MATERIAL CHANGES

On July 28, 2010, the United States Securities and Exchange Commission (“SEC”) published “Amendments to Form ADV” which amended the disclosure document provided to clients as required by SEC and state rules. This item discusses specific material changes that are made to the disclosure brochure and provide readers with a summary of such changes.

Pursuant to new rules, NTB Advisers will ensure that clients receive a summary of any material changes to this and subsequent disclosure brochures.

Clients and prospective clients can always receive the most current disclosure brochure for NTB Advisers at any time by contacting their investment adviser representative.

The last annual update of this brochure was dated September 30, 2011.

The last material change update to this brochure was November 22, 2011

There have been no material changes since that update.

ADVISORY BUSINESS

NTB HISTORY AND OWNERSHIP

Neidiger, Tucker, Bruner, Inc. was organized as a Colorado corporation on May 20, 1977. We are a full-service broker/dealer offering stocks, bonds, mutual funds, limited partnerships, annuities and insurance, and other commissioned products.

The principal owners are Anthony B. Petrelli, Regina L. Roesener, and Michael J. Morgan.

GENERAL DESCRIPTION OF ADVISORY SERVICES

We offer our investment advisory services through NTB Advisers; a division of Neidiger, Tucker, Bruner, Inc. NTB Advisers is registered as an investment adviser with the United States Securities and Exchange Commission. Registration does not imply a certain level of skill or training.

NTB Advisers provides financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and businesses. Our services are not limited to specific types of investments. We offer our services at Schwab Institutional and in a wrap-fee program at Southwest Securities, Inc. You and your adviser determine which program is the best for you. In both cases your adviser is compensated for managing the account by taking an agreed upon fee. The difference in the two is that Neidiger, Tucker, Bruner, Inc. does receive a portion of the ticket charge and the miscellaneous fee from the transactions at Southwest Securities, Inc. The management of Neidiger, Tucker, Bruner, Inc. does not recommend where a client's account is held, this is determined by the advisor and the client.

SERVICES TAILORED TO CLIENTS NEEDS

Our advisor services are tailored to each individual client. Your advisor will conduct a client profile to assess your current financial condition, evaluate your risk tolerance, establish suitable investment objectives, determine which classes of assets are most appropriate to achieve the objectives and allocate the funds into those assets. The client and advisor will decide if the services to be provided will be discretionary or non-discretionary.

CLIENT ASSETS UNDER MANAGEMENT

As of September 2012, NTB Advisers manages 159 million dollars of assets. We manage 88 million on a discretionary basis and 71 million on a non-discretionary basis.

FEES AND COMPENSATION

FEE SCHEDULE

NTB Advisers bases its fees on a percentage of the assets under management. There is not a fixed fee schedule. The fees are negotiable and may change as the value of the portfolio changes. Some clients may pay higher or lower fees than other clients depending on the size of the account, the amount of time a client has had an account with us, the total amount of business the client conducts with us and other relevant considerations.

Accounts are generally billed at the end of each quarter based on the asset value on your quarterly statement. The fee may be deducted from the account per an agreement or you may choose to pay the fee with a check. You may choose to have your account billed in advance or in arrears.

If your account is at Southwest Securities you will pay a transaction fee in addition to the quarterly fee. Your advisor does not receive any portion of the transaction fee. Neidiger, Tucker, Bruner, Inc. does receive a portion of the transaction fee.

TERMINATION OF CONTRACT

Your contract may be terminated by either you or your advisor with 30 days written notice from the terminating party to the other party. If the contract is terminated prior to the last day of the calendar quarter, then the quarterly fee will be adjusted to the actual days the account was serviced. In the event the account was prepaid, the fee will be reimbursed for the days the account was not under agreement. Upon termination, you are responsible for monitoring the securities in your account and NTB Advisers will have no further obligation.

MUTUAL FUNDS

If you are invested in shares of mutual funds, the fee you pay your advisor is in addition to the investment companies own internal management fees.

If you are invested in a no-load fund there is no additional fee or commission paid to your advisor. If your advisor has chosen for performance purposes a fund that carries a commission, the commission amount will be deducted from the quarterly fee you pay.

INVESTOR OPTIONS

You are not obligated to purchase a recommended investment from us. You always have the option to purchase it from other brokers or agents.

In general, a more actively traded account may cost less under a fee agreement and an account which is traded infrequently may cost more under a fee agreement.

PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

NTB Advisers does not charge performance based fees. Our fees are not based on a share of the capital gains or the capital appreciation of managed securities.

NTB Advisers does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the advisor to recommend an investment that may carry a higher degree of risk to the client.

TYPES OF CLIENTS

NTB Advisers provides investment advice to individuals, pension and profit sharing plans, retirement plans, trusts, estates, charitable organizations and businesses.

Client relationships vary in size and length of time with us.

NTB Advisers does not impose a minimum account size. Each account is evaluated individually.

METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

METHODS OF ANALYSIS

Once the client profile, financial condition, investment objectives and risk tolerance have been determined, NTB Advisers will utilize various methods of analysis including charting, fundamental analysis, technical analysis and cyclical analysis.

The main sources of information include financial newspapers and magazines, research materials prepared by others, annual reports, prospectuses, filings with the Securities and Exchange Commission, press releases, Morningstar, Value Line, SchwabLink and the internet.

CHARTING

Charting is a technical analysis that charts the patterns of stocks, bonds and commodities to help determine buy and sell recommendations for clients. It is a way of gathering and processing price and volume information in a security by applying mathematical equations and plotting the resulting data onto graphs in order to predict future price movements. A graphical historical record assists the analyst in spotting the effect of key events on a security's price, its

performance over a period of time and whether it is trading near its high, near its low or in between. Chartists believe that recurring patterns of trading commonly referred to as indicators, can help them forecast future price movements.

FUNDAMENTAL ANALYSIS

Fundamental analysis is a method of evaluating a company or security by attempting to measure its intrinsic value. In other words, fundamental analysts try to determine its true value by looking at all aspects of the business, including both tangible factors (e.g., machinery, buildings, land, etc.) and intangible factors (e.g., patents, trademarks, “brand” names, etc.). Fundamental analysis also involves examining related economic factors (e.g., overall economy and industry conditions, etc.), financial factors (e.g., company debt, interest rates, management salaries and bonuses, etc.), qualitative factors (e.g., management expertise, industry cycles, labor relations, etc.), and quantitative factors (e.g., debt-to-equity and price-to-equity ratios).

TECHNICAL ANALYSIS

This method of evaluating securities analyzes statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security’s intrinsic value, but instead use charts and other tools to identify patterns that can suggest future activity. Technical analysts believe that the historical performance of stocks and markets are indications of future performance.

CYCLICAL ANALYSIS

Cyclical analysis looks at recurring periods of expansion and contraction that can impact a company’s profitability and cash flow. There are a variety of cycles that can be examined and some are more commonly known than others, such as a four-year presidential cycle or annual/quarterly fiscal reporting cycles. Identifying cycles can help to anticipate tops and bottoms and also to determine trends. But sometimes cycles don’t repeat themselves, sometimes they overlap and sometimes they offset each other. Cyclical stocks tend to rise quickly when the economy turns up and fall quickly when the economy turns down (e.g., housing, automobiles, telecommunications, paper, etc.). Non-cyclical industries (e.g., food, insurance, drugs, healthcare, etc.) are not as directly impacted by economic changes.

INVESTMENT STRATEGIES

All investments carry a certain degree of risk. This risk may be mitigated by a diversified asset allocation.

When implementing investment advice to clients, our representatives employ the following investment strategies:

- Long term purchases - securities held at least one year.
- Short term purchases - securities sold within one year.
- Trading - securities sold within 30 days.
- Short sales - borrowing securities in anticipation of a price decline and returning an equal number of securities at some future time.
- Margin transactions - investor pays for part of the purchase and borrows the rest from a brokerage firm; for example investor buys \$5,000 worth of stock in a margin account by

paying for \$2,500 and borrowing \$2,500 from a brokerage firm. Clients cannot borrow stock from Advisor.

- Option writing - includes covered options, uncovered options or spreading strategies. Note: options are contracts giving the purchaser the right to buy or sell a security, such as stocks, at a fixed price within a specific period of time.

RISK OF LOSS

Investing in securities involves a risk of loss that you should be prepared to bear, including loss of your original principal. You should be aware that past performance of any security is not necessarily indicative of future results. Therefore, you should not assume that future performance of any specific investment or investment strategy will be profitable. We do not provide any representation or guarantee that your goals will be achieved.

Investing in securities involves risk of loss. Further, depending on the different types of investments, there may be varying degrees of risk:

- Interest rate risk – fluctuations in interest rates can influence investment prices. For example, if interest rates rise the yields on existing bonds can become unattractive and cause their market value to decline
- Market risk – the value of a security can be influenced by political, economic and social conditions independent of the security's underlying circumstances. This is often referred to as systemic risk.
- Inflation risk – the uncertainty over the future real value (after inflation) of your investment, and the possible erosion of purchasing power.
- Currency risk or exchange rate risk – this arises from the potential change in the exchange rate of one currency in relation to another.
- Liquidity risk – liquidity is the ability to readily convert your investment into cash.

DISCIPLINARY INFORMATION

In 2006 Neidiger, Tucker, Bruner, Inc. consented to a finding that stated that the firm's written results of its Anti-Money Laundering programs independent testing failed to indicate which internal systems were tested and whether the firm was enforcing its internal Anti-Money Laundering procedures.

OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Neidiger, Tucker, Bruner, Inc. (NTB) is a registered broker-dealer with the Securities and Exchange Commission.

Neidiger, Tucker, Bruner, Inc. also acts as an Insurance Agent for NTB and NTB Advisers.

Neither of these relationships creates a material conflict of interest with our advisory clients.

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

According to the Investment Advisors Act of 1940, an investment advisor is considered a fiduciary. As a fiduciary, it is an investment advisor's responsibility to provide fair and full disclosure of all material facts. In addition an investment advisor has a duty of utmost good faith to act solely in the best interest of each of its clients. NTB Advisers has adopted a Code of Ethics and a standard of Business Conduct. This Code of Ethics sets out ideals for ethical conduct premised on fundamental principles of openness, integrity, honesty and trust. It conveys to employees the value that NTB Advisers places on ethical conduct and challenges employees to live up, not only to the letter of the law, but also to the ideals of the organization. NTB Advisers will provide a copy of its Code of Ethics to any client or any prospective client upon request.

NTB Advisers and its employees may buy or sell securities or have an interest or position in a security for their personal account, which they also recommend to clients. NTB Advisers is and shall continue to be in compliance with the Insider Trading and Securities Fraud Enforcement Act of 1988. As these situations may represent a potential conflict of interest, it is a policy of NTB that no representative shall prefer his/her own account to that of the advisory client. NTB Advisers and its employees may buy or sell securities that are also held by our clients. Advisors may not trade their own securities ahead of a clients.

BROKERAGE PRACTICES

NTB Advisers recommends brokerage firms based on the proven integrity and financial responsibility of the firm.

We do not receive any fees or commissions form any of these arrangements.

REVIEW OF ACCOUNTS

Each Advisor monitors the asset allocation reports and performance of their own client accounts at least quarterly to determine when changes are needed. Liz Mann, Chief Compliance Officer, performs periodic reviews of client accounts. Conditions may trigger a more frequent review if there are changes in a client's situation or new financial information is received.

CLIENT REFERRALS AND OTHER COMPENSATION

NTB Advisers has been fortunate to receive many client referrals over the years from current clients, attorneys, accountants, employees, personal friends and others. We do not compensate referring parties for their referrals.

We do not receive any other compensation

CUSTODY

Custody has been defined as having access or control over client funds and/or securities, but does not include the ability to execute transactions in client accounts. All assets are held at qualified custodians.

Although we do not have custody, we have established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client's name. You will receive, at a minimum, from the custodian of your account, a quarterly statement containing information regarding your account and the value of the assets under management. You should carefully review those statements. If you have any questions about your account statements, you should contact us or your own advisor

INVESTMENT DISCRETION

NTB Advisers provides each client with a Client Account Agreement with the terms and conditions of the agreement in writing. NTB Advisers has both a Discretionary Client Account Agreement and a Non-Discretionary Account Agreement. You and your advisor will decide if the services to be provided will be discretionary or non-discretionary.

The Discretionary Client Account Agreement gives the advisor the discretionary power and authority to buy, sell or otherwise effect transactions in stocks, bonds, mutual funds and other securities on margin, or otherwise, for your account and in your name without consulting with you prior. You must provide us with written authorization to exercise this discretionary authority. If asset management services are provided on a non-discretionary basis, we will always contact you before executing any transactions in an account.

VOTING CLIENT SECURITIES

NTB Advisers does not perform proxy voting services on your behalf. You are instructed to read through the information provided with the proxy voting documents and to make a determination based on the information provided. However, your advisor may provide recommendations to you if assistance is requested. If a conflict of interest exists, this will be disclosed.

FINANCIAL INFORMATION

NTB Advisers is financially capable of meeting all contractual commitments to clients. A balance sheet is not required because we do not serve as a custodian for client funds or securities and we do not require pre-payment of fees of more than \$1,200.00 per client, six months or more in advance.
