Business Service

E*Hedge, Inc. (hereinafter "Firm" or "E*Hedge") is an internet investment advisor registered with the United States Securities and Exchange Commission (the "SEC"). E*Hedge provides investment advisory services to its Clients (hereinafter, "Client").

E*Hedge combines its online financial tools along with customized portfolio investment services, which are managed by portfolio managers who act in our clients behalf.

E*Hedge manages client accounts for an all-inclusive fee.

When creating an account application, clients can select the investment portfolio they would like to hold in their account. Through E*Hedge's interactive online platform, which is available 24/7/365, clients can actively monitor and implement changes to their account.

E*Hedge client accounts are custodied at Investment Company, Inc. and charged a wrap fee. This wrap fee includes all portfolio management costs, trading costs, custodial costs, and operational costs. There are no sales charges or commissions ever paid.

All E*Hedge client accounts are managed services in which investment portfolios are offered in pre-designated programs on an individual basis. Therefore, no portion of the annual fee is paid to outside portfolio managers. Fees are charged on the client level, meaning the totality of all accounts associated with one client is considered.

ADVISORY SERVICES

Portfolio Analysis & Risk Of Loss

E*Hedge provides portfolio managers for all of its client accounts. The E*Hedge team serves in the capacity of advisors and is not subject to the same evaluation criteria as a third-party Portfolio Manager. The E*Hedge portfolio management group is comprised of individuals with significant industry and trading experience.

E*Hedge assesses all outside portfolio managers. There are no conflicts of interest because E*Hedge ensures the portfolio managers that participate in the program share in all aspects of the client journey.

Through E*Hedges account application process, clients can select the specific portfolio manager and request reasonable restrictions be placed on their account. E*Hedge offers an interactive online platform, around the clock, where clients can change their portfolio investment preference and individual details at any time.

E*Hedge security analysis methods include: monitoring and screening all investment baskets, indices or securities in order to select the desired risk attributes. In the event correlation analysis determine (evaluating the current relationship of two securities or market segments movement in relation to each other) a high risk of loss then what fundamental analysis (evaluating securities based upon its historical and projected financial performance) determine as appropriate for a given portfolio the appropriate risk prevention actions will be taken in the interest of the client.

All investments involve risk. E*Hedge does not guarantee the results of the advice given. Significant losses can occur by investing in any security, or by following any strategy, including those implemented recommended or applied by E*Hedge.

There is the risk of missing an investment opportunity because the assets necessary to take advantage of that opportunity are held in other investments. The business of investing in securities is highly competitive and the identification of attractive investment opportunities is difficult and involves a high degree of uncertainty.

Key Man Risk The success of some strategies depends to a great extent on the specific investment skills of the portfolio manager. Performance could be adversely affected if, because of illness or other factors, their services were not available for any amount or period of time.

E*Hedge accepts voting authority for client securities.

Portfolio & Investment Strategies

E*Hedge provides a diverse and inclusive range of customized portfolios for clients. Options includes portfolio management solutions based on the clients risk profile, age, goals, account type, account size, stop-loss level, and income requirements.

Use of Leverage

Leverage may be used in investment and trading, generally through purchasing inherently leveraged instruments such as exchange-traded funds. The prices of leveraged instruments can be highly volatile, and investments in leveraged instruments may, under certain circumstances, result in losses that exceed the amounts invested.

Client Contact with Portfolio Managers

E*Hedge places no restrictions on the clients ability to interact with support representatives via E*Hedges online platform. On the E*Hedge platform, clients have the ability to submit questions through a support ticket system that may be viewable to all applicable parties.

Client Contact with Portfolio Managers

E*Hedge places no restrictions on the ability for clients in the Programs to interact with support representatives via the interactive online platform. On the E*Hedge platform, clients have the ability to submit questions through a robust support ticket system and live chat.

Account Review

E*Hedge utilizes top of the line portfolio management software solutions in addition to factoring account preferences designated by the client to monitor and manage accounts on a continual basis. Deviation from an account's determined risk profile or portfolio asset allocation parameters or removal of a specific security from the designated portfolio may trigger periodic rebalancing. In the a clients risk-loss parameters are met a clients account may be placed into custodied liquid account for portfolio replacement at the clients behest.

E*Hedge provides access to information generally provided in a report to clients through www.eHedgewealth.com. Also, E*Hedge provides a detailed monthly report and the broker provides brokerage statements on a quarterly basis as well as transaction confirmations. Clients may review and compare statements prepared by E*Hedge and broker with regard to activity, holdings and valuations.
