CONVERSATION STARTERS AND QUESTIONS YOU SHOULD ASK US:

What investment services and advice can you provide me?

Given my financial situation, should I choose an investment advisory service over a brokerage service? Why or why not? How will you choose the investments that you recommend to me?

What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

Item 3 - Fees, Costs, Conflicts of Interest, and Standards of Client Care

Our fees are assessed quarterly as a percentage of the value of the assets in your accounts.

There are other fees and costs related to investing that may be charged by your custodian. The most common fees and costs are transaction costs and internal management fees imposed by a mutual fund

company or separate independent sub-advisor.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For more detailed information about our fees and costs please review [Item 5](#) our [Form ADV Part 2A](#) and Item 5E of Form ADV Part 1 available at adviserinfo.sec.gov

We are held to a fiduciary standard that covers our entire investment advisory relationship with you. When we act as your investment advisor, we have to act in your best interest and not put our interests ahead of yours. We must eliminate conflicts or tell you about them in a way you can understand so that you can decide whether or not to agree to them. The way we make money creates some conflicts with your interests. For example, the more money you have invested with us the more fees we will earn. You should understand this and ask us about these conflicts because they can affect the investment advice that we provide you.

CONVERSATION STARTERS AND QUESTIONS YOU SHOULD ASK US:

Help me understand how fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs and how much will be invested for me?

What are your legal obligations to me when acting as my investment advisor?

***How else does your firm make money and what conflicts of interest do you have?
How might your conflicts of interest affect me and how will you address them?***

How do your financial professionals make money?
