

Form ADV Part 2A – Appendix 1A

December 31, 2019

Folio Institutional Wrap Fee Brochure for Clients and Prospective Clients of First Affirmative Financial Network, LLC

Introduction and Overview (Item 1)

This Wrap Fee Brochure provides information about the qualifications and business practices of First Affirmative Financial Network, LLC (First Affirmative). Capitalized terms not defined in this Wrap Fee Brochure are defined in First Affirmative's Form ADV Part 2A (Disclosure Brochure).

First Affirmative, a wholly-owned subsidiary of Folio Financial, Inc., (Folio Parent), is an investment advisor registered (RIA) with the U.S. Securities and Exchange Commission (SEC) with its principal place of business at 5475 Mark Dabbling Boulevard, Suite 108, Colorado Springs, CO 80918. It should be noted that, while First Affirmative is registered with the SEC, such registration does not imply a certain level of skill or training.

First Affirmative is an affiliate of one of its custodians – Folio Investments, Inc. (Folio Investments), which provides custodial and other services through various divisions and trade names, including Folio Institutional® and VIA Folio®. Any and all services described in this document as being provided by Folio Institutional or VIA Folio are provided by Folio Investments.

This Wrap Fee Brochure is required to be delivered to any prospective client of the First Affirmative sponsored wrap fee program involving Folio Institutional prior to entering into an investment advisory relationship with First Affirmative that includes participation in the wrap program with Folio Institutional (Folio Institutional Wrap Fee Program). First Affirmative also sponsors a wrap fee program involving Orion Portfolio Solutions, (Orion), formerly FTJ FundChoice LLC (FTJ) Orion Wrap Fee Program). A separate Wrap Fee Brochure is available for clients whose investment advisory relationship with First Affirmative includes participation in the Orion Wrap Fee Program. An electronic copy is available on a publicly accessible area on the First Affirmative website at www.firstaffirmative.com.

Additional information about First Affirmative is available on the SEC's website at www.adviserinfo.sec.gov. You can search the SEC's website for information about an RIA by using the RIA's unique identifying number known as a "CRD number." First Affirmative's CRD number is 109036. You can also access an electronic copy of this document in a publicly accessible area on the First Affirmative website at www.firstaffirmative.com.

If you have any questions about the contents of this Wrap Fee Brochure, please contact First Affirmative's Chief Compliance Officer, Kathy Lewis, at 703-245-5830 or kathylewis@firstaffirmative.com. While submitted to the SEC, the information in this Wrap Fee Brochure has not been approved or verified by the SEC or by any state securities authority.

Material Changes (Item 2)

Consistent with SEC rules, First Affirmative updates this Wrap Fee Brochure at least annually, within 90 days of the close of its fiscal year, which is December 31. If there are material changes from the prior annual update of this Wrap Fee Brochure (and you received a prior version of this Wrap Fee Brochure), such changes will be set forth in the "Summary of Material Changes" accompanying this Wrap Fee Brochure.

Services, Fees, and Compensation (Item 4)

|| Description of the Folio Institutional Wrap Fee Program

The Folio Institutional Wrap Fee Program applies to investment advisory services offered by First Affirmative, through its Network Advisors or Solicitors (as defined in the Disclosure Brochure), consistent with its Sustainable Investment Solutions advisory offering (as described in the Disclosure Brochure). First Affirmative serves as a Multi-Manager Account Manager (MLT), a Managed Mutual Fund (MMF) Account Manager, and a Portfolio Manager for Custom Sustainable Investment Solution (CSIS) accounts. As a MLT Account Manager, First Affirmative may use proprietary investment model portfolios constructed and managed by First Affirmative (Proprietary Models) as well as models selected by First Affirmative that are constructed and managed by third party unaffiliated investment advisors (Third Party Models). As a MMF Account Manager with respect to accounts custodied at Folio Institutional, First Affirmative only recommends Proprietary Models to clients. As Portfolio Manager for CSIS accounts, First Affirmative offers only custom-designed Proprietary Models to clients. In addition, First Affirmative offers access to illiquid alternative investments available through Folio Institutional VIA Folio platform on a non-discretionary basis.

|| Wrap Fee for the Folio Institutional Wrap Fee Program

The Folio Institutional Wrap Fee Program fee (Wrap Fee) includes all costs for investment management, trade execution, and custody and clearing, unless specifically noted as a separate charge below. Fees on assets included

in the Wrap Fee Program are charged as a percentage of assets under management, annualized, in arrears, using the average daily balance calculation method. Fees are charged on a quarterly basis according to the schedule below, unless negotiated with their Network Advisor or Solicitor.

Tier	Dollar Value of Assets under Management	MMF Accounts using Institutional Class Mutual Fund Shares	MLT Accounts	CSIS Accounts
On the first	\$100,000	1.55%	1.80%	1.15%
On the next	\$100,000	1.50%	1.80%	1.15%
On the next	\$300,000	1.45%	1.67%	1.15%
On the next	\$500,000	1.30%	1.47%	0.94%
On the next	\$1,000,000	1.20%	1.32%	0.92%
On the next	\$1,000,000	1.00%	1.22%	0.87%
On the next	\$2,000,000	0.95%	1.12%	0.87%
On the next	\$5,000,000	0.80%	0.80%	0.70%
On the next	\$2,820,000	0.70%	0.75%	0.65%
On the next	\$7,180,000	0.70%	0.75%	0.60%
Above	\$20,000,000	Negotiated	Negotiated	Negotiated

Third Party Model Managers (also referred to as portfolio managers) utilized by First Affirmative when advising a Multi-Manager Account are paid a portion of the maximum fee shown above. Fees vary between managers and range from 25 bps (0.25%) to 40 bps (0.40%). Proprietary Models also are available to Network Advisors for purposes of providing discretionary investment advice to clients on the Folio Institutional platform. When a Proprietary Model is used by a Network Advisor, a client is not charged a separate basis point fee – the Wrap Fee includes the cost of all Proprietary Models.

New accounts are subject to the following minimums:

Managed Mutual Fund Accounts: \$50,000

Multi-Manager Accounts: \$50,000

CSIS Accounts: \$50,000

These minimums are negotiable and are dependent on a variety of factors, including but not limited to other accounts in a client household (adults who all live at the same address who have investment accounts with First Affirmative). Exceptions may be available on a case-by-case basis.

The Wrap Fee may be more or less than the aggregate fee for services if they were offered separately. Some factors that may contribute to the relative cost differential include, but are not limited to, the brokerage and clearing costs, commissions based on trading frequency or commissions based on type of security (e.g., mutual fund or ETF versus single stock) and the mutual fund share classes that may be available.

|| Mutual Fund Expenses

Mutual funds have internal expenses, such as portfolio management, legal and accounting, printing, marketing, trading costs and other administrative expenses, including fees paid to custodians. Fund expenses are more fully disclosed in each mutual fund prospectus. They are accounted for and charged internally by the mutual funds and monies collected or retained are not shared with First Affirmative, any affiliate of First Affirmative or any Network Advisor or Solicitor. In certain circumstances Folio Institutional receives 12b-1 payments, see below.

Any mutual fund sale within a defined period of time per the mutual fund prospectus after the initial purchase will trigger a contingent deferred sales charge by the mutual fund company on the transaction. These charges vary among the mutual funds that are held in a client account.

Mutual Fund Company Payments to Folio Institutional.

Rule 12b-1 fees are defined as annual marketing or distribution fees on mutual funds. These expenses are included in the funds expense ratio and are in some cases shared with custodians. Except as described below, First Affirmative does not place trades in mutual funds that pay compensation to Folio Institutional. First Affirmative monitors client accounts transferred to First Affirmative to identify any positions in mutual funds that pay 12b-1 fees and will sell the positions or, if available, exchange the positions into a class of mutual fund shares that do not pay 12b-1 fees. The sales or exchanges will take into consideration the tax implications when the mutual funds are held in taxable accounts. If Folio Institutional does receive 12b-1 payments for these positions prior to being sold or exchanged, none of the fees are shared with First Affirmative.

Folio Institutional may receive compensation from mutual fund companies for shares custodied with Folio Institutional that are not managed by First Affirmative. Such compensation is not shared with First Affirmative. Mutual funds that compensate custodians may be more expensive for clients than other funds as a result of the compensation paid.

|| Additional Folio Institutional Fees

|| Transaction-Based Pricing

Non-retirement accounts will be, charged on a per transaction basis when the security to be bought or sold is ineligible for trading in Folio Investment's patented window trade process. In such circumstances, your order will be routed and executed as a direct trade and charged the following fees.

Telephone	\$45.00 per trade
Internet	\$3.95 per trade

Folio Institutional also will charge the account transaction fees based on the above schedule if securities are transferred into a non-retirement account and need to be sold to implement a client's new investment strategy.

Fees Upon Termination of Services

Folio Institutional may charge a termination or transfer-out fee, which may change from time to time. This fee is determined by Folio Institutional and the monies received are not shared with First Affirmative.

|| Mutual Fund Transaction Commissions Charged to Clients

Some mutual funds that are included in client investment portfolios offer different types of shares, known as "share classes." Each share class has different shareholder services and/or distribution arrangements with different fees and expenses and, therefore, different performance results. For example, class A shares, also called "retail shares", usually have a front-end load or charge (commission) which is paid to the custodial BD when the mutual fund is purchased. Institutional class shares, in contrast, generally are available only to institutional investors and may have very different fees and expenses from class A shares, but generally do not require front-end commissions. See the SEC website, the Financial Industry Regulatory Authority website or the relevant mutual fund share prospectus for additional information regarding share classes.

First Affirmative generally uses only institutional class shares with no front-end loads in the Managed Mutual Fund Accounts custodied with Folio Institutional and, to the extent it does use a mutual fund

that typically has a front-end load, First Affirmative will do so only if the front-end load is waived. There is no transaction fee charged to clients for purchasing mutual fund shares at Folio Institutional.

|| Incidental Fees

In addition to the fees above, clients are still responsible for any special fees incurred at the client's request, such as wire transfer fees, or account maintenance fees, which are charged and disclosed by Folio Institutional. Such fees are subject to change and can be found at:

https://folioclient.com/content/gui/popup_serviceFees.jsp.

Margin

If you choose to trade using margin, your account will be assessed the margin interest charges in accordance with the margin interest rates in effect at the time of your margin loan and as disclosed on the Folio Institutional website.

|| Costs for Third Party Services

Folio Institutional passes through the costs from third parties, including, but not limited to, the following:

Services provided by broker-dealers other than Folio Institutional;
SEC and securities exchange fees;
Transfer taxes;
Fees for odd lot differentials;
Mutual fund short-term redemption fees; and
Other similar costs and charges.

|| Compensation to Network Advisors and Solicitors relating to Client Participation in the Folio Institutional Wrap Fee Program

Network Advisors and Solicitors are compensated from the Wrap Fee. The amount of this compensation may be more or less than the compensation the Network Advisor or Solicitors may receive if not recommending, or introducing the client to, the Folio Institutional Wrap Fee Program. This may create a conflict of interest in that the Network Advisor or Solicitor may have a financial incentive to recommend the Folio Institutional Wrap Fee Program over other programs and services.

Account Requirements and Types of Clients (Item 5)

First Affirmative does not accept clients that are under any restriction as it relates to the USA Patriot Act or Bank Secrecy Act or comparable legislation.

The minimums for wrap fee accounts at Folio Institutional are:

Managed Mutual Fund Accounts:	\$50,000
Multi-Manager Accounts:	\$50,000
CSIS Accounts:	\$50,000

Minimum account size is negotiable, dependent on a variety of factors, including but not limited to other accounts in a client household. Exceptions may be available on a limited case-by-case basis. Minimum account requirements may vary between clients depending on the minimums applied at the time of the account opening.

The following types of clients may participate in the Folio Institutional Wrap Fee Program:

Individuals (to include high net worth individuals)

Pension and profit sharing plan trustees

Trusts, estates, and charitable organizations

Nonprofit organizations and other non-governmental organizations

Corporations or other businesses not listed above

Portfolio Manager Selection and Evaluation (Item 6)

|| Selection of Models

Network Advisors provide investment advisory services in the Folio Institutional Wrap Fee Program consistent with First Affirmative's Sustainable Investment Solutions advisory offering (as described in the Disclosure Brochure). They may use Proprietary Models as well as Third Party Models when advising clients in the Multi-Manager Account program, or solely Proprietary Models when advising clients in the Managed Mutual Fund Account program or in the CSIS portfolios. First Affirmative provides investment advice with the philosophies of sustainable, responsible, impact (SRI) investing. All investment models are constructed by integrating particular values and/or environmental, social and governance (ESG) factors in order to reflect a client's values and preferences as well as aligning with the client's investment goals and risk profile as established in the Investment Policy Statement (IPS) by the client and the Network Advisor.

In considering all of the models available on the Folio Institutional platform (Proprietary Models and Third Party Models), the Investment Committee begins by reviewing the models available on the platform through discussions with the Third Party Model Managers regarding their strategies and business model as well as reviewing written materials generally required as part of due diligence. The Investment Committee then reviews the risk and return ratios on each model on the Folio Institutional platform as well as the performance to determine which models are likely to continue to meet client needs. Generally, models with ongoing reported substandard performance are eliminated, but additional factors also may be considered when determining whether to keep or eliminate a model. For example, the Investment Committee also may consider issues raised during conversations with a model or mutual fund manager, information about the model or mutual fund manager that comes to light, management changes or change of investment philosophy. Ultimately, the decision to make a change is based on a number of factors, including a change in the client's circumstances, investment philosophy, risk tolerance or market concerns. The Investment Committee reviews the performance of Third Party Model Managers and Proprietary Models through Advent/AXYS, portfolio management software and through the Folio Institutional website tools. Performance is calculated using industry standards built into the portfolio management software. First Affirmative does not review, nor engage a third party to review performance information relating to models. Accordingly, the performance information with respect to any models used may not be calculated on a uniform and consistent basis.

|| Use of Proprietary Models

As noted above, First Affirmative makes available Proprietary Models on the Folio Institutional Platform that may be used by Network Advisors in the process of providing investment advisory services in the Folio Institutional Wrap Fee Program. First Affirmative retains the portion of the revenues which is allocated for compensation to model managers. First Affirmative's models are reviewed in the same manner as outside models and are included only if the model is suitable for the client portfolio. In some cases, the First Affirmative models are the only models available for a particular asset class or, in the case of fossil fuel free models, First Affirmative's models are the only ones in our investment universe with a three year track record. At this time, more than one half of First Affirmative's models are fossil fuel free. In all cases where a client's asset allocation calls for a fixed income component the First Affirmative SRI Fixed Income folio is used. There are no fixed income folios available to First Affirmative except this proprietary folio except models managed by our direct competitors.

One IAR is a member of First Affirmative senior management and the Investment Committee. In his role, he provides investment advisory services to individual clients, while also working on developing Proprietary Models. Proprietary Models developed by this IAR are subject to the same selection and review process as other Third Party Models and other Proprietary Models. Further, he does not receive compensation relating to his development of Proprietary Models.

|| First Affirmative's Advisory Business

First Affirmative provides investment advice consistent with the philosophies of environmental, social and governance (ESG) investing. Clients who choose to invest with First Affirmative make a conscious choice to put their money to work for a dual purpose—to provide for a secure retirement, for example, while working for a better, more socially just and environmentally sustainable future for all.

Through Network Advisors (as defined in the Disclosure Brochure) First Affirmative provides discretionary investment advisory services to investors, tailored to the individual needs of the client, that integrate environmental, social and governance (ESG) criteria into the investment analysis process. First Affirmative can create portfolios, using mutual funds, and/or individual securities such as stocks, bonds, exchange traded funds (ETFs), exchange traded notes (ETNs), real estate investment trusts (REITs), American depository receipts (ADRs), government agency or Treasury securities, corporate or municipal bonds, certificates of deposit (CODs), commercial paper or other securities. First Affirmative does not offer discretionary investment advisory services concerning direct ownership of commodities, futures, derivatives, or short selling.

|| Discretionary Investment Advisory Services – Sustainable Investment Solutions in Practice

Discretionary Investment Advice

Through its Network Advisors, First Affirmative creates unique relationships with clients by combining discretionary investment advisory services and advanced financial technologies with responsible investment strategies that consider ESG factors. Generally, First Affirmative's innovative approach combines:

Fiduciary Responsibility. In First Affirmative's relationship with clients where First Affirmative is providing discretionary investment advice, First Affirmative acknowledges that it serves and acts in a fiduciary capacity.

Individualized Advice. One size does not fit all. First Affirmative offers a variety of fee-based investment options, each designed to best meet the needs of individual clients and/or specific types of clients. The client has the opportunity to place reasonable restrictions on the types of investments to be held in the client account.

Objectivity. Network Advisors provide their clients with objective advice. Fees for account management are generally based on assets under management and, as a result, the client's interests, the interests of the Network Advisor and the interests of First Affirmative are closely aligned.

Wrap Fee Program Participation

First Affirmative participates in a wrap fee program – sponsored by Geneos Wealth Management, Inc., (Geneos/Axiom) by making its Proprietary Models available on the platform. The Proprietary Models on the Geneos/Axiom platform are required to meet certain criteria set by Geneos/Axiom and any models listed are subject to ongoing reviews. First Affirmative constructs such models with the same investment philosophy and process as it uses in other Proprietary Models. However, the included securities are restricted to securities that are approved by Geneos/Axiom and are consistent with Geneos/Axiom's asset allocation strategies and model construction guidelines. First Affirmative exercises no discretion with respect to clients subscribed to the model portfolios, but may receive an asset-based fee when a model constructed by First Affirmative is used by Geneos/Axiom or a representative of Geneos/Axiom in making a recommendation to a client.

|| Retirement Plan Consulting Services

First Affirmative offers the services listed below to individuals and charitable organizations who need assistance with pension, profit sharing and 401(k) plans. The services are comprised of the following non-discretionary consulting services:

Identification of investment vehicles for the plan trustees; and

Provisions of educational support and investment workshops to self-directed 401(k) plans participants.

First Affirmative does not provide investment advisory services to participants in retirement plans where it provides services to the plan.

First Affirmative IARs are authorized to recommend the services of QBox Financial Solutions (QBox), but they do not assist plan sponsors in choosing to use QBox or any other services provider. QBox is an SEC registered investment adviser that plan sponsors can use to assist them in the creation and administration of a plan (ERISA 3(21) fiduciary) and/or providing discretionary investment management services (ERISA 3(38) fiduciary). When recommending QBox, neither First Affirmative nor its IARs are acting as a fiduciary to any ERISA plan.

First Affirmative is compensated for its retirement plan consulting services either based on an hourly rate as negotiated between First Affirmative and the plan sponsor or a fee charged based upon assets under advisement by the asset custodian.

Performance-Based Fees

First Affirmative does not charge performance-based fees.

Methods of Analysis, Investment Strategies, Risk of Loss

Investment Philosophy

First Affirmative follows an established investment management process consistent with standards of fiduciary care and with a long-term orientation.

First Affirmative's experience suggests that the financial planning and investment needs of most socially conscious investors can be met while providing competitive investment returns without a material increase in risk. For most clients, First Affirmative believes that a long-term, diversified approach is the most appropriate investment strategy. First Affirmative supports strategic asset allocation as well as more active portfolio management strategies. First Affirmative does not offer recommendations concerning direct ownership of commodities, futures, derivatives, or short selling, but does offer tactical investment strategies appropriate for some investors. First Affirmative may use the following types of investment vehicles in service of achieving client goals and objectives.

American depository receipts (ADRs)

Certificates of deposit

Commercial paper

Corporate bonds

Exchange traded funds (ETFs)

Exchange traded notes (ETNs)

Government agency securities

Individual stocks

Municipal bonds

Mutual funds

Options on equities

OTC securities

Other exchange traded securities

Private placements

Real estate investment trusts (REITs)

Warrants

|| Methods of Analysis

First Affirmative may use the following forms of analysis in formulating investment advice and/or managing client assets:

Asset Allocation. Rather than focusing primarily on securities selection, First Affirmative attempts to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance. A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector is not included in their allocation. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Charting. In this type of technical analysis, charts of market and security activity are reviewed in an attempt to identify when the market is moving up or down, to predict how long the trend may last, and when that trend might reverse. While this is a common method of analysis, there is always the risk that past performance is not representative of future results or that the assumptions made prove to be incorrect.

Cyclical Analysis. In this type of technical analysis, the movements of a particular stock against the overall market are analyzed in an attempt to predict the price movement of the security. There always is the risk that past performance is not representative of future results or that the assumptions made prove to be incorrect.

ESG Integration. A sustainable and responsible approach to investing includes both quantitative and qualitative analysis. Management of environment, social, and governance issues and impacts can have a material influence (either positive or negative) on company profitability, value, and share price. Risk is inherent in the fact that a poorly-managed or financially unsound company or product may cause the investment to underperform regardless of its mission.

Fundamental Analysis. The intrinsic value of a security is analyzed by reviewing economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (suggesting it may be a good time to buy) or overpriced (suggesting it may be a good time to sell). Fundamental analysis does not attempt to anticipate market movements or changes in value. There is risk in the fact that the price of a security can move up or down along with the overall market, regardless of the economic and financial factors considered in evaluating the stock.

Mutual Fund and/or ETF Due Diligence. First Affirmative looks at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. First Affirmative also looks at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund or funds in the client's portfolio. First Affirmative also monitors the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful one year may not be successful in the future. In addition, as First Affirmative does not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Qualitative Analysis. This type of analysis describes the process of evaluating difficult to quantify factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data. A risk in using qualitative analysis is that our subjective judgment may prove to be incorrect.

Quantitative Analysis. Mathematical modeling is used in an attempt to obtain more accurate measurements of a company's quantifiable data, such as the value of a share price or earnings per share, and predict changes to that data. A risk in using quantitative analysis is that the models used may be based on assumptions that prove to be incorrect.

Risks for all Forms of Analysis and Due Diligence. First Affirmative's securities analysis methods rely on the assumption that the companies whose securities First Affirmative purchases and sells, the rating agencies that review these securities, and other publicly- available sources of information about these securities, are providing accurate and unbiased data. While First Affirmative is alert to indications that data may be incorrect, there is always a risk that analysis may be compromised by inaccurate or misleading information.

Technical Analysis. Historical market movements are analyzed and that analysis is applied to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement. Technical analysis does not consider the underlying financial condition of a company. Risk is inherent in the fact that a poorly-managed or financially unsound company may underperform regardless of market movement.

Third Party Model Manager and/or Sub-Advisor Due Diligence. First Affirmative examines the experience, expertise, investment philosophies, and past performance of independent Third Party Model Managers and/or Sub-Advisors in an attempt to determine if there has been demonstrated ability to invest over a period of time and in different economic conditions. First Affirmative monitors the Third Party Model Manager's model holdings, strategies, concentrations and leverage as part of its overall periodic risk assessment. Additionally, as part of First Affirmative's due-diligence process, it surveys a Third Party Model Manager's or Sub-Advisor's compliance and business enterprise risks.

A risk of investing using Third Party Model Manager and/or Sub-Advisors who have been successful in the past is that they may not be able to replicate that success in the future. In addition, as First Affirmative does not control the underlying investments in a Third Party Model Manager's portfolio, there is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for clients. Moreover, as First Affirmative does not control the manager's daily business and compliance operations, First Affirmative may be unaware of the lack of internal controls necessary to prevent business, regulatory, or reputational deficiencies.

Risks for all Forms of Analysis and Due Diligence. First Affirmative's securities analysis methods rely on the assumption that the companies whose securities First Affirmative purchases and sells, the rating agencies that review these securities, and other publicly- available sources of information about these securities, are providing accurate and unbiased data. While First Affirmative is alert to indications that data may be incorrect, there is always a risk that analysis may be compromised by inaccurate or misleading information.

|| Investment Strategies

First Affirmative may use the following strategies in managing client accounts, provided that such strategies are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-Term Purchases. First Affirmative may purchase securities with the intention of holding them in the client's account for a year or longer. Typically this strategy is employed when:

First Affirmative believes the securities to be currently undervalued, and/or

First Affirmative wants exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, First Affirmative may not take advantage of short-term gains that could be profitable to a client. Moreover, if First Affirmative's predictions are incorrect, a security may decline sharply in value before the decision is made to sell.

Short-Term Purchases. When utilizing this strategy, First Affirmative may purchase securities with the idea of selling them within a relatively short time (typically a year or less). First Affirmative does this in an attempt to take advantage of conditions that it believes will soon result in a price swing in the securities purchased.

A short-term purchase strategy poses risks should the anticipated price swing not materialize; First Affirmative is then left with the option of having a long-term investment in a security that was designed to be a short-term purchase, or potentially taking a loss. In addition, this strategy involves more frequent trading than does a longer-term strategy; and may result in increased brokerage and other transaction-related costs, as well as less favorable tax treatment of short-term capital gains.

Illiquid Securities. First Affirmative may, from time to time, assist clients with analyzing investments in securities in the areas of unlisted and/or unregistered debt or equity (commonly referred to as "private placements"), which have no current or anticipated liquidity. First Affirmative will provide investment advice only on such securities that have passed through and been approved by its due diligence and investment approval processes. When analyzing investments in securities of this type First Affirmative will use the following analysis: fundamental, qualitative, quantitative and risk.

VIA Folio was developed to allow clients to invest in multiple small to medium-sized private securities. This opportunity potentially diversifies your portfolio while helping companies grow, create new jobs and benefit the economy. VIA Folio also acts as a vehicle to trade these securities if they become tradeable. Depending on the offering these investments are available to accredited and non-accredited clients in taxable and non-taxable accounts. See www.viafolio.com for more information or ask your financial advisor for assistance.

All offerings on the VIA Folio platform are non-discretionary. First Affirmative and its Network of Advisors cannot place trades without the client's express written permission. IARs and network advisors working through their own independent RIA firms with clients that are interested in "impact investing" are authorized to present approved offerings to their clients. Network advisors that are associated with a third-party broker-dealer or third-party registered investment advisor cannot offer these securities through First Affirmative unless their BD or RIA has approved the offering and updated their selling or solicitor agreement with First Affirmative to include the use of VIA Folio.

|| Risk of Loss

Investing involves risk, including loss of principal. Each client of First Affirmative must be prepared to bear the risk of loss with respect to each account established.

|| Proxy Voting

Owners of company stock and mutual fund shares have a right to be heard on matters put before shareholders for a vote. Shareholder voting is the primary means by which shareholders can influence a company or mutual fund's operations, its corporate governance, and other activities that may fall outside of financial considerations.

You have provided First Affirmative discretion in managing your accounts, we will vote your proxies consistent with your objectives and our Proxy Voting Guidelines, except in the circumstances described below or if you instruct us that you do not wish for First Affirmative to vote your proxies.

You are provided a copy of First Affirmative's Proxy Voting Guidelines at the time you open your account with us and annually thereafter. These guidelines also are available on our website at all times and upon request as

described below. We believe one of the reasons you have chosen First Affirmative to provide you advisory services is our commitment to socially responsible investing, which includes voting proxies consistent with this philosophy, as it is reflected in our Proxy Voting Guidelines. Therefore, you must notify us in writing and instruct us how you would like us to vote your proxies, if you do not want them voted as described in the Proxy Voting Guidelines. To assist with proxy voting, First Affirmative has an arrangement with an independent governance analysis and proxy voting firm to provide research to First Affirmative and to vote proxies based on First Affirmative's Proxy Voting Guidelines. The independent third-party firm will vote all holdings in which First Affirmative clients have a material interest, defined as more than 250 shares held collectively by all clients of record at Folio Institutional, and all shares held at Schwab. First Affirmative does not vote proxies at any other custodians. As described above, voting of client proxies is based upon social responsibility concerns, as well as financial considerations, as reflected in the Proxy Voting Guidelines which are updated at least annually. The independent third-party proxy voting service discloses to First Affirmative, at least annually, potential conflicts of interest between their research/proxy voting services and their corporate governance consulting services and their procedures for limiting such conflicts.

Clients should be aware that they are under no obligation to assign proxy voting duties to First Affirmative. Clients may choose from proxy voting options that are offered by their custodian. For accounts held at Folio Institutional, a client has the right at any time, even if proxy voting has been delegated to First Affirmative, to vote any individual proxy themselves and override any vote that may be cast by the proxy voting service hired by First Affirmative. This is not possible at Schwab. In that case the client must withdraw the authorization for First Affirmative to vote proxies in order to avoid voting in accordance with the First Affirmative guidelines.

Clients may obtain a copy of First Affirmative's Proxy Voting Guidelines by visiting the First Affirmative website (www.firstaffirmative.com), sending an email to proxyvoting@firstaffirmative.com, or by sending a request in writing to the address listed on the cover page of this document. Clients may request information on how proxies for his/her shares were voted and First Affirmative will promptly provide such information to the client.

With respect to ERISA accounts, First Affirmative will vote proxies if granted that authority unless the plan documents specifically reserve the plan sponsor's right to vote proxies. To direct First Affirmative to vote a proxy in a particular manner, clients should send an email to proxyvoting@firstaffirmative.com.

First Affirmative does not vote proxies for the following types of accounts:

Accounts held in custody by Schwab that have not granted First Affirmative authority to vote proxies;

ERISA accounts that specifically require the plan sponsor to vote the proxies;

Accounts that participate in the ORION Wrap Fee Program; and

Accounts in which there are less than 250 shares held collectively by all clients of record at Folio Institutional.

In situations where First Affirmative does not vote proxies, proxy documents are delivered via U.S. Mail for Schwab accounts, and are accessible by logging into the Folio Institutional website for advised clients, www.folioclient.com. Clients may choose from proxy voting options that are offered by TD Ameritrade.

Upon request, First Affirmative and its IARs may provide information about proxy issues to clients who have chosen to vote their own proxies.

Clients can instruct First Affirmative to vote proxies according to particular criteria (for example, to always vote with management, or to vote for or against a proposal to allow a so-called "poison pill" defense against a possible takeover). These requests must be made in writing. Clients can also instruct First Affirmative on how to cast their vote in a particular proxy contest by sending an email to proxyvoting@firstaffirmative.com.

There is a remote possibility that First Affirmative employees or IARs have a relationship with a public corporation which may put their interests at odds with those of clients in the Proxy Voting process. These personnel are required to disclose to the Chief Compliance Officer any such relationships and are required to recuse themselves from participated in votes related to such companies.

Client Information Provided to Portfolio Managers (Item 7)

Third Party Model Managers are investment managers who provide no individualized investment advice to a client, do not place or execute transactions on behalf of a client and merely license proprietary information about the composition of a hypothetical portfolio to other investment advisors. Accordingly, as a general matter, Third Party Model Managers on the Folio Institutional platform receive no client information.

It should be noted, however, that, when a Network Advisor uses a Proprietary Model on the Folio Institutional platform, First Affirmative is both the investment manager of the model (or portfolio manager) as well as the

investment advisor to the client. In its capacity as an investment advisor, First Affirmative provides individualized investment advice and has client information.

Client Contact with Portfolio Managers (Item 8)

A Third Party Model Manager generally has no contact of any type with a client, does not accept investor funds or pool those funds with other investors and does not offer its model portfolio services to anyone other than other investment advisors. Except as noted below, clients do not have access to Third Party Model Managers.

Again, it should be noted, however, that, when a Network Advisor uses a Proprietary Model on the Folio Institutional platform, First Affirmative is both the investment manager of the model (or portfolio manager) as well as the investment advisor to the client. As an investment advisor to the client, First Affirmative (through the Network Advisor) has regular contact with the client.

Additional Information (Item 9)

|| Disciplinary Information

First Affirmative is required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of its advisory business or the integrity of its management. First Affirmative, its management personnel and Investment Adviser Representatives have no disciplinary events to disclose.

|| Other Financial Industry Activities and Affiliations

|| Corporate Affiliates of First Affirmative

Folio Parent. First Affirmative is a wholly-owned subsidiary of Folio Parent and under common control with Folio Institutional, Inc. (Folio Investments), Folio Research, LLC (Folio Research), and SRI Conference & Community, LLC (SRI Conference LLC). Folio Institutional, Folio Research and SRI Conference LLC are also wholly-owned subsidiaries of Folio Parent. Folio Research had not conducted business in several years and was dissolved in January 2020. Folio Institutional provides custodial and other services to First Affirmative through its different divisions, using various trade names, including Folio Institutional and VIA Folio. Any and all services described in this document as being provided by Folio Institutional or VIA Folio are provided by Folio Institutional.

Folio Parent provides investment technology to its affiliates and unaffiliated third parties and other services to the financial services industry. Accordingly, Folio Parent and its employees may provide the same or similar products or services to third parties that provide advisory services that are the same or similar to those provided by First Affirmative. Folio Parent also provides support services to all of its subsidiaries, including shared employees and legal, human resource, and technology support. To address any conflicts that may arise as a result of its relationship with Folio Parent and its affiliates, Folio Parent and its subsidiaries including First Affirmative, have in place a strict "need to know" policy, which limits the sharing of proprietary and confidential information to only persons who have a need for the information for the purpose of supporting First

Affirmative's business activities or providing services to First Affirmative's clients, consistent with First Affirmative's fiduciary obligations.

Folio Investments. As noted above in Item 4, Folio Institutional is the custodian of some First Affirmative client assets and participates in a wrap fee program sponsored by First Affirmative. For additional information about Folio Institutional and the wrap fee program sponsored by First Affirmative, please see the Disclosure Brochure.

Folio Investments engages in limited trading for its own account for, among other things, the purpose of testing the performance of various securities portfolios, demonstrating its technology platform to potential clients and business partners, correcting errors, facilitating non-First Affirmative customer trading in fractional, round lot, and odd lot shares of securities, and managing its inventory of positions acquired through these activities. For the avoidance of doubt, Folio Institutional ensures that it acts solely as agent when executing securities transactions for clients of First Affirmative by refraining from executing against any First Affirmative securities order. Due to the activities described above, Folio Investment may have a de minimis proprietary position in the same or similar securities that First Affirmative recommends to clients – generally less than 100 shares of any particular security.

When Folio Institutional routes orders for execution, it receives payment for order flow, a standard industry practice where brokerage firms receive a small per-share rebate when an order is executed or a share of the market makers' or market centers' revenue for processing customer orders. In addition, Folio Institutional may also receive compensation that is not directly related to specific per-share amounts from market centers but is based instead on the overall quantity and/or type of order flow presented to the market center. Such payment arrangements are applicable to orders received by Folio Institutional from its direct customers, unaffiliated RIA clients, and First Affirmative. Folio Institutional does not share such compensation with First Affirmative or any other party. Both Folio Institutional and First Affirmative monitor execution quality to identify orders that are not executed at prices equal to or better than the displayed applicable national best bid/offer price.

Folio Institutional provides to First Affirmative the same or similar products, services and support, such as custody and execution, that it provides to unaffiliated advisors. Except as described in Section 5 (Fees for Assets Custodied with Folio Institutional – Transaction Based Pricing), no transaction-based fees are paid to Folio Institutional by First Affirmative or its clients relating to securities transactions or custody. First Affirmative compensates Folio Institutional for securities transactions and custody of client assets through payment of asset-based fees. To mitigate and address any conflicts that may arise as a result of Folio Institutional's role as the custodian of assets for First Affirmative clients, Folio Institutional has in place a strict "need to know" policy, which limits the sharing of First Affirmative's proprietary and confidential information to only persons who have a need for the information for the purpose of supporting First Affirmative's business activities or providing services to First Affirmative's clients.

In selecting a BD as a custodian, including its affiliates, First Affirmative may take into account a range of factors it deems relevant, including, but not limited to cost of services; timing and speed of execution; responsiveness;

creditworthiness and financial stability; likelihood of, and capabilities in, execution, clearance and settlement; liquidity in or with an execution venue; and other appropriate factors. After this analysis has been performed, a recommendation is made as to the custodian for the client account. The client has sole discretion as to any First Affirmative approved custodian for a Managed Mutual Fund Account, regardless of First Affirmative's recommendation. However, certain advisory service programs offered by First Affirmative may only be available through a single custodian.

First Affirmative receives more compensation for Managed Mutual Fund Accounts at Folio Institutional than it does for the same type of accounts held at other custodians. Therefore, a conflict of interest exists with respect to First Affirmative's recommendation of one custodian over the other when recommending a Managed Mutual Fund Account. To mitigate this conflict when a Managed Mutual Fund Account is recommended to a client, First Affirmative performs a detailed analysis that focuses on the totality of services provided by each custodian and how those services relate to the specific client profile. This analysis looks at the size and type of account, the costs associated with trading in mutual funds at each custodian and the underlying mutual fund costs by share class. After this analysis has been performed, a recommendation is made as to the custodian for the client account. The client has sole discretion as to any First Affirmative approved custodian for a Managed Mutual Fund Account, regardless of First Affirmative's recommendation. Noting, however, that certain advisory service programs offered by First Affirmative may only be available through a single custodian.

The SRI Conference/SRI Conference and Community LLC. First Affirmative has produced and hosted The SRI Conference on Sustainable, Responsible, Impact Investing (formerly known as SRI in the Rockies) (The SRI Conference) since 1990. The SRI Conference is now being produced and hosted by The SRI Conference LLC, a separate entity under common ownership with First Affirmative. Participants and sponsors for The SRI Conference and regional conferences are, in many cases, persons or entities with which First Affirmative engages or uses in investment management or financial planning processes, and some of the mutual funds and Third Party Model Managers used by First Affirmative for client portfolios also sponsor the conference. To mitigate and address any potential conflicts that may arise as a result of First Affirmative and the SRI Conference Entity being under common ownership and management:

- No person who is a voting member of the First Affirmative Investment Committee, or who makes investment recommendations or places trades in client accounts will solicit sponsorship for The SRI Conference; and
- When providers of investment products and services are conference sponsors or participants, First Affirmative Investment Committee members may consider using these products or services, but conference sponsorship is not a consideration or determining factor for First Affirmative in designing client portfolios.
- No representations are made to sponsors indicating that their sponsorship will affect, positively or

negatively, amounts that First Affirmative may cause to be invested in their mutual funds or investment models.

Folio Research. Folio Research is authorized to provide advisory services to other RIA firms and BD. As of December 31, 2019, Folio Research had no clients and was not actively engaged in an advisory business. Folio Research was dissolved in January 2020.

|| Outside Business Activities of Management Personnel and IARs

First Affirmative has one IAR, Scott Buttfeld, who operates a separate, unaffiliated RIA, registered in New Jersey that solely provides financial planning services. First Affirmative also provides financial planning services. Accordingly, a conflict of interest may exist with respect to the IAR's outside business activities and the operations of First Affirmative, because the IAR could receive fees for financial planning services through both the unaffiliated RIA and through First Affirmative. In addition, it could provide incentive to the IAR to recommend financial planning services through one firm or the other, based on compensation received, rather than on the client's needs. First Affirmative mitigates this conflict by ensuring that the fees charged for financial planning at both firms are comparable so there is minimal financial incentive to use one firm over the other. In addition, First Affirmative has compliance and supervisory procedures in place to ensure that financial planning fees are not charged by both firms. Neither First Affirmative nor the unaffiliated RIA receives referral compensation from the other firm for recommending that financial planning services be obtained from the other firm. Further, neither First Affirmative nor the unaffiliated RIA has access to records of clients of the other unless the client is a joint client of both firms. The client is not obligated to implement the advice or utilize the services provided by First Affirmative or the unaffiliated RIA.

Several First Affirmative IARs are licensed as insurance agents or as tax preparers. First Affirmative does not supervise these outside business activities, nor does it share in any of the revenues from these activities.

|| Selling Agreement, Solicitors Agreement, and Custodial Relationships with First Affirmative

There are no referral arrangements between First Affirmative and any RIA firm wherein an individual is a member, officer or employee of First Affirmative and is also a member, officer or employee of another firm. This includes any other RIA disclosed as required in Section 7.A. on Schedule D of Form ADV, Part I. (Part I of First Affirmative's Form ADV is available on the SEC's website at www.adviserinfo.sec.gov where you can search by using CRD number 109036). No First Affirmative client is obligated to use the advisory services of any other RIA, as no other RIA advisory client is obligated to use First Affirmative's advisory services.

|| Managing Other Potential Conflicts

Insider Trading

First Affirmative and/or individuals associated with the firm may buy or sell for their personal accounts securities identical to or different from those recommended to its clients. In addition, any related person(s) may have an

interest or position in a certain security or securities which may also be recommended to a client. First Affirmative has established written policies and procedures for insider trading that prohibit any member, officer or employee of the firm, from buying, selling or recommending securities where the decision is substantially derived, in whole or in part, from non-public information, information about other First Affirmative clients or made based on the potential personal gain of the member, officer or employee.

Compensation Conflicts

Fees Paid to Network Advisors and Solicitors by First Affirmative relating to Discretionary Investment

Management. A portion of the fees for investment advisory services are shared with Network Advisors or Solicitors to compensate them for their services.

If the Network Advisor is an IAR, First Affirmative compensates the IAR directly, with the exception of any compensation he or she may earn on the provision of tax preparation services and life insurance sales.

If the Network Advisor is associated with a third party BD or a third party RIA firm with a selling or solicitor's agreement with First Affirmative, First Affirmative collects the applicable fee from the client assets and the Network Advisor or Solicitor share of the fee is paid to the BD or RIA firm, which in turn pays a substantial portion of the fee to the Network Advisor. The BD or RIA firm typically retains a small portion of the Network Advisor or Solicitor share to compensate itself for administration and other overhead.

Other Compensation Paid to IARs. In addition to receiving a portion of the fee for discretionary investment advice, IARs receive a portion of any fees charged for financial planning, hourly consultation or other services provided under nondiscretionary investment advisory agreements.

Other Compensation Earned by Third Party BD and RIA Network Advisors. Third party firms may compensate their advisors for providing other products or services to clients, Neither First Affirmative nor any Network Advisor receives any transactions-related or variable compensation for the sale of securities or other investment products, including asset-based sales charges or service fees from the sale of mutual funds relating to any product or service offered by or on behalf of First Affirmative.

First Affirmative takes the following steps to address compensation conflicts:

- Discloses to clients that they are not obligated to purchase recommended investment products from its employees or affiliated companies;
- Collects, maintains and documents accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- The firm's management conducts regular reviews of client accounts to verify that all recommendations made to a client are suitable to the client's needs and circumstances;

- Requires that employees seek prior approval of any outside employment activity so that First Affirmative may ensure that any conflicts of interests in such activities are properly addressed;
- Periodically monitors these outside employment activities to verify that any conflicts of interest continue to be properly addressed;
- Educates employees regarding the responsibilities of a fiduciary, including the need to have a reasonable and independent basis for investment advice provided to clients; and
- Requires all IARs to acquire and maintain the Accredited Investment Fiduciary (AIF), or comparable professional designation to provide initial and ongoing training in the duties of investment fiduciaries.

Other Compensation for use of proprietary models. First Affirmative may recommend multi-manager models that are proprietary. First Affirmative retains the portion of the revenues which is allocated for compensation to model managers. First Affirmative's models are reviewed in the same manner as outside models and are included only if the model is suitable for the client portfolio. In some cases the First Affirmative models are the only models available for a particular asset class or, in the case of fossil-fuel free models, First Affirmative's models are the only ones in our universe with a three year track record. At this time more than one half of First Affirmative's models are fossil-fuel free. In all cases where a client's asset allocation calls for a fixed income component, the First Affirmative SRI Fixed Income model is used. There are no other fixed income models available except models managed by our direct competitors.

Clients should be aware that conflicts of interest surrounding compensation, may impair the objectivity of First Affirmative and its members, officers, or employees when making advisory recommendations or when providing non-discretionary investment advisory services. This includes a recommendation to rollover retirement assets to an account managed by the advisor. A conflict of interest occurs if the advisor will earn a new or increase its current compensation as a result of the rollover. There also is the possibility of conflicts of interest between clients and any Network Advisor, if the service is provided for variable compensation. First Affirmative offers fee-based compensation which tends to reduce or change the possibility of conflicts of interest but cannot eliminate them entirely. While it is First Affirmative's intent to always offer advice that is in the best interest of the client, it is the client's responsibility to evaluate that advice and determine if it is appropriate before taking action. No client is obligated to accept any recommendation, including recommendations regarding rollovers, and all clients are free to implement any recommendation with the broker, planner, or advisor of their choice.

|| Review of Accounts, Participation or Interest in Client Transactions, Personal Trading

First Affirmative has adopted a code of ethics (Code) which sets forth high ethical standards of business conduct that are required of employees and IARs, including compliance with applicable federal securities laws.

First Affirmative has adopted the Code for the purpose of instructing and guiding its personnel in their ethical and fiduciary obligations to clients. The Code also provides rules and requirements regarding the personal securities

trading practices of First Affirmative's IARs and staff. First Affirmative, its personnel, and its IARs owe a duty of loyalty, fairness, and good faith toward all clients and are obligated to adhere not only to the specific provisions of the Code but to the general principles embodied in the Code. The Code is designed to ensure that the personal securities transactions, activities and interests of First Affirmative employees will not interfere with making decisions in the best interest of advisory clients and implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

The Code covers a range of topics that include the following: general ethical principles, reporting of personal securities trading, exceptions to reporting securities transactions, reportable securities, initial public offerings, and amendments to Form ADV and supervisory procedures.

A copy of the Code is available to investment advisory clients and prospective clients. You may request a copy by email sent to First Affirmative's Chief Compliance Officer, Kathy Lewis at kathylewis@firstaffirmative.com, or by calling 703-245-5830.

|| Review of Accounts

|| Reports to Clients

Clients receive monthly account statements detailing deposits, withdrawals, purchases, sales, dividends, interest, fees deducted from the account and any other activity, from the custodian of the account. Clients may also receive trade confirmations of every trade executed in their account(s), which should be saved for tax purposes.

First Affirmative or its service providers also will make available quarterly performance reports to all clients. Depending on the custodian and/or the service provider, such performance reports may be made available for an annual fee, which is not included in the discretionary investment advisory fees described in Item 4 above.

Most clients have access to their accounts via the internet, but First Affirmative also provides quarterly reports either by mail or by electronic delivery. These reports may also include a performance comparison utilizing historical data and may propose an alternative optimal portfolio designed. First Affirmative can also provide reports on the social and ethical issues associated with a portfolio of specific common stocks.

|| Client Account Reviews

Network Advisors and Solicitors. Each Network Advisor and Solicitor has the ability to view all positions and activities in his/her client account(s) via the internet, and each Network Advisor and Solicitor receives copies of all reports provided to their client(s). Network Advisors are expected to review activity in client accounts on a quarterly basis, to periodically discuss the account with the client, and to ensure the suitability of the investment services provided based on each client's specific situation.

Supervising Third Party BD or Third-Party RIA. Each third party BD and/or RIA with which First Affirmative maintains a selling or solicitor's agreement also is responsible for developing its own, independent procedures to review client accounts and supervise the activities of its representatives.

Sub-Advisors. Third Party Model Managers who are responsible for managing portions of First Affirmative client accounts are also responsible for ongoing review, supervision, and transactions in the client accounts they manage.

Company Management. First Affirmative's senior management, including members of the Investment Committee, conduct both periodic reviews and various systematic samplings of accounts to supervise and ensure compliance with investment policy.

|| Client Referrals and Other Compensation

|| Other Compensation

It is First Affirmative's policy not to accept or allow its related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services it provides to its clients.

|| Client Referrals

First Affirmative may pay referral fees to firms ("Solicitors") for introducing clients. These fees are asset-based. When the solicitor is associated with a third party BD or RIA they are paid over the life of the relationship. Whenever First Affirmative pays a referral fee, it requires the Solicitor to provide the prospective client with a copy of the Disclosure Brochure and this document, an Investment Advisory Services Agreement (IAS), and a separate disclosure statement that includes the following information:

- The Solicitor's name and relationship with First Affirmative;
- The fact that the Solicitor is being paid a referral fee;
- The amount of the fee; and
- As a matter of firm policy, a client working with a Solicitor will not be charged more than any other client.

|| Financial Information

Under no circumstances does First Affirmative require or solicit payment of fees in excess of \$500 per client more than six months in advance of services rendered. Therefore, First Affirmative is not required to include a financial statement in this disclosure document.

As an advisory firm that maintains discretionary authority for client accounts and maintains custody of client assets held by Folio Institutional, First Affirmative is also required to disclose any financial condition that is reasonably likely to impair its ability to meet its contractual obligations. First Affirmative has no additional financial circumstances to report.

First Affirmative's financial statements are audited each calendar year by a qualified, independent CPA firm.

First Affirmative has never been the subject of a bankruptcy petition.
