Item 4 – Advisory Services

A. Firm Information

American Financial Network Advisory Services, LLC (“AFN” or the “Advisor”) is a Registered Investment Advisor with the U.S. Securities and Exchange Commission (“SEC”), which is organized as a Limited Liability Company (“LLC”) under the laws of Delaware. AFN was founded in October 2012 and is a wholly-owned subsidiary of American Financial Network, LLC. American Financial Network, LLC is owned and operated by Brett S. Ellen (Founder and President). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by AFN. For questions regarding this Disclosure Brochure, please contact us at (818) 965-7034 or by email at info@afn-net.com.

B. Advisory Services Offered

AFN offers investment management, financial planning, consulting and advisory services to individuals, high net worth individuals, corporate clients and retirement plans in California and other states (each referred to as a “Client”). Additionally, AFN offers executive and employee benefit services to its corporate Clients. AFN seeks to balance risk and reward to achieve risk-adjusted returns with an emphasis on long term returns for our Clients. In addition, AFN utilizes both passive and active management, as well as a top down and bottoms up to the investment process. Clients benefit from our expertise with full access to a team of accomplished professionals and a vast array of financial products and advisory services.

Investment Management Services

AFN provides customized investment advisory solutions for its Clients. This is achieved through personal Client contact and interaction while providing discretionary investment management and related advisory services. AFN works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation to create a portfolio strategy. AFN has strict reliance on the Client’s ability to be forthcoming and transparent in providing the necessary information to make a recommendation. AFN will then implement the investment strategy using its internal investment management strategies and/or allocation to unaffiliated money managers.

Internal Investment Management - AFN will then construct a portfolio, consisting of individual equity securities, diversified mutual funds, exchange-traded funds (“ETFs”), closed-end funds, individual fixed income securities, and alternative investments to achieve the Client’s investment goals. For certain accounts, the Advisor may employ options strategies, including covered call options, married puts or collar strategies (selling call options and buying put options) as well as the use of margin. The Advisor may also utilize other types of securities as appropriate to meet the needs of its Clients.

Please note: alternative investments are subject to different fee arrangements. See Item 5 below. Additionally, Investment Management services are only available on a Wrap Fee basis as described in the appendix below.

Depending on each Client’s unique circumstances, AFN may implement a Client portfolio using one or more of AFN’s model portfolios or develop a custom investment strategy. AFN will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to the acceptance by the Advisor.

AFN evaluates and selects investments for inclusion in Client portfolios only after applying their internal due diligence process. AFN’s investment strategy is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. AFN may recommend, on occasion, redistributing investment allocations to diversify the portfolio. AFN may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. AFN may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

At no time will AFN accept or maintain custody of a Client's funds or securities, except for the authorized deduction of the Advisor's fees. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement.

Use of Independent Managers

AFN may recommend to Clients that all or a portion of their portfolio be implemented by utilizing one or more unaffiliated money managers or investment platforms (herein collectively "Independent Managers"). Independent Managers may be sourced directly, through the Client's Custodian or through a turnkey asset management platform ("TAMP"). Depending on the Independent Manager[s] selected and the requirements of the Custodian or TAMP, the Client may be required to enter into additional agreements that define the overall scope and responsibility of the parties.

AFN will serve as the Client's primary advisor, assisting and advise the Client in establishing investment objectives for the account[s], the selection of the Independent Manager[s], defining any Client investment restrictions and other support with respect to the account[s]. The Advisor may have the authority to hire or terminate an Independent Manager. The Independent Manager[s] will have the discretion over the investments in the account[s] and will manage the account[s] consistent with the stated mandates of the strategy. While the Client may be able to impose certain investment restrictions, account[s] are generally not customized to the Client. AFN will provide ongoing investment due diligence and oversight of the Independent Manager[s].

For such services, the Independent Managers, Custodians, and/or TAMPs fees are included in the AFN advisory fee (Please see item 5.A.). These fees may not cover all trading, clearance and/or settlement costs, and such costs will be outlined in Program Sponsor ADV 2A.

The Client, before entering into an agreement with a Program Sponsor, will be provided with the Program Sponsor's Form ADV Part 2A (or a brochure that makes the appropriate disclosures). In addition, AFN and its Client will agree in writing that selected Program Sponsor will manage the Client's account on a discretionary basis.

Financial Planning, Consulting and Advisory Services

AFN will typically provide a variety of financial planning services to individuals, families, and businesses, under the terms of the written agreement between the Advisor and the Client.

"My AFN" for individual planning engagements: My AFN employs a comprehensive financial planning process designed to define each Client's financial objectives, analyze the objectives and create a step-by-step plan to achieve the objectives. Such financial planning services will involve preparing a financial plan or rendering a financial consultation with Clients. This planning or consulting may encompass one or more areas of need, including, but not limited to:

- R**isk management
- E**xpense and income planning
- T**ax planning
- I**nvestment management
- R**etirement planning
- E**state planning

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs. AFN may also refer Clients to an accountant, attorney or another specialist, as appropriate for their unique situation. For certain financial planning engagements, the Advisor will provide a written summary of Client's financial situation, observations, and recommendations. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly.

For corporate Client engagements, AFN provides consulting for corporations and corporate executives that include:

- Entity Planning
- Compensation consulting, and Short-, Intermediate-, and Long-term Incentive Planning
- Qualified Planning with Defined Contribution, Defined Benefit, and Employee Stock Ownership Plans
- Elective / Voluntary Plans
- Non-Qualified Planning including Deferred Compensation Plans (DCPs) and SERPs
- Risk Management Planning
- Business Continuation Planning and Exit Strategies
- Company, Executive and/or Employee Wealth Management Services
- Executive and Employee Financial Planning Services

Financial planning, consulting and/or advisory recommendations may pose a potential conflict between the interests of the Advisor and the interests of the Client. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to execute the transaction through the Advisor.

We may utilize outside professionals to aid in certain aspects of our planning or consulting relationships. Before engaging any such services, we will perform due diligence to ensure the individuals performing these duties are properly licensed and qualified to do so.

Please note: investment management services are contracted separately from consulting and entail additional fees which are stated in each advisory agreement.

Retirement Plan Advisory and Consulting Services

AFN provides retirement plan advisory and consulting services ("Plan Services") to the sponsors of each plan (herein the "Plan Sponsor" and "Plan," respectively). AFN will customize its advice to the needs of each Client or Plan, as appropriate. AFN provides the following services to its Clients as outlined in the Client Agreement.

C. Client Account Management

Before engaging AFN to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Policy – AFN, in connection with the Client, may develop a policy or formal IPS that summarizes the Client's investment goals and objectives along with the broad strategy[ies] to be employed to meet the objectives.
- Asset Allocation – AFN will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance of risk for each Client.
- Portfolio Construction – AFN will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – AFN will provide investment management and ongoing oversight of the Client's investment portfolio.

D. Wrap Fee Programs

AFN pays the transaction fees for Client accounts as part of its overall investment advisory fees (See Item 5 – Fees and Compensation) for the Investment Management service. The inclusion of these transaction costs into the investment advisory fee is considered a "wrap fee program." While traditional wrap fee programs often have

a defined set of investment options and uniform trading practices, AFN *customizes* its investment advisory services to its Clients. AFN's Wrap Fee Program merely provides for these services under a single annualized fee. A copy of this Wrap Fee Brochure is attached as Appendix 1 to this Disclosure Brochure.

E. Assets Under Management

As of December 31, 2019, AFN manages approximately \$46,948,150 in discretionary assets.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client shall sign one or more agreements that detail the responsibilities of AFN and the Client.

A. Fees for Advisory Services

Investment Management Services

Investment Management services are only available via our Wrap Fee Program described in the appendix below.

Illiquid Alternative Investments

AFN may include illiquid alternative investments in portfolio allocations. Since these investments are illiquid they are not managed and not subject to the advisory fee. Instead, the Registered Representative who recommends the investment will be paid a commission as stated in the private placement memorandum for each investment.

Some of the alternative investment sponsors and company executives are Clients of AFN. This presents a conflict of interest in recommending these investments to Clients. Please see Item 14 for further details.

Use of Independent Managers

Fees for Clients allocated to Independent Managers or implemented through programs at the Custodian or a TAMP are included in AFN's investment advisory fee above. The Client's fee will be deducted from the Client's account[s] at the Custodian, and AFN's investment advisory fee will be provided to AFN and AFN will pay the Independent Managers, Custodians, and/or TAMPS fees.

Financial Planning, Consulting and Advisory Services

AFN offers financial planning or consulting services on a fixed fee basis, based on the nature, complexity, and duration of the services to be provided to the Client. The scope of work and associated costs are provided to the Client prior to engaging in these services. Financial planning fees for individuals are typically \$6,000 per engagement or annually. Corporate consulting fees range up to \$75,000 per year, billed quarter billed in advance.

The Advisor does not collect advance fees of \$1,200 or more for services that will be completed six (6) months or more in the future. The Advisor's fee is exclusive of, and in addition to, investment management fees, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client.

Retirement Plan Advisory and Consulting Services

Fees for retirement plan advisory and consulting services are billed either as a percentage of assets advised under the Plan or at a fixed annual rate. The Advisor's fees are negotiable and vary based on the size and complexity of a Plan as well as the scope of services to be provided.

Family Office Services

Fees for family office services are based on the scope of services to be provided and the complexity of the engagement. Fees may range from \$50,000 to \$250,000 annually but may be higher for complex situations. Fees may also be negotiated under assets under management or hourly arrangement.

B. Fee Billing

Investment Management Services

Investment Management services are only available via our Wrap Fee Program described in the appendix below.

Investment advisory fees will be calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor or its delegate shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the respective quarter-end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the average assets under management with AFN for the quarterly period. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting the deduction of the investment advisory fee.

It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting AFN to be paid directly from their accounts held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Financial Planning, Consulting and Advisory Services

Financial planning, consulting and advisory fees are typically paid quarterly in advance.

Retirement Plan Advisory and Consulting Services

Fees for retirement plan advisory and consulting services are either deducted from the assets of the Plan or paid directly by the Plan Sponsor based on the terms of the agreement between the Advisor and the Plan/Plan Sponsor.

Family Office Services

Fees for family office services are generally billed either monthly or quarterly, under the terms of the family office services agreement. Fees may be invoiced directly to the Client or deducted from the Clients accounts at the Custodian.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties, other than AFN, in connection with the investment made on behalf of the Client's account[s]. Specifically, while our internal Investment Management is all done on a Wrap Fee basis, some of the outside managers recommended for client portfolio management may assess transaction charges in addition to the agreed upon management fees. AFN encourages all clients to carefully review the Form ADV 2A of each Program Sponsor.

For Clients in the AFN Wrap Fee Program, all normal custody and execution fees charged by the Custodian are included in the Client's investment advisory fee as noted above. Clients are responsible for all custody and securities execution fees charged by the Custodian for services provided outside the AFN Wrap Fee Program. In this situation, the investment advisory fee charged by AFN is separate and distinct from these custody and execution fees.

In addition, all fees paid to AFN for investment advisory services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of AFN, but would not receive the services provided by AFN which are designed, among other things, to assist the Client in determining which products or services are most appropriate to each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by AFN to fully understand the total fees to be paid.

D. Advance Payment of Fees and Termination

Investment Management Services

Investment Management services are only available via our Wrap Fee Program described in the appendix below.

AFN is compensated for its services in advance the quarter in which investment advisory services are rendered. Either party may terminate the investment advisory agreement with AFN, at any time, by providing advance written notice to the other party. The Client shall be responsible for investment advisory fees up to and including the

effective date of termination. Upon termination, the Advisor will refund any unearned, prepaid investment advisory fees from the effective date of termination to the end of the quarter. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Financial Planning, Consulting and Advisory Services

AFN may be partially compensated for planning, consulting and advisory services in advance of performing such services. Either party may terminate the agreement with the Advisor, at any time, by providing written notice to the other party. In addition, the Client may also terminate the agreement within five (5) business days of signing the Advisor's financial planning or consulting agreement at no cost to the Client. Upon termination, the Client shall be due a pro-rata refund of unearned fees based on the number of calendar days remaining in the quarter from the date of termination divided by the number of calendar days in the quarter. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

Retirement Plan Advisory and Consulting Services

Fees for retirement plan advisory and consulting services are either billed quarterly in advance of or at the end of the quarter in which services are provided, depending on the terms of the agreement between the Advisor and the Plan/Plan Sponsor. Either party may terminate an agreement, at any time, with advance written notice to the other party. Upon termination, the Advisor will refund any unearned, prepaid fees from the effective date of termination to the end of the quarter. The Client's agreement with the Advisor is non-transferable without the Client's prior consent.

Family Office Services

Fees for family office services are either billed in advance of or at the end of the quarter in which services are provided, depending on the terms of the agreement between the Advisor and the Client. Either party may terminate an agreement, at any time, with advance written notice to the other party. Upon termination, the Advisor will refund any unearned, prepaid fees from the effective date of termination to the end of the quarter. The Client's agreement with the Advisor is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

Certain Supervised Persons are licensed as independent insurance professionals. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these Supervised Persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

Item 6 – Performance-Based Fees and Side-By-Side Management

AFN does not charge performance-based fees for its investment advisory services. The fees charged by AFN are as described in Item 5 – Fees and Compensation above and are not based upon the capital appreciation of the funds or securities held by any Client. AFN does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

AFN offers investment advisory services to individuals, high net worth individuals, corporate Clients, and retirement plans. The relative percentage of each type of Client is available on AFN's Form ADV Part 1. These percentages will change over time. AFN does not impose a minimum account size for establishing a relationship.

Item 8 – Methods of Analysis, Investment Strategies, and Risk of Loss

A. Methods of Analysis

AFN employs both fundamental and technical analysis methods in developing investment strategies for its Clients. Research and analysis from AFN are derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

The fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate.

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to Clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that AFN will be able to accurately predict such a reoccurrence. More details on the Advisor's review process are included in Item 13.

As noted above, AFN employs a long-term investment strategy for its Clients, as consistent with their financial goals. AFN will typically hold all or a portion of a security for more than a year but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, AFN may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. AFN will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the potential speculative components of the Advisor's strategy:

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses. The Advisor primarily utilizes option strategies to reduce portfolio risk through covered call options or collar strategies.

A *covered call* is an options strategy whereby an investor holds a long position in an asset and writes (sells) call options on that same asset in an attempt to generate increased income from the asset. This is often employed

when an investor has a short-term neutral view on the asset and for this reason, hold the asset long and simultaneously have a short position via the option to generate income from the option premium.

Margin Borrowings

The use of short-term margin borrowings may result in certain additional risks to a Client. For example, if securities pledged to brokers to secure a Client's margin accounts decline in value, the Client could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value.

Management Through Similarly Managed Accounts

AFN often manages Client portfolios by allocating portfolio assets among various securities on a discretionary basis using one or more of its proprietary investment strategies (collectively referred to as "investment strategy"). In so doing, AFN buys, sells, exchanges and/or transfers securities based upon the investment strategy. AFN's management using the investment strategy complies with the requirements of Rule 3a-4 of the Investment Company Act of 1940, as amended. Rule 3a-4 provides similarly managed accounts, such as the investment strategy, with a safe harbor from the definition of an investment company. Securities in the investment strategy may be exchanged and/or transferred without regard to a Client's individual tax ramifications. As further discussed in response to Item 12.B. (below), AFN allocates investment opportunities among its Clients on a fair and equitable basis.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

AFN and its Supervised Persons value the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider in which you partner. Our backgrounds are on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with our firm name or our CRD# 160322. You may also research the background of AFN's personnel (herein "Advisory Persons"). Mr. Ellen, President of AFN, has events to disclose that are viewable on this site. Mr. Ellen entered into a stipulation and consent with the State of New York Insurance Department related to the failure to provide an affirmative answer on the New York insurance licensing questionnaire relating to a temporary suspension of his CFP designation. Mr. Ellen's CFP designation was suspended for two years and had been reinstated in August 2005. Mr. Ellen paid a monetary fine of \$500 and was thereafter licensed with the New York Insurance Division.

Item 10 – Other Financial Industry Activities and Affiliations

Insurance Agency Affiliations

As noted in Item 5, certain Supervised Persons of AFN have also licensed insurance professionals. Insurance sales are implemented separate and apart from a Supervised Person's role with AFN. As an insurance professional, a Supervised Person may receive customary commissions and other related revenues from the various insurance companies whose products are sold. Commissions generated by insurance sales do not offset regular advisory fees. This may cause a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by AFN or its Supervised Persons.

Client Relationships

The Advisor may utilize services provided by certain business Clients and/or refer other Clients to certain business Clients. Prior to engaging in such activities, the Advisor will disclose any potential conflicts of interest to the Client.

Use of Independent Managers

As noted in Item 4, the Advisor may recommend that all or a portion of a Client's account[s] be implemented utilizing the investment strategies of one or more Independent Managers through either a direct relationship, through the Client's Custodian or a TAMP.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

AFN has implemented a Code of Ethics (the "Code") that defines our fiduciary commitment to each Client. This Code applies to all persons associated with AFN (our "Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. AFN and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of AFN associates to adhere not only to the specific provisions of the Code but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code of Ethics, please contact us at (818) 264-4644 or via email at info@afn-net.com.

B. Personal Trading with Material Interest

AFN allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. AFN does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund or advise an investment company. AFN does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

AFN allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that we recommend (purchase or sell) to you presents a potential conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted, consistent with Section 204A of the Investment Advisers Act of 1940, a Code of Ethics, which addresses insider trading (material non-public information controls) and personal securities reporting procedures. When trading for personal accounts, Supervised Persons of AFN may have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by AFN requiring reporting of personal securities trades by its Supervised Persons for review by the Supervised Persons' supervisor or the Chief Compliance Officer ("CCO"). We have also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While AFN allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. At no time will AFN or any Supervised Person transact in any security to the detriment of any Client.

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

AFN does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize AFN to direct trades to the Custodian as agreed in the investment advisory agreement. Further, AFN does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where AFN does not exercise discretion over the selection of the Custodian, the Advisor will typically recommend the Custodian to Clients for custody and execution services. Clients are not obligated to use the

Custodian recommended by the Advisor and will not incur any extra fee or cost associated with using a custodian not recommended by AFN.

AFN will generally recommend that Clients establish their account[s] at TD Ameritrade, Inc. ("TD"), a FINRA-registered broker-dealer and member SIPC to serve as the Client's "qualified custodian."

AFN participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker-dealer/custodian in exchange for research and other services. **AFN does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, AFN does receive certain economic benefit from TD. Please see Item 14.**

2. Brokerage Referrals - AFN does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis," where AFN will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). AFN will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) the skill required of the Custodian. AFN will execute its transactions through the Custodian as directed by the Client. AFN may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts. If a block trade cannot be executed in full at the same price or time, the securities purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by the wealth management team, and periodically by the CCO or delegate. Formal account reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify AFN if changes occur in his/her personal financial situation that might adversely affect his/her investment plan. Additional reviews may be triggered by a material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions, and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by AFN

Supervised Persons of AFN, in their separate capacity, may receive additional compensation as noted in Item 10 – Other Financial Industry Activities and Affiliations. AFN may refer Clients to various third parties to provide certain financial services necessary to meet the goals of its Clients. Likewise, AFN may receive referrals of new Clients from a third-party.

As disclosed under Item 12 above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Advisor endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

Advisor also receives from TD Ameritrade certain additional economic benefits ("Additional Services") that may or may not be offered to any other independent investment Advisors participating in the program. Specifically, the Additional Services include Dynasty Financial Partners. TD Ameritrade provides the Additional Services to Advisor in its sole discretion and at its own expense, and Advisor does not pay any fees to TD Ameritrade for the Additional Services. Advisor and TD Ameritrade have entered into a separate agreement ("Additional Services Addendum") to govern the terms of the provision of the Additional Services.

Advisor's receipt of Additional Services raises potential conflicts of interest. In providing Additional Services to Advisor, TD Ameritrade most likely considers the amount and profitability to TD Ameritrade of the assets in, and trades placed for, Advisor's Client accounts maintained with TD Ameritrade. TD Ameritrade has the right to terminate the Additional Services Addendum with Advisor, in its sole discretion, provided certain conditions are met. Consequently, in order to continue to obtain the Additional Services from TD Ameritrade, Advisor may have an incentive to recommend to its Clients that the assets under management by Advisor be held in custody with TD Ameritrade and to place transactions for Client accounts with TD Ameritrade. Advisor's receipt of Additional Services does not diminish its duty to act in the best interests of its Clients, including to seek best execution of trades for Client accounts.

B. Client Referrals from Solicitors

AFN does not compensate solicitors for the referral of clients to our firm.

Item 15 – Custody

AFN is deemed to have custody of Client assets by the authority granted to us by Clients to deduct our investment advisory fees. All Clients must place their assets with a “qualified custodian”. Clients are required to engage the Custodian to retain their funds and securities and direct AFN to utilize the Custodian for the Client’s security transactions. AFN encourages Clients to review statements provided by the Custodian. For more information about custodians and brokerage practices, see “Item 12 - Brokerage Practices.”

AFN may also be deemed to have custody of Client assets if Clients authorize standing instructions for AFN to issue funds to a third-party, for example to accommodate the payment of insurance premiums. In such cases, AFN and the Custodian have implemented controls to protect against the unauthorized distribution or misappropriation of Client funds. AFN encourages Clients to review statements provided by the Custodian and contact AFN at 818-965-7034 or info@afn-net.com if you have any questions.

Item 16 – Investment Discretion

AFN has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by AFN. The discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client’s execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by AFN will be in accordance with each Client’s investment objectives and goals.

Item 17 – Voting Client Securities

AFN does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies. However, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither AFN nor its management has any adverse financial situations that would reasonably impair the ability of AFN to meet all obligations to its Clients. Neither AFN nor any of its advisory persons, has been subject to a bankruptcy or financial compromise. AFN is not required to deliver a balance sheet along with this Disclosure Brochure, as the firm does not collect fees of \$1,200 or more for services to be performed six months or more in advance.

Item 4 – Services Fees and Compensation

A. Services

AFN provides customized wealth advisory services for its Clients. The AFN Wrap Fee Program (the “Wrap Fee Program”) is a fee Program that includes the investment advisory services provided by AFN along with the normal trading costs for securities transactions. AFN has negotiated transaction costs with the Custodian for a flat basis point fee instead of a per-transaction charge for each Client account.

AFN provides customized investment advisory solutions for its Clients, which are described in detail on Item 4 of the attached Form ADV2A – Disclosure Brochure. The Wrap Fee Program is not a different investment approach or service offering. It is simply a combined fee.

Details of this Wrap Fee Program are contained in this Appendix 1 but often reference back to the Form ADV2A – Disclosure Brochure which provides all details regarding the advisory services of AFN. **Please see Item 4 – Advisory Services of the Disclosure Brochure for details on AFN’s investment philosophy and related services.**

B. Program Costs

Investment advisory fees are paid quarterly, in advance of each calendar quarter, under the terms of the investment advisory agreement. Investment advisory fees are based on the market value of assets under management at the end of the prior quarter. The market value for Account[s] that utilize margin accounts are increased by the margin balance. Investment advisory fees are based on the following schedule. Upon reaching higher tiers of assets under management the reduced advisory fee applies to all assets under management.

Assets Under Management (\$)	Annual Rate (%)
Up to \$500,000	1.65%
\$500,001 to \$1,000,000	1.35%
\$1,000,001 to \$2,000,000	1.15%
\$2,000,001 to \$3,000,000	1.00%
\$3,000,001 to \$5,000,000	0.90%
Over \$5,000,000	Negotiable

Certain Clients may be offered a fee schedule with a fixed annual rate or other methodology. Services provided under this Wrap Fee Program may cost the Client more or less than paying for investment management services and transaction costs separately. The Frequency of trading, the size of accounts and the securities used to construct a portfolio are factors that drive the overall cost of managing a portfolio. Additional information regarding fees is included in Item 5 of Form ADV Part 2A – Disclosure Brochure.

AFN provides this Wrap Fee Program to provide a single fee that includes investment management and all normal securities transactions costs associated with AFN investment strategies. The Wrap Fee Program does not include securities transaction fees for Client-directed transactions. Further, the Wrap Fee Program does not include the underlying expenses of mutual funds and exchange-traded funds, which are deducted directly from these investments. Please see Item C.
