This brochure provides information about the qualifications and business practices of Stonepeak Partners LP (Stonepeak). If you have any questions about the contents of this brochure, please contact us at 212-907-5100 or at information@stonepeakpartners.com.

The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission ("SEC") or by any state securities authority. Additional information about Stonepeak is also available on the SEC's website at www.adviserinfo.sec.gov.

Item 2 - Material Changes

This brochure contains no material changes from Part 2A of the Adviser's last annual update to the Form ADV dated March 30, 2020 other than to update Item 4 to reflect the retirement of Mr. Trent Vichie from Stonepeak. Item 4 has also been updated to reflect the addition of Stonepeak Asia Fund Advisors LLC as a relying adviser. Item 8 has been updated to expand upon the description of certain risk factors. In addition, Item 11 has expanded upon the description of certain potential conflicts of interest.

Item 4 - Advisory Business

Stonepeak Partners LP (“Adviser” or “Stonepeak”) is a limited partnership formed under the laws of Delaware. The Adviser and Stonepeak Advisors LLC, Stonepeak Advisors II, LLC, Stonepeak Advisors III LLC, Stonepeak Advisors IV LLC, Stonepeak Credit Advisors LLC, Stonepeak Advisors Holdings LLC, Stonepeak Global Renewables Advisor LLC and Stonepeak Asia Fund Advisors LLC (as described more fully below) (each, a “Relying Adviser” and collectively, the “Relying Advisers”, and together with the Adviser, the “Advisers”) collectively provide direct and indirect investment advisory services to private fund clients (each, a “Fund Client” and collectively, the “Fund Clients”). As such, the Advisers are together filing a single Form ADV.

Stonepeak has been in business since March 2011 and is independently-owned and under the direction of Mr. Michael Dorrell. Previously, Mr. Dorrell controlled and operated Stonepeak together with Mr. Trent Vichie; however, Mr. Vichie retired from Stonepeak and, as a result, Mr. Dorrell, as Chairman, Chief Executive Officer and Co-Founder of Stonepeak, is responsible for all day-to-day operations and management decisions of Stonepeak, including monitoring and managing the capacity of the investment teams to source, execute and monitor deals in the pursuit of a Fund Client’s investment strategy.

Stonepeak is owned and controlled by Mr. Dorrell by virtue of his sole ownership of Stonepeak Partners LLC, the general partner of Stonepeak (“Stonepeak Partners GP”), and by virtue of being the sole member of a limited partner of Stonepeak. Certain Stonepeak employees are also direct or indirect limited partners of Stonepeak and entitled to a portion of its profits.

Stonepeak is the managing member of the Relying Adviser Stonepeak Advisors Holdings LLC, a Delaware limited liability company (“SAH”). SAH is the sole member of another Relying Adviser Stonepeak Advisors LLC, a Delaware limited liability company (“Stonepeak Advisors I”). Stonepeak Advisors I is the investment manager of Stonepeak Infrastructure Fund LP, a Delaware limited partnership (“Stonepeak Fund I”) and any related co-investment vehicles. In addition, Stonepeak is the sole member of the Relying Adviser Stonepeak Advisors II, LLC, a Delaware limited liability company (“Stonepeak Advisors II”). Stonepeak Advisors II is the investment manager of Stonepeak Infrastructure Fund II LP, a Delaware limited partnership (“Stonepeak Fund II”) and any related co-investment vehicles. Stonepeak is also the sole member of the Relying Adviser Stonepeak Advisors III LLC, a Delaware limited liability company (“Stonepeak Advisors III”). Stonepeak Advisors III is the investment manager of Stonepeak Infrastructure Fund III LP, a Delaware limited partnership (“Stonepeak Fund III”) and any related co-investment vehicles. Stonepeak is also the sole member of the Relying Adviser Stonepeak Advisors IV LLC, a Delaware limited liability company (“Stonepeak Advisors IV”). Stonepeak Advisors IV is the investment manager of Stonepeak Infrastructure Fund IV LP, a Delaware limited partnership (“Stonepeak Fund IV DE”), and Stonepeak Infrastructure Fund IV (Lux) SCSp, a Luxembourg special limited partnership (“Stonepeak Fund IV Lux” and, together with Stonepeak Fund IV DE, “Stonepeak Fund IV”) and any related co-investment vehicles. In addition, Stonepeak is the sole member of the Relying Adviser Stonepeak Credit Advisors LLC, a Delaware limited liability company (“Stonepeak Credit Advisors I”). Stonepeak Credit Advisors I is the investment manager of Stonepeak Infrastructure Credit Fund I LP, a Delaware limited partnership (“Stonepeak Credit Fund I”) and any related co-investment vehicles. In addition, Stonepeak is the sole member of the Relying Adviser Stonepeak Global Renewables Advisor LLC, a Delaware limited liability company (“Stonepeak Renewables Advisor”). Stonepeak Renewables Advisor is the investment manager of Stonepeak Global Renewables Fund LP, a Cayman Islands exempted limited partnership (“Stonepeak Renewables Fund Cayman”), and Stonepeak Global Renewables Fund (Lux) SCSp, a Luxembourg special limited partnership (“Stonepeak Renewables Fund Lux” and, together with Stonepeak Renewables Fund Cayman, “Stonepeak Renewables Fund” and, together with Stonepeak Fund I, Stonepeak Fund II, Stonepeak Fund III, Stonepeak Fund IV, Stonepeak Credit Fund I and any parallel funds of each of the foregoing, the “Stonepeak Funds”). In addition, Stonepeak is the sole member of the Relying Adviser

Stonepeak Asia Fund Advisors LLC, a Delaware limited liability company (“Stonepeak Asia Fund Advisors”, together with Stonepeak Advisors I, Stonepeak Advisors II, Stonepeak Advisors III, Stonepeak Advisors IV, Stonepeak Renewables Advisor and Stonepeak Credit Advisors I, the “Stonepeak Advisors”). It is contemplated that Stonepeak Asia Fund Advisors will, in the future, serve as the investment manager to a new Fund Client that is expected to focus on making infrastructure investments primarily located in the Asia Pacific region. In the future, the Stonepeak Advisors may advise other Fund Clients.

Mr. Dorrell is also the managing member of Stonepeak GP Investors Manager LLC, a Delaware limited liability company (“GP Investors Manager”). GP Investors Manager is the managing member of Stonepeak GP Investors LLC, a Delaware limited liability company (“Stonepeak GP Investors I”). Stonepeak GP Investors I is the general partner of Stonepeak GP Holdings LP, a Delaware limited partnership (“Stonepeak GP Holdings I”). Stonepeak GP Holdings I is the sole member of Stonepeak Associates LLC, a Delaware limited liability company (“Stonepeak GP I”). Stonepeak GP I is the general partner of Stonepeak Fund I and any related co-investment vehicles (other than Golden Bridge Holdings, L.P.). GP Investors Manager is also the managing member of Stonepeak GP Investors II LLC, a Delaware limited liability company (“Stonepeak GP Investors II”). Stonepeak GP Investors II is the general partner of Stonepeak GP Holdings II LP, a Delaware limited partnership (“Stonepeak GP Holdings II”). Stonepeak GP Holdings II is the sole member of Stonepeak Associates II LLC, a Delaware limited liability company (“Stonepeak GP II”). Stonepeak GP II is the general partner of Stonepeak Fund II and certain related co-investment vehicles. GP Investors Manager is also the managing member of Stonepeak GP Investors III LLC, a Delaware limited liability company (“Stonepeak GP Investors III”). Stonepeak GP Investors III is the general partner of Stonepeak GP Holdings III LP, a Delaware limited partnership (“Stonepeak GP Holdings III”). Stonepeak GP Holdings III is the sole member of the Stonepeak Associates III LLC, a Delaware limited liability company (“Stonepeak GP III”). Stonepeak GP III is the general partner of Stonepeak Fund III and certain related co-investment vehicles. GP Investors Manager is also the managing member of Stonepeak GP Investors IV LLC, a Delaware limited liability company (“Stonepeak GP Investors IV” and, together with Stonepeak GP Investors I, Stonepeak GP Investors II and Stonepeak GP Investors III, “Stonepeak GP Investors”). Stonepeak GP Investors IV is the sole member of Stonepeak Associates IV LLC, a Delaware limited liability company (“Stonepeak GP IV Delaware”). Stonepeak GP IV Delaware is the general partner of Stonepeak Fund IV DE and certain related co-investment vehicles. In addition, GP Investors Manager is the sole member of Stonepeak Credit Associates LLC, a Delaware limited liability company (“Stonepeak Credit GP I”). Stonepeak Credit GP I is the general partner of Stonepeak Credit Fund I. Mr. Dorrell is the managing member of Stonepeak GP Investors Manager (Cayman) LLC, a Cayman Islands limited liability company (“GP Investors Manager Cayman”). GP Investors Manager Cayman is the managing member of Stonepeak GP Investors IV (Cayman) LLC, a Cayman Islands limited liability company (“Stonepeak GP Investors IV Cayman”). Stonepeak GP Investors IV Cayman is the sole shareholder of Stonepeak Associates IV (Lux) S.à r.l. a Luxembourg private limited liability company (“Stonepeak GP IV Lux” and, together with Stonepeak GP IV Delaware, “Stonepeak GP IV”). Stonepeak GP IV Lux is the general partner of Stonepeak Fund IV Lux. In addition, Mr. Dorrell is the managing member of Stonepeak GP Investors Global Renewables Manager (Cayman) LLC, a Cayman Islands limited liability company (“GP Investors Renewables Manager”). GP Investors Renewables Manager is the managing member of Stonepeak GP Global Renewables Investors LLC, a Cayman Islands limited liability company (“Stonepeak GP Renewables Investors”). Stonepeak GP Renewables Investors is the sole member of Stonepeak Global Renewables Associates LLC, a Cayman Islands limited liability company (“Stonepeak GP Renewables Cayman”). Stonepeak GP Renewables Investors is the sole shareholder of Stonepeak Global Renewables Associates (Lux) S.à r.l., a Luxembourg private limited liability company (“Stonepeak GP Renewables Lux”, together with Stonepeak GP Renewables Cayman, “Stonepeak GP Renewables”, and together with Stonepeak GP I, Stonepeak GP II, Stonepeak GP III, Stonepeak GP IV Delaware, Stonepeak GP IV Lux and Stonepeak Credit GP I, “Stonepeak GPs”). Stonepeak GP Renewables Cayman is the general partner of Stonepeak Renewables Fund Cayman. Stonepeak GP

Renewables Lux is the general partner of Stonepeak Renewables Fund Lux. In the future, the Stonepeak GPs may be the general partner of other Fund Clients.

TIAA-Stonepeak Investments II, LLC, a Delaware limited liability company (“TIAA Advisor Investor”), owns a minority interest of SAH as a member thereof, a minority interest of Stonepeak GP Holdings I as a limited partner thereof, a minority interest of Stonepeak GP Holdings II as a limited partner thereof and a minority interest of Stonepeak GP Holdings III as a limited partner thereof. Through its interests in SAH, Stonepeak GP Holdings I, Stonepeak GP Holdings II and Stonepeak GP Holdings III, TIAA Advisor Investor has indirect interests in Stonepeak Advisors I, Stonepeak GP I, Stonepeak GP II and Stonepeak GP III, respectively. TIAA Advisor Investor has no ownership interest in Stonepeak or Stonepeak Partners GP. TIAA Advisor Investor is an affiliate of Teachers Insurance and Annuity Association, a stock life insurance company (“TIAA”).

In addition, in November 2018, Stonepeak entered into a preferred equity financing transaction with certain private investment funds affiliated with Landmark Equity Advisors, LLC (collectively, “Landmark”) pursuant to which Landmark is entitled to receive, indirectly vis-à-vis their limited partnership interests in Stonepeak Investment Holdings LP (the “SIH SPV”), a Delaware limited partnership controlled by an affiliate of the Adviser, repayment proceeds representing less than 10% of the management fee income from the Adviser and less than 25% of the carried interest from each of Stonepeak GP Investors I, Stonepeak GP Investors II and Stonepeak GP Investors III and any alternative investment vehicles thereof, as well as proceeds from other investments (including, direct or indirect investments in Stonepeak Funds) acquired by the SIH SPV with proceeds from the financing transaction (if any), until such time as the repayment and/or return conditions have been met pursuant to the terms of the governing documents of the SIH SPV.

In connection with Stonepeak GP I and Stonepeak Fund I, Stonepeak GP Holdings I has established (a) a three-member steering committee consisting of Mr. Dorrell and two representatives designated by TIAA Advisor Investor (the “Steering Committee”), which meets regarding matters relating to Stonepeak Fund I, Stonepeak GP I and their investments, and (b) a three-member investment committee consisting of Mr. Dorrell and two members designated by TIAA Advisor Investor (the “Fund I Investment Committee”). The consent of a majority of the allocated votes of the Fund I Investment Committee (excluding the vote of any member involved in the sourcing of the investment under consideration) is required for all major investment decisions of Stonepeak GP I and Stonepeak Fund I. Mr. Dorrell has 60% of the vote for the Fund I Investment Committee and each member designated by TIAA Advisor Investor has 20% of the vote for the Fund I Investment Committee. Decisions of the Steering Committee and the Fund I Investment Committee similarly bind all actions of SAH (and accordingly, Stonepeak Advisors I) to the same extent as they bind Stonepeak GP I and Stonepeak GP Holdings I.

In connection with Stonepeak GP II and Stonepeak Fund II, Stonepeak GP Holdings II has established an investment committee, including Mr. Dorrell and each of the other senior managing directors involved in sourcing, executing and monitoring investments (the “Fund II Investment Committee”). The consent of a majority of the allocated votes of the Fund II Investment Committee (including the vote of Mr. Dorrell) is required for all major investment decisions of Stonepeak GP II and Stonepeak Fund II. Stonepeak GP Holdings II has not established a steering committee. Decisions of the Fund II Investment Committee shall similarly bind all actions of Stonepeak Advisors II to the same extent as they bind Stonepeak GP II and Stonepeak GP Holdings II.

In connection with Stonepeak GP III and Stonepeak Fund III, Stonepeak GP Holdings III has established an investment committee, including Mr. Dorrell and each of the other senior managing directors of Stonepeak involved in sourcing, executing and monitoring investments (the “Fund III Investment Committee”). The consent of a majority of the allocated votes of the Fund III Investment Committee (including the vote of Mr. Dorrell) is required for all major investment decisions of Stonepeak GP III and

Stonepeak Fund III. Stonepeak GP Holdings III has not established a steering committee. Decisions of the Fund III Investment Committee shall similarly bind all actions of Stonepeak Advisors III to the same extent as they bind Stonepeak GP III and Stonepeak GP Holdings III.

In connection with Stonepeak GP IV and Stonepeak Fund IV, Stonepeak GP Investors IV has established an investment committee, including Mr. Dorrell and each of the other senior managing directors involved in sourcing, executing and monitoring investments (the “Fund IV Investment Committee”). The consent of a majority of the allocated votes of such committee (including the vote of Mr. Dorrell) is required for all major investment decisions of Stonepeak Fund IV and its general partner. Stonepeak GP Investors IV has not established a steering committee. Decisions of the Fund IV Investment Committee shall similarly bind all actions of Stonepeak Advisors IV to the same extent as they will bind Stonepeak Fund IV and Stonepeak GP IV.

In connection with Stonepeak Credit GP I and Stonepeak Credit Fund I, GP Investors Manager has established an investment committee consisting of Mr. Dorrell, Mr. Jack Howell, Mr. Luke Taylor, Ryan Roberge, a managing director of Stonepeak and one other senior managing director of Stonepeak involved in sourcing, executing and monitoring investments (the “Credit Fund I Investment Committee”). The consent of a majority of the allocated votes of the Credit Fund I Investment Committee (including the vote of Mr. Dorrell) is required for all major investment decisions of Stonepeak Credit GP I and Stonepeak Credit Fund I. GP Investors Manager has not established a steering committee.

In connection with Stonepeak GP Renewables and Stonepeak Renewables Fund, GP Investors Renewables Manager has established an investment committee consisting of Mr. Dorrell, Hajir Naghdy, a senior managing director of Stonepeak, Michael Allison, a senior managing director of Stonepeak, and up to two other members rotating in from the managing directors or senior managing directors (the “Renewables Fund Investment Committee”). The consent of a majority of the allocated votes of the Renewables Fund Investment Committee (including the vote of Mr. Dorrell) is required for all major investment decisions of Stonepeak GP Renewables and Stonepeak Renewables Fund. However, from time to time, in connection with certain platform investments made by the Stonepeak Renewables Fund for which follow-on investments are a key tenet of the investment thesis, the Renewables Fund Investment Committee may, in its discretion, delegate investment approval authority with respect to certain of such follow-on investments to a sub-committee consisting of Mr. Naghdy, Mr. Allison and the relevant deal team. GP Investors Renewables Manager has not established a steering committee. Decisions of the Renewables Fund Investment Committee shall similarly bind all actions of Stonepeak Renewables Advisor to the same extent they bind Stonepeak GP Renewables and Stonepeak Renewables Fund.

In addition, in January 2021, Stonepeak announced the creation of the Global Energy Group, which consolidates Stonepeak deal team members focused on midstream energy, conventional power and utilities and renewable energy into a combined group that is led by Mr. Jack Howell and Mr. Hajir Naghdy. This group will help coordinate, pursue and execute investment opportunities across the broader energy value-chain, with a particular focus on investments aligned with the ongoing energy transition thematic. The establishment and operation of the group will not change the roles, responsibilities and time devotion of the members with respect to the Stonepeak Funds but rather is intended to provide greater organization and information sharing within the sector among the related team members.

The Advisers are governed by Mr. Dorrell.

The Advisers provide investment advisory (discretionary) services exclusively for Fund Clients. Services include: identification and evaluation of prospective investments for Fund Clients, negotiation and consummation of the acquisition and financing of companies and infrastructure assets and debt and equity securities, monitoring, directing management teams of portfolio investments, providing strategic input to

portfolio investment and performing administrative services for Fund Clients under an investment advisory agreement with each Fund Client.

The Advisers work alongside their business executives who have been retained specially for their deep operating experience in infrastructure sectors relevant to the Advisers' investment thesis (the "Operating Partners") (see "Item 5 – Fees and Compensation" for more information on the Operating Partners) and network of contacts to generate off-market deal flow in infrastructure assets that are primarily in the following sectors:

- Water & Utilities: including water distribution, treatment, desalination, waste, utility distribution systems, transmission lines, integrated waste businesses and municipal assets;
- Energy: pipelines, other midstream, power generation, renewables and storage assets;
- Transportation: rail, airports, roads and ports;
- Communications: towers, distributed antenna systems, small cells, fiber, data centers and related wireless and wireline infrastructure subsectors;
- Power & Renewables: conventional and renewable generation including storage assets; and
- Midstream Infrastructure: oil, gas and natural gas liquids transportation, processing and storage assets.

The Advisers provide investment advisory services to their Fund Clients pursuant to the terms of an investment advisory agreement with each Fund Client. Each investment advisory agreement tailors the advisory services provided to each Fund Client in a manner consistent with the investment objectives, limitations and manner of operation provided for in the private offering documentation and limited partnership agreement for the respective Fund Clients. These limitations often include:

- Diversification requirements: limitations are often placed on the aggregate percentage of capital commitments that may be invested in any one investment.
- Geographic limitations: limitations are often placed on the aggregate percentage of capital commitments that may be invested in certain geographic locations.
- Open market transactions: limitations are often placed on the aggregate percentage of capital commitments that may be used to purchase open market securities.
- Transactions with Portfolio Companies of other Fund Clients: limitations are often placed on the ability to acquire the debt of a portfolio company of another Fund Client.

The Adviser does not participate in wrap fee programs in providing portfolio management services.

The Advisers manage assets on a discretionary basis in the amount of \$32,227,579,751 as of December 31, 2020. The Adviser does not manage any assets on a non-discretionary basis.

Item 5 - Fees and Compensation

The following is a general description of the Adviser's approach with respect to fees and compensation. The Adviser's fees are calculated as a percentage of assets under advisement. Typically, management fees are payable quarterly in advance by each Fund Client based on the applicable negotiated management fee percentage of each investor in the Fund Clients of both (x) aggregate capital commitments (during the applicable investment period defined by the limited partnership agreements of the Fund Clients (the "LP Agreements")) and (y) capital contributions for investments that have not been disposed of (after the applicable investment period). However, with respect to Stonepeak Credit Fund I, management fees are payable quarterly in advance by Stonepeak Credit Fund I, based on the applicable negotiated management fee percentage of each investor in the Fund Client of such investor's share of Stonepeak Credit Fund I's net asset value. Further, with respect to Stonepeak Renewables Fund, management fees are paid quarterly in arrears by Stonepeak Renewables Fund, based on 1% of (x) aggregate capital commitments (during the investment period defined by the limited partnership agreement of Stonepeak Renewables Fund) and (y) the fair market value of investments that have not been disposed of (after the investment period). The management fees are negotiated with the investors of each Fund Client, and are subject to waiver or reduction by the Adviser at its sole discretion, including for investors that take steps to participate in the initial closing. Fees are funded from capital calls by each Fund Client and its investors and deducted directly from the Fund Clients' investor accounts, and paid to the Adviser quarterly in advance (or, in the case of Stonepeak Renewables Fund, in arrears).

Generally, the Adviser's Fund Clients bear all the costs of operating their fund(s). The third party and Adviser out-of-pocket costs of identifying and evaluating possible investments, acquiring or selling investments, and investment bank and broken deal fees and expenses as well as general organizational expenses, placement fees and other Fund Client expenses (to the extent the Adviser pays or otherwise advances any such amounts on a Fund Client's behalf), are charged to the Fund Client and are billed and allocated to investors by the Fund Client on a pro-rata basis based on each investor's committed capital. Subject to certain exceptions, co-investment vehicles generally do not bear their share of broken deal fees and expenses (such as reverse termination fees, forfeited deposits, extraordinary expenses such as litigation costs and judgments and other expenses) for unconsummated transactions and such fees will be paid by the Fund Clients. The costs and expenses of travel, meals, entertainment, lodging and related expenses in connection with investigating and monitoring prospective or actual transactions, as well as a Stonepeak Fund's investment activities, including airfare (whether private charter, first class, and/or business class) are borne by the relevant Fund Client(s) and can be substantial. In connection with certain business expenses borne by the Fund Clients, Stonepeak employees earn perquisites like airline "miles" or "points" or credit in loyalty/status programs (including credit card points), and such perquisites are not shared with the Fund Clients.

Expenses generated by the operation of the Stonepeak Funds are also to be borne by Fund Clients. Such costs and expenses generally include all fees, costs and expenses directly related to the purchase, monitoring, and sale of securities, expenses for and/or relating to custodians, bookkeeping, legal counsel, accountants, administrators, auditors, paying agents, depositaries, advisors (including tax advisors and senior advisors), deal finders, consultants, brokers, agents, valuation firms, operating partners and other third-party professionals, brokerage commissions, any insurance, indemnity or litigation expense, or the costs and expenses of any lenders, investment banks, and other financing sources or guarantees, expenses of any limited partner advisory committee (if any) of each Stonepeak Fund, any third-party advisory committees of a Fund Client formed by its general partner, solely with regard to Stonepeak Renewables Fund and to the extent not reimbursed by a portfolio company thereof, any out-of-pocket expenses incurred in connection with each Stonepeak Fund's legal, administrative, and regulatory compliance with U.S. federal, state, local, non-U.S., or other laws and regulations (including without limitation, expenses and other charges allocated or relating to such Fund's activities (including the preparation and filing of Form

PF or other reports to be filed with the U.S. Commodity Futures Trading Commission, Section 16 filings, Schedule 13D filings, Schedule 13G filings, Form 13F and Form 13H to be filed with the U.S. Securities and Exchange Commission, lobbyist registration and reports, notices or disclosures, filings and notifications prepared in connection with the laws and/or regulations of jurisdictions in which a Stonepeak Fund engages in activities, including any notices, reports and/or filings in compliance with the enabling legislation published in the Cayman Islands or required in accordance with the Directive 2011/61/EU of the European Parliament and of the European Council of 8 June 2011 on Alternative Investment Fund Managers, as amended, the European Union Sustainable Finance Disclosure Regulation and any other applicable legislation or regulations related to the European Commission's Action Plan on Financing Sustainable Growth and/or any related regulations, and other regulatory filings of the Adviser and its affiliates relating to the Stonepeak Funds' activities, but excluding regulatory expenses of the Adviser related to registering and maintaining its registration under the Investment Advisers Act of 1940 (the "Advisers Act") and compliance expenses of the Adviser thereunder (other than those incurred in connection with regulatory filings relating to a Stonepeak Fund's activities) and expenses of site visits, investigations or proceedings under the Advisers Act)) and any taxes, fees, or other governmental charges levied against the Stonepeak Funds, the cost of borrowings, guarantees, and other financing (including interest, fees and related legal expenses), any costs and expenses arising from any foreign exchange or other currency transactions, fees, costs and expenses related to the organization or maintenance of any non-U.S. entity used to acquire, hold or dispose of any one or more non-U.S. investment(s) (i.e., such entity is part of the investment structure), including without limitation any travel and accommodation expenses related to such non-U.S. entity and the salary and benefits of any personnel (including personnel of the applicable Adviser or its affiliates) reasonably necessary and/or advisable for legal, tax, and/or regulatory purposes for the maintenance and operation of such non-U.S. entity, or other overhead expenses in connection therewith, expenses associated with a Stonepeak Fund's compliance with applicable laws and regulations, expenses associated with auditing, research, reporting and technology, news and quotation equipment and services (including other notices and communications), including preparation of financial statements, tax returns, K-1s and other communications or notices relating to the applicable Stonepeak Fund, expenses of market data and research utilized in connection with specific proposed or actual investments, printing and publishing expenses, expenses of loan servicers, loan administrators or other third party service providers, expenses incurred with third parties associated with the development, negotiation, acquisition, obtaining regulatory approval for, settling, holding, monitoring and disposition of investments (including, without limitation, any sourcing, brokerage, custody, or hedging costs and travel and related expenses in connection with a Fund Client's investment activities), expenses of any arbitration pursuant to the terms of the governing documents of the applicable Fund Client (to the extent borne by such Fund Client as provided thereunder), the costs and expenses of insurance (including title insurance), bank fees, expenses of starting-up, terminating, winding up and liquidating and ultimately dissolving a Fund Client, the costs and expenses of any litigation, settlement or extraordinary expense or liability involving a Fund Client or any person in which a Fund Client holds an investment (directly or indirectly) or otherwise relating to such investment and the amount of any judgments, fines, remediation or settlements paid in connection therewith, expenses related to annual meetings of investors and investor reporting and costs and expenses of administering side letters entered into with investors (including the process of distributing and implementing applicable elections pursuant to any "most-favored-nations" clauses in side letters), to the extent not paid by any Stonepeak feeder fund or its partners, the fees, costs and expenses of such Stonepeak feeder funds (which fees, costs and expenses may be specially allocated to such Stonepeak feeder funds), including fees, costs and expenses as described in the applicable limited partnership agreement of a Fund Client applicable to such Stonepeak feeder fund, first class lodging, ground transportation, travel and premium meals (including, as applicable, closing dinners and mementos, cars and meals (outside normal business hours), and social and entertainment events with portfolio entity management, customers, clients, borrowers, brokers and service providers) and related costs and/or expenses incidental thereto. In addition, each Fund Client will bear its pro rata share of the Stonepeak Funds' and the Adviser's organization and startup expenses, including legal, accounting, filing, capital raising, and other organization expenses. Such organization

expenses also include airfare (whether private charter, first class, and/or business class), which can be substantial. Furthermore, placement fees will be funded by the Fund Clients, but such placement fees are applied to reduce the management fees otherwise payable to the Adviser.

In addition, subject to certain limitations set forth in the governing document of the SIH SPV (the “SIH SPV LPA”), the SIH SPV (and its limited partners) is also required to bear all SIH SPV expenses which are not ordinary-course internal operating expenses and office overhead expenses of its general partner required to be paid by such general partner pursuant to the SIH SPV LPA, including, but not by way of limitation, interest on borrowed money, third-party valuation and/or appraisal fees, brokerage fees, finders fees, investment banking fees, reasonable legal fees, any obligation to indemnify certain persons pursuant to the SIH SPV LPA, the premium for insurance coverage detailed in the SIH SPV LPA, audit fees and accounting fees and expenses, fees and expenses incurred in connection with the maintenance of a registered office and agent in the State of Delaware, taxes and other governmental charges applicable to the SIH SPV on account of its existence and/or operating fees, fees incurred in connection with the maintenance of bank of custodian accounts and fees, and expenses associated with the preparation of the SIH SPV’s financial statements and other reports contemplated by the SIH SPV LPA, tax estimates, tax returns and tax statements; to the extent not reimbursed by a prospective portfolio company, all out-of-pocket costs and expenses, if any, incurred by or on behalf of the SIH SPV in developing, negotiating and structuring prospective or potential investments that are not actually made, and extraordinary partnership expenses.

The Adviser earns or anticipates earning in the future from portfolio companies (whether held by a Fund Client and/or co-investors, as described below) break-up, topping, director and organization, commitment, financing, transaction, divestment, monitoring, asset management and other similar fees for closing, monitoring transactions and other types of activities in the conduct of its administration services provided to the Fund Clients and from un consummated transactions; each Fund Client’s pro rata share of such fees is generally credited 100% against the limited partners’ share of the management fees due from such Fund Client. Typically, the applicable LP Agreement will provide for a more comprehensive description of fees, expenses and funding mechanics, treatment and/or limitations involving possible co-investment opportunities and the allocation thereof to Fund Clients and non-clients, which will be negotiated between the Adviser and its Fund Clients on a case-by-case basis (and the description of fees and expenses herein is subject to the terms of the applicable LP Agreements). Prospective clients investing after the initial Fund closing will be responsible for their pro rata share of Stonepeak Fund expenses incurred prior to the second, or subsequent closings, as applicable.

From time to time, the Adviser will invite investors in Fund Clients or non-clients to co-invest in a particular portfolio company or other investment (typically to manage a Fund Client’s concentration in a specific investment or capital allocation strategy). Co-investment fees realized by the Adviser and the costs that the co-investor bears, including the extent to which a co-investor would share in any broken-deal costs, are negotiated by the Adviser on a case-by-case basis. These activities create a possible conflict of interest as the Adviser will receive fees in some cases that are not credited against management fees of the Fund Client. This will also typically result in the Fund Clients bearing all such broken-deal costs. In addition, co-investment fees realized by the Advisers with respect to co-investment vehicles are generally as high as half of that received with respect to Fund Clients and as low as zero. However, certain co-investment vehicles, including those that invest alongside multiple Stonepeak funds and which may be dedicated or “standing” co-investment vehicles, have different economic arrangements (e.g., management fees and carried interest) and investment strategies in respect of investments that are not made alongside a Stonepeak Fund and will be allocated such investments subject to and in accordance with the governing documents of the Fund Clients and Stonepeak’s allocation policy.

Each of Mr. Dorrell, Peter J. Bruce, the Chief Financial Officer and Chief Operating Officer of the Adviser, Jack Howell, a senior managing director of the Adviser, and Luke Taylor, a senior managing director of the Adviser (collectively, the “Senior Executives”) is a registered representative of MCP Securities, LLC (“MCP”), which is registered with the SEC as a broker-dealer and is a member of the Financial Industry

Regulatory Authority (“FINRA”). In certain limited circumstances involving the receipt of fees of the type described in the two paragraphs above, such activities will be carried out by the Senior Executives as registered representatives of MCP and fees payable will be paid in the first instance to MCP. Any net fees received by MCP (including, for the avoidance of doubt, the Senior Executives) in such circumstances will, for purposes of the management fee offset provisions under the applicable LP Agreements, be considered to have been received by the Adviser notwithstanding that payment will be made to the Senior Executives. It is not expected that the Senior Executives will engage in any activities in their capacities as registered representatives of MCP other than activities on behalf of, or in connection with, Fund Clients (or co-investors) and/or portfolio companies thereof.

Except in limited instances, management fees are non-refundable.

Finally, the Adviser and its affiliates also engage and retain strategic advisors, senior advisors, consultants, operating partners, industry experts, industrial specialists, joint venture and/or other partners and professionals (including, potentially, former Stonepeak employees as well as current and former executive officers of Stonepeak portfolio companies) (collectively, “Consultants”) who are not employees or affiliates of Stonepeak, SAH and Stonepeak Advisors and who will, from time to time, receive payments from, or allocations with respect to, portfolio companies (including, among other things, net transaction fees). The nature of the relationship with each of the Consultants and the amount of time devoted or required to be devoted by them varies considerably. In certain cases, they provide the Fund Clients and/or the Adviser with industry-specific insights and feedback on investment themes, assist in transaction origination, sourcing or due diligence, make introductions to and provide reference checks on management teams. In other cases, they take on more extensive roles and serve as executives or directors on the boards of portfolio companies or contribute to the identification and origination of new investment opportunities. Stonepeak Funds may rely on these Consultants to recommend Stonepeak and a Stonepeak Fund as a preferred investment partner but there is no assurance that any such Consultant will continue to be involved with Stonepeak and/or a Stonepeak Fund for any length of time.

In most instances, Stonepeak has formal arrangements with these Consultants, but on occasion the relationships are more informal. In certain cases, Consultants have attributes of Stonepeak “employees” (e.g., they may have dedicated offices at Stonepeak, receive administrative support from Stonepeak personnel, participate in general meetings and events for Stonepeak personnel or on Stonepeak matters as their primary or sole business activity, have Stonepeak-related e-mail addresses or business cards and participate in certain benefit arrangements typically reserved for Stonepeak employees), even though they are not Stonepeak employees, affiliates or personnel for purposes of the governing documents of the Stonepeak Funds, and their salary and related expenses are paid by the Stonepeak Funds as partnership expenses or by portfolio companies without any reduction or offset to management fees. Some Consultants work only for a Stonepeak Fund and its portfolio companies, while others may have other clients. Consultants could have conflicts of interest between their work for a Stonepeak Fund and its portfolio companies, on the one hand, and themselves or other clients, on the other hand, and Stonepeak is limited in its ability to monitor and mitigate these conflicts.

These Consultants are typically compensated (e.g., by receiving promote, net transaction fees, retainers, expense reimbursements, equity interests, etc.) from Stonepeak, Fund Clients and/or portfolio companies, though in certain circumstances they will remain uncompensated unless and until an engagement with a portfolio company develops. In such circumstances, such payments from, or allocations with respect to, portfolio companies and/or the Fund Clients will not, even if they have the effect of reducing any retainers or minimum amounts otherwise payable by Stonepeak, be deemed paid to or received by Stonepeak and such amounts will not be subject to the offset provisions as described above. These Consultants often have the right or are offered the ability to co-invest alongside the Fund Clients subject to reduced or waived management fees, carried interest and/or transaction fees, including in those investments in which they are

involved, or otherwise participate in equity plans for management of any such portfolio company. There can be no assurance that any of the Consultants will continue to serve in such roles and/or continue their arrangements with Stonepeak and/or any portfolio companies throughout the terms of Funds. From time to time, Stonepeak adds additional Consultants who were not acting as such, and thus were not named in offering documents, at the time of a Fund Client's offering.

Item 6 - Performance-Based Fees and Side-by-Side Management

The Adviser does not charge any performance-based fees (fees based on a share of capital gains or capital appreciation of the managed assets); however, the Adviser is affiliated with the general partners of its Fund Clients, which generally receive performance-based distributions (“Carry”). In addition, except as described above in Item 5, with respect to co-investment vehicles, general partners generally receive Carry at a rate as high as half of the rate of the Carry with respect to the Fund Clients (other than Stonepeak Credit Fund I) and as low as zero. None of the general partners of the Fund Clients receive Carry with respect to Stonepeak Credit Fund I.

The receipt of Carry presents a perceived conflict of interest and gives the Adviser or its supervised persons an incentive to recommend certain investments or the timing of exits to maximize either management fees or capital gains. With respect to Stonepeak Fund I, Stonepeak Fund II, Stonepeak Fund III, Stonepeak Fund IV and Stonepeak Renewables Fund and, in certain instances, their respective co-investment vehicles, this risk is generally mitigated by the investment by certain of the owners of the relevant general partner of a significant portion of their individual liquid net worth pro rata with such Fund Client’s investments and the Fund Client’s receipt of a preferred return of fund profits, the amount of which includes all fund expenses (including management fees).

In addition, in allocating investment opportunities, there could be incentives to favor Fund Clients with higher potential performance fees or Carry over Fund Clients with lower or no potential performance fees or Carry. As noted in Item 10 – “Other Financial Industry Activities and Affiliations,” there could also be incentives to favor the SIH SPV.

The Adviser has instituted an allocation policy to mitigate those conflicts. In particular, to seek to reduce the effect of such incentives, the Adviser has adopted a written investment allocation policy pursuant to which it seeks to allocate investment opportunities among Fund Clients and/or the SIH SPV in a fair and equitable manner, taking into account, among other factors, the size, investment objectives, acceptable risk levels, return targets, permissible asset classes, preferred asset classes and liquidity requirements of each Fund Client and/or the SIH SPV. This policy prohibits the allocation of investment opportunities based solely on anticipated compensation or profits to the Adviser or any of its affiliates or professionals and requires the review and approval of the relevant investment committees (comprised of senior Stonepeak personnel) for allocations of opportunities that may be appropriate for multiple Fund Clients and/or the SIH SPV. Each Fund Client and/or the SIH SPV typically has its own investment guidelines, governing agreements, and asset class focus that must be considered when making investment allocation determinations. Stonepeak Fund III has a first-look presumption for renewable energy investments as compared to Stonepeak Renewables Fund, Stonepeak Renewables Fund has a first-look presumption for renewable energy investments as compared to Stonepeak Fund IV and any successor fund thereof and Stonepeak Credit Fund I has a first-look presumption for non-control secondary and originated bonds, loans and other credit instruments in the infrastructure sector in North America as compared to any other Fund Client. Notwithstanding the foregoing, Stonepeak retains discretion to allocate any such investments to another Fund Client if it determines that such allocation is fair and reasonable in accordance with its allocation policy and applicable Fund Client governing documents. See “Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading” for additional information.

To the extent an investment opportunity is appropriate for more than one Fund Client and/or the SIH SPV, such investment opportunity will be allocated between such Fund Clients and/or the SIH SPV by the Stonepeak GPs on a basis that they believe in good faith to be fair and reasonable, taking into account, as applicable, the sourcing of the transaction, the nature of the investment focus of each such other vehicle, the relative amounts of capital available for investment, the terms of such Fund Clients’ and/or the SIH SPV’s governing documents and legal, tax, regulatory, accounting and other similar considerations deemed

relevant by the Stonepeak GPs in good faith. Furthermore, with respect to each Stonepeak private equity fund, the applicable Stonepeak GPs or their affiliates will not close any pooled investment fund and/or separate or managed account, in each case, having a substantially similar investment objective as such Fund Client (other than a parallel fund, feeder vehicle, any alternative investment vehicles and any co-investment vehicle, a “Similar Fund”) until at least 75% of the capital commitments have been invested, committed or reserved in investments, or until the end of the investment period. Any Similar Fund closed on or prior to the expiration of the investment period will invest in investments alongside the applicable Fund Client until the expiration of the investment period on the same terms and conditions in all material respects, with amounts for investment allocated between the applicable Fund Client and the Similar Fund on a basis that the Stonepeak GPs believe in good faith to be fair and reasonable, unless (i) the advisory committee of the applicable Fund Client consents, (ii) the investment by the applicable Fund Client is legally or contractually prohibited or (iii) as a result of the application of any law, regulation or governmental order, the investment could have a material adverse effect on the applicable Fund Client, the Stonepeak GPs or any of their affiliates. In addition, there is some overlap in the investment types permitted by the various Fund Clients. If the investment committee of more than one Fund Client approves a potential investment, Stonepeak will allocate the investment opportunity in accordance with its allocation policy and procedures. See “Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading” for additional information.

Item 7 - Types of Clients

Stonepeak offers investment advisory services exclusively to private investment funds that are exempt from registration under Section 3(c)(1) and/or Section 3(c)(7) of the Investment Company Act of 1940. Currently, the Advisers advise Stonepeak Fund I, Stonepeak Fund II, Stonepeak Fund III, Stonepeak Fund IV, Stonepeak Credit Fund I, Stonepeak Renewables Fund, and SIH SPV. It is contemplated that the Advisers, in the future, will advise a new Fund Client that is expected to focus on making infrastructure investments primarily located in the Asia Pacific region, and may advise additional Fund Clients as well. The Advisers also advise related co-investment vehicles.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Stonepeak uses a range of methods to identify, analyze and assess potential and existing investment opportunities. Generally, analytical methods used by the investment team can include gain/loss forecast models, cash-flow models, other financial modeling and simulation, risk sensitivity analysis, fundamental, technical, and cyclical analysis. The Adviser often employs specialist consultants to evaluate resource forecasts for wind, solar and other energy generation investments.

Investment Strategies – Stonepeak Infrastructure Funds

The strategy that the Adviser uses for Stonepeak Fund I, Stonepeak Fund II, Stonepeak Fund III, Stonepeak Fund IV and any related co-investment vehicles is to focus on what it considers to be lower-risk infrastructure investments in North America, with a bias toward platform build-out investments that are expected to offer, following the initial platform acquisition, the opportunity to put substantial additional capital to work at more attractive earnings multiples. The Adviser works with its Consultants and network of contacts to generate off-market deal flow in infrastructure assets that are primarily in the following sectors:

- **Water & Utilities:** including water distribution, treatment, desalination, waste, utility distribution systems, transmission lines, integrated waste businesses and municipal assets;
- **Energy:** pipelines, other midstream, power generation, renewables and storage assets;
- **Transportation:** rail, airports, roads and ports;
- **Communications:** towers, distributed antenna systems, small cells, fiber, data centers and related wireless and wireline infrastructure subsectors;
- **Power & Renewables:** conventional and renewable generation including storage assets; and
- **Midstream Infrastructure:** oil, gas and natural gas liquids transportation, processing and storage assets.

The Adviser expects to generate return alpha for the Fund Clients and possible other future Fund Clients by applying the following strategies:

- Highly pro-active deal sourcing, focusing on sectors where there are industry changes and getting out ahead of these trends;
- Disciplined value-driven investing, with a focus on critical valuation metrics including replacement cost and unlevered cash flow multiples;
- Conservative use of leverage providing cash flow returns earlier in the investment cycle;
- Investing in growth opportunities, which provide attractive follow-on investment opportunities and the real possibility of out-performing the base case;
- Operational efficiency improvement by applying industrial company best operating practices to protected monopoly assets;
- Bidding with high quality corporate partners who brings synergies/angles; and
- Paying attention to relative pricing between infrastructure sectors, which changes over time.

Differentiated Investment Sourcing

Differentiated investment sourcing is critical for superior returns in infrastructure investing where competition in auctions is relatively strong. The Adviser will focus on opportunities outside of the auction processes particularly in the middle-market.

Stonepeak seeks to generate less competitive opportunities through pro-active marketing to a network of industry contacts. Through the Adviser, a Fund Client may operate an active calling program in key infrastructure sectors aimed at staying ahead of, and operating outside of, competitive auction processes. Typically, the Adviser seeks to identify three or four market themes at any point in time that it feels will give rise to the most interesting investment opportunities. Within each of these themes, a target list of companies is identified that forms the core of the Fund Clients' deal origination marketing program. The Adviser has a relationship with many of these companies and it generally sources the remainder through its Operating Partners and other industry contacts.

Exit Strategies

The Adviser believes that it will be able to pursue a variety of exit options to maximize value through its flexibility with respect to both the timing and type of investment realizations and create liquidity for its Fund Clients and their investors. Stonepeak considers exit options before any investment is made as a guide to purchase price paid, but also to ensure that liquidity can be generated for the Fund Clients' investors. The potential exit options include: sale to a strategic investor, initial public offering, sale to another fund (Secondary Sale), debt recapitalization, listed yield (Income) vehicle, sale to direct financial investor (pension fund/insurance company), yield generated by investment, and sale of individual assets in a portfolio.

Investment Strategies – Credit Funds

With respect to Stonepeak Credit Fund I and any related co-investment vehicles, the Adviser focuses on what it considers to be lower-risk infrastructure investments in the North American market. Stonepeak expects to make investments in secondary and originated bonds, loans, and other credit instruments, secondary and originated preferred equity securities, and other forms of structured equity securities in the infrastructure sectors including midstream energy, communications infrastructure, transport, renewable energy, power / utilities and water located primarily in North America. Such investments may take on many forms, including, but not limited to secured, unsecured, junior subordinated and convertible debt, credit derivatives, preferred stock, structured equity and/or any combination thereof. An investment committee of Stonepeak senior investment professionals oversees the investment decisions for Stonepeak Credit Fund I. The investment committee reviews company-specific criteria such as asset value, forecasted cash flows and company liquidity, in addition to credit-specific factors such as trading, liquidity, interest rate exposure and compliance with the conditions of the Fund Clients' LP Agreements (such as concentration limitations, collateral quality and collateral obligations). The investment committee also reviews general economic and market conditions, political events, industry trends and changes in interest rates. The credit team closely monitors investments through regular meetings and communication with management and equity sponsors. The credit team also conducts internal ongoing reviews of individual credits, market activity and the current trading environment.

Investment Strategies – Renewables Fund

With respect to Stonepeak Renewables Fund and any related co-investment vehicles, the Adviser pursues a core infrastructure investment strategy with a focus on stable, long-lived, contracted, renewable energy projects. The Adviser primarily makes privately-negotiated equity and equity-related investments in

projects, assets and businesses across the renewable energy sector, including, but not limited to, solar, wind, hydro, distributed energy and energy-storage projects. While the Stonepeak Renewables Fund has a global investment mandate, it primarily targets investments located in countries that are members of the Organization for Economic Co-operation and Development and that are in other select similarly developed markets.

An investment committee of Stonepeak senior investment professionals oversees the investment decisions for the Stonepeak Renewables Fund. The investment committee reviews criteria such as projected cash flows, risk profile, operational risk, structural protections and entry valuation. The investment committee also reviews general economic and market conditions, political events, industry trends, and management initiatives. The renewables team closely monitors investments through regular meetings and communication with management teams of portfolio companies and through various forms of portfolio company reporting.

Risk Factors – General

As with any type of investing, a certain degree of risk can be associated with private investments. As a result, Fund Clients should be prepared to bear the following potential risks. Because of the nature of investment opportunities on which Stonepeak advises, the anticipated or targeted returns cannot be guaranteed. There can be no assurance that the Fund Clients' investment objectives will be achieved. The possibility of partial or total loss of capital will exist and Fund Clients and their investors must be prepared to bear capital losses that could result from investments. Potential investors in a Fund Client should carefully consider the risks of Fund Clients' investments, which include, but are not limited to, the following:

No Assurance of Investment Return. Stonepeak cannot provide assurance that it will be able to choose, make, and realize anticipated or targeted returns in any investment opportunity. Stonepeak uses extensive research, forecasting analyses and modeling to identify in advance and mitigating any potential performance risks; however, returns can be unpredictable and ultimately there can be no assurance that the Adviser's investment recommendations will be able to generate returns or that the returns will be commensurate with the risks of investing. During due diligence, Stonepeak will analyze the track records and historical performance of potential investments, as well as the underlying assumptions and key drivers of success to maximize the Fund Clients' and their investors' probability of achieving targeted returns.

Reliance on the Stonepeak GPs and Stonepeak Advisors. The Stonepeak GPs and Stonepeak Advisors will have exclusive responsibility for the Fund Clients' activities, and, other than as may be set forth herein and in the governing documents of the Fund Clients, investors will not be able to make investment or any other decisions concerning the management of a Fund Client. Investors in a Fund Client generally have no rights or powers to take part in the business and affairs of such Fund Client or make investment decisions and will not receive any financial information that is generally available to the applicable Stonepeak and Stonepeak Advisor with respect to the companies, assets, projects, and/or businesses in which such Fund Client invests. Additionally, Stonepeak may be restricted from disclosing or may determine it is appropriate not to disclose to the investors in a Fund Client material non-public information regarding one or more specific investments, including certain investments in which such Fund Client may participate alongside other Fund Clients, which may result in such investors not receiving certain material non-public information regarding such Fund Client and/or one or more of its investments under certain circumstances. Furthermore, in the event certain Stonepeak investment professionals acquire confidential or material, non-public information concerning an entity in which a Fund Client has invested in or propose to invest in, the possession of such information may limit the ability of the applicable Stonepeak GP to buy or sell particular securities of such entity on behalf of such Fund Client, thereby limiting the investment opportunities or exit strategies available thereto. The Stonepeak GPs will generally have sole discretion in structuring,

negotiating and purchasing, financing and eventually divesting investments on behalf of the Fund Clients (subject to specified exceptions). Accordingly, no person should invest in a Fund Client unless such person is willing to entrust all aspects of the management of such Fund Client to the applicable Stonepeak GP and Stonepeak Advisor.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments to be pursued as part of the Fund Clients' investment programs is highly competitive and involves a high degree of uncertainty. The availability of investment opportunities generally will be subject to market conditions, as well as the prevailing regulatory and political climate. In particular, in light of changes in such conditions, including changes in the availability and cost of debt financing, certain types of investment opportunities may not be available to the Fund Clients on terms that are as attractive as the terms on which opportunities were available to previous investment programs sponsored by Stonepeak. The Fund Clients will be competing for investment opportunities with a significant number of other investors, including, without limitation, other investment partnerships and corporations, business development companies, sovereign wealth funds, domestic and international public pension plans, the public debt and equity markets, individuals, financial institutions and other financial investors investing directly or through affiliates. Furthermore, over the past several years, an ever-increasing number of tactical opportunity, special situations and related investment funds have been formed and many such existing funds have grown substantially in size, including private equity funds investing in stressed, distressed, special situations, private equity and similar strategies, resulting in an unprecedented amount of capital available for private equity investment. Additional funds with similar objectives will likely be formed in the future by other unrelated parties.

Some of these competitors may have more relevant experience, greater financial, technical, marketing and other resources, more personnel, higher risk tolerances, different risk assessments, lower return thresholds, lower cost of capital, synergistic cost savings and access to funding sources unavailable to Stonepeak and the Fund Clients. Consequently, competition for appropriate investment opportunities has increased, and it is possible that competition for appropriate investment opportunities may continue to increase, thus reducing the number of investment opportunities available to the Fund Clients and adversely affecting the terms, including without limitation, pricing, upon which investments can be made. There can be no assurance that the Fund Clients will be able to locate, consummate and exit investments that satisfy the Fund Clients' target equity size range, rate of return objectives or realize upon their values or that they will be able to invest fully their committed capital. To the extent that the Fund Clients encounter competition for investments, returns to investors may decrease.

In addition, Stonepeak's investment strategies in certain sectors may depend on its ability to enter into satisfactory relationships with joint venture partners, operating executives or senior advisors. There can be no assurance that Stonepeak's current relationship with any such partner, operating executive or senior advisor will continue (whether on currently applicable terms or otherwise) with respect to the Fund Clients or that any relationship with other such persons will be able to be established in the future as desired with respect to any sector or geographic market and on terms favorable to the Fund Clients.

Legal and Regulatory Risks. Legal and regulatory changes could occur during the term of a Fund Client that may adversely affect any Fund Client, its portfolio investments or its partners. For example, a Fund Client expects to make investments in a number of different sectors, some of which are or may become subject to regulation by one or more U.S. federal agencies and/or by various agencies of the states, localities and counties in which they operate. New and existing regulations, changing regulatory schemes and the costs and burdens of regulatory compliance all may have a material, negative impact on the performance of portfolio investments that operate in these industries. Neither the general partner nor the advisor of a Fund Client can predict whether new legislation, regulation or regulatory interpretations governing those industries will be enacted or adopted by legislative bodies or governmental agencies, nor can either of them

predict what effect such legislation, regulation or regulatory interpretation might have. There can be no assurance that new legislation, regulation or regulatory interpretation, including changes to existing laws, regulations and regulatory interpretations, will not have a material, negative impact on a Fund Client's investment performance.

Moreover, increased scrutiny and newly proposed legislation applicable to private investment funds and their sponsors may also impose significant administrative burdens on the applicable manager and may divert time and attention from portfolio management activities. In addition, and in particular in light of the changing global regulatory climate, a Fund Client may be required to register under certain foreign laws and regulations, and need to engage distributors or other agents in certain non-U.S. jurisdictions to market interests to potential investors. The effect of any future regulatory change on a Fund Client could be substantial and adverse. In addition, the securities and futures markets are subject to comprehensive statutes, regulations and margin requirements. The SEC, other regulators and self-regulatory organizations and exchanges are authorized to take extraordinary actions in the event of market emergencies.

In addition, Stonepeak and its affiliates engage in a broad variety of activities. These activities have in the past, and may in the future, subject Stonepeak or one or more of its affiliates to risks of becoming involved in litigation by third parties or may subject Stonepeak or any such affiliate to investigations or proceedings initiated by governmental authorities. It is difficult to determine what impact, if any, such litigation may have on Stonepeak, or any such affiliate or the Fund Clients. As a result, there can be no assurance that the foregoing will not have a material, adverse impact on Stonepeak, any of its affiliates or the Fund Clients, or otherwise impede a Fund Client's ability to effectively achieve its objectives.

Regulatory Approvals/Consents. The Adviser may recommend an investment for a Fund Client in the equity or debt of a renewable generation project or similar type of asset that may not receive the initial regulatory approval or license needed to acquire or otherwise operate an investment, including after substantial costs have been incurred pursuing such investment. Additional or unanticipated regulatory approvals, including, without limitation, renewals, extensions, transfers, assignments, reissuances or similar actions, may be required to acquire or operate infrastructure assets, and additional approvals may become applicable in the future due to a change in laws and regulations, a change in the portfolio company's customer(s) or for other reasons. Furthermore, permits or special rulings may be required on taxation, financial and regulatory related issues. While the Adviser's strategy is to limit exposure to permitting risk, in certain limited instances the Adviser may recommend incurring permitting risk. There can be no assurance that a portfolio company will be able to (i) obtain all required regulatory approvals that it does not yet have or that it may require in the future, (ii) obtain any necessary modifications to existing regulatory approvals, or (iii) maintain required regulatory approvals. Delay in obtaining or failure to obtain and maintain in full force and effect any regulatory approvals, or amendments thereto, or delay or failure to satisfy any regulatory conditions or other applicable requirements could prevent operation of a facility or sales to third parties or could result in additional costs to a portfolio company and the Fund. The nature of these obligations and dependencies exposes the owners of such assets to a higher level of regulatory control than typically imposed on other businesses, resulting in government entities having significant influence over such owners and companies.

United Kingdom Withdrawal from the European Union. As part of the process of the United Kingdom ("UK") leaving the European Union ("EU"), the EU and the UK agreed an EU-UK Trade and Cooperation Agreement ("TCA") that governs the trading relationship between the UK and the member states of the EU from and after January 1, 2021. Broadly, the TCA provides for zero tariffs and zero quotas on all goods that comply with the appropriate rules of origin, but is subject to both parties maintaining a level playing field in areas such as environmental protection, social and labor rights, investment, competition, state aid, and tax transparency.

UK regulated firms in the financial sector are adversely affected by these arrangements because the TCA does not provide for continued access by UK firms to the EU single market – although there is the possibility that in time, the UK may obtain a recognition of equivalence from the EU in certain financial sectors which would enable varying degrees of access to the EU market. Similarly, notwithstanding zero tariffs and zero quotas on goods, market access for those firms that conduct cross-border trade in goods will fall below what the single market previously allowed. Non-tariff barriers, customs declarations, customs checks, restrictions on movements of employees, withdrawal of recognition of previously recognized professional qualifications, changes in the status of the UK vis-à-vis the EU for tax and VAT purposes, and other sources of friction have the potential to impair the profitability of a business, require it to adapt, or even relocate to operate through an establishment in the EU.

It will take some time to observe the many and varied effects on UK businesses of the consequences of leaving the single market and customs union (taking into account the flow of goods and services in both directions). Given the size and global significance of the UK's economy, uncertainty, at least in the near term, about the effect of the TCA on the day-to-day operations of those businesses that engage in the cross-border trade of goods or services between member states of the EU and the UK may be a continued source of currency fluctuations or have other adverse effects on international markets, international trade and other cross-border cooperation arrangements. The present uncertainty could therefore adversely affect a Fund Client, the performance of its investments and its ability to fulfil its investment objectives (especially if its investments include, or expose it to, businesses that have historically relied on access to the single market for their custom or that have historically relied on sourcing goods, materials or labor from the single market).

Investments Outside the United States Generally. Certain Fund Clients expect to make a significant number of investments outside the United States. The legal systems of some countries lack transparency or could limit the protections available to foreign investors. Investments in non-U.S. securities or instruments involve certain factors not typically associated with investing in U.S. securities and instruments, including risks relating to: (i) currency exchange rate fluctuations and costs associated with conversion of investment principal and income from one currency into another; (ii) exposure to fluctuations in interest rates payable with respect to the instruments in which a Fund Client invests; (iii) differences in conventions relating to documentation, settlement, corporate actions, shareholder rights and other matters; (iv) differences between U.S. and foreign securities markets, including potentially higher price volatility and relative illiquidity of some markets; (v) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and differences in government supervision and regulation; (vi) the risks associated with political, economic or social instability, including the risk of sovereign defaults, regulatory change, and the possibility of expropriation or confiscatory taxation and other adverse economic and political developments; (vii) the possible imposition of non-U.S. taxes on income and gains and gross sales or other proceeds recognized with respect to such investments; (viii) less developed corporate and intellectual property laws, including those regarding stakeholder rights, creditors' rights (including the rights of secured parties), fiduciary duties, investor protections and intellectual property owner protections; (ix) differences in the legal and regulatory environment or enhanced legal and regulatory compliance, including potential currency control regulations, and potential restrictions on investment and repatriation of capital; (x) political hostility to investments by foreign or private equity investors; and (xi) less publicly available information.

Trade Policy. The protectionist policies of several political leaders in the United States and certain EU countries have recently fueled doubts about the future of global free trade. The U.S. government had previously indicated its intent to alter its approach to international trade policy and in some cases had, or was expected to, renegotiate and terminate certain existing bilateral or multi-lateral trade agreements and treaties. In addition, the U.S. government recently imposed tariffs on certain foreign goods, including steel and aluminum and indicated a willingness to impose tariffs on imports of other products. Some foreign

governments, including China, instituted retaliatory tariffs on certain U.S. goods and indicated a willingness to impose additional tariffs on U.S. products. Although there is uncertainty regarding the positions of, and the types of policies that will be adopted by, the United States and other nations regarding international trade going forward, it should be noted that global trade disruption, significant introductions of trade barriers and bilateral trade frictions, together with any future downturns in the global economy resulting therefrom, could adversely affect the financial performance of a Fund Client and its investments.

Change of Law. The outcome of the recent U.S. presidential and other elections, together with other recent political developments, creates uncertainty with respect to the legal, tax and regulatory regimes, as well as the market environments, in which the Fund Clients and their portfolio companies, as well as the Adviser and its affiliates, will operate. Any significant changes in laws, rules, regulations, regulatory interpretations or enforcement activity levels, including those relating to, among other things, economic policy (including with respect to interest rates and foreign trade), the regulation of the asset management industry, tax law, immigration policy, government infrastructure spending, and/or government entitlement programs, could have a material adverse impact on the Fund Clients and their portfolio companies, and thereby returns to investors.

Uncertainty of Financial Projections. The Adviser may recommend an investment based on the target's financial projections and various projections of the investment team. Projected operating results will normally be influenced by management judgments. In all cases, projections are only estimates of future results that are based upon assumptions made at the time that the projections are developed. There can be no assurance that the projected results will be obtained, and actual results may vary significantly from projections. General economic conditions, which are not predictable, can have a material adverse impact on the reliability of such projections and the performance of any investment in such portfolio company.

Further, in the current environment, in light of the unprecedented and widespread implications of COVID-19, the uncertainties around assumptions are heightened substantially beyond what they otherwise might be relative to times of previously experienced market volatility. For example, projections entail assumptions regarding the timing in which the impacts of COVID-19 will begin to dissipate. While the Adviser has used, and will continue to use, its good faith judgment based on information available at the time to make these projections, there can be no guarantee that the assumptions will prove to be correct with the benefit of hindsight.

Financial Leverage. Typically, a Fund Client intends to utilize significant leverage, subject to certain conditions, to finance its investments in a manner it believes is appropriate. The use of leverage involves a high degree of financial risk and will increase the exposure of such Fund Client's investments to adverse economic factors such as rising interest rates, downturns in the economy or further deteriorations in the markets generally. Moreover, any rise in interest rates may significantly increase the interest expense related to an investment, causing losses, and/or the inability to service a Fund Client's debt obligations. If an investment cannot generate adequate cash flow to meet debt obligations, a Fund Client may suffer a partial or total loss of capital invested in the investment. The Fund Clients may also obtain leverage at the fund level. Although borrowings by the Fund Clients have the potential to enhance overall returns that exceed the Fund Clients' cost of funds, they will further diminish returns (or increase losses on capital) to the extent overall returns are less than the Fund Clients' cost of funds. As a result, the possibilities of profit and loss are increased. Borrowing money to make investments provides the Fund Clients with the advantages of leverage, but exposes them to greater market risks and higher current expenses. In addition, borrowings by the Fund Clients may be secured by the limited partners' capital commitments, as well as by the Fund Clients' assets, including portfolio companies, and the documentation relating to such borrowing may provide that during the continuance of a default under such borrowing, the interests of the limited partners may be subordinated to such borrowing. If a Fund Client defaults on secured indebtedness, the lender may foreclose and such Fund Client could lose its entire investment in the security for such loan.

The exercise by the lenders of their drawdown right under a subscription credit facility would reduce the amount of capital otherwise available to a Fund Client for making investments and may negatively impact such Fund Client's ability to make investments or achieve its investment objectives. Limited partners may be required to execute an investor acknowledgement for the benefit of the lenders under the subscription credit facility and may be required to acknowledge their obligations to pay their share of indebtedness up to their unfunded capital commitment. A Fund Client may also be unable to secure permanent financing through a term financing facility, which may negatively impact such Fund Client's investment objectives and returns. Tax-exempt investors should note that the incurrence of indebtedness by a Fund Client may create "unrelated business taxable income".

Unspecified Investments. The Fund Clients must rely upon the ability of the Adviser to help the Stonepeak GPs to identify structure and implement investments consistent with the Fund Clients' investment objectives and policies. The Adviser may be unable to find a sufficient number of attractive opportunities to meet the Fund Clients' investment objectives. The success of the Fund Clients will depend on the ability of the Adviser to help the Stonepeak GPs identify suitable investments, to negotiate and arrange the closing of appropriate transactions and to arrange the timely disposition of investments.

Public Company Holdings. Each Fund Client's investment portfolio may contain securities issued by publicly held companies. Such investments may subject the Fund Clients to risks that differ in type or degree from those involved with investments in privately held companies. Such risks include, without limitation, greater volatility in the valuation of such companies, increased obligations to disclose information regarding such companies, limitations on the ability of the Fund Clients to dispose of such securities at certain times, increased likelihood of shareholder litigation against such companies' board members (which may include persons affiliated with the Adviser) and increased costs associated with each of the aforementioned risks.

Risk of Limited Number of Investments; Lack of Diversification. The Fund Clients may be subject to restrictions on the size of investments such that not more than a particular percentage of the aggregate amount of capital commitments may be invested in any one investment. Accordingly, the Fund Clients may participate in a limited number of investments and, as a consequence, the aggregate return of the Fund Clients may be substantially adversely affected by the unfavorable performance of even a single investment. If certain investments perform unfavorably, it may materially and adversely affect overall fund returns. To the extent a Fund Client concentrates investments in a particular asset class, sector or geographic region, its investments will become more susceptible to fluctuations in value resulting from adverse economic to business conditions with respect thereto. In addition, certain geographic regions and/or industries may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Cyber Security Breaches, Identity Theft, Privacy Breaches and Other Threats. Cyber security incidents and cyber-attacks have been occurring globally at a more frequent and severe level and will likely continue to increase in frequency in the future (including as a consequence of the COVID-19 pandemic and the increased frequency of virtual working arrangements). Each Fund Client and its portfolio companies' and its service providers' information and technology systems are vulnerable to damage or interruption from computer viruses and other malicious code, network failures, computer and telecommunication failures, security threats (including cyber security threats to and attacks on Stonepeak's information technology infrastructure), infiltration by unauthorized persons and security breaches, usage errors by their respective professionals or service providers, power, communications, or other service outages and catastrophic events such as fires, tornadoes, floods, hurricanes, and earthquakes. If unauthorized parties gain access to such information and technology systems, they may be able to steal, publish, delete, or modify private and sensitive information, including nonpublic personal information and material nonpublic information. Although Stonepeak has implemented, and the Fund Clients' portfolio companies and their service

providers may implement, various measures to manage risks relating to these types of events, such systems could prove to be inadequate and, if compromised, could become inoperable for extended periods of time, cease to function properly or fail to adequately secure private information. Stonepeak does not control the cyber security plans and systems put in place by third-party service providers, and such third party service providers may have limited indemnification obligations to Stonepeak, a Fund Client and/or a portfolio company, each of which could be negatively impacted as a result. Breaches such as those involving covertly introduced malware, impersonation of authorized users, and industrial or other espionage may not be identified even with sophisticated prevention and detection systems, potentially resulting in further harm and preventing it from being addressed appropriately. Stonepeak, a Fund client, and/or a portfolio company may have to make a significant investment to fix or replace any information and technology systems affected by any such breaches. The failure of these systems and/or of disaster recovery plans for any reason could cause significant interruptions in Stonepeak's, a Fund Client's and/or a portfolio company's operations and result in a failure to maintain the security, confidentiality, or privacy of sensitive data, including personal information relating to Fund Client limited partners (and their beneficial owners), material nonpublic information in possession of and the intellectual property and trade secrets and other sensitive information of Stonepeak and/or portfolio companies. Such a failure or unauthorized disclosure of data could harm Stonepeak's, a Fund Client's and/or a portfolio company's reputation, subject any such entity and their respective affiliates to legal claims, increased costs, financial losses, data privacy breaches, regulatory action, enforcement or intervention arising out of applicable privacy or other laws and adverse publicity and otherwise affect their business and financial performance. The costs related to cyber or other security threats or disruptions may not be fully insured or indemnified by other means.

Risks in Effecting Operating Improvements. In some cases, the success of the Adviser's investment strategy will depend, in part, on the ability of the Adviser to restructure and effect improvements in the operations of a portfolio company. The activity of identifying and implementing restructuring programs and operating improvements at portfolio companies entails a high degree of uncertainty. There can be no assurance that the Adviser will be able to successfully identify and implement such restructuring programs and improvements.

Reliance on Portfolio Company Management Team. Each portfolio company's day-to-day operations will be the responsibility of such portfolio company's management team. Although Stonepeak will be responsible for monitoring the performance of each investment, there can be no assurance that the existing management team, or any successor, will be able to successfully operate the portfolio company in accordance with a Stonepeak's investment thesis and plans. Additionally, portfolio companies need to attract, retain and develop executives and members of their management teams. The market for executive talent can be, notwithstanding general unemployment levels or developments within a particular industry, extremely competitive. There can be no assurance that portfolio companies will be able to attract, develop, integrate and retain suitable members of its management team and, as a result, a Fund Client may be adversely affected thereby.

General Economic and Market Conditions. The private equity industry generally, and a Fund Client's investment activities in particular, are affected by general economic and market conditions, such as the current economic downturn, as well as interest rates, availability and spreads of credit, credit defaults, inflation rates, economic uncertainty, changes in tax, currency control and other applicable laws and regulations, trade barriers, national and international political, environmental and socioeconomic circumstances and global pandemics. Market disruptions in a single country could cause a worsening of conditions on a regional and even global level. A worsening of general economic and market conditions would likely affect the level and volatility of securities and other asset prices and the liquidity of a Fund Client's investments, which could impair a Fund Client's profitability, result in losses and impact investment returns. A depression, recession or slowdown in the global economy or one or more regional markets (or any particular segment thereof) or a weakening of credit markets (including a perceived increase

in counterparty default risk) would have a pronounced impact on the Stonepeak GPs, the Adviser, the Fund Clients and their portfolio companies (which would likely be exacerbated by the presence of leverage in a particular portfolio company's capital structure) and could adversely affect their profitability, creditworthiness and ability to execute on their business plans, sell assets, satisfy existing obligations, make and realize investments successfully, originate or refinance credit or draw on existing financings and commitments.

Financial Market Fluctuations; Availability of Financing. Declines or volatility in financial markets, including the securities and derivatives markets, would adversely affect the value of the Fund Clients' investments. A significant market fluctuation often decreases tolerance for counterparty risks, which can negatively impact financial institutions, even causing their failure as occurred in the most recent global economic downturn. The Fund Clients and their portfolio companies are expected to regularly seek to acquire new debt and refinance existing debt, including in the liquid debt markets, and significant declines in pricing of debt securities or increases in interest rates, or other disruptions in the credit markets, would make it difficult to carry on normal financing activities, such as obtaining committed debt financing for acquisitions, bridge financings or permanent financings. Tightening of loan underwriting standards, which often occurs during market disruptions, can have a negative impact including through reduction of permitted leverage levels and increased requirements for borrower quality. The Fund Clients' ability to generate attractive investment returns will be adversely affected by any worsening of financing terms and availability.

Hedging Policies/Risks. In connection with the financing of certain investments, the Adviser may propose that a Fund Client utilize a wide variety of derivative financial instruments for risk management purposes, the use of which is a highly specialized activity that may entail greater than ordinary investment risks. Any such hedging transactions may not be effective in mitigating risk in all market conditions or against all types of risk (including unidentified or unanticipated risks or where the Advisor does not regard the probability of the risk occurring to be sufficiently high as to justify the cost), thereby resulting in losses to the Fund Client. Engaging in derivatives and other hedging transactions may result in a poorer overall performance for the Fund Client than if it had not engaged in any such hedging transaction, and the Adviser may not be able to effectively hedge against, accurately anticipate, or choose not to hedge or mitigate certain risks that may adversely affect the Fund Clients' investment portfolio. In addition, a Fund Client's investment portfolio may be exposed to certain risks that cannot be fully or effectively hedged, such as credit risk relating both to particular securities and counterparties. and foreign exchange rules.

Other Trading and Investing Activities. Certain Fund Clients may invest in securities of publicly traded companies that are actual or potential companies in which other Fund Client(s) have made or will make investments. The trading activities of such other Fund Client(s) may differ from or be inconsistent with activities, which are undertaken for the account of certain Fund Clients in such securities or related securities. In addition, certain Fund Clients may be precluded from pursuing an investment in an issuer as a result of such trading activities by other Fund Client(s).

Investments in Which Another Stonepeak Vehicle Has a Different Principal Investment; Investments Alongside Other Stonepeak Vehicles. Certain Fund Clients (and/or other vehicles or accounts managed by Stonepeak or an affiliate thereto, including proprietary vehicles owned by Stonepeak itself) (collectively, the "Stonepeak Vehicles") can be expected to make investments in portfolio companies in which other Stonepeak Vehicles have made or are concurrently making a different principal investment at the time of such Stonepeak Vehicle's investment (e.g., in different parts of the capital structure). A Stonepeak Vehicle may also co-invest alongside portfolio companies in which other Stonepeak Vehicles have made or are currently making an investment. In such situations, the Stonepeak Vehicles could have conflicting interests (e.g., over the terms of their respective investments, including equity vs. debt investments). Given the nature of any such conflict that could arise, there can be no assurance that such conflict can be resolved in a manner

that is beneficial to both Stonepeak Vehicles, and the action taken for one Stonepeak Vehicle may be adverse to another Stonepeak Vehicle. Actions may also be taken for the benefit of Stonepeak that may be adverse to one or more Fund Clients. The Stonepeak GP of the relevant Fund Client will seek to resolve any such conflicts using its best judgment, but in its sole discretion, subject to the terms of the relevant Fund Clients' governing documents, as applicable. See also Item 10 – "Financing Arrangement with Landmark."

Confidential or Material, Non-Public Information. By reason of their responsibilities in connection with other activities of Stonepeak, certain Stonepeak investment professionals may acquire confidential or material, non-public information concerning an entity in which Fund Clients have invested, or propose to invest, and the possession of such information may limit the ability of the Adviser to buy or sell particular securities of such entity on behalf of Fund Clients, thereby limiting the investment opportunities or exit strategies available to the Fund Clients. In addition, holdings in the securities of an issuer by Stonepeak or its affiliates may affect the ability of Fund Clients to make certain acquisitions of or enter into certain transactions with such issuer.

Risks Relating to Due Diligence of and Conduct at Portfolio Companies; Risk of Fraud in Portfolio Companies. Before making investments, Stonepeak will typically conduct due diligence that it deems reasonable and appropriate based on the facts and circumstances applicable to each investment. Due diligence may entail evaluation of important and complex business, financial, tax, accounting, environmental and legal issues. Outside consultants, legal advisors, accountants, investment banks and other third parties may be involved in the due diligence process to varying degrees depending on the type of investment. Such involvement of third-party advisors or consultants may present a number of risks primarily relating to Stonepeak's reduced control of the functions that are outsourced. In addition, if Stonepeak is unable to timely engage third-party providers its ability to evaluate and acquire more complex targets could be adversely affected. When conducting due diligence and making an assessment regarding an investment, Stonepeak will rely on the resources available to it, including information provided by the target of the investment and, in some circumstances, third-party investigations. The due diligence investigation that Stonepeak carries out with respect to any investment opportunity may not reveal or highlight all relevant facts that may be necessary or helpful in evaluating such investment opportunity. Moreover, such an investigation will not necessarily result in the investment being successful. There can be no assurance that attempts to provide downside protection with respect to investments, including pursuant to risk management procedures and environmental, social and governance guidelines, will achieve their desired effect.

There can be no assurance that Stonepeak will be able to detect or prevent irregular accounting, misconduct by employees or consultants or other fraudulent practices during the due diligence phase or during its efforts to monitor the investment on an ongoing basis or that any risk management procedures implemented by Stonepeak will be adequate. In the event of fraud or other misconduct by any portfolio company or any of its managers, affiliates, employees, consultants or service providers, a Fund Client may suffer a partial or total loss of capital invested in that portfolio company. There can be no assurances that any such losses will be offset by gains (if any) realized on a Fund Client's other investments. An additional concern is the possibility of material misrepresentation or omission on the part of the portfolio company, issuer or the seller. Such inaccuracy or incompleteness may adversely affect the value of a Fund Client's securities and/or instruments in such portfolio company. The Fund Client will rely upon the accuracy and completeness of representations made by portfolio companies and/or their former owners in the due diligence process to the extent reasonable when it makes its investments, but cannot guarantee such accuracy or completeness. Under certain circumstances, payments to a Fund Client may be reclaimed if any such payment or distribution is later determined to have been a fraudulent conveyance or a preferential payment.

Misrepresentation, Fraud and Misconduct. Of significant concern in lending and investing is the possibility of material misrepresentation or omission by a counterparty. Such inaccuracy or incompleteness may adversely affect the valuation of the collateral underlying the investment or may adversely affect the ability of a Fund Client to perfect or effectuate a lien on the collateral securing the investment. A Fund Client generally relies upon the accuracy and completeness of representations made by counterparties, but cannot guarantee such accuracy or completeness. Under certain circumstances, payments to a Fund Client may be reclaimed if any such payment or distribution is later determined to have been a fraudulent conveyance or a preferential payment.

Coronavirus and Public Health Emergencies. As of the date of this brochure, there is an outbreak of a novel and highly contagious form of coronavirus (“COVID-19”), which the World Health Organization has declared to constitute a “Public Health Emergency of International Concern.” The outbreak of COVID-19 has resulted in numerous deaths, adversely impacted global commercial activity and contributed to significant volatility in certain equity, debt, derivatives and commodities markets. The extent and duration of such negative impact, to the private equity industry and global markets as a whole, is currently unknown and difficult to anticipate. The global ramifications of the outbreak are rapidly evolving, and many countries have reacted by instituting (or strongly encouraging) quarantines, prohibitions on travel, the closure of offices, businesses, schools, airports, construction sites, retail stores, restaurants, hotels, courts and other public venues, and other restrictive measures designed to help slow the spread of COVID-19. Businesses have also implemented similar precautionary measures. Such measures, as well as the general uncertainty surrounding the dangers and impact of COVID-19, are creating significant disruption in supply chains and economic activity and are having a particularly adverse impact on transportation, hospitality, tourism, entertainment and other industries. Moreover, with the continued spread of COVID-19, governments and businesses are likely to take increasingly aggressive measures to help slow its spread. For this reason, among others, as COVID-19 continues to spread, the potential impacts, including a global, regional or other economic recession (which recessions some financial experts opine have already arrived), are increasingly uncertain and difficult to assess. The rapid development of this situation precludes any prediction as to the ultimate adverse impact of COVID-19. There are no comparable recent events in the United States that provide guidance as to the effect of the spread of COVID-19 and potential pandemic on the economy as a whole and the specific sectors in which the Fund Clients invest. While there have been proposed, and in some cases enacted, economic stimulus measures aimed at curbing the negative economic impacts on the U.S. and other countries as a result of the COVID-19 pandemic, it cannot be determined at this time whether such stimulus measures will have a stabilizing economic effect. In this regard, views and other forward-looking statements expressed in this brochure are based on assumptions that are stale and which have not been updated in each case due to remaining uncertainty. Accordingly, correspondingly qualified considerations should be attached to the valuation, performance and other market information provided with respect to any Fund Client.

Any public health emergency, including any outbreak of COVID-19, SARS, H1N1/09 flu, avian flu, other coronavirus, Ebola or other existing or new epidemic diseases, or the threat thereof, could have a significant adverse impact on a Fund Client and its portfolio companies and could adversely affect a Fund Client’s ability to fulfill its investment objectives.

The extent of the impact of any public health emergency on a Fund Client’s and its portfolio companies’ operational and financial performance will depend on many factors, including the duration and scope of such public health emergency, the extent of any related travel advisories and restrictions implemented, the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and spending levels, and levels of economic activity and the extent of its disruption to important global, regional and local supply chains and economic markets, all of which are highly uncertain and cannot be predicted. Any such disruptions may continue for an extended period of time. Such circumstances can have a negative impact on a counterparty’s ability to meet, or its willingness

to, honor its financial obligations (including, without limitation, its ability to extend credit or otherwise to transact with a Fund Client or its portfolio companies). Current conditions may also affect how counterparties interpret their obligations (and a Fund Client's obligations) pursuant to counterparty arrangements such that the applicability, or lack thereof, of force majeure or similar provisions could also come into question and ultimately could work to the detriment of the Fund Client. In addition, health crises caused by a pandemic could exacerbate other pre-existing political, social, economic, market and financial risk. For this reason, valuations in this environment are subject to heightened uncertainty and subject to numerous subjective judgments, any or all of which could turn out to be incorrect with the benefit of hindsight. Furthermore, traditional valuation approaches that have been used historically may need to be modified in order to effectively capture fair value in the midst of significant volatility or market dislocation. The effects of a public health emergency may materially and adversely impact the value and performance of a Fund Client's portfolio companies, a Fund Client's ability to source, manage and divest investments and a Fund Client's ability to achieve its investment objectives, all of which could result in significant losses to a Fund Client. In addition, the operations of a Fund Client, its portfolio companies, and the Advisers may be significantly impacted, or even temporarily or permanently halted, as a result of government quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors related to a public health emergency, including its potential adverse impact on the health of the personnel of any such entity or the personnel of any such entity's key service providers. The impact to businesses in such circumstances has been and is expected to continue to be substantial.

In connection with the impacts of the current pandemic and any future public health crisis, the Fund Clients are expected to incur heightened legal expenses which could similarly have an adverse impact on the Fund Clients' returns. For example, a Fund Client or its portfolio company may be subject to heightened litigation and its resulting costs, which costs may be significant and are expected to be borne by the Fund Client and/or its portfolio companies. There is also a heightened risk of cyber and other security vulnerabilities during the current public health emergency and any future one, which could result in adverse effects to a Fund Client or its portfolio companies in the form of economic harm, data loss or other negative outcomes.

Lastly, while there recently have been coordinated efforts in many countries to distribute vaccines among populations, it remains uncertain how effective these efforts will be in combating the spread of the virus and what impact these efforts will have on consumer confidence and economic activity levels.

Social Unrest. Recent events concerning discrimination, race relations and inequality have led to protests, demonstrations, marches and other forms of political and social activism on a local, regional, national and international level as well as rioting in some instances. Such activism, which has ranged from peaceful to in some instances, violent, has resulted in curfews, the deployment of the national guard, damage to government property and other local and national interference, and could lead to increased political and social volatility and uncertainty, which was already heightened in wake of the COVID-19 pandemic. While the overall effect of such activism remains unknown, investors should note that this type of volatility and uncertainty could materially and adversely impact the projects, businesses and assets in which a Fund Client invests, as well as the infrastructure space more generally.

Force Majeure Risk. Investments may be affected by force majeure events (i.e., events beyond the control of the party claiming that the event has occurred, including, without limitation, acts of God, fire, flood, earthquakes and other natural disasters, outbreaks of an infectious disease, pandemic or any other serious public health concern, war, terrorism and labor strikes). Some force majeure events may adversely affect the ability of a party (including a portfolio company or a counterparty to a Fund Client or a portfolio company) to perform its obligations until it is able to remedy the force majeure event. In addition, the cost to a portfolio company or a Fund Client of repairing or replacing damaged assets resulting from such force majeure event could be considerable. Certain force majeure events (such as war or an outbreak of an infectious disease) could have a broader negative impact on the world economy and international business

activity generally, or in any of the countries in which a Fund Client may invest specifically. Additionally, a major governmental intervention into an industry, including the nationalization of an industry or the assertion of control over one or more portfolio companies or its assets, could result in a loss to a Fund Client, including if its investment in such portfolio company is canceled, unwound or acquired (which could be without what such Fund Client considers to be adequate compensation). Any of the foregoing may therefore adversely affect the performance of the Fund Clients and their investments.

Currency and Exchange Rate Risks. Although a Fund Client's investments, and income received by such Fund Client with respect to such investments, are expected to be denominated primarily in U.S. dollars, certain investments may be made in currencies other than U.S. dollars. In addition, the books of such Fund Client will be maintained, and capital contributions to and distributions from the Fund Client are expected to be made, in U.S. dollars. To the extent the Fund Client's investments are made in currencies other than U.S. dollars, changes in currency exchange rates, costs of conversion and exchange control regulations may adversely affect the dollar value of investments, interest and dividends received by the Fund Client, gains and losses realized on the sale of such investments and the amount of distributions, if any, to be made by the Fund Client in respect of such investments. Moreover, the Fund Client will incur costs or could experience substantial delays when, or be prohibited from, converting one currency into another. Although the applicable Stonepeak GP may enter into hedging transactions designed to reduce such currency risks, there can be no assurance that any such transactions would achieve their intended results. Further, such hedging transactions could result in diminished returns (or increased losses on capital) to the extent overall returns are less than the Fund Client's costs or losses associated with such hedging transactions.

OFAC and Sanctions Considerations. Economic sanction laws in the U.S. and other jurisdictions prohibit Stonepeak, Stonepeak's professionals and the Fund Clients from transacting in certain countries and with certain individuals and companies. In the United States, the U.S. Department of the Treasury's Office of Foreign Assets Control ("OFAC") administers and enforces laws, executive orders and regulations establishing U.S. economic and trade sanctions. Such sanctions prohibit transactions with, and the provision of services to, certain foreign countries, territories, entities and individuals. These entities and individuals include specially designated nationals, specially designated narcotics traffickers and other parties. In addition, certain programs administered by OFAC prohibit dealing with individuals or entities in certain countries regardless of whether such individuals or entities appear on the lists maintained by OFAC. Accordingly, each Fund Client requires investors to represent that they are not named on a list of prohibited entities and individuals maintained by OFAC or under similar EU and UK Regulations, and are not operationally based or domiciled in a country or territory in relation to which current sanctions have been issued by the United States, United Nations, EU or UK (collectively "Sanctions Lists"). If an investor is on a Sanctions List, a Fund Client may be required to cease any further dealings with the investor's interest in such Fund Client until such sanctions are lifted or a license is sought under applicable law to continue dealings. Accordingly, these types of sanction laws may prohibit or limit a Fund Client's investment activities. Although Stonepeak expends significant effort to comply with the sanctions regimes in the countries where it operates, one of these rules could be violated by Stonepeak or a Fund Client's activities, which would adversely affect any or all of the Fund Clients.

European Commission Action Plan on Financing Sustainable Growth. The European regulatory environment for alternative fund managers and financial services firms continues to evolve and increase in complexity, making compliance more costly and time-consuming. In March 2018, the European Commission published an Action Plan on Financing Sustainable Growth (the "EU Action Plan") to set out an EU strategy for sustainable finance. The EU Action Plan identified several legislative initiatives, including the Sustainable Finance Disclosure Regulation (the "SFDR") which applies as of March 10, 2021. The SFDR requires transparency with regard to the integration of sustainability risks and the consideration of adverse sustainability impacts in an alternative investment fund manager's processes and the provision

of sustainability-related information with respect to alternative investment funds, which may have an impact on the Adviser and certain Fund Clients.

The Adviser may be subject to the requirements of the SFDR, which include: (i) publishing information on its website about its policies on the integration of sustainability risks in its investment decision-making process, (ii) publishing on its website: (A) a detailed statement on its due diligence policies with respect to principal adverse impacts of investment decisions on sustainability factors, taking into account its size, the nature and scale of their activities, or (B) clear reasons for why it does not do so, including, where relevant, information as to whether and when it intends to consider such adverse impacts, (iii) publishing on its website and including in its remuneration policies maintained in accordance with sectoral legislation, information on how remuneration policies are consistent with the integration of sustainability risks, and (iv) ensuring that marketing communications do not contradict the information disclosed pursuant to the SFDR. The SFDR also requires alternative investment fund managers to include sustainability related information in an alternative investment fund's pre-contractual disclosures and periodic reports, and, depending on the strategy of its alternative investment funds, on websites.

The Adviser may be subject to remuneration requirements under the SFDR. Any required changes to compensation structures and practices could make it harder for the Adviser to recruit and retain key personnel, thereby potentially affecting a Fund Client. The SFDR could expose the Adviser to conflicting regulatory requirements in the United States and other jurisdictions.

Cayman Islands – Automatic Exchange of Financial Account Information.

The Cayman Islands has signed an inter-governmental agreement to improve international tax compliance and the exchange of information with the United States (the "US IGA"). The Cayman Islands has also signed, along with over 100 other countries, a multilateral competent authority agreement to implement the OECD Standard for Automatic Exchange of Financial Account Information – Common Reporting Standard ("CRS" and together with the US IGA, "AEOI").

Cayman Islands regulations have been issued to give effect to the US IGA and CRS (collectively, the "AEOI Regulations"). Pursuant to the AEOI Regulations, the Cayman Islands Tax Information Authority (the "TIA") has published guidance notes on the application of the US IGA and CRS.

All Cayman Islands "Financial Institutions" are required to comply with the registration, due diligence and reporting requirements of the AEOI Regulations, unless they are able to rely on an exemption that allows them to become a "Non-Reporting Financial Institution" (as defined in the relevant AEOI Regulations) with respect to one or more of the AEOI regimes, in which case only the registration requirement would apply under CRS. The Fund Clients do not propose to rely on any Non-Reporting Financial Institution exemption and therefore intend to comply with all of the requirements of the AEOI Regulations.

The AEOI Regulations require a Fund Client and/or its general partner (as applicable) to, amongst other things (i) register with the IRS to obtain a Global Intermediary Identification Number (in the context of the US IGA only), (ii) register with the TIA, and thereby notify the TIA of its status as a "Reporting Financial Institution"; (iii) adopt and implement written policies and procedures setting out how it will address its obligations under CRS, (iv) conduct due diligence on its accounts to identify whether any such accounts are considered "Reportable Accounts", (v) report information on such Reportable Accounts to the TIA, and (vi) file a CRS Compliance Form with the TIA. The TIA will transmit the information reported to it to the overseas fiscal authority relevant to a reportable account (e.g., the IRS in the case of a US Reportable Account) annually on an automatic basis.

By investing in a Fund Client investors will be deemed to acknowledge that further information may need to be provided to such Fund Client and that a Fund Client's compliance with the AEOI Regulations may

result in the disclosure of investor information, and investor information may be exchanged with overseas fiscal authorities. Where an investor fails to provide any requested information (regardless of the consequences), a Fund Client may be obliged to take any action and/or pursue all remedies at their disposal including, without limitation, compulsory withdrawal of the investor concerned and/or closure of the investor's account. In accordance with TIA issued guidance, a Fund Client is required to close an investor's account if a self-certification is not obtained within 90 days of account opening.

Private Funds Act Regulation – Cayman Islands. A Fund Client may be required to register and be regulated as a private fund under the Private Funds Act (As Revised) (the "Private Funds Act") of the Cayman Islands. Once registered, the Cayman Islands Monetary Authority (the "Authority") will have supervisory and enforcement powers to ensure such Fund Client's compliance with the Private Funds Act. Regulation under the Private Funds Act will entail the filing of prescribed details and audited accounts annually with the Authority. As a regulated private fund, the Authority may at any time instruct such Fund Client to have its accounts audited and to submit them to the Authority within such time as the Authority specifies or to provide a one-off or periodic report to the Authority on certain matters requested by the Authority in the connection with the private fund in such form and within such time as the Authority specifies. In addition, the Authority may ask the general partner of such Fund Client to give the Authority such documents, statements or other information in respect of the Fund Client as the Authority may reasonably require to enable it to carry out its duty under the Private Funds Act.

However, as a regulated private fund a Fund Client will not be subject to supervision in respect of its investment activities or the constitution of its investment assets by the Authority or any other governmental authority in the Cayman Islands, although the Authority does have power to investigate the activities of such Fund Client in certain circumstances.

The Authority may take certain actions if it is satisfied that a regulated private fund is or is likely to become unable to meet its obligations as they fall due, or is carrying on business fraudulently or otherwise in a manner detrimental to the public interest or to the interests of its investors or creditors, or is carrying on or is attempting to carry on business or is winding up of its business voluntarily in a manner that is prejudicial to its investors or creditors. The powers of the Authority include, inter alia, the power to require the substitution of the general partner, to appoint a person to advise such Fund Client on the proper conduct of its affairs or to appoint a person to assume control of the affairs of such Fund Client. There are other remedies available to the Authority including the ability to apply to court for approval of other actions.

The costs of registration of a Fund Client in the Cayman Islands and any costs, including legal costs and any registration or other fees payable to the Authority or any other governmental authority in the Cayman Islands, shall be an expense of such Fund Client.

Risk Factors – Stonepeak Infrastructure Funds and Stonepeak Global Renewables Fund

Potential investors in Stonepeak Fund I, Stonepeak Fund II, Stonepeak Fund III, Stonepeak Fund IV, Stonepeak Renewables Fund and any related co-investment vehicles should carefully consider the risks specific to such Fund Clients' investments, which include, but are not limited to, the following:

Nature of Infrastructure and Renewable Energy Investments Generally. Investment in infrastructure and renewable energy projects, businesses and/or assets involves many relatively unique and acute risks. Project revenues can be affected by a number of factors including economic and market conditions, political events, competition, regulation, and the financial position and business strategy of customers. Unanticipated changes in the availability or price of inputs necessary for the operation of infrastructure and renewable energy assets may adversely affect the overall profitability of the investment or related project. Events outside the control of a portfolio company (which for all purposes of this paragraph includes assets, projects

and/or businesses in which the Fund Clients invest), such as political action, governmental regulation, demographic changes, economic growth, increasing fuel prices, government macroeconomic policies, political events, toll rates, social stability, competition from untolled or other forms of transportation, natural disasters, changes in weather, changes in demand for products or services, bankruptcy, or financial difficulty of a major customer and acts of war or terrorism, could significantly reduce the revenues generated or significantly increase the expense of constructing, operating, maintaining or restoring infrastructure facilities. In turn, this may impair a portfolio company's ability to repay its debt, make distributions to a Fund Client or even result in termination of an applicable concession or other agreement. As a general matter, the operation and maintenance of infrastructure assets or businesses and energy generation and other facilities involve various risks and are subject to substantial regulation (as described below), many of which may not be under the control of the owner/operator, including labor issues, failure of technology to perform as anticipated, structural failures and accidents and the need to comply with the directives of government authorities. Although portfolio companies may maintain insurance to protect against certain risks, where available on reasonable commercial terms (such as business interruption insurance that is intended to offset loss of revenues during an operational interruption), such insurance is subject to customary deductibles and coverage limits and may not be sufficient to recoup all of a portfolio company's losses. Furthermore, once energy generation and infrastructure assets of investments become operational, they may face competition from other renewable energy and related infrastructure assets in the vicinity of the assets they operate, the presence of which depends in part on governmental plans and policies.

Energy and Natural Resources Regulatory Risk. The energy and natural resource sectors are subject to comprehensive United States and non-U.S. federal, state, and local laws and regulations. Present, as well as future, statutes and regulations could cause additional expenditures, decreased revenues, restrictions and delays that could materially and adversely affect a Fund Client's investments and the prospects of such Fund Client. There can be no assurance that (i) existing regulations applicable to investments generally or the portfolio companies will not be revised or reinterpreted; (ii) new laws and regulations will not be adopted or become applicable to portfolio companies; (iii) the technology and equipment selected by portfolio companies to comply with current and future regulatory requirements will meet such requirements; (iv) such portfolio companies' business and financial conditions will not be materially and adversely affected by such future changes in, or reinterpretation of, laws and regulations (including the possible loss of exemptions from laws and regulations) or any failure to comply with such current and future laws and regulations; or (v) regulatory agencies or other third parties will not bring enforcement actions in which they disagree with regulatory decisions made by other regulatory agencies. In addition, in many instances, the operation or acquisition of energy infrastructure assets may involve an ongoing commitment to or from a government agency. The nature of these obligations exposes the owners of infrastructure investments to a higher level of regulatory control than typically imposed on other businesses.

Technical Risk. Investments in the infrastructure and renewable energy industry may be subject to technical risks, including the risk of mechanical breakdown, spare parts shortages, failure to perform according to design specifications and other unanticipated events that adversely affect operations. While the Fund Clients intend to seek investments in which creditworthy and appropriately bonded and insured third parties bear much of these risks, there can be no assurance that any or all such risks can be mitigated or that such parties, if present, will perform their obligations.

Investments in the Energy Sector. The operations of energy companies are subject to many risks inherent in the transporting, processing, storing, distributing, mining or marketing of natural gas, natural gas liquids, crude oil, coal, refined petroleum products or other hydrocarbons, or in the exploring, managing or producing of such commodities, including, without limitation: damage to pipelines, storage tanks or related equipment and surrounding properties caused by hurricanes, tornadoes, floods, fires and other natural disasters or by acts of terrorism; inadvertent damage from construction and farm equipment; leaks of natural

gas, natural gas liquids, crude oil, refined petroleum products or other hydrocarbons; and fires and explosions. These risks could result in substantial losses due to personal injury or loss of life, severe damage to and destruction of property and equipment and pollution or other environmental damage and may result in the curtailment or suspension of their related operations, any and all of which could result in lower than expected returns to a Fund Client. Such risks are particularly acute in the current environment due to, among other things, disruptions in the global supply chain, economic downturn and global travel restrictions.

Volatility of Commodity Prices. The performance of certain of Fund Client investments may be substantially dependent upon prevailing prices of oil, natural gas, coal, metals, and other commodities and the differential between prices of specific commodities that are a primary factor in the profitability of certain conversion activities such as petroleum refining (“crack spread”) and power generation (“spark spread”). For example, the operation and cash flows of a Fund Client investment may depend, in some cases to a significant extent, upon prevailing or improving market prices for energy and other commodities. Commodity prices have been, and are likely to continue to be, volatile and subject to wide fluctuations in response to uncertain market factors that are beyond the control of each Fund Client, its general partner, and the applicable Adviser, including (i) changes in supply and demand, (ii) market uncertainty, (iii) political conditions in commodity-producing regions, (iv) the competitive position of energy-related commodities as compared with other energy sources, (v) the industry-wide refining or processing capacity for energy-related commodities, (vi) weather conditions, and (vii) overall economic conditions. These factors may affect the level and volatility of commodities prices and the liquidity of a Fund Client’s investments, which could impair such Fund Client’s performance or result in losses, potentially materially.

Effects of Ongoing Changes in the Utility Industry. Fund Clients may make certain investments in utility industries both in the United States and abroad. In many regions, including the United States, the market dynamics of the utility industry may change, primarily in wholesale markets, as a result of consumer demands, technological advances, greater availability of natural gas and other factors. As a result, additional significant competitors could become active in parts of the utility industry. In addition, utility asset owners may find it increasingly difficult to negotiate long-term procurement or sales agreements with counterparties, which may affect a Fund Client’s profitability and financial stability. To the extent competitive pressures increase and the pricing and sale of electricity assume more characteristics of a commodity business, the economics of independent power generation projects into which a Fund Client may invest may come under increasing pressure.

Weather and Climatological Risks. Certain energy companies may be particularly sensitive to weather and climate conditions. For example, solar power generators rely on the frequency and intensity of sunlight, wind turbines rely on the frequency and intensity of the wind, and companies focused on biomass rely on the production of crops, which can be adversely affected by droughts and other weather conditions.

Renewable Energy Investment Program. The investment professionals of Stonepeak Renewables Fund’s investment team have not previously worked together as a group in the context of a newly formed private equity fund, and certain of such investment professionals were not previously associated with Stonepeak on a long-term basis. The success of Stonepeak Renewables Fund will be dependent, in whole or in part, on the ability of Stonepeak Renewables Fund’s investment team to work well together as a team and be successfully integrated into the Stonepeak organization. Stonepeak has not previously operated an investment fund with an investment objective or strategy substantially similar to Stonepeak Renewables Fund. Investors should draw no conclusions from the performance information set forth herein and should not expect to achieve similar returns.

Technology May Become Obsolete. The renewable energy industry is subject to continual technological innovation. Renewable energy products and services interact with a variety of hardware and software technology systems and devices. An investment may be required to implement new technologies or adapt

existing technologies in response to changing market conditions, customer preferences, industry standards or inability to secure necessary intellectual property licenses, which could require significant capital expenditures. It is also possible that one or more of a portfolio company's competitors could develop a significant technological advantage that allows them to provide additional or superior products or services, or to lower their price for similar products or services, that could put an investment at a competitive disadvantage. The inability to adapt to changing technologies, market conditions or customer preferences in a timely manner could have a material adverse effect on a Fund Client's investment strategy, business, financial condition, cash flows or results of operations.

Platform Investments. From time to time, a Fund Client may recruit a management team to pursue a new "platform" opportunity expected to lead to the formation of a future portfolio company. In other cases, a Fund Client may form a new investment and recruit a management team to build the portfolio company through acquisitions and organic growth. In both cases, such Fund Client will bear the expenses of the management team or portfolio company, as the case may be, including any overhead expenses, employee compensation, diligence expenses or other related expenses in connection with backing the management team or building out the platform company. Such expenses may be borne directly by a Fund Client as fund expenses (or broken deal expenses, if applicable) or indirectly as such Fund Client bears the start-up and ongoing expenses of the newly formed platform portfolio company. In certain cases, the services provided by a management team may overlap with the services provided by the applicable Adviser to a Fund Client. The compensation of management of a platform portfolio company may include interests in the profits of the portfolio company, including profits realized in connection with the disposition of an asset. Although a platform portfolio company may be controlled by a Fund Client, members of a management team will not be treated as affiliates of the general partner for purposes of the applicable LP Agreement. Accordingly, none of the expenses described above will offset the management fee.

Illiquid and Long-Term Investments; Investments Longer than Term. Fund Clients and their investors must bear the risk of limited liquidity for the duration of their private market investments. Investments in infrastructure assets are generally less liquid and involve a longer holding period than traditional private equity investments, which are themselves often considered illiquid and long-term. Investments in unlisted companies can be difficult or impossible to realize. Although investments by the Fund Clients may generate some current income, the return of capital and the realization of gains, if any, from an investment generally will occur only upon the partial or complete disposition of such investment. While an investment may be sold at any time, it is not generally expected that this will occur for a number of years after the investment is made. Some investments proposed by the Adviser may not be advantageously disposed of prior to the date the Fund Clients will be dissolved, either by expiration of the Fund Clients' term or otherwise. It is unlikely that there will be a public market for the securities held by the Fund Clients at the time of their acquisition. Therefore, no assurance can be given that, if a Fund Client is determined to dispose of a particular investment held by the Fund Client, it could dispose of such investments at a prevailing market price, and there is a risk that disposition of such investments may require a lengthy time period or may result in distributions in kind to investors. Although the Adviser expects that investments will be disposed of prior to dissolution or be suitable for in-kind distribution at dissolution, the Fund Clients may have to sell, distribute or otherwise dispose of investments at a disadvantageous time as a result of dissolution. Any dispositions prior to the expiration date of the expected holding period for such investor may adversely affect returns. The Fund Clients will generally not be able to sell their investments through the public markets unless their sale is registered under applicable securities laws, or unless an exemption from such registration requirements is available. Additionally, there can be no assurances that investments can be sold on a private basis. In addition, in some cases the Fund Clients may be prohibited by contract or legal or regulatory reasons from selling certain securities for a period of time. Furthermore, infrastructure investments by their nature are subject to industry cyclicality, downturns in demand, market disruptions, and the lack of available capital for potential purchasers and are therefore often difficult or time consuming to liquidate. Upon dissolution of the Fund Clients or as otherwise provided in the LP Agreements,

investments may be distributed in-kind so that the limited partners of the Fund Clients may then become equity holders in one or more public or private companies (and consequently be unable to protect their interests in the same manner as their interests in the Fund Clients).

No Market for Fund Client Interests; Restrictions on Transfers. The interests of the Fund Clients have not been registered under the Securities Act of 1933, as amended (the “Securities Act”), the securities laws of any U.S. state, or the securities laws of any other jurisdiction, and, therefore, cannot be resold unless they are subsequently registered under the Securities Act and any other applicable securities laws, or an exemption from such registration is available. It is not contemplated that registration under the Securities Act or other securities laws will ever be effected. There is no public market for the interests of the Fund Clients and one is not expected to develop. Each investor in a Fund Client will be required to represent that it is a “qualified purchaser” under the Investment Company Act of 1940, as amended (or other similar qualified investor under applicable securities laws) and that it is acquiring its interests in the applicable Fund Client for investment purposes and not with a view to resale or distribution and that it will only sell and transfer such interests to a qualified investor under applicable securities laws or in a manner permitted by the applicable LP Agreement and consistent with such laws. Subject to a few limited exceptions, the investors in the Fund Clients will not be permitted to directly or indirectly assign, sell, exchange, mortgage, pledge, or transfer any of their interest, rights, or obligations with respect to their interests, except by operation of law, without the prior written consent of the applicable general partner, which consent may not be unreasonably withheld. Additionally, an investor in a Fund Client will not be permitted to share confidential information regarding such Fund Client or such investor’s interests therein to prospective purchasers of its interests unless the general partner of such Fund Client provides its prior written consent, which it may withhold in its sole discretion. Except in limited circumstances, voluntary withdrawals from a Fund Client will not be permitted. The investors in a Fund Client must be prepared to bear the risks of owning interest in such Fund Client for an extended period of time.

Risk Factors – Credit Funds

The following risk factors primarily relate to Stonepeak Credit Fund I, and may also relate to the other Fund Clients to the extent such Fund Clients invest in credit investments. Potential investors in such Fund Clients should carefully consider the risks related to such Fund Clients’ investments, which include, but are not limited to, the following:

Credit Risk. One of the fundamental risks associated with Stonepeak Credit Fund I’s investments is credit risk, which is the risk that an issuer will be unable to make principal and interest payments on its outstanding debt obligations when due. Stonepeak Credit Fund I’s returns would be adversely impacted if an issuer of debt in which Stonepeak Credit Fund I invests becomes unable to make such payments when due. Although Stonepeak Credit Fund I may make investments that the general partner believes are secured by specific collateral the value of which may initially exceed the principal amount of such investments or Stonepeak Credit Fund I’s fair value of such investments, there can be no assurance that the liquidation of any such collateral would satisfy the borrower’s obligation in the event of non-payment of scheduled interest or principal payments with respect to such investment, or that such collateral could be readily liquidated. Stonepeak Credit Fund I may also invest in leveraged loans, high yield securities and other unsecured investments, each of which involves a higher degree of risk than senior secured loans. Furthermore, Stonepeak Credit Fund I’s right to payment and its security interest, if any, may be subordinated to the payment rights and security interests of the senior lender. Certain of these investments may have an interest-only payment schedule, with the principal amount remaining outstanding and at risk until the maturity of the investment. In addition, certain instruments may provide for payments-in-kind, which have a similar effect of deferring current cash payments. In such cases, a portfolio company’s ability to repay the principal of an investment may be dependent upon a liquidity event or the long-term success of the portfolio company, the occurrence of which is uncertain. With respect to Stonepeak Credit Fund I’s investments in

any number of credit products, if the borrower or issuer breaches any of the covenants or restrictions under the indenture governing notes or the credit agreement that governs loans of such issuer or borrower, it could result in a default under the applicable indebtedness as well as the indebtedness held by Stonepeak Credit Fund I. Such default may allow the creditors to accelerate the related debt and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. This could result in an impairment or loss of Stonepeak Credit Fund I's investment or result in a pre-payment (in whole or in part) of Stonepeak Credit Fund I's investment. As it relates to all of the foregoing risks and related considerations discussed above, it should also be noted that Stonepeak Credit Fund I is expected to also invest in high yield bonds and other unsecured investments, each of which involves a higher degree of risk than senior secured loans.

Nature of Junior, Subordinated and/or Unsecured Investments. Stonepeak Credit Fund I's strategy may entail acquiring investments that are junior, subordinated and/or unsecured instruments. If the portfolio company in question does not successfully reorganize, Stonepeak Credit Fund I will have no assurance (as do those distressed investors that acquire only fully collateralized positions) that it will recover any of the principal that it has invested. While such junior, subordinated or unsecured investments may benefit from the same or similar financial and other covenants as those enjoyed by the indebtedness ranking ahead of the investments and may benefit from cross-default provisions and security over the portfolio company's assets, some or all of such terms may not be part of particular investments. Moreover, the ability of Stonepeak Credit Fund I to influence a portfolio company's affairs, especially during periods of financial distress or following an insolvency, is likely to be substantially less than that of senior creditors. For example, under typical subordination terms, senior creditors are able to block the acceleration of the debt or the exercise by debt holders of other rights they may have as creditors. Accordingly, Stonepeak Credit Fund I may not be able to take steps to protect its investments in a timely manner or at all and there can be no assurance that the rate of return objectives of such credit fund or any particular investment will be achieved. In addition, the debt investments in which Stonepeak Credit Fund I may invest may not be protected by financial covenants or limitations upon additional indebtedness, may have limited liquidity and may not be rated by a credit rating agency.

Stonepeak Credit Fund I's investments may be in the form of subordinated debt instruments, which will rank behind the borrower's more senior indebtedness. As a result, upon any distribution to a borrower's creditors in a bankruptcy, liquidation or reorganization or similar proceeding, the holders of such borrower's more senior and/or secured indebtedness (to the extent of the collateral securing such obligation) will be entitled to be paid in full before any payment may be made on Stonepeak Credit Fund I's investment. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to a borrower, Stonepeak Credit Fund I will participate with all other holders of such borrower's indebtedness in the assets remaining after the borrower has paid all of its more senior and/or secured indebtedness (to the extent of the collateral securing such obligation). A borrower may not have sufficient funds to pay all of its creditors and Stonepeak Credit Fund I may receive nothing, or less, ratably, than the holders of more senior and/or secured indebtedness of such borrower or the holders of indebtedness that is not subordinated.

Stonepeak Credit Fund I's investments may be subject to early redemption features, refinancing options, pre-payment options or similar provisions which, in each case, could result in the issuer repaying the principal on an obligation held by Stonepeak Credit Fund I earlier than expected. This may happen when there is a decline in interest rates. Early repayments of Stonepeak Credit Fund I's investments may have a material adverse effect on such credit fund's investment objectives and the internal rate of return on invested capital. In addition, depending on fluctuations of the equity markets and other factors, warrants and other equity investments may become worthless. There can be no assurance that attempts to provide downside protection through contractual or structural terms with respect to Stonepeak Credit Fund I's investments will achieve their desired effect. Certain investments of Stonepeak Credit Fund I may not have all the characteristics targeted by such credit fund. Furthermore, Stonepeak Credit Fund I has limited flexibility to

negotiate terms when purchasing newly issued investments in connection with a syndication of mezzanine or certain other junior or subordinated investments or in the secondary market.

Nature of Investment in Senior Loans. The assets of Stonepeak Credit Fund I will likely include first lien senior secured debt, but may also include selected second lien senior secured debt, which involves a higher degree of risk of a loss of capital. The factors affecting an issuer's first and second lien leveraged loans, and its overall capital structure, are complex. Some first lien loans may not necessarily have priority over all other debt of an issuer. Any secured debt is generally secured only to the extent of its lien and only to the extent of the value of the underlying assets on already secured assets. Moreover, underlying assets are subject to credit, liquidity, and interest rate risk. Although the amount and characteristics of the underlying assets selected as collateral may allow Stonepeak Credit Fund I to withstand certain assumed deficiencies in payments occasioned by the borrower's default, if any deficiencies exceed such assumed levels or if underlying assets are sold it is possible that the proceeds of such sale or disposition will not be equal to the amount of principal and interest owing to Stonepeak Credit Fund I in respect to its investment. The borrowers on loans constituting Stonepeak Credit Fund I's assets may seek the protections afforded by bankruptcy, insolvency and other debtor relief laws.

Senior secured loans are also subject to other risks, including (i) the possible invalidation of a debt or lien as a "fraudulent conveyance", (ii) the recovery as a "preference" of liens perfected or payments made on account of a debt in the 90 days before a bankruptcy filing, (iii) equitable subordination claims by other creditors, (iv) so-called "lender liability" claims by the issuer of the obligations and (v) environmental liabilities that may arise with respect to collateral securing the obligations. Loans may become non-performing for a variety of reasons. Adverse credit events with respect to any portfolio company, such as missed or delayed payment of interest and/or principal, bankruptcy, receivership, or distressed exchange, can significantly diminish the value of Stonepeak Credit Fund I's investment in any such company. Stonepeak Credit Fund I's investments may be subject to early redemption features, refinancing options, pre-payment options or similar provisions which, in each case, could result in the issuer repaying the principal on an obligation held by Stonepeak Credit Fund I earlier than expected. In addition, depending on fluctuations of the equity markets, warrants and other equity securities may become worthless. To the extent Stonepeak Credit Fund I holds subordinated debt securities, such debt may be unsecured and structurally or contractually subordinated to substantial amounts of senior indebtedness, all or a significant portion of which may be secured. Such debt investments may not be protected by financial covenants or limitations upon additional indebtedness. Certain of Stonepeak Credit Fund I's senior loans may be unsecured or be senior subordinated notes.

Item 9 - Disciplinary Information

No legal or disciplinary events that are material to a Fund Client or prospective Fund Client's evaluation of Stonepeak's advisory business or the integrity of its management have occurred.

Item 10 - Other Financial Industry Activities and Affiliations

Stonepeak is an independent investment adviser exclusively to private equity and other funds and is not affiliated or registered (or has any application pending) as a securities broker-dealer, a futures commission merchant, commodity pool operator, commodity trading adviser or an associated person of any of the foregoing entities.

Each of the Senior Executives is a registered representative of MCP, which is registered with the SEC as a broker-dealer and is a member of FINRA. MCP is not an affiliate of the Adviser. In certain limited circumstances involving the receipt of fees of the type described herein, such activities will be carried out by the Senior Executives as registered representatives of MCP and fees payable will be paid in the first instance to MCP. Any net fees received by MCP (including, for the avoidance of doubt, the Senior Executives) in such circumstances will, for purposes of the management fee offset provisions under the applicable LP Agreements, be considered to have been received by the Adviser notwithstanding that payment will be made to the Senior Executives. It is not expected that the Senior Executives will engage in any activities in their capacities as registered representatives of MCP other than activities on behalf of, or in connection with, Fund Clients (or co-investors) and/or portfolio companies thereof. Other than the Senior Executives, none of Stonepeak's other managing directors or professional staff is a representative of a broker-dealer or any other regulated securities entities.

An employee of the Adviser is a former employee of a third party that, during his employment with the third party, provided advisory services to certain investors in Stonepeak Fund II and investors in funds managed by other investment advisers. The advice to such investors in Stonepeak Fund II included recommending Stonepeak Fund II to the investors. The employee continues to hold economic interests in his former employer through which he will continue to receive compensation related to the advisory services previously provided prior to becoming an employee of Stonepeak.

Other than the relationships with TIAA Advisor Investor (described below), MCP (described above), Landmark (described above) and the arrangement of the employee (described above), neither Stonepeak nor its management persons or professional staff has a relationship or arrangement that is material to its advisory business or its Fund Clients with a related person of the type listed below:

- Broker-dealer, municipal securities dealer, or government securities dealer or broker
- Investment company or other pooled investment vehicle
- Other investment adviser or financial planner
- Futures commission merchant, commodity pool operator, or commodity trading adviser
- Banking or thrift institution
- Accountant or accounting firm
- Lawyer or law firm
- Insurance company or agency
- Pension consultant
- Real estate broker or dealer
- Sponsor or syndicator of limited partnerships

Adviser's Special Relationship with TIAA

TIAA Advisor Investor has provided seed capital to SAH. As a result, TIAA Advisor Investor owns a minority interest of SAH as a member thereof. TIAA Advisor Investor also owns a minority interest of Stonepeak GP Holdings I, Stonepeak GP Holdings II and Stonepeak GP Holdings III as a limited partner in each of these entities. Through its interests in SAH, Stonepeak GP Holdings I, Stonepeak GP Holdings II and Stonepeak GP Holdings III, TIAA Advisor Investor has indirect interests in Stonepeak Advisors I, Stonepeak GP I, Stonepeak GP II and Stonepeak GP III, respectively. TIAA Advisor Investor has no interest in the Adviser, Stonepeak Advisors II, Stonepeak Advisors III, Stonepeak Advisors IV, Stonepeak Credit Advisors I, Stonepeak Renewables Advisor, Stonepeak Credit GP I, Stonepeak GP Renewables or Stonepeak Partners GP. TIAA Advisor Investor is an affiliate of TIAA. TIAA Advisor Investor, which is an affiliate of TIAA, is a limited partner of the Stonepeak Fund I and Stonepeak Fund II and has made a substantial anchor investment in Stonepeak Fund I.

While the Stonepeak Advisors and the Stonepeak GPs will generally manage the business and affairs of the Stonepeak Funds, as a result of its interests in SAH and Stonepeak GP Holdings, TIAA Advisor Investor is entitled to certain contractual economic, governance, reporting and other rights. For instance, TIAA Advisor Investor will receive a portion of the fees and distributions (including Carry) payable to SAH, Stonepeak GP I, Stonepeak GP II and Stonepeak GP III. Two representatives designated by TIAA Advisor Investor also serve on the Steering Committee and the Fund I Investment Committee. The consent of at least one of TIAA Advisor Investor's representatives on the Steering Committee to all material operating decisions of Stonepeak Fund I and SAH is required; however, investment decisions are controlled by Mr. Dorrell.

The interests of the TIAA Advisor Investor and its affiliates may conflict with the interests of the Fund Clients and investors therein. TIAA is a financial institution with many different affiliates, businesses and activities, at least some of which may conflict with the interests of Fund Clients (including the Stonepeak Funds) and investors therein. TIAA and the TIAA Advisor Investor and their respective affiliates may serve as investment advisers or investment managers to other client accounts and conduct investment activities for their own accounts and may give advice or take action with respect to such other clients or accounts that differs from advice given or actions taken by the Adviser, SAH, the Stonepeak Advisors, the Stonepeak GPs, Stonepeak GP Holdings or Stonepeak Partners GP with respect to Fund Clients (including the Stonepeak Funds). TIAA and the TIAA Advisor Investor and their respective affiliates may have a greater financial interest with respect to such other clients or accounts than with respect to Fund Clients (including the Stonepeak Funds). TIAA and the TIAA Advisor Investor and their respective affiliates may compete with Fund Clients (including the Stonepeak Funds) for certain investment opportunities and Stonepeak staff time. Furthermore, there can be no assurance that TIAA, the TIAA Advisor Investor or the TIAA Advisor Investor or any of their respective affiliates will hold or continue to hold any interest in SAH, Stonepeak GP Holdings or any of the Fund Clients (including the Stonepeak Funds), as applicable, and each may dispose, transfer or sell any of such interests in accordance with the terms of the applicable governing documents.

The TIAA Advisor Investor's representatives on the Fund I Investment Committee and the Steering Committee are not required to devote any specific amount of time thereto and have no fiduciary duties to the Stonepeak Funds or their investors (except as may be required by applicable law). Accordingly, the TIAA Advisor Investor is entitled to consider its own interests with respect to its rights concerning SAH and Stonepeak GP Holdings and not the interests of the Fund Clients or investors therein. Furthermore, as a result of the TIAA Advisor Investor's right to receive distributions from SAH and Stonepeak GP Holdings, the TIAA Advisor Investor, as a limited partner of certain of the Stonepeak Funds, may have interests that are not aligned with interests of other investors in the Stonepeak Funds (including, without

limitation, with respect to certain voting matters concerning Stonepeak Advisors I, SAH, Stonepeak GP I, Stonepeak GP II and Stonepeak GP III and Stonepeak GP Holdings).

Each investor in the Stonepeak Funds is required to acknowledge and agree that conflicts of interest may arise related to the fact that the TIAA Advisor Investor has a direct or indirect interest in Stonepeak GP I, Stonepeak GP II, Stonepeak GP III, Stonepeak GP Holdings, SAH and Stonepeak Advisors I and one or more representatives on the Fund I Investment Committee.

Financing Arrangement with Landmark

In addition, as more fully described in Item 4 – “Advisory Business,” the SIH SPV is entitled to receive repayment proceeds representing a portion of the management fees and carried interest in respect of certain other Fund Clients. The SIH SPV has seeded the investment in Stonepeak Renewables Fund and may seed investments in future Fund Clients, has invested in Stonepeak GP IV and may make stand-alone investments not in or alongside any other Fund Client, in each case subject to the terms and conditions of the governing documents of the Fund Clients and the SIH SPV and Stonepeak’s investment allocation policy. See Item 6 – “Performance-Based Fees and Side-by-Side Management.” Accordingly, the Adviser may have an incentive to provide more favorable terms to the SIH SPV than to other investors, provide the SIH SPV with individual company co-investment opportunities and/or manage the Fund Clients’ investments in a manner beneficial to Landmark as a result of its indirect ownership in the Adviser and the overall SIH SPV financing arrangement.

Brokerage Services.

As described above, each of the Senior Executives is a registered representative of MCP, which is registered with the SEC as a broker-dealer and is a member of FINRA. MCP is not an affiliate of the Adviser. In certain limited circumstances involving the receipt of fees of the type described herein, such activities will be carried out by the Senior Executives as registered representatives of MCP and fees payable will be paid in the first instance to MCP. Any net fees received by MCP (including, for the avoidance of doubt, the Senior Executives) in such circumstances will, for purposes of the management fee offset provisions under the applicable LP Agreements, be considered to have been received by the Adviser notwithstanding that payment will be made to the Senior Executives. It is not expected that the Senior Executives will engage in any activities in their capacities as registered representatives of MCP other than activities on behalf of, or in connection with, Fund Clients (or co-investors) and/or portfolio companies thereof. The Senior Executives will provide broker-dealer services through MCP to Fund Client (or co-investor) portfolio companies only if such use is consistent with the Adviser’s fiduciary duties. The relationship the Adviser has with MCP could give rise to a conflict of interest between the Adviser and a Fund Client that has an interest in any portfolio company with respect to which MCP provides services. In particular, the Adviser could have an incentive to seek to influence the decision by a portfolio company’s management to retain MCP, or to otherwise transact with MCP, instead of other unaffiliated broker-dealers or other service providers or counterparties that could be more appropriate or offer better terms. The Adviser could also have an incentive to structure portfolio company transactions, including related co-investment opportunities, so that they require the use of a broker-dealer (and consequently provide an opportunity for MCP to be retained by a portfolio company or acquisition). The Adviser generally will evaluate any such transactions on a case-by-case basis to address any such conflicts. Transactions involving a Fund Client (or co-investor) portfolio company and MCP are also reviewed with regard to the appropriateness of the transaction and any fiduciary obligations. MCP may have access to confidential and/or material non-public information regarding a Fund Client or its portfolio companies and, subject to applicable law, may use such information in connection with services provided by MCP.

In addition, Stonepeak may in the future consider the launch of any type of capital markets and/or additional credit advisory functions, including but not limited to additional businesses to advise on the issuance of debt or equity and/or to participate in loan origination, syndication and/or servicing. In the event that Stonepeak decides to engage in any such business, any underwriting spreads or other fees of any kind with respect to any such activities, including spreads or fees from any portfolio company of a Fund Client or any other investment vehicle sponsored by a Stonepeak GP, the Adviser or their respective affiliates, will not be offset against the management fee of the applicable Fund Client even if paid by or on behalf of, or are otherwise derived from, portfolio companies.

Other Activities and Relationships

The partners or employees of the Adviser, SAH and the Stonepeak Advisors and their respective affiliates serve on the boards of directors of portfolio companies in which their clients invest. Serving in such capacity could give rise to conflicts to the extent that an employee's fiduciary duties to a portfolio company as a director conflicts with the interest of the private equity fund client. In certain circumstances, for example in situations involving bankruptcy or near-insolvency of a portfolio company, actions that would be in the best interest of the portfolio company may not be in the best interests of the Fund Clients and *vice versa*. Accordingly, in these situations, there will be conflicts of interest between such individual's duties as an officer or employee of Stonepeak and such individual's duties as a director of the portfolio company. Conflicts can also arise in cases where a Fund Client makes an investment in a different class of securities relative to any other Fund Client that has an interest in the same portfolio company.

Additional Potential Conflicts.

The officers, directors, members, managers, and employees of the Adviser, SAH and Stonepeak Advisors can trade in securities for their own accounts, subject to restrictions and reporting requirements as required by law or otherwise determined from time to time by the Adviser, SAH and Stonepeak Advisors. To the extent officers, directors, members, managers, and employees of the Adviser, SAH, and Stonepeak Advisors invest in the same securities as a Fund Client, such transactions introduce a potential conflict of interest between the interests of such Fund Client and the interests of Stonepeak or its related persons. For example, a potential conflict of interest could arise in that the interested related person could benefit from such a purchase or sale of the applicable securities by such Fund Client.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Stonepeak has developed and approved a code of ethics (the “Code of Conduct”) that sets forth standards of ethical conduct for partners and employees and is designed to address and avoid potential conflicts as required under Rule 204A-1 under the Advisers Act. Among other things, the Code of Conduct prescribes standards for dealing with clients/investors ethically, addresses conflicts of interest issues between the Adviser and its clients, and supplements personal trading and operating procedures.

Stonepeak’s Code of Conduct includes:

- Standards of business conduct required of our supervised persons, which standards reflect our fiduciary obligations and those of our supervised persons;
- Provisions requiring our supervised persons to comply with applicable securities laws;
- Provisions that require all of our “access persons” as that term is defined by the SEC in Rule 204A-1, to report, and the Adviser’s Chief Compliance Officer to periodically review, their personal securities transactions and holdings;
- Provisions requiring supervised persons to report any violation of the Code of Conduct to our Chief Compliance Officer;
- Provisions requiring us to provide each of our supervised persons with a copy of the Code of Conduct and any amendments, and requiring all supervised persons to provide us with a written acknowledgement of their receipt thereof and an annual certification of compliance;
- Provisions to ensure compliance with “pay to play” prohibitions. The senior managing directors have agreed that neither the Adviser nor the individual senior managing directors will make political donations while serving in any capacity with the Stonepeak and staff have been encouraged to follow a similar approach; and
- Provisions requiring access persons to obtain approval before directly or indirectly acquiring beneficial ownership in any security in an initial public offering or private placement.

Stonepeak’s Code of Conduct also applies to SAH, the Stonepeak Advisors and the various GP affiliates. A copy of Stonepeak’s Code of Conduct will be provided to investors and prospective investors upon request.

Possession of Material, Non-Public Information and Other Trading Restrictions. By reason of their responsibilities in connection with other activities of Stonepeak, certain Stonepeak investment professionals may acquire confidential or material, non-public information concerning an entity in which Fund Clients have invested, or propose to invest, and the possession of such information may limit the ability of the Adviser to buy or sell particular securities of such entity on behalf of Fund Clients, thereby limiting the investment opportunities or exit strategies available to the Fund Clients. In addition, holdings in the securities of an issuer by Stonepeak or its affiliates may affect the ability of Fund Clients to make certain acquisitions of or enter into certain transactions with such issuer. Furthermore, Stonepeak has established policies and procedures to prevent the abuse of material non-public information which includes procedures for, among other things, the use and maintenance of restricted trading lists and restrictions on trading on material, non-public information, either personally or on behalf of clients.

Conflicts of Interest. Fund Clients and their investors should be aware that there will be occasions when the Adviser, SAH and Stonepeak Advisors and their respective affiliates will encounter potential conflicts

of interest in connection with a Fund Client's activities, including certain conflicts of interest relating to the relationship between Stonepeak, on the one hand, and TIAA Advisor Investor and/or the SIH SPV, on the other hand. The following discussion enumerates certain potential conflicts of interest that should be carefully evaluated by Fund Clients and their investors.

- **Allocation of Investments.** To the extent an investment opportunity is appropriate for more than one Fund Client and/or the SIH SPV, such investment opportunities will be allocated between such Fund Clients and/or the SIH SPV by the Stonepeak GPs on a basis that they believe in good faith to be fair and reasonable, taking into account, as applicable, the sourcing of the transaction, the nature of the investment focus of each such other vehicle, the relative amounts of capital available for investment, the terms of such Fund Clients' and/or the SIH SPV's governance agreements and such other vehicle and legal, tax, regulatory, accounting and other similar considerations deemed relevant by the Stonepeak GPs in good faith. Furthermore, with respect to the Stonepeak private equity funds, the Stonepeak GPs or their affiliates will not close on any Similar Fund until at least 75% of the capital commitments have been invested, committed or reserved in investments, or until the end of the investment period. Any Similar Fund closed on or prior to the expiration of the investment period will invest in investments alongside the Stonepeak Funds until the expiration of the investment period on the same terms and conditions in all material respects, with amounts for investment allocated between the Stonepeak Funds and the Similar Fund on a basis that the Stonepeak GPs believe in good faith to be fair and reasonable, unless (i) the advisory committee of the applicable Fund Client consents, (ii) the investment by the applicable Fund Client is legally or contractually prohibited or (iii) as a result of the application of any law, regulation or governmental order, the investment could have a material adverse effect on the applicable Fund client, the Stonepeak GPs or any of their affiliates. In addition, there is some overlap in the investment types permitted by the various Fund Clients. If the investment committee of more than one Fund Client approves a potential investment, Stonepeak will allocate the investment opportunity in accordance with its allocation policy and procedures. Stonepeak Fund III has a first-look presumption for renewable energy investments as compared to Stonepeak Renewables Fund, Stonepeak Renewables Fund has a first-look presumption for renewable energy investments as compared to Stonepeak Fund IV and any successor fund thereof and Stonepeak Credit Fund I has a first-look presumption for non-control secondary and originated bonds, loans and other credit instruments in the infrastructure sector in North America as compared to any other Fund Client. Notwithstanding the foregoing, Stonepeak retains discretion to allocate any such investments to another Fund Client if it determines that such allocation is fair and reasonable in accordance with its allocation policy and applicable Fund Client governing documents. See "Item 6 – Performance-Based Fees and Side-by-Side Management" for more information.
- **Performance Allocation.** The existence of the Stonepeak GPs' Carry in certain of the Stonepeak Funds creates an incentive for the Adviser, SAH and Stonepeak Advisors to propose, or the Stonepeak GPs to make, more speculative investments on behalf of those Fund Clients than it would otherwise make in the absence of such performance-based compensation. In addition, if an investment is suitable for a Stonepeak Fund that generates Carry and a Stonepeak Fund that does not, then the Stonepeak GPs have an incentive to allocate such investment to the Stonepeak Fund that generates Carry. The Adviser's policies prohibit the allocation of investment opportunities based solely on anticipated compensation or profits to the Adviser or any of its affiliates or professionals, and require the review and approval of the relevant investment committees (comprising senior Stonepeak personnel) for allocations of opportunities that may be appropriate for multiple Fund Clients. See "Item 6 – Performance-Based Fees and Side-by-Side Management" for more information.
- **Other Fees.** Stonepeak, SAH and Stonepeak Advisors regularly receive (or, in the case of the SIH SPV, may receive) (i) acquisition fees for investments, (ii) fees for asset management Services, and

(iii) fees for advisory and/or transaction services provided to companies in which the Fund Clients have an interest. Additionally, Stonepeak and SAH, Stonepeak Advisors regularly receive (or, in the case of the SIH SPV, may receive) fees relating to the Fund Clients' investments or from unconsummated transactions (i.e., break-up and topping fees, director fees and organization, financing, divestment, and other similar fees). In certain limited circumstances, such activities will be carried out by the Senior Executives as registered representatives of MCP and fees payable by the Fund Clients' portfolio companies or co-investors will be paid in the first instance to MCP. Fund Clients and their limited partners will not receive the benefit of any fees relating to the Fund Clients' investments or paid by portfolio companies except to the extent they are offset by reduced management fees. As a result, Stonepeak will be incentivized to offer as co-investments amounts that would otherwise be invested by a Fund Client because doing so may result in the receipt of a transaction fee to Stonepeak that is not subject to the management fee offset provisions of the applicable LP Agreements. For greater certainty, Stonepeak, SAH and Stonepeak Advisors engages and retains strategic advisors, Consultants, and other similar professionals who are not employees or affiliates of Stonepeak, SAH and Stonepeak Advisors and who will, from time to time, receive payments from, or allocations with respect to, portfolio companies. See Item 5—"Fees and Compensation" for additional information.

- **Allocation of Expenses.** From time to time, Stonepeak will be required to decide whether costs and expenses are to be borne by a Fund Client, on the one hand, or such Fund Client's general partner, investment advisor, and/or other Fund Clients, on the other, and/or whether certain costs and expenses should be allocated between or among a Fund Client, on the one hand, and other Fund Clients, on the other hand. Certain expenses may be suitable for only a Fund Client, a particular parallel vehicle or a participating other Fund Client, or specific types or categories of investors in any of the foregoing vehicles which may include, for example, expenses attributable to specific structures or vehicles throughout which one or more investors participate in the investment program of such vehicles such as costs and expense specifically relating to investment structures utilized to facilitate participating in a Fund Client and certain reporting or other obligations and/or expenses of such Fund Client as a result thereof and may be allocated specifically for such vehicles and/or certain investors therein and therefore borne only by such vehicles and/or investors. For example, in the event that any investor does not fund all or any portion of a capital call when due and a Fund Client borrows to fund such investor's portion of such payment obligation, any fees, costs, and expenses (including interest expense) incurred by such Fund or the general partner thereof in connection with such borrowing may be charged solely to such investor if determined by such general partner. Alternatively, as is more often the case, expenses may generally be allocated pro rata among each participating Fund Client and each participating vehicle or fund and participating investors even if such expenses relate only to particular vehicle(s) and/or investor(s) therein. Stonepeak will make such allocation judgments in its fair and reasonable discretion, notwithstanding its interest in the outcome, and may make corrective allocations should it determine that such corrections are necessary or advisable. There can be no assurance that a different manner of allocation would not result in a Fund Client bearing less (or more) expenses.
- **Side Letter Agreements.** Stonepeak has entered into side letter agreements with certain investors that provide such investors with additional or differential rights, including but not limited to excuse rights applicable to particular investments (which may increase the percentage interest of other investors in, and contribution obligations of other investors with respect to such investments), information rights, waiver of certain confidentiality obligations and withdrawal or transfer rights.
- **Portfolio Company Relationships.** The Fund Clients' portfolio companies may be counterparties or participants in agreements, transactions or other arrangements with portfolio companies of other investment funds managed by Stonepeak, SAH and Stonepeak Advisors or other Stonepeak affiliates that, although Stonepeak determines to be consistent with the requirements of such Fund

Clients' governing agreements, might not have otherwise been entered into but for the affiliation with Stonepeak, SAH and Stonepeak Advisors, and which may involve fees and/or servicing payments to Stonepeak-affiliated entities which are not subject to the management fee offset provisions. For example, Stonepeak, SAH and Stonepeak Advisors may cause portfolio companies to enter into agreements regarding group procurement (such as the Group Purchasing Organization), benefits management, and other similar operational initiatives that may result in commissions or similar payments, including related to a portion of the savings achieved by the portfolio company.

- **Portfolio Company Service Providers and Vendors.** Each Fund Client and its portfolio companies may engage portfolio companies of such Fund Client and other Fund Clients and/or the SIH SPV to provide some or all of the following services: (a) corporate support services (including, without limitation, accounting/audit, account management, corporate secretarial services, data management, directorship services, finance/budget, human resources, information technology, judicial processes, legal, operational coordination (i.e., coordination with JV partners, property managers), risk management, tax and treasury); (b) loan management (including, without limitation, monitoring, restructuring and work-out of performing, sub-performing and nonperforming loans, administrative services, and cash management); (c) management services (i.e., management by a portfolio company, Stonepeak affiliate or third party (e.g., a third party manager) of operational services); (d) operational services (i.e., general management of day to day operations, including, without limitation, construction management, leasing services, project management and property management); and (e) transaction support services (including, without limitation, managing relationships with brokers and other potential sources of investments, identifying potential investments, coordinating with investors, assembling relevant information, conducting financial and market analyses, coordinating closing/post-closing procedures for acquisitions, dispositions and other transactions, coordination of design and development works, overseeing brokers, lawyers, accountants and other advisors, assistance with due diligence, preparation of project feasibilities, site visits, and specification of technical analysis and review of (i) design and structural work, (ii) architectural, façade and external finishes, (iii) certifications, (iv) operations and maintenance manuals and (v) statutory documents). Some of the services performed by portfolio company service providers could also be performed by Stonepeak from time to time and vice versa. Fees paid by a Fund Client or its portfolio companies to other portfolio company service providers (if any) do not offset or reduce the management fee payable by the limited partners of any Fund Client and are not otherwise shared with the Fund Clients. See also "Outsourcing" (below).
- **Common Service Providers.** The Adviser and the Stonepeak Funds may engage other common service providers. In such circumstances, there will be a conflict of interest between the Adviser and the Stonepeak Funds in determining whether to engage such service providers, including the possibility that the Adviser will favor the engagement or continued engagement of such persons if it receives a benefit from such service providers, such as lower fees, that it would not receive absent the engagement of such service provider by the Stonepeak Funds.
- **Outsourcing.** The Adviser may outsource, or cause the Fund Clients to outsource, to third parties certain of the services performed for the Fund Clients and/or their portfolio companies, including services (such as administrative, legal, accounting, tax or other related services) that can be and/or historically have been performed in-house by the Adviser and its personnel, and the fees, costs and expenses of such third-party service providers will be borne by the Fund Clients as partnership expenses. Outsourced services include certain services that often would be provided at the Adviser's expense if such services had been performed in-house by the Adviser's personnel. In such cases, the fees, costs and expenses associated with the provision of such services will be borne

by the Fund Clients instead of the Adviser, thereby increasing the partnership expenses borne by the limited partners of the Fund Clients. Outsourced services could also include certain services (such as fund administration, transactional legal advice, tax planning and other related services) that may also be provided by the Adviser in-house at a Fund Client's expense. From time to time, the Adviser may provide such services alongside (and/or supplement or monitor) a third-party service provider on the same matter or engagement and, in such cases, to the extent the Adviser's services are reimbursable under the applicable LP Agreements, the overall amount of partnership expenses borne by the limited partners of the relevant Fund Clients will be greater than would the case if only the Adviser or such third-party provided such services.

Determining whether to engage a third-party service provider and the terms (including economic terms) of any such engagement will be determined by the Adviser in its discretion, taking into account such factors as it deems relevant under the circumstances. The Adviser will have an incentive to outsource services to third parties due to a number of factors, including because the fees, costs and expenses of such service providers will be borne by the Fund Clients as partnership expenses (with no reduction or offset to management fees) and retaining third parties will reduce the Adviser's internal overhead and compensation costs for employees who would otherwise perform such services in-house. Such incentives likely exist even with respect to services where internal overhead and compensation are chargeable to the Fund Clients. Moreover, the involvement of third-party service providers may present a number of risks due to, among other factors, the Adviser's reduced control over the functions that are outsourced. There can be no assurances that the Adviser will be able to identify, prevent or mitigate the risks of engaging third-party service providers. The Fund Clients may suffer adverse consequences from actions, errors or failures to act by such third parties, and will have obligations, including indemnity obligations, and limited recourse against them.

Outsourcing may not occur uniformly for all Fund Clients and the expenses that may be borne by such vehicles and accounts vary. Accordingly, certain costs may be incurred by (or allocated to) certain Fund Clients through the use of third-party (or internal) service providers that are not incurred by (or allocated to) certain other Fund Clients for similar services.

- **Co-Investments.** Stonepeak regularly offers investors and other third parties the opportunity to co-invest in particular investments alongside the Fund Clients. Subject to the terms of the governing documents of the Stonepeak Funds and Stonepeak's allocation policy, co-investment opportunities offered to investors will be allocated as determined by the Stonepeak GPs in their discretion, and there is no guarantee for any investor that it will be offered co-investment opportunities. As a general matter, the Stonepeak GPs, in determining the allocation of co-investment opportunities, generally expect to take into account various facts and circumstances deemed relevant by the Stonepeak GPs, including among others, whether a potential co-investor has expressed interest in evaluating co-investment opportunities, whether a potential co-investor has a history of participating in co-investment opportunities with Stonepeak, the size of the potential co-investor's interest to be held in the underlying portfolio company as a result of the applicable Fund Client's investment (which is likely to be based on the size of the potential investor's capital commitment and/or investment in the applicable Fund Client), whether the potential co-investor has demonstrated a long-term or continuing commitment to the potential success of Stonepeak, the applicable Fund Client, or other co-investment and/or other Fund Clients, the timing of the co-investment opportunity, and such other factors that Stonepeak deems relevant under the circumstances. The terms and conditions of any co-investment opportunities will generally be negotiated by the Stonepeak GPs and the potential co-investor on a case-by-case basis. The allocation of co-investment opportunities may involve a benefit to Stonepeak including, without limitation, fees or carried interest from the co-investment opportunity, and capital commitments to

the Fund Clients, and such co-investment fees could create an incentive for the Stonepeak GPs to pursue an investment and structure the terms of the Fund Clients' investment differently than it otherwise would in the absence of such co-investment fees. Stonepeak also expects to offer certain potential co-investors the opportunity to co-invest on more favorable terms in exchange for their participation in, or their commitment to participate in, other Fund Clients and/or affiliates thereof. Co-investment fees realized by Stonepeak and the costs that the co-investor bears, including the extent to which a co-investor would share in any broken-deal costs, are negotiated by Stonepeak on a case-by-case basis. This typically results in the Fund Clients bearing all such broken-deal costs.

- **Overlapping Investments.** One or more Stonepeak Vehicles, including Stonepeak Credit Fund I, the SIH SPV or any affiliate thereof, will invest in debt securities and other obligations relating to investments of other Stonepeak Vehicles, including Fund II and any of its successor funds, including portfolio companies in which such other Stonepeak Vehicles make or have an investment. Conflicts of interest will likely arise between or among the Stonepeak Vehicles in connection with such debt securities and other obligations. For example, if a Stonepeak Vehicle makes or has an equity investment in a portfolio company in which another Stonepeak Vehicle has an investment, or if one Stonepeak Vehicle, through the purchase of debt obligations or otherwise, becomes a lender to a portfolio company in which another Stonepeak Vehicle has a debt or equity investment, or if two or more Stonepeak Vehicles, participate in separate tranches of a fundraising with respect to a portfolio company, Stonepeak will generally have conflicting loyalties between its duties to the Stonepeak Vehicles. In that regard, actions may be taken for the benefit of a Stonepeak Vehicle that are adverse to another Stonepeak Vehicle and vice versa. In addition, subject to the terms of the applicable governing documents, which shall control, in connection with such shared investments, Stonepeak will generally seek to implement certain procedures to mitigate conflicts of interest which typically involve (i) a forbearance of rights, including certain non-economic rights, relating to a Stonepeak Vehicle, such as where Stonepeak causes a Stonepeak Vehicle to decline to exercise certain control-and/or foreclosure-related rights with respect to a portfolio company (including following the vote of other third party lenders generally (or otherwise recusing itself with respect to decisions), and/or (ii) the applicable general partner, managing member or other similar managing fiduciary may cause a Stonepeak Vehicle to recuse itself from participating in any decisions related to equity or debt securities and/or other obligations held by such Stonepeak Vehicle, including in each case with respect to actions and/or decisions with respect to defaults, foreclosures, workouts, restructurings, and/or exit opportunities), subject to certain limitations. There can be no assurance that any such conflict will be resolved in favor of a Stonepeak Vehicle and Stonepeak may be required to take action where it will have conflicting loyalties between its duties to the Stonepeak Vehicles which may adversely impact a Stonepeak Vehicle. In addition, Stonepeak may structure an investment to permit the SIH SPV, another fund focused on credit investments or any affiliate thereof to participate in one or more debt tranches of the capital structure of a portfolio company of a Fund Client (either together with, or separate from, participation alongside the portfolio investment made by such Fund Client). Stonepeak may face conflicts of interests arising from the different interests held by different Stonepeak Vehicles in the underlying portfolio company (e.g., with respect to the terms of high yield securities or other debt or other instruments, the enforcement of covenants, the terms of recapitalizations and the resolution of workouts or bankruptcies). It is possible that in a bankruptcy proceeding one Stonepeak Vehicle's interests may be adversely affected by virtue of the involvement and actions of another Stonepeak Vehicle relating to its investment.

- **Subscription Facility and Capital Calls.** A general partner may fund the making of investments with proceeds from drawdowns under one or more revolving credit facilities (the collateral for which can be, for example, the undrawn capital commitments of investors) prior to calling commitments. The interest expense and other costs of any such borrowings will be expenses of the applicable Fund Client and, accordingly, decrease net returns of such Fund Client. It is expected that interest will accrue on any such outstanding borrowings at a rate lower than the preferred return, which will begin accruing when capital contributions to fund such investments, or repay borrowings used to fund such investments, are actually made. In light of the foregoing, the general partners have an incentive to cause Fund Clients to borrow in this manner in lieu of drawing down commitments. As a general matter, use of leverage in lieu of drawing down commitments amplifies returns (either negative or positive) to limited partners.
- **Transactions with Potential and Actual Investors and Co-Investors.** Prospective investors should note that Stonepeak and its affiliates from time to time engage in transactions with prospective and actual investors and co-investors that entail business benefits to such investors. Such transactions may be entered into prior to, or coincident with, an investor's admission to a Fund Client (or commitment to co-invest) or during the term of such investor's investment. The nature of such transactions can be diverse and may include benefits relating to the Fund Client and its portfolio companies. Examples include the ability to co-invest alongside the Fund Client and/or its affiliates, sales of companies to investors and recommendations to underwriters for allocations in initial public offerings or loans to co-investors (or joint venture partners) by Stonepeak.
- **Time and Attention of the Stonepeak Investment Professionals.** The Stonepeak investment professionals will devote such time and attention to the conduct of a Fund Client's business as such business will reasonably require. However, there can be no assurance, for example, that such investment professionals will devote any minimum number of hours each week to the affairs of the Fund Client or that they will continue to be employed by Stonepeak. If such investment professionals cease to be actively involved with the Fund Client, investors in the Fund Client will be required to rely on the ability of Stonepeak to identify and retain other investment professionals to conduct the Fund Client's business. Further, Stonepeak personnel, including members of the investment committee of any Fund Client and the Global Energy Group, will work on other projects, serve on other committees (including boards of directors) and source potential investments for and otherwise assist the investment programs of other Fund Clients (including future Fund Clients) and their portfolio companies, including other investment programs to be developed in the future, and, therefore, conflicts are expected to arise in the allocation of personnel, personnel's time and resources. For example, the Global Energy Group consolidates certain sectors across multiple Fund Clients, including the relevant deal team members associated with such sectors. As a result, it is possible that some of the members of a Fund Client's investment team could also be working on investment activities related to another Fund Client (including any Fund Client that may be formed in the future to invest in any of the sectors that comprise the Global Energy Group), and, therefore, it is possible that not all of such members' business time will be devoted to such Fund Client. Even key personnel of a Fund Client's investment team who devote substantially all of their time to such Fund Client's investment activities may, potentially, not be devoting time predominantly, or solely, to such Fund Client. Time spent on these other initiatives diverts attention from the activities of a Fund Client, which could negatively impact such Fund Client and its investors. Furthermore, the Stonepeak GPs, the Advisers and Stonepeak-personnel derive financial benefit from these other activities, including fees and performance-based compensation. These and other factors create conflicts of interest in the allocation of time by Stonepeak personnel. Stonepeak's determination of the amount of time necessary to conduct a Fund Client's activities will be conclusive, and such Fund Client's investors rely on Stonepeak's judgment in this regard.

- **Personnel.** Stonepeak may hire short-term or long-term personnel (or interns or consultants) who are relatives of or are otherwise associated with an investor, portfolio company or a service provider. Although reasonable efforts are made to mitigate any potential conflicts of interest with respect to each particular situation, there is no guarantee that Stonepeak can control for all such potential conflicts of interest, and there may continue to be an ongoing appearance of a conflict of interest. For example, certain employees and other professionals of Stonepeak have family members or relatives that are actively involved in the private equity industry and/or have business, personal, financial or other relationships with companies in the private equity industry (including the investment banks, advisors and service providers described above), which gives rise to potential or actual conflicts of interest. For example, such persons might be employees, officers, directors or owners of companies or assets which are actual or potential investments of a Fund Client or other counterparties of the Fund Client and its portfolio companies and/or assets. Moreover, in certain instances, the Fund Client or its portfolio companies may purchase or sell companies or assets from or to, or otherwise transact with, companies that are owned by such family members or relatives or in respect of which such family members or relatives have other involvement. In most such circumstances, the applicable Fund Client's governance agreement will not preclude the Fund Client from undertaking any particular investment activity and/or transaction. To the extent Stonepeak determines appropriate, conflict mitigation strategies will be put in place with respect to a particular circumstance, such as internal information barriers or recusal, disclosure or other steps determined appropriate by the applicable general partner.
- **Diverse Investor Base.** The investors in the Fund Clients include taxable and tax-exempt entities and include persons or entities organized in multiple jurisdictions. The various types of investors may have conflicting investment, tax and other interests with respect to their investment in the Fund Clients. When considering a potential investment, the general partner of a Fund Client will generally consider the investment objectives of the Fund Client, as a whole, not the investment objectives of any investor, fund vehicle or parallel fund individually. Consequently, the general partner of a Fund Client will make decisions from time to time that could be more beneficial to one type of investor or fund vehicle than another.
- **Valuation Matters.** The fair value of all investments or of property received in exchange for any investments will be determined by Stonepeak in accordance with Stonepeak's valuation policies and procedures pursuant to the applicable Fund Client's governance agreement. Accordingly, the carrying value of an investment may not reflect the price at which the investment could be sold in the market, and the difference between carrying value and the ultimate sales price could be material. The valuation of investments will affect the amount and timing of the applicable general partner's carried interest and, under certain circumstances, the amount of management fees payable by the applicable Fund Client. Valuations are subject to determinations, judgments and opinions and other third parties or investors may disagree with such valuations. The valuation of investments may also affect the ability of Stonepeak to raise a successor fund to a Fund Client. As a result, there are likely to be circumstances where Stonepeak is incentivized to determine valuations that are higher than the actual fair value of investments.
- **Insurance.** Stonepeak will cause a Fund Client to purchase, and/or bear premiums, fees, costs and expenses (including any expenses or fees of insurance brokers) for, insurance to insure the Fund Client, the applicable general partner, the applicable advisor, Stonepeak and/or their respective directors, officers, employees, agents, representatives, members of the advisory committee of such Fund Client (if any) and other indemnified parties, against liability in connection with the activities of the Fund Client. This includes a portion of any premiums, fees, costs and expenses for one or more "umbrella" or other insurance policies maintained by Stonepeak that cover the Fund Client

and any other Stonepeak Funds, the applicable general partner, the applicable advisor and/or Stonepeak (including their respective directors, officers, employees, agents, representatives, members of the advisory committee of such Stonepeak Fund and other indemnified parties). Stonepeak will make judgments about the allocation of premiums, fees, costs and expenses for such “umbrella” or other insurance policies among the Fund Client, other Stonepeak Funds, the applicable general partner, the applicable advisor and/or Stonepeak on a fair and reasonable basis, in its sole discretion, and may make corrective allocations should it determine subsequently that such corrections are necessary or advisable. There can be no assurance that a different allocation would not result in the Fund Client bearing less (or more) premiums, fees, costs and expenses for insurance policies.

- **Stonepeak Policies and Procedures.** Policies and procedures implemented by Stonepeak from time to time (including as may be implemented in the future) to mitigate potential conflicts of interest and address certain regulatory requirements and contractual restrictions may reduce the synergies across Stonepeak’s areas of operation or expertise that a Fund Client expects to draw on for purposes of pursuing attractive investment opportunities. Because Stonepeak has other activities beyond any Fund Client, it is subject to a number of actual and potential conflicts of interest, additional regulatory considerations, and more legal and contractual restrictions than that to which it would otherwise be subject if it focused only on such Fund Client and/or if it did not pursue both private equity and distressed investments. In addressing these conflicts and regulatory, legal, and contractual requirements across its various businesses, Stonepeak has implemented and may in the future implement certain policies and procedures (such as, for example, information walls) that may reduce the positive synergies that a Fund Client expects to utilize for purposes of finding attractive investments. In that regard, it is possible that in the future Stonepeak may establish information barriers or other forms of separation between certain professionals, such as those who are primarily involved in trading marketable securities or liquid instruments or distressed investments, on the one hand, and other professionals, such as others who are primarily involved in privately negotiated or illiquid investments, on the other, and in any such event it is possible that a Fund Client may not be able to avail itself of the full resources of Stonepeak. There can be no assurance that walling off procedures can be implemented efficiently or successfully in all cases.

For additional information regarding the foregoing or the risks and conflicts with respect to any Stonepeak fund or investment vehicle sponsored by Stonepeak, please carefully review the Confidential Private Placement Memorandum, if applicable, or subscription documents of the applicable Stonepeak fund or investment vehicle.

Item 12 - Brokerage Practices

The Adviser has discretion to select brokers and dealers to execute securities transactions for its Fund Clients. The Adviser seeks to obtain the best prices and executions for orders executed for its Fund Clients, taking into account quantitative and qualitative factors affecting execution quality of portfolio transactions. The Adviser evaluates relationships with investment banks periodically and may make mandate decisions based on the value of the relationship to the Adviser's Fund Clients, including but not limited to referrals for unique investment ideas, deep sector relationships, or other factors.

The Adviser may use broker-dealers to sell a portfolio company, place financing at a portfolio company, or in limited circumstances, to support the acquisition of a portfolio company. In no event does the Adviser refer Fund Client investors to such broker-dealers. The Adviser believes that it will pay customary market fees for services received and does not otherwise make its selection in order to obtain soft dollar benefits. The Adviser meets numerous broker-dealers who present investment ideas or otherwise offer to make introductions to parties that have assets that may be of interest for a Fund Client. If the Adviser were to use client brokerage commissions to obtain research or other products or services, the Adviser would receive a benefit because it would not have to produce or pay for the research, products or services received from the broker-dealer. Although the Adviser may have an incentive to select or recommend a broker-dealer based on its interest in receiving the research or other products or services, rather than on its Fund Clients' interest in receiving most favorable execution, any decision to otherwise engage the broker dealer in support of executing a possible acquisition will first and foremost take into account the advantage of using such broker-dealer in consummating a transaction that the Adviser believes to be in the best interest of the Fund Clients at compensation levels the Adviser believes to be at reasonable market rates.

Item 13 - Review of Accounts

Oversight and Monitoring

The Adviser's Fund Client accounts, investment plans and portfolio investments are reviewed regularly (at least monthly) by the Adviser's investment professionals. In addition, the Adviser's investment professionals meet in person with portfolio company management at least quarterly. These professionals monitor operations, overall performance, financial performance, and strategic direction of portfolio companies invested in by each Fund Client.

Reports to Clients

Fund Clients receive quarterly reports on the financial performance of their investments and audited annual reports. Fund Clients and their investors have the ability to access these reports, performance and valuation data concerning portfolio companies, receive capital call and other Fund information via a password-protected website.

The Adviser creates tailored reports to meet the needs of the individual Fund Clients. Each quarter, its Fund Clients (and their investors) will receive a written report that include both qualitative and quantitative review of their investment portfolios including performance data, portfolio construction, material developments, and information that, in the judgment of the general partner of each Fund Client and the Adviser, is appropriate.

Item 14 - Client Referrals and Other Compensation

As described in Item 5 (Fees and Compensation) and in Item 11 (Code of Ethics, Participation or Interest in Client Transactions and Personal Trading), in addition to management fees payable and carried interests allocable to the Adviser and its affiliates, the Adviser regularly receives acquisition, ongoing advisory and transaction fees in connection with investment by its private equity fund clients. In certain limited circumstances, such activities will be carried out by the Senior Executives as registered representatives of MCP and fees payable by the Fund Clients' portfolio companies or co-investors will be paid in the first instance to MCP.

From time to time, the Adviser's Fund Clients will engage third parties to solicit investors. Fees payable to such third parties will be borne by the applicable Fund Client and will reduce management fees to the Adviser for those investors subject to the placement arrangement.

Item 15 - Custody

The Adviser complies with Rule 206(4)-2 under the Advisers Act by engaging a third party qualified custodian to maintain the funds and securities of the Fund Clients except for certain privately offered securities as defined under Rule 206(4)-2 and having an independent public accountant perform an annual audit of its Fund Clients and distributing the audited financial statements to the Adviser's Fund Clients and their investors within 120 days of the end of their fiscal years.

Item 16 - Investment Discretion

The Adviser, through its ownership of and/or affiliation with the Relying Advisers, assumes discretionary authority to manage securities accounts on behalf of Fund Clients. However, (i) with respect to Stonepeak Fund I, the consent of the Fund I Investment Committee, (ii) with respect to Stonepeak Fund II, the consent of the Fund II Investment Committee, (iii) with respect to Stonepeak Fund III, the consent of the Fund III Investment Committee, (iv) with respect to Stonepeak Fund IV, the consent of the Fund IV investment committee, (v) with respect to Stonepeak Credit Fund I, the consent of the Credit Fund I Investment Committee and (vi) with respect to Stonepeak Renewables Fund, the consent of the Renewables Fund Investment Committee, will be required for all major investment decisions. Decisions of the Fund I Investment Committee shall similarly bind all actions of SAH (and accordingly, Stonepeak Advisors I) to the same extent as they bind Stonepeak GP I and Stonepeak GP Holdings I. Decisions of the Fund II Investment Committee shall similarly bind all actions of Stonepeak Advisors II to the same extent as they bind Stonepeak GP II and Stonepeak GP Holdings II. Decisions of the Fund III Investment Committee shall similarly bind all actions of Stonepeak Advisors III to the same extent as they bind Stonepeak GP III and Stonepeak GP Holdings III. Decisions of the Fund IV Investment Committee shall similarly bind all actions of Stonepeak Advisors IV to the same extent as they bind Stonepeak GP IV. Decisions of the Credit Fund I Investment Committee shall similarly bind all actions of Stonepeak Credit Advisors I to the same extent as they bind Stonepeak Credit GP I. Decisions of the Renewables Fund Investment Committee shall similarly bind all actions of Stonepeak Renewables Advisor to the same extent as they bind Stonepeak GP Renewables and Stonepeak Renewables Fund. See “Item 4 – Advisory Business” for more information.

Item 17 - Voting Client Securities

From time to time, the Adviser's clients will hold public company securities, and the Adviser will apply policies reasonably designed to comply with the requirements of the Advisers Act. The Adviser will vote proxies in a manner that serves the best interest of the Fund Clients, as determined by the general partner of the relevant Fund Client in its sole discretion, taking into account relevant factors, including (i) the impact on the value of the securities owned by the Fund Client and the returns on those securities; (ii) alignment of the portfolio company management's interest with the Fund Client's interest, including establishing appropriate incentives for management; (iii) the ongoing relationship between the Fund Client and the portfolio companies in which it invests, including the continued or increase availability of portfolio information, and (iv) industry business and practices. Possible conflicts are expected to be disclosed and discussed by the relevant Fund Client's Advisory Committee.

Fund Clients and their investors can obtain upon request a copy of proxy voting policies and procedures and information regarding how their securities were voted in the past.

Item 18 - Financial Information

Stonepeak is not aware of any financial condition that could impair Stonepeak's ability to meet its contractual or fiduciary obligations to its Fund Clients. Stonepeak has not been the subject of a bankruptcy proceeding since its inception.

Item 19 - Requirements for State-Registered Advisers

Not Applicable.
