

WR WEALTH PLANNERS LLC

FORM ADV PART 2A APPENDIX 1 WRAP FEE PROGRAM BROCHURE

May 15, 2020

**WR WEALTH PLANNERS LLC
OFFICE: (573) 875-3939
200 EAST SOUTHAMPTON DRIVE
SUITE 101
COLUMBIA, MO 65203**

This brochure provides information about the qualifications and business practices of WR Wealth Planners, LLC ("WRWP"). If you have any questions about the contents of this brochure, please contact us at 573-875-3939. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. WR Wealth Planners, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about WRWP is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for WRWP is IARD #306951.

ITEM 2 – MATERIAL CHANGES

SUMMARY OF MATERIAL CHANGES

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

Our last filing was on May 4, 2020.

Item 18 was updated to reflect receipt of Paycheck Protection Plan Loan through the SBA in conjunction with the relief afforded from the CARES Act.

Currently, a free copy of our Brochure may be requested by contacting Kelsey Lyman, Chief Compliance Officer of WRWP at (573) 875-3939 or kelsey@wrwealth.com.

We encourage you to read this document in its entirety.

ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGER(S)	9
ITEM 9 – ADDITIONAL INFORMATION	9

ITEM 4 – SERVICES, FEES & COMPENSATION

We offer a wrap fee program as described in this Wrap Fee Program Brochure. A wrap fee program is generally considered any arrangement under which clients receive investment advisory services and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. All of our investment management clients will be offered the wrap fee program structure that includes, as a single fee, the securities transaction costs for trading in Client accounts along with the investment advisory fees earned by our firm. Our firm receives a portion of the wrap fee for the services rendered. While traditional Wrap Fee Programs are often rigid, pre-packaged investment programs, our firm customizes its investment strategies individually for its Clients. Prior to receiving services through the Program, clients are required to enter into a written agreement with our firm setting forth the relevant terms and conditions of the investment advisory relationship (the “Agreement”).

OUR WRAP ADVISORY SERVICES

We manage advisory accounts on a discretionary and non-discretionary basis. Once we determine a client’s profile, income need, and investment plan, we execute the day-to-day transactions with prior consent, depending on the client’s agreement with our Firm. Account supervision is guided by the client’s written profile and investment plan. We may accept accounts with certain restrictions if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), mutual funds and debt securities in accordance with their stated investment objectives and income needs.

In personal discussions with clients, we determine their objectives, time horizons, risk tolerance and liquidity and income needs. As appropriate, we also review their prior investment history, as well as family composition and background. Based on client needs, we develop the client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals and income needs.

Once we have determined the appropriate strategy for clients or client businesses and executed the strategy, we will provide ongoing investment review and management services. This approach requires us to periodically review client portfolios.

When a discretionary or non-discretionary relationship is in place, calls will be placed to the client presenting the recommendation made including a rebalancing recommendation and only upon your authorization will any action be taken on your behalf.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account’s performance. This could result in capital losses in your account.

RELATIVE COST OF THE PROGRAM

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. Clients do not pay brokerage commissions, markups or transaction charges for execution of transactions in addition to the advisory fee. Although neither Client nor our Firm pay a transaction charge for transactions in the account(s), Client should be aware that our Firm pays the Custodian an annual administrative / asset-based pricing fee based upon a percentage of assets under management within the Wrap Fee Program account – this percentage is capped at 0.05% for accounts held at our recommended Custodian, TD Ameritrade. Because our Firm pays the Custodian an annual administration / asset-based pricing fee in lieu of paying transaction charges, there is a conflict of interest. Client understands that the cost to our Firm of the annual administration fee may be a factor that he/she considers when deciding how much of an annual advisory fee to assess to the account(s).

Our Firm charges an advisory fee as compensation for providing Investment Management services on client accounts. These services include advisory services, investment supervision, and other account-maintenance activities. Our

custodian charges custodial fees, redemption fees, and retirement plan and administrative fees. Financial planning services by our firm are included in advisory fees outlined below. See Additional Fees and Expenses below for additional details.

Our maximum investment advisory fee is 1.00%, or we may negotiate a lower advisory fee. The specific advisory fees are set forth in your Investment Advisory Agreement. We may negotiate a lower advisory fee or have the right to waive the minimum fee. The specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family related accounts are charged a reduced fee for our services.

Unless otherwise instructed by the Client, we will aggregate related client accounts for the purposes of determining the account size and annualized fee. The common practice is often referred to as “householding” portfolios for fee purposes and may result in lower fees than if fees were calculated on portfolios separately. Our method of householding accounts for fee purposes looks at the overall family dynamic and relationship. When applicable and noted in the Investment Management Agreement, concentrated stock positions may also be excluded from the fee calculation.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. At our discretion, you may pay the advisory fees directly to our Firm by check. Further, the qualified custodian agrees to deliver an account statement to you on a quarterly basis indicating all the amounts deducted from the account including our advisory fees.

Either party giving written or verbal notice to the other may cancel the Investment Advisory Agreement at any time for any reason. Notice given by the client shall be effective upon actual receipt by WRWP at the address specified on the Investment Advisory Agreement or the then current address. The management fee will be pro-rated to the date of termination, for the quarter in which the cancellation notice was given and the unearned fee billed to your account as indicated in your Agreement. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client’s death or disability, our Firm will continue management of the account until we are notified of client’s death or disability and given alternative instructions by an authorized party.

In no case are our fees based on, or related to, the performance of your funds or investments.

WRWP is the sponsor and portfolio manager of this Wrap Fee Program. WRWP receives investment advisory fees paid by our clients for investment advisory services covered under this Wrap Fee Program.

OTHER TYPES OF FEES & EXPENSES

You may pay custodial fees, charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund’s prospectus (i.e., fund management fees and other fund expenses), mark-ups and mark-downs, wire transfer fees, fees for trades executed away from custodian, and taxes on brokerage accounts and securities transactions. These fees are not included within the wrap-fee you are charged by our firm. Neither our Firm nor its supervised persons accept compensation for the sale of securities. Further, our firm does not share in any of these additional fees and expenses outlined above.

ITEM 5 – ACCOUNT REQUIREMENTS & TYPES OF CLIENTS

We provide investment advice to individuals, high net individuals, charitable organizations, employer sponsored retirement plans, institutions, and trusts. We do not require a minimum dollar amount to open and maintain an advisory account.

ITEM 6 – PORTFOLIO MANAGER SELECTION & EVALUATION

PORTFOLIO MANAGER SELECTION

We serve as the sponsor and portfolio manager for our Wrap Fee Program.

RELATED PERSONS

Our firm's investment adviser representatives serve as the portfolio manager for the services under this Wrap Fee Program. We only manage this wrap fee program and we do not act as portfolio manager for any third-party wrap fee programs.

SUPERVISED PERSONS

Our investment adviser representatives serve as the portfolio manager for the Wrap Fee Program described in this Wrap Fee Program Brochure. Please refer to the Items 4 and 8 of the Disclosure Brochure for details on the services provided by our Firm. For information related to the background of our supervised persons, please see Items 9 and 11 of the Disclosure Brochure.

ADVISORY BUSINESS

See Item 4 for information about our wrap fee advisory program. We offer individualized investment advice to clients utilizing our Wrap Portfolio Management service.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

PARTICIPATION IN WRAP FEE PROGRAMS

We offer wrap fee accounts to our clients, which are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

PERFORMANCE-BASED FEES & SIDE-BY-SIDE MANAGEMENT

We do not charge performance fees to our clients.

METHODS OF ANALYSIS, INVESTMENT STRATEGIES & RISK OF LOSS

Asset classes, market capitalizations, and investment styles are cyclical – coming into and going out of favor without informing market participants when, to what degree, or for how long they intend on remaining dislocated from their long-term averages. Therefore, we do not try to time when to enter and exit the market – as time in the market is more important than timing it – nor do we portend to have some divine knowledge about the short-term direction of markets – markets that are completely out of our control. Instead of diverting our attention to the items that we are unable to influence, we focus all of our energy on the areas of a client portfolio we do have control over – (1) purpose driven investing through aligning the underlying investment strategy to the needs of the client assets, (2) thorough and exhaustive investment research to potentially maximize long-term wealth accumulation through portfolio positioning, (3) consistent and unwavering diversification within the portfolio in an attempt to ensure against the risk of total loss, and (4) disciplined rebalancing of client assets allowing for an objective reallocation of capital and risk. These four tenants do not guarantee the road won't be bumpy at times; however, they do provide the necessary guardrails to ensure our clients stay on the road to meeting their long-term goals.

WRWP's fundamental job is to meet a variety of client financial goals by selecting and actively managing choices of investments against changing market conditions and opportunities as appropriate to accomplish clients' needs for income, wealth accumulation and/or capital preservation. Our Firm will work through a rigorous financial

questionnaire with a client to understand a client's financial values and help them uncover what their next financial step should be. Our Investment Advisor Representatives educate clients on financial planning to ultimately help guide people to make better investment decisions for themselves. Once we go through the financial fact finder process with a client and develop the personalized investment philosophy, our firm will discuss the universe of options to implement the objectives of the client. We start on the right side of the board, placing clients in risk-based investments, equities, ETFs, and mutual funds. We use the following methods of analysis in formulating our investment advice and/or managing client assets:

- **FUNDAMENTAL ANALYSIS** - We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company) to determine if the security is underpriced (indicating that it may be a good time to buy) or overpriced (indicating that it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk because the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the security.
- **ASSET ALLOCATION** - In addition to focusing on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals. Periodically we may encounter economic conditions that warrant temporary adjustments to the asset allocation of an investment strategy or portfolio. If we believe that these conditions present either an increase in risk or opportunity for that particular asset class we may alter the appropriate allocation to reflect this conviction.

- **MUTUAL FUND AND/OR ETF ANALYSIS** - We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if the manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, because we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security thereby increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF which could make the holding(s) less suitable for the client's portfolio.

- **TECHNICAL ANALYSIS** - Trends in price and trading volume can provide important clues on the demand for a particular stock. Deciding whether and when to buy or sell a stock or stocks in general (the overall market) is an important part of the investment process, particularly as it applies to managing risk. As an aid in making decisions, we look at the basic technical patterns and signals recognized by the industry as providing meaningful input. The key consideration is a trend: its strength, length, exhaustion and reversal. These situations can result in buying and selling opportunities.
- **RISKS FOR ALL FORMS OF ANALYSIS** - Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Our firm may recommend the use of an alternative investment. Investments classified as "alternative investments" may include a broad range of underlying assets including, but not limited to, hedge funds, private equity, venture capital, and registered, publicly traded securities. Alternative investments are speculative, not suitable for all clients and intended for only experienced and sophisticated investors who are willing to bear the high risk of the investment, which can include: loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative investment practices; lack of liquidity in that there may be no secondary market for the fund and none expected to develop; volatility of returns; potential for restrictions on transferring interest in the fund; potential lack of diversification and resulting higher risk due to concentration of trading authority with a single advisor; absence of information regarding valuations and pricing; potential for delays in tax reporting; less regulation and typically higher fees than other investment options such as mutual funds. The SEC requires investors be accredited to invest in these more speculative alternative investments. Investing in a fund that concentrates its investments in a few holdings may involve heightened risk and result in greater price volatility.

RISK OF LOSS

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there will be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our Firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines.

Investors should be aware that accounts are subject to the following risks:

CHARTING ANALYSIS RISK - Our charting analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

TECHNICAL RISK - The risk of market timing based on technical analysis is that our analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

MARKET RISK - Even a long-term investment approach cannot guarantee a profit. Economic, political and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.

FOREIGN SECURITIES AND CURRENCY RISK - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.

CAPITALIZATION RISK - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.

INTEREST RATE RISK - In a rising rate environment, the value of fixed-income securities generally declines and the value of equity securities may be adversely affected.

CREDIT RISK - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.

SECURITIES LENDING RISK - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

EXCHANGE-TRADED FUNDS - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

PERFORMANCE OF UNDERLYING MANAGERS - We select the mutual funds and ETFs in our portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

LIQUIDITY RISK - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.

VOTING CLIENT SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not take action with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular solicitation by phone at 573-875-3939 .

ITEM 7 – CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGER(S)

Our firm is required to describe the type and frequency of the information it communicates to external managers that may be involved in managing its Clients' investment portfolios. WRWP serves as the sole portfolio manager under this Wrap Fee Program and, as such, we have no information to disclose regarding this Item.

ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGER(S)

Our firm does not place restrictions on the client's ability to contact and consult their financial advisor. As the portfolio manager, clients are free to contact us at any time.

ITEM 9 – ADDITIONAL INFORMATION

All the information disclosed in Item 9 is for Wrap Fee Clients.

DISCIPLINARY INFORMATION

Our Firm does not have any legal disciplinary events, criminal or civil actions, material to a client's decision to choose to engage advisory services from our Firm.

FINANCIAL INDUSTRY ACTIVITIES & AFFILIATIONS

Some of our IARs are also licensed insurance agents and sell various life insurance products, long term care and fixed annuities through our affiliated licensed insurance agency, PC-190, LLC. There is a conflict of interest to clients

because our firm and our IARs receive compensation (commissions, trails, or other compensation from the sale of the respective insurance products) as a result of effecting insurance transactions for clients.

The firm and the IAR have an incentive to recommend insurance products and this incentive creates a conflict of interest between your interests and our Firm. We mitigate this conflict by disclosing to clients they have the right to decide whether or not to engage the services of our IARs or our affiliated Insurance agency. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through our IAR or any licensed insurance agent not affiliated with our Firm. We recognize the fiduciary responsibility to place the client's interests first and have established policies in this regard to avoid any conflicts of interest.

DUALLY REGISTERED INVESTMENT ADVISORS REPRESENTATIVES ("IAR")

Some of our IARs are IARs of other Independent Registered Investment Advisers ("RIA"). These independent RIAs compensate the IARs for advisory services in addition to the services engaged with our Firm. These IARs are considered dually registered IARs.

BROKER DEALER

Certain IARs of WRWP are registered representatives of LPL Financial ("LPL Financial") a securities broker-dealer, and will be compensated for effecting securities transactions or providing advisory services. A portion of the time of WRWP and these IARs is spent in connection with broker/dealer activities.

As a broker-dealer, LPL Financial engages in a broad range of activities normally associated with securities brokerage firms. Pursuant to the investment advice given by WRWP or its IARs, investments in securities may be recommended for clients. If LPL Financial is selected as the broker-dealer, LPL Financial and its registered representatives, including IARs of WRWP, may receive commissions for executing securities transactions. When IARs of WRWP receive commissions in connection with the advice given to advisory clients, WRWP may reduce a portion of its fees by the amount of the commissions earned by WRWP IARs. Clients that purchase any products resulting in commission to the registered representative will not be assessed an advisory fee on those products sold through the broker-dealer.

You are advised that if LPL Financial is selected as the broker-dealer, the transaction charges may be higher or lower than the charges you may pay if the transactions were executed at other broker/dealers. You should note, however, that you have the right to decide to purchase products through the broker dealer. If you do decide to purchase products, you have the right to choose from whom you will purchase the products.

WRWP may provide advice regarding mutual fund securities. You should be aware that, in addition to the advisory fees you pay in connection with any WRWP program, each investment company also pays its own separate investment advisory fees and other expenses. Mutual funds also charge their own internal separate fees for investing in their fund. Such fees and expenses are disclosed in the mutual fund's prospectus. In addition, clients should be aware that mutual funds may be purchased separately, independent of the investment management services of WRWP and fees of WRWP.

Moreover, you should note that under the rules and regulations of FINRA, LPL Financial has an obligation to maintain certain client records and perform other functions regarding certain aspects of the investment advisory activities of its registered representatives. These obligations require LPL Financial to coordinate with, and have the cooperation of its registered representatives that operate as, or are otherwise associated with, investment advisers other than LPL Financial.

Clients should be aware that the ability to receive additional compensation by WRWP and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. WRWP endeavors at all times to act in the Clients best interest of its clients. As part of

our fiduciary duty as a registered investment adviser, we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees or Related Companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- we conduct regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.
-
- IARs of our Firm do not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing entities.

Our firm nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer.

BROKERAGE PRACTICES

We participate in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer. TD Ameritrade offers services to independent investment advisors that include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent investment advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by TD Ameritrade through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

In the event you request us to recommend a broker/dealer custodian for execution and/or custodial services, we generally recommend your account to be maintained at TD Ameritrade. We may recommend that you establish accounts with TD Ameritrade to maintain custody of your assets and to effect trades for your accounts. You are under no obligation to act upon any recommendations, and if you elect to act upon any recommendations, you are under no obligation to place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. We may make trades in individual accounts (that are not aggregated with others) so that we may address that client's unique circumstances. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day.

We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

- Our policy for the aggregation of transactions shall be fully disclosed to our existing clients (if any) and the Custodian(s) through which such transactions will be placed;
- We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.
- No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction;
- We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients;
- If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
- Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
- We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
- Individual advice and treatment will be accorded to each advisory client.

TRADE ERRORS

From time-to-time we may make an error in submitting a trade order on your behalf. When this occurs, we may place a correcting trade with the Custodian of your account. If an investment gain results from the correcting trade, the gain will remain in your account unless the same error involved other client accounts that should have received the gain, it is not permissible for you to retain the gain, or we confer with you and you decide to forgo the gain (e.g. due to tax reasons). If the gain does not remain in your account the Custodian will donate the amount of any gain \$100 and over to charity. If a loss occurs greater than \$100, we will pay for the loss. Custodian will maintain the loss or gain (if such gain is not retained in your account) if it is under \$100 to minimize and offset its administrative time and expense. Generally, if related trade errors result in both gains and losses in your account, they may be netted.

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS & PERSONAL TRADING

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to:

- protect our clients,
- detect and deter misconduct,
- educate personnel regarding the firm's expectations and laws governing their conduct,
- remind personnel that they are in a position of trust and must act with complete propriety at all times,
- protect the reputation of our Firm,
- guard against violation of the securities laws,
- establish procedures for personnel to follow so that we may determine whether their personnel are complying with the firm's ethical principles.

Our Firm and persons associated with us are allowed to invest, buy or sell securities, for their own accounts or to have a material financial interest in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as transactions made in your account. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest. Trades for supervised persons are traded alongside client accounts and receive the same pricing as clients if traded on the same day.

Neither our Firm nor its related persons recommend to clients, or buys or sells for client accounts, securities in which we have a material financial interest.

We have established the following restrictions in order to ensure our firm's fiduciary responsibilities:

- A director, officer or employee of WRWP shall not buy or sell any securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment unless the information is also available to the investing public on reasonable inquiry. No supervised employee of WRWP shall prefer his or her own interest to that of the advisory client.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of WRWP.
- We emphasize the unrestricted right of the client to decline to implement any advice rendered, except in situations where we are granted discretionary authority of the client's account.
- We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any supervised employee not in observance of the above may be subject to termination.

You may request a complete copy of our Code of Ethics by contacting us at the telephone number on the cover page of this Part 2; Attn: Chief Compliance Officer.

REVIEW OF ACCOUNTS

Our Investment Advisor Representatives will monitor client accounts on at least a quarterly basis and perform reviews with each client annually or as often as is agreed upon by the client and Advisor. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. Clients may request a review at any time.

STATEMENTS AND REPORTS

The custodian for the individual client's account will provide clients with an account statement at least quarterly. You are urged to compare any reports and invoices provided by our firm against the account statements you receive directly from your account custodian.

CLIENT REFERRALS & OTHER COMPENSATION

We pay referral fees to independent solicitors for the referrals of their clients to our Firm in accordance with Rule 206 (4)-3 of the Investment Advisers Act of 1940. Such referral fees represent a share of our investment advisory fee charged to our clients. This arrangement will not result in higher costs to you. In this regard, we maintain Solicitors Agreements in compliance with Rule 206 (4)-3 of the Investment Advisers Act of 1940 and applicable state and federal laws. All clients referred by Solicitors to our Firm will be given full written disclosure describing the terms and fee arrangements between our Firm and Solicitor(s). In cases where state law requires licensure of solicitors, we ensure that no solicitation fees are paid unless the solicitor is registered as an investment adviser representative of our Firm. The solicitor will not provide clients any investment advice on behalf of WRWP.

We receive an economic benefit from TD Ameritrade in the form of the support products and services it makes available to us. These products and services, how they benefit us, and the related conflicts of interest are described above under Item 12 Brokerage Practices. The availability to us of TD Ameritrade's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

SOFT DOLLARS

Our firm does not accept any direct soft dollars.

Note that TD Ameritrade provides our firm and our clients with access to its institutional brokerage, trading, custody, reporting, and related services, many of which are not typically available to TD Ameritrade retail customers. TD Ameritrade also makes available various support services. Some of those services help us manage or administer our clients' accounts; others help us manage and grow our business. TD Ameritrade's support services generally are available on an unsolicited basis (we do not have to request them) and at no charge to us. These are considered soft dollar benefits because there is an incentive to do business with TD Ameritrade. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies in this regard to mitigate any conflicts of interest.

DIRECTED BROKERAGE

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

Custodian's execution quality may be different than other Custodians.

WRWP annually reviews the relationship between our Custodians, WRWP and the client in order to determine if the custodial relationship is in the best interest of the client.

FINANCIAL INFORMATION

The firm received a Paycheck Protection Plan Loan (\$73,200.00) through the SBA in conjunction with the relief afforded from the CARES Act. The firm procured the loan to guarantee payroll due to the potential of decreased revenue associated with the unprecedented health pandemic. It also aids in supporting and retaining our staff and support the ongoing operations due to the potential for continued revenue decline in 2020.

We are not required to provide further financial information in this Brochure because:

- We do not receive more than \$1,200 in fees and six or more months in advance.
- We do not take custody of client funds or securities, except for our authorization to directly deduct fees as disclosed in item 4.
- We have never been the subject of a bankruptcy proceeding.
