- Item 19.A – Management Biographical Information
- Item 19.B – Outside Business Activities
- Item 19.C – Performance Based Fees
- Item 19.D – Arbitration Claims, Litigation and Other Proceedings
- Item 19.E – Relationships with Issuers of Securities

Item 4 – Advisory Business

Golden Eagle Capital Advisors, Inc. (“the Adviser”) has been in business since 2014. Maurizio Manzati is President and 100% Shareholder. Maria Bravin is Director and Chief Compliance Officer. Both partners has more than 25 years of experience in financial and management consultancies.

Discretionary Managed Portfolios

Golden Eagle Capital Advisors offers a number of Asset Management Programs. These Asset Management Programs are managed to meet the stated objective of the Program. When clients choose an Asset Management Program, they will authorize Golden Eagle Capital Advisors and its assigned Asset Manager to make discretionary asset allocation decisions in their accounts based on the discipline and risk level of the program(s) chosen. Each Asset Manager appointed by Golden Eagle Capital Advisors offers a unique discipline of investing. Based on a preliminary Profile questionnaire completed by clients, our Advisory Representative will make a recommendation to them as to the Asset Manager, Program and risk level appropriate for them.

Although the ultimate responsibility as to the management of their accounts remains with Golden Eagle Capital Advisors, Golden Eagle Capital Advisors relies on the expertise and management disciplines of its Asset Managers to manage each Program portfolio to the stated discipline and risk level. Golden Eagle Capital Advisors, however, retains the authority to modify any allocation instructions received by an Asset Manager. If an Asset Manager or Program ceases to be available or is removed from Golden Eagle Capital Advisors' offerings, Golden Eagle Capital Advisors will notify clients in writing, in advance, and if we do not hear back from them, we will move their assets within that Program to a new Asset Management Program with a commensurate level of risk.

Please refer to Item 8, Methods of Analysis, Investment Strategies and Risk Loss, for a description of the primary investment strategies utilized by the Investment Management and Research Team. Golden Eagle Capital Advisors provides investment advice primarily on such investments as mutual funds, ETF's, stocks, bonds and options.

Non-Discretionary Managed Portfolios

The ability to customize clients portfolio is available on Golden Eagle investment advisory platforms, for an advisory fee charged on all assets in the account, (the Asset Management Fee). Our Advisory Representative will provide one-on-one professional investment advice to help clients to choose the right investments, leaving the final investment decisions to them. Our Advisory Representative will work with clients to design a portfolio based on their investment objectives, tolerance for risk and any investment restrictions requested by them.

The Adviser manages client's assets that are under custody at one of our various approved custodians and charges an annual fee (percentage of assets under management paid quarterly) for investment advice and services.

Retirement Plan Consulting Program

GECA offers consulting and advisory services for employer-sponsored retirement plans that are designed to assist plan sponsors of employee benefit plans (“Sponsors”). GECA may also assist Sponsors with enrollment and/or providing investment education to plan participants and beneficiaries. GECA provides these retirement plan services (“Retirement Plan Services”) through the GECA IARs and may charge a fee for the Retirement Plan Services, as described in this Brochure and the Retirement Plan Consulting Agreement (“Agreement”).

Retirement Plan Services include services that would be considered fiduciary services or non-fiduciary services under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), or comparable state laws, rules and regulations. In accordance with ERISA Section 408(b)(2), the Plan Sponsor is provided with a written description of GECA’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Advisor reasonably expects under the engagement.

In certain limited arrangements as agreed to in writing between a Sponsor and GECA, GECA may provide their retirement plan participants limited point-in-time advice which could also be deemed ERISA fiduciary advice.

When delivering fiduciary services to a plan, GECA will act in good faith and with the degree of diligence, care and skill that a prudent person rendering similar services would exercise under similar circumstances. When providing any fiduciary services to a retirement plan and/or plan Sponsor, GECA will solely be making recommendations to Sponsor and Sponsor retains full discretionary authority and control over assets of the plan.

When providing any fiduciary services to a retirement plan participant in connection with Retirement Plan Services, GECA will solely be making recommendations to participant and participant retains full discretionary authority and control over asset of the participant’s account. Sponsor may engage GECA to perform the Retirement Plan Services by providing information about the plan, including the plan design, plan objectives, investment objectives, investment risk tolerance, demographics about plan participants, and third-party service providers, and by executing an Agreement.

GECA will provide Sponsor a copy of this Brochure or a comparable brochure and the Agreement for review. The Agreement describes the terms of the arrangement between GECA and Sponsor, including a description of the Retirement Plan Services and the fees to be charged by GECA. By signing the Agreement, Sponsor represents that Sponsor has received sufficient information and determined that the Retirement Plan Services selected are: (i) necessary for the operation of the plan and (ii) reasonable and appropriate based upon the compensation to be paid for the Retirement Plan Services. Sponsor must sign and submit the Agreement to GECA before GECA performs any Retirement Plan Services. A description of the Retirement Plan Services is as follows:

- Vendor Analysis
- Plan Participant Enrollment and Education Tracking
- Investment Policy Statement (“IPS”) Design and Monitoring
- Investment Management
- Performance Reporting
- Ongoing Investment Recommendation and Assistance
- ERISA 404(c) Assistance
- Benchmarking Services

Item 5 – Fees and Compensation

Discretionary Managed Portfolios

The Asset Management Program Fee will vary depending on the Asset Management Program(s) selected. Golden Eagle Capital Advisors has employed its Investment Management and Research Team (IM&R) to oversee its Asset Management Programs. The IM team is described in more detail in the attached team ADV2B Bio brochure. The IM team has final approval on all portfolio decisions related to Golden Eagle’s Asset Management Programs. Below are the Fee Schedules for the Asset Management Programs that Golden Eagle offers on its five (5) custodial solutions.

Fixed Income: The main goal of this investment objective is to preserve capital. It should be the reference point for investors with a low tolerance for risk. This Objective is frequently considered for portfolios with short-term investment time frames. The portfolio asset allocation mix for a preservation portfolio might be: Cash: 10-20%; Bonds: 100%; Shares: 0%.

Income-Oriented: The main objective of this portfolio is the desire for a modest level of growth over inflation, while protecting the principal. The asset allocation mix for a conservative growth portfolio might be: Cash: 5-10%; Bonds: 96%; Shares: 4%.

Balanced: The asset allocation of this investment objective is often split equally between stocks and bond, with the goal to provide a balance between growth and current income. Longer investment horizon portfolios (generally longer than five years) consider balanced portfolios. The portfolio asset allocation mix for a balanced portfolio might be: Cash: 5-10%; Bonds: 80%; Shares: 20%.

Capital-Gains-Oriented: Here, the desire is for growth but less risk tolerance than for a pure equity portfolio. These portfolios have a higher risk level, so a longer time horizon is required. An investor with this objective must be able to tolerate the equity market’s fluctuations. The portfolio asset allocation mix for a moderate growth portfolio might be: Cash: 5-10%; Bonds: 60%; Shares: 40%.

Equities: This investment objective is considered by investors with a long term investment horizon, who are able to tolerate several back-to-back years of negative returns. This is the highest risk profile, and therefore may provide the highest return / loss potential. Desire for long term growth outweighs the desire for short term capital preservation. The portfolio asset mix for an aggressive growth portfolio might be: Cash: 0-10%; Bonds: 20%; Shares: 80%.

Asset Management Program – annual Asset Management fee:

Portfolio	A.M. Rate	Performance Fee	Benchmark
Fixed Income	1.00%	20%	100% Barclays 1-3Y
Income Oriented	1.25%	20%	96% Barclays 1-3Y 4% MSCI World
Balanced	1.50%	20%	80% Barclays 1-3Y 20% MSCI World
Capital Gains Oriented	1.75%	20%	60% Barclays 1-3Y 40% MSCI World
Equities	2.00%	20%	20% Barclays 1-3Y 80% MSCI World

Non-Discretionary Managed Portfolios

For an asset-based advisory fee (the Tailor-made Asset Management Fee), Golden Eagle provides clients with one-on-one professional advice by one of our Advisory Representatives:

Client Account Value	Annual “Tailor-made” Fee
First \$ 500,000	1.00%
Over \$ 500,000	0.80%

The Adviser charges clients an annual percentage of assets under management, charged quarterly for Investment Advisory services. Clients are billed on a quarterly basis under flexible billing terms at the rate of between 0.15% and 2%.

Retirement Plan Consulting Services

Fees for the Retirement Plan Services are negotiable. The Plan Sponsor may be charged a fee based on a percentage of plan assets, an hourly rate or a flat dollar amount. The Plan Sponsor may decide whether to pay the fees directly or may authorize the plan’s recordkeeper or custodian to pay GECA from plan assets. If fees are to be charged on an ongoing basis, they will be billed monthly or quarterly in arrears. If the fee is not hourly, the initial fee will be prorated based upon the number of days remaining in the initial quarterly period from the date of execution or effective date of the Agreement, unless other arrangements are agreed to by the Plan Sponsor. If the fee is based on a percentage of plan assets, the initial fee will be based upon the market value of the plan assets at the close of business on the last business day of the initial quarterly period, based on the average daily balance of plan assets, or as otherwise calculated by the recordkeeper used by the plan.

Thereafter, the quarterly portion of any annual asset-based fees will be based upon the market value of the plan assets at the close of business on the last business day of the previous calendar month or quarter (without adjustment for anticipated withdrawals by plan participants or beneficiaries or other anticipated or scheduled transfers or distributions of assets), based on the average daily balance of plan assets, or as otherwise calculated by the recordkeeper. If the Agreement is terminated prior to the end of a quarter, GECA will be entitled to a fee, prorated for the number of days in the period prior to the effective date of termination or as otherwise calculated by the recordkeeper. Plan Sponsors receiving Retirement Plan Services may pay more or less than a client might otherwise pay if purchasing the Retirement Plan Services separately or through another service provider. There are several factors that determine whether the costs would be more or less, including, but not limited to, the size of the plan, the specific investments made by the plan, the number of locations of participants, the Retirement Plan Services offered by another service provider, and the actual costs of Retirement Plan Services purchased elsewhere. In light of the specific Retirement Plan Services offered by GECA, the fees charged may be more or less than those of other similar service providers. All fees paid to GECA for Retirement Plan Services are separate and distinct from the fees and expenses charged by mutual funds, ETFs, and other investment vehicles to their shareholders. Those fees and expenses are described in each investment's prospectus, and will generally include a management fee, other expenses, and possible distribution fees. If the investment also imposes sales charges, a client may pay an initial or deferred sales charge. The Retirement Plan Services provided by GECA are designed to, among other things, assist the client in determining which investment managers are most appropriate to each client's financial condition and objectives and to provide other administrative assistance as selected by the client. Accordingly, the client should review both the fees charged by the funds, the investment manager, the plan's other service providers and the fees charged by GECA to fully understand the total amount of fees to be paid by the client and to evaluate the Retirement Plan Services being provided.

Receipt of Additional Compensation

Investment adviser representatives will never receive brokerage or mutual fund trail commissions from the sale of securities, in their capacity as registered persons through Golden Eagle Capital Advisors, a registered investment adviser.

Clients are advised that they are not required to purchase or sell securities through the investment adviser representatives acting in the capacity of registered persons through Golden Eagle Capital Advisors and may purchase the same securities or products from an unaffiliated broker-dealer.

Item 6 – Performance-Based Fees and Side-By-Side Management

The Adviser, under the Discretionary Managed Portfolios receive the following performance fees:

Portfolio	Performance fee	Benchmark
Fixed Income	20%	100% Barclays 1-3Y
Income Oriented	20%	96% Barclays 1-3Y 4% MSCI World
Balanced	20%	80% Barclays 1-3Y 20% MSCI World
Capital Gains Oriented	20%	60% Barclays 1-3Y 40% MSCI World
Equities	20%	20% Barclays 1-3Y 80% MSCI World

The Adviser, under the Non-Discretionary Managed Portfolios does not charge or receive, directly or indirectly, any performance-based fees.

Item 7 – Types of Clients

The Adviser provides advisory services to:

- Individuals
- High net worth individuals – An individual who is a “qualified client” under rule 205-3 of the Advisers Act of 1940 or is a “qualified purchaser”.
- Business entities including sole proprietorships

Account Minimums

The Adviser has an established household minimum of \$75,000 but certain exceptions may be provided by the Investment Advisor Representative.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Method of Analysis

The Adviser’s main sources of financial information are prospectuses, research materials prepared by others, corporate rating services, annual reports and company press releases.

Fundamental Analysis

The Adviser uses fundamental analysis. Fundamental analysis involves predicting the price movement of an asset based on measures that are related to the underlying business. This method is used to judge the performance of management. (Although it is important to note that things outside of management’s control can impact performance).

Comparing the margins of the company and its relative performance to that of two or three of its peers will give an idea of whether the performance is potentially outside of management's control.

Technical Analysis

Technical analysis involves predicting the price movement of an asset based on factors unrelated to the underlying business (price, volume, and open interest, among other factors, to detect and interpret patterns to predict the movement of individual securities, an industry or the broad market).

Charting is a subsector of technical analysis and also focuses on predicting price movements of assets based on patterns that are formed by the price movements.

The Adviser may recommend one or a combination of assets and investment strategies as follows:

Mutual & Exchange Traded Funds

The Adviser recommends index and actively managed, mutual and exchange traded funds when designing client portfolios. The Adviser considers index funds based on how closely the funds' characteristics mirror the indices they track.

The Adviser analyzes actively managed funds by comparing funds that target the same market sector and have the same investment style using prospectuses and other sources of information.

The Adviser reviews the following prior to recommending funds to clients:

- Rank in Category over various periods
- Return Rating
- Risk Rating
- YTD Return (Outsize swings in comparisons to peers can be a sign of risky practices such as placing large bets on certain sectors of the market.)
- 1 Yr Return
- 3 Yr Return
- 5 Yr Return (Typically over a five year period, the economy experiences a complete cycle. However, the way in which a manager operates in various economic environments reflects the manager's ability to make adjustments or stay the course.)
- Loads
- Total Expense Ratios
- Net Assets
- Turnover
- Median Market Capitalization
- Morningstar Rating

The Adviser also takes the manager or management team tenure under consideration to determine who was responsible for generating the performance numbers.

Public Equity

A corporation may issue stock to the general public after registration. Stock represents an ownership interest in a company.

The Adviser uses valuation measures and financial information, evaluates the regulatory environment, analyzes products or services that are available or under development and the factors that can impact them to predict the price movement of a company's stock. The Adviser also makes comparisons to the company's peers and to the broader market.

Corporate Debt & Municipal Securities

The Adviser generally analyzes the current yield, yield to maturity, yield to call, call and default risks, and interest coverage.

Debt is issued by federal, state and foreign governments and corporations to finance their operations. Debt represents their promise to repay the borrowed amount with interest according to the terms and conditions of the debt instrument. Debt obligations offer limited participation in the upside of a business. In exchange, holders receive interest and a position that is generally senior to equity in a bankruptcy.

Private Securities

Some securities are acquired in unregistered, private sales from the issuer or from an affiliate of the issuer typically through Regulation D or other private placement offerings or employee stock benefit plans as compensation for professional services, or in exchange for providing start-up capital. The Adviser reviews the applicable offering documents. The Adviser may analyze:

- Management structure
- Backgrounds of management personnel
- Management and director compensation
- Financial statements
- Regulatory environment
- Competitors
- Products and services differentiators
- Threats to a company's ability to execute its business plan

In the case of pooled investments, the Adviser may also analyze:

- Allocation of profits, losses and taxes
- Custody of securities and cash
- Lock-up period or any limitations towards the redemption of interest
- Exemptions from registration and types of investors
- Investment strategy, objective and the use of leverage
- Conflicts and potential conflicts of interest
- Performance information (Gross or Net) and how calculated
- Valuation, particularly of illiquid securities and hard assets

Investment Strategies

The Adviser works with each client to design an appropriate investment strategy based on their financial and tax status, risk tolerance and investment objectives. The Adviser usually recommends investment strategies for the long-term, but may occasionally recommend short-term investment and hedging strategies. The Adviser generally recommends a target asset mix with periodic rebalancing.

Risk of Loss

Clients are advised that investing in securities involves the risk of loss of the entire principal amount invested including any gains. Clients should not invest unless they are able to bear this risk. Any of the above investment strategies may lead to a loss on investments.

Even hedging strategies may fail if markets move against the hedged investments. In addition, investing carries with it opportunity risk. It is impossible to accurately predict the sectors of the market or asset classes that will have more favorable returns for a given period.

Item 8.A – Frequent Trading of Securities

The Adviser is not involved in the frequent trading of securities.

Item 8.B – Material Risks of Particular Securities

The Adviser doesn't recommend any type of security that involves significant or unusual risks except for the following which may present material risks to investors:

Municipal Securities

Municipal securities are backed by either the full faith and credit of the issuer or by revenue generated by a specific project (like a toll road or parking garage) for which the securities were issued. The latter type of securities could quickly lose value or even become virtually worthless if the expected project revenue does not meet expectations.

Partnership interests (Real estate, Oil and Gas interests)

Investment partnerships are typically composed of a limited number of partners and at least one general partner. The liability of the limited partners is restricted to the amount of each partner's investment. The liability of the general partner is theoretically unlimited and extends beyond the amount invested to personal or corporate assets.

Because of this increased exposure, the general partner manages the partnership, makes the investment decisions and receives management fees and a higher portion of the return on partnership investments.

Because of the nature of the limited partnership structure, partnership investments should be considered long term and illiquid. There are typically no secondary markets in which these types of investments trade. Therefore, if the value of the underlying assets should decline, the value of partnership shares would also decline and unlike other types of securities, an investor may find it hard to quickly sell shares in an illiquid market.

An REIT is a tax designation for a corporation investing in real estate that reduces or eliminates corporate income taxes

An REIT is a corporation, business trust, or association managed by one or more trustees or directors who pool the resources of individual investors for passive investment in real estate. In return, REITs are required to distribute 90% of their income to investors so they have the potential to be good for investors that seek a steady income from their investments.

REITs typically receive special tax considerations and offer investors high yields. Individuals can invest by purchasing shares directly on an open exchange or by investing in a mutual fund that specializes in public real estate; so REITs can be highly liquid.

REIT investing is not without risk. Real estate construction projects have a long timeline which can result overbuilding of types of properties owned by REITs. Higher interest rates may increase borrowing costs for construction, financing of the purchase of REIT-owned properties and operating costs for existing REIT-owned business properties. Any of these events may cause a substantial decline in the value of REIT investments.

Clients should consult the Adviser if they have questions concerning the basic characteristics of these or other investment products or about the risks and potential rewards of investing.

Item 9 – Disciplinary Information

The Adviser does not have any disciplinary information to disclose.

Item 9.A – Criminal or Civil Actions

Neither the Adviser nor any management person has been found guilty in a domestic, foreign or military court.

Item 9.B – Administrative Proceedings

Neither the Adviser nor any management person has any administrative proceedings pending before the SEC, any other federal regulatory agency, any state regulatory agency, or any foreign financial regulatory authority.

Item 9.C – Self-Regulatory Organization (“SRO”) Proceedings

Neither the Adviser nor any management person has been found by any SRO to have caused an investment-related business to lose its authorization to do business, or to have been involved in a violation of the SRO’s rules, or been barred or suspended from membership or from association with other members, or expelled from membership, otherwise significantly limited from investment-related activities, or fined.

Item 10 – Other Financial Industry Activities and Affiliations

Item 10.A – Broker-Dealer Registration

Associated persons of the Adviser may be registered persons through Golden Eagle Capital Advisors. In these capacities, associated persons may recommend securities or other products and receive normal transaction fees, commissions or other compensation. Thus, a conflict of interest may exist between the interests of the associated persons and those of advisory clients.

Clients are under no obligation to act upon any recommendations of associated persons or affect any transactions through associated persons if they decide to follow their recommendations.

Item 10.B – Futures Commission Merchant/Commodities

Neither the Adviser nor any management person is a commodity broker/futures commission merchant, a commodity pool operator, commodity trading advisor or an associated person for the foregoing entities; nor do they have any registration applications pending.

Item 10.C – Relationships with Related Persons

In addition to being registered persons and investment adviser representatives of Golden Eagle Capital Advisors, certain associated persons are insurance agents appointed with various insurance companies.

In these capacities associated persons of the Adviser may recommend securities, insurance, advisory services, or other products, and receive commissions and other compensation if products are purchased through any firms with which any associated persons are affiliated. Thus, a potential conflict of interest exists between the interests of associated persons and those of the advisory clients. However, clients are under no obligation to act upon any of their recommendations or execute any transactions through them if they decide to follow their recommendations.

Item 10.D – Relationships with Other Advisers

Associated persons provide services that involve investment management or supervision through Golden Eagle Capital Advisors, Inc., a registered investment adviser. These relationships present a potential conflict of interest since associated persons will receive compensation through Golden Eagle Capital Advisors for the services that they perform.

The Adviser informs clients that they are under no obligation to act upon any recommendations or execute any transactions through associated persons if they decide to follow the recommendations and may elect to do business with other advisers or broker-dealers at any time.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Item 11.A – Code of Ethics

The Adviser has adopted a Code of Ethics that sets forth standards of conduct expected of advisory personnel and to address conflicts that arise from personal trading by advisory personnel. Advisory personnel are obligated to adhere to the Code of Ethics, and applicable securities and other laws.

The Code covers a range of topics that may include: general ethical principles, reporting personal securities trading, exceptions to reporting securities trading, reportable securities, initial public offerings and private placements, reporting ethical violations, distribution of the Code, review and enforcement processes, amendments to Form ADV and supervisory procedures. The Adviser will provide a copy of the Code to any client or prospective client upon request.

Item 11.B – Participation or Interest in Client Transactions

Principal Trading

Neither the Adviser nor any affiliated broker-dealer effects securities transactions as principal with the Adviser's clients. Neither the Adviser nor any associated person acting as a principal, buys securities from (or sells securities to) clients, acts as general partner in a partnership in which Adviser solicits client investments, or acts as an investment adviser to an investment company that the Adviser recommends to clients.

Personal Trading of Associates Affiliated with a Brokerage Firm

In their capacity as registered persons through Golden Eagle Capital Advisors, associated persons of the Adviser may receive payments from certain mutual funds distributed pursuant to a 12b-1 distribution plan, or other such plans, as compensation for administrative services, representing a separate financial interest. As such, a conflict of interest may exist with respect to recommendations to buy or sell securities. In all cases, recommendations are made in the best interests of the client. The Adviser does not permit insider trading and has implemented procedures to ensure that its policy regarding insider trading is being observed by associated persons.

Agency-Cross Action Transactions

Neither the Adviser nor any associated person recommends that clients buy from or sell securities to other clients.

Item 11.C – Personal Trading by Associated Persons

The Adviser recommends that clients invest in various types of assets. The Adviser and its associated persons may invest in the same types of assets. Permitted investments for associated persons are all asset classes. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by conducting a coordinated review of personal accounts and the accounts of Clients

Item 11.D – Conflicts of Interest with Personal Trading by Associated Persons

Associated persons may own an interest, or buy or sell for their own accounts, in the same securities, which may be recommended to advisory clients. Associated persons seek to ensure that they do not personally benefit from the short-term market effects of their recommendations to clients and their personal transactions are regularly monitored.

Associated persons are aware of the rules regarding material non-public information and insider trading. Associated persons may also buy or sell a specific security for their own account based on personal investment considerations, which the Adviser does not deem appropriate to buy or sell for clients.

Item 12 – Brokerage Practices

Item 12.A – Factors in Selecting or Recommending Broker-Dealers

Associated persons, in their capacity as registered persons through Golden Eagle Capital Advisors, may suggest that clients implement recommendations through Golden Eagle Capital Advisors. If the client so elects, associated persons would receive normal and customary commission in their capacities as registered persons of Golden Eagle Capital Advisors presenting associated persons with a conflict of interest.

Furthermore, in implementing a plan, clients may pay commissions or fees that are higher or lower than those that may be obtained elsewhere for similar services. Clients are advised that they are under no obligation to implement the plan or its recommendations through the associated persons in their capacities as registered persons.

Item 12.A1 – Research and Other Soft Dollar Benefits

The Adviser does not receive soft dollars generated by the securities transactions of its clients. The term "soft dollars" refers to funds which are generated by client trades being used by the Adviser to purchase products or services (such as research and enhanced brokerage services) from or through the broker-dealers whom the Adviser engages to execute securities transactions.

Item 12.A2 – Brokerage for Client Referrals

The Adviser does not refer clients to particular broker-dealers in exchange for client referrals from those broker-dealers.

Item 12.A3 – Directed Brokerage

The Adviser does not recommend or require that clients direct their brokerage business to any particular broker-dealer.

Item 12.B – Trade Aggregation

While Golden Eagle Capital Advisors allow Associated Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will Golden Eagle Capital Advisors, Inc., or any Supervised Person of Golden Eagle Capital Advisors, Inc., transact in any security to the detriment of any Client.**

Item 13 – Review of Accounts

Plans will typically be reviewed annually. Plans will be reviewed by the client's Investment Advisor Representative. Reviews may be triggered by material market, economic or political events, or by changes in a client's financial situation.

Investment adviser representatives of the Adviser, in their capacity as investment adviser representatives of Golden Eagle Capital Advisors, perform reviews of all investment advisory accounts no less than quarterly. Accounts are reviewed for consistency with the investment strategy and performance, among other things. Reviews may be triggered by changes in an account holder's personal, tax, or financial status. Macroeconomic and company specific events may also trigger reviews. There is currently no limit on the number of accounts that can be reviewed by Mr. Manzati.

Advisory account statements are generated no less than quarterly. These statements are sent directly to the account owner from their broker-dealer, product sponsors or custodian. These reports list the account positions, activity in the account over the covered period, and other related information. Clients are also sent confirmations following each brokerage account transaction. Golden Eagle Capital Advisors may also provide a periodic report summarizing account activity and performance, either online via secure website or hard copy via standard mail. Clients should carefully review the custodian's statements and should compare these statements to the reports from Golden Eagle Capital Advisors.

Item 14 – Client Referrals and Other Compensation

The Adviser does not have an arrangement under which it or its associated persons compensate others for client referrals. The Adviser doesn't receive any economic benefit for providing advisory services to clients from a person who is not a client. This includes sales awards or prizes.

The Adviser accept custody of client funds or securities that cannot be held with a U.S. qualified custodian. The Adviser is deemed to have custody of these client assets.

Golden Eagle Capital Advisors mitigate any custody risks by maintaining internal controls and having these controls periodically tested by internal auditors and an independent audit firm. For clients who open their accounts direct at qualified custodians Golden Eagle Capital Advisors do not perform any custody functions.

In certain circumstances, Golden Eagle Capital Advisors is deemed to have custody of these accounts based on the role of trustee on these accounts.

Golden Eagle Capital Advisors has implemented the following custody controls that are applicable to its clients who select Interactive Brokers, LLC, Vontobel Bank Ag and Signature Bank NY (escrow account) as their custodian:

1. Quarterly custody account statements: Interactive Brokers, LLC, will provide custody account statements at least quarterly. Golden Eagle Capital Advisors recommends that clients carefully review these statements by comparing them to the statements received from Golden Eagle Capital Advisors. Statements from Golden Eagle Capital Advisors and custody account statements might reflect different valuations based on trade versus settlement date reporting differences and price source differences. If the Client detects a discrepancy during its reconciliation process, they must notify the custodian and Golden Eagle Capital Advisors immediately. For tax and other purposes, the custodian's statement reflects the client's official account and asset balances.
2. Internal controls: Golden Eagle Capital Advisors maintains policies and procedures and other controls designed to prevent and mitigate it or its employees from having unauthorized access to client assets.
3. Surprise examinations: Golden Eagle Capital Advisors has engaged a qualified, independent public accountant to perform at least annual surprise examinations, to validate assets on a sample basis, and to review the custody controls in place for those client assets over which the firm is deemed to have custody.
4. Custodian internal controls report: Golden Eagle Capital Advisors receives and reviews the internal control reports of Interactive Brokers, LLC and Vontobel Bank AG. These reports are prepared by a qualified independent public accountant and include an opinion with respect to the internal custody controls of Interactive Brokers, LLC, including access controls related to Golden Eagle Capital Advisors employees' custody system privileges. These reports address the appropriateness of the controls including:
 - Opening or modification of client accounts;
 - Authorizing client transactions, including contributions and withdrawals;
 - Authorizing and recording trades;
 - Authorizing new and changes to securities;
 -

- Processing income and corporate actions;
- Safeguarding physical securities;
- Reconciling cash and security positions; and
- Providing account statements

Item 16 – Investment Discretion

Depending on the advisory service chosen, Golden Eagle Capital Advisors and its Advisory Representatives, or an independent Asset Manager may have discretionary authority to determine which securities shall be bought and sold, and the total amount to be bought or sold in their advisory account(s). This authorization does not grant Golden Eagle Capital Advisors or its Advisory Representatives the right to withdraw any funds or securities from their advisory account(s), except as specifically authorized in your advisory agreement for the deduction of Advisory Fees. Your advisory agreement or account application will identify if you are giving discretionary trading authorization for your advisory account(s) to Golden Eagle Capital Advisors or your Advisory Representative.

Item 17 – Voting Client Securities

The Adviser does not accept authority to vote proxies on behalf of clients as a matter of policy. Clients will receive their proxy information directly from their custodian. Clients may contact the Adviser with questions about a particular solicitation by telephone at +1 (646) 722-2725 or at +971 4 4484674.

Item 18 – Financial Information

There is no financial condition that is reasonably likely to impair the Adviser's ability to meet its contractual commitments to its clients.

Item 19 – Requirements for State Registered Advisers

Item 19.A – Management Biographical Information

Refer to Item 2 and the Part 2B Supplement for management person information.

Item 19.B – Outside Business Activities

Associated persons spend approximately 25% of their time involved in Golden Eagle Capital Advisors related activities. For additional information about these activities see Item 10.

Item 19.C – Performance-Based Fees

Neither the Adviser nor any supervised person of the Adviser is compensated for advisory services with performance-based fees, with exception of Discretionary Managed Portfolios.

Item 19.D – Arbitration Claims, Litigation and Other Proceedings

Neither the Adviser nor any management person has been found liable as a result of any arbitration claim, or civil, self-regulatory organization, or administrative proceeding.

Item 19.E – Relationships with Issuers of Securities

Neither the Adviser nor any management persons has any relationship or arrangement with any issuer of securities.
