InvestAcure offers investment advisory services to individuals and high net worth individuals (each referred to as a “Client”) through an interactive, online investment advice platform at www.investacure.com (the “Platform”). InvestAcure is a micro-investment Platform which empowers individuals impacted by life threatening diseases to become partners in the active search for a cure by automatically rounding out their day-to-day transactions and investing the spare change into clinical stage pharmaceuticals, taking potentially life-saving drugs through FDA trials. The investment recommendations available on the Platform are investments in the publicly traded companies that is involved in research on the chosen disease, either directly through individual stocks or in business development companies (“BDCs”). The Advisor will review Phase 1 or 2 trials in order to make the determination for the investment recommendation to be available on the Platform. The Advisor will then construct the portfolio, consisting of investments in companies that are conducting research in the Client’s chosen disease field.

InvestAcure’s investment options are subject to substantial risks and must be considered speculative in nature. Clients must be willing to accept the risk of loss including the full loss of principal associated with the investment options prior to investing. Please see “Item 8.B – Risk of Loss” for the details on risks.

At no time will InvestAcure accept or maintain custody of a Client’s funds or securities, except for authorized deduction of the Advisor’s fees. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Platform agreement is non-transferable without the Client's consent.

Item 6 – Performance-Based Fees and Side-By-Side Management

InvestAcure does not charge performance-based fees for its investment advisory services. The fees charged by InvestAcure are as described in "Item 5 – Fees and Compensation" above and are not based upon the capital appreciation of the funds or securities held by any Client.

InvestAcure does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

InvestAcure offers investment advisory services to individuals and high net worth individuals. The number of each type of Client serviced by the Advisor is available on InvestAcure's Form ADV Part 1A. These numbers may change over time and are updated at least annually by the Advisor. InvestAcure generally does not impose a minimum account size for establishing a relationship.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

InvestAcure employs a research-based analysis methods in developing investment strategies for its Clients. Research and analysis from InvestAcure is derived from numerous sources, including doctors, specialists, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

As noted above, investment options are subject to certain risks and must be considered speculative in nature. Clients must be willing to accept the risk of loss including the full loss of principal associated with the investment options prior to investing.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. There is no guarantee that a Client will meet their investment goals.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance.

Each Client engagement will entail a review of the research available on investment option chosen by the Advisor. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. Following are some of the risks associated with the potential speculative components of the Advisor's strategy:

Small-, Micro- and Nano-Cap Equity Securities

While all investments involve risk, investing in stocks of small companies, such as micro and nano-cap equities, involve additional risks. Smaller companies typically have a higher risk of failure, and are not as well established as larger blue-chip companies. Some of these companies have no assets, operations or revenues. Others have products and services that are still in development or have yet to be tested in the market. Another risk that pertains to microcap stocks involves the low volume of trades. Because many microcap stocks trade in low volumes, any size of trade can have a large percentage impact on the price of the stock. Historically, smaller-company stocks have experienced a greater degree of market volatility than the overall market average.

Business Development Companies ("BDCs")

The performance of BDCs can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and may carry higher risks. Clients should only have a portion of their assets in these investments. The Client should expect to hold these investments for the long term and be prepared to lose value, include the full loss of principal. Clients will receive additional documents regarding the specific risks of these investments.

Diversification Risk

Non-diversified portfolios are an aggressive and highly volatile approach to trading and investing and should be viewed as complementary to a stable, highly predictable investment approach. Non-diversified portfolios hold fewer different stocks than a diversified portfolio and are much more likely to experience sudden dramatic price swings. In addition, the rise or drop in price of any given holding in the portfolio is likely to have a larger impact on portfolio performance, than a more broadly diversified portfolio. Investments on the Platform are not meant as a long-term income-protection or growth strategy and should only make up a portion of the Client's investable assets.

Frequent Trading

Frequent trading in securities can result in higher transaction costs in the Client's account[s]. For taxable accounts, frequent trading can also result in taxable transactions each year that would not be present in a buy-and-hold strategy. There are no guarantees that a frequent trading strategy will correctly time purchases and sales of any particular security.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving InvestAcure or any of its Supervised Persons. InvestAcure values the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider with whom you partner. Our backgrounds are on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching by our firm name or our CRD# 291114.

Item 10 – Other Financial Industry Activities and Affiliations

The sole business of InvestAcure is to provide investment advisory services to its Clients. However, the Supervised Persons of InvestAcure are involved in other business endeavors. These other business endeavors are not investment-related and do not create a conflict of interest for Clients of InvestAcure. InvestAcure does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

InvestAcure has implemented a Code of Ethics (the “Code”) that defines our fiduciary commitment to each Client. This Code applies to all persons associated with InvestAcure (our “Supervised Persons”). The Code was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. InvestAcure and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of InvestAcure’s Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code, please contact us via our website at www.investacure.com.

B. Personal Trading with Material Interest

InvestAcure allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. InvestAcure does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. InvestAcure does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

InvestAcure allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities we recommend (purchase or sell) to you presents a conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons may have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by InvestAcure by conducting a coordinated review of personal accounts and the accounts of the Clients. We have also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While InvestAcure allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will InvestAcure, or any Supervised Person of InvestAcure, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

InvestAcure does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will select the broker-dealer or custodian (herein the “Custodian”) to safeguard Client assets and authorize InvestAcure to direct trades to this Custodian as agreed in the Platform agreement. Further, InvestAcure does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where InvestAcure does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for execution and/or custodial services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost associated with using a broker not recommended by InvestAcure. InvestAcure may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and location of the Custodian’s offices.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers whereby an advisor enters into an agreement to place security trades with the broker in exchange for research and other services. **InvestAcure does not participate in soft dollar programs sponsored or offered by any broker-dealer.**

2. Brokerage Referrals - InvestAcure does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.

3. Directed Brokerage - All Clients are serviced on a “directed brokerage basis”, where InvestAcure will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective brokerage account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor’s own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client’s account[s]). InvestAcure will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker. InvestAcure will execute its transactions through an unaffiliated broker-dealer selected by the Client. In most circumstances InvestAcure will not aggregate orders in a block trade or trades. However, in limited circumstances, InvestAcure may aggregate orders in a block trade or trades when securities are purchased or sold through the same broker-dealer for multiple accounts in the same trading day.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Lawrence K. Pine, Chief Compliance Officer of InvestAcure. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client’s request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client’s financial situation, and/or large deposits or withdrawals in the Client’s account. The Client is encouraged to notify InvestAcure if changes occur in the Client’s personal financial situation that might adversely affect the Client’s investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian’s website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client’s account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 - Client Referrals and Other Compensation

A. Compensation Received by InvestAcure

Likewise, InvestAcure may receive non-compensated referrals of new Clients from various third-parties.

B. Client Referrals from Solicitors

InvestAcure does not engage paid solicitors for Client referrals.

Item 15 – Custody

InvestAcure does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fees. All Clients must place their assets with a "qualified custodian". Clients are required to engage the Custodian to retain their funds and securities and direct InvestAcure to utilize that Custodian for the Client's security transactions. Clients should review statements provided by the Custodian and compare to any reports provided by InvestAcure to ensure accuracy, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see "Item 12 - Brokerage Practices".

Item 16 – Investment Discretion

InvestAcure generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to guidelines or limitation based on the specified disease field set forth by the Client and agreed to by InvestAcure. Discretionary authority will be authorized by the Client's execution of a Platform agreement containing all applicable limitations to such authority.

Item 17 – Voting Client Securities
