account that participates in the bunched trade. Accounts that participate in the same bunched trade are charged commissions or transaction fees, if applicable, in accordance with their advisory contracts. Different accounts participating in a bunched transaction may not be charged the same commission rates or transaction fees.

If a bunched order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular client accounts. For example, partial fills generally are filled pro rata among participating accounts. Prior to entry of a bunched trade, a written pre-allocation is generated which identifies the group of client accounts participating in the order. If the amount to be allocated for each account is not indicated prior to placement of the trade, the Chief Compliance Officer ("CCO") or designee must review and approve no later than the morning following allocation of the trade.

Changes in allocation prior to final allocation can be made for good cause provided that all client accounts receive fair and equitable treatment. A written explanation of the reason for any material change in the allocation must be provided to and approved by the CCO or designee no later than the morning following the execution of the trade. If the change in allocation is the result of a condition that exists or a change in a client's account outside of the portfolio manager's control, then approval is not required.

Advisory accounts of the Registrant's IARs and related persons can participate in bunched trades. They receive the same average price for all transactions that day and pay commissions and other transaction costs, if applicable. The portfolio manager is not obligated to include any client account in a bunched trade. Transactions for any client's account will not be aggregated for execution if the practice is prohibited or inconsistent with that client's Investment Advisory Agreement.

F. TRADE ERROR POLICY

It is the Registrant's policy that clients must not be disadvantaged if a trade entered into a client's account contains an error (either wrong number of shares, wrong product or wrong account). Trades are corrected to reflect the original intent of the trade order. The Registrant reimburses client accounts for losses resulting from the Registrant's trade errors, but does not credit accounts for such errors resulting in market gains. The gains and losses are reconciled with the client account custodian firm and Registrant retains the net gains and losses.

G. RESEARCH AND OTHER SOFT DOLLAR BENEFITS

The Registrant selects a Custodian Broker due to the value of various services or products, beyond transaction execution, that such Custodian Brokers provide. Selecting a broker-dealer in recognition of the provision of services or products other than transaction execution is known as paying for those services or products with “soft dollars.” The amount of compensation paid to the Custodian Brokers is anticipated to be higher than what other, equally capable broker-dealers might charge. Except for the benefits received from Custodian Brokers as discussed below, the Registrant currently has no other soft dollar arrangements in place. The following discussion is intended to provide clients with certain important information regarding such practices, including the potential conflicts of interest that may arise should the Registrant enter into any soft dollar arrangements.

The receipt of such services from Custodian Brokers benefits us, because we do not have to produce or pay for the research or other products or services when it obtains such products and services by using client commissions/transaction fees. Although customary, these arrangements present potential conflicts of interest in allocating securities transaction business to Custodian Brokers in exchange for soft dollar benefits. Additionally, the Registrant has an incentive to effect more transactions than might otherwise be the case in order to obtain certain benefits. The extent of any such conflict depends in large part on the nature and uses of the services and products acquired with soft dollars.

The Registrant’s general policy is to comply with the provisions of Section 28(e) of the Securities Exchange Act of 1934 (“Section 28(e)”) when entering into soft dollar arrangements. Section 28(e) recognizes the potential conflict of interest involved in this activity, but generally allows investment advisers to use client commissions to pay for certain research and brokerage products and services under certain circumstances without breaching their fiduciary duties to clients. For these purposes, “research” means services or products used to provide lawful and appropriate assistance to the Registrant in making investment decisions for its clients. “Brokerage” services and products are those used to effect securities transactions for the Registrant’s clients or to assist in effecting those transactions.

Research and other products and services purchased with soft dollars will generally be used to service all of the Registrant’s clients, but commissions or transaction fees paid by one client may be used to pay for research that is not used in managing that client’s portfolio, as permitted by Section 28(e). In other words, it is expected that there will be certain client accounts that benefit from the research services, which did not make the payment of commissions to the broker-dealer providing the services.

Brokerage services obtained with soft dollars may include, for example, quotation and communication equipment and services, other order management systems that provide trading software or provide connectivity to such software, trade analysis software, on-line pricing services, communication services relating to execution, clearing and settlement and message services used to transmit orders.

Research and related services furnished by Custodian Brokers may include, but are not limited to, written information and analyses concerning specific securities, companies or sectors; market, financial and economic studies and forecasts; financial publications; recommendations as to specific securities; portfolio evaluation services; financial database software and services; computerized news, pricing and statistical services; and discussions with research personnel, along with hardware, software, databases and other technical and telecommunication services and equipment utilized in the investment management process. Research received by the Registrant under such soft dollar arrangements may include both proprietary research (created or developed by the broker-dealer) and research created or developed by a third party.

Schwab Advisor Services™

For our clients' accounts that are held at Schwab, Schwab generally does not charge separately for custody services but is compensated by charging transaction fees on trades that it executes for the client's account or that settle into the Schwab account.

The custodian and brokerage services that Schwab provides to the Registrant's clients are typically not available to retail clients. These services are provided by Schwab so long as the Registrant maintains a minimum amount of our clients' assets with Schwab. This commitment benefits the client because the overall transaction fees paid are lower than they would be otherwise. In addition to transaction fees, Schwab will charge a client a flat dollar amount when acting as a "prime broker" for any trade that is executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into the client's Schwab account. These fees are in addition to the commissions paid to the executing broker-dealer. Because of this, in order to minimize a client's trading costs, the Registrant generally places all trades for clients that have managed accounts held at Schwab with Schwab for execution. Under each of the Schwab Programs, the TPAMs provide discretionary investment advisory services and will manage clients' assets in the programs in accordance with the investment strategies chosen by the clients.

Also, Schwab serves as the client's custodian and broker in the Schwab Programs and the Registrant provides ongoing investment advisory services, including gathering necessary client financial data and assisting the client in determining an appropriate Schwab Program, including TPAMs, in accordance with the investment strategy or strategies suitable for and in line with each client's investment guidelines.

Each client entering into a Schwab Program will be provided with a written Schwab disclosure brochure that outlines in detail the services provided and fees charged, along with other important information about the selected Schwab Program. Clients should thoroughly read the brochure upon receipt.

Products and Services Available From Schwab

Schwab Advisor Services™ (formerly called Schwab Institutional®) is Schwab's business serving independent investment advisory firms like the Registrant. They provide the Registrant and our clients with access to their institutional brokerage trading, custody, reporting, and related services—many of which are not typically available to Schwab retail clients. Schwab also makes

available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. Schwab's support services generally are available on an unsolicited basis (we don't have to request them) and at no charge to us as long as our clients collectively maintain a total of at least \$25 million of their assets in accounts at Schwab. If our clients collectively have less than \$25 million in assets at Schwab, Schwab may charge us quarterly service fees of approximately \$1,200. Following is a more detailed description of Schwab's support services:

Services That Benefit Clients

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit our clients and their accounts held at Schwab.

Services That May Not Directly Benefit Clients

Schwab also makes available to us other products and services that benefit us but may not directly benefit our clients or their accounts held at Schwab. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. The Registrant and its IARs may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements)
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- Provide pricing and other market data
- Facilitate payment of the Registrant's advisory fees from our clients' accounts
- Assist with back-office functions, recordkeeping, and client reporting

Services That Generally Benefit Only Us

Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events for IARs
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants, and insurance providers

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also provide us with other benefits, such as occasional business entertainment of our personnel. The Registrant and its IARs may utilize some or all of the services outlined above that are offered by Schwab.

Our Interest in Schwab's Services

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. As mentioned above, we do not have to pay for Schwab's services so long as clients collectively keep a total of at least \$25 million of their assets in accounts at Schwab. Beyond that, these services are not contingent upon us committing any specific amount of business to Schwab in trading commissions or assets in custody. The \$25 million minimum gives us an incentive to recommend to clients that they maintain their account with Schwab, based on our interest in receiving Schwab's services that benefit our business rather than based on a client's interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our recommendation of Schwab as custodian and broker is in the best interests of our clients. Such recommendation is primarily supported by the scope, quality, and price of Schwab's services and not on Schwab's services that benefit only the Registrant.

Schwab Sponsored Programs

For the SELECT, ACCESS, and MARKETPLACE programs, each program client grants Schwab, via the client program agreement, discretionary trading authorization with respect to the purchase and sale of the assets in the client's program account. Schwab also is responsible for the rebalancing of program client accounts.

In accordance with the particular program client agreement, program clients authorize Schwab to delegate program managers (as such term is defined in the program client agreement) with investment and trade discretion over a portion of the program account. For example, if an account is selected that includes a municipal security allocation managed by a program manager, then Schwab can give the program manager discretionary trading authorization with respect to the purchase and sale of the municipal securities portion of the program account.

The trading and rebalancing information is outlined in the program client agreement and the Schwab disclosure brochure for each program. A copy of the brochure is provided to program clients and should be read thoroughly upon receipt.

TD Ameritrade InstitutionalTM

For our clients' accounts that are held at TD, TD generally does not charge separately for custody services but is compensated by charging transaction fees on trades that it executes for the client's account or that settle into the TD account.

The custodian and brokerage services that TD provides to the Registrant's clients are typically not

available to retail clients. These services are provided by TD so long as the Registrant maintains a minimum amount of our clients' assets with TD. This commitment benefits the client because the overall transaction fees paid are lower than they would be otherwise. In addition to transaction fees, TD will charge a client a flat dollar amount when acting as a "prime broker" for any trade that is executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into the client's TD account. These fees are in addition to the commissions paid to the executing broker-dealer. Because of this, in order to minimize a client's trading costs, the Registrant generally places all trades for clients that have managed accounts held at TD with TD for execution. The Registrant has determined that having TD execute most such trades is consistent with our duty to seek "best execution", which means that we are seeking the most favorable terms for each transaction based on all relevant factors, including those listed above.

Products and Services Available From TD

TD Ameritrade Institutional® is TD's business serving independent investment advisory firms like the Registrant. They provide the Registrant and our clients with access to their institutional brokerage trading, custody, reporting, and related services—many of which are not typically available to TD retail clients. TD also makes available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. TD's support services generally are available on an unsolicited basis (we don't have to request them) and at no charge to us. Following is a more detailed description of TD's support services:

Services That Benefit Clients

TD's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through TD include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. TD's services described in this paragraph generally benefit our clients and their accounts held at TD.

Services That May Not Directly Benefit Clients

TD also makes available to us other products and services that benefit us but may not directly benefit our clients or their accounts held at TD. These products and services assist us in managing and administering our clients' accounts. They include investment research, both TD's own and that of third parties. The Registrant and its IARs may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at TD. In addition to investment research, TD also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements)
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- Provide pricing and other market data

- Facilitate payment of the Registrant's advisory fees from our clients' accounts
- Assist with back-office functions, recordkeeping, and client reporting

Services That Generally Benefit Only Us

TD also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events for IARs
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants, and insurance providers

TD may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. TD may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. TD may also provide us with other benefits, such as occasional business entertainment of our personnel. The Registrant and its IARs may utilize some or all of the services outlined above that are offered by TD.

Our Interest in TD's Services

The availability of these services from TD benefits us because we do not have to produce or purchase them. As mentioned above, TD's services are available to us without charge.

TD Sponsored Programs

For the TD Programs, each program client grants TD, via the client program agreement, discretionary trading authorization with respect to the purchase and sale of the assets in the client's program account. TD also is responsible for the rebalancing of program client accounts.

In accordance with the particular program client agreement, program clients authorize TD to delegate program managers (as such term is defined in the program client agreement) with investment and trade discretion over a portion of the program account. For example, if an account is selected that includes a municipal security allocation managed by a program manager, then TD can give the program manager discretionary trading authorization with respect to the purchase and sale of the municipal securities portion of the program account.

The trading and rebalancing information is outlined in the program client agreement and the TD disclosure brochure for each program. A copy of the brochure is provided to program clients and should be read thoroughly upon receipt.

ITEM 13: REVIEW OF ACCOUNTS

For those clients to whom Registrant provides investment advisory services, account reviews are

conducted on an ongoing basis by the Registrant and its IARs. All investment advisory clients are advised that it remains their responsibility to advise their IAR of any changes in his/her/its financial situation, investment objectives and/or risk tolerance. All clients (in person or via telephone) are encouraged to discuss and review all such changes with the Registrant on an annual basis.

The Registrant may conduct account reviews on an other-than-periodic basis upon the occurrence of a triggering event, such as a change in client financial situation, investment objectives, risk tolerance, market corrections, and client request.

Financial planning clients do not receive reviews of their written plans unless they take action to schedule a financial consultation with us. We do not provide ongoing services to Comprehensive Financial Planning or Hourly Consulting clients unless they separately contract with us for a post-financial plan meeting or update to their initial written financial plan.

Retirement Plan Consulting clients receive reviews of their pension plans for the duration of the pension consulting service. We also provide ongoing services to pension consulting clients where we meet with such clients upon their request to discuss changes and to their circumstances and resulting updates to their plans.

ITEM 14: CLIENT REFERRALS AND OTHER COMPENSATION

Recommendation of Brokers to Clients

As discussed in Item 12 of this Brochure, the Registrant typically recommends LPL as the broker-dealer or custodian to clients. If the client desires to engage the IAR to provide brokerage services acting as a registered representative of LPL, the IAR has the option to place clients in investment products sold through LPL and will receive brokerage-related compensation for those services. The recommendation by Registrant's IARs that a client purchase a securities and/or insurance commission product presents a conflict of interest as the receipt of commissions may provide an incentive to recommend investment products based on commissions received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's IARs. Clients are reminded that they may purchase investment products recommended by Registrant through other non-affiliated broker dealers or insurance agents. Please contact the CCO should you have any questions regarding the above conflict of interest.

Referral/Solicitor Fees

Registrant has entered into agreements with third parties that refer clients to Registrant. Under such solicitation agreements, we pay referral fees (non-commission based) to third party solicitors for the referral of their clients to our firm. All such agreements are in writing and comply with the requirements of Rule 206(4)-3 of the Advisers Act and applicable state and federal laws. Any such fee shall be paid solely from the Registrant's investment advisory fee, and shall not result in any additional charge to the client.

Each prospective client who is referred to us under such an arrangement will receive a copy of our Brochure and a separate written disclosure document disclosing the terms and fee arrangements nature between the Registrant and the third-party solicitor. In cases where state law requires licensure of solicitors, we ensure that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our firm. If we are paying solicitation fees to another registered investment adviser, the licensure of individuals is the other firm's responsibility.

IARs also act as solicitors by referring potential clients to third party investment advisory firms. When the client enters into an agreement with the third party advisory firm, the Registrant is paid a portion of the annual management fee that the third party advisory firm collects from each client solicited by the Registrant. IARs provide each solicited client written disclosures at the time of solicitation, outlining the solicitation arrangement and the compensation to be paid to the Registrant for soliciting the client. Upon receipt of the fees, the Registrant will pay a portion of such solicitation fee to the IAR soliciting the potential client. The third party advisory firm, not the Registrant, provides investment management services to each solicited client and is responsible for ensuring client suitability.

Other Compensation

The IAR may also receive additional compensation from product sponsors. However, such compensation may not be tied to any product sales. They may include such compensation as gifts valued at less than \$100 annually, an occasional dinner or sporting event, or reimbursement in connection with educational meetings or training events. Product sponsors may also pay for education or training events.

As outlined in Item 12 of this Brochure, the Registrant will recommend LPL, Schwab or TD for the execution and settlement of client transactions and custody of their assets. As part of these arrangements, the Registrant receives products and services from these broker-dealers, including software to enable direct electronic downloading of client account information, electronic trading, and access to investment research and information provided by broker-dealers. Clients do not pay higher commissions or transaction fees as a result of these products and services furnished by broker-dealers to the Registrant. Although IARs registered with LPL may receive commissions in LPL accounts, the Registrant earns no commissions from these transactions. Transaction charges or other charges for services to clients by broker-dealers may be more or less than other broker-dealers not recommended by the Registrant that charge for comparable services. Clients are not required to use a specific broker-dealer to retain the services of the Registrant. Please refer to Item 12 above for complete information on the benefits received by the Registrant from these broker-dealers.

Mutual funds purchased or sold in broker-dealer accounts may generate transaction fees that would not exist if the purchase or sale were made directly through the mutual fund company. Mutual funds held in broker-dealer accounts also charge management fees. These mutual fund management fees may be more or less than the mutual fund management fees charged if the client held the mutual fund directly with the mutual fund company. These management fees are in addition to the management fee charged by the Registrant.

On occasion, LPL provides funding in the form of loans as incentive to independent registered representatives to establish broker-dealer relationships with LPL. Such loans are to assist in the

transition and expansion of their practice.

Some IARs will also receive from LPL bonuses based on their production, issued restricted stock units of shares of LPL's parent company, LPL Investment Holdings, Inc., reimbursement of fees they pay to LPL for items such as administrative services, and other things of value such as complimentary or reduced-cost attendance at LPL's national sales conference or top producer forums and events. These financial incentives from LPL are based on their overall business production. However, in some cases, the incentives are greater for assets they service in advisory programs. This may present a conflict of interest as the need to meet production levels may influence investment recommendations.

The Registrant receives asset-based advisory fees as a result of its clients' participation in the LPL sponsored programs. The amount of these fees may be more or less than what the Registrant would receive if a client participated in other LPL programs or paid separately for investment advice, brokerage and other client services. Additionally, the Registrant or one or more of its IARs will receive all or a portion of certain third party fees that are paid by program clients. Therefore, the Registrant has a financial incentive when recommending that its clients open an account under the LPL managed account program. As part of the Registrant's fiduciary duty to its clients, the Registrant and its IARs will endeavor at all times to put the interest of the clients first and will only make recommendations when they are reasonably believed to be in the best interests of the client. Please refer to Item 5 of this Brochure for further details regarding fees.

ITEM 15: CUSTODY

Pursuant to Rule 206(4)-2 of the Advisers Act, the Registrant is deemed to have custody of client funds solely because the Firm has the authority and ability to debit its fees directly from clients' accounts that are being charged an asset-based advisory fee. To mitigate any potential conflicts of interests, all client assets are maintained with an independent qualified custodian, as discussed earlier in this Brochure.

Notably, in most cases a client's broker-dealer also will act as the custodian of the client's assets for little or no extra cost. Clients should be aware, however, of the differences between having their assets held at a broker-dealer versus at a bank or trust company. Some of these differences include, but are not limited to, custodian costs, trading issues, security of assets, client reporting and technology.

The Registrant will only implement its investment management recommendations after the client has arranged for and furnished the Registrant with all information and authorization regarding its accounts held at a qualified custodian.

Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the qualified custodian and/or program sponsor that holds and maintains their assets. These custodial statements will reflect the account holdings, transactions for the period reported, and any additions and withdrawals from the account, including the withdrawal of the Registrant's advisory fees. IARs utilize third party software applications to produce written reports summarizing periodic account activity and performance, which they may provide to their clients from time to time. These reports will vary from custodial statements based

on accounting procedures, reporting dates, or valuation methodologies of certain securities. Clients are urged to carefully review all custodial statements, compare them to any reports and/or statements provided by the Registrant and its IARs, and notify the Registrant of any discrepancies as soon as possible, including any error they believe may have occurred in the fee calculation. Please refer to Item 12 above for additional important disclosure information relating to the Registrant's practices and relationships with custodians.

ITEM 16: INVESTMENT DISCRETION

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, the client shall be required to execute an Investment Advisory Agreement naming the Registrant as the client's attorney and agent in fact, granting the Registrant full authority to determine, without obtaining specific client consent, securities to be bought or sold, or the amount of securities to be bought or sold under Direct Asset Management Services.

Clients who engage the Registrant on a non-discretionary basis may, at any time, impose restrictions in writing on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the use of margin in the account, etc.)

ITEM 17: VOTING CLIENT SECURITIES

Registrant does not take any action or render any advice with respect to voting of proxies solicited by or with respect to the issuers of securities in which client assets are invested. In addition, Registrant does not take any action or render any advice with respect to any securities held in any accounts that are named in or subject to class action lawsuits. We do, however, forward to clients any information that we receive regarding class action legal matters involving any security held in client accounts. Clients will receive their proxies or other solicitations directly from the custodian. Clients may contact the Registrant to discuss any questions they may have regarding a particular solicitation.

ITEM 18: FINANCIAL INFORMATION

Registrant is not required to provide financial information in this Brochure because we: 1) do not take custody of client funds or securities, other than deduction of advisory fees as described in Item 15 of this Brochure; 2) are not aware of any financial commitment that is likely to impair our ability to provide the services identified in this Brochure; 3) have not been the subject of a bankruptcy proceeding; and 4) do not require the prepayment or solicit prepayment of more than \$1,200 in fees per client six (6) months in advance.

FACTS

WHAT DOES STRATEGIC WEALTH ADVISORS GROUP, LLC DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	<p>The types of personal information we collect and share depend on the product or service you have with us. This information can include:</p> <ul style="list-style-type: none"> ■ Social Security number and investment experience ■ Account balances and transaction history ■ Assets and income <p>When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.</p>
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Strategic Wealth Advisors Group, LLC chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Strategic Wealth Advisors Group, LLC share?	Can you limit this sharing?
For our everyday business purposes— such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
