Item 4 Advisory Business

- A. Lighthouse Financial Advisors, Inc., LLC (the “Registrant”) is a corporation formed in the State of New Jersey in May 1999, which became a registered investment adviser in June 1999. Robert B. Walsh, President, owns the majority of the Registrant.
- B. As discussed below, the Registrant offers to its clients comprehensive financial planning and investment advisory services, tax, estate planning, risk management, retirement planning, and business development services.

WEALTH MANAGEMENT SERVICES

The client can engage the Registrant to provide holistic comprehensive financial planning and implementation services on a fixed, *fee only* basis (“Wealth Management Services”). This program is designed for clients seeking ongoing advice, education and implementation assistance, which also includes four to eight scheduled meetings during the initial year, and two to four scheduled meetings during future years. Additional face-to-face, email and/or phone consultations are included at no additional charge.

Wealth Management Services may include: discretionary or non-discretionary investment advisory services, tax preparation, tax planning, insurance review, budgeting & cash flow, inventory of assets and liabilities, analysis of financial goals, portfolio analysis, development of an asset allocation strategy, no-load mutual fund recommendations, retirement planning and estate plan reviews.

The goals and objectives of each client are discussed and/or documented in writing¹. Financial plans including tax and investment strategies are created that reflect the stated goals and objectives. In some cases, clients may impose restrictions on investing in certain securities or types of securities.

FINANCIAL REVIEW SERVICES

On a limited basis, Registrant recommends a financial review session held over the course of a three-hour meeting in exchange for a single payment, for clients without complex financial objectives.

RETIREMENT PLAN CONSULTING SERVICES

The Registrant also provides non-discretionary retirement plan consulting services, pursuant to which it assists sponsors of self-directed retirement plans with the selection and/or monitoring of investment alternatives (generally open-end mutual funds). The terms and conditions of the engagement shall be set forth in a Retirement Plan Consulting Agreement between the Registrant and the plan sponsor.

TAX PREPARATION SERVICES

To the extent requested by the client, Registrant *may* determine to provide tax preparation services on a stand-alone separate fee basis.

¹ Unless specifically documented, in writing, the Registrant is not responsible for ongoing monitoring or implementation of a client’s financial plan. Generally, the Registrant will only agree to implement the investment aspect of a client’s financial plan. Aspects of a financial plan involving estate planning and risk management will likely not be implemented by Registrant.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services.

To the extent requested by a client, Registrant may provide financial planning and related consulting services regarding non-investment related matters, such as estate planning, tax planning, insurance, etc. Brennan Guli is a licensed attorney; but under no circumstances will he provide legal advice to clients. The Registrant does not serve as a law firm, accounting firm, or insurance agency, and no portion of Registrant's services should be construed as legal, accounting, or insurance implementation services. Accordingly, Registrant does not prepare estate planning documents or sell insurance products. To the extent requested by a client, Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance agents, etc.). Clients are reminded that they are under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation made by Registrant or its representatives. If the client engages any unaffiliated recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional.

Non-Discretionary Service Limitations. Clients that determine to engage the Registrant on a non-discretionary investment advisory basis must be willing to accept that the Registrant cannot execute any account transactions without obtaining the client's consent. For instance, although the firm does not recommend market timing as an investment strategy, in the event of a market correction event where the firm cannot reach the client, a client may suffer investment losses or miss potential investment gains.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, it remains each client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives so that the Registrant may review and revise its previous recommendations and/or services.

Use of Mutual Funds: While the Registrant may recommend allocating investment assets to mutual funds that are not available directly to the public, the Registrant may also recommend that clients allocate investment assets to publicly available mutual funds that the client could obtain without engaging Registrant as an investment adviser. However, if a client or prospective client determines to allocate investment assets to publicly available mutual funds without engaging Registrant as an investment adviser, the client or prospective client would not receive the benefit of Registrant's initial and ongoing investment advisory services. Other mutual funds, such as those issued by Dimensional Fund Advisors ("DFA"), are generally only available through registered investment advisers. Registrant may allocate client investment assets to DFA mutual funds. Therefore, upon the termination of Registrant's services to a client, restrictions regarding transferability or additional purchases of, or reallocation among DFA funds will apply, and a client may incur tax consequences. **Registrant's Chief Compliance Officer, Brennan Gulli, remains available to address any questions that a client or prospective client may have regarding the above.**

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the

Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.

- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2020, the Registrant managed \$509,788,799, of which it managed \$59,043,671 on a discretionary basis and \$450,745,128 on a non- discretionary basis.

Item 5 Fees and Compensation

A. WEALTH MANAGEMENT SERVICES

Before engaging the Registrant to provide investment Wealth Management Services, clients are required to enter into an agreement setting forth the terms and conditions of the engagement and the fees and services to be provided.

The Registrant's negotiable annual Wealth Management Services fee is dependent on various objective and subjective factors, including the scope and complexity of the service being offered, the amount of assets under management, anticipated future earning capacity, anticipated future additional assets, related accounts, account composition, negotiations with the client and the qualifications of the professional(s) rendering the service(s). The Registrant generally requires a minimum annual Wealth Management Services fee of \$5,000. The Registrant, in its sole discretion, may charge a lesser investment management fee based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.). The annual Wealth Management Services fee shall not, at any time, exceed an amount equal to more than 2% of the client's assets under Registrant's advisement.

First year: The annual fee for the first year generally ranges between \$5,000 and \$60,000, which is based upon several objective and subjective factors including but not limited to assets, income, complexity, the scope of the services and the professional rendering the services. The annual fee is due quarterly, in advance, at the beginning of each quarter. For first years that are less than a calendar quarter, the Registrant will prorate the fee accordingly.

Future Years: Registrant's annual fee for ongoing Wealth Management Services may be reduced in future years, in the Registrant's sole discretion, with a minimum fee of \$5,000. These fees are billed in quarterly installments at the beginning of each quarter.

Add-ons, Credits, and Miscellaneous Adjustments: Upon review and a separate written agreement with the client, additional charges may be assessed for the preparation of an amended tax return prepared or for additional tax returns prepared for dependents of the client.

FINANCIAL REVIEW SERVICES

Registrant charges \$900 for a three-hour financial review consultation, or \$720 if the financial review client is referred by an existing client. The fee is payable in two equal installments, one-half at the signing of the agreement and the other half at the time of the consultation. Clients may cancel the financial review services at any time by providing

written notice. Upon cancellation, Registrant will present the client with an invoice for time spent, which is payable upon receipt.

RETIREMENT PLAN CONSULTING

Registrant's retirement plan consulting fee is negotiable, but based upon certain criteria including but not limited to: anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, scope of the service(s) required, and the professional(s) rendering the service(s).

TAX PREPARATION SERVICES

To the extent requested by the client, Registrant may determine to provide tax preparation services on a stand-alone separate flat-fee basis ranging between \$200 and \$10,000 depending upon the complexity of the engagement. Registrant and the client will agree upon the specific fee before Registrant commences tax preparation services. Registrant reserves the right to reduce or waive tax preparation fees.

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. An addendum to Registrant's Wealth Management Agreement and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's Wealth Management Services fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice. The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon agreed annual retainer incorporated into the Wealth Management Agreement.
- C. As discussed below, the Registrant may recommend the services of a broker-dealer/custodian for client investment management assets. Broker-dealers charge brokerage commissions and/or transaction fees for effecting certain securities transactions (i.e. transaction fees are charged for certain no-load mutual funds, commissions are charged for individual equity transactions, and mark-ups and mark-downs are charged for fixed income transactions). In addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses). When beneficial to the client, individual fixed-income and/or equity transactions may be effected through broker-dealers with whom Registrant and/or the client have entered into arrangements for prime brokerage clearing services, including effecting certain client transactions through other SEC registered and FINRA member broker-dealers (in which event, the client generally will incur both the transaction fee charged by the executing broker-dealer and a "tradeaway" fee charged by the custodian).
- D. Registrant's annual wealth management fee shall be prorated and paid quarterly, in advance. The Registrant generally requires a minimum Wealth Management Services fee of \$5,000 for the first year, but may, in its sole discretion, charge a lesser minimum fee based upon certain criteria including but not limited to: anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc. Similar advisory services may be available from other investment advisers for similar or lower fees. The Wealth Management Agreement between the Registrant and the client will continue in

effect until terminated by either party by written notice in accordance with the terms of the Wealth Management Agreement. Upon termination, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter.

- E. Neither the Registrant nor any of its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients generally include: individuals, high net worth individuals, pension and profit sharing plans, non-profits, and business entities. Please see Item 5 above for information about the Registrant's minimum fees.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. Registrant may utilize the following methods of security analysis:
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
 - Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)
 - Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when offering investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

- B. The Registrant's method of analysis and investment strategy does not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis, the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the

Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases and Short Term Purchases are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy. Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- C. Currently, the Registrant primarily recommends clients invest in assets among various individual equity (stocks), debt (bonds), and fixed income securities, mutual funds and/or exchange traded funds ("ETFs") on a discretionary or non-discretionary basis in accordance with the client's designated investment objective(s).

Item 9 Disciplinary Information

The Registrant has not been the subject of a disciplinary action.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. Registrant has no other relationship or arrangement with a related person that is material to its advisory business.
- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons.” The Registrant’s securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Furthermore, Access Persons must provide the Chief Compliance Officer with a quarterly transaction report, detail all trades in the Access Person’s account during the previous quarter; and on an annual basis, each Access Persons must provide the Chief Compliance Officer with a written report of the Access Person’s current securities holdings.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

Item 12 Brokerage Practices

- A. Prior to engaging Registrant to provide Wealth Management Services, the client will execute a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending a broker-dealer/custodian to clients include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant’s clients shall comply with the Registrant’s duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking

best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment management fee. The Registrant's obligation to seek best execution is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer or custodian, the Registrant receives from such broker-dealers or custodians (or another broker-dealer/custodian, investment platform, unaffiliated investment manager, mutual fund sponsor, or vendor) without cost (and/or at a discount) support services or products, certain of which assist the Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by the Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

As indicated above, certain of the support services and/or products assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise.

Registrant's clients do not pay more for investment transactions effected and/or assets maintained at a broker dealer/custodian as a result of this arrangement. There is no corresponding commitment made by the Registrant to a broker dealer/custodian or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

The Registrant's Chief Compliance Officer, Brennan Guli, remains available to address any questions that a client or prospective client may have regarding the above arrangement and the conflict of interest this arrangement creates.

2. The Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts

managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance. Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

The Registrant's Chief Compliance Officer, Brennan Guli, remains available to address any questions that a client or prospective client may have regarding the above arrangement.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or "bunch" such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant's clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides Wealth Management services, account reviews are conducted on an ongoing basis by the Registrant's representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant *may* conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receive certain economic benefits from a broker dealer/custodian.
- B. Neither the Registrant, nor any of its supervised persons compensate any individual for client referrals.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Item 16 Investment Discretion

The client can engage the Registrant to provide investment advisory services on a discretionary basis. Before the Registrant assumes discretionary authority over a client's account, the client is required to execute a discretionary Wealth Management Agreement, naming the Registrant as the client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.

- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.
- B. Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. Registrant has not been the subject of a bankruptcy petition.

ANY QUESTIONS: The Registrant's Chief Compliance Officer, Brennan Guli, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
