This Brochure provides information about the qualifications and business practices of Intrua Financial. If you have any questions about the contents of this Brochure, please contact us at (713) 355-9910 or via email at chris@intrua.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission ("SEC") or by any state securities authority.

Intrua Financial, LP. ("Intrua") is a Registered Investment Adviser. Registration of an Investment Adviser does not imply any level of skill or training. The oral and written communications of an Adviser provide you with information that you may use to determine whether to hire or retain them.

Additional information about Intrua is also available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by using a unique identifying number, known as a CRD number. The CRD number for Intrua is 281554. The SEC's web site also provides information about any persons affiliated with Intrua who are registered, or are required to be registered, as Investment Adviser Representatives of Intrua.

Item 2 – Material Changes

Since our last ADV amendment filing on July 8th, 2020, we have made the following material changes to our Form ADV Part 2A.

- Item 4: We have made material changes to the ownership of Intrua Financial LLC. is owned by Intrua Holdings, LLC.
- Item 10: We have added a new financial industry affiliation of Larson Intrua Holdings, LLC. Please see Item 10 for more information.
- Item 12: We are no longer negotiating commission rates with custodians.
- Item 14: We have changed our policy with client referrals, please see Item 14 for more information.

In the future, this section of the Brochure will discuss only the specific material changes that were made to the Brochure and will provide you with a summary of all material changes that have occurred since the last filing of this Brochure with the SEC. This section will also identify the date of our last annual Brochure update.

We will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year which is December 31st. We will provide other ongoing disclosure information about material changes as they occur. We will also provide you with information on how to obtain the complete Brochure. Currently, our Brochure may be requested at any time, without charge, by contacting Christopher Merla at (713) 355-9910.

Item 4 – Advisory Business Introduction

Our Advisory Business

Intrua (“we”, “us”, “our”) is a Registered Investment Adviser (“Adviser”) which offers investment advice regarding securities, insurance, and other financial services to our clients.

We are registered through and regulated by the United States Securities and Exchange Commission (“SEC”). Collin O'Bryant our Chief Compliance Officer will administer the policies and procedures to insure adherence to the Investment Advisers Act and related rules and regulations.

We provide investment advice through Investment Adviser Representatives (“IAR”) associated with us. These individuals are appropriately licensed, qualified, and authorized to provide advisory services on our behalf. In addition, all advisors are required to have a college degree, professional designation, or equivalent professional experience.

Intrua was founded in 2007 by Andrew C. Keller who serves as Managing Member and is owned by Intrua Financial Holdings, LLC. We provide portfolio management services to individuals, high net worth individuals, trusts, estates, corporate pension and profit-sharing plans, charitable organizations, foundations, endowments, corporations, small businesses and churches. Our minimum account opening balance is \$15,000 which may be negotiable based upon certain circumstances.

We also provide consulting and advisory services for employer-sponsored retirement plans in accordance with the Employee Retirement Income Security Act (“ERISA”). The services provided are ERISA 3(21) fiduciary services on non-discretionary basis for ERISA 3(21) services. When delivering ERISA services, we will perform these services for the retirement plan as a fiduciary under ERISA Section 3(21)(A)(ii) will act in good faith and with the degree of diligence, care and skill that a prudent person rendering similar services would exercise under similar circumstances.

We are committed to being involved beyond expected and to providing comprehensive strategies and expertise to our clients. By placing the client’s interests first, we will add value to the asset management process and earn the client’s trust and respect. We value long term relationships with our clients whom we regard as strategic partners in our business.

Services

We provide various asset management, financial planning, and retirement plan advisory services. Our focus is on helping you develop and execute plans that are designed to build and preserve your wealth.

We do participate in a wrap fee program. Please refer to ADV Part2A Appendix 1 Wrap Fee Brochure.

Asset Management

Asset management is the professional management of securities (stocks, bonds and other securities) in order to meet your specified investment goals. With an Asset Management Account, you engage us to assist you in developing a custom-tailored portfolio designed to meet your unique investment objectives.

The investments in the portfolio account may include mutual funds, stocks, bonds, equity options, futures, etc.

We will meet with you to discuss your financial circumstances, investment goals and objectives, and to determine your risk tolerance. We will ask you to provide statements summarizing current investments, income and other earnings, recent tax returns, retirement plan information, other assets and liabilities, wills and trusts, insurance policies, and other pertinent information.

Based on the information you share with us, we will analyze your situation and recommend an appropriate asset allocation or investment strategy. Our recommendations and ongoing management are based upon your investment goals and objectives, risk tolerance, and the investment portfolio you have selected. We will monitor the account, trade as necessary, and communicate regularly with you. Your circumstances shall be monitored in quarter or annual account reviews. These reviews will be conducted in person, by telephone conference, and/or via a written inquiry/questionnaire. We will work with you on an ongoing basis to evaluate your asset allocation as well as rebalance your portfolio to keep it in line with your goals as necessary. We will be reasonably available to help you with questions about your account.

We will:

- Review your present financial situation
- Monitor and track assets under management
- Provide portfolio statements, periodic rate of return reports, asset allocation statement, rebalanced statements as needed
- Advise on asset selection
- Determine market divisions through asset allocation models
- Provide research and information on performance and fund management changes
- Build a risk management profile for you
- Assist you in setting and monitoring goals and objectives
- Provide personal consultations as necessary upon your request or as needed.

You are obligated to notify us promptly when your financial situation, goals, objectives, or needs change.

You shall have the ability to impose reasonable restrictions on the management of your account, including the ability to instruct us not to purchase certain mutual funds, stocks or other securities. These restrictions may be a specific company security, industry sector, asset class, or any other restriction you request.

Under certain conditions, securities from outside accounts may be transferred into your advisory account; however, we may recommend that you sell any security if we believe that it is not suitable for the current recommended investment strategy. You are responsible for any taxable events in these instances. Certain assumptions may be made with respect to interest and inflation rates and the use of past trends and performance of the market and economy. Past performance is not indicative of future results.

We can also work with you, in a consulting capacity, to create an Investment Policy Statement (IPS) that will serve as the roadmap to guide your wealth management program. Your IPS will incorporate many different aspects of your financial status into an overall plan designed to meet your goals and objectives. We will create a formal IPS and deliver it to you upon completion. We use your specific investment objectives and goals to create your customized IPS. We will create a formal IPS and deliver it to you upon completion.

If you decide to implement our recommendations, we will help you open a custodial account(s). The funds in your account will generally be held in a separate account, in your name, at an independent custodian, and not with us. Intrua Financial recommends that our clients use LPL Financial LLC ("LPL"), Charles Schwab & Co., Inc. ("Schwab"), or TD Ameritrade ("TDA"); all are FINRA-registered broker-dealers, member SIPC, as a qualified custodian.

You will enter into a separate custodial agreement with the custodian which authorizes the custodian to take instructions from [us/you] regarding all investment decisions for your account. We will select the securities bought and sold and the amount to be bought and sold, within the parameters of the objectives and risk tolerance of your account. You will be notified of any purchases or sales through trade confirmations and statements that are provided by the custodian. These statements list the total value of the account, itemize all transaction activity, and list the types, amounts, and total value of securities held. You will at all times maintain full and complete ownership rights to all assets held in your account, including the right to withdraw securities or cash, proxy voting and receiving transaction confirmations.

We manage assets on a discretionary basis, which means you have given us the authority to determine the following with/without your consent:

- Securities to be bought or sold for your account
- Amount of securities to be bought or sold for your account
- Broker-dealer to be used for a purchase or sale of securities for your account
- Commission rates to be paid to a broker or dealer for your securities transaction.

Trading may be required to meet initial allocation targets, after substantial cash deposits that require investment allocation, and/or after a request for a withdrawal that requires liquidation of a position. Additionally, your account may be rebalanced or reallocated periodically in order to reestablish the targeted percentages of your initial asset allocation. This rebalancing or reallocation will occur on the schedule we have determined together. You will be responsible for any and all tax consequences resulting from any rebalancing or reallocation of the account. We are not tax professionals and do not give tax advice. However, we will work with your tax professionals to assist you with tax planning.

We are available during normal business hours either by telephone, fax, email, or in person by appointment to answer your questions.

Third Party Money Managers

We may determine that opening an account with a professional third party money manager is in your best interests. We utilize the services of LPL Financial LLC ("LPL"), SEI Investments, and City National Rochdale as third-party money managers.

These programs allow you to obtain portfolio management services that typically require higher minimum account sizes outside of the program. The money managers selected under these programs will have discretion to determine the securities they buy and sell within the account, subject to reasonable restrictions imposed by you. Due to the nature of these programs, each of the independent money managers is obligated to provide you with a separate disclosure document. You should carefully review this document for important and specific program details, including pricing.

Under these programs, we may:

- Assist in the identification of investment objectives
- Recommend specific investment style and asset allocation strategies
- Assist in the selection of appropriate money managers and review performance and progress
- Recommend reallocation among managers or styles within the program
- Recommend the hiring and firing of money managers utilized by you.

You will receive a separate Form ADV Part 2 from the third-party money manager that discusses how its fees and expenses are paid and your relationship with them. The third-party money manager fees may be separate from our fees and vary based on the total client assets we have invested. These fees are separately charged to advisory clients. All fees are disclosed in the Client Agreement and displayed on quarterly statements. You should read the ADV Part 2 disclosure document of the money manager you select for complete details on the charges and fees you will incur and ask us any questions you may have.

Please refer to the ADV Part 2 for LPL, SEI Investments, and City National Rochdale for a complete description of the services offered through these third-party money managers.

Financial Planning/Consulting

We provide services such as comprehensive financial planning, estate planning, business planning and educational planning. Fee based financial planning is a comprehensive relationship which incorporates many different aspects of your financial status into an overall plan that meets your goals and objectives. The financial planning relationship consists of face-to-face meetings and ad hoc meetings with you and/or your other advisors (attorneys, accountants, etc.) as necessary.

In performing financial planning services, we typically examine and analyze your overall financial situation, which may include issues such as taxes, insurance needs, overall debt, credit, business planning, retirement savings and reviewing your current investment program. Our services may focus on all or only one of these areas depending upon the scope of our engagement with you.

It is essential that you provide the information and documentation we request regarding your income, investments, taxes, insurance, estate plan, etc. We will discuss your investment objectives, needs and

goals, but you are obligated to inform us of any changes. We do not verify any information obtained from you, your attorney, accountant or other professionals.

If you engage us to perform these services, you will receive a written agreement detailing the services, fees, terms and conditions of the relationship. You will also receive this Brochure. You are under no obligation to implement recommendations through us. You may implement your financial plan through any financial organization of your choice.

We obtain information from a wide variety of publicly available sources. We do not have any inside private information about any investments that are recommended. All recommendations developed by us are based upon our professional judgment. We cannot guarantee the results of any of our recommendations. Choosing which advice to follow is your decision.

Qualified Retirement Plan Advisory Services

Plan sponsors are increasingly looking for an investment advisor to help shoulder fiduciary responsibilities. Under a 3(21)-fiduciary advisory arrangement Intrua will assist in the recommendation of investments to plan sponsors, monitor the selected investments to ensure performance, provide participant education, and provide guidance throughout the fiduciary process. As an ERISA Section 3(21) fiduciary, Intrua does not have authority to make and implement fiduciary decisions for the plan. Our recommendations relieve plan sponsors of some of the liability associated with their investment decisions, when the decisions are based on our advice. This allows for the plan sponsor/trustee to retain ultimate decision-making authority for investments and may accept or reject the recommendations. The plan sponsor is responsible for the selection and monitoring of the 3(21)-investment manager and implementation of any of the 3(21) investment manager's investment recommendations, and assumes responsibility and liability for any overriding decisions made by the plan sponsor. The plan sponsor will have the opportunity to meet with us periodically to review the plan strategies.

The data used to determine the investment options is based on estimated, forward-looking performance of various asset classes and subclasses to create our forward looking capital markets assumptions (e.g., expected return, expected standard deviation, correlation, etc.). Past performance and the return estimates of the asset classes and the indexes that correspond to these asset classes may not be representative of actual future performance. Actual results could differ, based on various factors including the expenses associated with the management of the portfolio, the portfolio's securities versus the securities comprising the various indexes and general market conditions. Before a specific investment is selected, other factors such as economic trends, which may influence the choice of investments and risk tolerance, should be considered. We have the responsibility and authority to determine the investment line up including evaluating investment managers and mutual fund companies, individual mutual funds, and money market funds which may be retained or replaced.

We also encourage you to consult with your other professional advisors since we do not provide legal advice that may affect asset classes or allocations used in the modeling. We will apply guidelines you supply, as directed, however, compliance with these restrictions or guidelines, is your responsibility.

We will assist you in creating a written investment policy statement (“IPS”) to document the plan’s investment goals and objectives as well as certain policies governing the investment of assets. The IPS also identifies an investment strategy that seeks to attain the plan’s goals.

We will assist with the establishment, execution, and interpretation of the Investment Policy Statement. The Investment Policy Statement serves as a guide to assist in effectively supervising, monitoring, and evaluating the investment of the plan’s assets. We will prepare a draft of the IPS based upon information furnished by you and your firm designed to profile various factors for the account such as investment objectives, risk tolerances, projected cash flow, and demographics of your retirement plan participants. It is your responsibility to provide all necessary information for the preparation of the IPS, particularly any limitations imposed by law or otherwise. This draft IPS is then submitted to you for review and approval. We recommend that your professional advisors, such as an attorney, actuary, and/or accountant, also review the IPS.

Upon your final approval, it is our responsibility to adhere to the IPS in managing the retirement program. We encourage you to review accounts periodically to verify our compliance with the IPS.

The Investment Policy Statement will be reviewed at least annually to determine whether stated investment objectives are still relevant and the continued feasibility of achieving those objectives. However, the Investment Policy Statement is not expected to vary much from year to year and the IPS will not be updated to account for short term changes in market conditions or the economic environment.

We will also monitor the current managed investment line up including the investment’s performance compared to an applicable benchmark. If we determine that a fund no longer meets our criteria, we will select possible alternatives and assist in the selection of a replacement investment.

If you decide to implement any of our recommendations, we will help you open a custodial account(s) for the plan. The funds in your account will be held in a separate account, in the plan’s name, at an independent custodian, not with us. We use a custodian for the plan. The custodian will effect transactions, deliver securities, make payments, etc.

We may conduct plan participant meetings when a change is made either to the structure of the plan or if the investment lineup changes as a result of our decisions. We will detail the changes being made, how it affects the current participants, review the current investment opportunities, how participants may make changes to their investment selections, and will answer any questions a participant may have. We will review with the participants how to select the investments.

Other Services

We may recommend and sell life, disability, health, and long-term care insurance. We will receive the usual and customary commissions associated with these sales from the insurance company. You will not pay a separate fee for these and your advisory fee will not be reduced by any payments we receive from these sales.

ERISA

Both parties acknowledge that if the Account is subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA), the following provisions will apply:

- The Adviser acknowledges that it is a “fiduciary” with respect to the Client as that term is defined under Section 3(21)(A) of ERISA.
- The person signing this Agreement on behalf of the Client acknowledges its status as a “named fiduciary” with respect to the control and management of the assets held in the Account, and agrees to notify the Adviser promptly of any change in the identity of the named fiduciary with respect to the Account;
- The Adviser agrees to obtain and maintain an ERISA bond satisfying the requirements of Section 412 of ERISA and include The Adviser and its members, agents and employees among those insured under that bond.

The Client confirms that any instructions that have been given to the Adviser with regard to the Account are consistent with the governing plan documents and investment policy statements of the plan.

Except as otherwise provided under ERISA the Adviser shall not be liable for any error of judgment or mistake of law or for any loss suffered by the Client in connection with the matters to which this Agreement relates except a loss resulting from the Adviser’s breach of its fiduciary duty, negligence, misconduct or bad faith.

The Adviser is not (i) the “administrator” of the Plan as defined in § 3(16)(A) of ERISA or (ii) the “plan administrator” of the Plan as defined in Section 414(g) of the Internal Revenue Code of 1986, as amended (the “Code”);

The Adviser is neither a law firm nor a public accounting firm and Adviser will not provide legal or accounting advice;

The Client acknowledges that the services covered by this Agreement are consultative, and give no investment authority (“discretion”) or responsibility to the Adviser over any assets of the Plan or Participant regardless of how and where the assets are held. Throughout the term of this Agreement, the Plan or Participant retains full discretion to supervise, manage and direct the assets that may be held with any affiliated or unaffiliated third party.

Intrua understands and attests that they are an ERISA fiduciary as defined in the Fiduciary Rule under the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986. Intrua adheres to the Impartial Conduct Standards (including the “best interest” standard, reasonable compensation and no misrepresented information), as a condition for relying upon the Best Interest Contract Exemption and the Class Exemption for Principal Transactions in Certain Assets Between Investment Advice Fiduciaries and Employee Benefit Plans and IRA during the transition period from June 9, 2017, through January 1, 2018. This relates to all ERISA accounts including Individual Retirement Accounts (IRAs).

The Adviser provides advisory services, which include providing retirement Plan Sponsors or other plan fiduciaries (“Plan Sponsors”) investment advisory and management services by assisting plans in

establishing and/or maintaining a consistent and ongoing documented process of prudent oversight and due diligence. The Adviser provides services to clients that sponsor a retirement plan that is qualified under the Internal Revenue Code of 1986, as amended (the “IRC”) and/or subject to the Employee Retirement Income Security Act of 1974 (“ERISA”). Services may include benchmarking, plan design strategies, analysis, fiduciary consulting and oversight, plan level investment advice and investment fund selection and monitoring services, and some employee education services.

The Adviser does not act as, and has not agreed to assume the duties of, a Plan trustee or the “Plan Administrator,” as defined under section 3(16) of ERISA nor as trustee as described by SEC Rule 206(4)-2. The Adviser has no discretion to interpret the Plan documents, to determine eligibility or participation under the Plan, to provide participant disclosures or communications, to ensure contributions are timely received by the Plan or to exercise any other action with respect to the management, administration or any other aspect of the Plan.

The Adviser’s services are offered to assist plan fiduciaries as they carry out their investment related responsibilities and these services should not substitute for or diminish the careful deliberation and determination of plan fiduciaries, after appropriate consultation with their other professional advisers and the review of relevant plan documentation.

Non-Discretionary 3(21) Fiduciary Services

When the Adviser performs “3(21) Fiduciary Services,” the Adviser will act as a co-fiduciary “investment adviser” that provides “investment advice” as defined under Section 3(21) of ERISA. Under this arrangement the Adviser is appointed by the plan sponsor or trustee to determine a recommended lineup of investments to be included in the Plan. These recommendations are presented to the Plan Sponsor, who has the ultimate responsibility to accept or reject the recommendation. The Adviser will not have any further responsibility to communicate instructions to any third-party, including the custodian, and/or third-party administrator. The Adviser will not communicate directly with the recordkeeper regarding administrative and recordkeeping matters arising under the Adviser’s investment advisory agreement with the Plan Sponsor, or more generally about the recordkeeper’s services to the *Plan*.

The Adviser will provide the Plan Sponsor with a sample investment policy statement. Each retirement Plan Sponsor should adopt a final investment policy statement (“IPS”) which serves as a guide for the Adviser’s investment advisory services. The Adviser offers the following 3(21) services:

- Investment screening
- The selection of replacement funds to which existing Plan balances may be transferred
- Assisting clients to finalize a Plan’s investment lineup of funds available for investment by Plan participants and used for other administrative purposes under the Plan
- Assisting clients with electing a “qualified default investment alternative” as defined in section 404(c)(5) of ERISA
- Quarterly plan review meetings – including review of Investment Funds

In the Adviser’s capacity as a 3(21) plan fiduciary, they will conduct research to determine appropriate investment selections and allocations and to project potential ranges of returns and market values over

various time periods and using various cash flows to assist the Plan Sponsor in determining the appropriate investment options for the retirement plan.

The data used to select the investment options is based on estimated, forward-looking performance of various asset classes and subclasses to create our forward looking capital markets assumptions (e.g., expected return, expected standard deviation, correlation, etc.). Past performance and the return estimates of the asset classes and the indices that correspond to these asset classes may not be representative of actual future performance. Actual results could differ, based on various factors including the expenses associated with the management of the portfolio, the portfolio's securities versus the securities comprising the various indices and general market conditions. Before a specific investment is selected, other factors such as economic trends, which may influence the choice of investments and risk tolerance, should be considered. The Adviser has the responsibility and authority to recommend the investment line up including evaluating investment managers and mutual fund companies, individual mutual funds, and money market funds which may be retained or replaced. The Plan Sponsor has the responsibility and authority to make the final decision regarding what investments to include and when to add or exclude a specific security.

Assets Under Management

As of December 31, 2019, we provided asset management services for 2107 accounts, managing total assets of \$ 642,239,600.00.

Item 5 – Fees and Compensation

We provide asset management, financial planning, financial consulting, and qualified retirement plan consulting services for a fee.

Either party may terminate the relationship with a thirty (30) day written notice. Upon termination of any account, any prepaid fees that are in excess of the services performed will be promptly refunded to you. Any fees that are due, but have not been paid, will be billed to you and are due immediately.

Asset Management Fee Schedule

Our minimum account opening balance is \$15,000 which may be negotiable based upon certain circumstances. The fee charged is based upon the amount of money you invest. Multiple accounts of immediately-related family members, at the same mailing address, may be considered one consolidated account for billing purposes. Fees are charged monthly or quarterly, in arrears. Payments are due and will be assessed on the last day of each period, based on the ending balance of the account under management for the preceding period and will not exceed 2.50%.

For purposes of calculating Quarterly Account Fees, the account quarter will be based on the appropriate fee cycle. Fee cycles are as follows and will be based upon the date in which the client funds their account(s):

Cycle 1	Cycle 2	Cycle 3
January	February	March
April	May	June
July	August	September
October	November	December

The fees shown above are annual fees and may be negotiable based upon certain circumstances. No increase in the annual fee shall be effective without prior written notification to you. We believe our advisory fee is reasonable considering the fees charged by other investment advisers offering similar services/programs.

You may also pay additional advisory fees to a third-party money manager depending upon which manager you select. Our fees will not be based upon a share of capital gains or capital appreciation of the funds or any portion of your funds.

Your account at the custodian may also be charged for certain additional assets managed for you by us but not held by the custodian (i.e. variable annuities, mutual funds, 401(k)s).

The fees we charge can be deducted directly from your account at the custodian. We will instruct the custodian to deduct the fees from your account at the end of the period. This fee will show up as a deduction on your next account statement from the custodian.

Third Party Money Managers

LPL Financial, LLC

LPL fees for discretionary investment advisory services are based upon a percentage of all assets in the account, including assets for which we do not exercise investment discretion or investment oversight, in accordance with the agreed upon fee schedule. LPL fees are billed quarterly in advance based upon the previous quarter-end account values. Fees billed by LPL or any third party retained by us for clients will be deducted from account assets. Fee percentages and minimum fees are subject to negotiation. Annual fees do not include fees for non-standard services or transaction costs for individual securities or other services offered by us.

You will receive a separate Form ADV Part 2 from LPL that discusses how its fees and expenses are paid and your relationship with them. LPL's fees may be separate from our fees and vary based on the total client assets we have invested at LPL. These fees are separately charged to advisory clients. All fees are disclosed in the Client Agreement and displayed on quarterly statements. You should read the ADV Part 2 disclosure document of the money manager you select for complete details on the charges and fees you will incur and ask us any questions you may have.

Manager Access Select Program

Manager Access Select provides clients access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. Advisor will assist client in identifying a third-party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL. The Portfolio Manager manages client's assets on a discretionary basis. Advisor will provide initial and ongoing assistance regarding the Portfolio Manager selection process.

A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

Optimum Market Portfolios Program (OMP)

OMP offers clients the ability to participate in a professionally managed asset allocation program using Optimum Funds shares. Under OMP, client will authorize LPL on a discretionary basis to purchase and sell Optimum Funds pursuant to investment objectives chosen by the client. Advisor will assist the client in determining the suitability of OMP for the client and assist the client in setting an appropriate investment objective. Advisor will have discretion to select a mutual fund asset allocation portfolio designed by LPL consistent with the client's investment objective. LPL will have discretion to purchase and sell Optimum Funds pursuant to the portfolio selected for the client. LPL will also have authority to rebalance the account.

A minimum account value of \$10,000 is required for OMP. In certain instances, LPL will permit a lower minimum account size.

Personal Wealth Portfolios Program (PWP)

PWP offers clients an asset management account using asset allocation model portfolios designed by LPL. Advisor will have discretion for selecting the asset allocation model portfolio based on client's investment objective. Advisor will also have discretion for selecting third party money managers (PWP Advisors), mutual funds and ETFs within each asset class of the model portfolio. LPL will act as the overlay portfolio manager on all PWP accounts and will be authorized to purchase and sell on a discretionary basis mutual funds, ETFs and equity and fixed income securities.

A minimum account value of \$250,000 is required for PWP. In certain instances, LPL will permit a lower minimum account size.

Model Wealth Portfolios Program (MWP)

MWP offers clients a professionally managed mutual fund asset allocation program. The Advisor will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. The Advisor will initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL's Research Department consistent with the client's stated investment objective. LPL's Research Department or third-party portfolio strategists are responsible for selecting the mutual funds or ETFs within a model portfolio and for making changes to the mutual funds or ETFs selected.

The client will authorize LPL to act on a discretionary basis to purchase and sell mutual funds and ETFs and to liquidate previously purchased securities. The client will also authorize LPL to effect rebalancing for MWP accounts.

MWP requires a minimum asset value for a program account to be managed. The minimums vary depending on the portfolio(s) selected and the account's allocation amongst portfolios. The lowest minimum for a portfolio is \$25,000. In certain instances, a lower minimum for a portfolio is permitted.

Guided Wealth Portfolios (GWP)

GWP offers clients the ability to participate in a centrally managed, algorithm-based investment program, which is made available to users and clients through a web-based, interactive account management portal ("Investor Portal"). Investment recommendations to buy and sell exchange-traded funds and open-end mutual funds are generated through proprietary, automated, computer algorithms (collectively, the "Algorithm") of FutureAdvisor, Inc. ("FutureAdvisor"), based upon model portfolios constructed by LPL and selected for the account as described below (such model portfolio selected for the account, the "Model Portfolio"). Communications concerning GWP are intended to occur primarily through electronic means (including but not limited to, through email communications or through the Investor Portal), although Intrua will be available to discuss investment strategies, objectives or the account in general in person or via telephone.

A preview of the Program (the "Educational Tool") is provided for a period of up to forty-five (45) days to help users determine whether they would like to become advisory clients and receive ongoing financial advice from LPL, FutureAdvisor and Intrua by enrolling in the advisory service (the "Managed Service"). The Educational Tool and Managed Service are described in more detail in the GWP Program Brochure. Users of the Educational Tool are not considered to be advisory clients of LPL, FutureAdvisor or Intrua, do not enter into an advisory agreement with LPL, FutureAdvisor or Intrua Financial, do not receive ongoing investment advice or supervisions of their assets, and do not receive any trading services.

A minimum account value of \$5,000 is required to enroll in the Managed Service.

SEI Investments

Intrua participates in the Separately Managed Accounts Program (the Program) sponsored by SEI Investments Management Corporation (SIMC). To participate in the Program, Intrua, SIMC and each client execute a three-party agreement (hereinafter, a Managed Account Agreement) providing for the management of certain investor assets in accordance with the terms thereof. By means of the Managed Account Agreement, the client appoints Intrua as its investment advisor to assist the client in selecting an asset diversification strategy, which includes allocating a percentage of client assets to designated portfolios of separate securities (each, a Separately Managed Account Portfolio) and which may include a percentage of assets allocated to a portfolio of mutual funds sponsored by SIMC or an affiliate of SIMC. The client appoints SIMC to manage the assets in each Separately Managed Account Portfolio in accordance with a strategy selected by the client together with Intrua. SIMC may delegate its responsibility for selecting particular securities to one or more portfolio managers. Please refer to SIMC's ADV Part 2 disclosure brochure for a full description of fees.

City National Rochdale

The Wrap Program offered directly through City National Rochdale (“City National Rochdale Wrap Program”) by Intrua offers continuous management of client accounts (“Account(s)”) on a fully discretionary basis making all security purchase and sale decisions. Securities transactions are executed through Advisor’s brokerage affiliate, RIM Securities LLC (“RIM”), a member of the Financial Industry Regulatory Authority (“FINRA”). Clients participating in the City National Rochdale Wrap Program are required to direct the use of RIM as their broker/dealer. RIM clears all of its transactions on a fully disclosed basis through Pershing LLC (“Pershing”), but separate commissions are not charged for securities transactions under the City National Rochdale Wrap Fee Program. Pershing also serves as the custodian for all client Accounts that participate in the City National Rochdale Wrap Fee Program. Pershing provides account insurance coverage through the Securities Insurance Protection Corporation (“SIPC”) of up to \$500,000 including up to \$250,000 in cash. Additionally, Pershing has obtained excess account protection of up to an overall aggregate level of \$1 billion, including up to \$1.9 million in cash through certain underwriters in Lloyd’s of London insurance market and other commercial insurers.

In addition to actively managing client accounts, the City National Rochdale Wrap Program offer assistance to clients in setting investment objectives, as well as determining appropriate asset allocations. A variety of investment styles may be employed, with client consultation, with a view to establishing the investment style most appropriate for the client’s investment objectives. Nevertheless, there can be no guarantee that a client’s objectives will be achieved.

Please refer to the ADV Part 2 for LPL SEI Investments, and City National Rochdale for a complete description of the fees charged by these third party money managers.

Financial Planning/Consulting Fees

In addition to Asset-based fees, Intrua can charge hourly fees for the development of wealth management plans, written financial plans, or consultations at an hourly rate not to exceed \$250. Intrua may also provide a comprehensive financial plan for a fixed fee of \$250 to \$35,000, which may be negotiable depending upon the nature and complexity of the client's circumstances.

These fees are negotiable and agreed to in writing and paid by the Client before or after services have been delivered or 50% before and 50% after delivery. Intrua does not accept fixed fee in excess of \$1200 for more than 6 months in advance.

Qualified Retirement Plan Advisory Fees

Our standard fee includes establishing your Investment Policy Statement, reviewing your plan structure, investment management, investment selection and monitoring, fund changes, participant education and reporting. The fee will be outlined in your Advisory Agreement (see Appendix A of the Advisory Agreement) with us.

These are paid per the fee schedule of the individual plan sponsors. Some may pay quarterly in arrears or in advance and some may pay monthly in arrears or in advance. Intrua may also provide our retirement plan advisory services for an hourly fee of \$250, which may be negotiable depending upon the nature and

complexity of the client's circumstances. The advisory agreement the plan sponsor has with us will outline exactly how the fees are charged and remitted to us.

You may also incur fees related to your use of outside service providers including third-party administrators and record keepers. The fee schedule for each outside service provider varies dramatically from service provider to service provider. The service provider's fees will also vary from plan to plan as each plan's structure and characteristics are different from the next.

We believe our services help plan sponsors and plan fiduciaries meet their fiduciary duty to the plan and its participants. As a part of our services, we review the fees of service providers and the transparency of their fees. We will assist the plan sponsors with a review of service providers including the third-party administrator, daily record keeper, and custodian to ensure that their services, along with ours, remain competitive to alternatives that are available.

Third Party Fees

Our fees do not include brokerage commissions, transaction fees, and other related costs and expenses. You may incur certain charges imposed by custodians, third party investment companies and other third parties. These include fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds, money market funds and exchange-traded funds (ETFs) also charge internal management fees, which are disclosed in the fund's prospectus. These fees may include, but are not limited to, a management fee, upfront sales charges, and other fund expenses. Certain strategies offered by us may involve investment in mutual funds and/or ETFs. Load and no load mutual funds may pay annual distribution charges, sometimes referred to as "12(b)(1) fees". These 12(b)(1) fees come from fund assets, and thus indirectly from clients' assets. We do not receive any compensation from these fees. All of these fees are in addition to the management fee you pay us. You should review all fees charged to fully understand the total amount of fees you will pay. Services similar to those offered by us may be available elsewhere for more or less than the amounts we charge. Our brokerage practices are discussed in more detail under Item 12 – Brokerage Practices.

Other Compensation

Our IARs may recommend and sell life, disability, health, and long-term care insurance and will receive the usual and customary commissions in addition to any agreed upon advisory fee.

Andrew C. Keller may receive additional compensation from sales of securities and/or investment products.

While Andrew C. Keller endeavors at all times to put the interest of our clients first as part of our fiduciary duty, the possibility of receiving additional compensation creates a conflict of interest, and may affect Andrew C. Keller's judgment when making recommendations. We require that all IARs disclose this conflict of interest when such recommendations are made. Also, we require IARs to disclose that clients may purchase recommended securities from other registered representatives not affiliated with us.

Item 6 – Performance Based Fee and Side by Side Management

We do not charge any performance-based fees. These are fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7 – Types of Client(s)

We provide portfolio management, financial planning, financial consulting, and retirement plan advisory services to individuals, high net worth individuals, trusts, estates, corporate pension and profit-sharing plans, charitable organizations, trusts, foundations, endowments, corporations, trusts, small businesses and churches.

Additionally, the Adviser provides investment advisory services to the following types of clients:

- Tax-qualified retirement plans (both defined benefit and defined contribution) that are intended to receive favorable tax-treatment under section 401(a) or 403(b) of the IRC
- Non-qualified executive deferred compensation plans
- Other types of retirement plan types as may be introduced to the Programs.

Our minimum account opening balance is \$15,000 which may be negotiable based upon certain circumstances

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

We use Fundamental Analysis, Modern Portfolio Theory, and Technical Analysis as part of our overall investment management discipline; the implementation of these analyses as part of our investment advisory services to you may include any, all or a combination of the following:

Fundamental Analysis

Fundamental analysis is a technique that attempts to determine a security's value by focusing on the underlying factors that affect a company's actual business and its future prospects. Fundamental analysis is about using real data to evaluate a security's value. It refers to the analysis of the economic well-being of a financial entity as opposed to only its price movements.

The end goal of performing fundamental analysis is to produce a value that we can compare with the security's current price, with the aim of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short).

Modern Portfolio Theory (MPT)

We use Modern Portfolio Theory to help select the funds we use in your account.

Modern portfolio theory tries to understand the market as a whole, rather than looking for what makes each investment opportunity unique. Investments are described statistically, in terms of their expected long-term return rate and their expected short-term volatility. The volatility is equated with "risk," measuring how much worse than average an investment's bad years are likely to be. The end goal is to identify your acceptable level of risk tolerance, and then to find a portfolio with the maximum expected return for that level of risk.

Technical Analysis

Technical Analysis is a technique that attempts to determine a security's value by developing models and trading rules based upon price and volume transformation. Technical analysis assumes that a market's price reflects all relevant information so the analysis focuses on the history of a security's trading behavior rather than external drivers such as economic, fundamental and news events. The practice of technical analysis incorporates the importance of understanding how market participants perceive and act upon relevant information rather than focusing on the information itself. Ultimately, technical analysts develop trading models and rules by evaluating factors such as market trends, market participant behaviors, supply and demand and pricing patterns and correlations.

As with other types of analysis, the predictive nature of technical analysis can vary greatly; models and rules are often modified and updated as new patterns and behaviors develop. Past performance is not an indicator of future return.

Cyclical Analysis

While we do not attempt to time the market, we may use cyclical analysis in conjunction with other strategies to help determine if shifts are required in your investment strategies depending upon long and short-term trends in financial markets and the performance of the overall national and global economy.

Investment Strategies

In order to perform this analysis, we use many resources, such as:

- Morningstar
- Thompson One
- Financial newspapers and magazines (e.g. Wall Street Journal, Forbes, etc.)
- Annual reports, prospectuses, filings
- Company press releases and websites

The investment strategies we use to implement any investment advice given to you include, but are not limited to:

- Long term purchases - securities held at least a year
- Short term purchases - securities sold within a year

- Trading -securities sold within 30 days
- Short sales
- Margin Transactions
- Option writing, including covered options, uncovered options or spreading strategies.

Risk of Loss

We cannot guarantee our analysis methods will yield a return. In fact, a loss of principal is always a risk. Investing in securities involves a risk of loss that you should be prepared to bear. You need to understand that investment decisions made for your account by us are subject to various market, currency, economic, political and business risks. The investment decisions we make for you will not always be profitable nor can we guarantee any level of performance.

A list of all risks associated with the strategies, products and methodology we offer are listed below:

Alternative Investment Risk

Investing in alternative investments is speculative, not suitable for all clients, and intended for experienced and sophisticated investors who are willing to bear the high economic risks of the investment, which can include:

- Loss of all or a substantial portion of the investment due to leveraging, short-selling or other speculative investment practices
- Lack of liquidity in that there may be no secondary market for the fund and none expected to develop
- Volatility of returns
- Absence of information regarding valuations and pricing
- Delays in tax reporting
- Less regulation and higher fees than mutual funds.

Bond Fund Risk

Bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher yields of the risks associated with bond funds include:

- Call Risk - The possibility that falling interest rates will cause a bond issuer to redeem—or call—its high-yielding bond before the bond's maturity date.
- Credit Risk — the possibility that companies or other issuers whose bonds are owned by the fund may fail to pay their debts (including the debt owed to holders of their bonds). Credit risk is less of a factor for bond funds that invest in insured bonds or U.S. Treasury bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.
- Interest Rate Risk — the risk that the market value of the bonds will go down when interest rates go up. Because of this, you can lose money in any bond fund, including those that invest only in insured bonds or Treasury bonds.

- Prepayment Risk — the chance that a bond will be paid off early. For example, if interest rates fall, a bond issuer may decide to pay off (or "retire") its debt and issue new bonds that pay a lower rate. When this happens, the fund may not be able to reinvest the proceeds in an investment with as high a return or yield.

Fundamental Analysis Risk

Fundamental analysis, when used in isolation, has a number of risks:

- There are an infinite number of factors that can affect the earnings of a company, and its stock price, over time. These can include economic, political and social factors, in addition to the various company statistics.
- The data used may be out of date.
- It is difficult to give appropriate weightings to the factors.
- It assumes that the analyst is competent.
- It ignores the influence of random events such as oil spills, product defects being exposed, and acts of God and so on.

Modern Portfolio Theory (MPT) Risk

Modern Portfolio Theory tries to understand the market as a whole and measure market risk in an attempt to reduce the inherent risks of investing in the market. However, with every financial investment strategy there is a risk of a loss of principal. Not every investment decision will be profitable, and there can be no guarantee of any level of performance.

Cyclical Analysis Risk

Looking at market cycles in conjunction with other investment strategies can be useful when making investment decisions. However, market cycles are not always predictable. Each financial investment strategy has benefits and risks. Not every investment decision will be profitable, and there can be no guarantee of any level of performance.

Exchange Traded Fund ("ETF") Risk

Most ETFs are passively managed investment companies whose shares are purchased and sold on a securities exchange. An ETF represents a portfolio of securities designed to track a particular market segment or index. ETFs are subject to the following risks that do not apply to conventional funds:

- The market price of the ETF's shares may trade at a premium or a discount to their net asset value;
- An active trading market for an ETF's shares may not develop or be maintained; and
- There is no assurance that the requirements of the exchange necessary to maintain the listing of an ETF will continue to be met or remain unchanged

Insurance Product Risk

The rate of return on variable insurance products is not stable, but varies with the stock, bond and money market subaccounts that you choose as investment options. There is no guarantee that you will earn any return on your investment and there is a risk that you will lose money. Before you

consider purchasing a variable product, make sure you fully understand all of its terms. Carefully read the prospectus. Some of the major risks include:

- **Liquidity and Early Withdrawal Risk** – There may be a surrender charges for withdrawals within a specified period, which can be as long as six to eight years. Any withdrawals before a client reaches the age of 59 ½ are generally subject to a 10 percent income tax penalty in addition to any gain being taxed as ordinary income.
- **Sales and Surrender Charges** – Asset-based sales charges or surrender charges. These charges normally decline and eventually are eliminated the longer you hold your shares. For example, a surrender charge could start at 7 percent in the first year and decline by 1 percent per year until it reaches zero.
- **Fees and Expenses** – There are a variety of fees and expenses which can reach 2% and more such as:
 - Mortality and expense risk charges
 - Administrative fees
 - Underlying fund expenses
 - Charges for any special features or riders.
- **Bonus Credits** – Some products offer bonus credits that can add a specified percentage to the amount invested ranging from 1 percent to 5 percent for each premium payment. Bonus credits, however, are usually not free. In order to fund them, insurance companies typically impose high mortality and expense charges and lengthy surrender charge periods.
- **Guarantees** – Insurance companies provide a number of specific guarantees. For example, they may guarantee a death benefit or an annuity payout option that can provide income for life. These guarantees are only as good as the insurance company that gives them.
- **Market Risk** – The possibility that stock fund or bond fund prices overall will decline over short or even extended periods. Stock and bond markets tend to move in cycles, with periods when prices rise and other periods when prices fall.
- **Principal Risk** – The possibility that an investment will go down in value, or "lose money," from the original or invested amount.

Mutual Funds Risk

The following is a list of some general risks associated with investing in mutual funds.

- **Country Risk** - The possibility that political events (a war, national elections), financial problems (rising inflation, government default), or natural disasters (an earthquake, a poor harvest) will weaken a country's economy and cause investments in that country to decline.
- **Currency Risk** -The possibility that returns could be reduced for Americans investing in foreign securities because of a rise in the value of the U.S. dollar against foreign currencies. Also called exchange-rate risk.
- **Income Risk** - The possibility that a fixed-income fund's dividends will decline as a result of falling overall interest rates.

- Industry Risk - The possibility that a group of stocks in a single industry will decline in price due to developments in that industry.
- Inflation Risk - The possibility that increases in the cost of living will reduce or eliminate a fund's real inflation-adjusted returns.
- Manager Risk -The possibility that an actively managed mutual fund's investment adviser will fail to execute the fund's investment strategy effectively resulting in the failure of stated objectives.
- Market Risk -The possibility that stock fund or bond fund prices overall will decline over short or even extended periods. Stock and bond markets tend to move in cycles, with periods when prices rise and other periods when prices fall.
- Principal Risk -The possibility that an investment will go down in value, or "lose money," from the original or invested amount.

Stock Fund Risk

Overall "market risk" poses the greatest potential danger for investors in stocks funds. Stock prices can fluctuate for a broad range of reasons, such as the overall strength of the economy or demand for particular products or services.

Technical Analysis risk

- Technical analysis is derived from the study of market participant behavior and its efficacy is a matter of controversy.
- Methods vary greatly and can be highly subjective; different technical analysts can sometimes make contradictory predictions from the same data.
- Models and rules can incur sufficiently high transaction costs.

Overall Risks

Clients need to remember that past performance is no guarantee of future results. All funds carry some level of risk. You may lose some or all of the money you invest, including your principal, because the securities held by a fund goes up and down in value. Dividend or interest payments may also fluctuate, or stop completely, as market conditions change.

Before you invest, be sure to read a fund's prospectus and shareholder reports to learn about its investment strategy and the potential risks. Funds with higher rates of return may take risks that are beyond your comfort level and are inconsistent with your financial goals.

While past performance does not necessarily predict future returns, it can tell you how volatile (or stable) a fund has been over a period of time. Generally, the more volatile a fund, the higher the investment risk. If you'll need your money to meet a financial goal in the near-term, you probably can't afford the risk of investing in a fund with a volatile history because you will not have enough time to ride out any declines in the stock market.

Item 9 – Disciplinary Information

Registered Investment Advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of us or the integrity of our management. We do not have any information to disclose concerning Intrua or any of our IARs. We adhere to high ethical standards for all IARs and associates.

Item 10 – Other Financial Industry Activities and Affiliations

Neither Intrua nor any of its management persons are registered as a broker-dealer. Intrua does not have any pending applications to register as a broker-dealer. Intrua's management persons are registered representatives of the broker-dealer, LPL Financial, LLC.

Intrua and its management persons are not registering as a commodity pool operator, futures commission merchant, or commodity trading advisor.

Other Financial Industry Affiliations

The IARs of Intrua have the following outside business activities and/or affiliations to disclose.

Intrua Financial is owned by Intrua Holdings, LP which is owned by Andrew C. Keller and Larson Intrua Holdings, LLC. These two members have controlling interest in Intrua Holdings, LLC.. Larson Intrua Holdings LLC. is a subsidiary of Larson Financial Group, LLC.. The services provided by the above-mentioned affiliated companies are separate and distinct from Intrua's advisory services. To mitigate any appearance of conflicts of interest, the services, and clients of either firm will remain separate and distinct, and clients of either firm will not be solicited to receive services of the other.

Some of our IARs are registered representatives of LPL Financial, LLC. They may recommend securities products that will pay them a commission through their broker-dealer relationship. When such recommendations or sales are made, a conflict of interest exists as the registered representatives may receive more commissions from the sale of these products than from providing you with advisory services. We require that all IARs disclose this conflict of interest when such recommendations are made. We also require IARs to disclose to clients that they may purchase recommended products from other representatives not affiliated with us. Our Code of Ethics requires our IARs do what is in the client's best interests at all times. Our CCO monitors all transactions to ensure that representatives put their clients first, not the commission they may receive. The broker-dealer also monitors all transaction to make certain they are suitable for the client.

Andrew C. Keller, the Managing Member for Intrua, is a licensed insurance agent/broker with various companies. Andrew C. Keller may recommend insurance products and may also, as independent insurance agents, sell those recommended insurance products to clients. When such recommendations or sales are made, a conflict of interest exists as the insurance licensed IARs earn insurance commissions for the sale of those products, which may create an incentive to recommend such products. We require

that all IARs disclose this conflict of interest when such recommendations are made. Also, we require IARs to disclose that clients may purchase recommended insurance products from other insurance agents not affiliated with us.

Intrua Financial Holdings, LLC, is also a direct owner of an affiliated registered investment advisory firm. In this role, they may receive profits from the ownership of this advisory firm. To mitigate any appearance of conflicts of interest, the services, and clients of either firm will remain separate and distinct, and clients of either firm will not be solicited to receive services of the other.

Selection of Other Advisers

Intrua will be compensated by the third party manager(s) from the advisory fees collected from the client. Details of these fees are/will be described in Item 5 – Fees and Compensation. This causes a conflict of interest in recommending certain third-party managers since we may receive compensation for referring clients to these vendors. In order to mitigate this conflict of interest, we require all IARs to inform the client that they are under no obligation to implement any recommendations made by us or the third-party manager.

Item 11 – Code of Ethics, Participation or Interest in Client Accounts and Personal Trading

General Information

We have adopted a Code of Ethics for all supervised persons of the firm describing its high standards of business conduct, and fiduciary duty to you, our client. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts, the reporting of certain gifts and business entertainment items, and personal securities trading procedures. All of our supervised persons must acknowledge the terms of the Code of Ethics annually, or as amended.

Participation or Interest in Client Accounts

Our Compliance policies and procedures prohibit anyone associated with Intrua from having an interest in a client account or participating in the profits of a client's account without the approval of the CCO.

The following acts are prohibited:

- Employing any device, scheme or artifice to defraud
- Making any untrue statement of a material fact
- Omitting to state a material fact necessary in order to make a statement, in light of the circumstances under which it is made, not misleading
- Engaging in any fraudulent or deceitful act, practice or course of business
- Engaging in any manipulative practices

Clients and prospective clients may request a copy of the firm's Code of Ethics by contacting the CCO.

Personal Trading

We may recommend securities to you that we will purchase for our own accounts. We may trade securities in our account that we have recommended to you as long as we place our orders after your orders. This policy is meant to prevent us from benefiting as a result of transactions placed on behalf of advisory accounts.

Certain affiliated accounts may trade in the same securities with your accounts on an aggregated basis when consistent with our obligation of best execution. When trades are aggregated, all parties will share the costs in proportion to their investment. We will retain records of the trade Order (specifying each participating account) and its allocation. Completed Orders will be allocated as specified in the initial trade order. Partially filled Orders will be allocated on a pro rata basis. Any exceptions will be explained on the Order.

Intrua has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of "Access Persons". The policy requires that an Access Person of the firm provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his/her designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date the Adviser selects; provided, however that at any time that the Adviser has only one Access Person, he or she shall not be required to submit any securities report described above.

We have established the following restrictions in order to ensure our fiduciary responsibilities regarding insider trading are met:

- No securities for our personal portfolio(s) shall be bought or sold where this decision is substantially derived, in whole or in part, from the role of IAR(s) of Intrua, unless the information is also available to the investing public on reasonable inquiry. In no case, shall we put our own interests ahead of yours.

Privacy Statement

We are committed to safeguarding your confidential information and hold all personal information provided to us in the strictest confidence. These records include all personal information that we collect from you or receive from other firms in connection with any of the financial services they provide. We also require other firms with whom we deal with to restrict the use of your information. Our Privacy Policy is available upon request.

Conflicts of Interest

Intrua's IARs may employ the same strategy for their personal investment accounts as it does for its clients. However, IARs may not place their orders in a way to benefit from the purchase or sale of a security.

We act in a fiduciary capacity. If a conflict of interest arises between us and you, we shall make every effort to resolve the conflict in your favor. Conflicts of interest may also arise in the allocation of

investment opportunities among the accounts that we advise. We will seek to allocate investment opportunities according to what we believe is appropriate for each account. We strive to do what is equitable and in the best interests of all the accounts we advise.

Item 12 – Brokerage Practices

Factors Used to Select Custodians

In recommending a custodian/broker-dealer, we look for a company that offers relatively low transaction fees, access to desired securities, trading platforms, and support services. We may recommend clients use LPL Financial, Charles Schwab, or TD Ameritrade as the qualified custodian for their accounts when utilizing our asset management services.

Soft Dollars

LPL, Schwab, or TD Ameritrade and other third party managers may provide us with certain brokerage and research products and services that qualify as "brokerage or research services" under Section 28(e) of the Securities Exchange Act of 1934 ("Exchange Act"). These research products and/or services will assist the IARs in its investment decision making process. Such research generally will be used to service all of the IAR's clients, but brokerage commissions paid by the client may be used to pay for research that is not used in managing the client's account. The account may pay to a broker-dealer a commission greater than another qualified broker-dealer might charge to affect the same transaction where the IAR determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services received.

Because soft dollar benefits could be considered to provide a benefit to the adviser that might cause the client to pay more than the lowest available commission without receiving the most benefit, they are considered a conflict of interest in recommending or directing custodial and third party managerial services. Intrua mitigates these conflicts of interest through strong oversight of soft-dollar arrangements by the Chief Compliance Officer, in order to assure the soft dollar benefits serve the best interests of the client.

There may other benefits from recommending LPL Financial, Schwab, TD Ameritrade, or other third party managers such as software and other technology that (i) provide access to client account data (such as trade confirmations and account statements); (ii) facilitate trade execution and allocate aggregated trade orders for multiple client accounts; (iii) provide research, pricing and other market data; (iv) facilitate payment of fees from its clients' accounts; and (v) assist with back-office functions, recordkeeping and client reporting.

Other services may include, but are not limited to, performance reporting, financial planning, contact management systems, third party research, publications, access to educational conferences, roundtables and webinars, practice management resources, access to consultants and other third party service providers who provide a wide array of business related services and technology with whom Intrua may contract directly. Intrua may receive seminar expense reimbursements from product sponsors which may be based on the sales of products to their clients.

Soft dollar benefits may be proportionally allocated to any accounts that may generate different amounts of the soft dollar benefits.

Best Execution

We have an obligation to seek best execution for you. In seeking best execution, the determinative factor is not the lowest possible commission cost but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, reputation and responsiveness. Therefore, we will seek competitive commission rates, but we may not obtain the lowest possible commission rates for account transactions.

Brokerage for Client Referrals

In selecting and/or recommending broker-dealers, we do not take into consideration whether or not we will receive client referrals from the broker-dealer or third party.

Directed Brokerage

Clients are permitted/required to use the custodian of their choosing if the external custodian is approved by our preferred custodian, LPL Financial. Not all advisory firms permit you to direct brokerage. If you elect to select your own broker-dealer or custodian and direct us to use them, you may pay higher or lower fees than what is available through our relationships. Generally, we will not negotiate lower rates below the rates established by the executing broker-dealer or custodian for this type of directed brokerage account, unless we believe that such rate is unfair or unreasonable for the size and type of transaction. In all instances, we will seek best execution for you.

Trading

Transactions for each client account generally will be effected independently, unless we decide to purchase or sell the same securities for several clients at approximately the same time. We may (but are not obligated to) combine or "batch" such orders to obtain best execution and to allocate equitably among our clients' differences in prices and commission or other transaction costs. Under this procedure, transactions will be price-averaged and allocated among our clients in proportion to the purchase and sale orders placed for each client account on any given day.

Transactions placed in an asset management account by a third-party manager will be executed through their broker-dealer or custodian. In determining best execution for these transactions, the third party manager is looking at whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. While they look for competitive commission rates, they may not obtain the lowest possible commission rates for account transactions. The aggregation and allocation practices of mutual funds and third-party managers that we recommend to you are disclosed in the respective mutual fund prospectuses and third party manager disclosure documents which will be provided to you.

ERISA [3(21)]

As it relates to ERISA Plan business, the Adviser's model does not involve transactional business and, consequently, the Adviser does not currently engage brokers in any transactional capacity.

Best Execution

The Adviser does not trade in any Plan client accounts.

Trading

The Adviser does not trade in individual Plan participant accounts.

Qualified Retirement Plan Trading

We do not accept trading authorization with respect to any participants' plan account.

Item 13 – Review of Accounts

Reviews

Reviews will be conducted at least annually. Reviews will be conducted by the Chief Compliance Officer. Generally, we will monitor for evaluate asset allocation, investment strategy and objectives, cash balance, and performance, changes and shifts in the economy, changes to the management and structure of an equity or company in which client assets are invested, and market shifts and corrections.

Review Triggers

We conduct periodic reviews to evaluate current market, economic and political events and how these may affect client accounts. Additional reviews may be triggered by these events or by events in the client's financial or personal status. You may request more frequent reviews and may set thresholds for triggering events that would cause a review to take place.

Reports

You will be provided with account statements reflecting the transactions occurring in your account at least quarterly. These statements may be written or electronic depending upon what you selected when you opened the account. You will be provided with confirmations for each securities transaction executed in the account. You are obligated to notify us of any discrepancies in the account(s) or any concerns you have about the account(s).

Financial plans created utilizing our ongoing financial planning services will receive status updates and/or reports during their plan reviews. Project-based financial planning and consulting clients are provided a one-time written financial plan concerning their financial situation. After the presentation of the plan, there are no further reports.

Retirement plan clients may create and/or review the plan's Investment Policy Statement ("IPS"). The plan client may also receive quarterly written reports evaluating the performance of the plan's investments as well as comparing the performance thereof to benchmarks set forth in the IPS or as otherwise determined

in our judgment. The information used to generate the reports will be derived from statements provided by the plan fiduciary or third party. This review will include a quantitative and qualitative analysis of investment selections included within the plan and provide third-party commentary on investment options whenever available.

Item 14 – Client Referrals and Other Compensation

We do have compensation agreements with TPMM's (e.g. SEI Investments, and City National Rochdale, we receive compensation based on the service they provide to our clients. Any such compensation arrangement will be formalized in an agreement and disclosed to our clients. Please see Item 4 for more information regarding the services that they provide. **We may occasionally pay a referral fee to third party solicitors. However, no fee is paid unless we have a signed and executed solicitor agreement. You must sign a disclosure form that contains the details of the referral agreement. Our fiduciary duties still apply to referral relationships, and we must put the interest of our clients first and see the best execution of securities transactions on behalf of our clients.**

Item 15 – Custody

We do not have physical custody of any accounts or assets. However, we may be deemed to have custody of your account(s) if we have the ability to deduct your advisory fees from the custodian. We use LPL Financial, Charles Schwab, TD Ameritrade as the custodian and/or broker-dealer for all your accounts. You should receive at least quarterly statements from the broker-dealer or custodian that holds and maintains your investment assets. We urge you to carefully review such statements and compare this official custodial record to the account statements that we may provide to you. Our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities. If you notice any discrepancies, please contact Intrua.

We do not debit the client fees directly from your advisory account. We send information to your custodian to debit your fees and to pay them to us. You authorized the custodian to pay us directly at the onset of the relationship.

ERISA [3(21)]

If authorized by the Plan Sponsor, the Adviser has the ability to debit fees directly from the Plan Sponsor's bank account through the submission of a billing file to the plan custodian, however, the Adviser does not have authority to possess or take actual custody of clients' funds or securities. Plan Sponsors and plan participants should receive at least quarterly statements from the recordkeeper and Plan Sponsors and participants should carefully review such statements.

Item 16 – Investment Discretion

Individual Managed Accounts

We usually receive discretionary authority from you at the beginning of an advisory relationship to select the identity and amount of securities to be bought or sold. This information is described in the Advisory Agreement you sign with us. In all cases, however, this discretion is exercised in a manner consistent with your stated investment objectives for your account.

When selecting securities and determining amounts, we observe the investment policies, limitations and restrictions you have set. For registered investment companies, our authority to trade securities may also be limited by certain federal securities tax laws that require diversification of investments and favor the holding of investments once made.

Prior to assuming discretionary authority, clients must execute the Advisory Agreement. Execution of the Advisory Agreement grants us the authority to determine, without obtaining specific client consent, both the amount and the type of securities to be bought and sold to help achieve the client account objectives.

If you do not grant this limited investment discretion, your IAR will be required to contact you and get affirmation regarding our investment recommendations, such as the security being recommended, the number of shares, whether the security should be bought or sold before implementing changes in your account.

Qualified Retirement Plans

Our recommendations regarding our retirement plan advisory services are made on a non-discretionary basis. The plan sponsor retains the decision-making authority over the plan. When recommending securities, we observe the investment policies, limitations, and restriction set by the plan and plan sponsor.

ERISA [3(21)]

As further described in Item 4 above, under 3(21) Fiduciary Services, the Adviser exercises limited discretion over Plan assets in that it makes investment recommendations to Plan Sponsors, but the Plan Sponsor may or may not implement the recommendation(s).

Item 17 – Voting Client Securities

As a matter of firm policy and practice, we do not have any authority to and do not vote proxies on behalf of advisory clients. You retain the responsibility for receiving and voting proxies for any and all securities maintained in your portfolios. We may provide advice to you regarding your voting of proxies. The custodian will forward you copies of all proxies and shareholder communications relating to your account assets.

Item 18 – Financial Information

We are required to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that would impair our ability to meet any contractual and fiduciary commitments to you, our client. We have not been the subject of any bankruptcy proceedings.

In no event shall we charge advisory fees that are both in excess of twelve hundred dollars and more than six months in advance of advisory services rendered.
