LIFETIME WEALTH MANAGEMENT P.C., (herein referred to as “Lifetime Wealth Management,” “Firm,” “we,” “our,” “us”) was founded in 2007.

LIFETIME WEALTH MANAGEMENT is a financial planning and investment management firm charging a percentage fee of assets under management as well as fixed and hourly fees. Investment advice is an integral part of financial management/planning. In addition, LIFETIME WEALTH MANAGEMENT advises Clients regarding:

- Investment Management - Discretionary

Investment advice/management is provided, either with Client authorized, discretionary or non-discretionary authority.

Discretionary Authority: The Client authorizes Investment Advisor to investigate, purchase, and sell on behalf of Client, various securities and investments. Investment Advisor is authorized to execute purchases and sale of securities on Client's behalf without consulting Client regarding each sale or purchase.

Non-Discretionary Authority: Investment Advisor is authorized to execute purchases and sales of securities only after consulting with Client regarding each transaction. The firm does not offer non-discretionary management for new clients.

LIFETIME WEALTH MANAGEMENT does not act as a Custodian of Client assets. The Client always maintains asset control. LIFETIME WEALTH MANAGEMENT places trades for Clients under a limited power of attorney.

LIFETIME WEALTH MANAGEMENT may recommend a mix of mutual funds, index funds, exchange traded funds, stocks, bonds, options, futures, warrants, fixed income, debt securities, real estate, hedge funds, REITs, private placements, and government securities. We may use other securities as well to help diversify a portfolio when applicable.

A written evaluation of each Client's initial situation is provided to the client, often in the form of an Investment Policy Statement as part of the Investment Advisory Contract. Annual reviews are also communicated in a variety of ways to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the Client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the Client on an as-needed basis. Conflicts of interest will be disclosed to the Client in the event they should occur.

The initial meeting, which may be made by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the Client.

Jason A. Potts is a 100% stockholder.

Tailored Relationships

The goals and objectives for each Client are documented in our Client relationship file. Investment policy statements are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without Client consent.

Types of Agreements

The following agreements define the typical Client relationships.

Financial Planning Agreement

A financial plan is designed to help the Client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the Client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee is \$3,000.00 and is *not negotiable*. Since financial planning is a discovery process, situations occur wherein the Client is unaware of certain financial exposures or predicaments.

In the event that the Client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The Client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-up implementation work is billed separately at the rate of \$300.00 per hour.

Advisory Service Agreement (Investment Advisory Contract)

Clients engage LIFETIME WEALTH MANAGEMENT to manage their assets in order to obtain ongoing in-depth financial advice and life planning. All aspects of the Client's financial affairs are reviewed, including those of their children when provided by the client. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the Client in writing prior to the start of the relationship. An Advisory Service Agreement includes cash flow management; insurance review; investment management (including performance reporting); retirement planning; and basic estate planning. Assistance with implementation of certain areas may be offered at the Firm's hourly rate.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

1.25%	\$500,000 - \$1,000,000;
1.00%	\$1,000,001 - \$2,500,000;
0.80%	\$2,500,001 - \$5,000,000 and
0.65%	Above \$5,000,001

Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by Clients with greater assets under management.

Some Client contracts may reflect a higher/lower management fee that was agreed upon prior to the existing fee schedule and prior to the account minimums being set at \$500,000 and/or a minimum net worth of 2 million.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the Client is at the Client's discretion. The Client or the investment manager may terminate an Agreement with a 10-day written notice to the other party. At termination, fees will be billed or refunded on a pro rata basis for the portion of the calendar quarter completed per the Investment Advisory Contract. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Hourly Planning Engagements

LIFETIME WEALTH MANAGEMENT provides hourly planning services for Clients who need advice on a limited scope of work. The hourly rate for this engagement is \$300.00 per hour.

Asset Management

Assets are invested primarily in no-load mutual funds and exchange-traded funds, usually through a Custodian (i.e. Charles Schwab and Interactive Brokers). Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Custodians may charge a transaction fee for the purchase of some funds.

The brokerage/Custodian Firm charges a fee (sales charge) for stock and bond trades. LIFETIME WEALTH MANAGEMENT does not receive any compensation, in any form, from fund companies or custodians.

Investments may also include equities (stocks), options, futures, warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (mutual funds shares and exchange traded funds), U. S. government securities, interests in partnerships, third party money managers, REITS, no-load annuities and some alternative investments, real-estate and in some cases private investments.

Initial public offerings (IPOs) are currently not available through LIFETIME WEALTH MANAGEMENT

Divorce Consulting – Non-Investment Management

One of the firm's services provided is Divorce Consulting via the firm's CDFA, Certified Divorce Financial Analyst. This service carries a fee of \$250/hr. and focuses on the division of assets and the effects of that division prior to the final divorce agreement. This service can be utilized by either the client's divorce attorney or by the client themselves. This service does not utilize the firm's Financial Planning Agreement or the firm's Advisory Service Agreement. This service utilizes a separate engagement letter signed either by the client's attorney or the client themselves.

Third Party Money Manager

The firm may utilize a third-party money manager to manage a portion of a client's portfolio. In doing so Lifetime Wealth Management may act as a sub-advisor. Additional fees will be incurred by the client when a third-party money manager is used. All third-party money managers we refer our clients will be properly registered with the appropriate regulator(s). The third-party money manager is granted authority by the client to manage and invest the client's assets.

Those who are referred to third party money managers will receive full disclosure, including services rendered and fee schedules at the time of the referral by delivery of a copy of the relevant third-party manager's ADV Part 2A

Brochure and privacy policy, prior to placing the assets with the third party manager.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying LIFETIME WEALTH MANAGEMENT in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the Client made an advance payment, LIFETIME WEALTH MANAGEMENT will refund any unearned portion of the advance payment.

LIFETIME WEALTH MANAGEMENT may terminate any of the aforementioned agreements at any time by notifying the Client in writing. If the Client made an advance payment, LIFETIME WEALTH MANAGEMENT will refund any unearned portion of the advance payment.

Assets Under Management

As of 12/31/2020, LIFETIME WEALTH MANAGEMENT P.C. managed approximately \$121,535,875 in assets for approximately 82 Clients. Of that amount, approximately \$119,115,128 is managed on a discretionary basis, and \$2,420,747 is managed on a non-discretionary basis.

Fees and Compensation

Description

LIFETIME WEALTH MANAGEMENT bases its fees on a percentage of assets under management, hourly charges, and fixed fees.

Financial plans are priced according to the degree of complexity associated with the Client's situation.

Fees are Negotiable for asset management but are non-negotiable for financial plans or hourly charges.

Fee Billing

Investment management fees are billed quarterly, in advance, meaning that we invoice you before the three-month billing period has begun. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated Client account to facilitate billing. The Client must consent in advance to direct debiting of their investment account.

Fees for financial plans are traditionally billed 50% in advance, with the balance due upon delivery of the financial plan. In certain situations, where unique complexities exist, a progress billing method is used.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the Custodian charges to buy or sell the security.

LIFETIME WEALTH MANAGEMENT, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.).

In order to better advise/consult clients, Investment Advisors of Lifetime Wealth Management, may also be licensed insurance agents, holding life and/or Property and Casualty licenses. Jason A. Potts, 100% Stockholder of Lifetime Wealth Management, is also a 100% Stockholder of Lifetime Insurance Services, Inc. As a result of this, if you elect to buy insurance products, then Investment Advisors of Lifetime Wealth Management, who are also licensed insurance agents of Lifetime Insurance Services, Inc. could receive a commission from the insurance sales, which includes life, accident, disability, fixed annuities and property and casualty. This presents a conflict of interest because they could receive a commission for these services, which is separate and outside of services provided to you by Lifetime Wealth Management. While the receipt of additional compensation creates a potential conflict of interest, our clients are under no obligation to purchase insurance products through agents of Lifetime Insurance Services, Inc. Lifetime Insurance Services, Inc. also employs insurance agents that are not employed by Lifetime Wealth Management. Lifetime Wealth Management believes that our recommendations are in the best interest of our clients and are consistent with our client's needs.

Jason A. Potts is also 80% Shareholder of Lifetime Tax Advisors, Inc., a tax advising firm providing compliance, tax and consulting services and tax preparation to clients which is separate from portfolio management, financial planning, consulting and other services provided to you by Lifetime Wealth Management. Therefore, clients of Lifetime Wealth Management, may also be clients of Lifetime Tax Advisors, Inc.

Expense Ratios

Mutual funds and exchange traded funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to LIFETIME WEALTH MANAGEMENT.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

LIFETIME WEALTH MANAGEMENT reserves the right to stop work on any account that is more than 30 days overdue. In addition, LIFETIME WEALTH MANAGEMENT reserves the right to terminate any financial planning engagement where a Client has willfully concealed or has refused to provide pertinent information about their financial situations when necessary to provide proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees and Side-By-Side Management

Performance-Based Fees

Lifetime Wealth Management does not currently charge performance-based fees (e.g., fees based on a share of capital gains or capital appreciation of the assets in a client's account) or engage in side-by-side management.

Types of Clients

Description

LIFETIME WEALTH MANAGEMENT generally provides investment advice to individuals, estates, charitable organizations, corporations and/or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$500,000 of assets under management and/or a minimum net worth of 2 million.

LIFETIME WEALTH MANAGEMENT has the discretion to waive the account minimums. Other exceptions will apply to employees of LIFETIME WEALTH MANAGEMENT and their relatives, or relatives of existing Clients or Client relationships that existed prior to the account minimum rate being set to \$500,000 and/or a minimum net worth of 2 million.

Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by Clients with greater assets under management.

Some Client contracts may reflect a higher/lower management fee that was agreed upon prior to the existing fee schedule and prior to the account minimums being set at \$500,000 and/or a minimum net worth of 2 million.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and macroeconomic analysis.

The main sources of information include primary and secondary research from trade publications, magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing and trend-following services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that LIFETIME WEALTH MANAGEMENT may use include Zacks, Morningstar, CFRA, Bloomberg, Charles Schwab & Company's "SchwabLink" service, Advisor Intelligence, CFA Institute research publications, Wall Street Journal, Barron's and other financial media articles, Seeking Alpha, Twitter, and other various internet-sourced research including buy-side and sell-side research reports.

Investment Strategies

The primary investment strategy used on Client accounts is strategic risk assessment utilizing a core and satellite approach. This means that we use passively-managed index and exchange-traded funds along with actively managed funds and/or managers where we feel that there are additional opportunities. Several portfolios are globally diversified to control the risk associated with traditional markets. Some portfolios will contain individual stocks.

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time. Each Client executes an Investment Policy Statement that documents their objectives and their desired investment strategy and risk tolerances.

Other strategies may include long-term purchases and short-term purchases.

The firm may utilize a third-party money manager to manage a portion of a client's portfolio. In doing so Lifetime Wealth Management may act as a sub-advisor. Additional fees will be incurred by the client when a third-party money manager is used.

Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- Interest-rate Risk: Changes in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on

existing bonds become less attractive, causing their market values to decline.

- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not. Private investments may have no liquidity from time to time.
- **Financial Risk:** Excessive borrowing to finance a business' operations can decrease a company's ability to make a profit. This is because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Clients should acknowledge these risks and understand how these risks can negatively impact the value of their investments. Marketable investments have no guarantees and have the potential to lose principal.

Personal Trading

The Chief Compliance Officer of LIFETIME WEALTH MANAGEMENT is Jason A Potts. He reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of employees does not affect the markets, and that Clients of the Firm receive preferential treatment. Since most employee trades are small mutual fund trades or exchange-traded fund trades, the trades do not affect the securities markets.

Brokerage Practices

Selecting Brokerage Firms/Custodians

LIFETIME WEALTH MANAGEMENT does not affiliate with product sales firms. Specific Custodian recommendations are made to Clients based on their need for such services. LIFETIME WEALTH MANAGEMENT recommends Custodians based on the proven integrity and financial responsibility of the Firm and the best execution of orders at reasonable commission rates.

LIFETIME WEALTH MANAGEMENT recommends discount brokerage Firms and trust companies (qualified Custodians), such as Charles Schwab Institutional and Interactive Brokers. LIFETIME WEALTH MANAGEMENT is an advisor with Charles Schwab Institutional and Interactive Brokers.

Soft Dollars

LIFETIME WEALTH MANAGEMENT receives from Charles Schwab Institutional access to product research, services, technology and other educational information to help us operate efficiently, grow our business and deliver exceptional service to you. Schwab may provide some or all of these services. You are not charged for these services and the information received may be used to benefit all clients of our Firm.

Order Aggregation

Most trades are executed whereby trade aggregation does not garner any Client benefit, however, on rare occasions, when a block trade is necessary LIFETIME WEALTH MANAGEMENT uses a time weighted algorithmic model to place trades which allows common pricing to affected Clients.

Review of Accounts

Periodic Reviews

Account reviews are performed quarterly by the firm's Investment Advisors. Account reviews are performed more or less frequently when market conditions dictate.

Review Triggers

Other conditions that may trigger a review are changes in the tax laws, new investment information, atypical market or economic conditions, and changes in a Client's own situation.

Regular Reports

Account reviewers are the firm's Investment Advisors. They are instructed to consider the Client's current security positions and the likelihood that the performance of each security will contribute to the investment objectives of the Client.

Clients receive paper quarterly Performance Reports and Billing Statements. Clients also receive annually: Privacy Policy Statement, ADV, Business Continuity Plan, Cyber Risk Policy, a list of Access Persons and the offer to update investment objectives and risk tolerances which is also offered quarterly.

LIFETIME WEALTH MANAGEMENT has entered into written agreements with certain affiliated investment adviser representatives to compensate them for referring clients to us. We will pay these individuals (referred to as "solicitors") a percentage of the advisory fee that you pay us if it is determined that you have become a client of ours as a result of their direct or indirect efforts. The payments we make to a solicitor will not result in an increase in the amount of the advisory fee that you pay. The Solicitor will be properly registered (where applicable) and the arrangement will be disclosed in writing to all clients

referred by the Solicitor. A copy of such disclosure will be signed by you and will be maintained in our files.

The Client approves the Custodian to be used and the commission rates paid to the Custodian. LIFETIME WEALTH MANAGEMENT does not receive any portion of the transaction fees or commissions paid by the Client to the Custodian on certain trades.

Discretionary trading authority facilitates placing trades in Client accounts so that we may promptly implement the investment policy that the Client has approved in writing.
