Since the filing of our annual updating amendment dated March 25, 2020, we have made the following material changes to our Firm Brochure:

- As a fiduciary, our firm is committed to making full and fair disclosure of all material facts relating to the advisory relationship. Therefore, on April 23, 2020, the firm received a Paycheck Protection Program ("PPP") loan in the amount of \$86,700 through the U.S. Small Business Administration, which was part of the economic relief provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The firm used the PPP funds to continue payroll for the firm's employees, including employees primarily responsible for performing advisory functions, and make other permissible payments. The loan provided economic support to the firm during uncertain times. However, the firm continues to remain capable of meeting contractual commitments to its clients.

When providing such services Las Olas Capital Advisors typically analyzes client current situation, goals, and objectives in order to render and provide targeted advisory support services tailored towards the clients overall investment or opportunity objective. These services are available on a stand-alone, case-by-case basis as well as part of a comprehensive wealth management engagement.

Proprietary Private Fund Offerings

Las Olas Capital Advisors provides specialized discretionary advisory services to private pooled investment vehicles herein referred to as ("the Funds" or if individually, "the Fund"). Investments in the Funds are not registered under the Securities Act of 1933, as amended, and are only offered after delivery and perusal of a private placement memorandum and execution of the subscription agreement and other offering documents. Investments in the Funds are offered only to accredited investors within the meaning of SEC Rule 501 of Regulation D of the Securities Act of 1933. Investments in the Funds are offered by private offering memorandum and subscription agreement which provides investors with full disclosure regarding the objectives of the Funds, the risks involved with the offering and the minimum initial capital contribution required.

Generally, Las Olas Capital Advisors LLC serves as the Manager to the Funds and receives a management fee on invested capital. In the role of Manager, Las Olas Capital Advisors LLC is responsible for all of the investment and operational decisions and duties regarding the Funds. Different strategies may be carried out for each Fund and therefore, there should be no expectation that the performance of any individual Fund would or should be similar to that of any other Fund. You should refer to the subscription agreement and other offering documents for a complete description of the fees, investment objectives, risks, and other relevant information associated with investing in the Funds. The Funds undergo an independent audit annually by a Public Company Accounting Oversight Board ("PCAOB") registered firm.

Investment Banking Advice

Las Olas Capital Advisors provides advice in connection with the transfer of ownership and control of privately-held company through the purchase, sale, exchange, issuance, repurchase or redemption of, or a business combination involving, securities or assets of the company, to a buyer that will actively operate the company or the business conducted with the assets of the company. Such activities will be conducted in line with the conditions outlined in the Non-Action Letter issued by the Division of Trading and Markets of the Securities and Exchange Commission issued on February 4, 2014 that provides M&A brokers relief from broker-dealer registration requirement.

Sponsor and Manager of Wrap Program

Las Olas Capital Advisors is a portfolio manager and a sponsor of a Wrap Fee Portfolio Management Program, which is a type of portfolio management program where clients pay a single fee that includes management fees and certain other brokerage costs. The overall cost you will incur if you participate in our Wrap Fee Program may be higher or lower than you might incur by separately purchasing the types of securities available in the program. Las Olas Capital Advisors offers investment management services exclusively through our Las Olas Capital Advisors Wrap Program (the "Wrap Program").

The Adviser sponsors and administers its Wrap Program through Schwab Advisor Services ("Schwab"), a securities broker-dealer and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. To compare the cost of the wrap fee program with non-wrap fee portfolio management services, you should consider the frequency of trading activity associated with our investment strategies and the brokerage commissions charged by or other broker-

dealers, and the advisory fees charged by investment advisers. Additional information about the Wrap Program is available in Las Olas Capital Advisors' Wrap Brochure, which appears as Part 2A Appendix 1 of the Adviser's Form ADV.

Assets Under Management

As of December 31, 2019, Las Olas Capital Advisors maintained approximately \$188,263,108 in assets under management on a discretionary basis and \$1,854,914 in assets under management on a non-discretionary basis.

Item 5 Fees and Compensation

Non-Transactional Advice and Consulting

Non-Transactional Advice and Consulting fees are negotiable but generally ranges between 1% and 7% of the value of transaction evaluated and are billed in arrears. The fee amount will be based on services rendered from time to time as provided in a written invoice, which will depend on the nature and complexity of each client's circumstances. Las Olas Capital Advisors will quote the client a lump sum fee that is based on the estimate of time to complete the project. Non-Transaction Advice billing periods may be monthly, quarterly or annually. The percentage, frequency and structure of the fee to be assessed and/or charged for these services is stipulated in the advisory or consulting agreement executed with each client.

Proprietary Private Fund Offerings

Generally, Las Olas Capital Advisors charges a management fee of between 0% and 7% of the capital committed to the Funds. The management fee is payable one time at inception and is deducted from each Funds account. Las Olas Capital Advisors fees are more fully detailed in each Fund's subscription agreement. The management fee will be applied toward covering anticipated expenses relating to the organization, syndication, formation, operations, administration, audit, management, and liquidation of the Portfolio Company.

Other Expenses: Include, but are not limited to, legal, accounting, tax, bank, custodial, insurance, consulting and professional service fees and expenses. These additional expense, if applicable, will be detailed (including the responsible party) in the Fund's subscription agreements and/or other offering documents. You should refer to the subscription agreement and other offering documents of the Funds for a complete description of the fees, investment objectives, risks, and other relevant information associated with investing in the Funds.

Dispositions will be made in accordance to the terms of the operating agreement and frequency is dependent on several factors. However, the Fund's subscription agreement or offering documents will indicate the nature and frequency of fees, expenses and other material disclosures and conflicts related to each Fund.

Investment Banking Advice

The fee schedule for investment banking advice offered by Las Olas Advisors is outlined below:

Type of Fees	Fees
Engagement Fee	\$75,000
Monthly Retainer Fee	\$50,000

Fees for investment banking advice services are negotiated at Las Olas Advisors' discretion depending on the complexity and scope of each engagement. Fees will be invoiced as outlined in each engagement. Fees are due upon receipt of the invoice.

Fee Discretion

Las Olas Capital Advisors may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with Las Olas Capital Partners, LLC, an affiliated securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. In their capacity as registered representatives, these persons receive compensation in connection with the purchase and sale of securities or other investment products, including asset-based sales charges, service fees or 12b-1 fees, for the sale or holding, of mutual funds. Compensation earned by these persons in their capacities as registered representatives is separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice to advisory clients on behalf of our firm who are registered representatives have an incentive to recommend investment products based on the compensation received rather than solely based on your needs. Persons providing investment advice to advisory clients on behalf of our firm can select or recommend, and in many instances will select or recommend, mutual fund investments in share classes that pay 12b-1 fees when clients are eligible to purchase share classes of the same funds that do not pay such fees and are less expensive. This presents a conflict of interest. You are under no obligation, contractually or otherwise, to purchase securities products through any person affiliated with our firm who receives compensation described above.

Item 6 Performance-Based Fees and Side-by-Side Management

Las Olas Capital Advisors does not provide any services for a performance-based fee or participate in side-by-side management. Performance-based fees are fees that are based on a share of a capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees.

Item 7 Types of Clients

Las Olas Capital Advisors offers services to individuals, including high net worth individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, business entities and pooled investment vehicles.

There may be certain investment minimums to participate in the Funds. Please refer to the subscription agreement and other offering documents for a complete description of the fees, investment objectives, risks, and other relevant information associated with investing in the Funds.

Las Olas Capital Advisors generally imposes a minimum portfolio value of \$1,000,000 for investment management relationships. Please refer to Las Olas Capital Advisor's Wrap Brochure, which appears as Part 2A Appendix 1 of the Adviser's Form ADV, for additional information on minimum portfolio values, minimum fees and the ability of Las Olas Capital Advisors to waive stated minimums.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Las Olas Capital Advisors primary uses fundamental analysis for evaluating investment banking opportunities, and can also be used in evaluating certain non-transnational advice and consulting requests, depending on the type of engagement. Fundamental analysis involves an evaluation of the fundamental financial condition and competitive position of a particular fund or issuer. For Las Olas Capital Advisors, this process typically involves an analysis of an issuer's management team, investment strategies, style drift, past performance, reputation and financial strength in relation to the asset class concentrations and risk exposures of the Adviser's model asset allocations. A substantial risk in relying upon fundamental analysis is that while the overall health and position of a company may be good, evolving market conditions may negatively impact the security.

Las Olas Capital will use various methods of analysis for non-transactional advice and consulting depending type of engagement.

Securities-Backed Lines of Credit ("SBLOCs") - A SBLOC is a loan that allows investors to borrow money using securities held in their investment accounts as collateral. An SBLOC requires investors to make monthly interest-only payments, and the loan remains outstanding until it is repaid.

Risk: If the value of the securities declines to an amount where it is no longer sufficient to support the line of credit, investors will receive a "maintenance call", a notification that the investor must post additional collateral or repay the loan within a specified period (typically two or three days). If the investor is unable to add additional collateral to the account or repay the loan with readily available cash, the firm can liquidate the securities satisfy the maintenance call, which may have potential unintended tax consequences and could have a significant impact on an investors long-term investment goals.

Margin Transactions or Margin Loans - a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan. A margin loan can be established on more than one account with the same ownership while maintaining a single margin relationship for regulatory purposes.

Risk: If the value of the shares drops sufficiently, the investor will be required to either deposit more cash into the account or sell a portion of the stock in order to maintain the margin requirements of the account. This is known as a "margin call." An investor's overall risk includes the amount of money invested plus the amount that was loaned to them.

Other Risk Considerations

When evaluating risk, financial loss may be viewed differently by each client and may depend on many different risks, each of which may affect the probability and magnitude of any potential losses. The following risks may not be all-inclusive, but should be considered carefully by a prospective client before retaining our services.

Liquidity Risk

The risk of being unable to sell your investment at a fair price at a given time due to high volatility or lack of active liquid markets. You may receive a lower price or it may not be possible to sell the investment at all.

Credit Risk

Credit risk typically applies to debt investments such as corporate, municipal, and sovereign fixed income or bonds. A bond issuing entity can experience a credit event that could impair or erase the value of an issuer's securities held by a client.

Inflation and Interest Rate Risk

Security prices and portfolio returns will likely vary in response to changes in inflation and interest rates. Inflation causes the value of future dollars to be worth less and may reduce the purchasing power of a client's future interest payments and principal. Inflation also generally leads to higher interest rates which may cause the value of many types of fixed income investments to decline.

Horizon and Longevity Risk

The risk that your investment horizon is shortened because of an unforeseen event, for example, the loss of your job. This may force you to sell investments that you were expecting to hold for the long term. If you must sell at a time that the markets are down, you may lose money. Longevity Risk is the risk of outliving your savings. This risk is particularly relevant for people who are retired, or are nearing retirement.

Use of Private Investment Vehicles

Las Olas Capital Advisors recommends that certain clients invest in privately placed collective investment vehicles (e.g., alternative investments such as hedge funds, private equity & debt funds, venture capital, etc.). The managers of these vehicles have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. Hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, because the vehicles are not registered as investment companies, there is an absence of regulation. There are numerous other risks in investing in these securities. Investments in private investment vehicles lack of liquidity as they are not listed on an exchange, traded in the secondary market and are generally not transferable.

Clients should consult each fund's private placement memorandum and/or other documents explaining such risks prior to investing.

- Governance and standard of care can favor the sponsor: Most listed companies must have a majority of independent directors on their boards, but the general partner ("GP") of a Private Investment is only required to have independent directors on its audit committee. Also, Private Investments can opt for a lower standard of care (or duties owed by the GP's directors to the owners/investors) than the more stringent fiduciary standard generally owed to shareholders of corporations under state law. Lack of independence and lower standards of care are factors

that could influence the decisions made by the GP's directors, possibly to the detriment of the limited partners of the Private Investment.

- Conflicts of Interest: The sponsor's relationship with the Private Investment and with the GP creates inherent conflicts of interest. These conflicts arise most frequently in transactions between the sponsor and the Private Investment, such as when the sponsor wants to sell assets to the Private Investment or if the sponsor decides to merge the Private Investment into the GP. If the GP opts for the lower standard of care discussed above, it may consider its own interests ahead of the interests of the Private Investment and its limited partners and resolve conflicts in a manner favorable to itself.
- Industry risk and concentrated exposure: As most Private Investments are focused on a single industry or industry segment, investors have concentrated exposure to the volatility of that industry or segment. Changes in the price of commodities in that industry could impact the returns or amount of income that a Private Investment may generate or the ability of the Private Investment to maintain or expand its portfolio.
- Market illiquidity: The Private Investment marketplace remains small and requires capital to be locked up for extended periods of time compared to other asset classes. Prospective investors should pay particular attention to the risks and is suitable only for the most sophisticated investors, requires the financial ability and willingness to accept the high risks and lack of liquidity inherent in a private investment. No assurances can be given that the fund's investment objectives will be achieved or that investors will receive a return of their capital.

Item 9 Disciplinary Information

Las Olas Capital Advisors is required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management. While Las Olas Capital Advisors has not specifically been subject of any legal or disciplinary events, certain personnel of the firm's senior management was subject to customer disputes that have settled or that remain outstanding in the last 10 years. The referral arrangement we have with our affiliate presents a conflict of interest because we may have a financial incentive to recommend LOCP's services. You are under no obligation to use our affiliates' services and may obtain comparable services and/or lower fees through other firms.

Refer to the *Fees and Compensation* section above for additional disclosures on this topic.

Ownership - Conflict of Interest

The owners of Las Olas Capital Advisors maintain ownership interest in certain companies included in the Funds' portfolio. The existence of such ownership may create conflicts of interest because it may influence the form and level of Fund's investment in such company, including the management or realization of the particular investment. When making such decisions, Las Olas Capital Advisors will act in accordance with its fiduciary duties and take steps to ensure that all decisions made are in the best interest of the Fund involved.

Mr. Tanner's title as an Associate Member for Las Olas VC I GP, LLC is a passive investor role.

Las Olas Capital Partners, LLC ("LOCP"), an affiliated broker-dealer, is a placement agent for the private fund where Las Olas VC II GP, LLC serves as the Manager. As an Associate Member of Las Olas VC II GP, LLC, Mr. Tanner will receive additional compensation via this outside business activity, including but not limited to, carried interest for selling the fund. Additionally, Mr. Tanner will receive compensation for selling the fund as a registered representative of LOCP; thus creating conflicts of interest. Mr. Tanner's title as an Associate Member for Las Olas VC II GP, LLC is a passive investor role.

Recommendation of Other Advisers

We may recommend that you use a third party money manager ("TPMM") based on your needs and suitability. We will not receive separate compensation, directly or indirectly, from the TPMM for recommending that you use their services. Moreover, we do not have any other business relationships with the recommended TPMM(s). Refer to the Las Olas Capital Advisors' Wrap Brochure, which appears as Part 2A Appendix 1 of the Adviser's Form ADV for additional disclosures on this topic.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

Las Olas Capital Advisors has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Associated Person. Las Olas Capital Advisors Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Adviser or any of its Associated Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of Las Olas Capital Advisors' personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (e.g., initial public offerings, limited offerings). However, the Adviser's Associated Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Adviser's policies and procedures. Associated persons may invest in firm strategies, including private placements. As noted above, all private placements are required to be pre-approved. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Adviser is engaging in or considering a transaction in any security on behalf of a client, no Associated Person with access to this information may knowingly affect for themselves or for their immediate family (i.e., spouse, minor children and adults living in the same household) a transaction that security unless:

- the transaction has been completed;
- the transaction for the Associated Person is completed as part of an aggregated trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligation of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issues by mutual funds or money market funds; and (iv) shares issued by unity investment trusts that are invested exclusively in one or more mutual funds.

Item 18 Financial Information

Las Olas Capital Advisors has never filed for bankruptcy and is not aware of any financial condition that is expected to affect its ability to manage client accounts.

As a fiduciary, our firm is committed to making full and fair disclosure of all material facts relating to the advisory relationship. Therefore, on April 23, 2020, the firm received a Paycheck Protection Program ("PPP") loan in the amount of \$86,700 through the U.S. Small Business Administration, which was part of the economic relief provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The firm used the PPP funds to continue payroll for the firm's employees, including employees primarily responsible for performing advisory functions, and make other permissible payments. The loan provided economic support to the firm during uncertain times. However, the firm continues to remain capable of meeting contractual commitments to its clients.
