Item 4: Advisory Business

A. Description of the Advisory Firm

Lagunitas Asset Management, LLC is an S-Corp organized in the state of California. The firm was formed in March of 2013, and the principal owner is Michael M Knittel.

B. Types of Advisory Services

Lagunitas Asset Management, LLC (hereinafter "LAM") offers the following services to advisory clients:

Investment Supervisory Services

LAM offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. LAM creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

LAM evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. LAM will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction, but will manage client accounts on both a discretionary and non-discretionary basis. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Financial Planning

Financial plans and financial planning may include but are not limited to: investment planning; life insurance; tax concerns; retirement planning; education planning; and debt/credit planning.

Services Limited to Specific Types of Investments

LAM generally limits its money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, real estate, REITs, and government securities. LAM may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

LAM offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent LAM from properly servicing the client account, or if the restrictions would require LAM to deviate from its standard suite of services, LAM reserves the right to end the relationship.

D. Wrap Fee Programs

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and any other administrative fees. LAM does not participate in any wrap fee programs.

E. Amounts Under Management

LAM has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$100,000,000	\$4,000,000	December 2020

Item 5: Fees and Compensation

A. Fee Schedule

Investment Supervisory Services Fees

Total Assets Under Management	Annual Fee
Under \$500,000	1.25%
Above \$500,000	1.00%

These fees are negotiable depending upon the needs of the client and complexity of the situation and the final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Fees are paid quarterly in advance, and clients may terminate their contracts with written notice.

Refunds are given on a prorated basis, based on the number of days remaining in a quarter at the point of termination. The fee refunded will be the balance of the fees collected in advance minus the daily rate* times the number of days in the quarter up to and including the day of termination. (*The daily rate is calculated by dividing the quarterly AUM fee by the number of days in the termination quarter). Clients may terminate their contracts without penalty, for full refund, within 5 business days of signing the advisory contract.

Advisory fees are withdrawn directly from the client's accounts with client written authorization. Lower fees for comparable services may be available from other sources.

For all fees being withdrawn directly from client accounts, LAM will send a statement to the client showing the amount of the fee being deducted, the value of the client's assets upon which this fee was based, and the specific manner in which the fee was calculated. It is the client's responsibility to verify the accuracy of the fee calculation, as the custodian will not do so, and client should review every statement.

Financial Planning Fees

Fixed Fees

The rate for creating client financial plans is \$500. The fees are negotiable and the final fee schedule will be attached as Exhibit II of the Financial Planning Agreement.

Clients may terminate the agreement without penalty, for full refund of LAM's fees, within five business days of signing the Financial Planning Agreement. Thereafter, clients may terminate the Financial Planning Agreement with upon written notice.

B. Payment of Fees

Payment of Investment Supervisory Fees

Advisory fees are withdrawn directly from the client's accounts with client written authorization. Fees are paid quarterly in advance.

Payment of Financial Planning Fees

Fixed Financial Planning fees are paid via check, cash or wire. Fees are paid in advance quarterly.

C. Clients Are Responsible For Third Party Fees

Clients are responsible for the payment of all third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and

distinct from the fees and expenses charged by LAM. Please see Item 12 of this brochure regarding broker/custodian.

D. Prepayment of Fees

LAM collects fees in advance. Fees will be deposited back into client's account within fourteen days. For all asset based fees paid in advance the fee refunded will be the balance of the fees collected in advance minus the daily rate* times the number of days in the quarter up to and including the day of termination. (*The daily rate is calculated by dividing the quarterly AUM fee by the number of days in the termination quarter).

E. Outside Compensation For the Sale of Securities to Clients

Michael Knittel in his role as a registered representative accepts compensation for the sale of securities to LAM clients.

1. This is a Conflict of Interest

The supervised persons will accept compensation for the sale of securities or other investment products, including asset based sales charges or services fees from the sale of mutual funds (considered as no-load funds) to its clients. This presents a conflict of interest and gives the supervised person an incentive to recommend products based on the compensation received rather than on the client's needs. When recommending the sale of securities or investment products for which the supervised persons receives compensation, they will document the conflict of interest in the client file and inform the client of the conflict of interest.

2. Clients Have the Option to Purchase Recommended Products From Other Brokers

Clients always have the option to purchase LAM recommended products through other brokers or agents that are not affiliated with LAM.

3. Commissions are the Primary Source of Income for this RIA

Commissions are not LAM's primary source of compensation.

4. Advisory Fees in Addition to Commissions or Markups

Advisory fees that are charged to clients are not reduced to offset the commissions or markups on securities or investment products recommended to clients.

Item 6: Performance-Based Fees and Side-By-Side Management

LAM does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

LAM generally provides management supervisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

LAM's methods of analysis include charting analysis, fundamental analysis, technical analysis, and cyclical analysis.

Charting analysis involves the use of patterns in performance charts. LAM uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Cyclical analysis involved the analysis of business cycles to find favorable conditions for buying and/or selling a security.

Investment Strategies

LAM uses long term trading, short term trading, short sales, margin transactions, and options writing (including covered options, uncovered options, or spreading strategies).

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in solely using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns and 2) if too many investors begin to implement this strategy, it changes the very cycles these investors are trying to exploit.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short term trading, short sales, margin transactions, and options writing generally hold greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

LAM generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize short sales, margin transactions, and options writing. Short sales, margin transactions, and options writing generally hold greater risk of capital loss and clients should be aware that there is a material risk of loss using any of those strategies. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

Mutual Funds: Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond “fixed income” nature (lower risk) or stock “equity” nature (mentioned above).

Equity investment generally refers to buying shares of stocks by an individual or firms in return for receiving a future payment of dividends and capital gains if the value of the stock increases. There is an innate risk involved when purchasing a stock that it may decrease in value and the investment may incur a loss.

Treasury Inflation Protected/Inflation Linked Bonds: The Risk of default on these bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal.

Fixed Income is an investment that guarantees fixed periodic payments in the future that may involve economic risks such as inflationary risk, interest rate risk, default risk, repayment of principal risk, etc.

Debt securities carry risks such as the possibility of default on the principal, fluctuation in interest rates, and counterparties being unable to meet obligations.

Stocks & Exchange Traded Funds (ETF): Investing in stocks & ETF's carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy).

Real Estate funds face several kinds of risk that are inherent in this sector of the market. Liquidity risk, market risk and interest rate risk are just some of the factors that can influence the gain or loss that is passed on to the investor. Liquidity and market risk tend to have a greater effect on funds that are more growth-oriented, as the sale of appreciated properties depends upon market demand. Conversely, interest rate risk impacts the amount of dividend income that is paid by income-oriented funds.

REITs have specific risks including valuation due to cash flows, dividends paid in stock rather than cash, and the payment of debt resulting in dilution of shares.

Precious Metal ETFs (Gold, Silver, Palladium Bullion backed “electronic shares” not physical metal): Investing in precious metal ETFs carries the risk of capital loss.

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various other types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Short term trading risks include liquidity, economic stability and inflation.

Short sales risks include the upward trend of the market and the infinite possibility of loss.

Margin transactions use leverage that is borrowed from a brokerage firm as collateral.

Options writing involve a contract to purchase a security at a given price, not necessarily at market value, depending on the market. This strategy includes the risk that an option may expire out of the money resulting in minimal or no value and the possibility of leveraged loss of trading capital due to the leveraged nature of stock options. An uncovered option is a type of options contract that is not backed by an offsetting position that would help mitigate risk. The risk for a “naked” or uncovered put is not unlimited, whereas the potential loss for an uncovered call option is limitless. Spread option positions entail buying and selling multiple options on the same underlying security, but with different strike prices or expiration dates, which helps limit the risk of other option trading strategies. Option writing also involves risks including but not limited to economic risk, market risk, sector risk, idiosyncratic risk, political/regulatory risk, inflation (purchasing power) risk and interest rate risk.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Michael M Knittel is a registered representative of Fortune Financial Services.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither LAM nor its representatives are registered as or have pending applications to become a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Michael M Knittel is a registered representative of Fortune Financial Services, and a licensed insurance agent. From time to time, he will offer clients advice or products from those activities. Clients should be aware that these services pay a commission and involve a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. LAM always acts in the best interest of the client, including with respect to the sale of commissionable products to advisory clients. Clients are in no way required to implement the plan through any representative of LAM in such individual's outside capacities.

Michael M Knittel is a partner at Winning Streak Ventures, Inc.

All material conflicts of interest under Section 260.238 (k) of the California Corporations Code are disclosed regarding the investment adviser, its representatives or any of its employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

LAM does not utilize nor select other advisers or third party managers. All assets are managed by LAM management.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

LAM has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Our Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

LAM does not recommend that clients buy or sell any security in which a related person to LAM or LAM has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of LAM may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of LAM to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. LAM will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of LAM may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of LAM to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. LAM will always transact client's transactions before its own when similar securities are being bought or sold.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on LAM's duty to seek "best execution," which is the obligation to seek to execute securities transactions for a client on terms that are the most favorable to the client under the circumstances. The client will not necessarily pay the lowest commission or commission equivalent, and LAM may also consider the market expertise and research access provided by the payment of commissions, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers to aid in the research efforts of LAM. LAM will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

LAM recommends TD Ameritrade Institutional, a division of TD Ameritrade, Inc. Member FINRA/SIPC ("TD Ameritrade") Schwab Institutional, a division of Charles Schwab & Co., Inc., (CRD # 5393). TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer.

The custodian, Schwab Institutional, a division of Charles Schwab & Co., Inc., (CRD # 5393), was chosen based on their relatively low transaction fees and access to mutual funds and ETFs. LAM will never charge a premium or commission on transactions, beyond the actual cost imposed by the custodian.

1. Research and Other Soft-Dollar Benefits

LAM receives no research, product, or services other than execution from a broker-dealer or third-party in connection with client securities transactions ("soft dollar benefits").

2. Brokerage for Client Referrals

LAM receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

LAM allows clients to direct brokerage; however, LAM may recommend custodians. LAM may be unable to achieve most favorable execution of client transactions if clients choose to direct brokerage. This may cost clients money because without the ability to direct brokerage LAM may not be able to aggregate orders to reduce transactions costs resulting in higher brokerage commissions and less favorable prices. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

LAM maintains the ability to block trade purchases across accounts. Block trading may benefit a large group of clients by providing LAM the ability to purchase larger blocks resulting in smaller transaction costs to the client. Declining to block trade can cause more expensive trades for clients.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed at least monthly only by Michael M Knittel, Managing Member. Michael M Knittel is the chief advisor and is instructed to review clients' accounts with regard to clients' respective investment policies and risk tolerance levels. All accounts at LAM are assigned to this reviewer.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least monthly from the custodian, a written report that details the client's account including assets held and asset value which will come from the custodian.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

LAM does not receive any economic benefit, directly or indirectly from any third party for advice rendered to LAM clients.

B. Compensation to Non –Advisory Personnel for Client Referrals

LAM does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

LAM, with client written authority, has limited custody of client's assets through direct fee deduction of LAM's fees only. If the client chooses to be billed directly by Schwab Institutional, a division of Charles Schwab & Co., Inc., (CRD # 5393), LAM would have constructive custody over that account and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

LAM will manage client accounts on both a discretionary and non-discretionary basis.

For those client accounts where LAM will have investment discretion, the client has given LAM written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides LAM discretionary authority via a discretionary investment management clause in the Investment Advisory Contract and/or a limited power of attorney clause in the contract between the client and the custodian.

Item 17: Voting Client Securities (Proxy Voting)

LAM will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

LAM does not require nor solicit prepayment of more than \$1,200 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither LAM nor its management have any financial conditions that are likely to reasonably impair our ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

LAM has not been the subject of a bankruptcy petition in the last ten years.
