Item - 1 - Cover Page

This brochure provides information about the qualifications and business practices of LaSalle Debt Investors, Inc. (“LDI”), IARD/CRD Number 158422. If you have any questions about the contents of this brochure, please contact us at 310-234-2100. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about LDI is also available on the SEC’s website at: www.adviserinfo.sec.gov.

Item 2 - Material Changes

There have been no material changes since the last annual filing of LDI's brochure, dated March 2019, other than a name change from LaSalle Mortgage Real Estate Investors, Inc, to LaSalle Debt Investors, Inc. ("LDI").

Item 4 - Advisory Business

LaSalle Debt Investors Inc. ("LDI") formerly known as Lasalle Mortgage Real Estate Investors, Inc. and Latitude Management Real Estate Investors, Inc. (prior to January 1, 2019) changed its name on January 2, 2020, in conjunction with a rebranding activity to simplify its name.

LDI was founded in September 2000 as Legg Mason Real Estate Investors, Inc. by Glenn Sonnenberg and Wallace ("Chip") Sellers Jr. LDI was originally a wholly owned subsidiary of Legg Mason Inc. ("Legg Mason"). On March 31 of 2009 Legg Mason sold its 100% interest in LDI to Latitude Holdings, L.L.C., a company controlled by Glenn Sonnenberg. On January 1, 2019 Latitude Holdings sold 80% of its interest in LDI to JLL Co-investment Inc. The purchase agreement between JLL Co-Investment and LDI provides terms for the acquisition by JLL Co-investment Inc. of the balance of the shares in LDI held by Latitude Holdings under various circumstances and time frames. As of December 31, 2019, LDI and its affiliates had over \$1.28 billion in regulatory assets under

management as defined in the instructions to form ADV section 1 part 5. All such assets were in the form of pooled investment funds managed by LDI.

The Private Mortgage REITS

Based in Los Angeles, LDI currently provides discretionary investment advisory services to two private mortgage real estate investment trusts (the “REITs”) Latitude Management Real Estate Capital III, Inc. (“LMREC III”), and Latitude Management Real Estate Capital IV, Inc. (“LMREC IV”). The REITs primarily invest in commercial real estate related debt instruments structured as floating rate first mortgages collateralized by real estate assets located in the U.S. Both REITs are organized as discretionary funds with no pre-identified investments at the initial closing date. LMREC III’s investment period terminated January 14, 2019. Assets that LDI (i) identified prior to January 14, 2019 (ii) for which LMREC III had identified capacity and (iii) which were funded prior to February 15, 2019 were allocated to LMREC III. LMREC IV has an investment period that began May 1, 2017 and will last through April 30, 2022 and has priority with respect to all other investment opportunities that fit its mandate. The regulatory assets of the two REITs are the entire regulatory assets of LDI. These funds employ leverage. Both LMREC III and LMREC IV are closed end funds and from January 1, 2019 through the current date (March 2020) neither fund is accepting new equity commitments.

Other Business

As of September 30, 2018, through the date of this filing, LDI is and has only been engaged in the advisory business related to investments by the two private mortgage REITs discussed above in short term floating rate debt instruments secured by real estate assets. LDI continues to monitor other investment opportunities and is looking for additional real estate related debt investment opportunities. Prior to September 30, 2018 LDI also acted as an investment advisor to certain investment funds which directly invested in real estate equity.

The Funds

Both LMREC III and LMREC IV are organized as corporations, and in the aggregate are referred to herein as the Funds. The Funds have several wholly owned subsidiaries to facilitate financing transactions. The offering materials for the Funds contemplate that there may be parallel funds, which would be expected to invest in assets side-by-side on a pro-rata basis (based upon capital commitments) with one of the aforementioned entities. Generally, parallel funds would be established to accommodate specific tax, or legal structuring issues impacting certain types of investors. To date LDI has not created a parallel fund as such term is used in the applicable offering material.

Sidecars

LDI may provide to investors that make a specified minimum capital commitment, or third parties the right to participate in a separate investment vehicle (“Sidecar”) for the purpose of participating on a levered or unlevered basis in certain co-investment opportunities with a particular Fund (generally because the asset in question would be too large for the Fund to acquire without a co-investment vehicle). A Sidecar differs from a parallel fund in that it participates in the economics on a single investment, rather than proportionally on all investments of the Fund. The minimum capital commitment amount required to participate in a Sidecar would be dependent on the specific transaction. The size of any Sidecar if offered and the selection of participating investors will be determined in LDI’s discretion on an investment-by-investment basis. Neither REIT has offered any sidecar investment to any investor or third party (nor have the REITs jointly invested in any asset or invested in conjunction with LDI in any asset).

Services Provided

With respect to the Funds LDI is responsible for identifying investment opportunities as well as facilitating the acquisition, monitoring, and in the case of REO acquired by either of the Funds, disposition of such investment (loans are typically held to payoff rather than sold). LDI provides investment advice to the Funds or “clients” (not to investors in the Funds). LDI tailors its advisory services to the individual needs of each Fund, in accordance with the investment objectives, strategies and limitations (if any) described in each Fund’s respective offering documents, charter, bylaws, or if applicable at a future date its operating agreement or limited partnership agreement (“Governing Documents”).

Side Letters

LDI has entered into side letters or similar arrangements with certain Fund investors that have the effect of establishing or otherwise benefiting such investors in a manner more favorable than the rights and benefits described in the Fund(s) offering documents and agreements. Rights and benefits that are more favorable in any material respect may be afforded to an investor based upon its commitment level, and the same favorable rights and benefits may be extended, or not, to other investors in accordance with each respective Fund’s offering materials. These rights and benefits may include most favored nation status, advisory committee designations, fee rebates, investment restrictions, reporting requirements, tax considerations, and other terms and conditions. Side letters if applicable are negotiated at the time of a Fund’s formation, or if later at the time of an investor’s commitment. Once invested in a Fund, investors cannot impose additional investment guidelines or restrictions on such Fund.

Item 5 - Fees and Compensation

Fees are determined and assessed in a manner specific to each Fund. For the specific fees charged by any specific Fund, please refer to the Governing Documents for that Fund. The fees paid by the Funds are typically not negotiable; however, LDI may agree to rebate some portion of such fee to certain investors or investor classes. Certain fees may be deferred or waived from time to time at the discretion of LDI.

1. Management Fees

Funds currently pay annual base management fees equal to 1.5% of the total commitment amount during the investment period (or some portion thereof), and in most cases, net invested capital (measured on a historic cost basis) thereafter. Depending on the size of an investor's commitment to a specific Fund, a portion of such base management fee may be rebated by LDI directly to the Fund investor. The management fees are charged and paid quarterly in advance, as described in each Fund's offering materials.

Some Investors in LMREC III, and LMREC IV have agreed to a rebate that is variable. The amount of the base management fee rebate can be reduced by a percentage of distributions made by LMREC III or LMREC IV; however, in no case will the total base management fee net of rebates exceed the base management fee prior to any rebate or offset.

In the case of LMREC IV, LDI has structured the fund to include a rebate to LMREC IV if certain origination targets are not met during the initial 2 years of the investment period of such fund. In the first year of LMREC IV, as measured from May 2017 to May 2018, LMREC IV failed to meet the origination target and LDI rebated to LMREC IV a portion of the base asset management fee. In the second year governed by such arrangement the origination target was met and no such refund was due or paid from LDI to LMREC IV. This rebate is in addition to any investor specific rebate described in the prior paragraph.

2. Acquisition and Disposition Fees

Through December 31, 2019 neither REIT has been charged acquisition or disposition fees by LDI, nor does either fund documentation provide for any such fee or expense.

3. Incentive Compensation

LDI may receive a distribution of a portion of the REIT income by the REITs as an incentive fee, which fee is deducted from the Fund's distributable proceeds. The incentive compensation is generally dependent on Fund performance and represents a percentage of the amount of profits otherwise distributable to each investor. Each Fund has established a distribution waterfall describing how distributions will be paid to the underlying investors and LDI. Investors typically receive a preferred return on their investment prior to the distribution of any incentive compensation paid to LDI. The preferred return is generally 7-8% per annum depending on market conditions at the time the investment was structured.

LDI may receive a performance fee prior to repayment in full of investor capital. If Fund performance subsequently declines, then LDI will generally be required to rebate an amount up to the full amount paid to LDI in incentive compensation (a “clawback”).

The distribution waterfalls are further described in the Governing Documents for each Fund.

Performance-based compensation received by LDI is structured to comply with Rule 205-3 under the Investment Advisers Act of 1940 (“Advisers Act”), to the extent applicable.

4. Liquidity

LDI generally does not reinvest capital of a Fund in new assets (i.e. new originations/acquisitions) other than during the investment period for such Fund. However, distributable net proceeds may be reinvested in existing investments of the Funds after termination of the investment period, including investments in the Fund’s financing subsidiaries (during such subsidiaries’ revolving investment period, or as necessary to achieve compliance with the financing agreements that govern the activity of such subsidiary) and used for operating expenses of the Funds.

All of the Funds are organized as closed-end investment vehicles. There is no liquidity feature in any of the LDI sponsored Funds, and no investor in the Funds may withdraw, or redeem interests or shares, in the Funds prior to a mandatory pro rata share or capital redemption made by the relevant Fund to all investors as a group.

5. Organizational and Offering Fees and Expenses

The Funds will typically bear all organizational and offering fees and expenses incurred in their formation, in many cases up to a specified amount, as disclosed in the Funds’ Governing Documents. The Funds pay all third-party costs and expenses relating to the Fund business, including costs of originating, evaluating, acquiring, owning, hedging, financing, operating, reviewing, managing and disposing of any Fund asset or potential Fund asset (and shall reimburse LDI for any such costs and expenses paid or incurred by LDI and its affiliated persons), including, without limitation, fees and expenses of legal counsel, accountants, appraisers, investment bankers and other third party consultants and advisors; premiums for insurance protecting the Fund, the General Partner, Investor Committee, and the Advisory Committee; travel expenses of LDI and its affiliates and the members of the Advisory Board; any out-of-pocket expenses incurred by LDI and its affiliates in connection with management of the Fund; marketing of the Fund to potential borrowers, or sponsors of investments made or to be made by the Fund, including general research expenses as well as any costs and expenses incurred in connection with any evaluation of an asset for origination or purchase by the Fund whether or not actually originated or purchased.

Please see Item 12 for a description of LDI’s trading practices.

6. Travel Expenses

The Funds will be responsible for incurring the cost of travel expenses related to Fund business. Such expenses include LDI and its affiliated persons' first, business or economy class airfare for domestic or international travel.

Item 6 - Performance Based Fees and Side-by-Side Management

Please see the section titled "Incentive Compensation" under Item 3 above for a complete description of the performance-based fees allocable to the Funds' manager or General Partner as applicable. LDI is entitled to receive a portion of the distribution of income and proceeds as incentive compensation as set forth in each Fund's Governing Documents. Please see section 12 for a description of investment opportunity allocation.

The existence of performance-based compensation has the potential to create an incentive for LDI to make more speculative investments on behalf of a Fund than it would otherwise make in the absence of such arrangement, although LDI generally considers performance-based compensation to better align its interests with those of its investors.

Item 7 - Types of Clients

LDI provides discretionary investment advisory services to the Funds, which are its clients. Investors in the Funds include, but are not limited to, pension plans, endowments, corporate and business entities, foundations, trusts, and high net worth individuals. The Funds have minimum capital commitments for investors, as specified in the Governing Documents for each respective Fund, and which are negotiable by LDI. Each investor is required to meet certain suitability qualifications; examples may include being an "accredited investor" and "qualified client" or a "qualified purchaser" within the meaning set forth under the federal securities laws.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Investment Analysis

LDI identifies potential investment opportunities for the Funds through a variety of sources and bases a portion of its investment analysis on information obtained from working with industry professionals such as industry consultants, property management and leasing professionals, other investors, brokers, and other professionals within the real estate sector.

The screening process for potential investments involves several steps, which vary depending on the type of asset being proposed for origination/acquisition and the originating or acquiring Fund. In all cases a written Investment Committee Memo is prepared describing the due diligence conducted on the proposed origination/acquisition, and this summary is provided to the Investment Committee. The Investment Committee members for each Investment Committee affiliated with LDI as of February 1, 2020 are: Glenn Sonnenberg, Chip Sellers, Brett Mayer, Craig Oram, and Kristy Heuberger.

The REIT's Investment Committee will meet on a periodic basis, at least monthly, but also whenever requested with at least a 48-hour notice to review prospective investments, existing holdings, potential dispositions, material events regarding existing investments, and to assess real estate market activities. Members of the Investment Committee will vote, and majority approval of all members entitled to vote (i.e., exclusive of a member that is recused from participating), is required for the origination or acquisition of an asset for any of the Funds.

The relevant Investment Committee reviews and makes all the investment decisions for the Fund for which it is responsible. As part of this process, and as required, each Investment Committee reviews the allocation of limited investment opportunities among the Funds. The allocations during the overlapping investment periods of LMREC III and LMREC IV (from May 2017 through January 2019) are handled as described in the LMREC IV PPM (all investments are allocated to LMREC III so long as LMREC III has capacity for the investment in question at the time the application is processed).

Investment Strategies

LDI provides advice to Funds that invest in floating rate commercial real estate debt investments. The Funds generally invest in first mortgage debt of single purpose limited partnerships and limited liability companies that were structured for the purpose of holding the underlying real estate assets which serve as collateral (i.e., the physical property) for the debt instrument in which the Fund invested. The Funds may also invest in debt participations. The Funds have not made, and do not intend to make investments in, or loans to any of the equity partnerships formerly managed by LDI, or to entities in which any member of the Investment Committee, or any equity fund managed by JLL has an investment. The Funds do not acquire real estate assets (as opposed to real estate related debt) except via foreclosure, deed in lieu of foreclosure or similar arrangement.

Risk of Loss

Investors should refer to the risks described in the Private Placement Memorandum for each respective Fund for a full description of risks associated with an investment in such Fund.

Investments in the Funds involve a significant degree of risk and are illiquid. Similarly,

the investments made by the Funds involve significant risks and are also illiquid. A Fund investor should not invest in a Fund unless the investor is able to withstand a total loss of its investment in the Fund. There is no assurance that any Fund will achieve its investment objective.

Leverage

LDI will cause the Funds to use leverage from time to time, in the form of debt financing, including issuing securitized debt financing, such as Collateralized Loan Obligations. The proceeds of the leverage will be used to originate, acquire, and refinance investments. Each Fund has established a limit regarding the amount of leverage that can be used as described in the Governing Documents for such Fund. Debt service requirements may deplete or restrict a Fund's otherwise available cash flows. As a result of the use of leverage, relatively small changes in the overall value of Fund investments may have a magnified impact on the value of the Fund. If a Fund investment was unable to generate sufficient cash flow to meet interest and principal payments on the indebtedness incurred by the Fund, or to refinance such debt at maturity, the value of such investment, or the portfolio which includes such investment, or the Fund itself could be significantly reduced or eliminated. In addition, even if the assets of the Fund perform the terms of any debt financing may restrict the amount of funds available for distribution to Fund investors.

Interest Rate Risk

While, except for a de minimis portion, all the financial assets of the REITs are invested in floating rate obligations, these entities may still be exposed to interest rate risk. Among other risks derived from movements in interest rates, the value of the underlying collateral and associated cash flows may not increase or may not increase at the same rate as the loan index rate on the loan in which the REIT invested. As a result, the REIT may suffer increased credit losses.

LDI may participate in interest rate hedging strategies on behalf of the Funds. The Funds may enter into forward contracts, future contracts, swaps, caps, and collars. During the Period from March 2009 through March 2020 none of the Funds managed by LDI have participated in any interest rate hedging strategy other than: 1) the purchase of interest rate caps on loans originated by the REITs. However, there can be no assurance that in a future period such Funds would not engage in a broader range of interest rate hedging strategies to the extent permitted by their Governing Documents. Investing in these instruments can increase the risk of loss to the Funds. Generally, only a small amount of the full value of these instruments (the "notional amount") is necessary to enter into these transactions. As such, a change in the value of the instrument will magnify the amount of gains and losses experienced. Such hedging arrangements may also cause the Funds to be exposed to the creditworthiness of the selected hedging provider(s) from time to time. If the hedging arrangements are terminated at any time in accordance with their terms, the Fund may be liable to make a payment to or receive a payment from the hedging provider in connection with such termination reflecting the market value of the transactions comprising such hedging arrangements. If a Fund is required to make such a payment, it may be required to liquidate investments to do so. LDI may also invest the

Funds' assets in money market funds and/or other liquid, short term securities for cash management purposes.

Diversification

While LDI intends to originate, or acquire, and manage diversified portfolios of commercial real estate debt investments on behalf of the Funds, it may not be able to achieve that goal. Any Fund may end up participating in a limited number of investments and consequently, the aggregate return of such Fund may be materially and adversely affected by the unfavorable performance of a single investment.

Business Plan

The Funds managed by LDI focus on investments in assets that have underperformed their peer group. The strategy of the borrower in the case of the REITS is generally to invest additional capital in these assets in an attempt to improve asset performance to the identified peer group. There can be no assurance that LDI and/or the borrower has identified the correct peer group and that such capital investment will result in improved performance. If the additional capital investment fails to improve the asset performance, it is likely to result in a loss on the investment.

Lack of Control

The REITs make loans rather than equity investments. There are advantages to loans as an investment, but there are also disadvantages. As a lender the REITS do not have the ability to directly control the actions of the borrower(s). A borrower may select third party services, or servicers like property managers and contactors that are less than optimal, and/or may make decisions with respect to the property tenants or condition that would be different from decisions that LDI or the investor would have made, and these decisions may result in significant under performance, loss and/or default.

Asset Values and Real Estate Market Cyclicalities

Real estate markets demonstrated a significant degree of volatility and cyclicalities in the Global Financial Crises. Current valuations of in place income are high relative to historic averages. If there is a reversion to the historic mean valuation of such cashflows during the holding period of any loan, the value of the underlying collateral may fall substantially, and the Fund may incur a substantial loss on investment whether or not the business plan was successfully implemented.

Cybersecurity Risk.

The Funds, their portfolio investments, their service providers and other market participants increasingly depend on complex information technology and communications systems to conduct business functions. These systems are subject to a number of different threats or risks that could adversely affect the Funds and their portfolio investments, despite the efforts of service providers to adopt technologies,

processes and practices intended to mitigate these risks and protect the security of their computer systems, software, networks and other technology assets, as well as the confidentiality, integrity and availability of information belonging to the Funds and their portfolio investments. For example, unauthorized third parties may attempt to improperly access, modify, disrupt the operations of, or prevent access to the systems of the Funds, their portfolio investments, their service providers, counterparties or data within these systems. Third parties may also attempt to fraudulently induce employees, customers, third-party service providers or other users of such systems to disclose sensitive information to gain access to the confidential data. A successful penetration or circumvention of the security of such systems could result in the loss or theft of data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system or costs associated with system repairs. Such incidents could cause the Funds or their portfolio investments to incur regulatory penalties, reputational damage, additional compliance costs or financial loss

Item 9 - Disciplinary Information

LDI and its employees have not been involved in any legal or disciplinary events in the past 10 years that LDI believes would be material to a client's evaluation of LDI's advisory business or the integrity of its management.

Item 10 - Other Financial Industry Activities and Affiliations

Neither LDI nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer. Neither LDI nor any of its management persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing. See the section titled "Advisory Business" above for a description of LDI's role in providing advisory services to the Funds.

Employees of LDI may have family members and/or friends that are employed with, or are otherwise affiliated with, entities that provide services or engage in business transactions with LDI and/or the Funds. Examples of such relationships may include entities that are the Fund's investors, borrowers, joint venture partners, operating partners, real estate or securities brokers, lenders, and/or tenants in buildings owned by the Funds. Employees are required to report any such relationships to the Compliance Department, which monitors such relationships and any related conflicts.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

LDI has adopted a written Code of Ethics designed to address and avoid potential conflicts of interest as required under Rule 204A-1 under the Advisers Act. The Code of Ethics is documented in an appendix to the Compliance Manual

Rule 204A-1 requires LDI to adopt a Code of Ethics that sets forth a standard of business conduct and compliance with federal securities laws by all our employees. Our Code of Ethics contains policies and procedures that require pre-clearance before the purchase of certain securities and prompt internal reporting of any violations of the Code of Ethics.

LDI will provide a copy of our Code of Ethics to clients or prospective clients, upon request. Please contact Wallace (“Chip”) Sellers, Jr. by telephone at (310) 234-2100 should you have any questions concerning our Code of Ethics or wish to obtain a copy.

Participation or Interest in Client Transactions

LDI’s senior management, including Glenn Sonnenberg, Brett Mayer, Craig Oram and Chip Sellers as well as parties related to them have made personal investments in the Funds alongside the investors. As these investments are made on the same terms as investments by unaffiliated third parties, LDI does not perceive that this creates a conflict of interest. As previously described, LDI receives incentive compensation from the Funds.

Employees of LDI may make personal investments in any of the Funds managed by LDI or any other real estate related securities (other than securities, if any, issued by any of the Funds) subject to the restrictions of LDI’s Code of Ethics, as described above.

Principal Transactions

LDI does not sell securities from the firm or its affiliates to the Funds.

Cross Transactions

LDI generally does not permit the Funds to engage in any cross transactions. If LDI were to do so, LDI will first consider and determine that the transaction is in the best interests of both participating Funds and consistent with disclosed policies in each Fund’s constituent documents. LDI would then obtain consent from the Advisory Board of both Funds, to the extent deemed necessary or appropriate.

Transactions with Limited Partners and Affiliates

The Funds have in the past, and may in the future, enter into transactions with a third-party shareholder and/or its affiliates (whether as a buyer, seller, borrower, lessor, lessee, manager, broker, agent, lender, trustee, provider of services, or otherwise). Neither the Fund nor any partner shall have, because of this relationship, any rights in or to any income or profits derived from such transaction or relationship.

Item 12 - Brokerage Practices

Client Referrals

Prior to the acquisition by JLL Co-Investment the REITs managed by LDI engaged placement agents from time to time. As of the current date it is no longer anticipated that LDI will engage placement agents, and that such role shall be fulfilled by an affiliate of JLL Co-investment.

LDI previously engaged Wren Capital to act as a placement agent with respect to certain (but not all) investors in LMREC III, and LMREC IV. LDI also previously engaged Cakebread Consulting, a former affiliate of First Tryon Securities to act as a placement agent on certain LMREC III and LMREC IV investors. These entities are typically paid from .5% to 1.5% of the invested capital that they source for the fund managed by LDI.

Best Execution

When selecting a real estate broker in cases where a Fund may hold a real estate asset (as a result of a foreclosure, deed in lieu or another mortgage settlement). LDI will consider numerous factors and criteria with the overall objective of selecting a broker who will efficiently and effectively market the asset for sale and maximize returns for the Funds. Examples of the criteria used include the following: the broker was helpful or instrumental during the loan origination and/or consulting process during the asset management phase; the broker represented the borrower during the purchase of the asset and is already familiar with the property; access to decision makers for a likely capital source; ability to run the bidding process to maximize the return on investment to the Fund; knowledge and experience with the local market, type of asset and/or structure; complexity and size of the transaction; past performance in representing LDI or others on similar deals; presence of a strong local investment sales team assigned to the engagement; predisposition to use a particular broker; the broker's efficiency and professionalism in the preparation and distribution of marketing materials relevant to the engagement; overall allocation of business to a variety of qualified brokers that can meet LDI's needs; and the fee structure for the engagement.

Fund transactions in publicly traded commercial real estate securities are anticipated to be rare since it is not the objective of the Funds to engage in these transactions. However, in the unusual circumstances when LDI is a participant in such securities transaction, LDI will select broker-dealers based on its fiduciary duty to seek best execution. Numerous factors and criteria will be used when evaluating brokers. Examples of the criteria used include the following: overall price; availability and liquidity of a security (e.g. for a fixed

income security, the use of a broker-dealer that makes a market in a particular issuer); trading expertise; reliability; maintaining confidentiality; and reputation. In the year ending December 31, 2018 no such securities were acquired and the Funds did not engage any broker dealer to facilitate such a transaction.

LDI is responsible for the placement of Fund transactions and the negotiation of any commissions paid on such transactions. Securities, if purchased, would be expected to be purchased from an underwriter or market maker for the securities. Purchases of securities through brokers involve a commission to the broker. Purchases of securities from dealers serving as market makers include the spread between the bid and the asked price. The Funds are responsible for paying any commissions or other fees regarding any security transactions effected on behalf of the respective Fund. In the year ended December 31, 2018 no securities were purchased from any broker or underwriter.

When participating in interest rate hedging transactions, LDI and the Funds use a third-party vendor (from January 1, 2005 through the December 31, 2019 this entity has been Chatham Financial) to provide quotes from multiple counterparties. While LDI requires borrowers to provide such caps as additional collateral to the REIT Funds, the caps are paid for with borrower funds, and any payment received from ownership of the cap serves to offset borrower interest payment obligations otherwise due to the Fund. These transactions are executed with the counterparty with the intent of seeking “best execution” for the borrower (subject to the Fund’s credit criteria) who is responsible for the cost. Counterparties are selected on the basis of credit rating and price.

The Funds are responsible for paying all expenses associated with executing transactions in securities and hedging transactions. While the use of a third-party vendor to obtain quotes and negotiate transactions will increase the cost of the transaction more than the amount that the borrower might be able to achieve directly, these services, along with other account related or accounting assistance services, are considered by LDI to be a valuable service for the borrower and the Funds.

Research Reports

LDI receives real estate market data research from real estate brokers. LDI may also use the services of those real estate brokers to sell real estate investments for the Funds. LDI does not have any formal or informal arrangements to compensate the brokers for the research that is provided. LDI may also receive real estate-related research and market data from third party service providers. Some examples of such third-party research providers include, but are not limited to, Real Estate Investment Services (REIS), Real Capital Analytics and Co-Star. The Funds will bear the expense for the research obtained from such third parties and these payments will be made in hard dollars.

Trade Aggregation

The Funds did not invest in publicly traded securities in the period ended Dec 31 2019, and it is not anticipated that such any public securities investment would meet any of the Fund’s target investment criteria. If a Fund were to engage in a transaction in a publicly

traded security, due to exclusivity provisions and the fact that LDI typically only invests the assets of a single Fund in any one investment, it generally would not be practicable to aggregate transactions with another Fund.

Allocation of Investment Opportunities

LDI recognizes its fiduciary duty to act in the best interests of each of the Funds. In unusual instances when LDI may be able to allocate investment opportunities to more than one Fund at a time, it will do so on the basis of an established policy that is communicated to all investors in the Funds involved. At this time, that the only allocation of investment opportunities was between LMREC III and LMREC IV. LMREC III and LMREC IV invested in similar loan products from May 2017 through January 2019 (the end of the LMREC III investment period). The methodology that LDI adopted to allocate investment opportunities was that all opportunities were allocated to LMREC III (as the older fund), to the extent that LMREC III had sufficient capacity (both funding and diversification requirements) to originate the loan at the time the loan application was submitted. If LMREC III did not have capacity to originate the entire loan, it was offered to LMREC IV. In no circumstances will a single loan be allocated between the two Funds (no taxable mortgage pools).

Trade Errors

Given the private nature of the Funds investment securities, it is not anticipated that there will be any trade errors. However, if the Funds incur a trade error solely as a result of LDI's gross negligence, willful misconduct, or fraud, such errors are to be corrected by LDI as soon as practicable and in a manner, such that the Fund incurs no loss. Trade errors that result, other than by breach of care stated above, will be borne by the relevant Fund. To the extent that any gains arise from trading errors and as such are received by the Fund, then such gains will be retained by the relevant Fund.

Item 13 - Review of Accounts

Review of Fund Portfolios

The accounts managed by LDI are the Funds.

LDI's Origination Group meets on a periodic basis to discuss new investment opportunities that should be presented to the relevant Fund Investment Committee. The Fund Investment Committee meets whenever needed to review and approve new investment opportunities.

The investment positions and assets within the Funds' portfolios are monitored and reviewed by personnel of LDI's Asset Management group monthly. Each calendar quarter, a quarterly asset review meeting takes place, and a quarterly asset report is produced in which each of the Fund's respective investments is presented to LDI's senior

management, and investors in the relevant Fund for review of credit conditions, performance updates, and business plan.

Fund Reporting

LDI provides investors with quarterly Fund reports as described in the prior paragraph, in either electronic or written format generally within 90 days after the end of each calendar quarter. The reports contain the following information: (i) a schedule and summary description of each Fund investment; (ii) a description of the performance of each asset; (iii) unaudited financial statements including a balance sheet, income statement, and, (iv) a transmittal letter describing performance highlights. Investors also have on-line access to this information through the REALERA System. Investors periodically receive additional reporting including a statement to show cash flows from their investment in a fund and LDI distributes special reports to investors, upon specific request. The special reporting varies by the format in which an investor would prefer to receive our information (e.g., using a specific template or questionnaire).

Investors in the Funds also receive copies of the annual audited financial statements prepared in accordance with Generally Accepted Accounting Principles (GAAP) approximately 120 days following fiscal year end. These statements include the following information; (i) auditor's opinion; (ii) balance sheet; (iii) statement of income or loss; (iv) statement of partners' capital (or equity); (v) statement of cash flows; and (vi) notes to the financial statements.

Advisory Board

Each Fund also has an Advisory Board. The Advisory Board is set up to review; (i) potential conflicts of interest between LDI and any Fund or as otherwise required by the documents governing each Fund; (ii) the waiver of a Fund's investment limitations; (iv) waiver of a Fund's leverage limitations; (v) approval of an extension of the term of the Fund; (vi) approval of changes to the Fund's accounting policies; and (vii) approval of changes to the valuation policy of the Fund. No voting member of the Advisory Board is or may be affiliated with LDI.

Item 14 - Client Referrals and Other Compensation

Additional Compensation

Employees of LDI may obtain discounted rates while staying at properties (i.e., hotels or resorts) financed or owned by the Funds, while traveling on personal time. Employees may accept the "Friends and Family" rates offered by the properties, subject to availability. Employees are prohibited from requesting and/or accepting accommodations by Fund-financed or owned properties that are free of charge to the employee while traveling on personal time.

Client Referrals

The fees and expenses of any third-party placement agent if engaged and/or solicitors will be paid by the Fund in question and will generally be deducted (as described in the relevant offering memorandum) from management fees or formation cost reimbursement otherwise payable to LDI.

Business Entertainment

LDI's Sponsorship of and Participation in Events

In order to provide the quality of services that the Funds and investors expect, it is necessary for LDI to establish, maintain and enhance relationships with Fund investors and prospective Fund investors, as well as various professionals in the real estate investment and management business, such as attorneys, consultants, investment brokers, investment bankers, leasing agents and tenant representatives, lenders, developers, equity fund sponsors, venture and operating partners and other service providers and investment professionals (together, the "Real Estate Industry"). Establishing meaningful and long-term relationships in these and other areas within the Real Estate Industry are critical to LDI in identifying diverse strategies and sourcing investment opportunities for the Funds, as well as effectively underwriting, financing, operating, managing and disposing of Fund assets. LDI and the Real Estate Industry value important and long-standing relationships, and as such, LDI and its employees may invite those within, and maybe invited to participate in activities sponsored by, the Real Estate Industry that could be considered lavish entertainment, such as sporting events, concerts, golf and other outdoor outings and other recreational activities (collectively, "Events"). LDI recognizes that many in the Real Estate Industry similarly put efforts forth to establish, maintain and enhance their relationships with organizations competitive to LDI.

The meals, travel, and accommodations for many, but not all, Events may also be paid by LDI or such Real Estate Industry third-parties including accommodations at upscale locations. In addition, from time to time properties owned by the Funds may also sponsor Events, which employees of LDI may attend to generate marketing opportunities for renting / leasing available space in such properties or otherwise. The primary benefits LDI and the Funds receive from LDI's sponsorship and participation in these Events is to originate and further strengthen our relationships within the Real Estate Industry. LDI believes that working to have such relationships is important towards ensuring that LDI is provided with the opportunity to capitalize upon active sources of deal flow and investment opportunities, as well as to receive critical and reliable services and information. While LDI believes employee sponsorship and participation in these Events is beneficial to the Funds for the reasons described above, LDI's subsequent selection and retention of such Real Estate Industry service providers could be viewed as a form of reimbursement for attending such Events.

LDI recognizes and acknowledges our fiduciary duty to the Funds. As such, no such Events or activities sponsored or received by LDI are permitted to influence our due diligence process in the originating, acquiring, underwriting, financing, managing,

leasing, and selling of real estate investments or fulfilling our fiduciary duty to the Funds. LDI requires its employees to report their planned sponsorship of and participation in Events to its President or Chief Compliance Officer (“CCO”) for review. They monitor such reporting and alert members of the Investment Committee to any concerns related to the frequency, lavishness or benefit of the sponsorship of or participation in such Events. At such time, the Investment Committee will determine on a case-by-case basis whether an employee’s sponsorship of or participation in an Event is warranted and the expenses may be paid by third parties or warranted but the expenses must be paid by LDI or the participating employee, or the sponsorship of or participation in the Event is not warranted.

Property Incentive Programs

LDI and/or entities hired by LDI (such as property management or leasing service providers) will periodically sponsor incentive programs for unaffiliated third parties, primarily for real estate brokers and leasing agents. The programs are designed to incentivize the brokers and/or leasing agents to generate interest in obtaining tenants to occupy vacant space in properties owned by the Funds. The incentive programs are designed to benefit the Funds by securing leases as quickly as possible to generate revenue at the properties owned by the Funds. The incentive programs may include items such as meals, gifts, gift cards, vacation accommodations, and other items. The incentive programs are paid for as part of the marketing budget for each property. Since these expenses are paid by the individual property, the Funds bear the cost of these expenses.

Item 15 - Custody

LDI serves as a Fund’s Asset Manager with the obligation to recommend and supply personnel to staff the REIT’s Board of Directors and executive officers and as a result it is considered have custody of client assets. The Funds are audited annually by a Public Company Accounting Oversight Board (“PCAOB”) registered auditing firm and the audited financial statements, which are prepared in accordance with generally accepted accounting principles, are distributed to the relevant Fund and investors in such Fund within 120 days of the Funds’ fiscal year end. Fund investors should carefully review the Funds’ audited financial statements.

LDI does not, however, accept physical custody investor assets, capital contributions are to be sent or wired directly to the relevant Fund’s qualified custodial account. LDI receives monthly statements from each of its qualified custodians on behalf of the Funds. For more information about LDI qualified custodians, please see Form ADV Part 1, Schedule D, 7.B.(1).

Item 16 - Investment Discretion

LDI has investment discretion over the REITs. Each Fund’s offering documents generally set forth certain limitations with respect to the management of the Fund and the activities

of LDI, among others. To become an investor in a Fund, an investor must execute, among other documents, a subscription agreement with such Fund. Fund investors may enter into side letter agreements with LDI, as described under Item 4 above. These agreements may have the effect of limiting certain of LDI's activities including its investment discretion.

Item 17 - Voting Client Securities

Currently, LDI does not have proxy voting authority under any of its sponsored Fund investment agreements. If in the future the practices mentioned become applicable to LDI, LDI will in accordance with its fiduciary duty to the Funds and Rule 206(4)-6 of the Investment Advisers Act adopt and implement written policies and procedures governing the voting of Fund portfolio securities.

Item 18 - Financial Information

LDI does not require prepayment of more than \$1,200 in fees per client six months or more in advance and is not aware of any financial condition that it believes is expected to affect its ability to meet contractual commitments to the Funds.
