Item 4 Advisory Business

- A. Waterstone Wealth Advisors, LLC, (the “Registrant”) is a limited liability company formed in the state of New Jersey on October 5, 2005 which became a registered Investment Adviser Firm in April 2006. The Registrant is principally owned by John Moynihan, who is the Registrant’s Managing Member and Chief Compliance Officer.

B.

INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary or non-discretionary investment advisory services on a *fee-only* basis. The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under the Registrant’s management. Before engaging the Registrant to provide investment advisory services, clients are required to enter into an Investment Advisory Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the fee that is due from the client.

Registrant’s annual investment advisory fee includes investment advisory services, and, to the extent specifically requested by the client, financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant), the Registrant may determine to charge for such additional services pursuant to a stand-alone Financial Planning Agreement (see below).

To commence the investment advisory process, the Registrant will ascertain each client’s investment objective(s) and allocate or recommend that the client allocate investment assets consistent with the client’s designated investment objective(s). Once allocated, the Registrant provides ongoing monitoring and review of account performance and asset allocation as compared to client investment objectives, and may periodically execute or recommend execution of account transactions based upon such reviews.

FINANCIAL PLANNING AND CONSULTING SERVICES

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis.

Prior to engaging the Registrant to provide planning or consulting services, clients are required to enter into a Financial Planning and Consulting Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services. If requested by the client, Registrant may recommend the services of other professionals for implementation purposes. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant.

If the client engages any such recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s) (i.e.

attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

It remains the client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating, or revising Registrant's previous recommendations and/or services.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. As indicated above, to the extent requested by a client, Registrant may provide financial planning and related consulting services. Neither the Registrant nor its investment adviser representatives assist clients with the implementation of any financial plan, unless they have agreed to do so in writing. The Registrant does not monitor a client's financial plan, and it is the client's responsibility to revisit the financial plan with the Registrant, if desired.

Furthermore, although the Registrant may provide recommendations regarding non-investment related matters, such as estate planning, tax planning and insurance, the Registrant does not serve as a law firm, accounting firm, or insurance agency, and no portion of Registrant's services should be construed as legal, accounting, or insurance implementation services. Accordingly, the Registrant does not prepare estate planning documents, tax returns or sell insurance products.

To the extent requested by a client, Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance agents, etc.). Clients are reminded that they are under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation made by Registrant or its representatives.

If the client engages any unaffiliated recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional[s] (i.e. attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

Non-Discretionary Service Limitations. Clients that determine to engage Registrant on a non-discretionary investment advisory basis must be willing to accept that Registrant cannot effect any account transactions without obtaining prior consent to such transaction(s) from the client. Therefore, in the event that Registrant would like to make a transaction for a client's account (including in the event of an individual holding or general market correction), and the client is unavailable, the Registrant will be unable to effect the account transaction(s) (as it would for its discretionary clients) without first obtaining the client's consent.

Retirement Plan Rollovers – No Obligation / Conflict of Interest: A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending

upon the client's age, result in adverse tax consequences). If the Registrant recommends that a client roll over their retirement plan assets into an account to be managed by the Registrant, such a recommendation creates a conflict of interest if the Registrant will earn an advisory fee on the rolled over assets. **No client is under any obligation to roll over plan assets to an IRA managed by the Registrant or to engage the Registrant to monitor and/or manage the account while maintained at the client's employer.**

Use of Mutual Funds: While the Registrant may recommend allocating investment assets to mutual funds that are not available directly to the public, the Registrant may also recommend that clients allocate investment assets to publicly-available mutual funds that the client could obtain without engaging Registrant as an investment adviser. However, if a client or prospective client determines to allocate investment assets to publicly-available mutual funds without engaging Registrant as an investment adviser, the client or prospective client would not receive the benefit of Registrant's initial and ongoing investment advisory services.

Other mutual funds, such as those issued by Dimensional Fund Advisors ("DFA"), are generally only available through registered investment advisers. Registrant may allocate client investment assets to DFA mutual funds. Therefore, upon the termination of Registrant's services to a client, restrictions regarding transferability and/or additional purchases of, or reallocation among DFA funds will apply.

Cash Positions. The Registrant may maintain cash and cash equivalent positions (such as money market funds) for defensive and liquidity purposes. Unless otherwise agreed in writing, all cash and cash equivalent positions will be included as part of assets under management for purposes of calculating the Registrant's investment advisory fee.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, mutual fund manager tenure, style drift, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

ByAllAccounts. In conjunction with the services provided by ByAllAccounts, Inc, the Registrant may also provide periodic comprehensive reporting services, which can incorporate all of the client's investment assets including those investment assets that are not part of the assets managed by the Registrant (the "Excluded Assets"). The Registrant's service relative to the Excluded Assets is limited to reporting services only, which does not include investment implementation. Because the Registrant does not have trading authority for the Excluded Assets, to the extent applicable to the nature of the Excluded Assets (assets over which the client maintains trading authority vs. trading authority designated to another investment professional), the client (and/or the other investment professional), and not the Registrant, shall be exclusively responsible for directly implementing any recommendations relative to the Excluded Assets. The client and/or their other advisors that maintain trading authority, and not the Registrant, shall be exclusively responsible for the investment performance of the Excluded Assets. Without limiting the above, the Registrant shall not be responsible for any implementation error (timing, trading, etc.) relative to the Excluded Assets. In the event the client desires that

the Registrant provide non-discretionary investment management services (whereby the Registrant would have trading authority) with respect to the Excluded Assets, the client may engage the Registrant to do so pursuant to the terms and conditions of the Investment Advisory Agreement between the Registrant and the client.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating, or revising Registrant's previous recommendations and/or services.

Disclosure Statement. Copies of the Registrant's written disclosure statement and client relationship summary, as set forth on Part 2 of Form ADV and Form CRS respectively, shall be provided to each client prior to the execution of the Investment Advisory Agreement or Financial Planning and Consulting Agreement.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2020, the Registrant had \$128,155,626 in client assets under management on a discretionary basis and \$10,742,673 in client assets under management on a non-discretionary basis.

Item 5 Fees and Compensation

A.

INVESTMENT ADVISORY SERVICES

In general, Registrant's annual investment advisory fee shall be based upon a percentage (%) of the market value and type of assets placed under the Registrant's management between 0.25% and 1.00% as follows:

Assets Under Management	Annual Fee %
First \$1,000,000	1.00%
Next \$1,000,000	0.75%
Next \$2,000,000	0.45%
Next \$2,000,000	0.30%
Amount over \$6,000,000	0.25%

Before engaging the Registrant to provide investment advisory services, clients are required to enter into a discretionary or non-discretionary Investment Advisory Agreement, setting forth the terms and conditions of the engagement (including termination), which describes the fees and services to be provided.

As indicated above, Registrant shall receive an investment advisory fee based upon a percentage (%) of the market value of the assets placed under management. However, fees may vary depending upon various objective and subjective factors. As a result, similar clients could pay different fees, which will correspondingly impact a client's net account performance. Moreover, the services to be provided by the Registrant to any particular client could be available from other advisers at lower fees.

The Registrant generally requires a minimum asset level of \$300,000, which computes to a minimum annual fee of \$3,000. However, the Registrant may, in its sole discretion, require or charge a lesser minimum asset level or fee based upon certain criteria including but not limited to: anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.

If the client maintain less than \$300,000 of assets under Registrant's management, and is subject to the \$3,000 annual minimum fee, the client will pay a higher percentage fee than the 1.00% referenced in the above fee schedule.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant's planning and consulting fees are negotiable, but are generally \$350 on an hourly basis and generally range between \$5,000 and \$25,000 on a fixed fee basis, depending upon the level, complexity, and scope of the service(s) required.

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's Investment Advisory Agreement and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice.

The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon either: the prorated market value of the assets on the last business day of the previous quarter; or, the quarterly portion of a pre-determined and agreed-upon annual retainer amount.

To the extent that a client's fee is based upon assets under management, the Registrant shall adjust its fees for inflows and outflows in excess of \$10,000 during the billing period. These adjustments will be debited or credited as part of the next quarter's billing.

- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that TD Ameritrade Inc., member FINRA/SIPC ("TD Ameritrade") and/or Fidelity Brokerage Services LLC, member FINRA/SIPC ("Fidelity") serve as the broker-dealer/custodian for client investment management assets. Broker-dealers such as TD Ameritrade and Fidelity charge brokerage commissions and/or transaction fees for effecting certain securities transactions. In addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, clients will also incur, relative to all mutual fund

and exchange traded fund (“ETF”) purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

- D. The Investment Advisory Agreement between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the Investment Advisory Agreement. Upon termination, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter.
- E. Neither the Registrant nor any of its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant’s clients generally include: individuals, high net worth individuals, pension and profit sharing plans, charitable organizations, and business entities.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. Registrant may utilize the following methods of security analysis:
 - Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
 - Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)
 - Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)
- Trading (securities sold within thirty (30) days)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s). Investing in securities involves risk of loss that clients should be prepared to bear.

Investors generally face the following types of investment risks:

- Interest-rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- Market Risk: The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk may be caused by external factors independent of the fund's specific investments as well as due to the fund's specific investments. Additionally, each security's price will fluctuate based on market movement and emotion, which may, or may not be due to the security's operations or changes in its true value. For example, political, economic and social conditions may trigger market events which are temporarily negative, or temporarily positive.
- Inflation Risk: When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- Liquidity Risk: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- Financial Risk: Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

- B. The Registrant's method of analysis and investment strategy does not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period, involves a very short investment time period but will incur higher transaction costs when compared to a short term investment strategy and substantially higher transaction costs than a longer term investment strategy.

- C. Currently, the Registrant allocates client investment assets primarily among various open-end mutual funds with the remainder allocated among ETFs and other individual equity securities on a discretionary or non-discretionary basis in accordance with the client's designated investment objective(s).

Item 9 Disciplinary Information

The Registrant has not been the subject of a disciplinary action.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. Registrant has no other relationship or arrangement with a related person that is material to its advisory business.
- D. Registrant does not recommend or select other investment advisors for its clients for which it receives a fee.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant may buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the

rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons.” The Registrant’s securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Furthermore, Access Persons must provide the Chief Compliance Officer with a quarterly transaction report, detail all trades in the Access Person’s account during the previous quarter; and on an annual basis, each Access Persons must provide the Chief Compliance Officer with a written report of the Access Person’s current securities holdings. However, at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant may buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment management accounts be maintained at TD Ameritrade and/or Fidelity. Before engaging Registrant to provide investment management services, the client will be required to enter into a formal Investment Advisory Agreement with Registrant setting forth the terms and conditions under which Registrant shall manage the client’s assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending TD Ameritrade, Fidelity, or any other broker-dealer/custodian to clients, include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant’s clients shall comply with the Registrant’s duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions.

The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment management fee. The Registrant's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. TD Ameritrade Institutional Program / Research and Additional Benefits

Registrant participates in the TD Ameritrade Institutional program (the "Program"). The Program offers services to independent investment advisors including custody of securities, trade execution, clearance and settlement of transactions. Registrant receives some benefits from TD Ameritrade through its participation in the Program, and/or similar benefits from Fidelity (or another broker-dealer, mutual fund sponsor, unaffiliated investment manager, and/or investment platform) including those set forth fully below.

The support services that Registrant may obtain could include: investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance and travel expenses for conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

Certain of the support services and/or products received may assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise.

There is no corresponding commitment made by the Registrant to TD Ameritrade, Fidelity, or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

The Registrant's Chief Compliance Officer, John Moynihan, remains available to address any questions that a client or prospective client may have regarding the above arrangement and any corresponding conflict of interest such arrangement may create.

2. The Registrant does not receive referrals from broker-dealers.

3. Directed Brokerage.

The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other

transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

The Registrant's Chief Compliance Officer, John Moynihan, remains available to address any questions that a client or prospective client may have regarding the above arrangement.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or "bunch" such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant's clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by John Moynihan, who is the Registrant's Managing Member and Chief Compliance Officer. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant participates in TD Ameritrade's Program and receives economic benefits from TD Ameritrade or Fidelity, without cost (and/or at a discount), including support services and/or products. There is no direct link between Registrant's participation in the Program and the investment advice it gives to its clients.

There is no corresponding commitment made by the Registrant to TD Ameritrade, Fidelity, or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

The Registrant receives the following economic benefits (and/or may receive similar economic benefits from Fidelity) through its participation in the Program, which benefits are typically not available to retail investors, without cost (and/or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Registrant by third party vendors.

TD Ameritrade and/or Fidelity may also have paid for business consulting and professional services received by Registrant's related persons. Some of the products and services made available by TD Ameritrade through the Program, and/or similar benefits received from Fidelity, may benefit Registrant but may not benefit its client accounts. These products or services may assist Registrant in managing and administering client accounts, including accounts not maintained at TD Ameritrade and/or Fidelity. Other services made available by TD Ameritrade and/or Fidelity are intended to help Registrant manage and further develop its business enterprise. The benefits received by Registrant or its personnel through participation in the Program do not depend on the amount of brokerage transactions directed to TD Ameritrade. Similarly, there is no corresponding commitment made by the Registrant to Fidelity as a result of the above arrangement.

As part of its fiduciary duties to clients, Registrant endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Registrant or its related persons in and of itself creates a conflict of interest and may indirectly influence the Registrant's choice of TD Ameritrade and/or Fidelity for custody and brokerage services.

The Registrant's Chief Compliance Officer, John Moynihan, remains available to address any questions that a client or prospective client may have regarding the above arrangement and any corresponding conflict of interest any such arrangement may create.

- B. The Registrant does not compensate, directly or indirectly, any person, other than its representatives, for client referrals.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian.

The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary or non-discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, client shall be required to execute an Investment Advisory Agreement, naming the Registrant as client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. Except as specifically stated in Fidelity Clients section immediately below, the Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.

Fidelity Clients

For certain legacy client accounts maintained with Fidelity, the Registrant is responsible for voting client proxies. However, the client shall maintain exclusive responsibility for all legal proceedings or other type events pertaining to the account assets, including, but not limited to, class action lawsuits. The Registrant shall vote proxies in accordance with its Proxy Voting Policy, a copy of which is available upon request. The Registrant shall monitor corporate actions of individual issuers and investment companies consistent with the Registrant's fiduciary duty to vote proxies in the best interests of its clients. Although the factors which Registrant will consider when determining how it will vote differ on a case by case basis, they may, but are not limited to, include a review of recommendations

from issuer management, shareholder proposals, cost effects of such proposals, effect on employees and executive and director compensation. With respect to individual issuers, the Registrant may be solicited to vote on matters including corporate governance, adoption or amendments to compensation plans (including stock options), and matters involving social issues and corporate responsibility. With respect to investment companies (e.g., mutual funds), the Registrant may be solicited to vote on matters including the approval of advisory contracts, distribution plans, and mergers. The Registrant shall maintain records pertaining to proxy voting as required pursuant to Rule 204-2 (c)(2) under the Advisers Act. Copies of Rules 206(4)-6 and 204-2(c)(2) are available upon written request. In addition, information pertaining to how the Registrant voted on any specific proxy issue is also available upon written request. Requests should be made by contacting the Registrant's Chief Compliance Officer, John Moynihan.

- B. Except as specifically stated above with respect to clients whose funds are maintained with Fidelity, Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200 per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

The Registrant's Chief Compliance Officer, John Moynihan, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
