

Woodward Diversified Capital, LLC

Form ADV Part 2A, Appendix 1

Wrap Fee Program Brochure

September 25, 2020

This Wrap Fee Program Brochure provides information about the qualifications and business practices of Woodward Diversified Capital, LLC. You should review this brochure to understand your relationship with our firm and help you determine to hire or retain us as your investment adviser. If you have any questions about the contents of this brochure, please contact us at (661) 498-7500. The information in this Brochure has not been approved or verified by the United States of America Securities and Exchange Commission (“SEC”) or by any state securities authority.

Additional information about Woodward Diversified Capital also is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by our firm name or by using a unique identifying number, known as a CRD number. The CRD number for Woodward Diversified Capital is 306299.

Woodward Diversified Capital is a registered investment adviser. Registration of an investment adviser does not imply any level of skill or training.

Item 2 – Material Changes

This section of the Wrap Fee Program Brochure discusses specific material changes that have been made to the brochure since the firm's last annual update. Below is a summary of those changes.

Types of Advisory Services We Offer

As of September 2020, Woodward Diversified Capital began serving as the managing member of the WDC Fund 1, LLC, a Delaware limited liability company, and in such capacity is responsible for the management of the WDC 1 Fund's assets. Clients of Woodward Diversified Capital are solicited to invest in the WDC 1 Fund, based on the investment objectives and risk profile of the client and pursuant to the subscription documents of the WDC 1 Fund.

Voting Client Securities

Clients may elect to have us participate in class action lawsuits and related settlements on their behalf. In such cases, we utilize a third-party service provider to assist the firm with the filing process, who receives 20% of any settlement awarded to the client for their services.

Important Disclosures

- **Performance-Based Fees and Side-by-Side Management:** Information related to the performance fees we charge as the managing member of the WDC 1 Fund and the conflict of interest this creates with our separately managed account clients.

We encourage you to carefully review this Brochure prior to entering into an investment advisory contract with our firm. You may receive an updated copy of this brochure at any time by contacting us at (661) 498-7500.

Item 4 – Services, Fees and Compensation

Our Services

Woodward Diversified Capital, LLC (“Woodward Diversified Capital”) is a fee-only registered investment adviser that provides investment management and financial advisory services to individual investors to help them achieve their financial needs and goals. Founded in 2019, the firm is owned by Gabriel Woodward, Beau Woodward and Thomas Woodward.

Our firm takes pride in providing personalized service to our clients and acknowledges that it is held to a fiduciary standard of care.

Woodward Diversified Capital offers portfolio management services through a wrap fee program. A bundled or “wrap fee” program is an advisory fee program under which you pay one bundled fee to compensate Woodward Diversified Capital for portfolio management and trade execution. A wrap fee program may not be the lowest cost option if you would like to restrict your investments to open-end mutual funds or other long-term investment products.

Woodward Diversified Capital manages our clients’ portfolios on a discretionary and, in limited circumstances, non-discretionary basis. Our portfolio management services are tailored to the needs of our clients and are based on a comprehensive understanding of each client’s current situation, past experiences, and future goals. With this acquired knowledge we create, analyze, strategize, and implement goal-oriented investment solutions. These solutions become our clients’ investment policy. This policy and our matched strategies are designed to be risk appropriate, cost effective and tax efficient.

Fees and Compensation

Fees for portfolio management services are based on assets under management and are payable quarterly in advance. Woodward Diversified Capital may negotiate advisory fees at our sole discretion. We may negotiate a fee rate that differs from our standard fee schedule for certain clients or in situations where Woodward Diversified Capital provides advice with respect to certain client holdings (e.g., held-away assets, 529 plans, etc.).

The graduated fee schedule for our wrap fee program is outlined below.

Assets Under Management	Annual Advisory Fee
\$0 to \$999,999	1.25%
\$1,000,000 to \$6,999,999	1.00%
Above \$7,000,000	0.90%

This fee schedule may be based on cumulative household assets under management. However, certain ERISA rules prevent householding corporate plans with personal assets for fee reductions. You should refer to your advisory agreement for your specific fee rate(s).

Costs of Our Program

Fees for our portfolio management services may be higher than fees charged by other advisers who sponsor similar programs, or if you paid separately for investment advice and other services. Fees for our wrap fee program include clearing and custodial costs and our portfolio management fee. You may be charged different fees than similarly situated clients for the same services. Your specific wrap fee is described in your investment management agreement. You should carefully review this brochure to understand the fees and other sources of compensation we receive prior to entering into an investment advisory contract with our firm.

Other Types of Fees You May Incur

You may incur additional charges imposed by custodians, broker-dealers, investment companies and other third parties, such as account maintenance fees, transfer taxes, wire transfer and electronic fund fees and other fees and taxes on securities transactions. Such charges and fees are exclusive of and in addition to Woodward Diversified Capital's fees. You are responsible for payment of any and all taxes that may be due as a result of any transactions in your account.

In addition to advisory fees, you are responsible for paying any management and other fund-related expenses for any mutual funds in which your account assets are invested. This includes redemption fees imposed by the mutual fund or custodian as a result of a transaction-related request you initiate (such as a partial or complete liquidation of your account). Distribution or "12b-1" fees paid by any mutual funds in which your account assets are invested are credited back to your account for your benefit.

Our Compensation for Your Participation in the Program

Woodward Diversified Capital generally acts as both the sponsor and portfolio manager of the wrap fee program. As a result, we receive compensation in the form of advisory fees for your participation in the program. The fact that we recommend this program may be viewed as a conflict of interest as we have an incentive to recommend the program over other programs or services. Your overall fees may be higher or lower if you paid separately for investment advice, brokerage, and other services. The broker-dealer, Trade-PMR, Inc., has waived transaction costs for trade execution and clearing. This presents a conflict of interest in that Woodward Diversified Capital is incentivized to recommend Trade-PMR over other broker-dealers that may offer better execution services. Woodward Diversified Capital does not only consider the cost of trading when making our investment recommendations. It is our policy to always act in the best interests of our clients. We encourage you to consider your anticipated level of trading activity and compare the costs you may incur in the program versus an unbundled portfolio management program.

Item 5- Account Requirements and Types of Clients

Woodward Diversified Capital provides portfolio management services to individuals, high net worth individuals and families, pension and profit-sharing plans, trusts, estates, charitable institutions, foundations, corporations, and other business entities.

Woodward Diversified Capital generally does not require a minimum initial investment for investment management services. The firm, in its sole discretion, may accept clients with smaller portfolios based upon each client's particular circumstances.

Item 6 – Portfolio Manager Selection and Evaluation

Selection and Review of Portfolio Managers

Woodward Diversified Capital generally acts as both the sponsor and portfolio manager of the wrap fee program. We may also utilize a third-party money manager to manage all or a portion of a client's account.

In an effort to mitigate any potential conflicts of interest, we have the ability to effect a large amount of trades within the wrap program with institutional pricing. This mitigates the incentive to recommend fewer trades in your account. The cost of trading is not material to our investment recommendations. It is our policy to always act in the best interests of our clients.

Types of Advisory Services We Offer

Woodward Diversified Capital offers portfolio management and wealth management services, as well as financial planning and consulting, to individuals, high net worth individuals, trusts, businesses and corporations. We work with our clients to determine their investment objectives and risk profile and develop a customized investment plan based on their individual needs and goals. Woodward Diversified Capital will utilize the financial information provided by the client to analyze and develop strategies and solutions to assist the client in meeting their financial goals.

Prior to Woodward Diversified Capital rendering any of the foregoing services, clients are required to enter into one or more written advisory agreements with Woodward Diversified Capital setting forth the relevant terms and conditions of the advisory relationship.

Portfolio and Wealth Management Services

Woodward Diversified Capital manages our clients' portfolios on a discretionary and, in limited circumstances, non-discretionary basis. Our portfolio and wealth management services are tailored to the needs of our clients and are based on a comprehensive understanding of each client's current situation, past experiences, and future goals. With this acquired knowledge we create, analyze, strategize, and implement goal-oriented investment solutions. These solutions become our clients' investment policy. This policy and our matched strategies are designed to be risk appropriate, cost effective and tax efficient.

Our wealth management services generally include a broad range of comprehensive financial planning and/or consulting services, as well as discretionary or, in limited circumstances, non-discretionary management of investment portfolios.

Client assets are generally allocated among individual equity and debt securities in accordance with the client's stated investment objective and risk/volatility parameters. Where appropriate, Woodward Diversified Capital may also provide advice about many types of legacy positions or other investments held in client portfolios. Clients may also engage Woodward Diversified Capital

to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts (to the extent permissible without an insurance license) and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, Woodward Diversified Capital will direct or make recommendations on a non-discretionary basis for the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or custodian for the plan trustee or administrator and clients retain responsibility for effecting trades in these accounts.

Clients may also retain Woodward Diversified Capital to provide advisory services for their retirement plan account. When providing these services, the firm acts as an ERISA 3(21) fiduciary and is required to act under the standard of care in ERISA that is generally a higher standard than imposed on our firm under the Investment Advisers Act of 1940. Advisory services available to plan participants include:

- Non-discretionary investment advice
- Asset allocation models
- Strategic investment allocations
- Investment performance reporting

Woodward Diversified Capital consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. You should promptly notify us if there are changes in your financial situation or if you wish to place any limitations on the management of your account. You may impose reasonable restrictions or mandates on the management of your account if Woodward Diversified Capital determines, in our sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the firm's management efforts.

Financial Planning and Consulting Services

Woodward Diversified Capital offers different levels of financial planning and consulting services to help our clients identify, prioritize and work towards their goals and objectives. Our consulting services give our clients the ability to receive a broad range of financial advice and services, including specific security recommendations, for the duration of the advisory agreement.

Our process starts with an extensive review of a client's family situation, which includes assets and liabilities as well as estate, tax, and insurance needs. We then employ a risk tolerance and risk capacity-focused simulation to get a detailed cash flow analysis and proposed asset allocation. Together, this information is analyzed to develop a proposed financial plan, which is designed to be dynamic in nature, ever-evolving due to life changes, along with changes in cash flow needs, risk tolerance, time horizon, or investment objectives.

Woodward Diversified Capital's financial planning and consulting services may include any or all of the following topics:

- Cash Flow Analysis
- Financial Record Organizing
- Estate Planning
- Charitable Giving
- Education Planning
- Business Planning
- Concentrated Stock
- Federal Benefits & Health Care
- Death & Disability
- Divorce Planning
- Liability Management
- Investment Consulting
- Tax Planning
- Insurance Review
- Family Governance
- Retirement Plan Consulting and Employee Benefits Analysis

While each of these services is available on a stand-alone basis, certain of them may also be rendered in conjunction with investment portfolio management services, as part of a comprehensive wealth management engagement. In performing these services, Woodward Diversified Capital is not required to verify any information received from the client or from the client's other professionals (e.g., attorneys, accountants, etc.), and is expressly authorized to rely on such information. Woodward Diversified Capital may recommend clients engage the firm for additional related services, or we may recommend other professionals to implement our recommendations. These additional services by Woodward Diversified Capital or another professional are provided at an additional cost to you, which is based on the nature, extent, complexity, and other characteristics of the services. This creates a conflict of interest because the firm will have an incentive to recommend additional services based on the compensation to be received, rather than solely based on your needs, and in some cases, based on the prospect of cross-referrals of advisory clients from the other professional or his or her firm. Implementation of financial planning recommendations is entirely at your discretion. You have complete freedom in selecting a financial adviser to assist you with implementing the recommendations made in your financial plan and are under no obligation to act on the advice of Woodward Diversified Capital. Financial planning recommendations are of a generic nature and are not limited to any specific product or service offered by a broker dealer or insurance company. Should you choose to implement the recommendations contained in the plan, Woodward Diversified Capital suggests you work closely with your attorney, accountant and/or insurance agent.

Woodward Diversified Capital will act solely in its capacity as a registered investment adviser and does not provide any legal, accounting or tax advice. You should seek the counsel of a qualified accountant and/or attorney when necessary. As part of our advisory services, we may assist clients

with tax harvesting and will work with the client's tax specialist to answer any questions related to the client's portfolio.

Portfolio Management Services for Wrap Fee Program

Woodward Diversified Capital offers portfolio management services through a wrap program. A bundled or "wrap fee" program is an advisory fee program under which you pay one bundled fee to compensate Woodward Diversified Capital for portfolio management and trade execution. A wrap fee program may not be the lowest cost option if you would like to restrict your investments to open-end mutual funds or other long-term investment products.

Private Investment Fund

As of September 2020, Woodward Diversified Capital serves as the managing manager of the WDC Fund 1, LLC (the "WDC 1 Fund"), a Delaware limited liability company, and in such capacity is responsible for the management of the WDC 1 Fund's assets. Clients of Woodward Diversified Capital are solicited to invest in the WDC 1 Fund, based on the investment objectives and risk profile of the client and pursuant to the subscription documents of the WDC 1 Fund.

Performance-Based Fees and Side-By-Side Management

Woodward Diversified Capital does not charge any performance-based fees for separately managed accounts.

As the managing member of the WDC 1 Fund, Woodward Diversified Capital receives performance-based fees on amounts ultimately distributed to the investors in excess of their capital contribution. Please refer to Item 5 - Fees and Compensation for additional information related to such fees.

Woodward Diversified Capital manages both separately managed accounts that are charged an asset-based, flat rate or hourly rate fee, and the WDC 1 Fund, which is charged management fees and performance-based fees. This presents a conflict of interest as it gives Woodward Diversified Capital an incentive to favor accounts for which the Firm receives a performance-based fee. The WDC 1 Fund invests solely in convertible debt securities issued by a single, privately-held company, which mitigates this conflict of interest. Woodward Diversified Capital has policies and procedures related to allocation of investment opportunities that are designed to ensure that the Firm does not favor or disfavor any client over another client.

Methods of Analysis and Investment Strategies

Woodward Diversified Capital carefully constructs a risk-adjusted, tax-efficient and cost-effective asset allocation strategy based on a client's unique cash flow needs, stated return and risk profile. Security selection is based on qualitative, quantitative, technical, and relative strength metrics. Portfolios holdings are constantly monitored and adjusted as market conditions and our clients'

circumstances dictate. Clients may hold or retain other types of assets as well, and Woodward Diversified Capital may offer advice regarding those various assets as part of our services. Advice regarding such assets generally will not involve portfolio management services.

Woodward Diversified Capital predominantly utilizes a combination of active and passive strategies to allocate client assets primarily among publicly traded securities, such as stocks, bonds, and ETFs, mutual funds, and/or separately managed portfolios. Nevertheless, individual client circumstances may dictate the use of other types of securities, actively managed portfolios, or alternative investments. Depending upon the client's financial needs, strategies implemented might include long term purchases (securities held at least a year), short term purchases (securities sold within a year), short sales, margin transactions, option writing, including covered options, uncovered options or spreading strategies, and other securities transactions.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. All investments present the risk of loss of principal – the risk that the value of securities (e.g., stocks, mutual funds, ETFs, bonds, etc.), when sold or otherwise disposed of, may be less than the price paid for the securities. Even when the value of the securities when sold is greater than the price paid, there is the risk that the appreciation will be less than inflation. In other words, the purchasing power of the proceeds may be less than the purchasing power of the original investment. There is no guarantee that investment recommendations made by Woodward Diversified Capital will be accurate. We cannot assure that your account will increase, preserve capital or generate income, nor can we assure that your investment objectives will be realized. Although all investments involve risk, our investment advice seeks to limit risk through diversification among various asset classes.

We may recommend a variety of security types for your account in an effort to achieve your individual needs and goals. This may include, but is not limited to, stocks, bonds, open-end and closed-end mutual funds, ETFs, hedge funds, private equity funds, venture capital funds, advisory accounts, real estate investment trusts, or other private alternative or other investment funds. An investment in such other funds or managers may present risks specific to the particular investment vehicle, such as long-term illiquidity, redemption notice periods or other restrictions on redemptions, capital calls, or periodic taxable income distribution.

Described below are the material risks associated with investing in the types of securities we generally use in client accounts:

Equity Securities

In general, prices of equity securities (common, convertible preferred stocks and other securities whose values are tied to the price of stocks, such as rights, warrants and convertible debt securities) are more volatile than those of fixed-income securities. The prices of equity securities could decline in value if the issuer's financial condition declines or in response to overall market and economic conditions. Investments in smaller companies and mid-size companies may involve greater risk and price volatility than investments in larger, more mature companies.

Fixed-Income Securities

The return and principal value of bonds fluctuate with changes in market conditions. Fixed-income securities are subject to interest rate risk and credit quality risk. The market value of fixed-income securities generally declines when interest rates rise, and an issuer of fixed-income securities could default on its payment obligations. Changes in interest rates generally have a greater effect on bonds with longer maturities than on those with shorter maturities. If bonds are not held to maturity, they may be worth more or less than their original value. Credit risk refers to the possibility that the issuer of a bond will not be able to make principal and/or interest payments. High yield bonds, also known as “junk bonds,” carry higher risk of loss of principal and income than higher rated investment grade bonds.

Mutual Funds

Mutual funds may invest in different types of securities, such as value or growth stocks, real estate investment trusts, corporate bonds or U.S. government bonds. There are risks associated with each asset class.

An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund. Redemption is at the current net asset value, which may be more or less than the original cost. Aggressive growth funds are most suitable for investors willing to accept price per share volatility since many companies that demonstrate high growth potential can also be high risk. Income from tax-free mutual funds may be subject to local, state and/or the alternative minimum tax.

Because each mutual fund owns different types of investments, performance will be affected by a variety of factors. The value of your investment in a mutual fund will vary from day to day as the values of the underlying investments in a fund vary. Such variations generally reflect changes in interest rates, market conditions and other company and economic news. These risks may become magnified depending on how much a fund invests or uses certain strategies. A fund’s principal market segment(s), such as large-cap, mid-cap or small-cap stocks, or growth or value stocks may underperform other market segments or the equity markets as a whole.

You can find additional information regarding these risks in the fund’s prospectus.

Exchange-Traded Funds (ETFs)

ETFs are typically investment companies that are legally classified as open-end mutual funds or unit investment trusts. ETFs differ from traditional mutual funds in that ETF shares are listed on a securities exchange. Shares can be bought and sold throughout the trading day like shares of other publicly traded companies. ETF shares may trade at a discount or premium to their net asset value. This difference between the bid price and ask price is often referred to as the “spread.” The spread

varies over time based on the ETF's trading volume and market liquidity and is generally lower if the ETF has a lot of trading volume and market liquidity and higher if the ETF has little trading volume and market liquidity. Liquidity risks are higher for ETFs with a large spread. ETFs may be closed and liquidated at the discretion of the issuing company.

International Investing

The risks of investing in foreign securities include loss of value as a result of political or economic instability; nationalization, expropriation or confiscatory taxation; changes in foreign exchange rates and foreign exchange restrictions; settlement delays; and limited government regulation (including less stringent reporting, accounting, and disclosure standards than are required of U.S. companies). These risks may be greater with investments in emerging markets. Certain investments utilized by Woodward Diversified Capital may also contain international securities.

Cash and Cash Equivalents

A portion of your assets may be invested in cash or cash equivalents to achieve your investment objective, provide ongoing distributions and/or take a defensive position. Cash holdings may result in a loss of market exposure.

Alternative Investments

Alternative investments are illiquid investments and do not trade on a national securities exchange. Alternative investments typically include investments in direct participation program securities (partnerships, limited liability companies, business development companies or real estate investment trusts), commodity pools, private equity, private debt or hedge funds. Alternative investments are subject to various risks, such as illiquidity and property devaluation based on adverse economic and/or real estate market conditions.

Alternative investments are not suitable for all investors. Investors considering an investment strategy utilizing alternative investments should understand that alternative investments are generally considered speculative in nature and may involve a high degree of risk, particularly if concentrating investments in one or few alternative investments. These risks are potentially greater and substantially different than those associated with traditional equity or fixed income investments. Additional information regarding these risks can be found in the product's prospectus or offering documents.

Voting Client Securities

Woodward Diversified Capital does not have authority to vote client securities on behalf of our clients. You are solely responsible for receiving and voting proxies for the securities maintained in your account. Proxy statements will be provided to you directly from the custodian or transfer agent. You may contact us at (661) 498-7500 if you have questions about a particular solicitation.

Clients may elect to have us participate in class action lawsuits and related settlements on their behalf. In such cases, we utilize a third-party service provider to assist the firm with the filing process, who receives 20% of any settlement awarded to the client for their services.

Item 7 – Client Information Provided to Portfolio Managers

If an Independent Manager is used to manage all or a portion of your account, Woodward Diversified Capital will share certain information needed by the third-party portfolio manager to effectively manage your account, such as your risk tolerance, investment objectives or other investment policy information.

Item 8 – Client Contact with Portfolio Managers

Woodward Diversified Capital is your primary contact for account-related questions. You may contact us directly at (661) 498-7500 to discuss your account.

Item 9 – Additional information

Disciplinary Information

As a registered investment adviser, Woodward Diversified Capital is required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of our firm or the integrity of our management. Woodward Diversified Capital has no disciplinary information to report.

Other Financial Industry Activities and Affiliations

Woodward Diversified Capital has no other financial industry activities or affiliations.

Code of Ethics, Participation in Client Transactions and Personal Trading

Our Code of Ethics

Woodward Diversified Capital is committed to providing investment advice with the utmost professionalism and integrity. Our firm strives to identify manage and/or mitigate conflicts of interest and has adopted policies, procedures and oversight mechanisms to address conflicts of interest. We have adopted a Code of Ethics that emphasizes our fiduciary obligation to put client interests first and is designed to ensure personal securities transactions, activities, and interests of employees will not interfere with the responsibilities to make decisions in the best interest of clients. All supervised persons of our firm must acknowledge and comply with our Code of Ethics.

You may request a copy of our Code of Ethics by contacting us at (661) 498-7500.

Participation in Client Transactions

Woodward Diversified Capital does not affect principal or agency cross securities transactions for client accounts. Woodward Diversified Capital also does not cross trades between client accounts. Principal transactions are generally defined as transactions where an adviser, acting as principal for its own account or the account of an affiliated broker-dealer, buys from or sells a security to an advisory client. An agency cross transaction is defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlled by or under common control with the investment adviser, acts as broker for both the advisory client and for another person on the other side of the transaction. Agency cross transactions may arise where an adviser is dually registered as a broker-dealer or has an affiliated broker-dealer.

Employee Personal Trading

Supervised persons of Woodward Diversified Capital may purchase or sell the same security that we recommend for investment in client accounts. This creates a conflict of interest as there is a possibility that employees of our firm might benefit from market activity by a client in a security held by the employee. Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of Woodward Diversified Capital will not interfere with making decisions in the best interest of advisory clients and implementing such decisions while, at the same time, allowing employees to invest for their own accounts. Under the Code of Ethics, certain classes of securities have been designated as exempt transactions, based upon a determination that these would not materially interfere with the best interest of Woodward Diversified Capital's clients. Our Code of Ethics also places restrictions on our employees' personal trading activities. These restrictions include, but are not limited to, a prohibition on trading based on non-public information and pre-clearance requirements for certain types of transactions. Employee trading is continually monitored under the Code of Ethics in an effort to prevent conflicts of interest between Woodward Diversified Capital and our clients.

Certain affiliated accounts may trade in the same securities with client accounts on an aggregated basis when consistent with Woodward Diversified Capital's obligation of best execution. In such circumstances, the affiliated and client accounts will share commission costs equally and receive securities at a total average price. Woodward Diversified Capital will retain records of the trade order (specifying each participating account) and its allocation, which will be completed prior to the entry of the aggregated order. Completed orders will be allocated as specified in the initial trade order. Partially filled orders will be allocated on a pro rata basis. Any exceptions will be explained on the order.

Review of Accounts

Accounts at Woodward Diversified Capital are reviewed on a periodic basis. This informal review includes assessing client goals and objectives, monitoring the account and addressing the need to rebalance, as necessary. Individual securities held in client accounts are periodically monitored by

the firm, while any selected third-party managers are monitored on a quarterly basis. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes to a client's individual circumstances, market conditions, or the political or economic environment.

Woodward Diversified Capital may also review tax-planning needs, cash-flow needs, as well as charitable giving, insurance, and estate planning as part of our ongoing client reviews. Reviews are tailored to the services we provide to you, as well as your individual needs and goals. We encourage you to discuss your needs, goals, and objectives with us and keep us informed of any changes. If you engage our firm for ongoing investment advisory services, we will contact you at least annually to determine whether there have been any changes to your financial situation or investment objectives and whether you wish to impose any reasonable restrictions on the management of your account or reasonably modify any existing restrictions. At this time, we will advise you of any account changes we feel are necessary to help you stay on track with meeting your financial goals and consider whether the current services provided by our firm continue to be suitable for your needs.

As a convenience to our clients, in addition to reporting on clients' financial assets, at a client's request we may prepare a global consolidated report that also includes certain non-financial assets (e.g., real assets). In such instances, Woodward Diversified Capital relies on the client to provide current and accurate price or other valuation information for those assets to be included in the client's consolidated account report. In no instance are non-financial assets included in performance reporting. Woodward Diversified Capital does not independently verify, and expressly disclaims responsibility for, the accuracy of any non-financial asset values clients provided to us to include in their reporting.

Client Referrals and Other Compensation

Other Compensation Arrangements

Woodward Diversified Capital receives compensation from Trade-PMR, Inc., the broker-dealer used for your account, and your account custodian in the form of access to electronic systems that assist us in the management of client accounts, as well as research, software and other technology that provide access to client account data (such as trade confirmations and account statements), pricing information and other market data, facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), and client reporting capabilities. Trade-PMR provided our firm with nominal funding to assist with startup expenses establishing our business entity. Your account custodian also offers Woodward Diversified Capital discounts for products and services offered by vendors and third-party service providers, such as software and technology solutions. These economic benefits create a conflict of interest in that it gives our firm an incentive to recommend one broker-dealer or custodian over another that does not provide similar electronic systems, support or services. We address this conflict of interest by disclosing to our clients the types of compensation that our firm receives so clients can consider this when evaluating our firm. It is important that you consider the fees, level of service and investment strategies, among other factors, when selecting an investment manager.

Client Referrals

Woodward Diversified Capital does not pay any referral fees to other individuals for referring clients to our firm.

Financial Information

As a registered investment adviser, Woodward Diversified Capital is required to provide you with certain financial information about our firm.

Prepayment of Fees

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance.

Our Financial Condition

We do not have any financial commitment that is reasonably likely to impair our contractual commitments to our clients, nor has our firm ever been the subject of a bankruptcy proceeding.
