Advisory Business - Item 4

Tucker Asset Management LLC ("Tucker Asset Management" and/or "the firm") is a limited liability company organized in the State of Colorado. Karlan Tucker, through a personal trust, owns 99% of the firm. Tucker Asset Management has been offering investment advisory services since May 2015.

The following paragraphs describe our services and fees. You may see the term Associated Person throughout this Brochure. As used in this Brochure, this term refers to anyone from our firm who is an officer, employee, and all individuals providing investment advice on behalf of our firm. Where required, such persons are properly licensed or registered as investment adviser representatives.

Portfolio Management Services

Tucker Asset Management offers discretionary portfolio management services. Discretionary portfolio management means that we chose the broker dealer/custodian to be used, we make investment decisions and place buy or sell orders in your account without contacting you to receive your advance permission. Our investment advice is tailored to meet our clients' needs and investment objectives. If you decide to hire our firm to assist you with the management of your portfolio, an Associated Person of Tucker Asset Management will meet with you and gather information about your financial situation, investment objectives, and any reasonable restrictions you would like to impose on the management of the account. The information we gather will help us implement an asset allocation strategy that will be specific to your needs and goals.

Currently, we offer asset allocation and advisory services through various third party investment advisers ("TPAs"). All TPAs recommended by the firm must be registered with either the Securities and Exchange Commission or with the applicable State securities division. The TPA is responsible for the research and security selection and Tucker Asset Management is responsible for the implementation of transactions either directly or through the use of third party coordinators ("Coordinators"). All Coordinators must be registered with either the Securities and Exchange Commission or with the applicable State securities division.

Accounts are managed to diversify client's investments and may include various types of securities such as equity securities, Exchange Traded Funds (ETFs), corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company products, options (where suitable), and U.S. Government securities. Other types of investments may also be recommended where such investments are appropriate based on the client's stated goals and objectives.

Investments and allocations are determined and based upon the clients predefined objectives, risk tolerance, time horizon, financial horizon, financial information, and other various suitability factors. Further restrictions and guidelines imposed by clients may affect the composition and performance of a client's portfolio. For these reasons, performance of the portfolio may not be identical with the average client of Tucker Asset Management. On an ongoing basis, Tucker Asset Management reviews the client's financial circumstances and investment objectives and instructs the TPAs to make the necessary adjustments to the client's portfolio to achieve the desired results.

Tucker Asset Management offers a unique product line where asset allocation models are developed and managed by one or more of the following TPAs:

- Capital Management Services
- Foresight Investment Advisors
- Taiber Kosmala & Associates
- Optimus Advisory Group
- Alpha Investment Management
- Howard Capital Management
- Horizon Investment Services
- W.E. Donoghue and Company
- Spiderrock Advisors

A complete description of the programs and services provided by the TPAs, the amount of total fees charged by the TPAs and other aspects of each TPAs business are detailed and disclosed in the TPA's Form ADV Part 2 Brochure. These Brochures will be provided to the client at the inception of services.

Clients are required to provide the firm with prompt notice of any changes in their personal financial circumstances, investment objectives, goals, and tolerance for risk. Tucker Asset Management will contact clients at least annually to determine whether there have been any changes in a client's personal financial circumstances, investment objectives, and tolerance for risk.

Financial Planning Services

We offer financial planning, which includes a variety of services, mainly advisory in nature, regarding management of financial resources based upon an analysis of the client's individual needs, predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. The process begins with an initial complementary consultation. Once we collect and analyze all documentation, we provide a written financial plan designed to assist the client in working toward their financial goals and objectives. We then assist the client in developing a strategy to assist the client in managing income, assets, and liabilities.

The recommendations are designed to assist the client in reaching their desired goals subject to periodic evaluation of the financial plan, which may require revision to meet changing circumstances. Financial plans are based on your financial situation based on the information provided to the firm. We recommend a plan review at least annually. Updates to written plans are billable at the then current hourly rate.

In limited circumstances, you may only require advice on a single aspect of the management of your financial resources. We offer financial plans in a targeted format and/or general consulting services that address only those specific areas of interest or concern.

We also offer ongoing planning and consulting services on an annual basis that may include periodic meetings with clients to review progress towards stated goals, a review of asset performance, implementation services, and minor updates to the existing plan.

You are under no obligation to act on our financial planning recommendations. Should you choose to act

on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any advisory, brokerage, insurance, or other professional services provider you choose.

Note: Information related to tax or legal consequences provided as part of a plan or consultation is for informative purposes only. You are encouraged to contact your tax professionals or attorneys for tax or legal advice.

Wrap Fee Programs

A wrap fee program combines portfolio management, advisory services, and trade execution for a single fee. We do not manage or sponsor any wrap fee programs.

Assets Under Management

As of February 18, 2021, we manage \$205,886,943 in client assets on a discretionary basis, and \$0 in client assets on a non-discretionary basis.

Fees and Compensation - Item 5

Portfolio Management Services Fees

Tucker Asset Management's portfolio management fees are payable monthly in arrears and are based on the market value of the Assets on the last day of the month. Fees will be assessed pro rata in the

event the Asset Management Agreement is executed at any time other than the first day of a calendar month.

The fee is deducted from the client's account held at the custodian. The client authorizes Tucker Asset Management or the Coordinator to debit the fee from the client's account. If insufficient cash is available to pay such fees, securities in an amount equal to the balance of unpaid fees will be liquidated to pay for the unpaid balance. Our negotiable fee for portfolio management services is set forth in the following fee schedule:

	First \$500,000	Next \$500,000	Next \$1 million	Over \$2 million
Tucker Asset Management fee	1.00%	0.90%	0.80%	Negotiable
Third Party Adviser fee	1.00%	0.90%	0.80%	Negotiable
Total annual fee	2.00%	1.80%	1.60%	Negotiable

Tucker Asset Management may modify the fee at any time upon 30 days' written notice, subject to client's written consent.

Tucker Asset Management also charges an administrative and technology fee of up to \$100 per account. A portion of this fee is paid to our software provider(s). Some third party investment advisers such as, Zega Financial, LLC and Alpha DNA Investment Management have direct trading access to client

accounts and charge an additional account setup and margin maintenance fee of \$55 per account per year. This flat fee is in addition to our advisory fees and will be charged regardless of the value of each account.

Generally, the Coordinator will deduct our fee automatically from your account at the qualified custodian. In these situations, Tucker Asset Management does not get involved in the fee calculation and billing process. However, in situations where Tucker Asset Management deducts the advisory fee, the following requirements are met:

- We have authorization from you, in writing, permitting the fees to be paid directly from your account held by the qualified custodian.
- We send you an invoice showing the amount of the fee, the asset valuation used to calculate the fee, and how the fee was calculated.
- We disclose to you that it is your responsibility to verify the accuracy of the fee calculation and that the custodian will not determine whether the fee is accurately calculated.
- The qualified custodian agrees to send you a statement, at least quarterly, showing all funds that came out of your account including the amount of the advisory fee paid directly to our firm.

We may deduct the fee from a designated account to facilitate billing.

The Asset Management Agreement may be canceled at any time by the client or by Tucker Asset Management with 30 days' prior written notice to the client. Upon termination, any earned, unpaid fees will be due and payable by the client. The client has the right to terminate the Asset Management Agreement without penalty within five business days after entering into the agreement.

Financial Planning Fees

Prior to engaging us to provide financial planning and consulting services, the client will be required to enter into a written advisory agreement with our firm. The agreement will set forth the terms and conditions of the engagement and describe the scope of the services to be provided and the fee that will be due from the client.

Financial planning and consulting fees range between \$250 and \$750 per hour. The fee is negotiable depending on the scope, complexity, needs, and circumstances of the client, as well as the amount of time estimated to complete the requested services, and the investment adviser representative providing the services. An estimate of the total time/cost will be determined at the start of the advisory relationship. The fee for the first hour of contracted services is payable upon execution of the advisory agreement. All additional hours of contracted services multiplied by the agreed upon hourly fee are due upon completion of the contracted services. At our discretion, we may negotiate other fee payment arrangements. All such arrangements will be clearly set forth in the agreement signed by the client and the firm. We do not require you to pay fees six or more months in advance and in excess of \$1,200.

In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee.

At our sole discretion, we may waive a portion of the financial planning fees for clients who engage us for portfolio management services.

You can terminate the agreement within five days of entering into the agreement without penalty. After the five-day period, either party can terminate the agreement by written notice to the other in accordance with the terms of the agreement. You will incur a pro rata charge for services rendered prior to the termination of the agreement, which means you will incur advisory fees only in proportion to the amount of time expended/services completed prior to notice of termination. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Additional Fees and Expenses

Tucker Asset Management's fees are negotiable based on the complexity of client goals and objectives and level of services rendered. As described above, the fees are charged as described and are not based on a share of capital gains of the funds of an advisory client.

All fees paid to Tucker Asset Management for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds to their shareholders. These fees and expenses are described in each fund's prospectus. These fees generally include a management fee, other fund expenses, early redemption fee, and a possible distribution fee. A client could invest in a mutual fund directly, without the services of Tucker Asset Management. In that case, the client would not receive the services provided by Tucker Asset Management which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and the fees charged by Tucker Asset Management to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Advisory recommendations are based on financial information and situation that you disclose to us at the time the services are provided. Certain assumptions may be made with respect to interest and inflation rates and the use of past trends and performance of the market and economy. Past performance is in no way an indication of future returns. As your financial situation, goals, objectives, or needs change, you must notify us promptly.

Sales Compensation

Tucker Asset Management is affiliated with Tucker Advisory Group, Inc., an insurance marketing organization, also owned and controlled by Karlan Tucker through the Karlan Ken Tucker Trust. Tucker Asset Management professionals may recommend insurance products offered by such carriers for whom they function as an agent and receive a commission for doing so. Please be advised there is a conflict of interest in that there is an economic incentive to recommend insurance and other investment products of such carriers. Tucker mitigates this conflict by making recommendations in conformity with the client's personal and financial circumstances and in the best interests of the client. Please also be advised that Tucker Asset Management strives to put its clients' interests first and foremost, and clients have the right to choose any insurance carrier or insurance agency they desire.

Certain individuals who provide investment advice on behalf of Tucker Asset Management are also registered representatives with various securities broker-dealers registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority ("FINRA"). As registered representatives, such individuals are eligible to receive commission-based compensation for buying and selling securities and insurance products, including 12b-1 fees and other trails for the sale of mutual

funds or annuity products. This commission compensation is separate and distinct from our advisory fees. Advisory clients are not obligated to purchase the products or services through these individuals or any of the broker-dealers with which they are registered. Clients may purchase or sell insurance and securities at any insurance or brokerage firm they choose.

All conflicts of interest between you and our firm, and the Associated Persons of our firm, are outlined in this Disclosure Brochure. If additional conflicts arise in the future, we will notify you in writing or supply you with an updated Disclosure Brochure.

Performance-Based Fees and Side-By-Side Management - Item 6

We and our Associated Persons do not accept performance based fees. Performance based fees are based on a share of capital gains on or capital appreciation of the client's assets.

Types of Clients - Item 7

We generally offer investment advisory services to individuals, pension and profit sharing plans and participants, trusts, estates, charitable organizations, corporations, and other business entities.

Tucker Asset Management requires a minimum of \$5,000 to open and maintain an advisory account. In certain circumstances, an account can be established with less than a \$5,000 investment. In such cases, the account will be subject to a minimum fee of \$100 annually. This fee will never exceed 3% of the client's assets under management. At our sole discretion we may waive this requirement. This requirement can be met by combining two or more accounts owned by you or related family members. Certain third-party money managers may have higher minimum investment amounts than \$5,000 to open and maintain an advisory account.

Methods of Analysis, Investment Strategies and Risk of Loss - Item 8

All portfolio management services are offered by the TPAs in accordance with investment programs developed by these entities. Tucker Asset Management will not implement its own methods of analysis and investment strategies. Clients should refer to the disclosure documents provided by the TPA(s) for more information about these firm's methods of analysis and investment strategies.

Investing in securities involves risk of loss that clients should be prepared to bear. Clients should fully understand the nature of the contractual relationship(s) into which they are entering and the extent of their exposure to risk. Certain investing strategies may not be suitable for many members of the public. You should carefully consider whether the strategies employed will be appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances.

General Investment Risk: All investments come with the risk of loss. Investing may involve substantial risks, including complete possible loss of principal plus other losses and may not be suitable for many members of the public. Investments, unlike savings and checking accounts at a bank, are not insured by the government to protect against market losses. Different market instruments carry different types and degrees of risk and you should familiarize yourself with the risks involved in the particular market instruments you intend to invest in.

Loss of Value: There can be no assurance that a specific investment will achieve its investment objectives and past performance should not be seen as a guide to future returns. The value of investments and the income derived may fall as well as rise and investors may not recoup the original amount invested. Investments may also be affected by any changes in exchange control regulation, tax laws, withholding taxes, international, political and economic developments, and government, economic or monetary policies.

Interest Rate Risk: Fixed income securities and funds that invest in bonds and other fixed income securities may fall in value if interest rates change. Generally, the prices of debt securities rise when interest rates fall, and their prices fall when interest rates rise. Longer term debt securities are usually more sensitive to interest rate changes.

Credit Risk: Investments in bonds and other fixed income securities are subject to the risk that the issuer(s) may not make required interest payments. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity, making it more difficult to sell. Funds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

Recommendation of Other Advisers

Where we recommend that a third party manages your assets, please refer to the third party's advisory agreements, Form ADV, and associated disclosure documents for details on their investment strategies, methods of analysis, and associated risks.

Where suitable, some third party investment advisers may utilize margin and/or options strategies. You should be aware of the risks associated with the use of margin and options.

Margin Transactions – a securities transaction in which an investor borrows money to purchase a security, in which case the security serves as collateral on the loan. If the value of the shares drops sufficiently, the investor will be required to either deposit more cash into the account or sell a portion of the stock in order to maintain the margin requirements of the account. This is known as a "margin call." An investor's overall risk includes the amount of money invested plus the amount that was loaned to them.

Options Writing – a securities transaction that involves selling an option. An option is the right, but not the obligation, to buy or sell a particular security at a specified price before the expiration date of the option. When an investor sells an option, he or she must deliver to the buyer a specified number of shares if the buyer exercises the option. The seller pays the buyer a premium (the market price of the

option at a particular time) in exchange for writing the option. Options are complex investments and can be very risky, especially if the investor does not own the underlying stock. In certain situations, an investor's risk can be unlimited.

Disciplinary Information - Item 9

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of us or the integrity of our management. There is no history of reportable material legal or disciplinary events by our firm or our management persons.

Other Financial Industry Activities or Affiliations - Item 10

Tucker Advisors

Tucker Advisors is a trade name for Tucker Advisory Group, Inc., an insurance marketing organization, also owned and controlled by Karlan Tucker through the Karlan Ken Tucker Trust. Tucker Asset Management professionals may recommend insurance products offered by such carriers for whom they function as an agent and receive a commission for doing so. Please be advised there is a conflict of interest in that there is an economic incentive to recommend insurance and other investment products of such carriers. Tucker mitigates this conflict by making recommendations in conformity with the client's personal and financial circumstances and in the best interests of the client.

Please also be advised that Tucker Asset Management strives to put its clients' interests first and foremost, and clients have the right to choose any insurance carrier or insurance agency they desire.

Certain individuals who provide investment advice on behalf of Tucker Asset Management are also registered representatives with various securities broker-dealers registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority ("FINRA"). As registered representatives, such individuals are eligible to receive commission-based compensation for buying and selling securities and insurance products, including 12b-1 fees and other trails for the sale of mutual funds or annuity products. This commission compensation is separate and distinct from our advisory fees. Advisory clients are not obligated to purchase the products or services through these individuals or any of the broker-dealers with which they are registered. Clients may purchase or sell insurance and securities at any insurance or brokerage firm they choose.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading - Item 11

Description of Our Code of Ethics

Tucker Asset Management has adopted a Code of Ethics (the "Code") to address investment advisory conduct. The Code focuses primarily on fiduciary duty, personal securities transactions, insider trading, gifts, and conflicts of interest. The Code includes Tucker Asset Management's policies and procedures developed to protect client's interests in relation to the following topics:

- The duty at all times to place the interests of clients first;
- The requirement that all personal securities transactions be conducted in such a manner as to be consistent with the code of ethics.
- The responsibility to avoid any actual or potential conflict of interest or misuse of an employee's position of trust and responsibility;
- The fiduciary principle that information concerning the identity of security holdings and financial circumstances of clients is confidential; and
- The principle that independence in the investment decision-making process is paramount.

A copy of Tucker Asset Management's Code of Ethics is available upon request to Eileen Hopkins by phone at 303-734-1234 or via email at eileen.hopkins@TuckerAM.com.

Personal Trading Practices

At times Tucker Asset Management and/or its Advisory Representatives may take positions in the same securities as clients, which may pose a conflict of interest with clients. We will not violate our fiduciary responsibilities to our clients. Front running (trading shortly ahead of clients) is prohibited. Should a conflict occur because of materiality, disclosure will be made to the client(s) at the time of trading. Incidental trading not deemed to be a conflict (i.e. a purchase or sale which is minimal in relation to the total outstanding value, and as such would have negligible effect on the market price), would not be disclosed at the time of trading.

Brokerage Practices - Item 12

We recommend the services of TD Ameritrade Institutional, a division of TD Ameritrade, Inc. ("TD Ameritrade") for our portfolio management program. TD Ameritrade is a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). Some accounts, such as 529 plans are held at American Funds Distributors, Inc., an SEC registered investment adviser and securities broker-dealer, member of FINRA.

TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance, and settlement of transactions. Tucker Asset Management receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

Research and Other Soft Dollar Benefits

Although not considered “soft dollar” compensation, we may receive benefits from TD Ameritrade for research services that include reports, software, and institutional trading support.

In selecting a broker dealer based on discretionary authority, Tucker Asset Management will endeavor to select those brokers or dealers that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on several factors, including the broker’s ability to provide professional services, competitive commission rates, volume discounts, execution price negotiations, the broker’s reputation, experience, and financial stability of the broker or dealer, and the quality of service rendered by the broker or dealer in other transactions.

Best execution is not measured solely by reference to commission rates. Paying a broker a higher commission rate than another broker might charge is permissible if the difference in cost is reasonably justified by the quality of the brokerage services offered. In addition, Tucker Asset Management may cause the account to pay a higher commission in recognition of the value of “research services” and additional brokerage products and services a broker-dealer has provided or may be willing to provide.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers and custodians in which we have an institutional advisory arrangement. Also, we do not receive other benefits from a broker-dealer in exchange for client referrals.

Directed Brokerage

The client may direct brokerage to a specified broker/dealer other than the firm recommended by Tucker Asset Management. In the event that a client directs Tucker Asset Management to use a particular broker/dealer, the firm may not be authorized under these circumstances to negotiate commissions and may not be able to obtain volume discounts or best execution. In addition, under these circumstances a disparity in commission charges may exist between the commissions charged to clients who direct the Company to use a particular broker/dealer and those that don’t.

Certain individuals providing investment advice on behalf of our firm are also registered representatives of a broker-dealer. If transactions are executed through that broker-dealer, such individuals (in their separate capacities as registered representatives of that broker-dealer) are eligible to earn commission-based compensation as result of placing the recommended securities transactions through that broker-dealer. It may be the case that those broker-dealers charge higher transaction costs and/or custodial fees than another broker charges for the same types of services. This practice presents a conflict of interest because these registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than making the recommendation based solely on your needs. These individuals are subject to applicable rules that restrict them from conducting securities transactions away from that broker-dealer unless that broker-dealer provides the registered representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through that broker-dealer or through an approved account custodian, such as TD Ameritrade or American Funds. You may utilize the broker-dealer of your choice and have no obligation to purchase or sell securities through a particular broker-dealer. However, if you do not use a recommended broker-dealer or approved account custodian, we may not be able to accept your account. Please see the "Fees and Compensation" section in this Brochure for more information on

the compensation received by registered representatives of broker-dealers who are also investment adviser representatives with our firm.

Trade Aggregation/Block Trading

Tucker Asset Management does not block trade. Clients should refer to each TPA's disclosure brochure for information about their block trading policies.

Review of Accounts - Item 13

Accounts are reviewed by Karlan Tucker, CEO of Tucker Asset Management, or the Associated Person named as adviser of record on the account. The frequency of reviews is determined based on the client's investment objectives, but reviews are conducted no less frequently than semi-annually. More frequent reviews may also be triggered by a change in the client's investment objectives, tax considerations, large deposits or withdrawals, large purchases or sales, loss of confidence in corporate management, or changes in macro-economic climate.

Tucker Asset Management may perform ad hoc reviews on an as-needed basis if there have been material changes in the client's investment objectives or risk tolerance, or a material change in how Tucker Asset Management formulates investment advice.

The client's independent custodian provides account statements directly to the client no less frequently than quarterly. The custodian's statement is the official record of the client's securities account and supersedes any statements or reports created on behalf of the client by Tucker Asset Management.

Client Referrals and Other Compensation - Item 14

As disclosed under Item 12 above, Tucker Asset Management participates in TD Ameritrade's institutional customer program and Tucker Asset Management may recommend TD Ameritrade to clients for custody and brokerage services. There is no direct link between Tucker Asset Management's participation in the program and the investment advice it gives to its clients, although Tucker Asset Management receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors.

These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Tucker Asset Management participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management

products or services provided to Tucker Asset Management by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Tucker Asset Management's related persons.

Some of the products and services made available by TD Ameritrade through the program may benefit Tucker Asset Management but may not benefit its client accounts. These products or services may assist Tucker Asset Management in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Tucker Asset Management manage and further develop its business enterprise. The benefits received by Tucker Asset Management or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Tucker Asset Management endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Tucker Asset Management or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Tucker Asset Management's choice of TD Ameritrade for custody and brokerage services.

We will recommend that you use a third party advisor (TPA) and in some cases, may share in the compensation received by the TPA for managing your account. The compensation arrangement presents a conflict of interest due to a financial incentive to recommend the services of the third party advisor. In order to address this conflict, the firm has adopted a code of ethics that obliges all associated persons to deal fairly with all clients when taking investment action and to uphold their fiduciary duty and to put the client's interest first.

Non-employee (outside) consultants, individuals, and/or entities, who are directly responsible for bringing a client to Tucker Asset Management, may receive compensation from the firm. Such arrangements will comply with the requirements set forth in Rule 206(4)-3 of the Investment Advisers Act of 1940, including the requirement that the relationship between the solicitor and the investment adviser be disclosed to the client at the time of the solicitation or referral. Under these arrangements, the client does not pay higher fees than Tucker Asset Management's customary advisory fees.

Custody - Item 15

Advisers who deduct advisory fees directly from client accounts are deemed to have constructive custody. Generally Tucker Asset Management does not have custody over client funds and securities because the Coordinator calculates and deducts our fee automatically from your account at the qualified custodian. In these situations, Tucker Asset Management does not get involved in the fee calculation and billing process.

However, in certain situations, Tucker Asset Management may deduct the advisory fee provided the following requirements are met:

- We have authorization from you, in writing, permitting the fees to be paid directly from your account held by the qualified custodian.
- We send you an invoice showing the amount of the fee, the asset valuation used to calculate the fee, and how the fee was calculated.

- We disclose to you that it is your responsibility to verify the accuracy of the fee calculation and that the custodian will not determine whether the fee is accurately calculated.
- The qualified custodian agrees to send you a statement, at least quarterly, showing all funds that came out of your account including the amount of the advisory fee paid directly to our firm.

We may deduct the fee from a designated account to facilitate billing.

Clients will receive account statements at least quarterly from their qualified custodian. Clients are urged to review their custodial account statements for accuracy.

Investment Discretion - Item 16

Tucker Asset Management's portfolio management services are offered on a discretionary basis, that is, once the portfolio allocation has been agreed upon, the ongoing supervision of the portfolio will be our responsibility. This authority is granted to us by you in the Asset Management Agreement. This allows our firm and/or the TPAs to pick the custodian/broker dealer to be used, the quantity of the securities to be purchased or sold and whether to place buy or sell orders for your account without obtaining your approval for each transaction. We also maintain discretionary authority to require our clients to use TD Ameritrade for custodial services.

If you wish, you may limit our discretionary authority by, for example, setting a limit on the type of securities that can be purchased for your account. All restrictions or guidelines must be provided in writing.

Voting Client Securities - Item 17

Tucker Asset Management does not vote proxies. It is the client's responsibility to vote proxies. Clients will receive proxy materials directly from the custodian. Questions about proxies may be made via the contact information on the cover page.

Financial Information - Item 18

We are required in this Item to provide you with certain financial information or disclosures about Tucker Asset Management's, financial condition. Tucker Asset Management does not require the prepayment of over \$500, six or more months in advance. Additionally, Tucker Asset Management has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.

Requirements of State-Registered Advisers - Item 19

This section is not applicable because our firm is SEC-registered.

Miscellaneous

Confidentiality

Tucker Asset Management views protecting its customers' private information as a top priority and, pursuant to the requirements of the Gramm-Leach-Bliley Act, the firm has instituted policies and procedures to ensure that customer information is kept private and secure.

Tucker Asset Management does not disclose any nonpublic personal information about its customers or former customers to any nonaffiliated third parties, except as permitted by law. In the course of servicing a client account, Tucker Asset Management may share some information with its service providers, such as transfer agents, custodians, broker-dealers, accountants, and lawyers.

Tucker Asset Management restricts internal access to nonpublic personal information about its clients to those employees who need to know that information in order to provide products or services to the client. Tucker Asset Management maintains physical and procedural safeguards that comply with state and federal standards to guard a client's nonpublic personal information and ensure its integrity and confidentiality. As emphasized above, it has always been and will always be the firm's policy never to sell information about current or former customers or their accounts to anyone. It is also the firm's policy not to share information unless required to process a transaction, at the request of the client, or as required by law.

A copy of the firm's privacy policy notice will be provided to each client prior to, or contemporaneously with, the execution of the Asset Management Agreement. Thereafter, the firm will deliver a copy of the current privacy policy notice to its clients on an annual basis. If you have any questions on this policy, please contact Eileen Hopkins by phone at 303-734-1234 or via email at eileen.hopkins@TuckerAM.com.
