FORM ADV PART 2 BROCHURE

This brochure provides information about the qualifications and business practices of Breidenbach Capital Consulting, LLC. If you have any questions about the contents of this brochure, please contact us at telephone number 502.561.3411. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Breidenbach Capital Consulting, LLC is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Breidenbach Capital Consulting, LLC is 125405.

Breidenbach Capital Consulting, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Material Changes

As a registered investment adviser, we will ensure that our brochure is current and accurate. If there have been any material changes to our disclosure brochure since our last annual update, we will provide a description of such material changes here.

Since our last annual updating amendment dated March 10, 2020, we have the following material change to report:

- Breidenbach Capital Consulting, LLC has transitioned to a SEC registered firm. Item 18 and Item 19 of the Part 2A have been updated accordingly.

Description of Services and Fees

We are a registered investment adviser based in Louisville, Kentucky. We are organized as a limited liability company under the laws of the State of Indiana. We are a fee-only independent adviser and have been providing investment advisory services since 2003. Brian Breidenbach is the sole owner. Currently, we offer the following services to clients and prospective clients:

- **Institutional Services**, which may include:
 - Pension and Retirement Plan Consulting
 - Foundation & Endowment Consulting
 - Specialized Project Consulting
 - Expert Witness Services
 - Performance Reporting Services
- **Wealth Management Services**, which may include:
 - Financial Planning and Consulting
 - Asset Allocation Services
 - Portfolio Management
 - Selection of Other Advisers

The combination of industry experience and comprehensive research allows our firm to provide quality advisory services to our clients.

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. Also, you may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Institutional Services

Pension and Retirement Plan Consulting

We offer pension and retirement plan consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

We may also assist with participant enrollment meetings and provide investment-related educational seminars to plan participants on such topics as:

- Diversification
- Asset allocation
- Risk tolerance
- Time horizon

Our educational seminars may include other investment-related topics specific to the particular plan.

We may also provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level

services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents. Our specific advisory fees for these customized services will be negotiated with the plan sponsor or named fiduciary on a case-by-case basis.

Retainer clients are billed quarterly in advance. For non-retainer clients, such as project based consulting services, the fee can vary depending upon the scope and type of project. Non-retainer clients will have an engagement letter outlining the fee structure. Fees in general can be based on a flat fee, percentage of assets under management, or hourly.

Either party to the pension consulting agreement may terminate the agreement upon written notice to the other party. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to the client.

If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Plan participants who wish to engage us for individualized financial planning or consulting services outside the scope of the employee benefit plan may do so by executing a separate agreement, including separate fees and fee payment arrangements, with our firm.

Generally, for project consulting services we require an initial payment of at least 50% of the estimated fee in advance, with the balance due upon completion of the contracted services. In limited circumstances, other fee payment arrangements may be negotiated; for example, interim/installment payments may be agreed upon for lengthy engagements.

An estimate of the total time/cost will be determined at the start of the advisory relationship and disclosed to you at that time. A applicable fees, fee payment arrangements, and the terms of the engagement will be clearly set forth in the advisory agreement executed between you and our firm prior to services being rendered. In no circumstance will we require or accept prepayment of a fee six months or more in advance and in excess of \$500. Services will commence promptly after executing an agreement for services.

Wealth Management Services

Financial Planning and Consulting Services

We offer financial planning services to our clients and prospective clients. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide to our firm we will offer to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

We charge a fixed or hourly fee for financial planning services, which is negotiable depending on the scope and complexity of the plan, your situation, and your financial objectives. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee.

We require that you pay at least 50% of the quoted fee in advance and the remaining portion upon the completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$500.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Asset Allocation Services

We offer asset allocation services on a discretionary and non-discretionary basis to you and prospective clients. If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our investment advice is tailored to meet your needs and investment objectives. Once you have retained our firm for asset allocation services, we will gather information about your financial situation and objectives, and assist you in determining your investment goals, objectives, risk tolerance, and retirement plan time horizon. We will initially provide you with recommendations as to how to allocate your investments among categories of assets. We will then review your account monthly. Where appropriate, we may provide you with recommendations to change your asset allocation in an effort to remain consistent with your stated financial objectives. You are free at all times to accept or reject any of our investment recommendations. You are solely responsible for implementing our recommendations. Unless you separately retain our services, we will not execute any transactions or changes in asset allocation on your behalf.

We charge either an hourly fee or a fixed fee for our asset allocation services. An estimate of the total time/cost will be determined at the start of the advisory relationship. Our fees are negotiable and payable quarterly in advance. Fees can vary by the scope and complexity of the services.

You may terminate the investment advisory agreement at any time by providing written notice to our firm. The asset allocation fee will be prorated for the quarter in which the termination notice is given, which means that you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our stated fee schedule.

Portfolio Management

We offer discretionary and non-discretionary portfolio management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. We may also invest your assets using a predefined strategy, or we may invest your assets according to one or more model portfolios developed by our firm. Once we construct an investment portfolio for you, or select a model portfolio, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fees are quoted on an annual basis and billed quarterly in advance pursuant to the following fee schedule(s):

Assets Under Advisement/Management	Annualized Fee
First \$200,000	1.30%
Next \$300,000	1.15%
Next \$3.0 million	1.00%
All additional amounts	0.75%

The above stated fees **do not** include any custodial fees to third-party custodians, brokerage commissions, platform fees, or fees paid to sub-advisors or mutual funds. Acceptable forms of payment include checks, credit cards, bank drafts, direct custodial debits and other mutually agreed upon forms of payment.

Selection of Other Advisers

As part of our investment advisory services, we may recommend that you use the services of a third party investment adviser ("TPA") to manage your entire, or a portion of your, investment portfolio. After gathering information about your financial situation and objectives, we will recommend that you engage a specific TPA or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the TPA's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will periodically monitor the TPA(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

Our recommendations to use third party investment advisers are included in our portfolio management fee. We do not charge you a separate fee for the selection of other advisers nor will we share in the advisory fee you pay directly to the TPA. Advisory fees that you pay to the TPA are established and payable in accordance with the Form ADV Part II or other equivalent disclosure document provided by each TPA to whom you are referred. These fees may or may not be negotiable. You should review the recommended TPA's disclosure brochure for information on its fees and services.

You will be required to sign an agreement directly with the recommended TPA(s). You may terminate your advisory relationship with the TPA according to the terms of your agreement with the TPA. You should review each TPA's disclosure brochure for specific information on how you may terminate your advisory relationship with the TPA and how you may receive a refund, if applicable. You should contact the TPA directly for questions regarding your advisory agreement with the TPA.

Types of Investments

We primarily offer advice on exchange traded funds (ETFs) and investment company securities (Mutual Funds). We may also offer advice on separate account managers and individual securities.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of January 31, 2021, we provide continuous management services for \$128,381,989 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Please refer to the *Advisory Business* section in this Brochure for information on our advisory fees, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You may also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees.

Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business and non-profit entities.

For wealth management clients who require portfolio management services, we require a minimum of \$250,000 to open and maintain an advisory account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Fundamental Analysis** - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.
- **Long Term Purchases** - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- **Short Term Purchases** - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short term price fluctuations.
- **Short Sales** - securities transaction in which an investor sells securities he or she borrowed in anticipation of a price decline. The investor is then required to return an equal number of shares at some point in the future. A short seller will profit if the stock goes down in price.
- **Margin Transactions** - securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan.
- **Options Trading/Writing**: a securities transaction that involves buying or selling (writing) an option. If you write an option, and the buyer exercises the option, you are obligated to purchase or deliver a specified number of shares at a specified price at the expiration of the option regardless of the market value of the security at expiration of the option. Buying an option gives you the right to purchase or sell a specified number of shares at a specified price until the date of expiration of the option regardless of the market value of the security at expiration of the option.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We may use short-term trading (in general, selling securities within 30 days of purchasing the same securities) as an investment strategy when managing your account(s). Short-term trading is not a fundamental part of our overall investment strategy, but we may use this strategy occasionally when we determine that it is suitable given your stated investment objectives and tolerance for risk.

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Our firm will instruct the custodian to use our firm's policy of the FIFO (Highest Cost Basis First Out) accounting method for calculating and reporting the cost basis of your investments. This method can be modified on an account by account basis to an alternative cost basis methodology.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we primarily recommend Exchange Traded Funds and Mutual Funds. You should be advised of the following risks when investing in these types of securities:

Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Mutual funds and exchange traded funds are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. Exchange traded funds differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge

no fee to buy into, or sell out of, the funds, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be "closed end" or "open end". So-called "open end" mutual funds continue to allow in new investors indefinitely which can dilute other investors' interests.

Item 9 Disciplinary Information

We have been registered and providing investment advisory services since 2003. Neither our firm nor any of our associated persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

Recommendation of Other Advisers

We may recommend that you use a third party adviser ("TPA") based on your needs and suitability. We will receive compensation from the TPA for recommending that you use their services. These compensation arrangements present a conflict of interest because we have a financial incentive to recommend the services of the third party adviser. You are not obligated, contractually or otherwise, to use the services of any TPA we recommend.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

We strive to comply with applicable laws and regulations governing our practices. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Item 12 Brokerage Practices

We maintain relationships with several broker-dealers. While you are free to choose any broker-dealer or other service provider, we recommend that you establish an account with a brokerage firm with which we have an existing relationship. Such relationships may include benefits provided to our firm, including but not limited to, research, market information, and administrative services that help our firm manage your account(s). We believe that recommended broker-dealers provide quality execution services for our clients at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by recommended broker-dealers, including the value of research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of research services and additional brokerage products and services recommended broker-dealers provide, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

In limited circumstances, and at our discretion, some clients may instruct our firm to use one or more particular brokers for the transactions in their accounts. If you choose to direct our firm to use a particular broker, you should understand that this might prevent our firm from aggregating trades with

other client accounts. This practice may also prevent our firm from obtaining favorable net price and execution. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that you will obtain through your broker are adequately favorable in comparison to those that we would otherwise obtain for you.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13 Review of Accounts

Walter W. Breidenbach, Vice Chairman of the investment committee and Brian C. Breidenbach, Chairman of the investment committee of our firm will monitor your accounts on a monthly basis and will conduct account reviews at least quarterly, but can be done more or less frequently depending upon your needs, to ensure the advisory services provided to you and that the portfolio mix is consistent with your current investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals;
- year-end tax planning;
- market moving events;
- security specific events; and/or,
- changes in your risk/return objectives.

You will receive regular brokerage statements and confirmations from the custodian as required. Additionally you will receive graphical and numerical performance reporting in addition to brokerage statement disclosures at their normal performance review. Graphical and numerical performance reporting typically will utilize time weighted returns methodology identical to the CFA Institute's performance reporting standards.

Item 14 Client Referrals and Other Compensation

Our firm does not compensate anyone for client referrals. We do not receive any compensation from any third party in connection with providing investment advice to you.

Item 15 Custody

For some clients we can directly debit advisory fees from your account. We do not exercise custody over your funds or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent qualified custodian. If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact your custodian directly.

Item 16 Investment Discretion

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement, a power of attorney, and/or trading authorization forms. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

Proxy Voting

If you wish us to vote proxies on your behalf we can do so. We will determine how to vote proxies based on our reasonable judgment of the vote most likely to produce favorable financial results for you. Proxy votes generally will be cast in favor of proposals that maintain or strengthen the shared interests of shareholders and management, increase shareholder value, maintain or increase shareholder influence over the issuer's board of directors and management, and maintain or increase the rights of shareholders. Generally, proxy votes will be cast against proposals having the opposite effect. However, we will consider both sides of each proxy issue. Unless we receive specific instructions from you, we will not base votes on social considerations.

In the event you wish to direct our firm on voting a particular proxy, you should contact Brian Breidenbach at telephone number 502.561.3411 with your instructions.

Conflicts of interest between you and our firm, or a principal of our firm, regarding certain proxy issues could arise. If we determine that a material conflict of interest exists, we will take the necessary steps to resolve the conflict before voting the proxies. For example, we may disclose the existence and nature of the conflict to you, and seek direction from you as to how to vote on a particular issue; we may abstain from voting, particularly if there are conflicting interests for you (for example, where your account(s) hold different securities in a competitive merger situation); or, we will take other necessary steps designed to ensure that a decision to vote is in your best interest and was not the product of the conflict.

We keep certain records required by applicable law in connection with our proxy voting activities. You may obtain information on how we voted proxies and/or obtain a full copy of our proxy voting policies and procedures by making a written or oral request to our firm.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not :

- require the prepayment of more than \$1200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State-Registered Advisers

We are a federally registered investment adviser; therefore, we are not required to respond to this item.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Brian C. Breidenbach, Managing Principal, at telephone number 502.561.3411 if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.
