Fees and Compensation

CORE MANAGED ACCOUNT ADVISORY SERVICES

For our core Managed Account advisory services ("Managed Account(s)"), Personal Capital Advisors charges a single fee based on the value of the Client's assets under management. The single fee includes portfolio management, trading commissions, and custody services. Fees are calculated daily and deducted on a monthly basis in arrears. Personal Capital Advisors reserves the right to negotiate separate fee and billing arrangements at its sole discretion.

Clients are required to establish brokerage accounts at a qualified custodian ("Broker" or "Brokers") identified by Personal Capital Advisors. All identified Brokers are member firms of the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). The currently identified Broker is:

Pershing Advisor Solutions LLC

One Pershing Plaza, 4th Floor, Jersey City, NJ 07399
pershing.com/who-we-serve/registered-investment-advisors

All Managed Account Client assets are held in custody at the above listed Broker. Pershing is not affiliated with Personal Capital Advisors.

PERSONAL STRATEGY+ ACCOUNT ADVISORY SERVICES

Personal Capital also offers Clients wealth management services on employer-sponsored retirement accounts. Fees for Personal Strategy+ management are calculated based on month-end assets (or last asset value available during the month) and, if the Client does not already have a fee account designated, advisory fees for Personal Strategy+ will be deducted from the Client's largest taxable Managed Account custodied at Pershing monthly, in arrears.

Personal Capital's Personal Strategy+ advisory services are limited to providing investment advice and management of the assets in a Client's employer-sponsored retirement account(s) and the plan administrator continues to act as the qualified custodian for these accounts. Any transaction or performance information provided by Personal Capital Advisors is for informational purposes only, as the plan administrator for the employer-sponsored retirement account(s) is the official custodian and recordkeeper for all performance and transaction information.

Annual Investment Advisory Fee Schedule

FIRST \$1 MILLION	0.89%
For clients that invest \$1 million or more	
FIRST \$3 MILLION	0.79%
NEXT \$2 MILLION	0.69%
NEXT \$5 MILLION	0.59%
OVER \$10 MILLION	0.49%

FEES

The Client authorizes Personal Capital Advisors to debit all advisory fees directly from the Client's Managed Accounts held with the Broker. If insufficient cash is available to pay such fees, securities will be liquidated to pay the unpaid balance. Our standard investment fee rates may be reduced by promotions, which are described in detail in our advisory agreement or under the terms and conditions of each promotion.

Personal Capital Advisors reserves the right to reduce its advisory fee rate at its discretion, including for promotional events that may result in complimentary or reduced advisory fee rates for new Clients, for current Clients for referrals, or for early adoption of new services. The fee rate also has been reduced for personnel (including employees and consultants) of Personal Capital Advisors and its affiliates. These reductions apply to members of the same households. Fee errors are corrected promptly upon discovery.

In determining whether to establish an account, a Client should be aware that the overall cost to the Client of Advisory Services will be higher or lower than the Client would incur by purchasing separately the types of securities available through the Advisory Services. In order to compare the cost of the Advisory Services with unbundled services, the Client should consider the turnover

rate in Personal Capital Advisors' investment strategies, trading activity in the account, standard advisory fees, and brokerage commissions that would be charged at other broker-dealers and investment advisers.

We have compensation arrangements with our sales and service Advisors that include a component of variable compensation subject to achievement of certain measures, including pertaining to new account assets under management, retained account assets under management, as well as performance-related scores applicable to servicing of Client accounts. Although this variable compensation is only a component of the Advisors compensation, this creates a conflict of interest because Personal Capital Advisors and our individual Advisors earn more revenue, or greater individual compensation, if a Client chooses to hold, retain and add investable assets with us.

Other Fees and Expenses

All fees paid to Personal Capital Advisors for Advisory Services are separate and distinct from the fees and expenses charged by underlying pooled investment vehicles (e.g., exchange traded funds, mutual funds, closed-end investment companies or other managed investments to their investors). The specific fees and expenses are described in each vehicle's prospectus or other offering document.

In addition, there are other third-party costs assessed that are not included in the Advisory Services fees, such as costs associated with exchanging currencies, wire transfer fees, Personal Strategy+ plan administration fees charged by the plan administrator, Personal Strategy+ plan transaction fees, or other fees required by law, as applicable.

Clients who participate in our Private Equity Offering through an arrangement with Institutional Capital Network ("iCapital") will pay additional fees charged by iCapital or the underlying funds.

Item 6 Portfolio Manager Selection and Evaluation

Personal Capital Advisors' Investment Committee acts as Portfolio Manager(s) for this wrap fee program.

Note that certain portfolio decisions for both Managed Accounts and Personal Strategy+ involve investing in or recommending an investment in securities issued by pooled investment vehicles, e.g., mutual funds, ETFs and private funds. Investment management decisions for such pooled investment vehicles are made by outside portfolio managers.

Advisory Business

Personal Capital Advisors offers its Clients an array of investment strategies (“Personal Strategy” or “Personal Strategies”). A Client’s assets are managed within a given Personal Strategy® based upon the Client’s overall investment objectives and suitability parameters.

A Personal Strategy is a comprehensive investment portfolio. It is focused on achieving the Client’s financial goals and is designed to grow with the Client over time. Portfolios in a Personal Strategy can be customized for a Client’s needs or wants. Clients should be aware that to the extent a personalized trading restriction limits full strategy implementation it may impact their account performance relative to other non-restricted peers in the same strategy. Personal Strategy asset allocations go beyond basic stock and bond portfolios. The Personal Strategies invest globally, primarily utilizing individual equities and ETFs. Personal Capital Advisors’ unique Smart Index Weighting approach adds further diversification and potential return by providing exposure to all areas of the U.S. stock market while avoiding being overweight to high-risk segments.

Personal Capital Advisors believes that asset allocation is an important investment decision. The goal-based nature of a Personal Strategy means the Client’s asset allocation is continuously linked to their evolving situation, thereby maximizing the likelihood of long-term success.

Target allocations for Personal Strategy+ accounts will be built in an attempt to align with the fundamental asset allocation of the Client’s Personal Strategy. In alignment with this general approach to investing, preference will generally go to selecting low-cost passive index funds over actively managed mutual funds for otherwise similar plan options. Funds are selected within the context of their overall fit in the portfolio allocation and how well they represent a particular asset class that the Personal Strategy is aiming to replicate. The investment selection process involves a cost/benefit analysis that takes into consideration cost, diversification benefits, risk, return, our preference for unaffiliated products, and plan constraints. There will be allocation and performance differences between a Client’s Personal Strategy+ employer-sponsored retirement account(s) and the Client’s core Personal Strategy account(s).

Personal Capital Advisors’ Managed Account client trades are batched throughout the day to leverage operational and market efficiencies. Client- directed transactions and liquidations may not be executed on a same-day basis.

Portfolio transaction requests, including liquidations, can be monitored via the Dashboard, or via the custodian’s website; however, neither site is real-time with respect to liquidations and transactions.

Personal Capital Advisors trades Managed Accounts exclusively with Pershing and this creates a conflict of interest because of the operational support services Pershing provides us. In recognition of this conflict, we have implemented a periodic analysis to evaluate execution quality and a cross functional Best Execution Committee which oversees the review process.

Personal Capital Advisors communicates Personal Strategy+ trade orders through Third-Party (“Third-Party Service Provider”). The Third-Party Service Provider communicates orders to the financial institution where a Client’s Personal Strategy+ accounts are held, and the financial institution is responsible for actually executing the trades. Personal Strategy+ trade orders will not be executed on the day they are communicated by Personal Capital Advisors and may be delayed due to circumstances outside of our control. Generally, the Third-Party Service Provider will communicate trades to the financial institution within 24 business hours, but some orders may take longer for multi-part trades. Once an order has been successfully communicated, execution of the trade typically takes one business day, but will depend on the financial institution.

If a Client elects to invest in our Private Equity offering, the Client will invest in an access fund sponsored by iCapital, which will in turn invest in one or more underlying private equity funds. Supplemental information on this program is provided to qualified Private Clients upon request.

Personal Capital Advisors seeks to effect orders correctly, promptly, and in the best interests of our Clients. In the event an error occurs in the handling of any Client transaction, due to our actions, or inaction, we will correct the error upon discovery (within the confines of the account requirements and restrictions) and without disadvantaging the Client. Compensation or consideration for the error loss may be paid to Clients through the offer of fee waivers or fee credits for management services in lieu of cash or securities. Negative investment performance returns resulting from the implementation of an investment strategy is not considered a trade error for purposes of our policy.

Performance Based Fees and Side by Side Management

Personal Capital Advisors does not charge performance-based fees (i.e. fees calculated based on a share of capital gains or capital appreciation of the assets or any portion of the assets of a Client). Client fees are based solely upon assets under management. Personal Capital Advisors does not engage in side-by-side management. Side by side management is the management of performance-based fee accounts alongside flat or other non- variable fee accounts.

Clients considering an investment in the iCapital Private Equity Offering should be aware that, although Personal Capital Advisors does not charge performance fees, iCapital's underlying fund managers do.

Methods of analysis, Investment Strategies and Risk of Loss

Personal Capital Advisors' investment analysis emphasizes asset allocation research and portfolio diversification techniques over individual security analysis.

Personal Capital Advisors' methods and techniques include:

Sampling and screening relevant baskets of securities, or indices, in order to select the desired security attributes.

Correlation analysis – evaluating the historical relationship of two securities or market segments movement in relation to each other.

Fundamental analysis – evaluating securities based upon historical and projected financial performance.

Within US equities, Personal Capital Advisors employs an approach termed Smart Weighting. The starting universe is generally all US stocks traded on an exchange with a market capitalization over \$250 million and sufficient liquidity. The objective of the approach is to maintain relatively even weighting in company size, style and economic sector. Securities are selected largely to complete this factor exposure in conjunction with other existing holdings. In other asset classes we employ a mix of low cost ETFs in an attempt to generate an efficient exposure to the asset class. The most important areas for consideration in ETF selection are underlying exposure, liquidity, and cost.

All investments involve risk. Personal Capital Advisors does not guarantee the results of the advice given. Significant losses can occur by investing in any security, or by following any strategy, including those recommended or applied by Personal Capital Advisors.

Voting Client Securities

Personal Capital Advisors uses a third-party proxy voting service to help fulfill our voting obligations in voting proxy ballots for our Clients. Votes are cast through the Broadridge ProxyEdge® platform, which provides access to proxy voting recommendations as well as historical voting information. Services provided to us through ProxyEdge® include reporting, auditing, and record keeping.

With the assistance of Broadridge, Glass Lewis & Co. ("Glass Lewis") provides Personal Capital Advisory recommendations based on Glass Lewis' own internal guidelines, research, and analysis. Votes are generally cast consistent with Glass Lewis guidelines and recommendations; however, Personal Capital Advisors will vote otherwise if it is deemed in the best interest of its Clients to do so.

Clients are permitted to vote their own proxies by "opting out" of proxy voting services during the account opening process, or at any time, by submitting a request in writing to Personal Capital Advisors. If a client chooses to "opt out," they do so on a "all or none" basis and agree to respond to their own proxies independently of Personal Capital Advisors. Additionally, to the extent a Client holds a foreign direct security that is not a Strategy position, Glass Lewis is unable to vote proxy ballots for those client mandated holdings.

Personal Capital Advisors maintains relevant and appropriate proxy records. A Client may obtain a complete copy of the Policies & Procedures related to proxy voting by requesting this information in writing to their Advisor. The Client may also request in writing from their Advisor information concerning the manner in which proxy votes have been cast on behalf of the Client during the prior annual period. Such information is provided in writing as soon as practicable.

Item 7 Client Information Provided to Portfolio Managers

Client information is shared with the Portfolio Managers.

Item 8 Client Contact with Portfolio Managers

The Code is based upon the principle that Personal Capital Advisors and our employees have a fiduciary duty to our Clients. Advisory employees are required to conduct their affairs, including their personal securities transactions, in compliance with the Code and to avoid serving their own personal interests by taking inappropriate advantage of their position of trust and responsibility.

Our Code of Ethics includes material, non-public (“MNPI”) prohibitions against the use of material non-public information. Employees are prohibited from trading for themselves or others while in possession of MNPI as well as communicating MNPI to anyone else. The Code also covers protecting the confidentiality of Client information.

With certain limitations the Code also covers restrictions on personal securities transactions of Personal Capital Advisors’ employees. Officers or employees of Personal Capital Advisors are permitted to invest in the same securities that are purchased on behalf of Clients for their personal investment considerations. Personal Capital Advisors also reserves the right to disapprove any proposed transaction that has the appearance of improper conduct. Personal Capital Advisors does not foresee a conflict of interest due to the liquidity and depth of the markets in which these securities trade. Clients should be aware that this potential conflict of interest exists.

The full text of Personal Capital Advisors Code of Ethics policy is available upon request.

Review of Accounts

Personal Capital Advisors utilizes portfolio management software in concert with the Client’s Advisor to monitor and manage Clients accounts on a continual basis. Exception reporting is monitored by a Portfolio Manager. Deviations from an account’s determined asset allocation parameters and the addition or removal of a specific security from the designated model portfolio may trigger periodic rebalancing.

For Clients who enroll in our Personal Strategy+ program, our Portfolio Management Team monitors underlying investment allocations using the Third-Party Service Provider’s application which identifies when a Client’s account is out of alignment with their Personal Strategy+ allocation. The Portfolio Management Team will also periodically revisit the Client’s allocation relative to underlying investment lineup changes and make changes as necessary.

Personal Capital Advisors provides Clients online access to their financial information through the Dashboard. In addition, Personal Capital Advisors provides a detailed monthly report to each client. Clients also continue to receive account statements and confirmations from the designated Broker (Pershing) or Personal Strategy+ plan administrator (if applicable). Clients are urged to periodically compare statements prepared by Personal Capital Advisors and their Broker (Pershing) or Personal Strategy+ plan administrator (if applicable) with specific emphasis on activity, holdings, and valuations.

Client Referrals and Other Compensation

PROMOTIONS: Personal Capital Advisors has periodic promotions offering various items, such as technology products, fee waivers on management fees, or reduced management fees. Client referrals, or other referral arrangements as outlined below, may, from time to time, be combined with promotional offers. Personal Capital Advisors will disclose the terms of promotional offers to Clients at the time of the offers.

CLIENT REFERRALS: From time to time, Personal Capital Advisors offers free advisory services for a certain period for existing Clients who refer new Clients to Personal Capital Advisors. Personal Capital Advisors will disclose the details of those incentives to existing and referred Clients at the time of the offer. Prospective Clients that are referred by existing Clients should be aware that the referring Client will receive an economic benefit for making the referral. The free advisory services awarded or any other incentive provided by Personal Capital Advisors do not increase the fees or costs for the referring or referred Client.

("GWFS"), an affiliated broker-dealer, whereby GWFS or GWFS registered representatives will refer certain high-net worth clients to Personal Capital Advisors. THIRD-PARTY CLIENT INTRODUCTIONS: Personal Capital Advisors also has referral arrangements with unaffiliated third-parties for client referrals. These third-parties introduce prospective Clients to Personal Capital Advisors and will receive compensation in the form of cash payments for these introductions. These third-parties are eligible for compensation even if the referred prospect does not become a Client. Such compensation will be paid by Personal Capital Advisors pursuant to a written agreement. These referral arrangements will not result in increased fees or costs for Clients.

AFFILIATE MARKETING PROGRAM: Personal Capital offers an Affiliate Marketing Program ("AMP") for web-based authors and participates in co-registration agreements, where the participants ("affiliate" or "affiliates") are compensated for each person who uses the affiliates' webpages to register with the Dashboard and link at least \$100,000 in new investable assets to the Dashboard. These affiliates are eligible for compensation even if the referred person does not become a Client. As a result of these arrangements, affiliates will financially benefit from referring users to Personal Capital. This creates a conflict of interest and incentivizes affiliates to present content favorable to Personal Capital or Personal Capital Advisors because of the compensation structure of the AMP. No additional fees or costs are charged to persons who register with the Dashboard and become a Client as a result of the AMP.

OTHER REFERRAL ARRANGEMENTS: Personal Capital enters into referral agreements with third parties who refer prospective Clients to the Dashboard ("Referrer" or Referrers") under which Referrers receive compensation for each individual who acknowledges that they have at least \$100,000 in investable assets. Individuals referred by Referrers to the Dashboard and subsequently become Clients do not pay any increased fees to Personal Capital Advisors as a result of the referral arrangement.

Individuals who become Clients as a result of our various referral programs acknowledge in our client agreement that they have reviewed, read, and understood our disclosures, and Part 2A of Personal Capital Advisors' Form ADV.
