Date of Disclosure Brochure: March 2021

This Wrap Fee Program Brochure provides information about the qualifications and business practices of Jaykay Wealth Advisors, Inc (also referred to as we, us and JKWAI throughout this disclosure brochure). If you have any questions about the contents of this brochure, please contact Kanchan Kabad at 713-780-4575 or kanchan@advisorusa.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Jaykay Wealth Advisors is also available on the Internet at www.adviserinfo.sec.gov. You can view our firm's information on this website by searching for Jaykay Wealth Advisors, Inc or our firm's CRD number 170192.

*Registration as an investment adviser does not imply a certain level of skill or training.

Item 2 – Material Changes

The material changes made since the or last required annual update to this brochure was filed in March 2020 are as follows:

- The fee schedule has been amended, please refer to Item 4.

In the future, this Item 2 will discuss only specific material changes that are made to this Wrap Fee Program Disclosure Brochure and will provide a summary of such changes. We will also reference the date of the last annual update of the Wrap Fee Program Disclosure Brochure.

We will ensure that you receive a summary of any material changes to this and subsequent Wrap Fee Program Disclosure Brochures within 120 days after our firm's fiscal year ends. Our firm's fiscal year ends on December 31, so you will receive the summary of material changes no later than April 30 each year. At that time, we will also offer or provide a copy of the most current Wrap Fee Program Disclosure Brochure. We may also provide other ongoing disclosure information about material changes as necessary.

Item 4 – Services, Fees and Compensation

JKWAI is an investment adviser registered with the United States Securities and Exchange Commission (“SEC”) and is a corporation formed under the laws of the State of Texas.

Jaykay Wealth Advisors (JKWAI) offers asset management services through a wrap fee management program. In our wrap fee management program advisory services (including asset management) and transaction cost (including ticket charges) are provided for one fee. Whenever a fee is charged for services described in this Wrap Fee Program Brochure, we will receive all or a portion of the fee charged.

When making the determination of whether one of the advisory programs available through JKWAI Advisors is appropriate for your needs, you should bear in mind that fee-based accounts, when compared with commission-based accounts, often result in lower costs during periods when trading activity is heavier, such as the year an account is established. However, during periods when trading activity is lower, the fee-based account arrangements may result in a higher annual cost for transactions. Thus, depending on a number of factors, the total cost for transactions under a fee account versus a commission account can vary significantly. Factors which affect the total cost include account size, amount of turnover, type and quantities of securities purchased or sold, commission rates and your tax situation. It should also be noted that lower fees for comparable service may be available from other sources. The exact fees and other terms will be outlined in the agreement between you and JKWAI.

You should discuss the advantages and disadvantages of fee-based and commission-based accounts with your adviser representative and you should read this Wrap Fee Disclosure Brochure carefully as it explains, in detail, our Asset Management Services.

Asset Management Services

JKWAI offers asset management services, which involves JKWAI providing you with continuous and ongoing supervision over your accounts. The JKWAI Asset Management Services Program is a wrap fee program. In providing asset management services, JKWAI will continuously monitor your account and make trades in your accounts when necessary. Your account will be managed by JKWAI based on your financial situation, investment objectives and risk tolerance. JKWAI will actively monitor your account and will make management recommendations and decisions regarding buying, selling, reinvesting or holding securities, cash or other investments.

We recommend that your assets to be allocated to our Asset Management Services Program be maintained in a brokerage account with LPL Financial and/or Schwab Institutional, SEC

registered broker/dealers and members NYSE/SIPC. LPL Financial and/or Schwab are the qualified custodians for all accounts established through our Asset Management Services Program. You will appoint JKWAI as your investment adviser of record on specified accounts. Your account will consist only of separate account(s) held by the qualified custodian under your name. **JKWAI does not act as custodian and does not have direct access to your funds and securities except to have advisory fees deducted from your account with your prior written authorization.** The qualified custodian will maintain physical custody of all funds and securities of your Account, and you will retain all rights of ownership (e.g., right to withdraw securities or cash, exercise or delegate proxy voting and receive transaction confirmations) for your account.

JKWAI provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client outlines the discretionary authority for trading. Where investment discretion has been granted, JKWAI generally manages the client's account and makes investment decisions without consultation with the client as to what securities to buy or sell, when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, or the price per share. In some instances, JKWAI's discretionary authority in making these determinations may be limited by conditions imposed by a client (in investment guidelines or objectives, or client instructions otherwise provided to JKWAI).

Fees charged for our asset management services are charged based on a percentage of assets under management, managed accounts held and LPL and Schwab are billed in advance (at the start of the billing period) on a quarterly calendar basis and calculated based on the fair market value of your account as of the last business day of the previous billing period. SEI Account are billed quarterly in arrears. Fees are prorated (based on the number of days service is provided during the initial billing period) for your account opened at any time other than the beginning of the billing period. If asset management services are commenced in the middle of a billing period, the prorated fee for the initial billing period is billed in arrears at the same time as the next full billing period's fee is billed.

Fees charged for our asset management services are negotiable based on the type of client, the complexity of the client's situation, the composition of the client's account (i.e., equities versus mutual funds), the relationship of the client with the investment adviser representative, and the total amount of assets under management for the client.

For our asset management services, client will be charged the following annual fee based upon the amount of assets under management:

Total Assets Under Advisement	Annual Fee
Up to \$500,000	1.50%
\$500,001 to \$1,000,000	1.20%
\$1,000,001 to \$3,000,000	1.00%
\$3,000,001 to \$5,000,000	0.80%
\$5,000,001 to \$7,000,000	0.70%
\$7,000,001 to \$10,000,000	0.60%
\$10,000,001 to \$15,000,000	0.55%
\$15,000,001 to \$20,000,000	0.50%
\$20,000,001 to \$25,000,000	0.45%
\$25,000,001 to \$30,000,000	0.40%
\$30,000,001 and above	0.35%

The only compensation received by JKWAI for asset management services is the annual fee as specified in the client's advisory services agreement. JKWAI receives no other forms of compensation in connection with providing asset management services.

JKWAI believes that its annual fee is reasonable in relation to: (1) services provided and (2) the fees charged by other investment advisers offering similar services/programs. However, our annual investment advisory fee may be higher than that charged by other investment advisers offering similar services/programs. In addition to our compensation, you may also incur charges imposed at the mutual fund level (e.g., advisory fees and other fund expenses).

Clients can choose how to pay your investment advisory fees. The investment advisory fees can be deducted from their account and paid directly to our firm by the qualified custodian(s) of their account or clients will have the option to pay our firm or the qualified custodian upon receipt of a billing notice sent directly to you.

If you choose to have the investment advisory fees deducted from your account, you must authorize the qualified custodian(s) of your account to deduct fees from your account and pay such fees directly to JKWAI.

You should review your account statements received from the qualified custodian(s) and verify that appropriate investment advisory fees are being deducted. The qualified custodian(s) will not verify the accuracy of the investment advisory fees deducted.

If you choose to have the investment advisory fees deducted from your account, you must authorize the qualified custodian(s) of your account to deduct fees from your account and pay such fees directly to JKWAI.

You may incur certain charges imposed by third parties other than JKWAI in connection with investments made through your account including, but not limited to, mutual fund sales loads, 12(b)-1 fees and surrender charges, variable annuity fees and surrender charges, IRA and qualified retirement plan fees, and charges imposed by the qualified custodian(s) of your account. Management fees charged by JKWAI are separate and distinct from the fees and expenses charged by investment company securities that may be recommended to you. A description of these fees and expenses are available in each investment company security's prospectus.

The asset management services continue until terminated by either party (i.e., JKWAI or you) by giving thirty (30) days written notice to the other party. Any prepaid, unearned fees will be promptly refunded by JKWAI to you. Fee refunds will be determined on a pro rata basis using the number of days services are actually provided during the final period.

Block Trading

JKWAI may elect to purchase or sell the same securities for several clients at approximately the same time. This process is referred to as aggregating orders, batch trading or block trading and is used by JKWAI when it is believed such action may prove advantageous to clients. If and when we aggregate client orders, allocating securities among client accounts is done on a fair and equitable basis. Typically, the process of aggregating client orders is done in order to achieve better execution, to negotiate more favorable commission rates or to allocate orders among clients on a more equitable basis in order to avoid differences in prices and transaction fees or other transaction costs that might be obtained when orders are placed independently.

JKWAI uses the average price allocation method for transaction allocation.

Under this procedure JKWAI will calculate the average price and transaction charges for each transaction included in a block order and assign the average price and transaction charge to each allocated transaction executed for the client's account.

If and when we determine to aggregate client orders for the purchase or sale of securities, including securities in which JKWAI or our associated persons may invest, we will do so in accordance with the parameters set forth in the SEC No-Action Letter, *SMC Capital, Inc.* Neither

JKWAI nor our associated persons receive any additional compensation as a result of block trades.

Suitability and Investment Strategy

JKWAI will assist clients in determining their objective(s), investment strategy, and investment suitability, prior and subsequent to opening an Asset Management account. Clients must contact us to notify of any changes in their investment objective(s) and/or financial situation. Investment strategies used to implement investment advice include, but are not necessarily limited to, long term purchases (investments held at least a year).

Additional Compensation, Economic and Non-Economic Benefits

Our representatives are also registered representatives of LPL Financial, a securities broker-dealer. You may work with your investment adviser representative in his or her separate capacity as a registered representative of LPL Financial. When acting in his or her separate capacity as a registered representative, your investment adviser representative may sell, for commissions, general securities products such as stocks, bonds, mutual funds, exchange-traded funds, and variable annuity and variable life products to you. As such, your investment adviser representative may suggest that you implement investment advice by purchasing securities products through a commission-based brokerage account in addition to or in lieu of a fee-based investment-advisory account. This receipt of commissions creates an incentive to recommend those products for which your investment adviser representative will receive a commission in his or her separate capacity as a registered representative of a securities broker-dealer. Consequently, the objectivity of the advice rendered to you could be biased.

You are under no obligation to use the services of our representatives in this separate capacity or to use LPL Financial and can select any broker/dealer you wish to implement securities transactions. If you select our representatives to implement securities transactions in their separate capacity as registered representatives, they must use LPL Financial. Prior to effecting any such transactions, you are required to enter into a new account agreement with LPL Financial. The commissions charged by LPL Financial may be higher or lower than those charged by other broker/dealers. In addition, the registered representatives may also receive additional ongoing 12b-1 fees for mutual fund purchases from the mutual fund company during the period that you maintain the mutual fund investment.

Effective October 7, 2019, Schwab has eliminated commissions for online trades of U.S. equities, ETFs and options (subject to \$0.65 per contract fee). We encourage you to review Schwab's pricing to compare the total costs of entering into a wrap fee arrangement versus a non-wrap arrangement. You will still incur commissions and fees for certain types of transactions in a

non-wrap fee arrangement. To see what you would pay for transactions in a non-wrap account please refer to Schwab's most recent pricing schedules available at www.schwab.com/aspricingguide.

Other Custodian Economic Benefits:

JKWAI receives an economic benefit from Schwab and or SEI in the form of the support products and services it makes available to me and other independent investment advisers whose clients maintain their accounts at Schwab. These products and services, how they benefit us, and the related conflicts of interest are described above (see *Item 12 – Brokerage Practices*). The availability of Schwab's products and services is not based on me giving particular investment advice, such as buying particular securities for my clients.

We may from time to time receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as client appreciation events, advertising, publishing, and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made. This creates a conflict of interest in that there is an incentive to recommend certain products and investments based on the receipt of this compensation instead of what is in the best interest of our clients. We attempt to control for this conflict by always basing investment decisions on the individual needs of our clients.

Item 5 – Account Requirements and Types of Clients

Minimum Account Size

The minimum account size required to establish an account with JKWAI is \$ 1,000,000. To reach this minimum, clients can aggregate all household accounts. However, JKWAI may waive this requirement under certain circumstances. All clients are required to execute an agreement for services in order to establish a client arrangement with JKWAI and/or the third-party money manager or the sponsor of third-party money manager platforms.

Types of Accounts

JKWAI generally provides investment advice to the following types of clients:

- Individuals

- High net worth individuals
- Trusts, estates, or charitable organizations

You are required to execute a written agreement with JKWAI specifying the particular advisory services in order to establish a client arrangement with JKWAI.

Item 6 – Portfolio Manager Selection and Evaluation

JKWAI and its Investment Adviser Representatives act as the portfolio manager(s) for accounts receiving our Asset Management Services. Our Asset Management Service is considered a wrap fee program. For this service, we do not allow the use of portfolio managers that are not associated with JKWAI. In other words, the only portfolio managers selected for managing client assets for our Asset Management Services are Investment Adviser Representatives of JKWAI. Therefore, conflicts of interest present in other wrap fee programs that make available both affiliated and unaffiliated portfolio managers are not present in our wrap fee program.

Participation in Wrap Fee Programs

JKWAI offers asset management services, through our Asset Management Services Program, which is a wrap fee management program. Under this program we bundled all transaction fees in to a “wrap fee” meaning that advisory services (including portfolio management or advice regarding selecting other investment advisers) and transaction services are provided for one fee. Whenever a fee is charged to a client for services described in this Wrap Fee Program Brochure, we will receive all of a portion of the fee charged.

General Description of Other Advisory Services

The following are descriptions of the primary advisory services of JKWAI. Please understand that a written agreement, which details the exact terms of the service, must be signed by you and JKWAI before we can provide you the services described below.

Financial Planning and Consulting Services –

JKWAI offers financial planning services, which involve preparing a written financial plan covering specific or multiple topics. Depending upon the needs of the client we may provide financial plans, which typically address the following topics: Investment Planning, Retirement Planning, Insurance Planning, Tax Planning, and Education Planning. When providing financial planning services, the role of your investment adviser representative is to find ways to help you understand your overall financial situation and help you set financial objectives. We also provide modular written financial plans which only cover those specific areas of concern mutually agreed upon by you and us. A modular written financial plan is limited or segmented

and does not involve the creation of a full written financial plan. You should be aware that there are important issues that may not be taken into consideration when your investment adviser representative develops his or her analysis and recommendations under a modular written financial plan. Written financial plans prepared by us under this Agreement do not include specific recommendations of individual securities.

We also offer consultations in order to discuss financial planning issues when you do not need a written financial plan. We offer a one-time consultation, which covers mutually agreed upon areas of concern related to investments or financial planning. We also offer “as-needed” consultations, which are limited to consultations in response to a particular investment or financial planning issue raised or request made by you. Under an “as-needed” consultation, it will be incumbent upon you to identify those particular issues for which you are seeking our advice or consultation on.

Our financial planning and consulting services do not involve implementing any transaction on your behalf or the active and ongoing monitoring or management of your investments or accounts. You have the sole responsibility for determining whether to implement our financial planning and consulting recommendations. To the extent that you would like to implement any of our investment recommendations through JKWAI or retain JKWAI to actively monitor and manage your investments, you must execute a separate written agreement with JKWAI for our asset management services.

Referral of Third-Party Money Managers - JKWAI offers advisory services by referring clients to a third-party money manager offering asset management and other investment advisory services. The third-party managers are responsible for continuously monitoring client accounts and making trades in client accounts when necessary. As a result of the referral, we are paid a portion of the fee charged and collected by the third-party money managers in the form of solicitor fees. Each solicitation arrangement is performed pursuant to a written solicitation agreement and is in compliance with SEC Rule 206(4)-3 and applicable state securities rules and regulations.

Under this program, we assist you with identifying your risk tolerance and investment objectives. We recommend third-party money managers in relation to your stated investment objectives and risk tolerance, and you may select a recommended third-party money manager or model portfolio based upon your needs. You must enter into an agreement directly with the third-party money manager who provides your designated account with asset management services.

We are available to answer questions that you may have regarding your account and act as the communication conduit between you and the third-party money manager. The third-party

money manager may take discretionary authority to determine the securities to be purchased and sold for your Account. We do not have any trading authority with respect to your designated account managed by the third-party money manager.

Although we review the performance of numerous third-party investment adviser firms, we enter into only a select number of relationships with third-party investment adviser firms that have agreed to pay us a portion of the overall fee charged to our clients. Therefore, JKWAI has a conflict of interest in that it will only recommend third-party investment advisors that will agree to compensate us for referrals of our clients.

Clients are advised that there may be other third-party managed programs not recommended by our firm, that are suitable for the client and that may be more or less costly than arrangements recommended by our firm. No guarantees can be made that a client's financial goals or objectives will be achieved by a third-party investment adviser recommended by our firm. Further, no guarantees of performance can ever be offered by our firm.

Retirement Plan Services - JKWAI offers retirement plan services to retirement plan sponsors and to individual participants in retirement plans. For a corporate sponsor of a retirement plan, our retirement plan services can include, but are not limited to, the following services:

Fiduciary Consulting Services

JKWAI provides the following Fiduciary Retirement Plan Consulting Services:

- Non-Discretionary Investment Advice. JKWAI will provide you with general, non-discretionary investment advice regarding assets classes and investment options, consistent with your Plan's investment policy statement.
- Investment Selection Services. JKWAI will provide you with recommendations of investment options consistent with ERISA section 404(c).
- Investment Due Diligence Review. JKWAI will provide you with periodic due diligence reviews of the Plan's reports, investment options and recommendations.
- Investment Monitoring. JKWAI will assist in monitoring investment options by preparing periodic investment reports that document investment performance, consistency of fund management and conformation to the guidelines set forth in the investment policy statement and JKWAI will make recommendations to maintain or remove and replace investment options.
- Default Investment Alternative Advice. JKWAI will provide you with non-discretionary investment advice to assist you with the development of qualified default investment alternative(s) ("QDIA"), as defined in DOL Reg. Section 2550.404c-5(e)(4)(i), for participants who are automatically enrolled in the Plan or who otherwise fail to make an

investment election. You will retain the sole responsibility to provide all notices to participants required under ERISA section 404(c)(5).

- Individualized Participant Advice. Upon request, JKWAI will provide one-on-one advice to Plan participants regarding their individual situations.

For Fiduciary Consulting Services, all recommendations of investment options and portfolios will be submitted to you for your ultimate approval or rejection. For retirement plan Fiduciary Consulting Services, the retirement plan sponsor client or the plan participant who elects to implement any recommendations made by us is solely responsible for implementing all transactions.

Fiduciary Consulting Services are not management services, and JKWAI does not serve as administrator or trustee of the plan. JKWAI does not act as custodian for any client account or have access to client funds or securities (with the exception of, some accounts, having written authorization from the client to deduct our fees).

JKWAI acknowledges that in performing the Fiduciary Consulting Services listed above that it is acting as a “fiduciary” as such term is defined under Section 3(21)(A)(ii) of Employee Retirement Income Security Act of 1974 (“ERISA”) for purposes of providing non-discretionary investment advice only. JKWAI will act in a manner consistent with the requirements of a fiduciary under ERISA if, based upon the facts and circumstances, such services cause JKWAI to be a fiduciary as a matter of law. However, in providing the Fiduciary Consulting Services, JKWAI (a) has no responsibility and will not (i) exercise any discretionary authority or discretionary control respecting management of Client’s retirement plan, (ii) exercise any authority or control respecting management or disposition of assets of Client’s retirement plan, or (iii) have any discretionary authority or discretionary responsibility in the administration of Client’s retirement plan or the interpretation of Client’s retirement plan documents, (b) is not an “investment manager” as defined in Section 3(38) of ERISA and does not have the power to manage, acquire or dispose of any plan assets, and (c) is not the “Administrator” of Client’s retirement plan as defined in ERISA.

Non-Fiduciary Services

Although an investment adviser is considered a fiduciary under the Investment Advisers Act of 1940 and required to meet the fiduciary duties as defined by the Advisers Act, the services listed here as non-fiduciary should not be considered fiduciary services for the purposes of ERISA since Advisor is not acting as a fiduciary to the Plan as the term “fiduciary” is defined in Section 3(21)(A)(ii) of ERISA. The exact suite of services provided to a client will be listed and detailed in the Qualified Retirement Plan Agreement.

JKWAI provides clients with the following Non-Fiduciary Retirement Plan Consulting Services:

- Participant Education. JKWAI will provide education services to Plan participants about general investment principles and the investment alternatives available under the Plan. JKWAI's assistance in participant investment education will be consistent with and within the scope of DOL Interpretive Bulletin 96-1. Education presentations will not take into account the individual circumstances of each participant and individual recommendations will not be provided unless otherwise agreed upon. Plan participants are responsible for implementing transactions in their own accounts.
- Participant Enrollment. JKWAI will assist you with group enrollment meetings designed to increase retirement plan participation among employees and investment and financial understanding by the employees.
- Qualified Plan Development. JKWAI will assist you with the establishment of a qualified plan by working with you and a selected Third Party Administrator. If you have not already selected a Third Party Administrator, we shall assist you with the review and selection of a Third Party Administrator for the Plan.
- Due Diligence Review. JKWAI will provide you with periodic due diligence reviews of your Plan's fees and expenses and your Plan's service providers.
- Benchmarking. JKWAI will provide you benchmarking services and will provide analysis concerning the operations of the Plan.

Securities and other types of investments all bear different types and levels of risk. Those risks are typically discussed with clients in defining the investment policies and objectives that will guide investment decisions for their qualified plan accounts. Upon request, as part of our retirement plan services, we can discuss those investments and investment strategies that we believe may tend to reduce these risks for a particular client's circumstances and plan participants.

Clients and plan participants must realize that obtaining higher rates of return on investments entails accepting higher levels of risk. Based upon discussions with the client, we will attempt to identify the balance of risks and rewards that is appropriate and comfortable for the client and other employees. It is still the clients' responsibility to ask questions if the client does not fully understand the risks associated with any investment. All plan participants are strongly encouraged to read prospectuses, when applicable, and ask questions prior to investing.

We strive to render our best judgment for clients. Still, JKWAI cannot assure that investments will be profitable or assure that no losses will occur in their portfolios. Past performance is an important consideration with respect to any investment or investment advisor, but it is not necessarily an accurate predictor of future performance.

JKWAI will disclose, to the extent required by ERISA Regulation Section 2550.408b-2(c), to you any change to the information that we are required to disclose under ERISA Regulation Section 2550.408b-2(c)(1)(iv) as soon as practicable, but no later than sixty (60) days from the date on which we are informed of the change (unless such disclosure is precluded due to extraordinary circumstances beyond our control, in which case the information will be disclosed as soon as practicable).

In accordance with ERISA Regulation Section 2550.408b-2(c)(vi)(A), we will disclose within thirty (30) days following receipt of a written request from the responsible plan fiduciary or Plan Administrator (unless such disclosure is precluded due to extraordinary circumstances beyond our control, in which case the information will be disclosed as soon as practicable) all information related to the Qualified Retirement Plan Agreement and any compensation or fees received in connection with the Agreement that is required for the Plan to comply with the reporting and disclosure requirements of Title 1 of ERISA and the regulations, forms and schedules issued thereunder.

If we make an unintentional error or omission in disclosing the information required under ERISA Regulation Section 2550.408b-2(c)(1)(iv) or (vi), we will disclose to you the correct information as soon as practicable, but no later than thirty (30) days from the date on which we learns of such error or omission.

Educational Seminars/Workshops

JKWAI occasionally provides seminars/workshops in areas such as financial planning, retirement planning, estate planning, college planning and charitable planning or other relevant financial topics. Seminars/ workshops are always offered on an impersonal basis and do not focus on the individual needs of participants.

Limits Advice to Certain Types of Investments

JKWAI provides investment advice on the following types of investments:

- Mutual Funds
- Exchange-listed Securities
- REITS, Insurance and Annuities
- Hedge Funds
- Business Development Companies

Although we generally provide advice only on the products previously listed, we reserve the right to offer advice on any investment product that may be suitable for each client's specific circumstances, needs, goals and objectives.

It is not our typical investment strategy to attempt to time the market, but we may increase cash holdings modestly as deemed appropriate based on your risk tolerance and our expectations of market behavior. We may modify our investment strategy to accommodate special situations such as low basis stock, stock options, legacy holdings, inheritances, closely held businesses, collectibles, or special tax situations.

Tailor Advisory Services to Individual Needs of Clients

JKWAI's advisory services are always provided based on your individual needs. This means, for example, that when we provide asset management services, you are given the ability to impose restrictions on the accounts we manage for you, including specific investment selections and sectors. We work with you on a one-on-one basis through interviews and questionnaires to determine your investment objectives and suitability information.

We will not enter into an investment adviser relationship with a prospective client whose investment objectives may be considered incompatible with our investment philosophy or strategies or where the prospective client seeks to impose unduly restrictive investment guidelines.

Performance-Based Fees and Side-By-Side Management

Performance-based fees are defined as fees based on a share of capital gains on or capital appreciation of the assets held in a client's account. JKWAI **does not charge or accept performance-based fees.**

Methods of Analysis

JKWAI uses the following methods of analysis in formulating investment advice:

Modern portfolio theory is a theory of investment which attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, by carefully choosing the proportions of various assets.

There are risks involved in using any analysis method.

Investment Strategies

JKWAI uses the following investment strategies when managing client assets and/or providing investment advice:

Long term purchases, investments held at least a year.

Risk of Loss

Past performance is not indicative of future results. Therefore, you should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds, etc.) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. You should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines. There are certain additional risks associated with investing in securities through our investment management program, as described below:

- Market Risk – Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.
- Equity (stock) market risk – Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer.
- Company Risk. When investing in stock positions, there is always a certain level of company or industry specific risk that is inherent in each investment. This is also referred to as unsystematic risk and can be reduced through appropriate diversification. There is the risk that the company will perform poorly or have its value reduced based on factors specific to the company or its industry. For example, if a company's employees go on strike or the company receives unfavorable media attention for its actions, the value of the company may be reduced.

- Fixed Income Risk. When investing in bonds, there is the risk that the issuer will default on the bond and be unable to make payments. Further, individuals who depend on set amounts of periodically paid income face the risk that inflation will erode their spending power. Fixed-income investors receive set, regular payments that face the same inflation risk.
- ETF and Mutual Fund Risk – When investing in an ETF or mutual fund, you will bear additional expenses based on your pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. You will also incur brokerage costs when purchasing ETFs.
- Management Risk – Your investment with our firm varies with the success and failure of our investment strategies, research, analysis and determination of portfolio securities. If our investment strategies do not produce the expected returns, the value of the investment will decrease.

Voting Client Securities

JKWAI does not vote proxies on behalf of Clients. We have determined that taking on the responsibilities for voting client securities does not add enough value to the services provided to you to justify the additional compliance and regulatory costs associated with voting client securities. Therefore, it is your responsibility to vote all proxies for securities held in Account.

You will receive proxies directly from the qualified custodian or transfer agent; we will not provide you with the proxies. You are encouraged to read through the information provided with the proxy-voting documents and make a determination based on the information provided.

With respect to assets managed by a third-party money manager, we will not vote the proxies associated with these assets. You will need to refer to each third-party money manager's disclosure brochure to determine whether the third-party money manager will vote proxies on your behalf. You may request a complete copy of third-party money manager's proxy voting policies and procedures as well as information on how your proxies were voted by contacting the third-party money manager or by contacting JKWAI at the address or phone number indicated on Page 1 of this disclosure document.

Item 7 – Client Information Provided to Portfolio Managers

Only Investment Adviser Representatives of JKWAI serve as portfolio managers for our Asset Management Services Program. Our associated Investment Adviser Representatives are

responsible for gathering all information provided by you. We will interview and work with you to gather all information needed relative to your investment objectives and needs in order to provide management services through our Asset Management Services Program. You are responsible for promptly contacting your Investment Adviser Representative to notify us of any changes to your financial situation that will impact or materially influence the way we manage your accounts.

Item 8 - Client Contact with Portfolio Managers

Only Investment Adviser Representatives of JKWAI serve as portfolio managers for our Asset Management Services Program. There are no restrictions placed on your ability to contact and consult with their portfolio managers. It is the policy of JKWAI to provide for open communications between the Investment Adviser Representatives and clients. You are encouraged to contact your Investment Adviser Representative whenever you have questions about the management of your account(s).

Item 9 - Additional Information

Disciplinary Information

We have no legal or disciplinary events that are material to a client's or prospective client's evaluation of our business or the integrity of our management.

Other Financial Industry Activities and Affiliations

JKWAI is **not** and does **not** have a related person that is a broker/dealer, municipal securities dealer, government securities dealer or broker, an investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund), another investment adviser or financial planner, a futures commission merchant, commodity pool operator, or commodity trading advisor, a banking or thrift institution, an accountant or accounting firm, a lawyer or law firm, an insurance company or agency, a pension consultant, a real estate broker or dealer, and a sponsor or syndicator of limited partnerships.

We are an independent registered investment adviser and only provide investment advisory services. We are not engaged in any other business activities and offer no other services except those described in this Disclosure Brochure. However, while we do not sell products or services other than investment advice, our representatives may sell other products or provide services outside of their role as investment adviser representatives with JKWAI.

Registered Representative of a Broker-Dealer

Our representatives are also registered representatives of LPL Financial, a securities broker-dealer. You may work with your investment adviser representative in his or her separate capacity as a registered representative of LPL Financial. When acting in his or her separate capacity as a registered representative, your investment adviser representative may sell, for commissions, general securities products such as stocks, bonds, mutual funds, exchange-traded funds, and variable annuity and variable life products to you. As such, your investment adviser representative may suggest that you implement investment advice by purchasing securities products through a commission-based brokerage account in addition to or in lieu of a fee-based investment-advisory account. This receipt of commissions creates an incentive to recommend those products for which your investment adviser representative will receive a commission in his or her separate capacity as a registered representative of a securities broker-dealer. Consequently, the objectivity of the advice rendered to you could be biased.

You are under no obligation to use the services of our representatives in this separate capacity or to use LPL Financial and can select any broker/dealer you wish to implement securities transactions. If you select our representatives to implement securities transactions in their separate capacity as registered representatives, they must use LPL Financial. Prior to effecting any such transactions, you are required to enter into a new account agreement with LPL Financial. The commissions charged by LPL Financial may be higher or lower than those charged by other broker/dealers. In addition, the registered representatives may also receive additional ongoing 12b-1 fees for mutual fund purchases from the mutual fund company during the period that you maintain the mutual fund investment.

SEI Asset Management Program

The SEI Asset Management Program (SEI Program) is an institutional asset allocation program that JKWAI uses in the management of assets for client accounts. If you enroll in the SEI Asset Management Program, JKWAI will assist you in the establishment of a SEI Program Account (the Account) at SEI Private Trust Company (SEI). All Account transactions are processed and cleared through SEI. The SEI Program uses asset allocation portfolios developed by SEI Investments. The portfolios consist of SEI Family of Institutional Mutual Funds (Mutual Funds) and other securities approved by SEI to be held in an account. The SEI Program uses the Portfolio Managers selected and subject to oversight by SEI and who have entered into a sub-advisory agreement with SEI.

JKWAI will provide SEI with the asset allocation policy that you select for your account. JKWAI will direct SEI to reallocate your investments in accordance with your Asset Allocation Policy. In addition, based on JKWAI instructions, SEI will rebalance the investments within your account at least annually so that the market value of the shares of each mutual fund held in

your account is the same percentage of the total market value of your account as required by your Asset Allocation Policy. SEI and its Portfolio Managers will have discretionary authority over the assets and transactions in the Account. JKWAI will have discretionary authority to re-allocate your portfolios among the various Portfolio Managers as needed. SEI has the authority to replace a previously selected Portfolio Manager or SEI Fund without your prior approval.

Custody of all SEI Program Client Account assets is held at SEI Private Trust Company.

Insurance Agent

You may work with your investment adviser representative in his or her separate capacity as an insurance agent. When acting in his or her separate capacity as an insurance agent, the investment adviser representative may sell, for commissions, general disability insurance, life insurance, annuities, and other insurance products to you. As such, your investment adviser representative in his or her separate capacity as an insurance agent, may suggest that you implement recommendations of JKWAI by purchasing disability insurance, life insurance, annuities, or other insurance products. This receipt of commissions creates an incentive for the representative to recommend those products for which your investment adviser representative will receive a commission in his or her separate capacity as an insurance agent. Consequently, the advice rendered to you could be biased. You are under no obligation to implement any insurance or annuity transaction through your investment adviser representative.

Interest in Client Transactions and Code of Ethics

JKWAI has established a Code of Ethics that will apply to all of its associated persons. As a fiduciary, it is an investment advisor's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. JKWAI has a fiduciary duty to all clients. This fiduciary duty is considered the core underlying principle for our Code of Ethics which also covers our Insider Trading and Personal Securities Transactions Policies and Procedures. JKWAI has the responsibility to make sure that the interests of all clients are placed ahead of JKWAI's own investment interest. Full disclosure of all material facts and potential conflicts of interest will be provided to clients prior to any services being conducted. JKWAI will conduct business in an honest, ethical and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This section is intended to provide clients with a summary of JKWAI's Code of Ethics. Clients may receive a complete copy of the Code of Ethics upon request.

Affiliate and Employee Personal Securities Transactions Disclosure

JKWAI or associated persons of the firm may buy or sell for their personal accounts, investment products identical to those recommended to clients. This creates a potential conflict of interest. It is the express policy of JKWAI that all persons associated in any manner with our firm must place clients' interests ahead of their own when implementing personal investments. JKWAI and its associated persons will not buy or sell securities for their personal account(s) where their decision is derived, in whole or in part, by information obtained as a result of employment or association with our firm unless the information is also available to the investing public upon reasonable inquiry.

We are now and will continue to be in compliance with applicable state and federal rules and regulations. To prevent conflicts of interest, we have developed written supervisory procedures that include personal investment and trading policies for our representatives, employees and their immediate family members (collectively, associated persons):

- Associated persons cannot prefer their own interests to that of the client.
- Associated persons cannot purchase or sell any security for their personal accounts prior to implementing transactions for client accounts.
- Associated persons cannot buy or sell securities for their personal accounts when those decisions are based on information obtained as a result of their employment, unless that information is also available to the investing public upon reasonable inquiry.
- Associated persons are prohibited from purchasing or selling securities of companies in which any client is deemed an "insider".
- Associated persons are discouraged from conducting frequent personal trading.
- Associated persons are generally prohibited from serving as board members of publicly traded companies unless an exception has been granted to the Chief Compliance Officer of JKWAI.

Any associated person not observing our policies is subject to sanctions up to and including termination.

Account Reviews

Managed accounts are reviewed at least annually. While the calendar is the main triggering factor, reviews can also be conducted at your request. Account reviews will include investment strategy and objectives review and making a change if strategy and objectives have changed. Reviews are conducted by your assigned Investment Advisor Representative, with reviews performed in accordance with your investment goals and objectives.

Accounts established and maintained with other third-party money managers are reviewed at least annually.

Account Statements and Reports

For our asset management services, you are provided with transaction confirmation notices and regular quarterly account statements directly from the qualified custodian. Additionally, JKWAI may provide position or performance reports to you quarterly and upon request.

Whether reports by an outside money manager are provided to you will depend upon the outside money manager.

You are encouraged to always compare any reports or statements provided by us, a sub-adviser or third-party money manager against the account statements delivered from the qualified custodian. When you have questions about your account statement, you should contact our firm and the qualified custodian preparing the statement.

Client Referrals

JKWAI does not directly or indirectly compensate any person for client referrals.

The only compensation received from advisory services is the fees charged for providing investment advisory services. JKWAI receives no other forms of compensation in connection with providing investment advice.

We receive an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisers whose clients maintain their accounts at Schwab. These products and services, how they benefit us, and the related conflicts of interest are described above. The availability of Schwab's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

Financial Information

JKWAI does not require or solicit prepayment of more than \$1200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for the most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, JKWAI has not been the subject of a bankruptcy petition at any time.
