ADVISORY BUSINESS [Item 4]

AGNC Management, LLC (“AGNC Manager”) is a Delaware limited liability company, which is wholly owned by AGNC Mortgage Management, LLC (“AMM”), which is, in turn, wholly owned by AGNC Investment Corp (“AGNC”). AGNC is a public real estate investment trust (“REIT”) and is traded on The Nasdaq Global Select Market under the symbol “AGNC.”

AGNC Manager was formed in 2008 to manage AGNC.

AGNC Manager provides investment management, administrative and other advisory services to AGNC which commenced operations in May 2008 and invests primarily in a leveraged portfolio of residential mortgage pass-through securities and collateralized mortgage obligations for which the principal and interest payments are guaranteed by a U.S. Government agency or a U.S. Government-sponsored enterprise (“GSE”) (collectively, “agency securities”). AGNC may also invest in other types of mortgage and mortgage-related residential and commercial mortgage-backed securities where repayment of principal and interest is not guaranteed by a GSE or U.S. Government agency or in other investments in, or related to, the housing, mortgage or real estate markets. AGNC investments may also include the common stock of other publicly traded mortgage REITs that predominately invest in agency securities, non-agency securities and other mortgage related instruments. As part of its management duties, AGNC Manager may employ hedging techniques designed to reduce AGNC’s exposure to market risks, including interest rate, prepayment and extension risks.

AGNC Manager manages the investments of AGNC according to its investment management agreement with AGNC and consistent with AGNC’s investment objectives and strategy. AGNC Manager has discretionary trading authorization. AGNC’s investments are subject to certain restrictions and limitations set forth in AGNC’s prospectus, such as prohibitions on investing in certain types of assets, prohibitions on investments that would cause AGNC to fail to qualify as a REIT for federal income tax purposes, and prohibitions on investments that would cause AGNC to be regulated as an investment company under the Investment Company Act of 1940, as amended (the “1940 Act”), among others.

Investors and prospective investors in AGNC should refer to the prospectus and related agreements, including subsequent periodic filings, and other governing documents for AGNC for complete information. Prior performance is not necessarily indicative of future results, and there is no assurance that AGNC’s investment objectives will be achieved.

AGNC Manager does not participate in any wrap fee programs.

As of December 31, 2020, AGNC Manager managed approximately \$81,817,000,000 of assets of AGNC on a discretionary basis.

FEES AND COMPENSATION [Item 5]

Pursuant to the terms of its management agreement with AGNC, AGNC Manager earns a base management fee equal to 1/12 of 1.25% of AGNC's month-end stockholders' equity, adjusted to exclude the effect of any unrealized gains or losses included in either retained earnings or other comprehensive income (loss), each as computed in accordance with U.S. generally accepted accounting principles ("GAAP"). The management fee is payable monthly in arrears. AGNC Manager is an indirectly held, wholly owned subsidiary of AGNC. The only client of AGNC Manager is its consolidated parent, AGNC. Accordingly, any fees that may be paid to AGNC Manager pursuant to the management agreement with AGNC are eliminated through consolidation with its parent.

Under the terms of the management agreement, AGNC Manager is entitled to a termination fee in the event of the termination of the management agreement with AGNC without cause or a material breach of the agreement by AGNC equal to three times the average annual management fee earned by AGNC Manager during the prior 24-month period immediately preceding the most recently completed month prior to the effective date of termination.

Additionally, AGNC Manager is entitled to reimbursement from AGNC for all of its operating expenses, including fees, costs and expenses directly related to the purchase and sale of its investments, taxes, fees of auditors and counsel, insurance, litigation expenses, custodial expenses and any extraordinary expenses but excluding employment-related expenses. Pursuant to the terms of the management agreement, there are no limits on such expense reimbursements. AGNC's prospectus contains complete information on the expenses payable by AGNC.

PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT [Item 6]

AGNC Manager does not charge performance-based fees.

The value of some of AGNC's investments may not be readily determinable. The fair value of such investments is measured quarterly, in accordance with guidance set forth in FASB Accounting Standards Codification, or ASC, Topic 820, *Fair Value Measurements and Disclosures*. The fair value at which AGNC's assets may be recorded may not be an indication of their realizable value. Ultimate realization of the value of an asset depends on economic and other conditions that are beyond the control of AGNC Manager, AGNC or their respective Boards. Further, fair value is only an estimate based on good faith judgment of the price at which an investment can be sold since market prices of investments can only be determined by negotiation between a willing buyer and seller. If AGNC were to liquidate a particular asset, the realized value may be more than or less than the amount at which such asset is valued. Accordingly, the value of AGNC's common stock could be adversely affected by the determinations regarding the fair value of its investments, whether in the applicable period or in the future. Additionally, such valuations may fluctuate over short periods of time.

In most cases, AGNC Manager's determination of the fair value of AGNC's investments will include inputs provided by third-party dealers and pricing services. Valuations of certain investments in which AGNC may invest are often difficult to obtain or unreliable. In general, dealers and pricing services heavily disclaim their valuations. Dealers may claim to furnish valuations only as an accommodation and without special compensation, and so they may disclaim any and all liability for any direct, incidental, or consequential damages arising out of any inaccuracy or incompleteness in valuations, including any act of negligence or breach of any warranty. Depending on the complexity and illiquidity of a security, valuations of the same security can vary substantially from one dealer or pricing service to another. Therefore, AGNC's results of operations for a given period could be adversely affected if the determinations regarding the fair market value of these investments are materially different than the values that AGNC ultimately realizes upon their disposal.

TYPES OF CLIENTS [Item 7]

AGNC Manager provides investment advice to its parent, AGNC, a publicly traded REIT. AGNC does not have suitability or net worth qualifications.

METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

[Item 8]

The following is a summary of the investment strategies and methods of analysis employed by AGNC Manager with respect to its management of AGNC and the material risks applicable to an investment in AGNC. Specific descriptions of such strategies, methods and risks are included in AGNC's prospectus and should be reviewed carefully.

Methods of Analysis and Investment Strategies

AGNC earns income primarily from investing on a leveraged basis in agency residential mortgage-backed securities and assets reasonably related to agency securities, including residential mortgage pass-through securities and collateralized mortgage obligations for which the principal and interest payments are guaranteed by a GSE. We may also invest in other types of mortgage and mortgage-related residential and commercial mortgage-backed securities where repayment of principal and interest is not guaranteed by a GSE or U.S. Government agency. Our investments may also include the common stock of other publicly-traded mortgage REITs or in other investments in, or related to, the housing, mortgage or real estate markets.

AGNC Manager employs an active management strategy to achieve AGNC's principal objective of providing our stockholders with attractive risk-adjusted returns through a combination of regular monthly dividends and tangible net book value accretion. We generate income from the interest earned on our investments, net of associated borrowing and hedging costs, and net realized gains and losses on our investment and hedging activities. AGNC funds its investments primarily through borrowings structured as repurchase agreements. AGNC may also seek to obtain other sources of financing depending on market conditions. For instance, AGNC may finance the acquisition of agency securities through off-balance sheet to-be-announced, or "TBA," dollar roll transactions. In evaluating AGNC's overall leverage at risk, AGNC Manager considers both AGNC's on-balance and off-balance sheet financing.

While managing an investment portfolio consisting primarily of agency securities and assets reasonably related to agency securities (other than for hedging purposes) that seek to generate attractive, risk-adjusted returns, AGNC Manager's investment strategy is designed to:

- seek to generate attractive risk-adjusted returns through monthly dividend distributions on common stock and tangible net book value accretion;
- manage an investment portfolio consisting primarily of agency securities;
- invest a subset of its portfolio in credit risk-oriented and other assets related to the housing, mortgage, or real estate markets that are not guaranteed by a GSE or U.S. government agency;
- capitalize on discrepancies in the relative valuations in the agency and non-agency securities market;
- manage financing, interest rate, prepayment, extension and credit risks;

- continue to qualify as a REIT; and
- remain exempt from the requirements of the 1940 Act.

Material Risks

AGNC may not be able to execute successfully its investment, financing and hedging strategies as described in its prospectus, which could result in a loss of some or all of its investments. The results of its operations will depend on many factors, including, without limitation, the availability of attractively priced mortgage-related investments, the level and volatility of interest rates, readily accessible financing for its proposed investment portfolios, conditions in the financial markets and the economy in general.

AGNC may experience significant short-term gains or losses and, consequently, earnings volatility as a result of its active portfolio management strategies. AGNC's strategy involves significant leverage, which increases the risk that it may incur substantial losses if borrowing costs increase or the value of its securities decline.

Market conditions may disrupt the historical relationship between interest rate changes and prepayment trends, which make it more difficult for AGNC Manager to analyze AGNC's investment portfolio. AGNC's success depends on AGNC Manager's ability to analyze the relationship of changing interest rates on prepayments of the mortgage loans that underlie AGNC's agency securities. Changes in interest rates and prepayments affect the market price of agency securities. As part of AGNC's overall portfolio risk management, AGNC Manager analyzes interest rate changes and prepayment trends separately and collectively to assess their effects on AGNC's investment portfolio. In conducting its analysis, AGNC Manager depends on certain assumptions based upon historical trends with respect to the relationship between interest rates and prepayments under normal market conditions. There is risk that our assumptions are incorrect.

Dislocations in the residential mortgage market and other developments have disrupted the relationship between the way that prepayment trends have historically responded to interest rate changes and, consequently, may negatively impact AGNC Manager's ability to (i) assess the market value of AGNC's investment portfolio, (ii) implement AGNC's hedging strategies and (iii) implement techniques to reduce AGNC's prepayment rate volatility, which could materially adversely affect its financial condition and results of operations. Also, while AGNC's hedging instruments attempt to protect its net book value against moves in interest rates, such instruments are generally not designed to protect AGNC's net book value from "spread risk."

AGNC invests predominantly in agency securities and relies on its agency securities as collateral for its financings. Any decline in their value, or perceived market uncertainty about their value, may make it difficult for AGNC to obtain financing on favorable terms or at all, or maintain its compliance with terms of any financing arrangements already in place. Investments in non-agency securities where repayment of principal and interest is not guaranteed by a GSE subject AGNC to the potential risk of loss of principal and/or interest due to delinquency, foreclosure and related losses on the underlying mortgage loans.

Any credit ratings assigned to AGNC's investments will be subject to ongoing evaluations and revisions and there can be no assurance that those ratings will not be downgraded.

AGNC Manager's due diligence of potential investments may not reveal all of the potential liabilities associated with such investments and may not reveal other weaknesses in such investments, which could lead to investment losses.

The federal conservatorship of Fannie Mae and Freddie Mac and related efforts, along with any changes in laws and regulations affecting the relationship between these agencies and the U.S. Government, may adversely affect AGNC's business.

DISCIPLINARY INFORMATION [Item 9]

There are no legal or disciplinary events involving AGNC Manager or its management persons required to be disclosed pursuant to this Item 9.

OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS [Item 10]

Bethesda Securities, LLC and CT Collateral Funding, LLC, each a wholly owned subsidiary of AGNC, are each registered with FINRA as a broker-dealer, and certain employees of AGNC Manager and its affiliates are registered representatives of Bethesda Securities and CT Collateral.

Neither AGNC Manager nor any of its management persons is registered as a registered futures commission merchant or commodity pool operator. AGNC Manager is exempt from registration as a commodity trading advisor.

AGNC Manager permits its principals, officers, employees and supervised persons (“Covered Persons”) to engage in personal securities transactions, subject to compliance with AGNC Manager’s Code of Ethics, as described in Item 11.

AGNC Manager does not recommend or select other third-party investment advisers for its clients. Except as described herein, AGNC Manager does not have other business relationships with other advisers that create a material conflict of interest.

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING [Item 11]

AGNC Manager has adopted a Code of Ethics and Conduct (the “Code”) pursuant to Rule 204A-1 under the Advisers Act, which includes formal personal trading policies and procedures generally requiring, among other things, all Covered Persons and certain family members and other related persons to file with AGNC Manager’s Chief Compliance Officer certain reports concerning their personal securities holdings and transactions and, subject to certain exceptions, to obtain pre-clearance for purchasing and selling “covered securities.” All Covered Persons are also required to report any violations of the Code to AGNC Manager’s Chief Compliance Officer.

The Code provides that no Covered Person may, in breach of any fiduciary duty he or she owes to AGNC, engage directly or indirectly in any business investment in a manner detrimental to AGNC or use confidential information gained by reason of his or her employment by or affiliation with AGNC Manager in a manner detrimental to AGNC.

AGNC Manager and the Covered Persons owe a fiduciary duty of care, loyalty, honesty and good faith to AGNC. The Code further obligates each Covered Person to:

- Observe all laws and regulations
- Avoid conflicts of interest
- Maintain accurate and complete company records, and
- Protect confidential information

Any client or prospective client or investor or prospective investor in AGNC may obtain a copy of the Code upon request.

The Code includes policies and procedures concerning “inside information” that are designed to prevent the misuse of material, non-public information (“Inside Information”). Covered Persons are required to comply with the Code, including these policies, and may be asked to certify their compliance on a periodic basis. The Code prohibits AGNC Manager and Covered Persons from trading for AGNC or themselves, or recommending trading, in securities of AGNC while in possession of Inside Information about AGNC, and from disclosing such information to any person not entitled to receive it.

AGNC Manager permits its employees and other related persons to engage in personal securities transactions, subject to compliance with its Code. No such person shall purchase or sell, directly or indirectly, any covered security in which he or she has, or by reason of such transaction acquires, any direct or indirect beneficial ownership and that he or she knows or should have known at the time of such purchase or sale is being considered for purchase or sale by AGNC Manager or is being purchased or sold by AGNC Manager.

BROKERAGE PRACTICES [Item 12]

Trades in agency securities are typically made through broker-dealers that, acting as principal, charge markups, markdowns or other charges in connection with such trades. These broker-dealers do not charge commissions. Thus, it is obtaining or selling securities at the best price under the circumstances that defines AGNC Manager's objective in seeking best execution. AGNC Manager seeks best execution for AGNC's securities transactions by identifying appropriate broker-dealers through which to affect such transactions. In seeking best execution, AGNC Manager evaluates, on an ongoing basis, the prices that are available in the broker-dealer markets. AGNC Manager generally considers the following factors, among others, in selecting and approving broker-dealers that may compete for AGNC Manager's business: (i) quality of execution—accurate and timely execution, clearance and cooperation in resolving errors and disputes; (ii) reputation; (iii) reliability, both historically and as an ongoing matter; (iv) willingness to execute difficult transactions; (v) access to underwritten offerings of fixed income securities; (vi) nature of the security and availability of market makers; (vii) desired timing of transactions and size of trades; (viii) confidentiality of trading activity, particularly in less liquid sectors; (ix) market intelligence and knowledge regarding trading activity; (x) ability to settle trades; (xi) a salesperson's ability to harness his or her firm's resources to the benefit of AGNC; and (xii) research capabilities.

AGNC Manager may also use electronic trading systems to execute trades. These systems charge transaction fees that are included in the price of the security.

AGNC Manager does not participate in "soft dollar" arrangements under which AGNC Manager "pays up" (in the form of higher markups, markdowns or commissions charged for AGNC fixed income trades) for research in connection with fixed income trades. AGNC Manager may, however, receive research (including proprietary research) from various broker-dealers through which it may execute trades where AGNC Manager's receipt of the research does not result in additional cost to AGNC. Research so obtained results in an economic benefit to AGNC Manager, and AGNC Manager does not account for the value of this research. AGNC Manager generally uses the research to assist it in its investment decision-making process, but this research may not be used for AGNC. AGNC Manager may have an incentive to select or recommend a broker-dealer based on AGNC Manager's interest in receiving the research or other products or services, rather than on AGNC's interest in receiving most favorable execution.

AGNC Manager does not participate in directed brokerage arrangements.

REVIEW OF ACCOUNTS [Item 13]

AGNC Manager monitors each investment of AGNC on an ongoing basis. In addition, AGNC Manager conducts periodic reviews in order to assess trends that may impact an individual investment's ability to generate cash, profitability, asset values, financing needs, potential liability and ability to service any debts.

AGNC Manager provides AGNC's Board of Directors with quarterly reports, which typically include, among other information, holdings and transaction information, performance and risk analysis, accounting data, portfolio reviews and distribution information. AGNC Manager also provides additional information or reports as requested by the board. AGNC's shareholders may obtain annual and quarterly reports as filed with the SEC and attend an annual shareholder meeting.

CLIENT REFERRALS AND OTHER COMPENSATION [Item 14]

AGNC Manager does not provide compensation for client referrals to any person who is not its supervised person.

CUSTODY [Item 15]

It is AGNC Manager's general policy to not have physical custody of any client assets.

To the extent that AGNC Manager might otherwise be deemed to have custody, AGNC Manager will operate on reliance upon the reporting requirement exemption in the Custody Rule with respect to AGNC by causing AGNC to distribute audited financial statements annually, prepared in accordance with GAAP, to shareholders no later than 120 days after the end of each fiscal year.

INVESTMENT DISCRETION [Item 16]

Subject to the investment objectives, policies and restrictions of AGNC as set forth in its prospectus, AGNC Manager has discretionary authority to determine the type, amount and price of securities and investments to be bought and sold by AGNC, including the selection of, and commissions paid to, broker-dealers, if applicable.

VOTING CLIENT SECURITIES [Item 17]

To the extent AGNC holds voting securities, AGNC Manager has been delegated the authority to vote proxies regarding AGNC portfolio securities. To the extent that AGNC Manager does vote proxies, they will be voted in AGNC's best interests and according to AGNC Manager's proxy voting policy.

AGNC Manager's proxy voting policy sets forth general guidelines for reviewing proxy issues and requires AGNC Manager's officers to consult with each other and AGNC's investment team in determining how to vote a particular proxy. The proxy voting policy also sets forth specific records retention requirements related to any proxies that are voted on behalf of AGNC. If a potential conflict of interest in respect of a particular proxy situation is identified, AGNC may elect to resolve it by following the recommendation of a disinterested third party, by seeking the direction of AGNC's disinterested directors or, in extreme cases, by abstaining from voting. AGNC may not direct AGNC Manager's vote in a particular proxy solicitation.

A copy of the proxy voting policy and/or record of how proxies, if any, have been voted are available to clients upon request.

FINANCIAL INFORMATION [Item 18]

AGNC Manager does not require or solicit prepayment of more than \$1,200 in fees per client six months or more in advance and, thus, has not included a balance sheet of its most recent fiscal year. AGNC Manager is not aware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments to clients, nor has AGNC Manager been the subject of a bankruptcy petition at any time during the past ten years.
