

Alpha Capital Management Group, LLC

6465 Greenwood Plaza Blvd.

Suite 625

Centennial, CO 80111

April 1, 2020

Form ADV Part 2A Appendix 1 – Wrap Fee Program Brochure

This brochure provides information about the qualifications and business practices of Alpha Capital Management Group, LLC (“Alpha Capital”) If you have any questions about the contents of this brochure, please contact us at (303) 900-1940. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Alpha Capital Management Group, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Alpha Capital Management Group, LLC is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for Alpha Capital Management Group, LLC is 283624.

ITEM 2 – Material Changes

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

There following are material changes since our last filing dated February 3, 2020:

- The CCO has been named Ian Campbell as of April 1, 2020.

If you would like another copy of this Brochure, please download it from the SEC Website as indicated above or you may contact our Chief Compliance Officer, Ian Campbell at (303) 900-1940.

We encourage you to read this document in its entirety.

ITEM 4 – Services, Fees & Compensation

We offer a wrap fee program as described in this Wrap Fee Program Brochure. A wrap fee program is generally considered any arrangement under which clients receive investment advisory services and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. All of our investment management clients will be offered the wrap fee program structure that includes, as a single fee, the securities transaction costs for trading in Client accounts along with the investment advisory fees earned by our firm. While traditional Wrap Fee Programs are often rigid, pre-packaged investment programs, our firm customizes its investment strategies individually for its Clients. Prior to receiving services through the Program, clients are required to enter into a written agreement with our firm setting forth the relevant terms and conditions of the investment advisory relationship (the “Agreement”).

Our Wrap Advisory Services

We offer discretionary investment management and investment supervisory services for a fee based on a percentage of your assets under management or on a dollar flat fee. These services include investment analysis, allocation of investments, quarterly portfolio statements, financial commentaries, wealth planning services and ongoing monitoring of client portfolios. We primarily allocate client assets among various mutual funds, exchange-traded funds (“ETFs”), and individual debt (bonds) and equity securities in accordance with their stated investment objectives.

We will work with you to obtain necessary information regarding your financial condition, investment objectives, liquidity requirements, risk tolerance, time horizons, and any restrictions on investing. This information enables us to determine the portfolio best suited for your investment objective and needs.

In performing our services, we shall not be required to verify any information received from you or from other professionals. If you request, we may recommend and/or engage the services of other professionals for implementation purposes. You have the right to decide whether or not to engage the services of any such recommended professional.

Once we have determined the types of investments to be included in your portfolio and allocated them, we will provide ongoing portfolio review and management services. This approach requires us to review your portfolio at least quarterly.

We will rebalance the portfolio, as we deem appropriate, to meet your financial objectives. We trade these portfolios and rebalance them on a discretionary basis based on our market views and on your objectives, using our investment process. We tailor our advisory services to meet the needs of our clients and seek to ensure that your portfolio is managed in a manner consistent with those needs and objectives.

In all cases, you have a direct and beneficial interest in your securities, rather than an undivided interest in a pool of securities. We do have limited authority to direct the Custodian to deduct

our investment advisory fees from your accounts, but only with the appropriate authorization from you.

Where appropriate, we may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage us to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans).

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that may adversely affect an account's performance. This could result in capital losses in your account.

Relative Cost of the Program

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. By participating in a wrap fee program, you may end up paying more or less than you would through a non-wrap fee program where a lower advisory fee is charged, but trade execution costs are passed directly through to you by the executing broker.

Our firm offers two pricing options for our Wrap Fee Program – transaction based (based on each trade or transaction with the Custodian) or asset based (based on a percentage of assets and billed no more than 0.08% annually). Each option is discussed with the client when recommending the Custodian for the portfolio. We do not charge our clients higher advisory fees based on their trading activity or option they select, but you should be aware that we may have an incentive to limit our trading activities in your account(s) because we incur the fees for executed trades when the transaction based option is selected. In order to mitigate this conflict of interest, we will fulfill our fiduciary duty by always acting in the client's best interest.

Alpha Capital charges a fee as compensation for providing Investment Management services on your account. These services include advisory and consulting services, trade entry, investment supervision, and other account-maintenance activities. Our custodian may charge transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details. This fee structure is the same for the Alpha Intelligent Portfolios.

The fees for portfolio management are based on an annual percentage of assets under management or a flat quarterly fee. The advisory fees are applied to the account asset value on a pro-rata basis and billed either on a three-month billing cycle in advance or a calendar quarter in arrears, as indicated in your Investment Management Agreement. The initial fee will be based upon the date the account is accepted for management by execution of the advisory agreement by Alpha Capital or when the assets are transferred through the last day of the current calendar quarter or the three-month billing period. Thereafter, the fee will be based on the market value of each previous quarter's last business day or the last day of the three-month billing period. Fees are assessed on all assets under management, including securities, cash and money market

balances. There may be a possibility for price or account value discrepancies due to quarter-end transactions in an account. Dividends or trade date settlements may occur and our third party billing software may report a slight difference in account valuation at quarter end compared to what is reported on your Statement from the Custodian. Our firm has the ability to produce billing summaries, which can be provided upon request.

Our maximum investment advisory fees is 1.50%. Our annual fixed fees range from \$2,000 to \$100,000 depending on the level of engagement. The specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. Additional deposits and withdrawals will be added or subtracted from portfolio assets, as the case may be, which may lead to an adjustment of the account fee. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family related accounts are charged a reduced fee for our services.

At our discretion, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We may do this, for example, where we also service accounts on behalf of your minor children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could potentially cause your account(s) to be assessed a lower advisory fee based on the asset levels available in our fee schedule

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified custodian agrees to deliver an account statement at least quarterly directly to you indicating all the amounts deducted from the account including our advisory fees. See Item 15 for details. At our discretion, you may pay the advisory fees by check or credit card. You are encouraged to review your account statements for accuracy.

Either Alpha Capital or the client may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the calendar quarter or three-month billing period in which the cancellation notice was given. Depending on your billing arrangement and what is agreed to in the Agreement, any unearned advisory fee will be refunded to you and any earned advisory fee will be billed to the client up to the date of termination. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets.

In no case are our fees based on, or related to, the performance of your funds or investments.

Alpha Capital is the sponsor and portfolio manager of this Wrap Fee Program. Alpha Capital receives investment advisory fees paid by our clients for investment advisory services covered under this Wrap Fee Program.

Other Types of Fees & Expenses

You may pay custodial fees, charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses), mark-ups and mark-downs, wire transfer fees, fees for trades executed away from custodian, and taxes on brokerage accounts and securities transactions. These fees are not included within the wrap-fee you are charged by our firm. Neither our Firm nor its supervised persons accept compensation for the sale of securities. Further, our firm does not share in any of these additional fees and expenses outlined above.

ITEM 5 – Account Requirements & Types of Clients

We provide investment advice to individuals, high-net-worth individuals, families, small businesses, institutions, pensions, charitable trusts and estates. Our minimum initial account value is \$250,000; however, we may accept accounts for less than the minimum.

ITEM 6 – Portfolio Manager Selection & Evaluation

Portfolio Manager Selection

Alpha Capital serves as the sponsor and portfolio manager for our Wrap Fee Program.

Related Persons

Our firm's investment adviser representatives serve as the portfolio manager for the services under this Wrap Fee Program. We only manage this wrap fee program and we do not act as portfolio manager for any third-party wrap fee programs.

Supervised Persons

Our investment adviser representatives serve as the portfolio manager for the Wrap Fee Program described in this Wrap Fee Program Brochure. Please refer to the Items 4 and 8 of the Part 2A Disclosure Brochure for details on the services provided by our Firm. For information related to the background of our supervised persons, please see Items 9 and 11 of the Part 2A Disclosure Brochure.

Advisory Business

See Item 4 of this Wrap Fee Brochure for information about our wrap fee advisory program. We offer individualized investment advice to clients utilizing our Wrap Portfolio Management service.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

Participation in Wrap Fee Programs

We offer wrap fee accounts to our clients, which are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

Performance-Based Fees & Side-By-Side Management

We do not charge performance fees to our clients.

Methods of Analysis, Investment Strategies & Risk of Loss

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. We do this by analyzing the various securities, investment strategies, and third party management firms. The goal is to identify a client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We utilize both fundamental and technical analysis. We gather our information from a broad array of financial resources including financial newspapers, magazines, research prepared by others, corporate rating services, company press releases, annual reports, prospectuses and filings with the Securities and Exchange Commission.

We determine how to allocate assets among the various asset classes based on the investment strategy chosen, prevailing economic conditions and our determination of where we are in the economic cycle. Potential risks and opportunities are weighed to determine to what degree the portfolio should be invested.

From time-to-time, market conditions may cause your account to vary from the established allocation. To remain consistent with the asset allocation guidelines established, your account is monitored on an ongoing basis and rebalanced to the original allocation, or if deemed beneficial, to a new allocation based on the then prevailing economic conditions and within the guidelines of the chosen investment strategy.

In addition to the rebalancing, overall market conditions and microeconomic factors that affect specific holdings in your account may trigger changes in allocation. Your account may also receive informal reviews more frequently.

Alternative investments are thought of as investments other than stocks and bonds. The alternative investment strategies we offer tend to move independently of stock and bond markets. The main goal of alternatives is to provide access to other return sources, with the potential benefits of reducing the risk of an investor's portfolio, improving returns, or both.

Our Firm may recommend alternative investments such as public non-traded real estate programs, public non-traded business development companies, and private real estate programs which have their own management fees and operating expenses. Therefore, these investments subject clients to Alpha's direct management fee and the indirect fees of the investment.

Prior to making recommendations, we determine your financial status, needs, time horizon, investment objectives, risk tolerance, and tax status. From this, we create an investor profile and general asset allocation target. While we believe asset allocation is a key factor affecting long-term rate of return, we also believe fundamental research and securities selection are vital. To that end, we select from a narrow, refined list of institutional fund managers known for excellence in their respective disciplines. We focus primarily on the people, processes, research, consistency, and culture rather than simply recent “high performance” or “track record”.

As much as reasonably possible, we strive to:

- Diversify strategically with non-correlating assets.
- Balance between growth and value styles.
- Diversify globally.
- Rebalance as markets change.
- Manage for tax efficient returns wherever possible or as your goals and objectives dictate.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, Alpha Capital is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines.

Investors should be aware that accounts are subject to the following risks:

- * **Market Risk** — Even a long-term investment approach cannot guarantee a profit. Economic, political and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- * **Foreign Securities and Currency Risk** — Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- * **Capitalization Risk** — Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.

* Interest Rate Risk — In a rising rate environment, the value of fixed-income securities generally declines and the value of equity securities may be adversely affected.

* Credit Risk — Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.

* Securities Lending Risk — Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

* Derivative Risk — Derivatives are securities, such as futures contracts, whose value is derived from that of other securities or indices. Derivatives can be used for hedging (attempting to reduce risk by offsetting one investment position with another) or non-hedging purposes. Hedging with derivatives may increase expenses, and there is no guarantee that a hedging strategy will achieve the desired results.

* Exchange-Traded Funds — ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

* Performance of Underlying Managers — We select the mutual funds and ETFs in the asset allocation models. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

* Alternative Investments - Investments classified as "alternative investments" may include a broad range of underlying assets including, but not limited to, hedge funds, private equity, venture capital, and registered, publicly traded securities. Alternative investments are speculative, not suitable for all clients and intended for only experienced and sophisticated investors who are willing to bear the high risk of the investment, which can include: loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative investment practices; lack of liquidity in that there may be no secondary market for the fund and none expected to develop; volatility of returns; potential for restrictions on transferring interest in the fund; potential lack of diversification and resulting higher risk due to concentration of trading authority with a single advisor; absence of information regarding valuations and pricing; potential for delays in tax reporting; less regulation and typically higher fees than other investment options such as mutual funds. The SEC requires investors be accredited to invest in these more speculative alternative investments. Investing in a fund that concentrates its investments in a few holdings may involve heightened risk and result in greater price volatility.

* Liquidity Risk - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.

* Cybersecurity Risk - In addition to the Material Risks listed above, investing involves various operational and “cybersecurity” risks. These risks include both intentional and unintentional events at our Firm or one of its third-party counterparties or service providers, that may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm’s ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients’ information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including that certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.

Voting Client Securities

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not take action with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies.

Class Action Suits - A class action is a procedural device used in litigation to determine the rights of and remedies, if any, for large numbers of people whose cases involve common questions of law and/or fact. Class action suits frequently arise against companies that publicly issue securities, including securities recommended by investment advisors to clients. With respect to class action suits and claims, you (or your agent) will have the responsibility for class actions or bankruptcies, involving securities purchased for or held in your account. We do not provide such services and are not obligated to forward copies of class action notices we may receive to you or your agents.

ITEM 7 – Client Information Provided to Portfolio Manager(s)

Our firm is required to describe the type and frequency of the information it communicates to external managers that may be involved in managing its Clients' investment portfolios. Alpha Capital serves as the sole portfolio manager under this Wrap Fee Program and, as such, we have no information to disclose regarding this Item.

ITEM 8 – Client Contact with Portfolio Manager(s)

Our firm does not place restrictions on the client’s ability to contact and consult their financial advisor. As the portfolio manager, clients are free to contact us at any time.

ITEM 9 – Additional Information

All the information disclosed in Item 9 is for Wrap Fee Clients.

Disciplinary Information

Our Firm does not have any legal disciplinary events, criminal or civil actions, material to a client's decision to choose to engage advisory services from our Firm.

Financial Industry Activities & Affiliations

Insurance

Alpha Capital Insurance Group, LLC, an affiliated and separate entity, is a licensed insurance agency with the State of Colorado and licensed in various other states. Investment Adviser Representatives ("IAR") of Alpha Capital may act as agents of Alpha Capital Insurance Group appointed with various life, disability or other insurance companies, receive commissions, trails, or other compensation from the respective product sponsors and/or as a result of effecting insurance transactions for clients. However, clients should note that they are under no obligation to purchase any insurance products through Alpha Capital Insurance Group or Alpha Capital's IAR.

Alpha Capital Family Office

Alpha Capital Family Office is separate entity and commonly owned by Alpha Capital's indirect owners Douglas Campbell and Christopher Baxter. This name is also used for marketing purposes for our wealth planning services described above in Item 4. It should be noted that all advisory services are conducted and supervised under our registered entity, Alpha Capital Management, LLC.

Other Entities Under Common Ownership

Alpha Capital Private Investments, LLC and Alpha Capital Wealth Planning are separate but affiliated entities by common ownership with Alpha Capital Management Group. Alpha Capital Private Investments, LLC is managed by Douglas Campbell and Alpha Capital Wealth Planning is managed by Douglas Campbell and Christopher Baxter. These are currently dormant entities and once activities commence under these entities, the ADV will be updated to reflect the appropriate disclosure requirements.

Our firm does not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

Clients should be aware that the ability to receive additional compensation by our Firm and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. Our Firm endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment advisor; we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;

- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives, and risk tolerance;
- the Firm conducts regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Brokerage Practices

We generally recommend that clients utilize the custody, brokerage and clearing services of Fidelity Institutional Wealth Services ("Fidelity"), Charles Schwab & Co., Inc. Advisor Services ("Schwab"), LPL Financial ("LPL") (the "Custodians") for investment management accounts. Our Custodians are independent and unaffiliated FINRA-registered broker-dealers. We may recommend that you establish accounts with these custodians to maintain custody of your assets and to effect trades for your accounts. Some of the products, services and other benefits provided by our custodians benefit us and may not benefit you or your account. Our recommendation/requirement that you place assets with one of these custodians may be based in part on benefits they provide us, and not solely on the nature, cost or quality of custody and execution services provided by the custodian.

We are independently owned and operated and not affiliated with these custodians. They provide us with access to their institutional trading and custody services. These services include brokerage, custody, research and access to mutual funds and other investments that are otherwise generally available only to institutional investors.

In the event you request us to recommend a broker/dealer custodian for execution and/or custodial services, we generally recommend your account to be maintained at one of these custodians. We may recommend that you establish accounts with the custodians to maintain custody of your assets and to effect trades for your accounts. You have the right to not act upon any recommendations, and if you elect to act upon any recommendations, you have the right to not place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

We place trades for your account subject to our duty to seek best execution and other fiduciary duties. You may be able to obtain lower commissions and fees from other brokers and the value

of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions. The custodian's execution quality may be different than other broker-dealers.

For our client accounts maintained in custody with a custodian, the custodian generally does not charge separately for custody but are compensated by account holders through 12b-1 fees and ticket charges.

The custodian we utilize makes available to us other products and services that benefit us but may not benefit your accounts in every case. Some of these other products and services assist us in managing and administering your accounts. These include software and technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our fees from your account, and assist with back-office functions, recordkeeping and reporting.

Many of these services generally may be used to service all or a substantial number of our accounts. The custodians also make available to us other services intended to help us manage and further develop its business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, the custodians may make available, arrange and/or pay for these services rendered to us by third parties. The custodians may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to us.

We also receive certain additional economic benefits from the Custodian that may or may not be offered to any other independent investment Advisors participating in the program. Specifically, these services include Orion Advisor Services.

While as a fiduciary, we endeavor to act in your best interest, our recommendation that you maintain your assets in accounts at our recommended custodians may be based in part on the benefit to us or the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a conflict of interest. IARs endeavor at all times to put the interest of our clients first as a part of their fiduciary duty.

We will aggregate (combine) trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

We will not aggregate transactions unless it believes that aggregation is consistent with its duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our investment advisory agreement with you for which trades are being aggregated.

No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction;

- If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, it will be allocated pro-rata based on the allocation statement;
- Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
- We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
- Individual advice and treatment will be accorded to each advisory client.

As a matter of policy and practice, we do not utilize research, research-related products and other services obtained from broker-dealers, or third parties, on a soft dollar commission basis other than what is described above.

Additionally, we have outsourced our back-office tasks to Orion Advisors. These include tasks of daily database reconciliation, generation and delivery of client statements, and advisory fee filling. Orion's system will provide us with customized reporting, GIPS-compliant composites, trade upload creation and pending trade follow-up for us to provide maintenance activities for your account.

Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to:

- protect our clients,
- detect and deter misconduct,
- educate personnel regarding the firm's expectations and laws governing their conduct,
- remind personnel that they are in a position of trust and must act with complete propriety at all times,
- protect the reputation of our Firm,
- guard against violation of the securities laws,
- establish procedures for personnel to follow so that we may determine whether their personnel are complying with the firm's ethical principles.

Our Firm and persons associated with us are allowed to invest, buy or sell securities, for their own accounts or to have a material financial interest in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as transactions made in your account. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest. Trades for supervised persons are traded alongside client accounts and receive the same pricing as clients if traded on the same day.

Neither our Firm nor its related persons recommend to clients, or buys or sells for client accounts, securities in which we have a material financial interest.

We have established the following restrictions in order to ensure our firm's fiduciary responsibilities:

1. A director, officer or employee of Alpha Capital shall not buy or sell any securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment unless the information is also available to the investing public on reasonable inquiry. No supervised employee of Alpha Capital shall prefer his or her own interest to that of the advisory client.
2. We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of Alpha Capital.
3. We emphasize the unrestricted right of the client to decline to implement any advice rendered, except in situations where we are granted discretionary authority of the client's account.
4. We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
5. Any supervised employee not in observance of the above may be subject to termination.

You may request a complete copy of our Code of Ethics by contacting us at the telephone number on the cover page of this Part 2; Attn: Chief Compliance Officer.

Review of Accounts

Our Investment Advisor Representatives will monitor client accounts on at least a monthly basis and perform reviews with each client annually or as often as is agreed upon by the client and Advisor. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. Clients may request a review at any time.

Statements and Reports

The custodian for the individual client's account will provide clients with an account statement at least monthly. At scheduled reviews or upon request, clients receive an Alpha Capital -prepared

written report detailing their current positions, asset allocation, and year-to-date performance. You are urged to compare the reports and invoices provided by our firm against the account statements you receive directly from your account custodian.

Client Referrals & Other Compensation

As referenced in Item 12 above, we may receive an indirect economic benefit from LPL. Alpha Capital, without cost (and/or at a discount), may receive support services and/or products from LPL or our other another recommended Custodians.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing-expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

We do not receive any compensation for client referrals.

Soft Dollars

Our firm does not accept any direct soft dollars.

Note that our recommended Custodian provides our firm and our clients with access to its institutional brokerage, trading, custody, reporting, and related services, many of which are not typically available to the Custodian's retail customers. Our recommended Custodians also make available various support services. Some of those services help us manage or administer our clients' accounts; others help us manage and grow our business. The Custodian's support services generally are available on an unsolicited basis (we do not have to request them) and at no charge to us. These are considered soft dollar benefits because there is an incentive to do business with our recommended Custodians. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies in this regard to mitigate any conflicts of interest.

Directed Brokerage

Neither we nor any of our firm's related persons have discretionary authority in making the determination of the brokers with whom orders for the purchase or sale of securities are placed for execution, and the commission rates at which such securities transactions are effected. We generally recommend that clients utilize the custody, brokerage and clearing services of our recommended Custodians for investment management accounts. Each client will be required to establish their account(s) with this custodian, if not already established. Please note that not all advisers have this requirement.

Financial Information

We are not required to provide financial information in this Brochure because:

- We do not receive more than \$1200 in fees and six or more months in advance.
- We do not take custody of client funds or securities, except for our authorization to directly deduct fees as disclosed in item 4.
- We do not have a financial condition or commitment that impairs our ability to meet contractual and fiduciary obligations to clients. We have never been the subject of a bankruptcy proceeding.
