

WAYFINDING FINANCIAL, LLC

PART 2A – FIRM BROCHURE

APRIL 27, 2020

**WAYFINDING FINANCIAL, LLC
19020 33RD AVENUE, SUITE 390
LYNNWOOD, WA 98036
425-361-0707**

This brochure provides information about the qualifications and business practices of Wayfinding Financial, LLC ("Wayfinding Financial"). If you have any questions about the contents of this brochure, please contact us at 425-361-0707. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Wayfinding Financial is a Registered Investment Adviser. Registration as an Investment Adviser with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Wayfinding Financial, LLC is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for Wayfinding Financial is IARD# 306208.

ITEM 2 – MATERIAL CHANGES

SUMMARY OF MATERIAL CHANGES

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov. Our firm was approved by the SEC in February 2020.

Currently, a free copy of our Brochure may be requested by contacting Trent O’Neal, Chief Compliance Officer of Wayfinding Financial at 425-361-0707. The Brochure is also available on our web site www.wayfindingfinancial.com.

We encourage you to read this document in its entirety.

ITEM 4 – ADVISORY BUSINESS

This Disclosure document is being offered to you by Wayfinding Financial LLC (“Wayfinding Financial” or “Firm”) about the investment advisory services we provide. It discloses information about our services and the way those services are made available to you, the client.

We are an investment management firm located in Washington. We specialize in investment advisory services for individuals, high net worth individuals, foundations, employer sponsored retirement plans, charitable organizations, institutions, trusts, and estates. Our Firm became a registered investment adviser in December 2019 and is owned by Donald O’Neal, Trent O’Neal and Teresa Brokaw. Trent O’Neal is the Chief Compliance Officer.

We are committed to helping clients build, manage and preserve their wealth. Our Firm provides services that help clients to achieve their stated financial goals. We will offer an initial complimentary meeting upon our discretion; however, investment advisory services are initiated only after you and Wayfinding Financial execute an Investment Management Agreement.

INVESTMENT AND WEALTH MANAGEMENT AND SUPERVISION SERVICES

We manage advisory accounts on a discretionary and non-discretionary basis. For discretionary accounts, once we have determined a profile and investment plan with a client, we will execute the day-to-day transactions without seeking prior client consent but within the expected investment guidelines. Account supervision is guided by the client’s written profile and investment plan. We may accept accounts with certain restrictions, if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), no-load or load-waived mutual funds, or alternative investments in accordance with their stated investment objectives.

During personal discussions with clients, we determine the client’s objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review a client’s prior investment history, as well as family composition and background. Based on client needs, we develop a client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals.

Once we have determined the types of investments to be included in a client’s portfolio and have allocated the assets, we provide ongoing investment review and management services.

With our discretionary relationship, we will make changes to the portfolio, as we deem appropriate, to meet client financial objectives. We trade these portfolios based on the combination of our market views and client objectives, using our investment process. We tailor our advisory services to meet the needs of our clients and seek to ensure that your portfolio is managed in a manner consistent with those needs and objectives. Clients have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities.

If a non-discretionary relationship is in place, calls will be placed presenting the recommendation made and only upon your authorization will any action be taken on your behalf.

In all cases, clients have a direct and beneficial interest in their securities, rather than an undivided interest in a pool of securities. We do have limited authority to direct the Custodian to deduct our investment advisory fees from your accounts, but only with the appropriate written authorization from clients.

Where appropriate, we provide advice about any type of legacy position held in client portfolios. Typically, these are assets that are ineligible to be custodied at our primary custodian. Clients will engage us to advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance, annuity contracts, and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans).

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account's performance. This could result in capital losses in your account.

FINANCIAL PLANNING

Through the financial planning process, our team strives to engage our clients in conversations around the family's goals, objectives, priorities, vision, and legacy – both for the near term as well as for future generations. With the unique goals and circumstances of each family in mind, our team will offer financial planning ideas and strategies to address the client's holistic financial picture, including estate, income tax, charitable, cash flow, wealth transfer, and family legacy objectives. Our team partners with our client's other advisors (CPAs, Enrolled Agents, Estate Attorneys, Insurance Brokers, etc.) to ensure a coordinated effort of all parties toward the client's stated goals. Such services include various reports on specific goals and objectives or general investment and/or planning recommendations, guidance to outside assets, and periodic updates.

Our specific services in preparing your plan may include:

- Review and clarification of your financial goals
- Assessment of your overall financial position including cash flow, balance sheet, investment strategy, risk management, and estate planning
- Creation of a unique plan for each goal you have, including personal and business real estate, education, retirement or financial independence, charitable giving, estate planning, business succession, and other personal goals
- Development of a goal-oriented investment plan, with input from various advisors to our clients around tax suggestions, asset allocation, expenses, risk, and liquidity factors for each goal. This includes IRA and qualified plans, taxable, and trust accounts that require special attention
- Design of a risk management plan including risk tolerance, risk avoidance, mitigation, and transfer, including liquidity as well as various insurance and possible company benefits; and
- Crafting and implementation of, in conjunction with your estate and/or corporate attorneys as tax advisor, an estate plan to provide for you and/or your heirs in the event of an incapacity or death

A written evaluation of each client's initial situation or Financial Plan is provided to the client. An annual review will be provided by the Advisor, if indicated by the Client and Advisor per the Agreement. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

THIRD PARTY MONEY MANAGERS (TPMM):

Occasionally our firm utilizes the services of a TPMM for the management of client accounts. Investment advice and trading of securities will only be offered by or through the chosen TPMM. Our firm will not offer advice on any specific securities or other investments in connection with this service. Prior to referring clients, our firm will provide initial due diligence on third party money managers and ongoing reviews of their management of client accounts. In order to assist in the selection of a TPMM, our firm will gather

client information pertaining to financial situation, investment objectives, and reasonable restrictions to be imposed upon the management of the account.

Our firm will periodically review third party money manager reports provided to the client at least annually. Our firm will contact clients from time to time in order to review their financial situation and objectives; communicate information to third party money managers as warranted; and, assist the client in understanding and evaluating the services provided by the TPMM. Clients will be expected to notify our firm of any changes in their financial situation, investment objectives, or account restrictions that could affect their financial standing.

Our firm takes actions on behalf of the client to hire or fire money managers used in the implementation of a client's investment plan and execution of the Advisory Agreement with our Firm. Therefore, the firm has the discretionary authority to hire or fire the manager or to allocate assets among managers without obtaining the Client's consent.

The services provided by the TPMM include:

- Assessment of the client's investment needs and objectives.
- Implementation of an asset allocation.
- Delivery of suitable style allocations (e.g., Large Cap, Small Cap, Growth, Value, etc.)
- Facilitation of portfolio transactions.
- Ongoing monitoring of investment vehicles performance.
- Review of client accounts for adherence to policy guidelines and asset allocation.
- Recommendations for account re-balancing, if and when necessary.
- Reporting of client portfolio performance and progress.
- Engaging selected investment vehicles on behalf of the client

ENVESTNET SERVICES

Our Firm has contracted with Envestnet PMC ("Envestnet") to provide access to their portfolio modeling, account trading and administration systems.

The services provided by Envestnet include:

- Assessment of the client's investment needs and objectives.
- Implementation of an asset allocation.
- Delivery of suitable style allocations (e.g., Large Cap, Small Cap, Growth, Value, etc.)
- Facilitation of portfolio transactions.
- Ongoing monitoring of investment vehicles performance.
- Review of client accounts for adherence to policy guidelines and asset allocation.
- Recommendations for account re-balancing, if and when necessary.
- Reporting of client portfolio performance and progress.
- Engaging selected investment vehicles on behalf of the client

BANK ACCOUNT MARKETER

Wayfinding Financial is a marketer for Galileo Money+ bank accounts. The recommendation by a Wayfinding Financial representative that clients use certain bank accounts presents a conflict of interest, as a Wayfinding Financial representative has an incentive to recommend the use of certain bank accounts rather than on a particular client's need. No client is under any obligation to use the Galileo Money+ bank accounts. Clients are reminded that they may patronize any bank and are not required to use bank accounts recommended by the representative. Our Firm's CCO remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.

RETIREMENT PLAN SERVICES

For employer-sponsored retirement plans with participant-directed investments, our firm provides its advisory services as an investment advisor as defined under Section 3(21) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

When serving as an ERISA 3(21) investment advisor, the Plan Sponsor and Our Firm share fiduciary responsibility. The Plan Sponsor retains ultimate decision-making authority for the investments and may accept or reject the recommendations in accordance with the terms of a separate ERISA 3(21) Plan Sponsor Investment Management Agreement between Our Firm and the Plan Sponsor. Under the 3(21) agreement, Our Firm provides the following services to the Plan Sponsor:

- Screen investments and make recommendations.
- Monitor the investments and suggests replacement investments when appropriate.
- Provide a quarterly monitoring report.
- Assist the plan sponsor in developing an Investment Policy Statement ("IPS").
- Recommend QDIA alternatives.
- Recommend non-discretionary model portfolios.

We can also be engaged to provide Plan Consulting Services. Plan Consulting Services include: financial education to Plan participants, benchmarking the Plan services, education to fiduciary committee members, and monitoring the service provider. The scope of education provided to participants will not constitute "investment advice" within the meaning of ERISA and participant education will relate to general principles for investing and information about the investment options currently in the Plan. We may also participate in initial enrollment meetings and periodic workshops and enrollment meetings for new participants.

WRAP FEE PROGRAMS

For accounts that engage in TTPM as part of their overall investment management strategy, our firm will provide its investment management services as a wrap fee program. Under our wrap program, you will receive investment advisory services and the execution of securities brokerage transactions for a single specified fee. Our firm receives this wrap fee for the services rendered. The terms and conditions on a wrap program engagement are more fully discussed in our Wrap Fee Program Brochure. We adhere to our fiduciary duty when trading in your accounts. Trades are made only on the basis of the account's stated investment objectives, and without concern to the firm's trading costs and firm's expenses that trading the accounts will create. We do not charge our clients higher advisory fees based on their trading activity, but you should be aware that we may have an incentive to limit our trading activities in your account(s) because

we incur the fees for executed trades. In order to mitigate this conflict of interest, we will fulfill our fiduciary duty by acting in the client's best interest.

ASSETS

As of April 27, 2020, our firm manages \$169,399,605 in total assets under management. We manage \$169,399,605 in discretionary assets and \$0 in non-discretionary assets.

ITEM 5 - FEES AND COMPENSATION

INVESTMENT MANAGEMENT FEES AND COMPENSATION

Our Firm charges a fee as compensation for providing Investment Management services on your account. These services include advisory services, trade entry, investment supervision, and other account maintenance activities. Our recommended Custodian charges transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for details.

Our Firm's advisory fees are based on an annual percentage of your assets that we manage. Our maximum investment advisory fee is 1.25%. Advisory fees are billed quarterly in advance based on managed account(s)'s average daily balance during the calendar quarter. Our firm will bill the initial advisory fee during the partial quarter based on the fixed account value on the day that the account(s) transfers over during the partial quarter. The specific fee and billing arrangement is detailed and agreed to in the Investment Advisory Agreement and Addendum executed by both the Firm and you, the client. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account, or other reasons agreed upon by our Firm and you as the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family related accounts are charged a reduced fee for our services.

Unless otherwise instructed by the Client, we will aggregate related client accounts for the purposes of determining the account size and annualized fee. The common practice is often referred to as "house-holding" portfolios for fee purposes and may result in lower fees than if fees were calculated on portfolios separately. Our method of house-holding accounts for fee purposes looks at the overall family dynamic and relationship. When applicable, and noted in Appendix of the Investment Management Agreement, legacy positions will also be excluded from the fee calculation.

The independent and qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. When establishing a relationship with Wayfinding Financial, you provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified Custodian agrees to deliver an account statement to you on a quarterly basis indicating all the amounts deducted from the account including our advisory fees.

Either Wayfinding Financial or you may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the quarter in which the cancellation notice was given and the unearned fee will be credited back to your account or any earned fee will be billed to you by our Firm.

Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client's death or disability,

Wayfinding Financial will continue management of the account until we are notified of client's death or disability and given alternative instructions by an authorized party.

FINANCIAL PLANNING FEES

For our Investment Management clients, financial planning services are included in the Investment Management fees described above.

For stand-alone financial planning arrangements, Wayfinding Financial will negotiate the planning fees with you using either a fixed fee or an hourly rate. Fees may vary based on the extent and complexity of your individual or family circumstances and the amount of your assets under our management. Wayfinding Financial will determine your fee for the designated financial advisory services based on a fixed fee arrangement described below.

Under our fixed fee arrangement, any fee will be agreed in advance of services being performed. The fee will be determined based on factors including the complexity of your financial situation, agreed upon deliverables, and whether or not you intend to implement any recommendations through Wayfinding Financial. Fixed fees for financial plans range from \$1,000 to \$4,000.

Typically, we complete a plan within a month and will present it to you within 90 days of the contract date, if you have provided us all information needed to prepare the financial plan. Fees are billed with fifty percent (50%) payable at the execution of the Financial Planning Agreement and fifty percent (50%) payable at the time the financial plan is delivered. You may terminate the financial planning agreement by providing us with written notice. There is no penalty for termination of your financial planning agreement prior to the plan being delivered to you. We will not require prepayment of more than \$1,200 in fees per client, six (6) or more months in advance of providing any services.

In no case are Wayfinding Financial fees based on, or related to, the performance of your funds or investments.

When both investment management or financial plan implementation and planning services are offered, there is a conflict of interest since there is an incentive for us offering wealth planning services to recommend products or services for which Wayfinding Financial receives compensation. However, Wayfinding Financial will make all recommendations independent of such considerations and based solely on our obligations to consider your objectives and needs. As a wealth planning client, you have the right not to act upon any of our recommendations and not affect the transaction(s) through us if you decide to follow the recommendations.

THIRD PARTY MONEY MANAGER ("TPMM") FEES

As discussed in Item 4 above, there are occasions where an independent TPMM acts as a sub-adviser to our firm. In those circumstances, the TPMM manages the assets based upon the parameters provided by our firm. Under such arrangements where our firm elects to utilize a TPMM, depending on the TPMM contract with Wayfinding Financial, the total advisory fee may be collected from the custodian by our firm or the TPMM. This total fee includes our firm's portion of the investment advisory fee as well as the TPMM fee. Total TPMM fees are not to exceed 1.25%.

A TPMM relationship may be terminated at the IAR's discretion. Wayfinding Financial may at any time terminate the relationship with a TPMM that manages your assets. Wayfinding Financial will notify you of instances where we have terminated a relationship with any TPMM you are investing with. Wayfinding Financial will not conduct on-going supervisory reviews of the TPMM following such termination.

Factors involved in the termination of a TPMM may include a failure to adhere to their stated management style or your objectives, a material change in the professional staff of the TPMM, unexplained poor performance, unexplained inconsistency of account performance, or our decision to no longer include the TPMM on our list of approved TPMMs.

Account custodial services may be provided by several account custodians depending on the investment management program offered. Programs may have higher or lower fees than other programs available through Wayfinding Financial or available elsewhere. Investment management programs may differ in the services provided and method or type of management offered, and each may have different account minimums. Client reports will depend upon the management program selected. Please see complete details in the program brochure and custodial account agreement for each program recommended and offered.

RETIREMENT PLAN SERVICES

For Retirement Plan Advisory Services compensation, we charge an annual fee as negotiated with the client and as disclosed in the Employer Sponsored Retirement Plans Consulting Agreement (“Plan Sponsor Agreement”). The compensation method is explained and agreed upon in advance before any services are rendered and detailed in the Agreement.

Plan advisory services begin with the effective date of the Plan Sponsor Agreement, which is the date you sign the Plan Sponsor Agreement. For that calendar quarter, fees will be adjusted pro rata based upon the number of calendar days in the calendar quarter that the Agreement was effective. Our fee is billed in arrears on the last business day of the quarter or as indicated on the Appendix of the Plan Sponsor Agreement. For Plans where our fee is billed to the Custodian, the fee is deducted directly from the participant accounts. Written authorization permitting us to be paid directly from the custodial account is outlined in the Plan Sponsor Agreement and the Plan Sponsor paperwork.

Either party may terminate the Plan Sponsor Agreement at any time upon immediate notice. You are responsible to pay for services rendered until the termination of the agreement.

ADMINISTRATIVE SERVICES PROVIDED BY CIRCLEBLACK

We have contracted with CircleBlack, an unaffiliated firm to utilize their technology platform which supports data reconciliation, performance reporting, fee calculation, client relationship maintenance, quarterly performance evaluations, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, CircleBlack will have access to client accounts, but CircleBlack will not serve as an investment advisor to our clients or bill the accounts. Wayfinding Financial and CircleBlack are non-affiliated companies. CircleBlack charges our Firm an annual fee for each account administered by its software. Please note that the fee charged to the client will not increase due to the annual fee Wayfinding Financial pays to CircleBlack. The annual fee is paid from the portion of the management fee retained by Wayfinding Financial.

ADDITIONAL FEES AND EXPENSES:

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively “Financial Institutions”). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and

electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Our brokerage practices are described at length in Item 12, below.

Non-Transaction Fee (NTF) Mutual Funds

When selecting investments for our clients' portfolios we might choose mutual funds on your account custodian's Non-Transaction Fee (NTF) list. This means that your account custodian will not charge a transaction fee or commission associated with the purchase or sale of the mutual fund.

The mutual fund companies that choose to participate in your custodian's NTF fund program pay a fee to be included in the NTF program. The fee that a mutual fund company pays to participate in the program is ultimately borne by the owners of the mutual fund including clients of our Firm. When we decide whether to choose a fund from your custodian's NTF list or not, we consider our expected holding period of the fund, the position size and the expense ratio of the fund versus alternative funds. Depending on our analysis and future events, NTF funds might not always be in your best interest.

ITEM 6 - PERFORMANCE BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We do not charge advisory fees on a share of the capital appreciation of the funds or securities in a client account (so-called performance-based fees), nor engage side by side management.

ITEM 7 - TYPES OF CLIENTS

We provide investment advice to individuals, high net worth individuals, foundations, employer sponsored retirement plans, charitable organizations, institutions, trusts, estates, and broker-dealers. We do not have minimum dollar amount to open and maintain an advisory account with our Firm.

ITEM 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

METHODS OF ANALYSIS AND INVESTMENT STRATEGIES

Wayfinding Financial utilizes personalized investment strategies to meet the needs and goals of clients. Our Firm oversees a consultative process which combine both comprehensive financial planning concepts along with a disciplined investment allocation aligned with planning based individualized client's risk/return needs.

In our view, prudent execution of an investment strategy is an important component of investment success. What this means is that investors should work with their investment advisors to select the most suitable types of investment to meet their specific needs. By using a variety of asset managers offering the optimal combination to provide the best possible outcome. Our disciplined third-party manager research and due diligence process provides us with the information and insights needed to make informed investment decisions on behalf of our clients.

Asset Allocation:

Asset Allocation is the process of attempting to maximize our client's portfolio objectives while minimizing the associated risks. We manage diversified portfolios utilizing Exchange Traded Funds (ETFs) and actively managed institutional share class mutual funds to provide a long-term core strategic asset allocation. The strategic allocation decisions generally consider the recommendation of the recognized best in the business firm's security research (i.e. Morningstar, Fidelity Institutional Asset Management, Blackrock, and other third-party sources). These core allocations will focus on seeking non-correlated assets to reduce short term

volatility. We also will incorporate short-term tactical themes representing opportunities given the current state of the economy.

Constraints:

We believe wealth can be achieved through a disciplined, managed approach that remains fully invested. Market timing techniques generally will not be employed. Over the course of a market cycle, we may be under or overweight certain sectors to take advantage of potential market opportunities.

Positions may be increased or reduced as price, performance, and market conditions warrant. Clients should keep in mind that historical short-term results have been a less reliable indicator of management performance than compounded returns generated over longer periods of time.

Ongoing Review:

Communication with clients is ongoing with a focus on progress to the client's investment planning goals. In addition to quarterly account statements from your Custodian, our Firm sends clients a personalized quarterly performance evaluation. The evaluation reviews asset allocation and highlights account performance in light of stated guidelines. It also supplies relevant benchmarks against which clients may use to help evaluate performance. Investment performance will be reviewed at least annually to determine the continued feasibility of achieving the client's objectives, as well as the appropriateness of the Investment Philosophy Statement for achieving those objectives.

Wayfinding Financial rebalances portfolios on a systematic basis to ensure investment allocations remain consistent to Client objectives. Periodically we may encounter economic conditions that warrant temporary adjustments to the asset allocation of an investment strategy or portfolio. If we believe that these conditions present either an increase in risk or opportunity for that particular asset class, we may alter the appropriate allocation to reflect this conviction.

Mutual Fund and/or ETF Analysis:

We use ETFs to appropriately weight sectors, geographies, market-caps and styles to ensure portfolios accurately reflect opportunity within capital market assumptions over time.

We look at the underlying assets in a mutual fund or ETF to determine if there is significant overlap in the underlying investments held in other fund(s) in the client's portfolio. We also monitor the funds or ETFs to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. Because we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security thereby increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF which could make the holding(s) less suitable for the client's portfolio.

If deemed appropriate for your portfolio, our Firm may recommend investments classified as "alternative investments". Alternative investments may include a broad range of underlying assets including, but not limited to, hedge funds, private equity, venture capital, and registered, publicly traded securities. Alternative investments are speculative, not suitable for all clients and intended for only experienced and sophisticated investors who are willing to bear the high risk of the investment, which can include: loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative investment practices; lack of liquidity in that there may be no secondary market for the fund and none expected to

develop; volatility of returns; potential for restrictions on transferring interest in the fund; potential lack of diversification and resulting higher risk due to concentration of trading authority with a single advisor; absence of information regarding valuations and pricing; potential for delays in tax reporting; less regulation and typically higher fees than other investment options such as mutual funds. The SEC requires investors be accredited to invest in these more speculative alternative investments. Investing in a fund that concentrates its investments in a few holdings may involve heightened risk and result in greater price volatility.

INDEPENDENT THIRD PARTY MANAGER & INVESTMENT SUBSCRIPTION SERVICES

We seek to recommend investment strategies that will give a client a diversified portfolio consistent with the client's investment objective. We do this by analyzing the various securities, investment strategies, and third party management firms. The goal is to identify a client's risk tolerance, and then find a manager with the maximum expected return for that level of risk.

We examine the experience, expertise, investment philosophies and past performance of independent, third party managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the managers' underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the managers' compliance and business enterprise risks.

A risk of investing with a third party manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a managers' portfolio, there is also a risk that the manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the managers' daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

RISK OF LOSS

A client's investment portfolio is affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic conditions, changes in laws and national and international political circumstances.

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Wayfinding Financial will assist Clients in determining an appropriate strategy based on their tolerance for risk.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account(s). Wayfinding Financial shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform Wayfinding Financial of any changes in financial condition, goals or other factors that may affect this analysis.

Our methods rely on the assumption that the underlying companies within our security allocations are accurately reviewed by the rating agencies and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be

incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Investors should be aware that accounts are subject to the following risks:

- **MARKET RISK** - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- **FOREIGN SECURITIES AND CURRENCY RISK** - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- **CAPITALIZATION RISK** - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services. Their stocks have historically been more volatile than the stocks of larger, more established companies.
- **INTEREST RATE RISK** - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.
- **CREDIT RISK** - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and thus, impact the fund's performance.
- **SECURITIES LENDING RISK** - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.
- **EXCHANGE-TRADED FUNDS** - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets, and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."
- **PERFORMANCE OF UNDERLYING MANAGERS** - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.
- **NON-LIQUID ALTERNATIVE INVESTMENTS** - From time to time, our Firm will recommend to certain qualifying clients that a portion of such clients' assets be invested in private funds, private fund-of-funds and/or other alternative investments (collectively, "Nonliquid Alternative Investments"). Nonliquid Alternative Investments are not suitable for all our Firm's clients and are offered only to those qualifying clients for whom our Firm believes such an investment is suitable and in line with their overall investment strategy. Nonliquid Alternative Investments typically are available to only a limited number of sophisticated investors who meet the definition of "accredited investor" under Regulation D of the Securities Act of 1933, as amended (the "Securities Act"), or "qualified client" under the Investment Advisers Act of 1940, or "qualified purchaser" under the Investment Company Act of 1940. Nonliquid Alternative Investments present special risks for our Firm's clients, including without limitation, limited liquidity, higher fees and expenses,

volatile performance, no assurance of investment returns, heightened risk of loss, limited transparency, additional reliance on underlying management of the investment, special tax considerations, subjective valuations, use of leverage and limited regulatory oversight. When a Nonliquid Alternative Investment invests part or all of its assets in real estate properties, there are additional risks that are unique to real estate investing, including but not limited to: limitations of the appraisal value; the borrower's financial conditions (if the underlying property has been obtained by a loan), including the risk of foreclosures on the property; neighborhood values; the supply of and demand for properties of like kind; and certain city, state and/or federal regulations. Additionally, real estate investing is also subject to possible loss due to uninsured losses from natural and man-made disasters. The above list is not exhaustive of all risks related to an investment in Nonliquid Alternative Investments. A more comprehensive discussion of the risks associated with a particular Nonliquid Investment is set forth in that fund's offering documents, which will be provided to each client subscribing to a Nonliquid Alternative Investment, for review and consideration. It is important that each potential, qualified investor carefully read each offering or private placement memorandum prior to investing.

- **OPTIONS AND OTHER DERIVATIVES** Client portfolios may purchase or sell options, warrants, equity-related swaps or other derivatives that trade on an exchange. Both the purchasing and selling of call and put options entail risks. An investment in an option may be subject to greater fluctuation than an investment in the underlying securities. The effectiveness of purchasing or selling stock index options as a hedging technique depends upon the extent to which price movements in the hedged portfolios correlate with price movements of the stock index selected. Because the value of an index option depends upon movements in the level of the index rather than the price of a particular security, whether a portfolio realizes a gain or loss will depend upon movements in the level of security prices in securities markets generally rather than movements in the price of a particular security.
- **BOND MUTUAL FUNDS AND LADDERED INDIVIDUAL BONDS** A ladder individual bond portfolio is comprised of individual bonds where each bond or series of bonds features strategically staggered maturity dates at regular intervals. As each bond or series of bonds matures, proceeds are used to purchase new bonds to continue the bond ladder, or they are used as income. Both ladder individual bonds held in a ladder bond portfolio and bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher returns. Unlike money market funds, the SEC's rules do not restrict bond funds and ladder individual bonds to high quality or short-term investments. Because there are many different types of bonds, bond funds and ladder individual bonds, they can vary dramatically in their risks and rewards. Some of the risks associated with bond funds and ladder individual bonds include:
 - *Interest Rate Risk* - Interest rate risk refers to the risk that the market value of bonds will go down when interest rates go up. Because of this risk, investors can lose money in any bond fund or ladder individual bond portfolio, if a bond were sold before its maturity date. Interest rate risk applies to investments in insured bonds and U.S. Treasury Bonds. Longer-term bonds and bond funds tend to have higher interest rate risks.
 - *Credit Risk* - Credit risk refers to the risk that companies or other issuers may fail to pay their debts (including the debt owed to holders of their bonds). Consequently, this affects individual bond ladders, mutual funds and exchange-traded funds (ETFs) that hold these bonds. Credit risk is less of a factor in investments including insured bonds or U.S. Treasury Bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.

- *Prepayment Risk* - Issuers may choose to pay off debt earlier than the stated maturity date on a bond. For example, if interest rates fall, a bond issuer may decide to “retire” its debt and issue new bonds that pay a lower rate. When this happens, proceeds from the sale of individual bonds or a bond fund may not be able to be reinvested in an investment with as high a return or yield.

ITEM 9 - DISCIPLINARY INFORMATION

We do not have any legal, financial or other “disciplinary” item to report.

ITEM 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

INSURANCE

Some of our Investment Advisor Representatives (“IARs”) or direct owners of the Firm are licensed Insurance agents registered with various State(s) Insurance Departments. Our firm indirectly receives compensation (commissions, trails, or other compensation from the respective insurance products) as a result of our IARs effecting insurance transactions for mutual client(s) of Wayfinding Financial. Commissions generated by insurance sales do not offset regular advisory fees. Our firm has an incentive to recommend insurance products and this incentive creates a conflict of interest between your interests and our Firm. We mitigate this conflict by disclosing to clients they have the right to decide whether to engage the services of our affiliated Insurance agency. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through any licensed insurance agent not affiliated with our Firm. We recognize the fiduciary responsibility to place the client’s interests first and have established policies in this regard to avoid any conflicts of interest.

Clients should be aware that the ability to receive additional compensation by our Firm and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. Our Firm endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees;
- we collect, maintain and document accurate, complete and relevant client background information, including the client’s financial goals, objectives, and liquidity needs;
- the Firm conducts regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client’s needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Our Firm does not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing entities.

Our firm nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer.

ITEM 11 - CODE OF ETHICS

Our Firm and persons associated with us are allowed to invest for their own accounts, or to have a financial investment in the same securities or other investments that we recommend or acquire for your account, and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to protect our clients to detect and deter misconduct, educate personnel regarding the Firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of Wayfinding Financial, safeguard against the violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the Firm's ethical principles.

We have established the following restrictions in order to ensure our Firm's fiduciary responsibilities:

- A director, officer, or employee of Wayfinding Financial shall not buy or sell any securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment unless the information is also available to the investing public on reasonable inquiry. No supervised employee of Wayfinding Financial shall prefer his or her own interest to that of the advisory client. Trades for supervised employees are traded alongside client accounts.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of Wayfinding Financial.
- We emphasize the unrestricted right of the client to decline implementation of any advice rendered, except in situations where we are granted discretionary authority of the client's account.
- We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any supervised employee not in observance of the above may be subject to termination.

None of our associated persons may affect for himself/herself or for accounts in which he/she holds a beneficial interest, any transactions in a security which is being actively recommended to any of our clients, unless in accordance with the Firm's procedures.

You may request a complete copy of our Code by contacting us at the address, telephone, or email on the cover page of this Part 2; ATTN: Trent O'Neal, Chief Compliance Officer.

ITEM 12 - BROKERAGE PRACTICES

We participate in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") Member FINRA/SIPC. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer. TD Ameritrade offers services to independent investment advisors that include custody of securities, trade execution, clearance and settlement of transactions. Adviser receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent investment advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by TD Ameritrade through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

In the event you request us to recommend a broker/dealer custodian for execution and/or custodial services, we generally recommend your account to be maintained at TD Ameritrade. We may recommend that you establish accounts with TD Ameritrade to maintain custody of your assets and to effect trades for your accounts. You are under no obligation to act upon any recommendations, and if you elect to act upon any recommendations, you are under no obligation to place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day.

We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

1. Our policy for the aggregation of transactions shall be fully-disclosed separately to our existing clients (if any) and the broker/dealer(s) through which such transactions will be placed;
2. We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.
3. No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction;
4. We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients;
5. If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
6. Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
7. We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
8. Individual advice and treatment will be accorded to each advisory client.

BROKERAGE FOR CLIENT REFERRALS

Our Firm does not receive client referrals from any custodian or third party in exchange for using that broker-dealer or third party.

TRADE ERRORS

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and we will absorb any loss resulting from the trade error if the error was caused by the firm. If the error is caused by the Custodian, the Custodian will be responsible for covering all trade error costs. If an investment gain results from the correcting trade, the gain will be donated to charity. We will never benefit or profit from trade errors.

DIRECTED BROKERAGE

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

ITEM 13 - REVIEW OF ACCOUNTS

ACCOUNT REVIEWS AND REVIEWERS – INVESTMENT SUPERVISORY SERVICES

Our Investment Adviser Representatives will monitor client accounts on a regular basis and perform annual reviews with each client. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance, and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax, or financial status. Geopolitical and macroeconomic specific events may also trigger reviews.

STATEMENTS AND REPORTS

The custodian for the individual client's account will provide clients with an account statement at least quarterly. Upon request, clients can receive Wayfinding Financial prepared written report detailing their current positions, asset allocation, and year-to-date performance. You are urged to compare the reports and invoices provided by our Firm against the account statements you receive directly from your account custodian.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

We pay referral fees to independent solicitors for the referrals of their clients to our Firm in accordance with Rule 206 (4)-3 of the Investment Advisers Act of 1940. Such referral fees represent a share of our investment advisory fee charged to our clients. This arrangement will not result in higher costs to you. In this regard, we maintain Solicitors Agreements in compliance with Rule 206 (4)-3 of the Investment Advisers Act of 1940 and applicable state and federal laws. All clients referred by Solicitors to our Firm will be given full written disclosure describing the terms and fee arrangements between our Firm and Solicitor(s). In cases where state law requires licensure of solicitors, we ensure that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our Firm. The solicitor will not provide clients any investment advice on behalf of our Firm.

Our firm does not accept compensation for client referrals.

As disclosed under Item 12 Brokerage Practices, we participate in TD Ameritrade's institutional customer program and we may recommend TD Ameritrade to you for custody and brokerage services. There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent Investment Advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD

Ameritrade may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by TD Ameritrade through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our Firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

Our firm also receives from TD Ameritrade certain additional economic benefits (“Additional Services”) that may or may not be offered to any other independent investment Advisors participating in the program. Specifically, the Additional Services include TD Ameritrade paying MoneyGuide Pro, Wealthbox, CircleBlack, and Riskalyze. TD Ameritrade provides the Additional Services to our firm in its sole discretion and at its own expense. Our firm does not pay any fees to TD Ameritrade for the Additional Services.

Our firm’s receipt of Additional Services raises potential conflicts of interest. In providing Additional Services to our firm, TD Ameritrade most likely considers the amount and profitability to TD Ameritrade of the assets in, and trades placed for, our firm’s Client accounts maintained with TD Ameritrade. TD Ameritrade has the right to terminate the Additional Services Addendum with our firm, in its sole discretion, provided certain conditions are met. Consequently, in order to continue to obtain the Additional Services from TD Ameritrade, our firm may have an incentive to recommend to its Clients that the assets under management by our firm be held in custody with TD Ameritrade and to place transactions for Client accounts with TD Ameritrade. Our firm’s receipt of Additional Services does not diminish its duty to act in the best interests of its Clients, including to seek best execution of trades for Client accounts.

COMPENSATION FOR GALILEO:

Upon **account opening** for each Account Holder, Wayfinding Financial shall pay Galileo \$5.00 (the “Account Opening Fee”). The Account Opening Fee shall be payable by Wayfinding Financial to Galileo within 30 days after the end of each calendar month. Upon **account funding**, Account Holders will be charged a \$5.00 fee (the “Account Holder Account Opening Fee”). Within 30 days after the end of each calendar month, Galileo shall reimburse Wayfinding Financial the Account Opening Fees paid to Galileo to the extent Galileo has received corresponding Account Holder Account Opening Fees in the prior calendar month. Within 30 days after the end of each calendar month, Wayfinding Financial shall be entitled to a fee equal to 1/12 of 0.20% (the “Marketer Fee”). The recommendation by a Wayfinding Financial representative that clients use certain bank accounts presents a conflict of interest, as a Wayfinding Financial representative has an incentive to recommend the use of certain bank accounts rather than on a particular client’s need. No client is under any obligation to use the Galileo Money+ bank accounts. We recognize the fiduciary responsibility to place the client’s interests first and have established policies in this regard to avoid any conflicts of interest.

ITEM 15 – CUSTODY

We do not have physical custody, as it applies to investment advisors. Custody has been defined by regulators as having access or control over client funds and/or securities.

DEDUCTION OF ADVISORY FEES

For all accounts, our Firm has the authority to have fees deducted directly from client accounts. Our Firm has established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client's name. Clients, or an independent representative of the client, will direct, in writing, the establishment of all accounts and therefore are aware of the qualified custodian's name, address, and the way the funds or securities are maintained. Finally, account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from Wayfinding Financial. When you have questions about your account statements, you should contact Wayfinding Financial or the qualified custodian preparing the statement.

Please refer to Item 5 for more information about the deduction of advisor fees.

STANDING LETTERS OF AUTHORIZATION ("SLOA")

Our Firm is deemed to have custody of clients' funds or securities when clients have standing authorizations with their custodian to move money from a client's account to a third-party ("SLOA") and, under that SLOA, it authorizes us to designate the amount or timing of transfers with the custodian. The SEC has set forth a set of standards intended to protect client assets in such situations, which we follow. We do not have a beneficial interest on any of the accounts we are deemed to have Custody where SLOAs are on file. In addition, account statements reflecting all activity on the account(s), are delivered directly from the qualified custodian to each client or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from us. When you have questions about your account statements, you should contact us, your Advisor or the qualified custodian preparing the statement.

ITEM 16 – INVESTMENT DISCRETION

For discretionary accounts, prior to engaging Wayfinding Financial to provide investment advisory services, you will enter a written Agreement with us granting the Firm the authority to supervise and direct, on an on-going basis, investments in accordance with the client's investment objective and guidelines. In addition, you will need to execute additional documents required by the Custodian to authorize and enable Wayfinding Financial, in its sole discretion, without prior consultation with or ratification by you, to purchase, sell, or exchange securities in and for your accounts. We are authorized, in our discretion and without prior consultation with you to: (1) buy, sell, exchange and trade any stocks, bonds or other securities or assets and (2) determine the amount of securities to be bought or sold, and (3) place orders with the custodian. Any limitations to such discretionary authority will be communicated to our Firm in writing by you, the client.

The limitations on investment and brokerage discretion held by Wayfinding Financial for you are:

- For discretionary accounts, we require that we be provided with authority to determine which securities and the amounts of securities to be bought or sold.
- Any limitations on this discretionary authority shall in writing as indicated on the investment advisory Agreement, Appendix B. You may change/amend these limitations as required.

In some instances, we may not have discretion. We will discuss all transactions with you prior to execution or you will be required to make the trades if in an employer sponsored account.

ITEM 17 – VOTING YOUR SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not take action with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular solicitation by phone at 425-361-0707.

ITEM 18 – FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.
