## **Item 2 – Educational Background and Business Experience**

Mr. Traggis has held various operations leadership, business development, and engineering positions in both industrial manufacturing and technology development companies. Most recently, he has served as a consultant performing C-level directed projects in areas of technology transfer, contract negotiation, and mergers/acquisitions for point of care diagnostics, and high-tech manufacturing companies. Prior to that he worked as the General Manager of Precision Photonics where he led the company to an average annual growth rate of over 33% while maintaining industry-leading profitability. This ultimately led to the successful sale of the company to IDEX Corporation. He remained on at IDEX as the Chief Technology Officer of Advanced Thin Films, where he lead manufacturing site integration efforts as well as R&D and strategic planning the field of high power laser optics.

Mr. Traggis brings a strong operational component to the firm as well as an ability to strategically evaluate current and emerging technologies at both the sector and company level. He especially enjoys working with private companies, as well venture capital and private equity firms. He holds a Bachelor of Science degree in metallurgical and materials engineering from the Colorado School of Mines.
