Arbor Point Advisors, LLC Form ADV Part 2A

TOC 1

ITEM 2. MATERIAL CHANGES

The last annual amendment to the Arbor Point Advisors, LLC Form ADV Part 2A Brochure was filed March 29, 2019. Since then, the following changes have occurred:

- Item 4 – Advisory Services and Item 5 Fees and Compensation: Disclosure has been added regarding lowest cost share class selection when investing in mutual funds for client accounts.
- Item 4 – Ownership Changes: Ladenburg Thalmann Financial Services, Inc. is now a wholly-owned subsidiary of Advisor Group Holdings, Inc which is owned primarily by a consortium of investors through RCP Artemis Co-Invest, L.P., an investment fund affiliated with Reverence Capital Partners LLC.
- Item 10 – Other Financial Activities and Affiliations: This section was amended to disclose new related persons that are operationally separate from Arbor Point Advisors, LLC but under common control of parent company Advisor Group Holdings, Inc.

We may update this Brochure at any time. If we make any material changes we will provide you either (i) a copy of our Form ADV Part 2A that includes or is accompanied by a summary of material changes or (ii) a summary of material changes that includes an offer to provide a copy of the current Form ADV Part 2A. We urge you to carefully review all subsequent summaries of material changes as they will contain important information about any significant changes to our advisory services, fee structure, business practices, conflicts of interest and disciplinary history.

To receive a complete copy of our Brochure at no charge, please visit our website at www.arborpointadvisors.com or contact us at 800-747-6111.

ITEM 4. ADVISORY BUSINESS

Ownership

Arbor Point Advisors, LLC (APA) is registered as an investment advisor with the Securities and Exchange Commission (SEC), SEC File No. 801-77135, in order to offer investment advisory products and services to its advisory clients. Securities America, Inc. (SAI), an affiliated broker/dealer, is registered with the Financial Industry Regulatory Authority (FINRA) as a broker/dealer engaged in the offer and sale of securities products. APA is a majority-owned subsidiary of Securities America Financial Corporation (SAFC). NorthStar Financial Services Group, LLC (NorthStar) owns a minority interest (less than 25%) in APA. SAFC is also the sole owner of Securities America Advisors, Inc., an SEC registered investment advisor.

SAFC is a wholly owned subsidiary of Ladenburg Thalmann Financial Services, Inc. (LTFS). LTFS provides a diverse array of financial products and services through a number of subsidiaries. LTFS has several other affiliates registered as investment advisors, an investment company, insurance companies, broker/dealers and a trust company. LTFS is a holding company primarily engaged in business through its subsidiaries.

LTFS is a wholly owned subsidiary of Advisor Group Holdings, Inc., which is owned primarily by a consortium of investors through RCP Artemis Co-Invest, L.P., an investment fund affiliated with Reverence Capital Partners LLC. The consortium of investors includes RCP Genpar Holdco LLC, RCP Genpar L.P., RCP Opp Fund II GP, L.P. and The Berliniski Family 2016 Trust.

Firm Description

Arbor Point Advisors has been registered with the U.S. Securities and Exchange Commission (SEC) since September 2012. The investment advisory services of Arbor Point Advisors are provided to clients (sometimes referred to as “you” or “your”) through an appropriately licensed and qualified individual who is an investment advisor representative of Arbor Point Advisors (referred to as your “investment advisor representative,” “IAR” or “representative” throughout this Brochure). Arbor Point Advisors’ investment advisor representatives may also be registered representatives of Securities America, Inc. (SAI), a full-service broker/dealer, member FINRA and SIPC; SAI is affiliated with Arbor Point Advisors.

Your investment advisor representative typically is not an employee of Arbor Point Advisors but rather an independent contractor of Arbor Point Advisors. Your investment advisor representative is limited to providing the services and charging investment advisory fees in accordance with the descriptions detailed in this Brochure. However, the exact services you receive and the fees you are charged are specified in your advisory services agreement.

Amount of Assets Managed by Our Firm

As of the fiscal year ending December 31, 2019, the amount of client assets we managed totaled \$3,897,743,865. Of that total, \$3,813,988,135 was managed on a discretionary basis and \$83,755,730 was managed on a non-discretionary basis.

Types of Services Offered

We provide a diverse range of advisory programs and services which are described in greater detail below. Our investment advice can include investment supervisory services, which we define as giving you continuous advice or making investments based on your individual needs. When we provide investment management services you have the ability to impose restrictions on the accounts we manage for you, including specific investment selections and sectors. We work with you on a one-on-one basis through interviews and questionnaires to determine your investment objectives and suitability information. We will not enter into an investment advisor relationship with a prospective client whose investment objectives may be considered incompatible with our investment philosophy or strategies or where the prospective client seeks to impose unduly restrictive investment guidelines.

Once you've decided to establish an advisory account, you will need to complete certain account opening documents that provide information regarding the custodian's name, address and manner in which the funds or securities are maintained. If you wish to use our investment advisory services, you generally will sign a client services agreement detailing the exact terms of the services provided to you. When possible, assets in our programs are invested primarily in low cost mutual funds, usually through clearing and custodial firms or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Clearing and custodial firms can charge a transaction fee when you buy funds. Stocks and bonds can be bought or sold through a brokerage account when appropriate. SAI, our broker/dealer affiliate, charges a fee for stock and bond trades. Charges for these products can be higher or lower than commissions you may be able to obtain if transactions were implemented through another broker/dealer custodian. Refer to the section titled "Fees and Compensation" for more information.

APA can provide advice on investments such as those listed below:

- Equity securities (exchange-listed securities, securities traded over the counter and foreign issues)
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- Investment company securities (mutual funds)
- Variable products (variable annuities, variable life insurance)
- U.S. government securities
- Options contracts on securities
- Exchange traded funds (ETFs)
- Real estate investment trusts (REITS)
- Real estate investments
- Limited partnerships and private placement partnerships in tax credit programs, cable, oil and gas interests and other miscellaneous direct participation programs

Although we generally provide advice only on the products previously listed, we reserve the right to offer advice on any investment product that may be suitable for each client's specific circumstances, needs, goals and objectives.

Through SAI, Arbor Point Advisors conducts, or hires third-party vendors to conduct, due diligence analysis of the products listed above prior to making them available to the public. We do not establish fee-based investment advisory

accounts through SAI, and thus do not execute fee-based investment advisory trades through SAI. However, SAI has policies and procedures in place to review the issuers of financial products such as real estate investment trusts, structured notes and annuity and life insurance products. We rely on SAI for their due diligence reviews of such products. Reviews include publicly available information and reports issued by third-party rating agencies and can, in some cases, include certain non-public information provided by the issuer. On our behalf, SAI periodically reassesses, but does not continuously monitor, the creditworthiness or financial solvency of third-party issuers. These policies and procedures are reasonably designed to limit your exposure to credit and default risks resulting from an inability of the issuers to repay the principal on a note or fulfill an insurance obligation. However, you should be advised that credit markets can be volatile and the creditworthiness of an issuer may change rapidly. APA and SAI are prohibited by regulation from guaranteeing or providing any assurance that an issuer of financial products will be available to fulfill the issuer's obligation to any purchase of a product through APA or SAI.

Wrap Fee Programs

Generally, APA considers the Asset Management Services Program and Participant Retirement Program to be wrap fee programs. In wrap fee programs, advisory services as well as transaction and other services are provided for one fee that is calculated based on the value of assets under management. Advisory services can include portfolio management or advice regarding selection of other investment advisors while other services can include, for example, brokerage, custody and performance review. We receive a portion of the wrap fee for investment management services we provide. Our firm and the representatives do not manage wrap fee accounts differently from other programs. Refer to the section titled "Fees and Compensation" for additional information regarding fees assessed in our wrap programs. Additionally, refer to each program's Wrap Fee Program Brochure for additional information.

Advisory Programs

Asset Management Services Program

Through this program, we offer highly customized and individualized investment strategy crafted to focus on your specific goals and objectives. We provide this investment management service through accounts maintained at a qualified custodian recommended and selected by Arbor Point Advisors (refer to the *Brokerage Practices* section for more information).

You must appoint APA as your investment advisor of record on specified accounts (collectively, the "account"). The account consists only of separate account(s) held by qualified custodian(s) under your name. The qualified custodian(s) maintain physical custody of all funds and securities of the account but you retain all rights of ownership (e.g., right to withdraw securities or cash, exercise or delegate proxy voting and receive transaction confirmations) of the account. Refer to the *Custody* section for more information.

The account is managed by us based on your financial situation, investment objectives and risk tolerance. Your investment advisor representative monitors the account and provides advice regarding buying, selling, reinvesting or holding securities, cash or other investments in the account.

We need to obtain certain information from you to determine your financial situation and investment objectives. You are responsible for notifying us of any updates regarding your financial situation, risk tolerance or investment objective although your representative will contact you at least annually to discuss these matters. Your representative is always reasonably available to consult with you regarding the status of your account. You have the ability to impose reasonable restrictions on your account management, including the ability to instruct us not to purchase certain securities. You are responsible for notifying us if you wish to impose or modify existing investment restrictions.

The client agreement between you and APA can be canceled by either party at any time. However, services provided continue until written notice of termination is given to the other party. Termination is effective upon receiving notice, although transactions in progress will be completed in the normal course of business. If the client agreement is terminated within 5 business days of signing, you receive a full refund of any investment management fees already charged. If services are terminated, any prepaid, unearned management fees are calculated and promptly refunded based upon the number of days remaining in the billing period after the termination date. Terminating the agreement does not affect the liabilities or obligations of APA, your representative, or you arising out of transactions initiated prior to termination or the provision regarding arbitration. These liabilities, obligations and provisions survive any expiration or termination of the agreement. At termination, you have the exclusive responsibility to monitor the securities in the account; APA and your representative have no further obligation to act or provide investment services with respect to those assets.

It is important that you understand your representative manages investments for other clients and can give them advice or take actions for his or her own personal accounts that is different from the advice provided to you or actions taken for you. We are not obligated to buy, sell or recommend to you any security or other investment that we buy, sell or recommend for any other clients or for our personal accounts.

Conflicts can arise in allocating investment opportunities among accounts that we manage. We strive to allocate investment opportunities believed to be appropriate for your account(s) and other accounts advised by our firm equitably and consistent with the best interests of all accounts involved. However, there can be no assurance that a particular investment opportunity that comes to our attention will be allocated in any particular manner. If we obtain material, non-public information about a security or its issuer that we cannot lawfully use or disclose, we have absolutely no obligation to disclose the information to any client or use it for any client's benefit.

Participant Retirement Program

Participants in an employer sponsored retirement plan ("Plan") can retain Arbor Point Advisors and its representatives (collectively, "advisor" or "us") to provide investment advisory services with respect to your tax-exempt retirement plan account assets custodied and maintained through the Participant Retirement Program.

Under the Participant Retirement Program, you elect to have APA manage your contributions to the Plan, any contributions by your employer or Plan sponsor on your behalf and any other additions to the Plan on behalf of or attributable to you (collectively "Plan Assets"). Through its representatives, APA provides advice with respect to Plan Assets in your account only (including additions, substitutions and proceeds), but is not responsible for the actions or non-actions of predecessor investment advisors, managing any assets other than the Plan Assets allocated to your account or administration of the Plan. When managing your account, APA can, but is not required to, consider any other securities, cash or other investments owned by you.

You maintain the ability to impose reasonable restrictions on management of your account, including the ability to instruct us to not purchase certain investments or securities. Your representative will contact you at least annually to discuss any changes or updates regarding your financial situation, risk tolerance, investment objectives, investment time horizon or restrictions you may wish to impose on the account.

At no time will Arbor Point Advisors act as custodian of the Plan or have direct access to the Plan's funds and/or securities. Fidelity Institutional Wealth Services maintains custody of all Plan Assets in your account and will process the orders for securities transactions in your account in its broker/dealer capacity when your representative enters such orders.

The client agreement can be terminated at any time for any reason; however, services will continue until either party gives written notice of termination to the other party. Closing the account will cause the agreement to be terminated.

Termination is effective upon receipt of notice, although transactions in progress will be completed in the normal course of business. Terminating the agreement will not affect either party's liabilities or obligations arising out of transactions initiated prior to termination or the provisions regarding arbitration, all of which will survive any expiration or termination of the agreement.

Upon termination, you have the exclusive responsibility to monitor the securities in your account, and we will have no further obligation to act or provide investment services with respect to those assets. If you terminate the agreement within 5 business days of signing it, you will receive a full refund of all fees and expenses. If the agreement is terminated more than 5 days after its execution, any prepaid, unearned management fees will be calculated and promptly refunded upon the number of days remaining in the billing period after the termination date.

Advisory Services

APA offers a range of services that do not involve providing continuous advice to you, such as financial planning services, retirement plan advisory services and referrals to third party money managers. These services are described in greater detail below.

Financial Planning Services

Arbor Point Advisors and your investment advisor representative offer advice through the presentation of financial plans. Clients using these services can receive a written financial plan providing them with a financial blueprint designed to achieve their stated financial goals and objectives. Plans can be comprehensive or focus only on specific areas of concern to you. In general, a financial plan can address any or all of the following areas:

- Cash management
- Insurance coverage
- Death and disability planning
- Divorce planning
- College planning
- Investment portfolio review
- Estate and retirement planning
- Income distribution

In addition, Arbor Point Advisors and your representative provide financial planning consultation services on specific areas of concern to you. These services can also include retirement plan consulting services provided to the plan sponsor or to individuals wanting advice on how their plan investments should be allocated. Additionally, APA and your representative can provide financial planning services to business entities and groups requesting educational services and financial planning seminars or individual consulting and planning services for employees or members. If individual planning or consulting services are provided, each participating employee or member will be required to execute a separate agreement with us. These services will be advice-only services; APA and your representative will not implement transactions on your behalf as part of these services.

If you want APA or your investment advisor representative to implement transactions on your behalf, you need to contract with APA and your representative for our investment management services described elsewhere in this section. In the alternative, your representative may also be a SAI registered representative and, if so, you can engage him or her in this separate capacity to establish a brokerage account and implement transactions.

A conflict exists if your representative is a SAI registered representative and you choose to buy product(s) through him or her in this separate capacity. In this separate capacity, he or she receives a commission on the product(s) sold in addition to the fees charged for financial planning and/or financial planning consultations. This means there is a financial incentive for your representative to recommend investments to you in which you pay management fees and/or broker/dealer commissions if SAI, our broker/dealer affiliate, processes the transaction. You are under no obligation to act upon APA's or your representative's recommendations, and you have sole discretion whether or not to implement any recommendations. If you elect to act on any of the recommendations, you are under no obligation to effect transactions through APA or SAI.

When providing financial planning and financial planning consultation services, your representative gathers information through interviews concerning your current financial status, goals and objectives, risk tolerance and time horizon. We may also request that you complete a questionnaire and provide additional documentation. Depending on the level of services requested, your representative can prepare a written report. Implementing any recommendation can require you to work closely with your attorney, accountant and/or insurance agent. Implementation is entirely at your discretion. Your investment advisor representative can also provide advice on non-securities matters. Generally, this is in connection with rendering estate planning, college planning and insurance and/or annuity advice.

Some states preclude your representative and APA from receiving a financial planning fee for services customarily associated with soliciting insurance sales or servicing an insurance contract. Other states permit your representative and APA to receive an insurance financial planning fee and an insurance commission provided certain conditions are met, such as written disclosure about the services and compensation. Please consult with your representative if you have questions about which regulations govern you and your account.

Financial planning services can be terminated at any time upon written notice of either APA, its representative or the client. Upon termination, clients are entitled to a refund of all deposits not already earned. Clients can terminate services within 5 business days from the date of executing the agreement for services and receive a refund of no less than one-half of the retainer or any unearned portion of the retainer, whichever is greater. If clients do not receive APA's written disclosure brochure at least 48 hours prior to executing the agreement for services, they have 5 days from the engagement date to cancel with a full refund of any fee or retainer.

Retirement Plan Advisory Services

Our representatives provide qualified retirement plans with investment advisory services that can be fiduciary and/or non-fiduciary in nature. Fiduciary services include plan review (e.g., design, operations, documentation and benchmarking plan expenses) and recommendations (regarding the investment policy statement, investment options and/or investment managers). Non-fiduciary services include participant education and communication. Services can be provided on a discretionary or non-discretionary basis.

For all services provided, the plan's named fiduciary retains sole decision-making authority and responsibility for the plan's investment policy statement, selecting and maintaining investment alternatives available under the plan and implementing any plan, advice or strategy provided by APA and/or its representative.

Under the Retirement Plan Advisory Agreement, the plan sponsor authorizes and engages APA and its representative to provide services to the plan. When providing these services, APA and its representative can rely on information provided by independent third parties. These third parties are believed to be reliable but APA and its representative have no obligation to independently verify the information provided by them. The named fiduciary acknowledges that APA and its representative can rely on such third-party information while providing any requested services and will have no liability for the accuracy or consistency of such information or for any loss caused by such information. APA and its representative can also rely on material and pertinent information provided by the named fiduciary about the

plan, its participants and beneficiaries. The advisor has no obligation to verify the information provided by the named fiduciary and will have no liability for any loss caused by errors in such information.

Your representative can provide any of the following services as selected by the plan sponsor and named fiduciary:

Fiduciary Services

I. Non-Discretionary Advisory Services

- (a) Plan Review (Design, Operations and Documentation). Your representative may:
 - Recommend protocols to help the plan's named fiduciary establish a plan committee to prudently manage and administer the plan. The named fiduciary is solely responsible for implementing the committee's protocols and for appointing or removing committee members. However, the representative may train committee members regarding fiduciary duties and help coordinate regular meetings.
 - Update the named fiduciary about current and proposed legislative initiatives.
 - Provide fiduciary training as needed (upon request).
 - Help with updates to existing procedures and provide recommendations regarding plan operation, documentation and establishing an audit file.
 - Help develop requirements for responding to participant requests and reconciling participant disclosures under Section 404(a)(5) of the *Employee Retirement Security Act of 1974 (ERISA)*.
- (b) Benchmark Plan Expenses. Your representative may meet with the named fiduciary and conduct a periodic review of fees and costs charged to the plan by other service providers.
- (c) Plan Investment Policy Statement. Along with the named fiduciary, your representative can review the investment objectives, risk tolerance and goals of the plan. If the plan does not have an investment policy statement (IPS), the representative can recommend investment policies to assist the named fiduciary in establishing an appropriate IPS. If the plan has an existing IPS, the representative can review it for consistency with the plan's objectives; if it does not represent the objectives, the representative can recommend revisions to establish investment policies consistent with plan objectives.
- (d) Recommendations Regarding Investment Options and/or Investment Managers. The representative may provide the following services:
 - Based on the plan's IPS or other established investment guidelines, the representative can review investment options available and make recommendations to the named fiduciary.
 - Once the named fiduciary approves any model portfolios, default investment alternative(s) (DIAs) or qualified default investment alternative(s) (QDIAs), the representative can provide periodic reports, information and recommendations designed to assist in monitoring plan investments. If an investment must be removed due to IPS criteria, the representative can provide information and analyses to evaluate replacement investment alternatives for model portfolios. Upon reasonable request, the representative can also make recommendations to rebalance the model portfolios in order to maintain their desired allocations.

- Based on the IPS or other established guidelines, the representative can review potential investment managers and make recommendations for selecting one or more managers for the plan. Once the named fiduciary approves the investment manager, the representative can periodically provide reports, information and recommendations to assist in monitoring the managers. If a manager must be removed due to IPS criteria, the representative can provide information and analyses to evaluate replacement investment managers.
- (e) Participant Investment Advice. In some legacy accounts, the representative can meet with participants at least annually and provide investment advice based on each individual's financial situation, investment situation and tax status. The representative will prepare recommendations regarding the appropriate amount of contributions and choice of investments, and the participant has sole discretion whether or not to implement those recommendations.

II. Discretionary Advisory Services

Discretionary Investment Manager. The plan trustee can appoint APA and its representative as an "investment manager." To the extent APA and its representative provide discretionary advisory services under the Retirement Plan Advisory Agreement, they acknowledge their status as "investment manager" for purposes of ERISA Section 3(38). APA and its representative can maintain investment portfolio(s) on a discretionary basis, including investing, rebalancing assets, changing asset allocations or changing underlying model portfolios. The advisor and its representative exercise this authority in accordance with the objectives set forth by the named fiduciary, as may be amended from time to time, and in accordance with any additional written guidelines and/or investment policies provided by the named fiduciary. APA and its representative will communicate their decisions to the named fiduciary on a reasonable basis.

Non-Fiduciary Services

Participant Education and Communication. Your representative can provide educational and investment related information, materials and software as allowed by rule or regulation as long as the information does not constitute giving fiduciary investment advice. This can include:

- Conducting periodic group enrollment and education meetings with employees and educational meetings with plan participants and beneficiaries.
- Providing information and materials informing plan participants, employees or beneficiaries about the benefits of plan participation, the benefits of increasing contributions, the impact of pre-retirement withdrawals, the terms of the plan or operations of DIAs. The information provided can include interactive investment materials to assist with future retirement income needs and the impact of different asset allocations on retirement income.
- Providing retirement readiness consulting, which can include third party software to assess a "gap" analysis to determine sufficient retirement income.

Additionally, participant education can extend to analyzing plan expenses and fees. The representative will not render individualized investment advice to participants and will not be held to a fiduciary standard for the non-fiduciary services rendered.

Covered Service Provider Disclosures for ERISA Plans

As a covered service provider to ERISA plans, APA and SAI will comply with the U.S. Department of Labor regulations on fee disclosures. SAI, APA and your representative will disclose (i) direct compensation received from ERISA clients, (ii) indirect compensation received from third parties and (iii) transaction-based compensation (e.g., commissions) or other similar compensation shared with related parties servicing the ERISA plan. These fee disclosures will be made reasonably in advance of entering into, renewing or extending the advisory service agreement with the ERISA client.

In some instances, APA and your representative will be providing certain services to the plan in a fiduciary capacity while providing other services that are not fiduciary in nature. The Retirement Program Advisory Agreement executed between APA and the plan will specifically state whether or not the representative is acting in a fiduciary capacity when providing the services. Schedule A of the Retirement Program Advisory Agreement discloses the scope of services that are being provided to the plan. Such services are disclosed as “fiduciary” or “non-fiduciary.” “Fiduciary” services are further disclosed as either discretionary or non-discretionary.

Fees for retirement plan advisory services are charged on either an asset based or flat fee basis, although some legacy accounts can have advisory fees or level commissions charged instead. The Retirement Plan Advisory Agreement will disclose the fees to be charged, as well as other compensation received by APA, your representative or their affiliates in connection with providing services to your plan or any other charges (e.g., transaction fee charges) applying to plan accounts.

Services can be terminated by the plan's named fiduciary without penalty within 5 days of executing the client agreement. After that, the client agreement can be terminated by APA or the named fiduciary at any time with 60 days' prior written notice. The agreement will not terminate if it is assigned to a different representative.

Referrals to Third-Party Money Managers

APA offers clients access to professional third-party money managers that create and implement model portfolios with a variety of investment strategies (e.g., asset allocation, market timing, portfolio management, etc.), securities (e.g., stocks, bonds, ETFs, mutual funds, derivatives, etc.) and risk levels. One or more of these third-party money managers are affiliated with APA. The offered money managers have differing minimum account requirements and a variety of fee ranges. Each manager's advisory services, fees and expenses, program termination and other information is set forth in their disclosure brochures, client agreements, account opening documents and applicable fund prospectuses. Your representative will assist you in opening an account and, when doing so, you will execute an agreement directly with the selected money manager.

Most third-party money managers assume limited discretionary authority over your account, meaning that the selected manager has the authority to purchase and sell securities in your account without contacting you first. Some third-party managers may allow you to impose restrictions on investing in specified securities or types of securities.

APA, SAI and your representative do not act as custodian for any account held by a third-party money manager. Generally, an outside custodian maintains custody of all funds and securities. Each third-party manager maintains its own separate execution, clearing and custodial arrangements.

Your representative obtains financial data from you, such as annual income, net worth, risk tolerance, long-term goals and objectives, etc. When referring you to third-party money managers, your representative acts as either a solicitor or advisor/subadvisor.

- When acting as a solicitor, your representative assists you in selecting one or more third-party money manager believed suitable for you based on the gathered data and your financial situation. Neither APA nor your representative provide advisory services relative to the selected third-party money manager's programs. The third-party manager is responsible for assessing the suitability of their products for your investment objectives and risk profile.
- When acting as an advisor/sub-advisor, your representative provides you with portfolio management supervisory services jointly with the selected third-party money manager. When opening a new account, you receive both our disclosure brochure and the third-party manager's disclosure brochure. Your representative assists you in determining which model or portfolio strategy is appropriate for you. He or she monitors the selected program's performance, investment selection and continued suitability for your portfolio and advises you accordingly regarding continued use of the selected model as well as the selected manager.

There are conflicts of interest that affect the independent judgment of APA and your representative when recommending one third-party money manager over another. APA and your representative receive compensation when they refer you to the money manager, which is usually a percentage of the advisory fee you pay to the selected manager. The amount of compensation received by our firm and your representative from a particular money manager could be higher than the compensation received from another money manager. This results in your representative having a financial incentive to recommend one money manager over another. There could be other suitable money managers that are more or less costly. The agreement you execute with the selected money manager typically authorizes the manager to deduct fees from your account to pay for services and expenses.

No guarantees can be made that your financial goals or objectives will be achieved. Further, no guarantees of performance can be offered.

Trading by third-party money managers can trigger wash sale rule implications. A wash sale occurs when a security is sold at a loss and then the same or substantially identical security is repurchased within a short time period. The third-party money manager cannot necessarily manage accounts in a manner to avoid wash sale implications. You are encouraged to consult with a tax advisor to discuss any tax implications involving your portfolios in these and in all advisory programs.

Educational Seminars and Workshops

Our representatives provide educational seminars and workshops covering various financial and investment topics. These seminars can be provided to the general public or to larger groups, such as corporations. No individualized advice is provided to participants. Seminars can be provided at no cost or a fee charged to participants (i.e., to help cover expenses incurred in presenting the seminar). If fees are charged, all fees and payment provisions are fully disclosed prior to the seminar being presented.

Administrative Services Provided by Orion Advisor Services, LLC

Arbor Point Advisors has engaged Orion Advisor Services, LLC ("Orion") to utilize its technology platforms to support data reconciliation, performance reporting, fee calculation and billing, research, client database maintenance, payable

reports, website administration, models, trading platforms and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, Orion has access to client accounts, but does not serve as an investment advisor to Arbor Point Advisors clients.

Orion charges Arbor Point Advisors a fee for each account administered by Orion. The annual fee is paid from the portion of the management fee retained by Arbor Point Advisors. If your account is a new account transferred to TD Ameritrade, the annual fee charged by Orion is paid by TD Ameritrade for the first full year of your account. Refer to the section *Brokerage Practices* for more details.

Orion's parent company, NorthStar Financial Services Group, LLC, maintains a minority ownership interest in Arbor Point Advisors. This ownership creates a conflict of interest when Orion works with Arbor Point because any decision to utilize Orion's services is not based solely on the services provided by Orion.

ITEM 5. FEES AND COMPENSATION

General Fee Information

Fees for management services programs are based on the complexity of your financial situation, services provided, experience and standard fees charged by your investment advisor representative and the nature and total dollar asset value of the assets maintained in your account. You and your representative can negotiate the fee, meaning fees can vary from client to client. The exact fee charged or fee schedule used is disclosed to you prior to services being provided.

Managed Accounts and Brokerage Accounts

In a managed account, your representative provides ongoing advice relative to personalized investments owned by you and charges a fee for that advice. Advisory fees charged in our management programs are separate and distinct from fees and expenses charged by mutual funds, exchange-traded funds, variable annuities or any other investment that can be recommended to you and held by you in your investment account. Descriptions of these fees and expenses are available in each investment prospectus. APA does not receive any portion of such fees charged by investment company securities held in your account. The ongoing fee for investment management services can cost you more than if the assets were held in a traditional brokerage account.

In a brokerage account, you are charged a commission for each transaction, and the representative has no duty to provide ongoing advice with respect to the account. If you plan to follow a buy and hold strategy for the account or do not wish to receive ongoing investment advice or management services, you should consider opening a brokerage account rather than an advisory account. Fees charged in our programs can be more than the cost of purchasing the same services separately. You may be able to obtain similar services for a lesser fee from other advisors. The fees charged vary among our programs and our representatives.

Representatives can charge advisory fees and/or receive solicitor's fees for advisory class products that do not pay upfront commissions or ongoing trails, such as institutional mutual fund share classes and advisory share class variable annuities (see discussions below).

While APA (or an entity on its behalf) has designed reasonable controls to monitor for the accuracy of advisory fees, we encourage you to check the accuracy of your advisory fee billings.

Commissions, Transaction Costs and Other Charges

In addition to an asset-based advisory fee, you can incur brokerage commissions, transaction charges and other fees, including “ticket charges,” related to the purchase and sale of stocks, bonds and other securities. More specifically, stocks, bonds and other securities traded in advisory accounts can be subject to commissions, mark-ups and mark-downs. With respect to mark-ups and mark-downs, they are paid to market makers and neither APA nor SAI receive any portion of the mark-ups or mark-downs.

Commissions and/or transaction ticket fees charged by the broker/dealer custodian are billed directly to your account by the broker/dealer custodian. APA does not receive any portion of such commissions or fees from you or the broker/dealer custodian. In addition, you can incur certain charges imposed by third parties other than APA in connection with investments made through your account including, but not limited to, mutual fund sales loads, 12b-1 fees and surrender charges, variable annuity fees and surrender charges, IRA and qualified retirement plan fees and charges imposed by the broker/dealer-qualified custodian(s) of your account.

Representatives receive either an advisory fee or a commission but not both. Either the APA representative pays the commissions, transaction charges or other fees or you pay those costs in addition to the management fee. However, commissions, transaction fees and other fees charged to you prior to the holdings being in an advisory account will not be waived or credited toward the investment management fee. Please contact your representative for more information about commissions and transaction charges.

Investment Assets

Annuities and Alternative Investments

Your representative can invest a portion of your assets in variable annuities or other investments and charge a management fee on these assets. Assets can also be invested in equity-indexed and fixed annuities, but these products are excluded from fee billing calculations. You pay two levels of management fees: one directly to our firm and one indirectly to the managers of the variable annuities or other investments. In addition, your representative can manage variable annuity account(s) held by insurance company custodians even though those annuity accounts are not linked to an APA advisory account. If annuity management service is provided, it is provided on a discretionary basis only and you can be subject to additional advisory fees. The underlying assets can be bought directly through the variable annuity company. You could generally avoid the second layer of fees by making your own decisions regarding the variable annuity investment. However, in that case, you would not receive the investment management services provided by your representative.

APA will not impose an asset-based advisory fee on variable annuities and unit investment trusts that were subject to an up-front load or sales charge and sold by an SAI representative at the time of purchase. Variable annuities that were purchased with an advisory share class (e.g., I shares) can be linked for the purpose of collecting a management fee and/or exercising discretion. Please consult with your representative if you have any questions regarding this policy.

In addition, APA excludes the value of any investment it designates as an “alternative investment product” from an asset-based advisory fee if you purchased it in a commission-based account through a registered representative of SAI and then transferred it to an advisory account. (See discussion below regarding converting a commission account to an advisory account.) Alternative investments include, but are not limited to, venture capital, private equity, hedge fund, managed futures and real estate investment trust products. However, if an alternative investment product was purchased at net asset value (NAV) (in other words, purchased with no commission), then that alternative investment product can be subject to an asset-based advisory fee.

Funds

Your representative can also invest a portion of your assets in mutual funds or exchange-traded funds and charge a management fee on assets invested in these securities. Therefore, you pay two levels of management fees: one directly to our firm and one indirectly to the managers of the mutual funds or exchange-traded funds held in your portfolios.

The underlying assets can be bought directly through the mutual fund company. You could generally avoid the second layer of fees by making your own decisions regarding the mutual fund or exchange-traded fund. However, in that case, you would not receive the investment management services provided by your representative. Representatives using third-party money managers for funds held directly with the product sponsor cannot receive an additional solicitor's fee if they received an upfront commission, ongoing trails or 12b-1 fees.

Share Classes

Mutual funds typically offer multiple share classes based upon certain eligibility and/or purchase requirements. The more commonly offered retail mutual funds share classes (e.g., Class A, B and C) have varying initial investment amounts, sales loads, 12b-1 fees and breakpoints to consider. Mutual funds can also offer institutional or advisor share classes ("lower cost share classes") or other share classes that are designed for purchase in an investment advisory program account (e.g., Class I, "institutional," "investor," etc.). These lower cost share classes usually have a lower expense ratio than retail share classes.

APA and its investment advisor representatives have a financial incentive to recommend or select share classes that have higher expense ratios because such classes generally result in higher compensation. This creates a conflict of interest. APA has implemented policies and procedures to manage this conflict of interest, including those described in more detail below.

Conversion from Commission to Fee-Based Advisory Account

Representatives can recommend that products on which they previously received a commission be converted to a fee-based advisory account. This recommendation can be considered a conflict of interest, and we manage the conflict through written disclosure to you and by imposing reasonable controls designed to monitor for this activity. Mutual funds moved from a commission account to a fee-based advisory account will be converted to a lower-cost share class when one is available and on the Mutual Fund Approved Product List. But note the application of transaction charges when converting to the lower cost share class can result in a higher overall expense to the client.

Mutual Fund Approved Product List

To help mitigate conflicts of interest and meet current regulatory expectations, APA has created an Approved Products List which it keeps updated on a regular basis. Mutual funds placed on the Approved Products List are chosen based on several factors, including expense ratio, availability and supervision practicality. APA requires that all mutual fund purchases in advisory accounts be made in the share class specified for each fund on the Approved Products List. However, to the extent an advisory account includes mutual fund holdings not approved as to both fund and share class, those funds can continue to be held in that account but no new purchases are permitted. If any funds currently held in advisory accounts are on the Approved

Products List but not held in an approved class, APA will convert those holdings to an approved share class at no cost to you and without tax consequence (in most cases).

APA uses its best efforts to include only the lowest-cost share class available to APA's investors for each mutual fund on the Approved Products List. In some instances, a fund share class may not be included on the Approved Products List because it has a high or prohibitive minimum purchase requirement. Thus, a lower-cost fund share class may be offered by a fund family but not on the Approved Product List. Clients seeking to make such an investment should speak to their representative about the ability to purchase funds in share classes not on the Approved Products List through APA granting an exception to its policy.

Even if a share class is included on the Approved Products List, clients should understand that, in many cases, the share class offered for a particular fund will not be the least expensive share class available from that fund. Also, other financial services firms may offer the same mutual fund at a lower overall cost to the investor than is available through APA.

Fees for the Asset Management Services Program

The maximum annual fee charged in the Asset Management Services Program is 3%. Our advisor representatives charge either (1) a fixed flat percentage fee on the total assets in the account, (2) a tiered fee schedule where the fee is calculated by applying different (decreasing) rates to different portions of the account (tiers) or (3) a linear fee where the percentage-based fee is lowered as asset volume thresholds are met. In a tiered fee schedule, assets in each tier are charged at the tier's corresponding rate. In a linear fee schedule, once assets in the account exceed a set threshold, all of the assets are then charged at the lower percentage rate. Your advisor representative can choose to "bundle" related Asset Management Program accounts for you to achieve a break on management fees. Account bundling can be done on accounts with the same fee schedule and with clients in the same immediate family or under the same qualified plan. When accounts are bundled, the total average daily balance or period ending balance for all of the bundled accounts is used to determine the fee percentage from the fee schedule. This percentage is then applied to each account and a fee charged to each account respectively.

APA retains up to 0.25% of the investment advisor representative's annualized management fee as compensation for providing administrative and support services. APA and the representative then splits the balance of the annualized management fee by a pre-determined payout schedule. Account bundling does not reduce our administrative fee; each account is priced separately for purposes of our administrative fee.

Management fees are billed in advance or arrears, as disclosed in the fee schedule, with the exception of the initial fee. The initial fee is billed in arrears based on the number of days that services were provided during the first billing period. Fees are calculated at the beginning of each period (monthly or quarterly) based on either the Average Daily Balance (ADB) or the Period Ending Balance (PEB) of the account assets under management for the previous period. APA retains the right to change the basis (ADB or PEB) upon which the management fee is calculated and/or the timing of billing (advance or arrears).

The market value of variable annuity accounts included in your portfolio can be included in calculating management fees. Fixed and fixed annuity holdings linked to your account are excluded from fee billing calculations as well as from management and/or valuation services. APA might not receive daily account valuation information for variable annuities from the insurance companies or their custodians. In limited circumstances, management fees on certain variable annuity accounts can be based on the weekly or monthly average balance. You can pay more or less in management fees charged when the pricing is based on a weekly or monthly average balance compared to

management fees charged when the pricing is based on the ADB. The ADB does not take into account unpriced securities or any days when accounts have a zero balance. You can also be assessed ticket charges on account transactions and other miscellaneous charges by the qualified custodian on account transactions. Miscellaneous charges can include custodial fees levied by the custodian, and account assets can also be subject to additional fees and expenses as explained in the prospectus for mutual funds or exchange traded funds. At its discretion, APA and/or the investment advisor representative can exclude certain assets from the calculation of management fees.

Management fees are automatically deducted from your account according to authorization provided in your agreement for services. On an exception basis, you can have management fees paid from other accounts or billed directly by invoice. In such cases, management fee debits will be noted as zero on account statements. However, any method of paying management fees other than deducting them from your account can result in additional charges being imposed to cover associated administrative costs. Management fees cannot be withdrawn or deducted from any variable annuity that is part of the account or which is being managed by your representative.

If fees are deducted from an account, clients agree to maintain cash in an account investment vehicle to pay for fees and any other charges. If a client has not maintained adequate cash in the account to pay fees or other charges, APA reserves the right to direct the broker/dealer-custodian to liquidate a portion of other account assets to cover those costs.

Depending on the investment services provided and on the custodian selected by client, assets in excess of a threshold amount (as determined from time to time by APA) deposited into or withdrawn from the account by the client can be charged or refunded a pro-rated portion of the management fee based on the number of days during the billing period the assets were held in the account.

Sub-Advisor Fees in the Asset Management Services Program

Fees charged by an outside money manager or sub-advisor will be fully disclosed to the client. Sub-advisor or money manager fees can be paid by the investment advisor representative from the management fee he or she receives as disclosed in the client fee schedule. Paying fees to a money manager or sub-advisor can result in increased fees to the client. If outside money manager or sub-advisor fees are not included in the management fee received by the representative, then the client is solely responsible for their payment.

Brokerage, Custodial and Clearing Fees in the Asset Management Services Program

Commissions and other transaction charges, and any charge relating to the custody of securities in the account, can be paid by the investment advisor representative from the management fee received. If the representative discloses that such fees are not included in the management fee charged, the brokerage commissions and/or transaction ticket fees charged by the broker/dealer-custodian are billed directly to the client's account by the broker/dealer-custodian. APA and its representative do not receive any portion of such commissions or fees from the client or the broker/dealer-custodian.

Fees for the Participant Retirement Program

You pay management fees to Arbor Point Advisors and your representative pursuant to the provisions of a client fee schedule, with a maximum 3% annual fee charged. The fee can be a fixed percentage fee on the total assets in your account or a tiered fee schedule where the percentage-based fee is lowered as assets in your accounts increase. The exact fee charged or fee schedule used is disclosed prior to services being provided.

Fees are negotiated based on the complexity of your financial situation, the investment services to be provided, the experience and standard fees charged by your representative and the nature and total dollar value of Plan Assets maintained in your account. The management fee covers only the investment management services provided by us

and does not include brokerage commissions or other costs associated with the purchase and sale of securities, custodial fees, interest, taxes or other account expenses.

Arbor Point Advisors retains up to 25 basis points (0.25%) of the annual fee charged to your account for the administrative and support services we provide. Although not required, we can bundle your related accounts to achieve a break on management fees. Account bundling does not reduce our administrative fee; each account is priced separately for purposes of the administrative fee. Account bundling can be done on accounts with the same fee schedule and with clients in the same immediate family or under the same qualified plan. When accounts are bundled, the total average daily balance (ADB) or total period ending balance (PEB) for all of the bundled accounts is used to determine the applicable fee percentage from the client fee schedule. This percentage is then applied to each account and a fee charged to each respectively.

Fees are calculated at the beginning of each period (monthly or quarterly) based on either the ADB or the PEB of the account assets under management for the previous period. Frequency (monthly or quarterly) and basis (ADB or PEB) will be disclosed in the fee schedule. Management fees will be billed either in advance or arrears, as disclosed in the fee schedule, with the exception of the initial fee. The initial fee is billed in arrears based on the number of days that services are provided during the first billing period. APA retains the right to change the basis (ADB or PEB) upon which the management fee is calculated and/or the timing of billing (advance or arrears). At its discretion, APA and/or our representative may exclude certain assets from the calculation of management fees.

If your account has not maintained adequate cash in the account to pay management or other fees, APA reserves the right to direct Fidelity Institutional Wealth Services to liquidate, at any time, a portion of other Plan Assets to cover the charges. You should review the documents establishing the Fidelity account for details on the tax reporting treatment of deducting management fees.

Depending upon the investment services provided, assets in excess of a threshold amount (as determined from time to time by APA) deposited into or withdrawn from the account by you may be charged or refunded a pro-rated portion of the management fee based on the number of days during the billing period the assets were held in the account.

Fees for Financial Planning Services

The fee ranges detailed in this section are indicative of the standard fees typically charged. In some instances, fees higher than those stated may be charged if the scope of the contracted project warrants a higher fee. Investment advisor representatives charge an hourly fee, a fixed fee or a percentage of the assets on which the representative is providing financial planning and/or consultation services. Hourly fees for financial planning and consultation services are generally charged at a rate of up to \$750 or more per hour. As an alternative, a flat fee can be charged. Flat fees for financial planning and consultation services can range up to \$15,000 or more. Clients contracting for ongoing financial planning and consultation services can be charged an annual, semi-annual, quarterly or monthly retainer fee. This retainer fee is charged as a flat fee or a percentage of assets on which the investment advisor representative is providing advice. The maximum percentage charged is 3% of the value of assets on which the consulting services are provided.

All fees are negotiable and you and your representative jointly determine the exact fee and how it is to be paid. Fees are negotiable based on the services provided, the complexity of your personal circumstances, your financial situation, your gross income, the experience and standard fees charged by your representative and the nature and total dollar asset value of the assets on which services are provided. In addition, fees can be negotiated based on whether you have assets under management with your representative. All fees are agreed upon prior to entering into a contract. At the sole discretion of your representative, fees can be waived or reduced if you buy products or enter into agreements for other services with your representative.

Fees can be charged to clients in advance of services being provided, upon completion of services provided or with a portion of the fee charged in advance and the remaining balance due upon completion and/or receiving an invoice from APA. Fees for ongoing services are due upon receiving an invoice from APA.

Financial plans are generally presented to you within 90 days of signing the client agreement, as long as all information needed to prepare the plan has been promptly provided by you. We do not collect fees of more than \$1,200 six or more months in advance.

Additionally, APA and its representatives provide educational seminars and workshops at no charge or for fees that generally do not exceed \$15,000. APA and/or its representatives may also be entitled to receive reimbursement from product sponsors for seminar expenses if disclosed and agreed to in advance by seminar attendees or sponsors. Refer to the section *Client Referrals and Other Compensation* for more details.

You have sole discretion whether or not to implement any or all advisory recommendations. If you elect to implement, you are not under any obligation to engage APA's representatives who can also be SAI registered representatives. You can engage individuals from non-affiliated broker/dealers to implement the advisory recommendations. If you select an individual from a non-affiliated broker/dealer, you would not receive the services provided by your investment advisor representative.

Fees for Retirement Plan Advisory Services

Fees for retirement plan advisory services can be paid as an asset-based fee (or level commissions in lieu thereof) or flat fee paid on a set schedule provided to your advisory account, although some legacy accounts can instead be charged advisory fees or level commissions. Management fees are calculated by the plan sponsor on our behalf. Details of the compensation calculation and payment methods are disclosed in the Retirement Plan Advisory Agreement, investment product prospectus and/or other document executed when the account is established. Your representative can provide copies of these documents and additional specific details.

In addition to the fees for retirement plan advisory services provided, plan assets invested in products (i.e., mutual funds, group variable annuities and/or other retirement plan investment vehicles) bear the operating expenses and cost of investing in those products, which can include sales charges or redemption fees. Those expenses are detailed in the product's prospectus, contract or related disclosure document. If the plan incurs such fees or costs as a result of the services provided, the named fiduciary acknowledges (on behalf of the plan, its participants and beneficiaries) that the fees or costs will be assessed on the purchase or deducted from redemption proceeds in accordance with the conditions set forth in the investment product's prospectus, contract or related disclosure documents. The plan may incur fees and other expenses including, but not limited to, investment-related expenses imposed by other service providers not affiliated with APA or its representative and other fees and expenses charged by the plan's custodian, third-party administrator and/or record keeper. APA and its representative make no representations about any costs or expenses associated with the services provided by third parties.

At no time will APA act as custodian of the plan or have direct access to the plan's funds and/or securities. A qualified independent custodian maintains custody of all assets, funds and securities. All fees and charges are noted on the plan's custodial account statements. The plan sponsor is responsible for verifying the accuracy of the fee calculation.

On an exception basis, if you have an account established through our firm, the plan can have its management fees paid from other accounts or have us bill the plan directly by invoice.

Fees for Referrals to Third-Party Money Managers

When referring clients to third-party money managers, APA and our representatives are compensated by those managers through solicitor or consulting fees, and the fees paid to us differ among recommended managers. We can receive marketing override fees or preferred sponsor fees from third-party money managers. If we do not receive marketing override fees or preferred sponsor fees, then we can retain up to 10% of the investment advisor representative's solicitation fees or consulting fees from those programs.

Fees can be negotiated but generally range from .10% to 3% annually, depending upon the manager selected, the size of the account and the services covered. Under some third-party manager programs, an inclusive fee covers account management, brokerage, clearance, custody and administrative services. In other programs, the account can be charged separately for such services. The amount of the fees, services provided, payment structure, termination provisions and other aspects of each program are detailed and disclosed in each manager's disclosure brochures, client agreements and account opening documents. APA and your representative share in a portion of the fee charged by the third-party money manager, which varies from program to program. You can request the shared amount from us and we will provide that information to you.

In mutual fund/variable annuity programs, your representative assists you in selecting various strategies consisting of model portfolios of mutual funds and/or variable annuity sub-accounts. Your representative also assists you in designating certain of your existing investment in mutual funds and/or variable annuities to be managed by a third-party investment advisor firm. APA and its representatives do not manage or obtain discretionary authority over the assets in accounts participating in these programs. The third-party advisor either rebalances the mutual funds, variable annuity sub-accounts or model portfolios selected by you on a pre-determined schedule or actively manages a portfolio of mutual funds and/or variable annuity sub-accounts in accordance with your stated general strategy or objectives.

As agreed upon between you and your representative, annual fees are charged as a percentage of assets under management and charged monthly or quarterly either in advance or arrears. Before any services are provided, your representative quotes an exact percentage to you based on the nature and total asset value of that account.

Compensation for the Sale of Securities or Other Investment Products

Your representative receives compensation as a result of your participation in our programs or for providing advisory services to you. Fees for investment supervisory services can vary and can be more than the cost of purchasing the same services separately. You may be able to obtain similar services for a lesser fee from other advisors not affiliated with APA or SAI. The amount of compensation APA or your representative can receive in a particular program can be more than would be received if you participated in other APA programs or paid separately for investment advice, brokerage and other services. For example, we have a conflict of interest by only offering those third-party money managers that have agreed to pay a portion of their advisory fee to us and have met the conditions of our due diligence review. In addition, we can have an incentive to recommend a money manager that agrees to allocate a higher portion of the total fee to our firm over other money managers that allocate a lower percentage to our firm. There may be other third-party money managers that are suitable for you and/or may be more or less costly. No guarantees can be made that your financial goals or objectives will be achieved. Further, no guarantees of performance can be offered.

The amount of compensation APA or your representative receives in a particular program or for a particular service can be more than would be received if you participated in other APA programs or paid separately for investment advice, brokerage and other services. Your representative is not under any obligation to promote or use one money manager over another. You may want to consider the following factors when determining the reasonableness of the fees charged:

- The cost of developing investment strategies and managing the assets.
- The cost of producing performance reports covering the managed assets.
- The cost of administrative, marketing and website services.
- Transaction and custody costs or other miscellaneous fees, taxes or charges, as well as commissions or mark-ups and mark-downs on the purchase and sale of securities. Neither APA nor SAI receive any portion of mark-ups or mark-downs but market makers may receive this type of compensation.
- The value of the services provided in assisting you in designing, establishing and monitoring the managed assets.
- The cost of the additional administrative, marketing, asset management and other support services that may be provided in the management of a program account.

Your representative may also be a registered representative of SAI and able to effect securities transactions and receive commissions in that separate capacity. Your representative may also be licensed as an insurance agent and sell insurance products for commissions in that separate capacity. SAI registered representatives have the discretion to determine the amount of commission charged to clients on products other than mutual funds or insurance products.

Receiving compensation from a variety of sources can be considered a conflict of interest. In addition to the advisory fees disclosed in your advisory agreement or commissions you pay for the purchase of securities and insurance products, your representative can receive additional compensation (including bonuses and non-cash compensation) for selling certain securities or other investment products. Examples of non-cash compensation include receiving due diligence and/or marketing allowance payments from certain sponsors. While the arrangements with each sponsor can vary, each product sponsor can pay a due diligence or marketing allowance fee based upon the amount of assets held at the sponsor or on the gross amount of each sale, depending upon the product. In certain cases, additional payments are paid or directed to APA or SAI for selling these products. This can create a conflict of interest based on the amount of compensation APA or SAI receives when recommending one investment product over another. As a result, certain incentives and conflicts of interest can exist for your representative if you buy certain products or services recommended by him or her. We encourage you to review this Brochure closely and discuss any conflicts of interest with your representative.

With respect to advisory services provided under a Retirement Plan Advisory Agreement, affiliates of APA can provide securities brokerage, recordkeeping or other retirement services to plans and receive variable compensation for these services. A conflict of interest can arise where APA recommends the retirement services of those affiliates.

SAI, our employees and your representative can benefit from the compensation paid to us and can directly or indirectly receive a portion of those fees, commissions or other compensation paid by retirement services clients. Those clients can also use other products or retirement services available from or through us and in such case pay additional compensation. This practice creates a potential conflict of interest that can give us and your representative an incentive to recommend advisory retirement services based on the compensation received. Additionally, fees and commissions can also be higher for some brokerage products, services or retirement services. The remuneration and profitability to us, our representatives and affiliates resulting from transactions involving some accounts can be greater than the remuneration and profitability resulting from other advisory accounts, products or retirement services. We manage this conflict through written disclosure to you and by imposing reasonable controls designed to address the suitability of advisor products offered to you. We can also offset or refund additional compensation when required by law.

Other Fees

Investment advisor representatives can sell various investment products offered by subsidiaries of LTFS. Representatives can make referrals for investment banking services and trust services through LTFS and/or its subsidiaries. SAFC, the parent of SAI and APA, is a wholly owned subsidiary of LTFS and, therefore, a potential conflict of interest can exist when representatives recommend these products or services. Due to the interrelationship of these entities, conflicts of interest can arise that are not readily apparent to you. Through SAI and LTFS, SAFC can engage in marketing re-allowance or sponsorship arrangements with third parties, sub-advisors, and brokerage firms to promote the distribution of investment products, including variable annuity and insurance products, mutual funds, managed accounts and customized portfolios. These additional engagements may not necessarily result in additional assets under management with our firm. Representatives are under no obligation to sell these products or to meet any selling quotas related specifically to these products. We encourage you to review this Brochure closely and discuss any potential conflicts of interest with your representative.

An outside third-party money manager recommended by our firm can use our broker/dealer affiliate, SAI, and investment advisor representatives, who can also be SAI registered representatives, to implement recommended transactions for separate compensation, provided that the use of SAI is consistent with the manager's obligation of best execution. We recognize your unrestricted right to select and choose any broker or dealer you wish, except in situations where we or a recommended manager is given discretionary authority over your account. However, no manager is under any obligation to use our broker/dealer affiliate for any securities transactions.

Representatives can receive fees for referring you to Premier Trust for trust services. Representatives can also receive fees for referring you to Ladenburg Thalmann for investment banking services or Ladenburg Thalmann Asset Management's \$ymbil Program. These fees can be paid on an ongoing basis and can continue even if your relationship with the representative and/or Securities America is terminated.

Your representative and APA can refer you to a third-party lending institution if you wish to obtain a loan using your securities as collateral. APA can receive a fee for such a referral; any fee received will not reduce your advisory management fee. Additionally, similar securities-based loans may be available to you for a lower overall cost from other providers. If the assets securing the loan are in an advisory account, the management fee is still being assessed to the entire account, plus any interest charged by the third-party lender.

Certain securities, such as over-the-counter stocks and fixed income securities are traded primarily in "dealer" markets. In such markets, securities are directly purchased from, or sold to, a financial institution acting as a dealer or "principal." Dealers executing principal trades typically include a "mark-up," "mark-down," and/or spread in the net price at which transactions are executed. Your representative can recommend certain bond trade transactions on a discretionary or non-discretionary basis using the Ladenburg Thalmann Fixed Income desk. In these instances, our affiliate, Ladenburg Thalmann & Co. (LTCO), executes a transaction for a security traded in the dealer markets; LTCO will either execute the transaction as agent through a dealer unaffiliated with LTCO or as principal in accordance with applicable law. Those accounts covered under *ERISA* are exempt from principal transactions. Clients in our advisory program may not pay commissions or separate transaction charges to LTCO in connection with these transactions; however, the client will bear the cost (including any mark-up, mark-down, and/or spread) imposed by the dealer as part of the price of the security. Thus, the dealer will receive compensation in connection with most principal trades. APA has a conflict of interest in using LTCO to execute principal transactions because LTCO will receive compensation in connection with the trade as dealer, which is in addition to the advisory program fee. For more information about how this conflict of interest is addressed, see *Policy Regarding Engaging in Principal Trading Involving Advisory Accounts* section below.

Offerings and Special Transactions

Clients can purchase securities through broker/dealers in initial public offerings, secondary offerings and special purpose acquisition company transactions. An affiliate of our firm can act as an underwriter or manager for such offerings and, as such, will receive compensation equal to either all or a portion of "gross spread" (the difference between the price the client pays for the security and the price at which it purchased the securities). Our firm can also receive a portion of the gross spread as a member of the selling syndicate. The advisory fee is not reduced to offset this compensation. The amount of the gross spread is described in the relevant prospectus, offering circular or official statement.

Our firm can share a portion of payments received from a mutual fund or in connection with an initial public offering, a secondary offering and/or a private placement with your investment advisor representative. This conflict of interest is heightened when your representative recommends securities where our firm is a member of the selling syndicate because your investment advisor representative typically receives more compensation in connection with these securities than in connection with other types of securities. Your representative can also have a heightened conflict of interest when recommending funds that pay compensation because he or she can receive a portion of that compensation. Your investment advisor representative can favor certain clients when offering initial public offerings, secondary offerings and other follow-on offerings. Trade allocation is determined on a basis that is fair, reasonable and equitable to those selected clients and that meets the clients' investment objectives. Factors such as the size of the account and the account's investment objectives can be taken into account when allocating investments. When an order is only partially filled, the security is allocated to accounts pro-rata to the allocation of the original order quantities. Commission and transaction costs are allocated to each account pro-rata.

With respect to initial public offerings, secondary offerings and other follow-on offerings, an allocation pro-rata to the original order quantity is applied where demand exceeds supply. Where it is not possible to apply this policy in any particular trade, efforts will be made to allocate the next investment opportunities so that clients participating in the offerings over time, irrespective of account size, receive equitable treatment in the filling of orders.

Retirement Services

Our representatives also provide services to clients' retirement accounts, such as individual retirement accounts (IRAs) and retirement plans. Our services to IRA clients include those described above. Please note: a client leaving an employer typically has four options (and may engage in a combination of these options):

- (i) Leave the money in the former employer's plan, if permitted
- (ii) Roll over the assets to the new employer's plan, if one is available and rollovers are permitted
- (iii) Rollover to an IRA
- (iv) Cash out the account value (which could, depending upon the client's age, result in adverse tax consequences)

Our representatives can recommend an investor roll over plan assets to an IRA which our representative would manage. As a result, we can earn an asset-based fee. In contrast, a recommendation that a client or prospective client leave his or her plan assets with his or her old employer, or roll the assets to a plan sponsored by a new employer will generally result in no compensation to us (unless we are engaged to monitor and/or consult on the account while maintained at the existing plan). Therefore, our representatives can have an economic incentive to encourage an investor to roll plan assets into an IRA that we will manage or encourage an investor to engage us to monitor and/or consult on the account maintained at the existing plan.

There are various factors that we can consider before recommending a rollover, including but not limited to:

- (i) The investment options available in the plan versus the investment options available in an IRA
- (ii) Fees and expenses in the plan versus the fees and expenses in an IRA
- (iii) The services and responsiveness of the plan's investment professionals versus ours
- (iv) Strategies for the protection of assets from creditors and legal judgments
- (v) Required minimum distributions and age considerations
- (vi) Employer stock tax consequences, if any

The following exception to the early withdrawal penalty applies only to distributions from a qualified retirement plan other than an IRA: distributions made to you after you separated from service with your employer if the separation occurred in or after the year you reached age 55. No client is under any obligation to rollover plan assets to an IRA managed by us or to engage our representative to monitor and/or consult on an account maintained at an existing plan. Please note that a recommendation to roll assets out of an employer-sponsored plan into an IRA will most likely result in more expenses and charges than if the assets were to remain in the plan.

You should speak to your representative to address any questions that a client or prospective client may have regarding its prospective engagement and the corresponding conflict of interest presented by such engagement.

ITEM 6. PERFORMANCE BASED-FEES AND SIDE-BY-SIDE MANAGEMENT

Performance-based fees are defined as fees based on a share of capital gains on or capital appreciation of the assets held in a client's account. Arbor Point Advisors does not charge or accept performance-based fees.

We do not provide side-by-side management of mutual funds and other assets.

ITEM 7. TYPES OF CLIENTS

We generally provide investment advice to:

- (1) Individuals
- (2) High net worth individuals
- (3) Banks or thrift institutions
- (4) Pension and profit-sharing plans
- (5) Charitable organizations
- (6) Corporations or business entities
- (7) State and municipal governmental entities

We do not impose a minimum investment amount or other requirement for our financial planning services.

Arbor Point Advisors generally requires a minimum of \$25,000 to open an Asset Management Services account. Exceptions to the minimum can be granted if negotiated between yourself, APA and your representative. If the market value of the account falls below the stated minimum, APA has the right to require that additional monies or securities be deposited to bring the account value up to the required minimum. APA also has the option to terminate the agreement.

There is no minimum requirement to establish or maintain a Participant Retirement Program account.

Third-party money managers may have minimum account and minimum fee requirements in order to participate in their programs. Each-third party money manager will disclose its minimum account size and fees in its Form ADV Part 2A Disclosure Brochure.

ITEM 8. METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Our investment advisor representatives use various methods of analysis and investment strategies. Therefore, methods and strategies will vary based on the advisor representative providing advice. Models and strategies used by one advisor representative may be different than strategies used by other representatives.

Some investment advisor representatives may use just one method or strategy while others may rely on multiple strategies. Arbor Point Advisors does not require or mandate that a particular investment strategy be implemented by its advisor representatives. Further, Arbor Point Advisors has no requirements for using a particular analysis method and advisor representatives are provided flexibility (subject to Arbor Point Advisors supervision and compliance requirements) when developing their investment strategies.

The following sections provide brief descriptions of some of the more common methods of analysis and investment strategies that are used by Arbor Point Advisors investment advisor representatives.

Methods of Analysis

Security analysis methods may include:

- **Cyclical** – This method analyzes the investments sensitive to business cycles and whose performance is strongly tied to the overall economy. For example, cyclical companies tend to make products or provide services that are in lower demand during downturns in the economy and in higher demand during upswings. Examples include the automobile, steel, and housing industries. The stock price of a cyclical company rises just before an economic upturn begins and fall just before a downturn begins. Investors in cyclical stocks try to make the largest gains by buying the stock at the bottom of a business cycle, just before a turnaround begins.

While most economists and investors agree that there are cycles in the economy that need to be respected, the duration of such cycles is generally unknown. An investment decision to buy at the bottom of a business cycle may actually turn out to be a trade that occurs before or after the bottom of the cycle. If done before the bottom, then downside price action can result prior to any gains. If done after the bottom, then some upside price action may be missed. Similarly, a sell decision meant to occur at the top of a cycle may result in missed opportunity or unrealized losses.

- **Fundamental** – This is a method of evaluating a security by attempting to measure its intrinsic value by examining related economic, financial and other qualitative and quantitative factors. Fundamental analysts attempt to study everything that can affect the security's value, including macroeconomic factors (like the overall economy and industry conditions) and individually specific factors (like the financial condition and management of a company). The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security's current price in hopes of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short). Fundamental analysis is considered to be the opposite of technical analysis. Fundamental analysis is about using real data to evaluate a security's value. Although most analysts use fundamental analysis to value stocks, this method of valuation can be used for just about any type of security.

The risk associated with fundamental analysis is that it is somewhat subjective. While a quantitative approach is possible, fundamental analysis usually entails a qualitative assessment of how market forces interact with one another in their impact on the investment in question. It is possible for those market forces to point in different directions, thus necessitating an interpretation of which forces will be dominant. This interpretation may be wrong and could therefore lead to an unfavorable investment decision.

- Technical – This is a method of evaluating securities by analyzing statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security's intrinsic value but instead use charts and other tools to identify patterns that can suggest future activity. Technical analysts believe that the historical performance of stocks and markets are indications of future performance.

Technical analysis is even more subjective than fundamental analysis because it relies on proper interpretation of a given security's price and trading volume data. A decision might be made based on a historical move in a certain direction that was accompanied by heavy volume; however, that heavy volume may only be heavy relative to past volume for the security in question, but not compared to the future trading volume. Therefore, there is the risk of a trading decision being made incorrectly, since future trading volume is an unknown. Technical analysis is also done through observation of various market sentiment readings, many of which are quantitative. Market sentiment gauges the relative degree of bullishness and bearishness in a given security, and a contrarian investor utilizes such sentiment advantageously. When most traders are bullish, then there are very few traders left in a position to buy the security in question, so it becomes advantageous to sell it ahead of the crowd. When most traders are bearish, then there are very few traders left in a position to sell the security in question, so it becomes advantageous to buy it ahead of the crowd. The risk in utilization of such sentiment technical measures is that a very bullish reading can always become more bullish, resulting in lost opportunity if the money manager chooses to act upon the bullish signal by selling out of a position. The reverse is also true in that a bearish reading of sentiment can always become more bearish, which may result in a premature purchase of a security.

The main sources of information include (1) financial newspapers and magazines, (2) inspections of corporate activities, (3) research materials prepared by others, (4) timing services, (5) annual reports, prospectuses, filings with the Securities and Exchange Commission and (6) company press releases.

Your representative has access to third party vendors that provide programs or software to analyze individual securities. We also offer your representative access to third party vendors that provide support services in portfolio design and strategy implementation. One of our affiliates, Ladenburg Thalmann & Co., provides research designed to help clients capitalize on inefficiencies in the market. Their institutional quality research provides their partners with value-added insights that enables their decision-making processes, informs their strategies and allows them to address critical market issues. Your representative can use the services of Ladenburg Thalmann & Co. in addition to other third-party services made available. Refer to the section *Other Financial Industry Activities and Affiliations* for more information about our affiliates.

At the request of Arbor Point Advisors or SAI, Ladenburg Thalmann Asset Management may provide model allocations, including strategy performance and standard deviation information. These model allocations are selected based upon criteria established by Arbor Point Advisors or SAI. Your investment advisor representative can use this information in constructing your portfolio. Ladenburg Thalmann Asset Management can also provide your investment advisor representative with research information pertaining to exchange traded funds traded in the United States.

Investment Strategies

Various investment strategies can be employed in our programs and when providing advisory services, including (1) long-term purchases (securities held at least one year), (2) short-term purchases (securities sold within a year), (3) trading securities (securities sold within 30 days), (4) short sales, (5) margin transactions and (6) option writing (including covered options, uncovered options or spreading strategies)

A specific investment strategy or investment policy is determined for you focusing on your specific goals and objectives. Investment strategies and philosophies used in our managed programs or when providing advisory services vary based on the advice provided by your representative. Models and strategies used by one representative can be different than models and strategies used by other representatives. Some representatives limit their advice to mutual funds and others provide advice on a full range of securities that include equities, mutual funds, options, fixed income and other types of investments. Some representatives will develop models or strategies that are generally applied to their clients while other representatives will develop individualized portfolios for each client.

For all accounts, a specific investment strategy or investment policy is determined for you focusing on your specific financial situation, goals and objectives. Your representative is responsible for developing and determining the investment strategies used with your accounts. He or she is also responsible for monitoring your portfolios and, when appropriate, reallocating the portfolios based on changing market conditions, changes in your individual circumstances or other factors. If your account is managed on a discretionary basis, reallocations are implemented without prior notice to you. If the account is managed on a non-discretionary basis, you will be consulted prior to any securities being reallocated.

If your individual situation changes, you should notify your representative who will assist you in revising the current portfolio and/or prepare an updated client profile so that he or she can determine if a different model portfolio would be appropriate to your new situation. You may also directly contact the third-party advisor managing the account.

It is important that you understand the concept and risks inherent in exchanging an investment from one position to another. Some investment decisions result in profit and others in losses. Arbor Point Advisors and your investment advisor representative cannot guarantee that the objectives of any investment program will be achieved. Furthermore, it is important that you understand that exchanging shares of one mutual fund for shares of another mutual fund is treated as a sale for federal income tax purposes and that capital gains or losses may be realized unless you are eligible for tax deferral under a qualified retirement plan.

In limited circumstances, your investment advisor representative or third-party money manager may engage in a strategy involving frequent trading. You should consider the following points before entering into an advisory relationship where such trading occurs:

- Active trading can be extremely risky and is not appropriate for someone with limited resources and limited investment trading or trading experience and low risk tolerance. You should be prepared to lose all of the funds that you invest in securities. You should not invest funds necessary to meet your regular, on-going personal needs. In particular, you should not fund this type of trading with retirement savings, student loans, second mortgages, emergency funds, funds set aside for purposes such as education or home ownership or funds required to meet your living expenses.
- Active trading may result in few or no profits and, worse, may lead to large financial losses very quickly. Active trading requires in-depth active knowledge of the securities market and of

sophisticated and disciplined trading techniques and strategies. Also, you must compete with professional, licensed traders employed by securities firms and other knowledgeable, experienced and well-trained traders. You should have appropriate knowledge and experience before engaging in active trading. You should be familiar with a securities firm's business practices, including the operation of the firm's order execution systems and procedures. Under certain conditions, you may find it difficult or impossible to liquidate a position quickly at a reasonable price. Your success will be affected by strengths and weaknesses and the methods and practices of the brokerage firm in executing trades. You should develop an intimate knowledge of these matters before you engage in an active trading strategy.

- Active trading may involve aggressive trading, and you can generally expect to pay commissions, ticket and transaction charges on each trade. The total daily commissions that you pay on your trades will add to your losses or significantly reduce your earnings. For instance, assuming each trade costs \$16 and an average of 29 transactions are conducted per day, you would need to generate an annual profit of \$111,360 just to cover trading costs.
- Active trading can result in tax consequences due to shorter-term purchases and sells. You may want to consult your tax professional for advice. Your portfolio may tend to be more volatile with shorter term or more active trading.

Risk of Loss

Investment portfolios, programs, models, asset allocations or strategies entail the risk of loss, and values and returns fluctuate over time. While we seek to limit any losses, there have been periods of loss in the past and there will likely be others in the future. Arbor Point Advisors and our investment advisor representatives emphasize investment returns, particularly over shorter time periods, that depend on trends in the various investment markets. Thus, our investment management services are generally suitable only for long-term investment objectives or strategies rather than for short-term trading purposes. Diversification does not guarantee a profit or guarantee to protect you against loss, and there is no guarantee that your investment objectives will be achieved. These programs, portfolios, models, asset allocations and strategies are not FDIC insured and the investments in them may lose value. All investment programs have certain risks that are borne by you. Our investment approach constantly keeps the risk of loss in mind. You face the following investment risks:

- **Market Risk**: This type of risk is caused by external factors independent of a security's particular underlying circumstances. Markets can, as a whole, go up or down on various news releases for no understandable reason at all. This sometimes means that the price of specific securities can go up or down without any real reason and take some time to recover any lost value. Adding securities does not help to minimize this risk since all securities may be impacted by market fluctuations.
- **Short-Term Trading Risk**: These types of transactions may result in short-term gains or losses for federal and state tax purposes, which may be taxed at a higher rate than long-term strategies. APA and your representative attempt to invest your assets in a tax efficient manner, but you should consult with your tax professional regarding transactions in your account.
- **Investment Term Risk**: If you require us to liquidate your portfolio during a period in which the price of the security is low, you will not realize as much value as you would had the investment had the opportunity to increase or regain its value (as investments frequently do) or had we been able to reinvest in another security.

- Short Sales Risk: Short sales are motivated by the belief that a security's price will decline, enabling it to be bought back at a lower price to make a profit. The maximum gain on a short sale is limited but the maximum loss is theoretically infinite. Short sales also involve significant expenses, dividend responsibilities, possible regulatory prohibitions and critical timing considerations that impact potential profitability.
- Margin Risk: If you engage in margin transactions then you are borrowing funds to purchase securities using loans for which your portfolio serves as collateral for repayment. Use of margin increases a portfolio's risk as price swings are amplified and, if the value of your securities declines, you can lose more funds than you originally deposited. The lender or custodian may be required to cease trading or liquidate securities to meet a margin call or credit line demand. When using margin as a strategy, you can lose more than your original investment.
- Option Risk: An option holder runs the risk of losing the entire amount paid for the option in a relatively short period of time, reflecting the nature of the option as a wasting asset becoming worthless when it expires. If you don't sell an option in the secondary market or exercise it prior to expiration, you will lose your entire investment in the option.
- Interest-Rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates raise yields on existing bonds become less attractive, causing their market values to decline.
- Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e., interest rate). This primarily relates to fixed income securities.
- Inflation Risk: The risk is that the rate of inflation will exceed the rate of return on an investment. The investment value itself does not decline but its relative value does.
- Currency Risk: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- Political Risk: Most investments have a global component, even domestic stocks. Political events anywhere in the world may have unforeseen consequences to markets around the world.
- Regulatory Risk: Changes in law and regulations from any government can change the value of a given company and its accompanying securities. Certain industries are susceptible to government regulation. Changes in zoning, tax structure or laws impact the return on these investments.
- Business Risk: These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They generally carry a higher risk of profitability than an electric company which may generate much of its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- Concentrated Investment Risk: Certain investment strategies may be concentrated in a specific sector, industry or individual security. In this case, your portfolio will be more likely to sharply increase or decrease in value with changes in the market. This strategy is more volatile because the risk associated with each security represents a large percentage of your overall portfolio.

- Liquidity Risk: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- Financial or Default Risk: Excessive borrowing to finance a business' operations increases the risk of profitability because the company must meet the terms of its obligations and service its debts in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value. Ratings provided by several ratings services help to identify those companies with more risk.
- Risk Specific to Sub-Advisors and Other Managers: If we invest some of your assets with another advisor (including private placement), there are additional risks. For example, the other manager may not be as qualified as we believe them to be, the investments those managers use may not be as liquid as we would normally use, or the managers' risk guidelines may be more liberal than we would normally employ.

Past performance is not indicative of future results. Therefore, you should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds, etc.) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. You should be prepared to bear investment loss including loss of original principal. There is no guarantee that your investment objectives will be achieved.

Our firm and our affiliated entities make no promises, representations, warranties or guarantees that any of its services rendered will result in a profit to you. Our firm and our affiliated entities do not guarantee the future performance or any specific level of performance, the success of any investment decision or strategy that our firm and any of our affiliated entities may use or the success of our overall management. You should understand that investment decisions made for you by our firm or any of our affiliated entities are subject to various market, currency, economic, political and business risks and that those investment decisions will not always be profitable. You should understand that APA, our representatives and our affiliated entities will not be liable for any loss incurred with respect to your account, except where such loss directly results from such party's negligence or malfeasance. Nothing in this section is intended to be a waiver of any right of action you may have under applicable securities laws or your rights in the event APA, your representative or our affiliated subsidiaries breach any fiduciary duty owed to you.

Arbor Point Advisors monitors accounts based on standard deviation thresholds. For information about these thresholds, please visit www.securitiesamerica.com under Investors/Investor Information.

ITEM 9. DISCIPLINARY INFORMATION

Arbor Point Advisors has no legal or disciplinary events that are material to a client's or prospective client's evaluation of our business or integrity. In the normal course of business, our parent company, SAFC, and some of its subsidiaries are involved in legal, regulatory and arbitration proceedings, including class actions, concerning matters arising in connection with the conduct of its activities.

ITEM 10. OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Overview

This section contains information about our financial industry activities and affiliations. We provide information about the material relationships and arrangements we have with any related persons, including broker/dealers and investment advisors. We identify if any of these relationships or arrangements create a material conflict of interest with

clients and discuss how we address these conflicts. “Related persons” are defined as entities that we control or control us or are under common control with us.

Corporate Structure

Arbor Point Advisors, LLC is a majority-owned subsidiary of Securities America Financial Corporation (SAFC). NorthStar Financial Services Group, LLC. NorthStar owns a minority interest (less than 25%) in APA Securities America, Inc. (SAI), our affiliated broker/dealer, is a wholly owned subsidiary of SAFC, as is Securities America Advisors, Inc. (SAA) another investment advisor firm. SAFC is a wholly owned subsidiary of LTFS, a wholly owned subsidiary of Advisor Group Holdings, Inc. (AGHI), which is owned primarily by a consortium of investors through RCP Artemis Co-Invest, L.P., an investment fund affiliated with Reverence Capital Partners LLC. The consortium of investors includes, RCP Genpar Holdco LLC, RCP Genpar L.P., RCP Opp Fund II GP, L.P., and The Berliniski Family 2016 Trust.

Other Industry Affiliates

APA has the following affiliates, which are wholly owned subsidiaries of Ladenburg Thalmann Financial Services, Inc. (LTFS), which is a wholly owned subsidiary of Advisor Group Holdings, Inc.

Ladenburg Thalmann Financial Services, Inc. (LTFS) Holding Company	100% owned by AGHI
Securities America Financial Corporation (SAFC) Holding Company	100% owned by LTFS
Securities America, Inc. (SAI) Broker/Dealer	100% owned by SAFC
Securities America Advisors, Inc. (SAA) Registered Investment Advisor	100% owned by SAFC
Ladenburg Thalmann Asset Management, Inc. (LTAM) Registered Investment Advisor	100% owned by LTFS
Ladenburg Thalmann & Co., Inc. (LTCO) Broker/Dealer	100% owned by LTFS
Ladenburg Capital Agency Inc. Insurance Company	100% owned by LTFS
Ladenburg Thalmann Alternative Inc. Investment Advisor (exempt from registration)	100% owned by LTFS
Triad Advisors, LLC Registered Investment Advisor, Broker/Dealer & Insurance	100% owned by LTFS
Triad Hybrid Solutions, LLC Registered Investment Advisor	100% owned by LTFS
Highland Capital Brokerage Insurance Company	100% owned by LTFS
Investacorp, Inc. Broker/Dealer	100% owned by LTFS

Investacorp Advisory Services, Inc. Registered Investment Advisor	100% owned by LTFS
Premier Trust, Inc. Trust Company	100% owned by LTFS
KMS Financial Services, Inc. Registered Investment Advisor & Broker/Dealer	100% owned by LTFS
Securities Services Network, LLC Broker/Dealer	100% owned by LTFS
SSN Advisory, Inc. Registered Investment Advisor	100% owned by LTFS
Valor Insurance Agency, Inc. Insurance Company	100% owned by LTFS

SAA is registered with the SEC, under common control with APA and shares a principal office and place of business with APA. Ladenburg Thalmann Asset Management, Inc., Investacorp Advisory Services, Triad Advisors, LLC, Triad Hybrid Solutions LLC, SSN Advisory, Inc. and KMS Financial Services, Inc. are SEC registered investment advisors and are wholly owned subsidiaries of LTFS. Ladenburg Thalmann Alternative Inc. is also an investment advisor but is exempt from registration due to its limited regulatory assets under management. We are also affiliated with LTCO, Investacorp, Inc., Triad Advisors, LLC, KMS Financial Services, Inc. and Securities Services Network, LLC, which are registered full-service broker/dealers. Triad Advisors, LLC. is also a licensed insurance entity as are Ladenburg Capital Agency, Inc., Highland Capital Brokerage and Valor Insurance Agency, Inc.

APA also has related persons, as they are under common control of LTFS's parent company, AGHI. APA's affiliates below and your advisory representative cannot conduct or recommend business through these related persons, so these relationships do not create a material conflict of interest. The following chart details the related persons, which are wholly owned subsidiaries of Advisor Group, Inc. (AGI), which is a wholly owned subsidiary of Advisor Group Holdings, Inc.

Advisor Group, Inc. (AGI) Holding Company	100% owned by AGHI
Royal Alliance Associates, Inc. (RAA) Registered Investment Advisor, Broker/Dealer	100% owned by AGI
Financial Service Corporate (FS Corp) Holding Company	100% owned by AGI
FSC Securities, Corporation (FSC) Registered Investment Advisor, Broker/Dealer	100% owned by FS Corp
SagePoint Financial Inc (SPF). Registered Investment Advisor, Broker/Dealer	100% owned by AGI

Woodbury Financial Services, Inc (WFS). Registered Investment Advisor, Broker/Dealer	100% owned by AGI
Vision2020 Wealth Management Corp. Registered Investment Advisor	100% owned by AGI

Business Operations with Affiliates

When conducting business operations, APA engages in marketing re-allowance or sponsorship arrangements with third parties, sub-advisors and brokerage firms to promote the distribution of investment products. These investment products can include variable annuity and insurance products, mutual funds, managed accounts and customized portfolios.

There is a conflict of interest since some of our business operations involve LTFS and/or its subsidiaries, which means LTFS and/or its subsidiaries (including APA) will receive compensation for directing clients to products or services of affiliated companies. We discuss these conflicts further below. Also see Item 5 “*Compensation for the Sale of Securities or Other Investment Products*” for additional discussion.

Arbor Point Advisors also has an indirect relationship with CLS Investments, LLC (CLS), a registered investment advisor. CLS's parent company, NorthStar Financial Services Group, LLC (NorthStar) owns a minority interest in APA and certain officers and managers of NorthStar and/or CLS may also be involved in the operations or management of APA. In addition, NorthStar is the sole indirect owner of Orion Portfolio Solutions LLC [(a/k/a FTJ Fundchoice, LLC (FTJ))], a registered investment advisor, making FTJ an affiliate of CLS. CLS has model portfolios available in FTJ's Strategist Program and Arbor Point Advisors representatives may use these model portfolios when providing services to their clients. NorthStar is also the parent company of Orion Advisor Services, LLC, and both FTJ and Arbor Point Advisors use Orion's technology platforms for back office support services. These direct and indirect affiliations between Arbor Point Advisors, NorthStar, Orion and FTJ can create a conflict of interest.

Premier Trust: Your representative can recommend Premier Trust, a Nevada chartered trust company, to provide trust, estate planning and administrative services. We receive compensation for recommending clients to Premier Trust, providing us with an incentive to recommend it rather than others providing similar services. When making any recommendation, representatives first consider whether Premier Trust can adequately service client needs and whether any other efficiencies or benefits will result to the client. Clients are not obligated to follow or recommendations or use Premier Trust's services. When used, Premier Trust provides full disclosure with respect to its trust and administrative services and related costs.

Ladenburg Thalmann & Co. Inc. (LTCO): LTCO is a registered broker/dealer. As such, it can act as a dealer relative to certain securities and execute transactions in its capacity as a principal for APA clients. Securities such as over-the-counter stock and fixed income securities are traded primarily in “dealer” markets, meaning securities are purchased directly from or sold to a financial institution acting as “dealer” or “principal.” Dealers executing principal trades typically include a “mark-up,” “mark-down,” and/or “spread” in the net price at which transactions are executed. This compensation is in addition to other compensation clients pay to APA and its affiliates. To address this conflict of interest, clients are given disclosures about principal transactions with

LTCO and have the opportunity (to the extent required by applicable law) to reject the transaction before its completion. In addition, clients are generally given transaction specific disclosure prior to their decision to invest in such securities.

Your representative can also recommend clients invest in securities issued in an initial public and secondary offering ("new issue") for which LTCO acts as a manager, an underwriter and/or a member of the selling syndicate. APA and/or our affiliated broker/dealer, SAI, can also act as a member of the selling syndicate. We have a conflict of interest when recommending these securities because:

- LTCO receives all or a portion of the gross spread (the difference between the price paid by the client for the security and the price for which LTCO purchases the security) in connection with such sales. This gross spread is generally 7% but may be higher or lower in connection with certain offerings. If APA or SAI also act as a member of the selling syndicate, they receive a portion of the gross spread. If your representative is also a registered representative, he or she generally receives a portion of this compensation in that separate capacity.
- LTCO has a substantial financial and reputational interest in assuring that the offerings are successful by having a large number of the securities purchased. In connection with certain offerings, LTCO has an obligation to purchase and resell a certain number of securities.

Because of our affiliation with LTCO, we have incentives to recommend investments in these initial and secondary offerings for the above reasons rather than based on client needs. To address these conflicts, we have policies and procedures in place to make sure that securities in initial public offerings are recommended only to clients for whom they are suitable based on client investment objectives and assets. In addition, clients are generally given transaction specific disclosure prior to the client's decision to invest in such securities. IPO allocations through LTCO are only available to clients through representatives who have completed SAA's required IPO training. Consequently, advisory clients serviced by a representative who has not received the required training will not be allocated any shares in IPO securities. If securities acquired in initial public and secondary offerings become oversubscribed, we have policies and procedures in place addressing the allocation process under these circumstances.

In addition, your representative can refer you to LTCO for investment banking services and receive a finder's fee if he or she is also a registered representative. Clients are not obligated to use any LTCO services recommended.

Ladenburg Thalmann Asset Management, Inc. (LTAM). LTAM is an SEC registered investment advisor specializing in investment management, market analysis, due diligence, fund selection, asset allocation and diversification strategies. LTAM sponsored programs and their characteristics are more fully described in its disclosure brochures, which are available to any client or prospective client upon request.

LTAM offers the Total Portfolio Series funds (Collective Investment Trusts) established for retirement plans as well as the Ladenburg Funds (i.e., Ladenburg Income Fund, Ladenburg Income & Growth Fund, Ladenburg Growth & Income Fund, Ladenburg Growth and Ladenburg Aggressive Growth), each of which is an open-end fund of funds. Our representatives can recommend clients invest in these funds and portfolios as well as other Ladenburg funds. Transactions for these funds and portfolios are generally executed through LTCO,

which receives commissions when executing trades on behalf of the Funds. Therefore, there is a conflict of interest if clients elect to invest in these products since LTAM, LTCO and APA generally receive more compensation than if clients purchase other investments.

- LTAM operates \$ymbil®, an online, interactive tool designed to assist clients in selecting among the five Ladenburg Funds by using a questionnaire to gauge a client's time horizon, risk tolerance and investment objectives. A client investment profile is created from the responses to this online questionnaire. LTAM has no discretion over a client's investments. Our representatives can recommend clients use \$ymbil®, and if clients implement transactions using \$ymbil®, both APA and our representatives receive solicitor fees. This creates a conflict of interest; however, clients have no obligation to accept any suggestions provided by \$ymbil® or to invest in any of the Ladenburg Funds.

We offer clients access to professional third-party money managers that create and implement portfolios with a variety of investment strategies (see Item 4 *Advisory Business* for additional information on the Independent Managed Assets Program.) We participate in revenue sharing arrangements with specific money managers having their own mutual funds and using those funds in their managed programs. LTAM is among the third-party money managers that can be recommended to clients. APA has a conflict of interest in recommending third-party managers to clients, including LTAM. Representatives receive compensation that varies depending on the third-party managers recommended. APA earns more total compensation when a client selects an affiliate (i.e., LTAM) as a third-party manager than we would earn if the client selects an unaffiliated third-party manager. Thus, our representatives have a conflict of interest because of an incentive to recommend certain managers over others. We address these conflicts of interest through policies and procedures that, among other things, require representatives to make suitable recommendations, to act as a fiduciary to clients, and to act solely in clients' best interests.

Other Affiliations and Activities

Registered Representative

Our principal executive officers, other employees and representatives can be separately licensed as registered representatives and registered principals of SAI. In this separate capacity, when these individuals effect securities transactions they receive separate compensation for those transactions. Representatives who are also licensed as registered representatives have an interest in earning commissions that may be averse to client interests. This conflict is monitored through our broker/dealer's supervisory and compliance review system. In addition, clients are not obligated to use our representatives to implement any securities transactions.

Consultation and Marketing Affiliation

We have established an agreement with Hanson McClain Retirement Network, LLC (HMRN), a registered broker/dealer and investment advisor in which the associated persons of HMRN provide consultation and marketing support services

to representatives to assist them in obtaining more clients. As a result of this relationship, we pay HMRN a portion of the fees from any clients obtained as a result of the services provided by HMRN.

Independent Contractors

Most Arbor Point Advisors' investment advisor representatives are independent contractors and not employees of Arbor Point Advisors or SAI. However, some representatives can be employees of Arbor Point Advisors or our affiliated broker/dealer.

Other Business Entities and Marketing Names

Arbor Point Advisors conducts its business through a network of independent investment advisor representatives who operate offices located throughout the United States. The representatives can own and operate other legal business entities and offer/provide other services through those businesses. (See your representative's Form ADV Part 2B Supplemental Brochure for specific information about his or her other businesses and services.) These other entities are not owned or affiliated with SAA, SAFC, LTFS or its subsidiaries or with the custodians used. Many of these representatives market their services under a different marketing name and/or as an outside business activity.

When operating these other businesses, the representatives may use their own business name(s), marketing name(s) and/or logos that can appear on their sales and marketing materials and/or client statements. The representatives must disclose on all materials and correspondence that advisory services are offered through Arbor Point Advisors, LLC. All sales and marketing materials used by the representatives are reviewed and approved by APA home office personnel. The business names, marketing names and logos used by the representatives are separate from and are not owned or controlled by Arbor Point Advisors. Information about the representatives' other businesses can be found in their respective Form ADV Part 2B Supplemental Brochure, which also contains more detailed information about their educational backgrounds, business experience and disciplinary history (if any).

Accounting Firm

Representatives can be separately licensed as accountants and may offer accounting services to advisory clients for separate compensation. You are not obligated to use any of these individuals to provide accounting services.

Law Firm

Representatives can be separately licensed as attorneys and, as such, may offer to provide legal advice for separate and typical compensation. You are not obligated to use any of these individuals to provide legal services.

Insurance Company or Agency

Some of our executive officers, investment advisor representatives and other employees of our firm are agents and/or brokers of various insurance companies. If clients elect to have insurance recommendations implemented, these individuals can affect insurance and/or annuity transactions and receive separate compensation when doing so. Even though the compensation is received in their separate capacity as a licensed insurance agent, the transaction is still a conflict of interest. Clients are not obligated to use any of these individuals for insurance product purchases, but are free to use any insurance agent or insurance broker they choose.

SAI, our broker/dealer affiliate, also holds a business entity license in all 50 states as well as Puerto Rico. It can receive commissions in connection with the sale of fixed insurance products by registered representatives who are licensed to sell these products. SAI receives payments from certain insurance sponsors for marketing, training and distribution

support. None of these additional payments are paid or directed to any registered representative/insurance agent who sells these products. The registered representative/insurance agent does not receive a greater or lesser commission for sales of these insurance products from which our broker/dealer affiliate receives revenue sharing payments. However, the marketing, educational and distribution activities paid with revenue sharing could potentially lead a registered representative/insurance agent to focus more on products offered by insurance sponsors that make revenue sharing payments to SAI than those of sponsors that do not make such payments when recommending insurance products to their clients. Clients are not obligated to implement any insurance recommendations or use SAI if electing to do so.

Banking or Thrift Institution

SAI also markets its services through banks and thrifts. In some circumstances, investment management services are also marketed through these banks and thrifts, provided that such marketing is done in compliance with applicable SEC and state regulations.

Pension Consultant

Representatives can be separately engaged to provide pension-consulting services. If clients need these services, they can engage these individuals for separate and typical compensation. Clients are not obligated to use any of these individuals to provide this service. In addition, representatives can establish relationships with outside parties that provide pension-consulting services. In these instances, representatives can refer you to pension consultants and receive a solicitor referral fee. These arrangements are fully disclosed to you at the time of any referral.

Real Estate Broker or Dealer

Representatives can be separately licensed as real estate agents. In this separate capacity, representatives can provide real estate brokerage and/or appraisal services for clients requiring these services and receive a separate commission or fee when doing so. Clients are not obligated to use these individuals for real estate services.

Board of Directors

Members of the Securities America Board of Directors serve as board members for several of our affiliated companies. There may be a perceived conflict of interest. You should be aware that the Board of Directors does not make decisions for our firm without following the process set forth in our firm's by-laws.

ITEM 11. CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Conflicts of Interest

Conflicts of interest that can arise in the course of providing investment management services are described throughout this Brochure, as are some of our policies and procedures designed to address specific conflicts of interest, such as our Code of Ethics and personal trading practices.

We have a compliance program in place that is intended to identify, mitigate and, in certain instances, prevent actual and potential conflicts of interest, ensure compliance with legal and regulatory requirements and ensure compliance with client investment guidelines and restrictions. Our compliance program includes written policies and procedures that we believe are reasonably designed to prevent violations of applicable law and regulations.

We maintain various committees which provide oversight and review of compliance across functional boundaries, including several operating committees whose membership is comprised of personnel from the impacted business area(s). These committees receive input from compliance and legal personnel as appropriate to help ensure compliance with some of these policies and procedures. Some of the key committees (or subcommittees) supporting our compliance program efforts include those committees (or subcommittees) responsible for trading, best execution and new products.

Code of Ethics

We have established a Code of Ethics to comply with the requirements of Section 204A-1 of the *Investment Advisers Act of 1940 (Advisers Act)* reflecting our fiduciary obligations and those of our supervised persons and requiring compliance with federal securities laws. Our Code of Ethics covers all individuals who are classified as "supervised persons." Arbor Point Advisors officers, directors, investment advisor representatives and their associated persons are classified as supervised persons. We require our advisory affiliates and their supervised persons to consistently act in their clients' best interests in all advisory activities. We impose certain requirements on our advisory affiliates and supervised persons to ensure they meet the firm's fiduciary responsibilities to their clients. The standard of conduct required is higher than that ordinarily required and encountered in commercial business and includes compliance with applicable federal securities laws and regulations and with the Code of Ethics. Under the Code of Ethics, supervised persons are required to report their personal securities holdings and transactions, may be required to pre-clear certain investments or may be restricted with respect to the timing of certain investments or prohibited from making certain investment. All supervised persons are required to conduct all personal trades through designated broker/dealers unless an exception has been granted.

This response is only intended to provide you with a summary description of our Code of Ethics. If you wish to review our Code of Ethics in its entirety, a copy can be obtained by calling us at (800) 747-6111 or writing to the RIA Compliance Department at Arbor Point Advisors, 12325 Port Grace Blvd., La Vista, NE, 68128.

Participation or Interest in Client Transactions

Representatives can sell mutual fund, unit investment trust and insurance products offered by subsidiaries of LTFS. Therefore, a potential conflict of interest may exist when Arbor Point Advisors investment advisor representatives recommend these products because LTFS stands to receive earnings from the internal fees of the recommended securities as well as earnings from a portion of the investment advisory fee received by our firm. Representatives are not under any obligation to sell these products or to meet any selling quotas related specifically to these products. Refer to the section *Other Financial Industry Activities and Affiliations*. Review this ADV closely and discuss any potential conflicts of interest with your investment advisor representative.

When our representatives recommend third-party money managers to you, those managers determine the brokers to be used for client trades. In certain circumstances, and when consistent with the manager's fiduciary obligation of best execution, trades may be effected through SAI and its registered securities representatives, who receive separate compensation for implementing these transactions. You should review the third-party money manager's disclosure documents to determine if these managers block trade, negotiate commissions and/or obtain volume discounts. Refer to the section titled *Other Financial Industry Activities and Affiliations*.

Policy Regarding Engaging in Agency Cross Transaction in Advisory Accounts

It is APA's policy to prohibit agency cross transactions where representatives act as brokers for both buying and selling a single security between two different clients and are compensated through an agency commission or principal mark-up for the trades. If we adopt a different policy in this area, we will observe all rules and regulations in accordance with the disclosure and consent requirements of Section 206(3) of the *Advisers Act*. Additionally, we are aware that such transactions can only occur if we can ensure that we meet our duty of best execution for the client.

Policy Regarding Engaging in Principal Trading Involving Advisory Accounts

LTCO, our affiliate, acts as a dealer with respect to certain securities and, as such, may execute transactions for APA clients as principal unless the account is covered under *ERISA*. Principle transactions are prohibited in *ERISA* accounts. As a dealer, LTCO may receive a "mark-up," "mark-down" and/or spread in the net price at which principal transactions are executed. This compensation is in addition to other compensation paid to APA and its affiliates under your advisory program. Thus, APA has a conflict of interest in deciding to execute trades through LTCO on a principal basis. APA has policies in place to address this conflict of interest. After receiving disclosures about a specific principal transaction with LTCO, clients have the opportunity to reject the transaction before it is completed, to the extent required by applicable law. In addition, APA has policies and procedures in place to assure clients receive best execution with respect to principal trades, regardless of whether the trade is executed by LTCO or an unaffiliated dealer.

Personal Trading

APA, our representatives and our supervised persons can buy, sell or hold a position in securities identical to the securities recommended to you, at or about the same time that they or a related person buys or sells the same securities for their own or a related person's account. It is APA's policy that no supervised person will put his or her interest before your interests. APA and our representatives may not trade ahead of any client or trade in a way that would cause the supervised person to obtain a better price than the price a client would obtain.

Pre-Clearance and Restricted Securities Policy

Due to our affiliation with another investment company, investment advisors and broker/dealers, we maintain a Restricted and Pre-Clearance Equity List which may limit our firm and the investment advisor representative's ability to transact in certain equities on your behalf in a discretionary advisory program. Your representative may not be able to place certain transactions or may experience delays in submitting certain transactions on your behalf based on any pre-clearance or pre-approval requirements implemented by the firm. You can receive a worse price than what you might receive if you placed the transaction through another investment advisor representative not affiliated with SAI and not subject to any trading restrictions. These trading restrictions are subject to change without notice.

Insider Trading Policy

APA and our supervised persons may come into possession of material non-public information which, if disclosed, might affect an investor's decision to buy, sell or hold a security. Under applicable law, our firm and our supervised persons are prohibited from improperly disclosing or using such information for their personal benefit or for the benefit of any other person, regardless of whether such other person is a client. Accordingly, should APA or our supervised persons come into possession of material non-public information with respect to any company, we and they are prohibited from communicating such information to, or using such information for the benefit of, our respective clients.

We have no obligation or responsibility to disclose such information to, nor responsibility to use such information for the benefit of, our clients when following policies and procedures designed to comply with law.

APA and our affiliated entities have adopted an "Insider Trading Policy" in accordance with Section 204A of the *Advisers Act* which establishes procedures to prevent the misuse of material non-public information by our firm and our supervised persons. If your investment advisor representative maintains a personal investment account with another advisory firm or broker/dealer, he or she must make arrangements with that outside firm or broker/dealer to send statements to SAI at least quarterly. The representative must complete an annual certification concerning his or her personal securities activities and provide such additional information about personal trading activities as may be required under the Insider Trading Policy and the Code of Ethics. Supervised persons who violate this policy may be subject to sanctions imposed by our firm.

Policy Governing Contributions to Local and State Elected Officials and Candidates

APA requires that its supervised persons seeking to make a political contribution to or volunteer for a state or local candidate, political action committee or political party pre-clear their contributions or activity through the firm. We do not require our supervised persons to pre-clear contributions to federal candidates unless the candidate is currently a state or local government official running for federal office. However, we do require supervised persons to notify us of any contributions made to or volunteer activity done on behalf of federal candidates, political action committees or political parties. APA and your investment advisor representative will also be subject to local and state pay-to-play rules in addition to federal securities rules and regulations.

ITEM 12. BROKERAGE PRACTICES

Recommendation of Broker/Dealers and Custodians for Investment Management Services

You are under no obligation to act on the recommendations of Arbor Point Advisors and are free to select any broker/dealer or investment advisor you'd like to implement our recommendations. In other words, you are not *required* to work with us. However, if you want to hire us for our investment management service, we are responsible for executing your account transactions and therefore responsible for attaining the best execution possible. Please note that we cannot promise or guarantee our brokerage platforms are the least expensive in the industry. There may be other platforms with lower costs.

If clients contract for our investment management services, we require them to use particular broker/dealers recommended or approved by us. Please note that not all investment advisors require the use of particular broker/dealers. Some investment advisors permit clients to use any broker/dealer of the client's own choosing. In very rare cases, we may work with a client that wants to direct us to use a particular broker/dealer. In such cases, those clients must understand that we may be unable to effectively negotiate brokerage compensation on the client's behalf. When directing brokerage business, clients should consider whether the commission expenses and execution, clearance and settlement capabilities that they obtain through their selected broker/dealer(s) are adequately favorable in comparison to those that we would otherwise obtain for our clients. Clients with client-directed brokerage arrangements should also understand we may be limited in our trading ability (compared to platforms recommended by Arbor Point Advisors) and may be required to execute client directed trades after trades are implemented through accounts at our preferred platforms. Clients are encouraged to discuss available alternatives with their advisor representative.

When selecting brokerage platforms for client accounts, we consider standard benefits that are available without cost to all investment advisor firms using the platform, including our firm. These benefits include, but are not necessarily limited to, the following products and services: receiving duplicate client statements and confirmations; research related products and tools; access to a trading desk serving APA account participants; the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts; the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; and access to mutual funds with no transaction fees. Some of the products and services made available by a broker/dealer through their program may benefit APA but may not benefit client accounts. These products or services may assist APA in managing and administering client accounts, including accounts not maintained at the broker/dealer providing the benefit.

APA can also receive additional services which can include assistance with transitioning assets to custodial platforms. Without these arrangements, APA might be compelled to purchase the same or similar services at its own expense. As a result of receiving such services for no additional cost, APA may have an incentive to continue to use or expand the use of a custodian's services. APA examines these potential conflicts of interest when it chooses to enter into a relationship with a custodian to determine that the relationship is in the best interests of APA clients and satisfies its client obligations, including its duty to seek best execution. Clients can pay a commission that is higher than another qualified broker/dealer might charge to affect the same transaction where APA determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although APA will seek competitive rates, to the benefit of all clients, it may not necessarily obtain the lowest possible commission rates for specific client account transactions. Although the investment research products and services that may be obtained by APA will generally be used to service all of its clients, a brokerage commission paid by a specific client may be used to pay for research that is not used in managing that specific client's account. APA and the qualified custodians are not affiliates, and no broker/dealer affiliated with APA is involved in the relationship.

Our recommendation of broker/dealers will be partially based on past experiences, minimizing commissions and other costs as well as offerings or services the broker/dealer provides that APA or client may require or find valuable such as online access. However, clients can pay commissions higher than those obtainable from other broker/dealers in return for those products and services. Commission and fee structures of various broker/dealers are periodically reviewed to ensure clients are receiving best execution. Accordingly, while APA considers competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. Therefore, the overall services provided by the broker/dealer are evaluated to determine best execution.

Clearing and Custodial Arrangement for Asset Management Services Program

Although we permit our representatives to use several different brokerage platforms and consider the overall services provided by those brokerage firms, we have material arrangements with some firms that create an incentive for us to recommend those firms over other broker/dealers. Some of the arrangements result in conflicts of interest with our clients and are explained in the following sections.

A referring broker/dealer firm may also have paid for business consulting and professional services received by APA related persons and may also pay or reimburse expenses (including travel, lodging, meals and entertainment expenses) for APA's personnel to attend conferences or meetings relating to the programs or advisor custody and brokerage services generally. Some of the products and services made available by such referring firms can benefit APA but not benefit its client accounts. These products or services can assist APA in managing and administering

client accounts, including accounts not maintained at the referring firm. Other services made available can help APA manage and further develop its business enterprise. The benefits received by APA or its personnel generally do not depend on the amount of brokerage transactions directed to a referring firm. As part of its fiduciary duties to clients, APA at all times endeavors to put the interests of its clients first. Clients should be aware, however, that receiving economic benefits in and of itself creates a potential conflict of interest and can indirectly influence APA's choice of one of these referring broker/dealer firms for custody and brokerage services.

TD Ameritrade Institutional

APA and its representatives can recommend that clients use TD Ameritrade Institutional for custody and brokerage services. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. (TD Ameritrade), member FINRA/SIPC. TD Ameritrade is also an independent and unaffiliated SEC-registered broker/dealer and offers services to independent investment advisors that include custody of securities, trade execution, clearance and transaction settlement.

Institutional Program

APA participates in the TD Ameritrade Institutional Program (the Program) and can receive economic benefits that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receiving duplicate client statements and confirmations; research on related products and tools; consulting services; access to a trading desk serving APA participants; access to block trading (providing the ability to aggregate securities transactions for execution and then allocate appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; and access to mutual funds with no transaction fees and to certain institutional money managers. In addition, TD Ameritrade can pay for business consulting and professional services received by APA's related persons.

The benefits received by APA and/or our representatives participating in the Program do not depend on the amount of brokerage transactions directed to TD Ameritrade. There is no direct link between APA's participation in the Program and the investment advice we give to our clients. However, some of the Program products and services available can benefit APA but not our client accounts. APA can also receive discounts on compliance, marketing, technology and practice management products or services provided by third party vendors. These products or services can assist APA in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help APA manage and further develop our business enterprise.

Additional Services Program

APA can also receive other economic benefits (Additional Services) that may or may not be offered to other independent investment advisors. These beneficial products, services and subscription fees can include, but are not limited to, portfolio management, technology and reporting management, online file sharing systems, financial planning software, historical reporting, client portals and client relationship management systems.

The Additional Services are provided by TD Ameritrade in its sole discretion and at its own expense; APA does not pay any fees to TD Ameritrade for these Additional Services nor does APA charge its representatives for using them. The term of the Additional Services usually lasts for one year; at the end of that period, representatives may opt to continue receiving Additional Services at their own expense. When providing Additional Services to APA, TD Ameritrade likely considers the profitability of the assets in, and trades placed for, APA's client accounts maintained at TD Ameritrade. The terms and provisions of the Additional Services are covered by a separate agreement between APA and TD Ameritrade, and TD Ameritrade has sole

discretion to terminate the agreement provided certain conditions are met. Consequently, in order to continue receiving the Additional Services, APA has an incentive to recommend clients use TD Ameritrade for its custody and transaction services. As with the Institutional Program previously discussed, APA's client brokerage commissions and custodial fees generated at TD can be used to benefit APA's affiliates.

Clients should be aware that receiving economic benefits of any kind (including those from the Program and Additional Services) can create a potential conflict of interest and indirectly influence our choice of TD Ameritrade for custody and brokerage services. As part of our fiduciary duties to clients, we endeavor to always put the interests of clients first, including seeking best execution for client account trades.

We also receive an economic benefit from TD Ameritrade when our investment advisor representatives select TD Ameritrade Institutional to serve as the brokerage platform for their client accounts. When an account is opened through TD Ameritrade, we receive compensation from TD Ameritrade in the form of a reimbursement to cover the first year's annual fee charged by Orion. Refer to the section *Advisory Business* of this Brochure to read about the services provided by Orion. The reimbursement paid by TD Ameritrade is paid directly to Arbor Point Advisors and the entire portion is retained by Arbor Point Advisors. The fact that TD Ameritrade has agreed to pay the first year's annual fee charged by Orion against each account opened through TD Ameritrade creates the potential for us to recommend or even require clients use the services of TD Ameritrade. However, as previously stated, we permit brokerage arrangements other than TD Ameritrade.

Schwab Advisor Services

APA can also recommend or require that clients establish brokerage accounts with the Schwab Advisor Services division of Charles Schwab & Co., Inc. (Schwab), a registered broker/dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. The final decision to custody assets with Schwab is at the discretion of clients, including those accounts under ERISA or IRA rules and regulations, in which case the client is acting as either the plan sponsor or IRA accountholder. APA is independently owned and operated and not affiliated with Schwab. Schwab provides APA with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the advisor's clients' assets are maintained in accounts at Schwab Advisor Services. Schwab's services include brokerage services that are related to the execution of securities transactions, custody, research (including that in the form of advice, analyses and reports) and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Schwab generally does not charge separately for custody services for APA client accounts maintained in its custody. Instead, it is generally compensated through commissions or other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts. Because APA pays Schwab the execution costs associated with securities transactions, there is a potential disincentive to trade securities. APA does not receive any portion of the commission or fees from either Schwab or from clients.

In addition, clients can incur certain charges imposed by third parties other than us in connection with investments made through your account including, but not limited to, wire fees, overnight check fees, mutual fund sales loads, 12b-1 fees and surrender charges, variable annuity fees and surrender charges and IAR and qualified retirement plan fees. APA's fees are separate and distinct from the fees and expenses charged by investment company securities that may be recommended to you. A description of these fees and expenses is available in each security prospectus.

The Arbor Point Advisors Asset Management Services program can cost clients more or less than if the assets were held in a traditional brokerage account. In a brokerage account, clients are charged commissions for each transaction

and the representative has no duty to provide ongoing advice with respect to the account. If clients plan to follow a buy and hold investment strategy for the account or do not wish to purchase ongoing investment advice or management services, they should consider opening a brokerage account rather than an Asset Management Services account.

Schwab also makes available to APA other products and services that benefit us but may not benefit our clients' accounts. These benefits can include national, regional or specific APA educational events organized and/or sponsored by Schwab Advisor Services. Other potential benefits can include occasional business entertainment of APA personnel by Schwab Advisor Services personnel, including meals, invitations to sporting events (including golf tournaments) and other forms of entertainment, some of which may accompany educational opportunities.

Other of these products and services assist Arbor Point Advisors in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of Arbor Point Advisors' fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of Arbor Point Advisors' accounts, including accounts not maintained at Schwab Advisor Services.

Schwab Advisor Services also makes available to Arbor Point Advisors other services intended to help Arbor Point Advisors manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance and marketing. In addition, Schwab can make available, arrange and/or pay vendors for these types of services rendered to Arbor Point Advisors by independent third parties. Schwab Advisor Services can discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to Arbor Point Advisors. As a fiduciary, Arbor Point Advisors endeavors to act in its clients' best interests, but its recommendation and/or requirement that clients maintain their assets in accounts at Schwab can be based in part on the benefit to Arbor Point Advisors of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab. This may create a potential conflict of interest.

Fidelity Institutional Wealth Services

APA can also recommend or require that clients establish a brokerage account with Fidelity Institutional Wealth Services (Fidelity) to maintain custody of clients' assets and to effect trades for their accounts. APA is independently owned and operated and is not affiliated with Fidelity. Fidelity provides us with access to their institutional trading and custody services, which are typically not available to retail investors. The services from Fidelity include brokerage, custody, research and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Fidelity also makes available other products and services that benefit us but may not benefit our clients' accounts. Some of these other products and services assist us in managing and administering client accounts. These include software and other technology that:

- Provide access to client account data (such as trade confirmation and account statements)
- Facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts)
- Provide research, pricing information and other market data

- Facilitate payment of our fees from client accounts
- Assist with back-office functions, recordkeeping and client reporting.

Many of these services generally can be used to service all, or a substantial number, of our accounts, including accounts not maintained at Fidelity. Fidelity also makes available other services intended to help us manage and further develop our business. These services can include:

- Consulting, publications and conferences on practice management
- Information technology
- Business succession
- Regulatory compliance
- Marketing

In addition, Fidelity can make available, arrange and/or pay for these types of services rendered by an independent third party providing these services to us. As a fiduciary, we endeavor to act in your best interest. Our recommendation or requirement that you maintain your assets in accounts at Fidelity can be based in part on the benefit to us in the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by Fidelity. This creates a potential conflict of interest.

Clearing and Custodial Arrangement for Participant Retirement Program

In the Participant Retirement Program, transactions are cleared by Fidelity Institutional Wealth Services, which is not affiliated with APA or SAI. APA and SAI do not maintain custody of client funds or securities. Outside custodians maintain custody of all funds and securities. Because the Participant Retirement Program allows for the direct deduction of advisory fees from client accounts we can be deemed to have limited custody of client assets. APA and SAI can also be deemed to have limited custody for certain transmittal policies. For example, by giving you the ability to transfer funds between accounts you own and that are titled in the same name or, if you specifically request it, transferring funds between accounts you own that are titled in different names, SAI can be deemed to have limited custody. Additionally, SAI can be deemed to have limited custody by giving you the ability to have funds sent from your account to your address of record or, if you specifically request, to some other address.

For a description of products and services that Fidelity Institutional Wealth Services makes available to us, please refer to the Fidelity description above.

APA has an arrangement with National Financial Services LLC, and Fidelity Brokerage Services LLC (together with all affiliates, "Fidelity") through which Fidelity provides APA with Fidelity's "platform" services. The platform services include, among others, brokerage, custodial, administrative support, record keeping and related services that are intended to support intermediaries like APA in conducting business and in serving the best interests of their clients but that may benefit APA.

Fidelity charges brokerage commissions and transaction fees for effecting certain securities transactions (i.e., transactions fees are charged for certain no-load mutual funds, commissions are charged for individual equity and debt securities transactions). Fidelity enables APA to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges. Fidelity's commission rates are generally considered discounted from customary retail commission rates. However, the commissions and transaction fees charged by Fidelity can be higher or lower than those charged by other custodians and broker-dealers. As part of the arrangement and at no additional charge, Fidelity also makes available to APA certain research and brokerage services, including research

services obtained by Fidelity directly from independent research companies. APA can select from these services (within specified parameters) and use them to manage accounts for which APA has investment discretion.

Ladenburg Thalmann Initial Public Offering (IPO) Allocations

IPO allocations through Ladenburg Thalmann are only available to clients through investment advisor representatives who have completed APA's required IPO training. Consequently, advisory clients serviced by a representative who has not received the required training will not be allocated any shares in IPO securities.

Order Aggregation

When possible, Arbor Point Advisors and your investment advisor representative can aggregate client transactions to improve the quality of execution. Mutual funds held in client accounts do not lend themselves to aggregate or block trades. To the extent other securities are purchased that do lend themselves to aggregating or block trading (e.g., stocks or exchange traded funds), Arbor Point Advisors and your representative can aggregate client transactions or allocate orders whenever possible. Arbor Point Advisors and our representatives allocate trades to advisory clients in a fair and equitable manner that is applied consistently to all clients. When trades are not aggregated, clients may not enjoy the effects of lower transaction per share costs that often occur as a result of aggregating trades. As a result, you can pay a higher transaction cost than could be received elsewhere. Personal accounts of our investment advisor representatives, associated persons and their family members are not treated more favorably than any other client account. Arbor Point Advisors and your representative strive to allocate investment opportunities believed to be appropriate for their client's account and other accounts in a manner that is consistent with the best interests of all accounts involved. However, there can be no assurance that a particular investment opportunity that comes to Arbor Point Advisors or your representative's attention will be allocated in any particular manner. You should be aware that if an order is not aggregated, you can pay higher brokerage costs.

Handling Trade Errors Made by Arbor Point Advisors or an Investment Advisor Representative

If Arbor Point Advisors or our supervised persons make a trade error in your account, the error will be corrected and your account will be restored to where it would have been had the trade error not occurred. Any profit or loss from the trade correction will be maintained by Arbor Point Advisors. In our sole discretion, we can donate any profit from a trade correction to a charity of our choosing.

Recommendations of Securities America, Inc.

Clients can choose to work with investment advisor representatives on a strictly commission basis to implement advice; if they do, clients must work with a representative who is also a registered representative of our affiliated broker/dealer, Securities America, Inc. When acting in their separate capacity as registered representatives, they are required to use the services of SAI and SAI approved clearing broker/dealers. SAI serves as the introducing broker/dealer; all accounts established through SAI are cleared and held at NFS or Pershing.

SAI has a wide range of approved securities products for which it performs due diligence prior to selection. SAI's registered representatives are required to adhere to these products when implementing securities transactions through SAI. Transaction fees charged for these products can be higher or lower than transaction fees clients can obtain if transactions were implemented through another broker/dealer.

ITEM 13. REVIEW OF ACCOUNTS

Managed Account Reviews

Managed Asset Services and Participant Retirement Program accounts are reviewed as needed, as required and as appropriate by APA supervisors (SAI principals) and your representative. The nature and timing of the reviews may vary by your representative. In all accounts, reviews are conducted at least annually.

Accounts maintained at third party money managers are reviewed at least annually, although reviews may be conducted more frequently depending upon specific account circumstances as well as overall market conditions. Factors triggering an account review can include material market, economic or political events, changes in your financial or personal situation or performance of the account in general.

Account reviews include examining your investment strategy and objectives and making updates if they have changed. Reviews are conducted by your investment advisor representative and performed in accordance with your investment goals and objectives.

Financial Plan Reviews

Your representative is responsible for preparing initial financial planning advice and conducting any on-going reviews you may request. APA contracts with SAI to engage SAI home office staff (and SAI registered principals), on APA's behalf, to review a sampling of each supervised person's financial plans, including written financial planning advice. SAI compliance and supervision personnel are also engaged to conduct periodic reviews of financial advisor activities. Financial planning clients can contract for a review and update of their financial plans for a separate fee. On our behalf, financial plans provided by APA representatives can be periodically reviewed by SAI supervision personnel.

Reports and Account Statements

For all managed accounts, you receive a confirmation from the custodian or clearing firm of each purchase and sale that occurs in your account. You receive monthly statements from the account custodian or clearing firm if your account(s) have activity during the month. If the account does not have any monthly activity, the custodian or clearing firm provides an account statement at least quarterly. The statements show any activity in the account as well as period ending position balances.

Additionally, APA may provide position or performance reports to you on an on-going (monthly or quarterly) and/or as-requested basis. To the extent you receive performance reports from your representative, we urge you to compare performance reports received with account statements received from the custodian. Inquiries or concerns regarding the account, including performance reports, should be directed to the investment advisor firm at the phone number listed on the account statement. Each representative then decides whether to provide these reports to his or her clients. Performance information provided by your representative is believed to be accurate but cannot be guaranteed. Neither our firm nor your representative can guarantee the accuracy of fund values, securities' and other information obtained from third parties. If a representative prepares a quarterly performance report for an account, it is the representative who reviews the performance information to determine accuracy.

Whether position or performance reports by a third party money manager are provided to you depends upon the third party money manager.

You are encouraged to always compare any reports or statements provided by us or a third-party money manager against the account statements delivered from the broker/dealer-qualified custodian. When you have questions about your account statement, you should contact our firm and the qualified custodian preparing the statement.

Financial planning clients do not typically receive reports other than the written plan originally contracted for and provided by Arbor Point Advisors.

ITEM 14. CLIENT REFERRALS AND OTHER COMPENSATION

Incoming Referrals - Our Use of Solicitors/Payment of Referral Fee

We enter into agreements with solicitors (referring parties) to refer clients to us. The referral agreements between our firm and referring parties are designed to comply with SEC regulations as set out in 17 CRF Section 275.206(4)-3. If a referred client enters into an investment advisory agreement with our firm, and a cash referral is paid to the referring party, such fee is paid as a fixed fee or a percentage of the client advisory fees that are generated. Written disclosure regarding the referral fees we pay are provided to you prior to or at the time of entering into our investment advisory or financial planning agreements. The referral fee disclosed to you is payable to the referring party for the duration of Arbor Point Advisors' advisory relationship with you, whether or not our investment or trading strategies, or your investment objectives, change over time. We have no further referral fee obligation if the referring parties' representations and warranties outlined in our referral agreement become inaccurate or untrue or if our investment advisory agreement with you is terminated for any reason. In those states that require solicitors to be licensed or filed as a registered investment advisor, we can require the solicitor to be licensed or filed under our registration.

The compensation to be paid in connection with these agreements is subject to negotiation between our firm, your investment advisor representative and the referring party. The referral agreements between any referring party and our firm do not result in any charges to you in addition to the normal level of advisory fees charged. However, these situations create a financial incentive to recommend one of our programs over another or over other investment advisors and broker/dealer programs, products and services. Your investment advisor representative recommending our programs receives compensation as a result of your participation in our programs.

In addition, we can award separate non-cash compensation to our investment advisor representatives and their staff for client referrals.

Outgoing Referrals - APA as Solicitor for Other Investment Advisors/Receipt of Referral Fee

We have entered into solicitation agreements with independent third-party investment advisors, pursuant to which our firm and the independent investment advisor firm and the representative receive solicitation compensation from the third-party investment advisor in return for referral of accounts. APA's broker/dealer affiliate, SAI, and the representative, in his or her capacity as a registered representative (if applicable), can serve as broker/dealer and/or representative of record on accounts managed by the independent third-party investment advisor. In such case, SAI and the representatives can receive normal and customary compensation (e.g., commissions, 12b-1 fees, trails) from the sale of mutual funds, exchange traded funds or variable annuities in such accounts. This compensation can be in addition to the solicitor fee paid by the third-party investment advisor.

You should be aware that APA and your representative can receive solicitor/referral fees for recommending certain portfolios to you. Therefore, a potential conflict of interest can exist because these circumstances can result in your representative having a financial incentive to recommend one portfolio over another. However, it is our policy that

portfolios are selected and recommended to you based on your individual needs, goals and objectives. Your representative is not under any obligation to sell any particular product or to meet any selling quotas related specifically to these products. You are not under any obligation to engage the APA representative when considering implementing advisory recommendations. You are free to select any broker/dealer you wish when implementing recommendations and executing transactions. You can purchase the same investment product from a non-affiliated broker or could implement securities transactions without the services offered by your representative. We encourage you to review this ADV closely and discuss any potential conflicts of interest with your representative.

We have established a relationship with LTAM's \$ymbil program. APA representatives can provide clients access to LTAM's \$ymbil program through the individual representative's website. APA receives a portion of the asset management fee that LTAM charges. These fees can be paid on an ongoing basis and can continue even if your relationship with the representative and/or APA is terminated

Custodial Referrals and Economic Benefits

Some clearing and custodial firms can refer financial professionals to Arbor Point Advisors to possibly join our firm as investment advisor representatives. Any such referring broker/dealer or clearing/custodial firm does not supervise Arbor Point Advisors and has no responsibility for supervision of our investment advisor representatives, managing client portfolios or other advice or services. We have the final authority and responsibility for approving all investment advisor representatives licensed with our firm. Our receipt of investment advisor representative referrals from these firms raises potential conflicts of interest. Such firms will most likely refer potential investment advisor representatives to Arbor Point Advisors when we encourage those investment advisor representatives' clients to custody their assets at the referring firm and whose client accounts are profitable to that firm. Consequently, in order to obtain investment advisor representative referrals, Arbor Point Advisors has an incentive to recommend to clients that the assets under management by Arbor Point Advisors be held in custody with the referring firm and to place transactions for client accounts with that same firm. Our arrangement does not diminish our duty to seek best execution of trades for client accounts. A referring custodial or clearing firm does not receive solicitor or referral fees from us for providing Arbor Point Advisors with a potential investment advisor representative referral.

See Section 12, *Brokerage Practices*, for more information about the economic benefits APA can receive from TD Ameritrade, Inc., Charles Schwab & Co., Inc. and/or Fidelity Institutional Wealth Services when using their brokerage and/or custodial services to provide investment management services.

Lead Generation Programs

Our representatives can utilize the services of lead generation or business development firms. Generally, prospects will contact that firm directly or online and receive the names of several financial service providers in the prospect's area. The prospect can then review the list and make a decision whether or not to contact a selected financial service provider. The firm does not provide the prospect any advice or recommendations concerning the list of advisors. Typically, advisors pay a subscription or membership fee to be included in the firm's network or association. In addition, some firms can provide marketing resources.

Other Compensation

APA or our affiliated broker/dealer, SAI, can form alliances and networking and referral arrangements with financial institutions such as community banks, credit unions, credit union service organizations and farm credit services (Third-

Party Financial Institutions). These alliances and arrangements allow representatives to offer financial planning services and certain other non-deposit investment and insurance products and services to customers/members of those Third-Party Financial Institutions. Our firm may lease space in selected branches of the Third-Party Financial Institutions and then sub-lease it to your representative if he or she conducts business from these locations. As a result of these alliances or networking arrangements, your representative may not be able to offer certain products that are otherwise available through our firm. Also as a result of these alliances or networking arrangements, Third-Party Financial Institutions can receive compensation representing payment for the use of the facilities and equipment of the Third-Party Financial Institutions. Compensation can be in the form of a program support or rent payment and/or a portion of advisory fees or securities and insurance commissions paid to representatives for sales to customer/members of the institutions.

These relationships can create compliance issues relative to consumer protection. At a minimum, joint regulatory guidelines of the depository institution call for written and verbal disclosure at or prior to the time securities products are purchased or sold. Also, the securities products:

- Are not insured by the Federal Deposit Insurance Corporation or National Credit Union Share Insurance Fund, the Federal Deposit Insurance Corporation, the National Credit Union Administration or any other federal or state deposit guarantee fund or other government agency;
- Not endorsed or guaranteed by the bank or credit union or their affiliates;
- Are not deposits or obligations of the depository institutions and are not guaranteed by the depository institutions;
- Are subject to investment risks, including possible loss of principal invested.

Your representative can have an incentive to join and remain affiliated with APA and SAI through certain compensation arrangements which could include bonuses, enhanced pay-outs, forgivable loans and/or business transition loans. Furthermore, there can be production goals associated with the recommendation of a transaction from your representative. We can also offer incentives to your representative for meeting certain production levels above and beyond compensation he or she receives for providing advisory services through Arbor Point Advisors and/or selling products and services through SAI. Receiving incentives may be considered to be a conflict of interest. We encourage you to review this ADV closely and discuss any potential conflicts of interest with your representative.

Our firm, our officers and our representatives can receive reimbursements from marketing and distribution allowances, due diligence fees and travel expenses. Other compensation or reimbursement can also be received based on deposits and/or assets under management directly from third-party money manager program sponsors for the costs of marketing, distribution, business and client development, educational enhancement and/or due diligence reviews incurred by our firm or your representatives relating to the promotion or sale of the program sponsor's products or services.

Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors can underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements is not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for which sales have been made or it is anticipated sales will be made.

In order to help cover or defray the costs of transitioning from another registered investment advisor to APA, our representatives can receive various forms and amounts of transition assistance. Such transition assistance can include a promissory note loan, rent, technology services and equipment, legal expenses, administrative support, termination fees associated with moving accounts, and regulatory services. Transition assistance is based on production, fee reimbursement, free or reduced-cost marketing material, attendance at conferences and events, or access to preferred pricing.

Securities America can issue payments in the form of loans to representatives which may be forgivable based on years of service or the extent of their production. This practice may create a conflict of interest because the representative can have a financial incentive to recommend a client engage APA for advisory services in order for the loan to be forgiven. However, if you engage APA for an advisor managed account, your representative will obtain the necessary financial data from you, assist you in determining the suitability for the advisor managed account and help you set appropriate investment objectives. Your representative will then be able to purchase and sell securities in accordance with your investment objectives. APA periodically reviews advisory accounts to ensure suitability and adherence to investment objectives. Please consult with your representative if you have questions regarding this issue.

ITEM 15. CUSTODY

APA does not maintain physical custody of client funds or securities; physical custody is maintained by an outside custodian. However, APA is deemed to have custody of your funds or securities because of the (a) direct deduction of advisory fees from your accounts within the programs described in the *Advisory Business* section above and (b) disbursement of money from your account to you or third parties when authorization has been granted pursuant to certain standing letters of authorization or similar requests. Because of this custody, SEC regulation requires us to undergo an examination provided by a qualified independent public accountant at least annually. Additionally, APA must undergo an independent verification of client assets under its control.

ITEM 16. INVESTMENT DISCRETION

When providing investment management services, and upon receiving written authorization from you in our standard client agreement, Arbor Point Advisors maintains trading authorization over your account(s) and provides management services on a discretionary basis. When discretionary authority is granted, we have the authority to determine the type of securities, the amount of securities to be bought or sold, the timing of such purchase or sale, and the commission rates paid for your portfolio without obtaining your consent for each transaction. Discretionary trading authority facilitates placing trades in your accounts on your behalf so that APA and your representative can promptly implement the investment policy you have approved in writing.

You have the ability to place reasonable restrictions on the types of investments that may be purchased in your Account. You can also place reasonable limitations on the discretionary power granted to Arbor Point Advisors so long as the limitations are specifically set forth or included as an attachment to the client agreement. You can change/amend these limitations as required. Such amendments must be submitted in writing.

ITEM 17. VOTING CLIENT SECURITIES

Proxy Voting

Arbor Point Advisors does not vote proxies on your behalf. You are solely responsible for all proxy voting decisions. You receive proxies directly from the qualified custodian or transfer agent; we do not provide you with the proxies. You are encouraged to read through the information provided with the proxy-voting documents and make a determination based on the information provided. Although we do not vote proxies, if you have a question about a particular proxy feel free to contact us. However, you have the ultimate responsibility for making all proxy-voting decisions.

With respect to assets managed by a third-party money manager, we do not vote the proxies associated with these assets. You need to refer to each third-party money manager's disclosure brochure to determine whether the third-party money manager votes proxies on your behalf. You can request a complete copy of a third-party money manager's proxy voting policies and procedures as well as information on how your proxies were voted by contacting the third-party money manager.

Class Action Lawsuits

You retain the right under applicable securities laws to individually initiate a lawsuit or join a class-action lawsuit against the issuer of a security that was held, purchased or sold by or for you. Arbor Point Advisors does not initiate any such legal proceeding on behalf of clients and does not provide legal advice to clients regarding potential causes of action against such a security issuer or whether the client should join a class-action lawsuit. We recommend that you seek legal counsel prior to making a decision regarding whether to participate in such a class-action lawsuit. Moreover, our services do not include monitoring or informing you of any potential or actual class-action lawsuits against the issuers of the securities that were held, purchased or sold by or for you.

ITEM 18. FINANCIAL INFORMATION

This item is not applicable to Arbor Point Advisors. We do not require, solicit or accept prepayment of more than \$1200 in fees per client, six months or more in advance of services being provided. Therefore, we are not required to include a balance sheet for the most recent fiscal year. In addition, we are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, Arbor Point Advisors has not been the subject of a bankruptcy petition at any time.
