Types of Advisory Services

We sponsor a number of wrap fee advisory Programs that are designed to help Clients meet their investment objectives and goals. They include Unified and Separately Managed Account Programs, Mutual Fund Advisory Programs, Financial Advisor-Directed Programs and Non-Discretionary Advisory Programs ("Programs"). We also offer Consulting and Financial Planning advisory services. This Disclosure Document is being provided pursuant to Section 204 of the Investment Advisers Act of 1940 and deals solely with our Retirement Plan Consulting Program. Descriptions of the services and fees for the other Programs and services we offer can be found in separate disclosure documents, copies of which are available upon request.

Retirement Plan Consulting

The Retirement Plan Consulting Program is a service in which Financial Advisors ("FAs") provide consulting services to retirement plan sponsors for a fee. We offer both non-discretionary and discretionary services under the Program. In non-discretionary services, your FA cannot choose and will not take any actions without your direction. The final decisions are yours. You may choose to act upon any or all of the information provided to you. FAs are required to meet additional Firm established criteria to be eligible to offer discretionary services. In a discretionary service, your FA has the authority to create and maintain the plan's investment menu on your behalf and without your approval.

The Retirement Plan Consulting Program offers one or more of the following services:

Non-Discretionary Services

Investment policy statement: We will assist you in preparing an Investment Policy Statement ("IPS") that identifies the objectives, risk tolerance and constraints for the management of the investments. The development of the IPS will be based on information provided by you and is designed to outline the investment philosophy, and establish the management procedures for use by you and the investment manager(s) for the effective management of the investments. We will review the investment policy statement with you on an agreed upon basis.

Our investment policy services do not include the management of the investments or making specific recommendations regarding specific securities or other investment vehicles, unless you specifically and separately select investment search and recommendation. You shall be responsible for review and final approval of the IPS. No assurance has been or can be given that the investment objectives reflected in your IPS will be achieved.

Investment search and recommendation: Upon your request, we will provide an Investment Search Report (options may include money market, collective investment trusts, mutual funds or group annuity contracts) to you. In this report, we will provide you with investments or investment managers for consideration whose investment philosophies and policies are, in our judgment, compatible with the investment objectives, policies and constraints and risk tolerance specified by the Plan's IPS and/or you. The decision to invest with or retain any particular manager or investment, or offer any investment to participants as an investment option rests with you. You understand that we make no representations concerning any manager chosen by you without our recommendation, nor shall we assume any liability for any loss, claim, damage or expense attributable to your selection of any manager that has not been profiled, reviewed or approved by us.

If requested by you, we will also provide a diversification review designed to identify particular asset classes that we feel should be included in the Plan's list of investments options made available to the participants based on the IPS provided by you. This information is based on modern portfolio theory and other general diversification philosophies. Based on our review, we may recommend to you additional asset classes to compliment the Plan's existing investment options.

Performance reporting: On an agreed upon basis, we will provide periodic Performance Reports to assist you in evaluating your Plan's investment options (options may include money market, collective investment trusts, exchange-traded funds, mutual funds or group annuity contracts) and the performance of the Plan's portfolio over various time periods, as well as comparing various aspects of such performance to benchmarks identified in the IPS. The investments will be analyzed based on their investment philosophies, policies, risk level, and performance as they relate to the investment and diversification objectives, policies, constraints, and risk tolerance, as specified in the investment policy statement and/or you. These reports may include a combination of: market commentary; plan asset allocation summary; risk and return analysis; investment cost analysis; investment research; and overall review for comparison to the IPS. Account data will be derived from trust or custodial statements for each period. We will not be responsible for verification of the information supplied by the custodian or trustee. While we are not responsible for and will not separately monitor the investments in your Plan, we will provide you with Performance Reports on an agreed upon periodic basis so that you can monitor such investments.

Service provider search: We will request retirement plan proposals from a group of record keeping platforms based on stated goals, objectives and demographics of the plan, and subsequently prepare a report to summarize the results. The summary report is designed to provide comparison of the features, benefits, available investment options and fees of a specific record keeper product that can be analyzed in comparison to the stated criteria. This search process may be performed on an as-needed basis for the employer's fiduciary due diligence file or upon request to provide the employer information needed in making informed decisions on a product solution.

Plan committee meetings: We will provide general summary reports and statistical updates to the Plan Committee(s) or other fiduciaries. These may include: participation and demographic reports; a review of goals and results of the education policy statement; updates on participant meetings, regulatory updates and market updates.

Plan benchmarking: We will provide plan benchmarking reports that identify and compare specific plan-design elements such as: plan features; investment-related information; participant behaviors, plan oversight as well as plan-related fees with other plans in similar industries, or with similar plan size and/or demographics. The benchmarking report may be comprehensive and include all elements or a summary of specific items and fees. These reports will be prepared on an as-needed basis or as part of the overall annual review.

Employee education: We will provide investment education to and for the benefit of employees of your company. The parties agree that the education services offered under this Agreement are not intended to include personal investment advice and are limited to providing Investment Education or general information as outlined in Section 3(21)(A) of ERISA, as amended.

Discretionary Services

Plan Level Investment Selection 3(38): We will provide an IPS that identifies the objectives, risk tolerance and constraints for the management of the investments. Your FA will operate as a 3(38) Discretionary Manager at the Plan level for the investment menu made available to participants in the plan. This means your FA will construct a menu of investments that is, in their judgment, compatible with the investment objectives, policies and constraints and risk tolerance as outlined in the Plan's IPS. Your FA will attempt to keep you informed of all investment changes but the decision to invest with or retain any particular manager or investment, or offer any investment to participants as an investment option rests with your FA.

As part of this service, your FA will provide you with a Performance Report that covers your plan's investment lineup that demonstrates the investment performance, returns, and alignment to your IPS on a quarterly basis. Your investments will be analyzed based on their investment philosophies, policies, risk level, and performance as they relate to the investment and diversification objectives, policies, constraints, and risk tolerance, as specified in the investment policy statement and/or you. These reports may include a combination of: market commentary; plan asset allocation summary; risk and return analysis; investment cost analysis; investment research; and overall review for comparison to the IPS. Account data will be derived from trust or custodial statements for each period.

Our investment advisory disciplinary history is available by going to: <http://www.adviserinfo.sec.gov/>.

- On February 27, 2020, the Securities and Exchange Commission ("Commission") entered an order against Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC, following the Firms' offers of settlement. The Commission found that, from April 2012 through September 2019, the Firms recommended that many retail investment advisory clients and brokerage customers buy and hold single-inverse exchange-traded funds ("ETFs") without having adequate compliance policies and procedures and without providing financial advisors proper training and supervision of single-inverse ETFs. The Commission found that, as a result, certain investment adviser representatives and registered representatives made unsuitable recommendations to certain clients. The Commission found that the Firms willfully violated Section 206(4) of the Advisers Act and Rule 206(4)-7 thereunder, failed reasonably to fulfill their supervisory responsibilities within the meaning of Section 203(e)(6) of the Advisers Act and failed reasonably to fulfill their supervisory responsibilities within the meaning of Section 15(b)(4)(E) of the Exchange Act. The Firms consented, without admitting or denying the findings contained in the Order, to: (a) cease and desist from committing or causing any violations and any future violations of Section 206(4) of the Advisers Act and Rule 206(4)-7 thereunder, (b) be censured, and (c) jointly and severally pay a civil monetary penalty in the amount of \$35,000,000.

- In 2018, Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC elected to participate in the Securities and Exchange Commission's Mutual Fund Share Class Selection Disclosure Initiative ("SCSD Initiative"). The SCSD Initiative provided investment advisers with the opportunity to voluntarily self-report to the SEC's Division of Enforcement possible securities law violations related to the adequacy of their disclosures concerning mutual fund share class selection and fees received pursuant to Rule 12b-1 under the Investment Company Act of 1940. As part of the SCSD Initiative, the Firms reviewed disclosures and activities related to mutual fund share class selection within advisory programs. At the conclusion of the SCSD Initiative, the Firms jointly and severally consented to a settlement agreement alleging violations of Sections 206(2) and Section 207 of the Investment Advisers Act of 1940 and entry of an order under which the Firms were censured, agreed to cease and desist from committing further violations, and agreed to pay disgorgement and prejudgment interest totaling \$17,363,847.29. The SEC did not impose a fine or civil monetary penalty in recognition of the fact that the Firms self-reported.
- On December 21, 2016, Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC agreed to a settlement with FINRA regarding allegations that the Firms failed to maintain approximately one million electronic brokerage records in non-erasable and non-rewritable format, which is intended to prevent the alteration or destruction of broker-dealer records stored electronically. The findings also stated that for approximately 1.5 million accounts, the Firm failed to preserve customer account form templates containing the terms and conditions related to the opening and maintenance of accounts, failed to retain certain communications and failed to notify FINRA at least 90 days prior to using new storage media to store electronic broker-dealer records. FINRA also found that the Firms failed to implement an audit system for those records, failed to provide its third party vendors full access to the storage systems, failed to implement an adequate supervisory system and failed to enforce written procedures. Without admitting or denying the findings, the Firms agreed to a censure and fine, jointly and severally, of \$1,500,000. The Firms also consented to a review of its policies and procedures.
- On December 5, 2016, Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC agreed to a settlement with FINRA regarding allegations that the Firms failed to establish, maintain and enforce reasonable supervisory systems for the use of consolidated reports generated by their registered representatives through available applications. The findings stated that these applications allowed the Firms' representatives to manually enter information regarding customers' external accounts, assets and liabilities into a centralized table which the Firms maintained. This information would then be used to populate reports, including those that would be sent to the Firms' customers. FINRA found that the Firms did not have systems in place to review the contents of the reports, including information about customer holdings away from the Firms. In addition, the Firms' supervisory systems and procedures were inadequate because there was no mechanism allowing representatives to designate which reports were actually provided to customers and the system could not distinguish between draft reports and completed reports that were sent to customers, which should have been subject to the Firms' supervisory systems designed to review customer communications. Without admitting or denying the findings, the Firms agreed to a censure and fine, jointly and severally, of \$1,000,000.
- In December 2014, Wells Fargo Advisors agreed to a settlement with FINRA regarding allegations that the Firm failed to comply fully with requirements to verify the identity of each customer opening a new account under its Customer Identification Program ("CIP"). Due to a design flaw in the Firm's CIP system, 220,000 accounts, out of the total 6.9 million accounts opened during the period from October 2003 through October 2012, were not subject to the Firm's CIP review. When considering sanctions, FINRA took into consideration that WFA discovered the system flaw through self-testing, performed remediation CIP on approximately 100,000 accounts that remained open, made system changes to prevent recurrences and reported the violations in accordance with FINRA Rule 4530(b). Without admitting or denying the allegations, the Firm agreed to a settlement that included a censure, and payment, jointly and severally with its affiliate Wells Fargo Advisors Financial Network, of a \$1,500,000 fine.
- In May 2012, Wells Fargo Advisors agreed to a settlement with FINRA regarding allegations that the Firm failed to establish and maintain supervisory systems, including written procedures, reasonably designed to achieve compliance with applicable FINRA rules in connection with the sale of leveraged, inverse and inverse-leveraged exchange-traded funds. Without admitting or denying the allegations, the Firm agreed to a settlement that included a censure, and payment, jointly and severally with its affiliate Wells Fargo Advisors Financial Network, of a \$2,100,000 fine and restitution to specified clients.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

Our Associates are subject to a Code of Ethics that is designed to ensure our business activities are performed with the highest possible standards of ethics and business conduct, and to comply with all applicable laws, rules, and regulations that govern our businesses. Key requirements of our Code of Ethics are summarized below, and you may obtain a complete copy through your Financial Advisor.

- Conduct all aspects of Wells Fargo's business activities in an honest, ethical, and legal manner, and in accordance with all applicable laws, rules, and regulations and our policies and procedures.
- Provide accurate and complete information in dealings with Clients and others, including disclosure of conflicts of interest when they exist.
- Prepare and maintain accurate business records.
- Refrain from improper disclosure or misuse of confidential Client information and material, non-public information. Wells Fargo protects the private, personal, and proprietary information of Clients and others.
- Avoid conflicts of interest in personal and business activities.
- Rules specific to personal trading.

Participation or Interest in Client Transactions

Under the Programs, we are generally appointed as sole and exclusive broker by you with respect to the referenced Account for the execution of transactions. Our Program Fee covers transaction costs when transactions are executed through us. On occasion, you may designate, or the law may require, the use of other brokers. Investment advisers may also elect to execute transactions with other firms as they deem appropriate, taking into account a number of factors such as best execution, research services and other qualitative factors. When transactions are executed with other firms, including transactions executed through our affiliates, the cost of execution is imbedded in the price of the security. Any imbedded execution costs on trades done away from us are in addition to our Program Fee.

In connection with these transactions, we may act as agent or, where permitted by law, principal (including instances wherein we are acting as underwriter or selling group members). You authorize that we may effect and execute brokerage transactions, including on a national exchange, as permitted by current provisions of Section 11(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and rules promulgated thereunder including any future amendments or changes to such statutes and rules.

With respect to money market sweep vehicles investments, you receive disclosures about our affiliates and the advisory and other fees paid to affiliates by the Funds in the Fund's prospectuses and our Disclosure Documents, and Client Agreements, as applicable.

We or our affiliates may have investment banking or other relationships with certain publicly traded companies. These relationships may from time to time require us to restrict trading in the securities of these companies. As a result of these investment banking or other activities, our affiliates may acquire confidential or material non-public information that may prevent us or our affiliates, for a period of time, from purchasing, selling or recommending particular securities for your Account. We and our affiliates are not permitted to divulge or to act upon this information with respect to our advisory or brokerage activities.

Additionally, we may be restricted or limited in our ability to purchase or sell particular securities or make investment recommendations as a result of these affiliated activities.

We have certain restrictions, internal procedures and Client disclosures regarding conflicts of interest that we may have with respect to our participation or interest in Client transactions. We communicate our policies and procedures related to participation in Client transactions to our Associates through our compliance policies and procedure manuals and Program-specific policy guidelines.

Personal Trading

We maintain policies and procedures to mitigate conflicts of interest between transactions in our Associates' personal investment Accounts, including Accounts of their immediate family members and transactions in our Clients' Accounts. To ensure Associate trading requirements are observed, certain Associate trading activity is subject to pre-approval. All Associates are subject to regular review by their supervisors, independent oversight by our Compliance Department, and systemic controls that automatically restrict entry of certain orders and generate related surveillance reporting.

Brokerage Practices

We do not provide any brokerage services as part of this Program. Assets are all held away from us with a third party custodian.

Review of Accounts

The FA provides the services agreed to in the contract.

Client Referrals and Other Compensation

We and our affiliates and your Financial Advisor may perform, among other things, investment banking, research, brokerage and investment advisory or management services for other Clients, and may earn transactional compensation, investment advisory or management fees and other consideration for such activities.

From time to time, we initiate incentive programs for our Associates, including FAs. These programs may compensate them for attracting new assets and Clients, referring business to our affiliates (such as referrals for mortgages, trusts, or insurance services) or other FAs, promoting investment advisory services and promoting green initiatives (such as raising Client awareness of paperless options). We may also initiate programs that reward Financial Advisors who meet total production criteria, length of service requirements, participate in advanced training and improve Client service.

Financial Advisors who participate in these incentive programs may be rewarded with cash and/or non-cash compensation, such as deferred compensation, bonuses, training symposiums and recognition trips. Portions of these programs may be subsidized by external vendors and/or our affiliates, such as mutual fund companies, insurance carriers, or investment advisers. Therefore, Financial Advisors and other Associates have a financial incentive to recommend the programs and services included in these incentive programs over other available products and services we offer.

We may also enter into arrangements with other persons to whom we pay compensation for referrals to our advisory Programs. This compensation is generally in the form of a percentage of the fees described in the Program contracts. The details of such arrangements and the amount of compensation will be described in a separate disclosure provided at the time of such referrals.

From time to time, we compensate Associates other than Financial Advisors for referrals of possible Clients to the Programs. Our Financial Advisors, not the referring Associate, will make the actual presentation and solicitation of these services. The referral compensation takes the form of a payment to the Associate of a percentage of the fees described in the Programs contracts and results in no additional fees to you or other Clients.

Wells Fargo & Company is a full-service financial services firm with many affiliates. Wells Fargo & Company encourages its subsidiaries to use the products and services offered by affiliated firms, when appropriate. During the course of annual business planning, business with our affiliates is included in establishing our sales goals. As a result, we may have an incentive to hire affiliate service providers for our advisory Programs. We may recommend affiliated mutual funds to Program Clients, and may hire other affiliates to provide trade execution, clearing, and platform administration services for the Programs. We intend, however, to make all recommendations independent of any such goals and based solely on our obligations to consider your objectives and needs.

We may receive contributions and/or reimbursements from Program managers and their affiliates for Financial Advisor training and Client presentations that have an informational or educational component. Managers that make payments in connection with Financial Advisor training sessions and Client presentations generally have increased access to our Financial Advisors and heightened visibility for their products at such meetings. Consequently, our Financial Advisors might focus on products offered by such firms when recommending or selecting a money manager and/or mutual fund to you. We intend, however, to make all recommendations independent of such fee considerations and based solely on our obligations to consider your objectives and needs. These managers are under no obligation to make such contributions with respect to these Programs.

Custody

We do not have custody of your funds or securities for this advisory Program.
