Item 18: Financial Information.....	23

## Item 4: Advisory Business

### A. Description of the Advisory Firm

Independence Square Holdings, LLC (hereinafter "INDSQUARE") is a Limited Liability Company organized in the State of Pennsylvania. The firm was formed in November 2017, and the principal owner is Joseph Black Elliott.

### B. Types of Advisory Services

#### *Portfolio Management Services*

INDSQUARE offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. INDSQUARE creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

INDSQUARE evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. INDSQUARE will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

INDSQUARE seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of INDSQUARE's economic, investment or other financial interests. To meet its fiduciary obligations, INDSQUARE attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, INDSQUARE's policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is INDSQUARE's policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent, including initial public offerings ("IPOs") and other investment opportunities that might have a limited supply, among its clients on a fair and equitable basis over time.

INDSQUARE will direct client to third-party investment advisers to manage all or a portion of the client's assets. Before selecting other advisers for clients, INDSQUARE will always ensure those other advisers are properly licensed or registered as an investment

adviser. INDSQUARE conducts due diligence on any third-party investment adviser, which may involve one or more of the following: phone calls, meetings and review of the third-party adviser's performance and investment strategy. INDSQUARE then makes investments with a third-party investment adviser by investing with the third-party adviser. These investments may be allocated either through the third-party adviser's fund or through a separately managed account managed by such third party adviser on behalf of INDSQUARE's client. INDSQUARE may also allocate among one or more private equity funds or private equity fund advisers. INDSQUARE will review the ongoing performance of the third-party adviser as a portion of the client's portfolio.

### **LPL Financial Sponsored Advisory Programs**

INDSQUARE may provide advisory services through certain programs sponsored by LPL Financial LLC (LPL), a registered investment advisor and broker-dealer. Below is a brief description of each LPL advisory program available to INDSQUARE. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs please see the program account packet (which includes the account agreement and LPL Form ADV program brochure) and the Form ADV, Part 2A of LPL or the applicable program.

#### **Advisory Services**

##### **Manager Access Select Program**

Manager Access Select provides clients access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. Advisor will assist client in identifying a third-party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL. The Portfolio Manager manages client's assets on a discretionary basis. Advisor will provide initial and ongoing assistance regarding the Portfolio Manager selection process.

A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

##### **Optimum Market Portfolios Program (OMP)**

OMP offers clients the ability to participate in a professionally managed asset allocation program using Optimum Funds shares. Under OMP, client will authorize LPL on a discretionary basis to purchase and sell Optimum Funds pursuant to investment objectives chosen by the client. Advisor will assist the client in determining the suitability of OMP for the client and assist the client in setting an appropriate investment objective. Advisor will have discretion to select a mutual fund asset allocation portfolio designed by

LPL consistent with the client's investment objective. LPL will have discretion to purchase and sell Optimum Funds pursuant to the portfolio selected for the client.

LPL will also have authority to rebalance the account.

A minimum account value of \$10,000 is required for OMP. In certain instances, LPL will permit a lower minimum account size.

### **Personal Wealth Portfolios Program (PWP)**

PWP offers clients an asset management account using asset allocation model portfolios designed by LPL. Advisor will have discretion for selecting the asset allocation model portfolio based on client's investment objective. Advisor will also have discretion for selecting third party money managers (PWP Advisors), mutual funds and ETFs within each asset class of the model portfolio. LPL will act as the overlay portfolio manager on all PWP accounts and will be authorized to purchase and sell on a discretionary basis mutual funds, ETFs and equity and fixed income securities.

A minimum account value of \$250,000 is required for PWP. In certain instances, LPL will permit a lower minimum account size.

### **Model Wealth Portfolios Program (MWP)**

MWP offers clients a professionally managed mutual fund asset allocation program. INDSQUARE will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. The Advisor will initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL's Research Department consistent with the client's stated investment objective. LPL's Research Department or third-party portfolio strategists are responsible for selecting the mutual funds or ETFs within a model portfolio and for making changes to the mutual funds or ETFs selected.

The client will authorize LPL to act on a discretionary basis to purchase and sell mutual funds and ETFs and to liquidate previously purchased securities. The client will also authorize LPL to effect rebalancing for MWP accounts.

MWP requires a minimum asset value for a program account to be managed. The minimums vary depending on the portfolio(s) selected and the account's allocation amongst portfolios. The lowest minimum for a portfolio is \$25,000. In certain instances, a lower minimum for a portfolio is permitted.

### **Small Market Solution (SMS) Program**

Under SMS, LPL Research (a team of investment professionals within LPL) creates and maintains a series of different investment menus (“Investment Menus”) consisting of a mix of different asset classes and investment vehicles (“investment options”) for clients that sponsor and maintain participant-directed defined contribution plans (“Plan Sponsors”). The Plan Sponsor is responsible for selecting the Investment Menu that it believes is appropriate based on the demographics and other characteristics of the Plan and its participants. LPL Research is responsible for the selection and monitoring of the investment options made available through Investment Menus (“Fiduciary Selection Services”). The investment options that are offered through SMS are limited to the specific investments available through the record keeper that the Plan Sponsor selects. The Plan Sponsor may only select an Investment Menu in its entirety and does not have the option to remove or substitute an investment option.

If the Plan is subject to ERISA, LPL will be a “fiduciary” and serve as “investment manager” (as that term is defined in section 3(38) of ERISA) in connection with the Fiduciary Selection Services. None of the services offered under SMS other than the Fiduciary Selection Services will constitute “investment advice” under 3(21)(A)(ii) of ERISA, or otherwise cause LPL or INDSQUARE to be deemed a fiduciary.

In addition to the Fiduciary Selection Services, Plan Sponsor may also select from a number of non-fiduciary consulting services available under SMS that are provided by INDSQUARE. These consulting services may include, but are not limited to: general education, and support regarding the Plan and the investment options selected by Plan Sponsor; assistance regarding the selection of, and ongoing relationship management for, record keepers and other third-party vendors; Plan participant enrollment support; and participant-level education regarding investment in the Plan. These consulting services do not include any individualized investment advice to the Plan Sponsor or Plan participants with respect to Plan assets, and LPL and INDSQUARE do not act as fiduciaries under ERISA in providing such consulting services.

### **Guided Wealth Portfolios (GWP)**

GWP offers clients the ability to participate in a centrally managed, algorithm-based investment program, which is made available to users and clients through a web-based, interactive account management portal (“Investor Portal”). Investment recommendations to buy and sell open-end mutual funds and exchange-traded funds are generated through proprietary, automated, computer algorithms (collectively, the “Algorithm”) of Xulu, Inc., doing business as FutureAdvisor (“FutureAdvisor”), based upon model portfolios constructed by LPL and selected for the account as described below (such model portfolio selected for the account, the “Model Portfolio”). Communications concerning GWP are intended to occur primarily through electronic

means (including but not limited to, through email communications or through the Investor Portal), although INDSQUARE will be available to discuss investment strategies, objectives or the account in general in person or via telephone.

A preview of the Program (the “Educational Tool”) is provided for a period of up to forty-five (45) days to help users determine whether they would like to become advisory clients and receive ongoing financial advice from LPL, FutureAdvisor and INDSQUARE by enrolling in the advisory service (the “Managed Service”). The Educational Tool and Managed Service are described in more detail in the GWP Program Brochure. Users of the Educational Tool are not considered to be advisory clients of LPL, FutureAdvisor or INDSQUARE, do not enter into an advisory agreement with LPL, FutureAdvisor or INDSQUARE, do not receive ongoing investment advice or supervisions of their assets, and do not receive any trading services.

A minimum account value of \$5,000 is required to enroll in the Managed Service.

### ***Pension Consulting Services***

INDSQUARE offers consulting services to pension or other employee benefit plans (including but not limited to 401(k) plans). Pension consulting may include, but is not limited to:

- identifying investment objectives and restrictions
- providing guidance on various assets classes and investment options
- recommending money managers to manage plan assets in ways designed to achieve objectives
- monitoring performance of money managers and investment options and making recommendations for changes
- recommending other service providers, such as custodians, administrators and broker-dealers
- creating a written pension consulting plan

These services are based on the goals, objectives, demographics, time horizon, and/or risk tolerance of the plan and its participants.

### ***Financial Planning***

Financial plans and financial planning may include, but are not limited to: investment planning; life insurance; tax concerns; retirement planning; college planning; and debt/credit planning.

### ***Services Limited to Specific Types of Investments***

INDSQUARE generally limits its investment advice to mutual funds, fixed income securities, real estate funds (including REITs), insurance products including annuities, equities, hedge funds, private equity funds, ETFs (including ETFs in the gold and precious

metal sectors), treasury inflation protected/inflation linked bonds, commodities, non-U.S. securities, venture capital funds and private placements. INDSQUARE may use other securities as well to help diversify a portfolio when applicable.

### **C. Client Tailored Services and Client Imposed Restrictions**

INDSQUARE will tailor a program for each individual client. This will include an interview session to get to know the client's specific needs and requirements as well as a plan that will be executed by INDSQUARE on behalf of the client. INDSQUARE may use model allocations together with a specific set of recommendations for each client based on their personal restrictions, needs, and targets. Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent INDSQUARE from properly servicing the client account, or if the restrictions would require INDSQUARE to deviate from its standard suite of services, INDSQUARE reserves the right to end the relationship.

### **D. Wrap Fee Programs**

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, and certain other administrative fees. INDSQUARE does not participate in wrap fee programs.

### **E. Assets Under Management**

INDSQUARE has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$543,710,422	\$0	December 2019

## **Item 5: Fees and Compensation**

### **A. Fee Schedule**

#### *Portfolio Management Fees*

Total Assets Under Management	Annual Fees
All Assets	2.50%

The advisory fee is calculated using the value of the assets in the Account on the last business day of the prior billing period.

These fees are generally negotiable and the final fee schedule will be memorialized in the client's advisory agreement. Clients may terminate the agreement without penalty for a full refund of INDSQUARE's fees within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the Investment Advisory Contract immediately upon written notice.

### ***Selection of Other Advisers Fees***

INDSQUARE will receive its standard fee on top of the fee paid to the third party adviser. This relationship will be memorialized in each contract between INDSQUARE and each third-party adviser. The fees will not exceed any limit imposed by any regulatory agency. Specifically, INDSQUARE has discretion to choose AssetMark, SEI, Haverford Trust and Pacific Financial Group.

These fees are negotiable.

### ***Pension Consulting Services Fees***

#### **Asset-Based Fees for Pension Consulting**

Total Assets Under Management	Annual Fee
All Assets	2.50%

The advisory fee is calculated using the value of the assets on the last business day of the prior billing period

These fees are generally negotiable and the final fee schedule will be memorialized in the client's advisory agreement.

Clients may terminate the agreement without penalty for a full refund of INDSQUARE's fees within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the pension consulting agreement immediately upon written notice. INDSQUARE bills based on the balance on the first day of the billing period

#### **Fixed Fees**

The rate for creating client pension consulting plans is up to \$100,000. The final fee schedule will be memorialized in the client's advisory agreement. This service may be canceled immediately upon written notice.

## ***Financial Planning Fees***

### **Fixed Fees**

The negotiated fixed rate for creating client financial plans is up to \$20,000.

### **Hourly Fees**

The negotiated hourly fee for these services is up to \$200.

Clients may terminate the agreement without penalty, for full refund of INDSQUARE's fees, within five business days of signing the Financial Planning Agreement. Thereafter, clients may terminate the Financial Planning Agreement generally upon written notice.

## **B. Payment of Fees**

### ***Payment of Portfolio Management Fees***

Asset-based portfolio management fees are withdrawn directly from the client's accounts with client's written authorization on a quarterly basis, or may be invoiced and billed directly to the client on a quarterly basis. Clients may select the method in which they are billed. Fees are paid in advance.

### ***Payment of Pension Consulting Fees***

Asset-based pension consulting fees are withdrawn directly from the client's accounts with client's written authorization on a quarterly basis. Fees are paid in advance.

Fixed pension consulting fees are paid via check. These fees are paid 25% in advance, but never more than six months in advance, with the remainder due upon presentation of the plan.

### ***Payment of Selection of Other Advisers Fees***

The timing, frequency, and method of paying fees for selection of third-party managers will depend on the specific third-party adviser selected and will be disclosed to the client prior to entering into a relationship with the third-party advisor.

### ***Payment of Financial Planning Fees***

Financial planning fees are paid via check and wire.

Fixed financial planning fees are paid 50% in advance, but never more than six months in advance, with the remainder due upon presentation of the plan.

Hourly financial planning fees are paid 50% in advance, but never more than six months in advance, with the remainder due upon presentation of the plan.

### **C. Client Responsibility For Third Party Fees**

Clients are responsible for the payment of all third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees and expenses charged by INDSQUARE. Please see Item 12 of this brochure regarding broker-dealer/custodian.

### **D. Prepayment of Fees**

INDSQUARE collects fees in advance. Refunds for fees paid in advance but not yet earned will be refunded on a prorated basis and returned within fourteen days to the client via check, or return deposit back into the client's account.

For all asset-based fees paid in advance, the fee refunded will be equal to the balance of the fees collected in advance minus the daily rate\* times the number of days elapsed in the billing period up to and including the day of termination. (\*The daily rate is calculated by dividing the annual asset-based fee rate by 365.)

Fixed fees that are collected in advance will be refunded based on the prorated amount of work completed at the point of termination.

For hourly fees that are collected in advance, the fee refunded will be the balance of the fees collected in advance minus the hourly rate times the number of hours of work that has been completed up to and including the day of termination.

### **E. Outside Compensation For the Sale of Securities to Clients**

Certain representatives of INDSQUARE are registered representatives of a broker-dealer and licensed as insurance agents. In these roles, they accept compensation for the sale of investment products to INDSQUARE clients.

Supervised persons may accept compensation for the sale of investment products, including asset based sales charges or service fees from the sale of mutual funds to INDSQUARE's clients. This presents a conflict of interest and gives the supervised person an incentive to recommend products based on the compensation received rather than on the client's needs. When recommending the sale of investment products for which the supervised persons receives compensation, INDSQUARE will document the conflict of interest in the client file and inform the client of the conflict of interest. Clients always have the option to purchase INDSQUARE recommended products through other brokers or agents that are not affiliated with INDSQUARE.

Commissions are not INDSQUARE's primary source of compensation for advisory services. Advisory fees that are charged to clients are not reduced to offset the commissions or markups on investment products recommended to clients.

## **Item 6: Performance-Based Fees and Side-By-Side Management**

INDSQUARE does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

## **Item 7: Types of Clients**

INDSQUARE generally provides advisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals
- ❖ Pension and Profit Sharing Plans
- ❖ Charitable Organizations
- ❖ State or Municipal Government Entities

There is no account minimum for any of INDSQUARE's services.

## **Item 8: Methods of Analysis, Investment Strategies, & Risk of Loss**

### **A. Methods of Analysis and Investment Strategies**

#### *Methods of Analysis*

INDSQUARE's methods of analysis include Charting analysis, Cyclical analysis, Fundamental analysis, Modern portfolio theory, Quantitative analysis and Technical analysis.

**Charting analysis** involves the use of patterns in performance charts. INDSQUARE uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

**Cyclical analysis** involves the analysis of business cycles to find favorable conditions for buying and/or selling a security.

**Fundamental analysis** involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

**Modern portfolio theory** is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset.

**Quantitative analysis** deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on.

**Technical analysis** involves the analysis of past market data; primarily price and volume.

### *Investment Strategies*

INDSQUARE uses long term trading, short term trading, short sales, margin transactions and options trading (including covered options, uncovered options, or spreading strategies).

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **B. Material Risks Involved**

### *Methods of Analysis*

**Charting analysis** strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

**Cyclical analysis** assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

**Fundamental analysis** concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

**Modern portfolio theory** assumes that investors are risk averse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more

risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

**Quantitative analysis** Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

**Technical analysis** attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

### ***Investment Strategies***

INDSQUARE's use of short sales, margin transactions and options trading generally holds greater risk, and clients should be aware that there is a material risk of loss using any of those strategies.

**Long term trading** is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

**Margin transactions** use leverage that is borrowed from a brokerage firm as collateral. When losses occur, the value of the margin account may fall below the brokerage firm's threshold thereby triggering a margin call. This may force the account holder to either allocate more funds to the account or sell assets on a shorter time frame than desired.

**Options transactions** involve a contract to purchase a security at a given price, not necessarily at market value, depending on the market. This strategy includes the risk that an option may expire out of the money resulting in minimal or no value, as well as the possibility of leveraged loss of trading capital due to the leveraged nature of stock options.

**Selection of Other Advisers:** Although INDSQUARE will seek to select only money managers who will invest clients' assets with the highest level of integrity, INDSQUARE's selection process cannot ensure that money managers will perform as desired and INDSQUARE will have no control over the day-to-day operations of any of its selected money managers. INDSQUARE would not necessarily be aware of certain activities at the underlying money manager level, including without limitation a money manager's engaging in unreported risks, investment "style drift" or even regulatory breaches or fraud.

**Short sales** entail the possibility of infinite loss. An increase in the applicable securities' prices will result in a loss and, over time, the market has historically trended upward.

**Short term trading** risks include liquidity, economic stability, and inflation, in addition to the long term trading risks listed above. Frequent trading can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

### **C. Risks of Specific Securities Utilized**

INDSQUARE's use of short sales, margin transactions and options trading generally holds greater risk of capital loss. Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

**Mutual Funds:** Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. The funds can be of bond "fixed income" nature (lower risk) or stock "equity" nature.

**Equity** investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

**Fixed income** investments generally pay a return on a fixed schedule, though the amount of the payments can vary. This type of investment can include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best known type of fixed income security. In general, the fixed income market is volatile and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

**Exchange Traded Funds (ETFs):** An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100%

loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Precious Metal ETFs (e.g., Gold, Silver, or Palladium Bullion backed “electronic shares” not physical metal) specifically may be negatively impacted by several unique factors, among them (1) large sales by the official sector which own a significant portion of aggregate world holdings in gold and other precious metals, (2) a significant increase in hedging activities by producers of gold or other precious metals, (3) a significant change in the attitude of speculators and investors.

**Real estate** funds (including REITs) face several kinds of risk that are inherent in the real estate sector, which historically has experienced significant fluctuations and cycles in performance. Revenues and cash flows may be adversely affected by: changes in local real estate market conditions due to changes in national or local economic conditions or changes in local property market characteristics; competition from other properties offering the same or similar services; changes in interest rates and in the state of the debt and equity credit markets; the ongoing need for capital improvements; changes in real estate tax rates and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; the impact of present or future environmental legislation and compliance with environmental laws.

**Annuities** are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet requirement or other long-term goals. An annuity is not a life insurance policy. Variable annuities are designed to be long-term investments, to meet retirement and other long-range goals. Variable annuities are not suitable for meeting short-term goals because substantial taxes and insurance company charges may apply if you withdraw your money early. Variable annuities also involve investment risks, just as mutual funds do.

**Hedge funds** often engage in leveraging and other speculative investment practices that may increase the risk of loss; can be highly illiquid; are not required to provide periodic pricing or valuation information to investors; May involve complex tax structures and delays in distributing important tax information; are not subject to the same regulatory requirements as mutual funds; and often charge high fees. In addition, hedge funds may invest in risky securities and engage in risky strategies.

**Private equity** funds carry certain risks. Capital calls will be made on short notice, and the failure to meet capital calls can result in significant adverse consequences, including but not limited to a total loss of investment.

**Private placements** carry a substantial risk as they are subject to less regulation than are publicly offered securities, the market to resell these assets under applicable securities laws may be illiquid, due to restrictions, and the liquidation may be taken at a substantial discount to the underlying value or result in the entire loss of the value of such assets.

**Venture capital funds** invest in start-up companies at an early stage of development in the interest of generating a return through an eventual realization event; the risk is high as a result of the uncertainty involved at that stage of development.

**Commodities** are tangible assets used to manufacture and produce goods or services. Commodity prices are affected by different risk factors, such as disease, storage capacity, supply, demand, delivery constraints and weather. Because of those risk factors, even a well-diversified investment in commodities can be uncertain.

**Options** are contracts to purchase a security at a given price, risking that an option may expire out of the money resulting in minimal or no value. An uncovered option is a type of options contract that is not backed by an offsetting position that would help mitigate risk. The risk for a “naked” or uncovered put is not unlimited, whereas the potential loss for an uncovered call option is limitless. Spread option positions entail buying and selling multiple options on the same underlying security, but with different strike prices or expiration dates, which helps limit the risk of other option trading strategies. Option transactions also involve risks including but not limited to economic risk, market risk, sector risk, idiosyncratic risk, political/regulatory risk, inflation (purchasing power) risk and interest rate risk.

**Non-U.S.** securities present certain risks such as currency fluctuation, political and economic change, social unrest, changes in government regulation, differences in accounting and the lesser degree of accurate public information available.

**Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **Item 9: Disciplinary Information**

### **A. Criminal or Civil Actions**

There are no criminal or civil actions to report.

### **B. Administrative Proceedings**

There are no administrative proceedings to report.

### **C. Self-regulatory Organization (SRO) Proceedings**

There are no self-regulatory organization proceedings to report.

## **Item 10: Other Financial Industry Activities and Affiliations**

### **A. Registration as a Broker/Dealer or Broker/Dealer Representative**

Certain representatives of INDSQUARE are registered representatives of LPL Financial. These representatives accept compensation for the sale of securities.

### **B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor**

Neither INDSQUARE nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

### **C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests**

Certain representatives of INDSQUARE are registered representatives of LPL Financial. They will offer clients advice or products from those activities clients should be aware that these services pay a commission or other compensation and involve a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. INDSQUARE always acts in the best interest of the client and clients are in no way required to utilize the services of any representative of INDSQUARE in connection with such individual's activities outside of INDSQUARE.

Certain representatives of INDSQUARE are independent licensed insurance agents. From time to time, they will offer clients advice or products from those activities. Clients should be aware that these services pay a commission or other compensation and involve a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. INDSQUARE always acts in the best interest of the client; including the sale of commissionable products to advisory clients. Clients are in no way required to utilize the services of any representative of INDSQUARE in connection with such individual's activities outside of INDSQUARE.

Andrew Wheeler O'Malley is the trustee of a family trust held at Wells Fargo.

### **D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections**

INDSQUARE has discretion to choose third-party investment advisers to manage all or a portion of the client's assets. Clients will pay INDSQUARE its standard fee in addition to the standard fee for the advisers to which it directs those clients. This relationship will be

memorialized in each contract between INDSQUARE and each third-party advisor. The fees will not exceed any limit imposed by any regulatory agency. INDSQUARE will always act in the best interests of the client, including when determining which third-party investment adviser to recommend to clients. INDSQUARE will ensure that all recommended advisers are licensed or notice filed in the states in which INDSQUARE is recommending them to clients.

## **Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

### **A. Code of Ethics**

INDSQUARE has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. INDSQUARE's Code of Ethics is available free upon request to any client or prospective client.

### **B. Recommendations Involving Material Financial Interests**

INDSQUARE does not recommend that clients buy or sell any security in which a related person to INDSQUARE or INDSQUARE has a material financial interest.

### **C. Investing Personal Money in the Same Securities as Clients**

From time to time, representatives of INDSQUARE may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of INDSQUARE to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. INDSQUARE will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

### **D. Trading Securities At/Around the Same Time as Clients' Securities**

From time to time, representatives of INDSQUARE may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of INDSQUARE to buy or sell securities before or after recommending

securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, INDSQUARE will never engage in trading that operates to the client's disadvantage if representatives of INDSQUARE buy or sell securities at or around the same time as clients.

## **Item 12: Brokerage Practices**

### **A. Factors Used to Select Custodians and/or Broker/Dealers**

Custodians/broker-dealers will be recommended based on INDSQUARE's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and INDSQUARE may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in INDSQUARE's research efforts. INDSQUARE will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

INDSQUARE will require clients to use LPL Financial, Charles Schwab & Co., Inc. Advisor Services and Fifth-third Securities Inc. INDSQUARE does not maintain discretionary authority to select the either broker/dealer or set commission rates paid for transactions.

#### ***1. Research and Other Soft-Dollar Benefits***

While INDSQUARE has no formal soft dollars program in which soft dollars are used to pay for third party services, INDSQUARE may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). INDSQUARE may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and INDSQUARE does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. INDSQUARE benefits by not having to produce or pay for the research, products or services, and INDSQUARE will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that INDSQUARE's acceptance of soft dollar benefits may result in higher commissions charged to the client.

## ***2. Brokerage for Client Referrals***

INDSQUARE receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

## ***3. Clients Directing Which Broker/Dealer/Custodian to Use***

INDSQUARE will require clients to use a specific broker-dealer to execute transactions. Not all advisers require clients to use a particular broker-dealer.

### **B. Aggregating (Block) Trading for Multiple Client Accounts**

If INDSQUARE buys or sells the same securities on behalf of more than one client, then it may (but would be under no obligation to) aggregate or bunch such securities in a single transaction for multiple clients in order to seek more favorable prices, lower brokerage commissions, or more efficient execution. In such case, INDSQUARE would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. INDSQUARE would determine the appropriate number of shares and select the appropriate brokers consistent with its duty to seek best execution, except for those accounts with specific brokerage direction (if any).

## **Item 13: Review of Accounts**

### **A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews**

All client accounts for INDSQUARE's advisory services provided on an ongoing basis are reviewed at least Annually by Zachary S Mineur, Managing Member & Chief Compliance Officer, with regard to clients' respective investment policies and risk tolerance levels. All accounts at INDSQUARE are assigned to this reviewer.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Zachary S Mineur, Chief Investment Officer. Financial planning clients are provided a one-time financial plan concerning their financial situation. After the presentation of the plan, there are no further reports. Clients may request additional plans or reports for a fee.

## **B. Factors That Will Trigger a Non-Periodic Review of Client Accounts**

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

With respect to financial plans, INDSQUARE's services will generally conclude upon delivery of the financial plan.

## **C. Content and Frequency of Regular Reports Provided to Clients**

Each client of INDSQUARE's advisory services provided on an ongoing basis will receive a quarterly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian. INDSQUARE will also provide at least quarterly a separate written statement to the client.

Each financial planning client will receive the financial plan upon completion.

# **Item 14: Client Referrals and Other Compensation**

## **A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)**

INDSQUARE receives compensation from third-party advisers to which it directs clients.

Charles Schwab & Co., Inc. Advisor Services provides INDSQUARE with access to Charles Schwab & Co., Inc. Advisor Services' institutional trading and custody services, which are typically not available to Charles Schwab & Co., Inc. Advisor Services retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Charles Schwab & Co., Inc. Advisor Services. Charles Schwab & Co., Inc. Advisor Services includes brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment. For INDSQUARE client accounts maintained in its custody, Charles Schwab & Co., Inc. Advisor Services generally does not charge separately for custody services but is compensated by account holders through commissions or other transaction-related or asset-based fees for securities trades that are executed through Charles Schwab & Co., Inc. Advisor Services or that settle into Charles Schwab & Co., Inc. Advisor Services accounts.

Charles Schwab & Co., Inc. Advisor Services also makes available to INDSQUARE other products and services that benefit INDSQUARE but may not benefit its clients' accounts. These benefits may include national, regional or INDSQUARE specific educational events organized and/or sponsored by Charles Schwab & Co., Inc. Advisor Services. Other potential benefits may include occasional business entertainment of personnel of INDSQUARE by Charles Schwab & Co., Inc. Advisor Services personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Other of these products and services assist INDSQUARE in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts, if applicable), provide research, pricing information and other market data, facilitate payment of INDSQUARE's fees from its clients' accounts (if applicable), and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of INDSQUARE's accounts. Charles Schwab & Co., Inc. Advisor Services also makes available to INDSQUARE other services intended to help INDSQUARE manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, and human capital consultants, insurance and marketing. In addition, Charles Schwab & Co., Inc. Advisor Services may make available, arrange and/or pay vendors for these types of services rendered to INDSQUARE by independent third parties. Charles Schwab & Co., Inc. Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to INDSQUARE. INDSQUARE is independently owned and operated and not affiliated with Charles Schwab & Co., Inc. Advisor Services.

## **B. Compensation to Non - Advisory Personnel for Client Referrals**

INDSQUARE may enter into solicitation agreements pursuant to which it compensates third-party intermediaries for client referrals that result in the provision of investment advisory services by INDSQUARE. INDSQUARE will disclose these solicitation arrangements to affected investors, and any cash solicitation agreements will comply with Rule 206(4)-3 under the Advisers Act. Solicitors introducing clients to INDSQUARE may receive compensation from INDSQUARE, such as a retainer, a flat fee per referral and/or a percentage of introduced capital. Such compensation will be paid pursuant to a written agreement with the solicitor and generally may be terminated by either party from time to time. The cost of any such fees will be borne entirely by INDSQUARE and not by any affected client."

## **Item 15: Custody**

When advisory fees are deducted directly from client accounts at client's custodian, INDSQUARE will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

## **Item 16: Investment Discretion**

INDSQUARE provides discretionary and non-discretionary investment advisory services to clients. The advisory contract established with each client sets forth the discretionary authority for trading. Where investment discretion has been granted, INDSQUARE generally manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share. In some instances, INDSQUARE's discretionary authority in making these determinations may be limited by conditions imposed by a client (in investment guidelines or objectives, or client instructions otherwise provided to INDSQUARE).

## **Item 17: Voting Client Securities (Proxy Voting)**

INDSQUARE will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

## **Item 18: Financial Information**

### **A. Balance Sheet**

INDSQUARE neither requires nor solicits prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

### **B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients**

In light of the COVID-19 coronavirus and historic decline in market values, INDSQUARE has elected to participate in the CARES Act's Paycheck Protection Program ("PPP") to strengthen its balance sheet. INDSQUARE intends to use this loan predominantly to continue payroll for the firm and may ultimately seek loan forgiveness per the terms of

the PPP. Due to this and other measures taken internally, INDSQUARE has been able to operate and continue serving its clients.

### **C. Bankruptcy Petitions in Previous Ten Years**

INDSQUARE has not been the subject of a bankruptcy petition in the last ten years.
