Item 4: Advisory Business

Firm Description

Gradient Investments, LLC, ("GI") is an independent, SEC registered investment advisor. Charles E. Lucius, CLU®, ChFC®, MSFS is a 80% owner, and Nathan Lucius, MBA is a 20% owner.

GI provides investment management services to individuals, pension and profit sharing plans, trusts, estates, corporations, charitable organizations, and small businesses. The clients to whom GI provides discretionary management services are often introduced to GI through other registered investment advisor firms operating as independent solicitors for GI.

GI is strictly a fee-only investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other products for a commission.

GI does not act as a custodian of client assets. The client always maintains ownership of their assets. GI places trades for clients under a limited power of attorney and withdraws management fees per the Investment Proposal and Contract signed by the client.

Clients work with their independent investment advisor / introducing advisor to determine the appropriate GI portfolio based on investment objectives, risk tolerance, and time horizon; however, GI is available throughout the consultation process. GI is only responsible for money allocated to and managed by GI. It is the client's obligation to notify their advisor immediately if circumstances have changed with respect to the goals of the money being managed by GI.

Types of Advisory Services

GI provides investment supervisory services, also known as asset management services, and upon request, GI furnishes investment advice about securities through consultations directly with clients.

Advisory Service Agreement

GI offers ongoing portfolio management services based on the individual goals, objectives, time horizon and risk tolerance of each client. This information is obtained through GI's Risk Tolerance Analysis from which an Investment Proposal and Investment Contract is prepared and presented to the client. GI practices management of portfolios on a discretionary basis unless directed otherwise by the client. Investment services include but are not limited to:

- Investment Strategy
- Asset Allocation
- Asset Selection
- Regular and/or continuous portfolio monitoring

Managed Portfolios

All client portfolios are managed on a discretionary basis unless otherwise noted. GI offers a variety of managed portfolios primarily utilizing no-load mutual funds, exchange traded funds (ETF), individual equities, and money market funds. GI may also manage subaccounts within a variable annuity. Based on client circumstances, GI may create, recommend, and manage custom portfolios that fall outside the scope of the GI-managed model portfolios. GI offers the following types of managed portfolios:

Strategic & Tactical Portfolios: Strategic & Tactical portfolios tend to be more actively managed with specific asset class, sector, and/or geographic targets, investment objectives and goals.

Allocation Portfolios: Allocation portfolios tend to provide broad client allocations among and within portfolio strategies. These type of portfolios tend to be more passively allocated. (The Buffered Index Portfolio utilizes structured notes to create upside participation with a pre-determined level of downside protection against volatile markets. Clients will be provided specifics for each offering prior to investing.)

Preservation Portfolios: Preservation portfolios focus on price stability and capital preservation over income and growth. Preservation portfolios will utilize liquid assets such as exchange traded funds or money market mutual funds that have the primary focus of maintaining value while providing income.

Managed Portfolios Acknowledgement

All portfolios managed by GI involve risk including the potential loss of principal. It is important that you work closely with your investment advisor in selecting the proper allocation and investment strategy for the portion you are allocating to GI. GI will actively manage your account to help ensure your investments are in line with your risk tolerance, time horizon and overall financial objectives. GI is not responsible for investments or other products recommended or purchased outside of the GI managed portfolios. Past performance is not an indication of future results.

Sub-manager Arrangement

GI may from time to time enter into sub-manager agreements with other registered investment advisor firms by which GI will pay a fee to that firm for investment consultation. Sub-manager acts as a direct consultant to GI on portfolio strategies and does not have the ability to trade assets or access any private client information. This arrangement in no way alters the custodial relationship that is setup between GI and the custodian.

GI enters into these agreements with advisory firms that bring a unique skill set and level of expertise to the GI investment strategies.

Client Directed Accounts

GI will assist in the opening, closing and transferring of accounts. GI will not have discretion at any time on these accounts. Client is solely responsible for the assets held within the accounts and their values which could increase or decrease (potential loss of principal). GI will liquidate and purchase securities per the client's request as a service to the client. GI will also provide performance reporting on these accounts and can furnish 3rd party analysis reports per the client's request.

ERISA Plan Services

GI provides services to qualified retirement plans including 401(k) plans, 403(b) plans, pension and profit-sharing plans, cash balance plans, and deferred compensation plans as a 3(38) advisor.

3(38) Investment Manager. GI can also act as an ERISA 3(38) Investment Manager in which it has discretionary management and control of a given retirement plan's assets. GI would then become solely responsible and liable for the selection, monitoring and replacement of the plan's investment options.

Fiduciary Services under ERISA Section 3(38):**1. Fiduciary Services are:**

- GI has discretionary authority and will make the final decision regarding the initial selection, retention, removal and addition of investment options in accordance with the Plan's investment policies and objectives.
- Assist the Client with the selection of a broad range of investment options consistent with ERISA Section 404(c) and the regulations thereunder.
- Assist the Client in the development of an investment policy statement ("IPS"). The IPS establishes the investment policies and objectives for the Plan.
- Provide discretionary investment advice to the Plan Sponsor with respect to the selection of a qualified default investment alternative for participants who are automatically enrolled in the Plan or who have otherwise failed to make investment elections. The Client retains the sole responsibility to provide all notices to the Plan participants required under ERISA Section 404(c) (5).

2. Non-fiduciary Services are:

- Assist in the education of Plan participants about general investment information and the investment alternatives available to them under the Plan. Client understands the GI's assistance in education of the Plan participants shall be consistent with and within the scope of the Department of Labor's definition of investment education (Department of Labor Interpretive Bulletin 96-1). As such, the GI is not providing fiduciary advice as defined by ERISA to the Plan participants. GI will not provide investment advice concerning the prudence of any investment option or combination of investment options for a particular participant or beneficiary under the Plan.
- Assist in the group enrollment meetings designed to increase retirement plan participation among the employees and investment and financial understanding by the employees.

GI may provide these services or, alternatively, may arrange for the Plan's other providers to offer these services, as agreed upon between GI and Client.

3. GI has no responsibility to provide services related to the following types of assets ("Excluded Assets"):

- Employer securities;
- Real estate (except for real estate funds or publicly traded REITs);
- Stock brokerage accounts or mutual fund windows;
- Participant loans;
- Non-publicly traded partnership interests;
- Other non-publicly traded securities or property (other than collective trusts and similar vehicles); or
- Other hard-to-value or illiquid securities or property.

Excluded Assets will **not** be included in calculation of Fees paid to the Adviser on the ERISA Agreement. Specific services will be outlined in detail to each plan in the 408(b)2 disclosure.

Client Tailored Services and Client Imposed Restrictions

The investment objective and risk tolerance for each client is documented in our client relationship management system through our Risk Tolerance Analysis and Investment Proposal and Contract. Clients may impose restrictions on investing in certain securities or types of securities in writing on the Investment Proposal and Contract. These restrictions may, however, prohibit investment in certain GI strategies.

Agreements may not be assigned without client consent.

Wrap Fee Programs

GI does not participate in wrap fee programs.

Client Assets under Management

As of December 1, 2021, GI had \$4,361,285,283; \$ 4,055,222,021 managed on a discretionary basis and \$306,063,262 managed on a non-discretionary basis.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

Managed Portfolios – Accounts

Fees for the various managed portfolios are as follows:

Fee Schedule per Account for: Strategic & Tactical Portfolios	
Assets Valuation	Annual Advisory Fee
Up to \$1,000,000	2.00%
\$1,000,001 - \$2,000,000	1.65%
\$2,000,001 - \$3,000,000	1.20%
Over \$3,000,000	.95%

Fee Schedule per Account for: Allocation Portfolios	
Assets Valuation	Annual Advisory Fee
Up to \$1,000,000	1.70%
\$1,000,001 - \$2,000,000	1.35%
\$2,000,001 - \$3,000,000	1.00%
Over \$3,000,000	.80%

Fee Schedule per Account for: Preservation Portfolios	
Assets Valuation	Annual Advisory Fee
All Assets	1.00%

Fee Schedule per Account for: Client Directed Accounts	
Assets Valuation	Annual Advisory Fee*
All Assets	0.60%

*The minimum quarterly fee billed will be \$25

Advisory fees do not include brokerage (transaction) fees that may be assessed by the custodial broker-dealer (custodian). Custodial fees are offered on a per transaction or a percentage of asset basis when available from the custodian. Advisory fees and custodial fees are separate and distinct. Client is responsible for miscellaneous account fees that may be charged by the custodian which include but are not limited to: overnight fees, ACH fees, account closure fees, reorganization fees, check writing fees, etc. GI charges an account service and technology/administrative fee of \$60 annually. All fees paid to GI for investment advisory services are separate and distinct from the internal expenses charged by ETFs, mutual funds, closed-end funds, and variable annuities.

The above fees are negotiable based on the overall relationship and the final fee schedule will be attached in the investment advisory contract. Fees are assessed quarterly or monthly (at GIs discretion) in arrears based on the amount of the assets managed as of the end of the previous quarter or month. All management fees are withdrawn from the client's account unless otherwise noted. GI will receive written authorization from the client to deduct advisory fees from an account held by a qualified custodian. GI will send the qualified custodian written notice of the amount of the fee to be deducted from the client's account. All management fees will be noted on the custodian's monthly/quarterly account statements sent directly to the client. Clients may find comparable services for higher or lower fees from other sources. Clients may terminate their account within five days of signing the investment advisory contract with no penalty and a full refund. For terminations that end on other than the last day of the quarter/month, GI will be entitled to a pro-rata fee for the days service was provided in the final quarter/month and will bill the client accordingly.

AUM INCENTIVE AND NON-CASH COMPENSATION

GI has instituted a long-term incentive arrangement whereby the independent RIA (solicitor firm) can share in Gradient Investments' portion of the management fee. This does not change the cost to the client; it is an arrangement paid from our portion of the advisory fee for those firms who maintain greater than \$10 million with GI and who are actively growing their AUM. This amount is calculated quarterly/monthly and paid annually. To receive the incentive, the RIA firm needs to meet two qualifications. First, the quarter/month end billable AUM must be above \$10 million. Second, you must be an RIA "in good standing with Gradient Investments". "In good standing" means the advisor is proactively placing assets with Gradient Investments.

Participants in the GI AUM Incentive Program have no vested interest in the program or in GI. The Gradient AUM Incentive Program is neither a deferred compensation plan nor a deferred compensation program. Incentive payments are calculated by GI at its sole discretion. "In good standing" is determined solely by Gradient Investments. Participating advisors have no right to review or audit any of the financial records of GI. GI reserves the right to change, modify, or discontinue the Incentive Program at any time for any reason.

In addition, RIA Firms and their advisors may be eligible for non-cash compensation including industry standard business conferences and trips. Some of these programs may be financed in whole or in part by GI which may influence some advisors to favor GI. This does not change the cost to the client and at all times the RIA firm must maintain their fiduciary duty.

ERISA 3(38) PLAN SERVICES

The annual fees are based on the market value of the Included Assets and will not exceed 1%. The annual fee is negotiable and may be charged as a percentage of the Included Assets or as a flat fee. Fees may be charged quarterly or monthly in arrears or in advance based on the assets as calculated by the custodian or record keeper of the Included Assets (without adjustments for anticipated withdrawals by Plan participants or other anticipated or scheduled transfers or distribution of assets). If the services to be provided start any time other than the first day of a quarter or month, the fee will be prorated based on the number of days remaining in the quarter or month. If this Agreement is terminated prior to the end of the billing cycle, GI shall be entitled to a prorated fee based on the number of days during the fee period services were provided or Client will be due a prorated refund of fees for days services were not provided in the billing cycle.

The fee schedule, which includes compensation of GI for the services is described in detail in Schedule A of the ERISA Plan Agreement. The Plan is obligated to pay the fees, however the Plan Sponsor may elect to pay the fees. Client may elect to be billed directly or have fees deducted from Plan Assets. GI does not reasonably expect to receive any additional compensation, directly or indirectly, for its services under this Agreement. If additional compensation is received, GI will disclose this compensation, the services rendered, and the payer of compensation. GI will offset the compensation against the fees agreed upon under the Agreement.

Client Payment of Fees

Fees for asset management are billed quarterly or monthly in arrears, meaning we bill you after the three-month billing period has ended. Accounts that open or close intra-quarter/month are billed on a pro rata basis. If GI is unable to bill the account direct at the custodian a fee invoice will be drafted and sent to the address of record and client agrees to pay the invoice for management services rendered.

Additional Client Fees Charged

Custodians may charge transaction fees or asset based fees (if appropriate) on purchases or sales of certain mutual funds, equities and ETFs. These charges may include transaction fees, postage and handling and miscellaneous fees (fee levied to recover costs associated with fees assessed by self-regulatory organizations). These transaction charges are usually small and incidental to the purchase or sale of a security.

GI, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

For more details on the brokerage practices, see Item 12 of this brochure and the custodial account information.

Prepayment of Client Fees

GI does not receive fees in advance of \$1200 and 6 months in advance.

External Compensation for the Sale of Securities to Clients

GI does not receive any external compensation for the sale of securities to clients.

Item 6: Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities. GI does not use a performance-based fee structure.

Item 7: Types of Clients

Description

GI generally provides investment advice to individuals, high net worth individuals, pension and profit-sharing plans, corporations, and business entities. Client relationships vary in scope and length of service.

Account Minimums

GI has a minimum account value, per client or household, of \$25,000 for the Preservation portfolios and \$50,000 for the Allocation portfolios. The Strategic and Tactical portfolios have an account minimum of \$100,000. GI at its sole discretion may accept accounts of a lesser value.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis and cyclical analysis.

Fundamental analysis involves evaluating a stock using real data such as company revenues, earnings, return on equity, and profits margins to determine underlying value and potential growth. Technical analysis involves evaluating securities based on past prices and volume. Cyclical analysis involves analyzing the cycles of the market. The main sources of information include financial publications, corporate activities, research materials prepared by others, corporate rating services, annual reports, prospectuses, financial publications, research prepared by others, filings with the Securities and Exchange Commission, and company press releases.

GI utilizes investment research software in its investment analysis process and selection of securities.

GI may also use outside investment consultants or sub-managers for specific areas of expertise.

Investment Strategy

GI actively monitors and manages accounts through our proprietary Wright Investment Strategy focusing on the core principles of risk exposure, investment strategy, and investment performance. Our strategies focus on your unique investment objectives: (e.g. - preservation of principal, income maximization, capital accumulation). Our portfolios are designed to meet your long-term objectives as described in item 4.

Security-Specific Material Risks

All investment programs have certain risks that are borne by the investor. Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk. Risks involved in technical analysis are inflation risk, reinvestment risk, and market risk. Cyclical analysis involves inflation risk, market risk, and currency risk.

Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with GI:

- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Market Risk:* The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e., interest rate). This primarily relates to fixed income securities.
- *Business Risk:* These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, treasury bills are highly liquid while real estate properties are not.
- *Financial Risk:* Excessive borrowing to finance a business's operations increases the risk of profitability because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
- *Options Trading:* The risks involved with trading options are that they are very time sensitive investments. An options contract is generally a few months. The buyer of an option could lose his or her entire investment even with a correct prediction about the direction and magnitude of a particular price change if the price change does not occur in the relevant time period (i.e., before the option expires). Additionally, options are less tangible than some other investments. An option is a "book-entry" only investment without a paper certificate of ownership.
- *Structured Notes Risk:* The risks involved with using structured notes are credit risk of the issuing investment bank, illiquidity, and there is a risk to the pricing accuracy as most structured notes do not trade after issuance.

Item 9: Disciplinary Information

Criminal or Civil Actions

The firm and its management do not have any criminal or civil actions to report.

Administrative Enforcement Proceedings

The firm and its management have not been involved in any reportable administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

The firm and its management have not been involved in legal or disciplinary events related to past or present investment clients.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

GI does not have investment advisor representatives that are affiliated with a broker-dealer.

Futures or Commodity Registration

Neither GI nor its employees are registered or have an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

Charles E. Lucius is also founder and CEO of Gradient Advisors, LLC, an SEC registered investment advisor. Gradient Advisors, LLC and GI are affiliated entities. Associated persons of Gradient Advisors may refer clients to GI for investment management services. This creates a conflict of interest as GI would receive compensation through assets under management. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation. Clients of Gradient Advisors are not required to use GI as a money manager, and may choose from several other third party money managers Gradient Advisors solicits for.

Charles E. Lucius is also a consultant for Gradient Insurance Brokerage Inc. (GIB). GIB is an Insurance Marketing Organization (IMO) which provides a distribution channel on behalf of insurance companies for independent licensed insurance agents. The independent registered investment advisors/solicitors for GI may also have an outside affiliation through a separate agency (or individually as an agent) for the placement of non-securities products and receive a commission rate which could be higher than traditional investments. In the event an independent agent elects to partner with the IMO Gradient Insurance Brokerage Inc. (GIB), GIB will be compensated directly from the insurance company. The commission structure built into insurance products is predetermined by the insurance companies. The product purchased by the client is issued by the insurance company and the cost to the client is in no way altered by the IMO or the insurance agent involved. Furthermore, the client has no obligation to do business with the advisor/agent. Charles E. Lucius receives consulting compensation from GIB and therefore, a conflict of interest occurs. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation. Independent insurance agents may work with any insurance company and any IMO of their choosing, one of which may be GIB.

Tami J. Lucius, wife of Charles E. Lucius, is majority owner of Gradient Securities, LLC (GS). GS is a dually registered broker dealer and investment adviser. Among other things, GS advisors may refer clients to GI for asset management services. Because Tami J. Lucius may receive an economic benefit as majority owner of GS, Charles E. Lucius, indirectly receives an economic benefit, and therefore, a conflict of interest occurs. This conflict is mitigated by disclosures and the fiduciary obligation of GS and its' advisors. Investment Advisor Representatives of GS may select from several approved money managers, one of which is GI.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

The firm and its management do not recommend or select other investment advisors for clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The employees of GI have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of GI employees and addresses conflicts that may arise. The Code defines acceptable behavior for employees of GI. The Code reflects GI and its supervised persons' responsibility to act in the best interest of their client.

One area which the Code addresses is when employees buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our clients. We do not allow any employees to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our clients.

GI's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other employee, officer or director of GI may recommend any transaction in a security

or its derivative to advisory clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

GI's Code is based on the guiding principle that the interests of the client are our top priority. GI's officers, directors, advisors, and other employees have a fiduciary duty to our clients and must diligently perform that duty to maintain the complete trust and confidence of our clients. When a conflict arises, it is our obligation to put the client's interests over the interests of either employees or the company.

The Code applies to "access" persons. "Access" persons are employees who have access to non-public information regarding any clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to clients, or who have access to such recommendations that are non-public.

The firm will provide a copy of the Code of Ethics to any client or prospective client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

GI and its employees do not recommend to clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

GI and its employees may buy or sell securities that are also held by clients. In order to avoid potential conflicts of interest such as front running of client trades, employees are required to disclose all reportable securities transactions as well as provide GI with copies of their brokerage statements.

The Chief Compliance Officer of GI is Nicole Alexander. She reviews all employee trades each quarter. Personal trading reviews help ensure that the personal trading of employees does not affect the markets and that clients of the firm receive preferential treatment. Since most employee trades are in products such as mutual funds, government securities, bonds or are small in size, they do not impact the securities markets.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

Gradient Investments does maintain a master/corporate account at each custodian. From time to time GI will place trades and hold securities in the account in an attempt to earn better than money market rates.

In order to mitigate conflicts of interest such as front running, a copy of the custodian statement will be provided to the Chief Compliance Officer for review.

The Chief Compliance Officer of GI is Nicole Alexander. She will review all firm trades each quarter to ensure the trading of GI does not affect the markets and that clients of the firm receive preferential treatment over the firm transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

Specific custodian recommendations are made to clients based on their need for such services. GI recommends custodians based on the proven integrity and financial responsibility of the firm and the best execution of orders at reasonable commission rates.

GI participates in the TD Ameritrade Institutional program and utilizes TD Ameritrade Institutional as a custodian for client accounts. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers GI services which include custody of securities, trade execution, clearance and settlement of transactions. GI receives some benefits from TD Ameritrade through its participation in the program. (Please see Item 14)

GI may recommend discount brokerage firms and trust companies (qualified custodians), such as Pershing, E-Trade, Scottrade and TD Ameritrade Institutional, a division of TD Ameritrade, Inc., member FINRA/SIPC. GI does not receive fees or commissions from any of these arrangements.

- *Directed Brokerage*

In circumstances where a client directs GI to use a certain broker-dealer, GI still has a fiduciary duty to its clients. The following may apply with directed brokerage: GI's inability to negotiate commissions, to obtain volume discounts, disparity in commission charges among clients, and potential conflicts of interests arising from brokerage firm referrals.

- **Best Execution**

Investment advisors who manage or supervise client portfolios on a discretionary basis have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker, and potential benefit to the end consumer through access to institutional research. The securities traded for you may be traded in one or more marketplaces or may employ an institutional equity trading partner to execute transactions. Consistent with the overriding principle of best execution and subject to applicable regulatory requirements, we may use our discretion in selecting these marketplaces or institutional equity trading partners to enter or execute Client orders. Most trades will be done directly with the custodian through market and limit orders. Institutional equity and ETF trades (not done with the custodian) are done in rare instances when the investment team deems appropriate.

- GI will route Client orders for over-the-counter equities and listed equity securities to execution venues as appropriate, with best execution being the highest priority. GI considers a number of factors when determining where to send Clients' orders, including execution speed and price, price improvement opportunities, the availability of efficient and reliable order-handling systems, the level of service provided, and the cost of executing orders. GI strives to execute all held orders at prices equal to or better than the displayed national bid/offer price, up to the displayed size, at the time of execution. Not-held orders are worked for best price by the trading desk. GI may utilize non-affiliated third-party institutions when transacting large blocks of ETFs or equities.
- As a result of the "over-the-counter" nature (the lack of a market exchange) of securities, the available trading methods differ from that of equity securities. Consistent with the overriding principle of best execution and subject to applicable regulatory requirements, we may use our discretion in selecting the appropriate institutional equity trading system and/or broker-dealers with which to execute Client orders. GI considers a number of factors when determining where to execute Client orders, including the product type (which may influence the liquidity in the market) and the size of the order. All non-custodian transactions are documented and a policy is in place for Institutional Equity Trading.
- For securities we regularly review transactions for quality of execution, and take action, as appropriate, for Client price improvement and to fulfill our best execution obligations. At all times, our foremost concern is to obtain the best execution for our Clients, regardless of any compensation factor.

If any such prices are unavailable or believed to be unreliable, GI will determine prices in good faith so as to reflect our understanding of fair market value.

- **Soft Dollar Arrangements**

GI has no soft dollar arrangements.

Aggregating Securities Transactions for Client Accounts

GI is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other clients of GI. All clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account and portfolio reviews are continuously performed by GI's Investment Committee which meets on a regular basis. Account reviews are performed more frequently when market conditions dictate or when a certain strategy rebalance or trade may be appropriate.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of client's accounts are changes in the tax laws, new investment information and changes in a client's own situation. It is important that you communicate with your introducing advisor with respect to any changes to your financial goals and objectives.

Content of Client Provided Reports and Frequency

GI, through its network of independent investment advisors, furnishes quarterly performance reports through an online system, Client Navigator. This system allows clients and advisors to login and run performance reports, holdings reports, and various reports at their convenience. The custodian will also provide monthly or quarterly holdings reports directly to the client via mail or electronic version as indicated by the client.

Item 14: Client Referrals and Other Compensation

Economic benefits provided to the Advisory Firm from External Sources and Conflicts of Interest

GI does not accept referral fees or any form of remuneration from other professionals when a prospect or client is referred to them.

As disclosed under Item 12 above, GI participates in TD Ameritrade's institutional program and GI may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between GI's participation in the program and the investment advice it gives to its Clients, although GI receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to some mutual funds and traded securities with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to GI by third party vendors. GI does not utilize all of the services offered by the program. TD Ameritrade may also have paid for or sponsored business consulting, training events, and professional services received by GI or related persons. Some of the products and services made available by TD Ameritrade through the program may benefit GI but may not directly benefit its Client accounts. These products or services may assist GI in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help GI manage and further develop its business enterprise. The benefits received by GI or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, GI endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by GI or its related persons in and of itself may create a potential conflict of interest and may indirectly influence the GI's choice of TD Ameritrade for custody and brokerage services. It is important to note that the total assets held at TD Ameritrade by clients of GI provide scale and cost savings to clients and are very competitive vs. industry peers. These may include; reduced or commission free trades, reimbursement of account closure fees by TD Ameritrade charged by another custodian, special offers for new clients of TD Ameritrade, asset based pricing for higher volume trading.

It is important to note that the total assets held at TD Ameritrade by clients of GI provide scale and cost savings to clients and are very competitive vs. industry peers. These may include; reduced or commission free trades, reimbursement of account closure fees by TD Ameritrade charged by another custodian, special offers for new clients of TD Ameritrade, asset based pricing for higher volume trading.

We receive an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisors whose clients maintain their accounts at Schwab. In addition, Schwab has also agreed to pay for certain products and services for which we would otherwise have to pay once the value of our clients' assets in accounts at Schwab reaches a certain size. [In some cases, a recipient of such payments is an affiliate of ours or another party which has some pecuniary, financial or other interests in us (or in which we have such an interest).] You do not pay more for assets maintained at Schwab as a result of these arrangements. However, we benefit from the arrangement because the cost of these services would otherwise be borne directly by us. You should consider these conflicts of interest when selecting a custodian. The products and services provided by Schwab, how they benefit us, and the related conflicts of interest are described above (see Item 12—Brokerage Practices).

Advisory Firm Payments for Client Referrals

GI may enter into agreements with individuals and organizations, which may be affiliated or unaffiliated with GI, that refer clients to GI in exchange for compensation. All such agreements will be in writing and comply with the requirements of Federal or State regulation. If a client is introduced to GI by a solicitor, GI may pay that solicitor a fee. While the specific terms of each agreement may differ, generally, the compensation will be based upon GI's engagement of new clients and is calculated using a varying percentage of the fees paid to GI by such clients. Any such fee shall be paid solely from GI's investment management fee, and shall not result in any additional charge to the client.

Each prospective client who is referred to GI under such an arrangement will receive a copy of this brochure and a separate written disclosure document disclosing the nature of the relationship between the solicitor and GI and the amount of compensation that will be paid by GI to the solicitor. The solicitor is required to obtain the client's signature acknowledging receipt of GI's disclosure brochure and the solicitor's written disclosure statement.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, meaning the custodians provide account statements directly to clients at their address of record or via email notification at least quarterly. Clients are urged to review their account statements received directly from the custodian and compare them to the performance reports prepared by GI.

GI is deemed to have constructive custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of GI.

Item 16: Investment Discretion

Discretionary Authority for Trading

GI accepts discretionary authority to manage securities accounts on behalf of clients. GI has the authority to determine, without obtaining specific client consent, the securities to be bought or sold and the amount of the securities to be bought or sold. The client approves the custodian to be used.

Discretionary trading authority facilitates placing trades in your accounts on your behalf so that we may promptly implement the investment strategy that you have approved in writing. Clients sign/initial a limited power of attorney and investment proposal/contract so that we may execute the trades that you have approved and withdraw the contractually agreed upon advisory fees.

Item 17: Voting Client Securities

Proxy Votes

GI does not vote proxies on securities. Clients are expected to vote their own proxies and can choose to do so on the custodial application. The client will receive their proxies directly from the custodian of their account or from a transfer agent.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because GI does not serve as a custodian for client funds or securities, and GI does not require prepayment of fees of more than \$1,200 per client and six (6) months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

GI has no condition that is reasonably likely to impair our ability to meet contractual commitments to our clients.

Bankruptcy Petitions during the Past Ten Years

Neither GI nor its management has had any bankruptcy petitions in the last 10 years.

Brochure Supplement (Part 2B of Form ADV)

Education and Business Standards

GI requires each investment advisor who renders investment and financial planning to clients to be an investment advisor representative meeting the registration requirements in their applicable state.

Professional Certifications

Employees have earned certifications and credentials that are required to be explained in further detail.

Chartered Financial Consultant (ChFC): Chartered Financial Consultants are licensed by the American College to use the ChFC mark. ChFC certification requirements:

- Complete ChFC coursework within five years from the date of initial enrollment
- Pass the exams for all required elective courses. You must achieve a minimum score of 70% to pass.
- Meet the experience requirements: Three years of business experience immediately preceding the date of use of the designation are required. An undergraduate or graduate degree from an accredited educational institution qualifies as one year of business experience.
- Take the Professional Ethics Pledge.
- When you achieve your ChFC designation, you must earn your recertification every two years.

Chartered Life Underwriter (CLU): Chartered Life Underwriters are licensed by the American College to use the CLU mark. CLU certification requirements:

- Complete successfully CLU coursework 5 required and 3 elective
- Meet the experience requirements: Three years of business experience immediately preceding the date of use of the designation are required. An undergraduate or graduate degree from an accredited educational institution qualifies as one year of business experience.
- Take the Professional Ethics Pledge.
- When you achieve your CLU designation, you must earn 30 hours of continuing education credit every two years.

Chartered Financial Analyst (CFA): Chartered Financial Analysts are licensed by the CFA Institute to use the CFA mark. CFA certification requirements:

- Hold a bachelor's degree from an accredited institution or have equivalent education or work experience.
- Successful completion of all three exam levels of the CFA Program.
- Have 48 months of acceptable professional work experience in the investment decision-making process.
- Fulfill society requirements, which vary by society. Unless you are upgrading from affiliate membership, all societies require two sponsor statements as part of each application; these are submitted online by your sponsors.
- Agree to adhere to and sign the Member's Agreement, a Professional Conduct Statement, and any additional documentation requested by CFA Institute.

Charles E. Lucius, CLU®, CHFC®, MSFS - Founder and CEO (CRD #1012912)

With a deep passion for knowledge, Charles E. "Chuck" Lucius, has earned many degrees and designations, but it was serving as a pilot in the United States Air Force that he found a deeper passion for freedom and the boundless opportunity it affords. Over the course of his career, Chuck has attained the following licenses and/or designations: Series 7, 24, 63, 65, CFP.

In 1975, Chuck began his career in the insurance industry with Prudential Life Insurance Company. He successfully served in the field and in numerous leadership roles to include Estate Planning Specialist, Director of Advanced Marketing, and Director of Fee-Based Financial Planning. Chuck also served as Managing Director overseeing the leading Prudential Agency in Minnesota earning Prudential's highest honors as the recipient of The President's Citation.

In 2001, Chuck began his tenure as President and Principal of Personalized Brokerage Services, LLC / USAllianz Securities. Under his leadership, the organization grew to become an industry leader from a group of 15 professionals to a team of over 150 professionals and 200 + Registered Representatives. Annual premium soared under his leadership, and a wealth management business model was created which included fixed annuities, securities, long-term care and life insurance divisions as well as a top-tier practice management program. He earned a reputation for operational excellence.

Currently, Chuck is founder and CEO of Gradient Financial Group and founded Gradient Investments in 2006. His organizations provide a cutting-edge platform which emphasizes his passion for maintaining independence for agents within the financial services industry. Chuck also serves on numerous Insurance Company Leadership Councils.

Chuck resides in Minnesota with his wife Tami and enjoys spending time with his children, Megan, Brian, Nate, Chaz and Cruz. He enjoys spending family time at his lake home as well as personal aviation and furthering his industry knowledge.

Year of birth: 1948

Educational Background:

- The American College; Masters of Science in Financial Services; 1988
- North Dakota State University; BS Psychology; 1970
- U.S. Air Force Pilot; 1970-1975

Business Experience:

- Gradient Assurance Series, LLC; Owner; 2014-Present
- Integrated Risk Strategies, LLC; Owner; 2014-Present
- Case Central, LLC; Owner; 2014-Present
- Luson Capital, LLC; Owner; 2013-Present
- Nextek, LLC; Owner; 2013-Present
- Gradient Insurance Management, LLC; Owner; 2013-Present
- KonnexME, LLC; Owner 2012-Present
- Gradient Advisors, LLC; Owner/CEO; 2009-Present
- Gradient Financial Group, LLC; Owner; 2008-Present
- Gradient Investments, LLC; Owner/CEO; 2006-Present
- RIA Registrar, LLC; Owner; 2006-Present
- A Street, LLC; Owner; 2005-Present
- Gradient Insurance Brokerage, Inc.; Consultant; 2005-Present
- Gradient Financial Direct, LLC; Owner; 2017-2019
- Gradient Wealth Management, LLC; Owner/CEO; 2013-2014
- BZ Inc.; Owner; 2009-2013
- J Street, LLC; Owner; 2005-2013

Disciplinary Information: None to report

Other Business Activities: Chuck Lucius is a consultant to Gradient Insurance Brokerage Inc., an insurance wholesaling company and owner of Gradient Advisors LLC, a registered investment advisor.

Additional Compensation:

The independent registered investment advisors/solicitors for GI may also have an outside affiliation through a separate agency (or individually as an agent) for the placement of non-securities products and receive a commission rate which could be higher than traditional investments. In the event an independent agent elects to partner with the IMO Gradient Insurance Brokerage Inc. (GIB), GIB will be compensated directly from the insurance company. The commission structure built into insurance products is predetermined by the insurance companies and is not altered by the IMO. The product purchased by the client is issued by the insurance company and is no way altered by the IMO or the insurance agent. Furthermore, the client has no obligation to do business with the advisor/agent. Charles Lucius receives consulting compensation from GIB and therefore, a conflict of interest occurs. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation. Independent insurance agents may work with any insurance company and any IMO of their choosing, one of which may be GIB.

Associated persons of Gradient Advisors may refer clients to GI for investment management services. This creates a conflict of interest as GI would receive compensation through assets under management. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation. Clients of Gradient Advisors are not required to use GI as a money manager and may choose from several other third party money manager's Gradient Advisors solicits for.

Nathan Lucius, MBA – Member (CRD #5121686)

Nathan Lucius serves as the president of Gradient Financial Group, LLC. As president, he is responsible for the oversight and strategic direction of the Gradient family of companies. Prior to his current role, Nathan held various leadership roles within Gradient Investments, which included investment consultant, chief compliance officer, and managing director.

Nathan boasts a broad knowledge of the financial services industry and has been featured in several national media outlets including Investment News, MarketWatch.com, Investor's Business Daily and The Wall Street Journal. His knowledge spans across the insurance and securities spectrum.

Nathan has always dedicated himself to providing affiliated advisors and their clients with a comprehensive money management platform that is actively managed, results oriented, progressive and sustainable long term.

He earned his Bachelor of Science from the University of Colorado and a Master of Business Administration from the University of St. Thomas in Minneapolis, Minnesota.

Year of birth: 1983

Michael Binger, CFA® - President (CRD #6266863)

Michael Binger, CFA®, serves as the President for Gradient Investments, LLC. Binger brings over 33 years of investment management experience to Gradient Investments and its affiliated advisors and clients. He has extensive experience working directly with financial advisors designing and actively managing portfolios. Binger has successfully invested in numerous market and economic cycles giving him a level and depth of experience that is rare in this industry.

Binger started his investment career in Minneapolis, Minnesota with Lutheran Brotherhood in 1987 and gained experience managing assets in a variety of asset classes including convertible bonds, small cap equities, and large cap equities. When Lutheran Brotherhood and Aid Association for Lutherans merged in 2001 to become Thrivent Financial, Binger was selected to work as one of the senior portfolio managers on the Large Cap Growth team and Large Cap Alpha Team managing over \$3 billion in assets. As a senior portfolio manager, he developed and oversaw the tactical investment strategies utilized within mutual funds, variable annuities, pension funds and insurance company products. These investment processes included proprietary portfolio construction strategies, security selection metrics and volatility controlled parameters.

Binger graduated from the University of Minnesota earning a Bachelor of Science in Business Administration-Finance. He graduated with honors and was the University of Minnesota's "Wall Street Journal Award Winner." Binger is a CFA® and a member of The Chartered Financial Analyst Institute and the Twin Cities Society of Security Analysts.

Binger's media highlights include numerous appearances, providing market insight on CNBC, Bloomberg TV and Fox Business. He has also been quoted in The Wall Street Journal, Barron's, Smart Money, Reuters, Business Week and numerous other local, national, and global investment publications.
