Professional Experience:

Steven Wood, CFA, who has focused on distressed, deep value and special situations investment strategies, founded GreenWood Investors in 2010 based on core beliefs that great investment returns require a concentrated group of only the most opportunistic securities and must look beyond short-term results. Steven leads the GreenWood team, which conducts thorough research on our global opportunity set, prioritized by our ranking framework. This research is published and shared with our collaborative group of sophisticated investors, businessmen and entrepreneurs. Complete transparency and liquidity, core principles for GreenWood, ensure an alignment of interest with all of our stakeholders.

Wood deepened his knowledge of distressed, deep value, and special situations strategies as the research analyst at Carr Securities from 2009-2013. He began his career with the special situations team at Kellogg Capital Group, and later worked as an investment banking analyst for RBC Capital Markets in the Syndicated and Leveraged Finance group. Walter Carucci at Carr Securities provided the inspiration for founding GreenWood Investors. "Wally World," was one where neglected or event-driven names would get shared among a trustworthy group of intelligent investors who collaborated on research.

In 2017, Wood founded the Builders Institute, an educational non-profit, to bring the same message of long-term value creation to a much broader audience. As GreenWood Investors has increasingly looked to support the value-builders managing our investments, the Builders Institute will expand this support beyond our portfolio.

Since 2016, he has also served on the Investment Advisory Board of Cortland Associates, a value-oriented St. Louis-based investment advisor.

Since 2019, he has also served as a Non-Executive Director on the Board of Directors of Correios de Portugal, S.A., a Portuguese based company.
