Item 4: Advisory Business

A. OWNERSHIP/ADVISOR HISTORY

Peterson Financial Group, Inc. (“We”) was formed in October 2008 as an Iowa corporation. It was subsequently registered as an Iowa investment adviser in 2013. We are owned by Eric Peterson. Mr. Peterson is the president and additional information about Mr. Peterson can be found under Item 19, below.

B. ADVISORY SERVICES OFFERED

Before we enter into an Adviser-Client relationship, we may offer a complimentary general consultation to discuss services available, give a prospective client time to review services desired, and determine whether a relationship might benefit the client. Investment advisory services begin only after we and the client formalize the relationship with a properly executed agreement. We offer the following services to our clients:

i. FINANCIAL PLANNING SERVICES

We offer a four step financial planning process. The process includes:

Income Gap Analysis: The first step is an income gap analysis to determine if the client is using income sources properly and in the most tax-efficient method to support their lifestyle goals in retirement. We will also discover if the client has adequate income to meet his/her future needs and the ever-increasing cost of inflation. The client's personal inflation rate may be different than government-quoted inflation rates because of the ways in which he/she actually spends money.

Risk Analysis: The second step is a risk analysis to ensure the client's investment risk exposure is one he/she is comfortable with and is aligned with his/her investment allocation strategies. It also reveals many of the true fees the client is paying in his/her investments. Research shows that most investors make poor decisions and receive low rates of return and experience losses because they are actually taking more risk than they are comfortable with and losing significant money to fees. A simple set of questions will help inform the client of what his/her risk comfort level is and help him/her avoid losses he/she is not prepared to handle or not aware of.

Survivorship Analysis: The third step is to evaluate the economic impact of losing a spouse. The income streams for the remaining spouse change and the tax rate will increase for the surviving spouse. Our process will illustrate this to our clients so we can help them make planning decisions to make sure the standard of living for the remaining spouse is not compromised.

Tax Bucket Analysis: The fourth step is a complete look-forward review of the client's tax return to determine his/her current tax situation, and to address issues like phantom income tax, uses of taxable, tax deferred and tax free strategies, as well as a discovery of missed opportunities for offsetting gains and losses. This could be as simple as selling a losing stock to offset a capital gain on a mutual fund that the client may have missed by waiting until it was too late. Our Four Step Review is designed to help the client implement the correct strategy to lower

or eliminate certain taxes and find money falling through the cracks now and in the client's future.

Following the conclusion of the consulting services, we may make recommendations regarding implementation of the financial strategies discussed.

ii. RECOMMENDATION OF THIRD PARTY INVESTMENT ADVISERS

After an initial meeting with the client or when deemed appropriate, we may recommend the services of a third party investment adviser ("Third Party Adviser"). The recommendation will depend on the client's circumstances, goals and objectives, strategy desired, account size, risk tolerance, or other factors. We work with each client to determine which Third Party Adviser may be appropriate. Clients are never obligated to use a recommended Third Party Adviser.

We review Third Party Advisers prior to making a recommendation to the client. We consider the following factors during our review: fees, reputation, performance, financial strength, management, price, reporting capabilities, client's financial situation, client's goals, client's needs, and client's investment objectives. After our review we present the client with one or more recommendations.

If the client wishes to proceed with the recommendation, we enter into a Co-Advisor relationship with the recommended Third Party Adviser. Under these arrangements, the Third Party Adviser is responsible for portfolio management, best execution, portfolio reporting, trading, trade error resolution, and custodian reconciliations. We maintain our relationship with the client by monitoring the status of the client's accounts with the Third Party Adviser and making appropriate portfolio model changes when we act as a co-advisor, making recommendations about the Third Party Adviser, meeting with the client either in person or by telephone on an annual basis and acting as the client's primary financial adviser. All questions regarding the Third Party Adviser's services and performance will be directed to us. When we act as a co-advisor we have the ability to manage the manager of the client's portfolio.

Clients who are referred to Third Party Advisers will receive full disclosure, including services rendered and fee schedules, at the time of the referral, by delivery of a copy of the relevant Third Party Adviser's Form ADV Part 2A or equivalent disclosure document before receiving investment advisory services from the third-party adviser.

We will not refer a client to a Third Party Adviser unless it is registered or exempt from registration as an investment adviser in the client's state of residence.

C. TAILORED SERVICES

We tailor all of our services to the client's stated goals, needs and objectives. Any investment restrictions are controlled by the recommended Third Party Adviser. Please see the Third Party Adviser's ADV Part 2A for additional details.

D. WRAP PROGRAM

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs and certain other administrative fees. Peterson Financial Group

recommends AE Wealth Management (AEWM), which in turn manages a wrap fee program. If we offer client services through AEWM, we will provide clients with a copy of AEWM's disclosure brochure which contains a detailed description of AEWM's services. We will also provide them with a client advisory agreement, which includes the client fee disclosure detail.

E. CLIENTS ASSETS MANAGED

As of December 31, 2020, we managed approximately \$ 109,490,660.00 on a discretionary basis.

Item 5: Fees and Compensation

A. FINANCIAL PLANNING

Our financial planning services are provided on a fixed fee basis. The fixed fee ranges from \$750 to \$5,000. The fee is negotiable based upon the complexity of the client situation, amount of anticipated time including research and amount of client assets. One half of the fee is due upon engagement and the second half is due upon presentation of the plan.

B. RECOMMENDATION OF THIRD PARTY INVESTMENT ADVISERS

When we are a Co-Adviser, we charge a fee based upon an annual percentage of the assets under management as reported by the Third Party Adviser. The annual fee is up to 1.00%. The fee is negotiable based on the size of account and a client may aggregate accounts to achieve a lower rate. The client will be asked to authorize the Third Party Adviser with the ability to withdraw our fee. Typically, the fee is collected monthly in arrears. However, some Third Party Advisers collect fees on a different fee schedule. This can be found in the Third Party Adviser's ADV Part 2A that is given to the client upon solicitation.

Our fees are separate and distinct from the Third Party Adviser's assets under management fee. Other fees and expenses not included in our fee may include brokerage commissions, transaction fees, and other related costs and expenses. Additionally, clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, as disclosed in a fund's prospectus, which are separate and distinct from our fee.

C. TERMINATION OF SERVICES

A client may terminate their agreement with us for any reason within the first five (5) business days after signing the agreement and receive 100% refund of any prepaid fees without any cost or penalty. Thereafter, the contract may be terminated at any time by giving ten (10) days written notice to us at Peterson Financial Group, Inc., 1011 Office Park Road, Suite 4, West Des Moines, IA 50265. Upon written notice of termination, the client will receive a prorated refund of any prepaid fees based upon a percentage of work completed for financial planning engagements or portfolio management by Third Parties who charge fees in advance.

Item 6: Performance-Based Fees and Side by Side Management

We do not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

Item 7: Types of Clients

Our services are offered to individuals and high net worth individuals. We do not require a minimum account size prior to becoming a client.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

D. METHODS OF ANALYSIS AND INVESTMENT STRATEGIES

We employ an individualized asset allocation method with our clients. When deciding on the asset allocation for a client, we take into account the client's risk tolerance, goals, investment objectives and other data gathered during the client meetings. Asset Allocation is an investment strategy that aims to balance risk and reward by apportioning a portfolio's assets according to an individual's goals, risk tolerance and investment horizon among various asset classes. The asset classes typically include equities, fixed-income, and cash and equivalents. Each class has different levels of risk and return, so each will behave differently over time. Additionally, the risks associated with asset allocation include the chance that the proportions allocated to the various securities will cause the client's account to underperform relevant to benchmarks or other accounts with a similar investment objective.

With respect to the recommendation of Third Party Advisers, we will meet with each client to obtain the client's financial situation, goals and risk tolerance. With this information, we will recommend a Third Party Adviser that we believe meets the client's financial situation, goals and risk tolerance. We will use various sources of information to help recommend a Third Party Adviser for the client. These sources include but are not limited to Third Party Adviser's ADV Part 2A, marketing materials, financial newspapers and magazines, research prepared by other advisers, company press releases, prospectuses, and other SEC filings.

E. RECOMMENDED SECURITIES AND INVESTMENT RISKS

All investments bear different types and degrees of risk and **investing in securities involves risk of loss that clients should be prepared to bear.** While we use investment strategies and Third Party Advisers that are designed to provide appropriate investment diversification, some investment strategies and Third Party Advisers have or utilize significantly greater risks than others. Obtaining higher rates of return on investments entails accepting higher levels of risk. Recommended investment strategies and Third Party Advisers seek to balance risks and rewards to achieve investment objectives. A client needs to ask questions about risks he/she does not understand. We would be pleased to discuss them.

We strive to render our best judgment on behalf of our clients. Still, we cannot assure or guarantee clients that investments will be profitable or assure that no losses will occur in an investment portfolio. Past performance is an important consideration with respect to any investment or investment adviser but is not a reliable predictor of future performance. We continuously strive

to provide outstanding long-term investment performance, but many economic and market variables beyond our control can affect the performance of an investment portfolio.

An investment could lose money over short or even long periods. A client should expect his/her account value and returns to fluctuate within a wide range, like the fluctuations of the overall stock and bond markets. A client's account performance could be hurt by:

- **Stock market risk:** The chance that stock prices overall will decline. Stock markets tend to move in cycles, with periods of rising stock prices and periods of falling stock prices.
- **Interest rate risk:** The chance that bond prices overall will decline because of rising interest rates.
- **Manager risk:** The chance that the proportions allocated to the various securities will cause the client's account to underperform relevant to benchmarks or other accounts with a similar investment objective.
- **International investing risk:** Investing in the securities of non-U.S. companies involves special risks not typically associated with investing in U.S. companies. Foreign securities tend to be more volatile and less liquid than investments in U.S. securities, and may lose value because of adverse political, social or economic developments overseas or due to changes in the exchange rates between foreign currencies and the U.S. dollar. In addition, foreign investments are subject to settlement practices, as well as regulatory and financial reporting standards, that differ from those of the U.S.
- **Liquidity risk:** One common risk associated with private placements and REITs is a relative lack of liquidity due to the highly customized nature of the investment. Moreover, the full extent of returns is often not realized until maturity. Because of this, these products tend to be more of a buy-and-hold investment decision rather than a means of getting in and out of a position with speed and efficiency.
- **Credit risk:** This is the risk that an issuer of a bond could suffer an adverse change in financial condition that results in a payment default, security downgrade, or inability to meet a financial obligation.
- **Inflation Risk:** This is the risk that inflation will undermine the performance of an investment and/or the future purchasing power of the assets.

Item 9: Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events within the past 10-years that would be material to a client's evaluation of the Adviser or the integrity of its management. We have no information applicable to this Item because we have not been the subject of any administrative, civil, criminal or regulatory proceedings.

Item 10: Other Financial Industry Activities and Affiliations

F. BROKER DEALER AFFILIATION

We are not affiliated with a broker-dealer.

G. FUTURES/COMMODITIES FIRM AFFILIATION

We are not affiliated with a futures or commodities broker.

H. OTHER INDUSTRY AFFILIATIONS

Our firm's advisors are insurance licensed and appointed with various insurance companies. In accordance with industry custom, we are typically compensated for the sale of insurance products through commissions paid by the insurance companies. We may also receive additional monetary and nonmonetary compensation from insurers, or from other insurance intermediaries, which may be contingent upon such factors as volume growth or retention of business. Our compensation may vary depending on the type of insurance product purchased and the insurer selected. This includes the non-fiduciary sale of Fixed Indexed Annuities, Fixed Annuities, Life Insurance and Medicare Supplements. This is a conflict of interest. The firm attempts to mitigate the conflict of interest to the best of our ability by placing the client's interests ahead of our own, adhering to suitability standards for Fixed Indexed Annuity sales and disclosing how we are compensated during the sales process.

I. SELECTION AND MONITORING OF THIRD PARTY INVESTMENT ADVISERS

Our services include recommending Third Party Advisers to our clients. A detailed description of this service can be found under Item 4.B – Advisory Services and Item 5.B – Fees and Compensation. The recommendation of Third Party Advisers may create a financial incentive to recommend one Third Party Adviser over another. We attempt to mitigate the conflict of interest by recommending Third Party Advisers who match the client's financial needs, goals and objectives. Also, clients are not obligated to use any recommended Third Party Adviser.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

J. DESCRIPTION

Our Code of Ethics establishes ideals for ethical conduct upon fundamental principles of openness, integrity, honesty, and trust. We will provide a copy of our Code of Ethics to any client or prospective client upon request.

Our Code of Ethics covers all supervised persons and it describes its high standard of business conduct, and fiduciary duty to our clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts and the reporting of certain gifts and business entertainment items, and personal securities trading procedures, among other things. All of our supervised persons must acknowledge the terms of the Code of Ethics annually, or as amended.

K. MATERIAL INTEREST IN SECURITIES

We do not have a material financial interest in any securities.

L. INVESTING IN OR RECOMMENDING THE SAME SECURITIES

Our owner and investment adviser representatives may use the services of a recommended Third Party Adviser. We attempt to mitigate any conflict of interest to the best of our ability through the enactment of our Code of Ethics and our fiduciary responsibilities. Also, our associates are aware of their fiduciary duty to our clients and the prohibitions against the use of any insider information. Records of all associates' proprietary trading activities will be kept, available to regulators to review on the premises.

Item 12: Brokerage Practices

M. RECOMMENDATION CRITERIA

We do not recommend brokers or custodians. All recommendations are provided by the Third Party Adviser. This section is not applicable.

i. RESEARCH AND SOFT DOLLARS

“Soft dollars” are defined as a form of payment investment firms can use to pay for goods and services such as news subscriptions or research. When an investment firm gives its business to a particular brokerage firm, the brokerage firm in return can agree to use some of its revenue to pay for these types of services. In order to stem the potential conflicts of interest that may arise from “soft dollar” arrangements, we pursue a policy of not entering into any such arrangements, either orally or in writing. Our firm does not have a custodial relationship with a broker dealer.

ii. BROKERAGE FOR CLIENT REFERRALS

We do not receive client referrals or any other Incentive from any custodian or any third party.

iii. DIRECTED BROKERAGE

We do not allow for directed brokerage. All brokerage decisions are provided by the Third Party Adviser.

N. TRADE AGGREGATION

We do not place trades in client accounts. This section is not applicable.

Item 13: Review of Accounts

O. PERIODIC REVIEWS

Our owner, Eric Peterson, and our advisors, review client accounts on a quarterly basis. Mr. Peterson and our advisors will also meet (either in person or by telephone) with a client on an annual basis or as requested by the client.

P. OTHER REVIEWS

Additional reviews are conducted periodically depending on market conditions, economic or political events, or by changes in a client's financial situation (such as retirement, termination of

employment, physical move or inheritance).

Q. REPORTS

The client will receive a quarterly statement from their account's custodian. We urge clients to carefully review such statements.

Item 14: Client Referrals and Other Compensation

R. OTHER COMPENSATION

We receive compensation from third-party advisers to which we direct clients.

S. CLIENT REFERRALS

We do not pay for client referrals or use solicitors.

Item 15: Custody

All client funds, securities and accounts are held at third-party custodians. We do not take possession of a client's securities. All management fees are deducted from client's accounts under the direction of the Third Party portfolio manager. We do not have the authority to direct the custodian on fees deducted.

Item 16: Investment Discretion

For those client accounts where we will have investment discretion, the client has given written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold or to manage the manager of the client's portfolio. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides us discretionary authority via a discretionary investment management clause in the Investment Advisory Contract or tri-party co-advisor agreement.

Item 17: Voting Client Securities

We will not be responsible for responding to proxies that are solicited with respect to securities held in clients' accounts at Third Party Advisers. Proxy solicitation materials are sent to the client directly from the account's custodian. In the event a client has a question about a proxy solicitation, the client should contact the proxy's issuer or the Third Party Adviser.

Item 18: Financial Information

T. BALANCE SHEET

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore, we are not required to provide a balance sheet.

U. FINANCIAL CONDITION

Registered investment advisers are required in this Item to provide clients with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs its ability to service our clients.

V. BANKRUPTCY

We have not been the subject of a bankruptcy proceeding.
