Investment Management Services

Minot Wealth provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. Minot Wealth works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create an investment strategy. Minot Wealth will then design an investment strategy that may include the Advisor’s internal investment management and/or the use of independent managers and/or internal investment management.

Internal Management – Minot Wealth will construct Client portfolios utilizing mutual funds, exchange-traded funds (“ETFs”), individual equities and individual bonds. The Advisor may also utilize options, private investments and other types of investments, as appropriate, to meet the needs of certain Clients.

Minot Wealth’s investment strategy is primarily long-term focused, but the Advisor may buy, sell or re-allocate investments that have been held for less than one year to meet the objectives of the Client or due to market conditions. Minot Wealth will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

Minot Wealth evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. Minot Wealth may recommend, on occasion, redistributing investment allocations to diversify the portfolio. Minot Wealth may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. Minot Wealth may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

Minot Wealth Management LLC

Phone: (978) 226-4668 | <http://minotwealth.com>

At no time will Minot Wealth accept or maintain custody of a Client's funds or securities, except for the limited authority as detailed in Item 15 - Custody. All Client assets will be managed within their designated brokerage account or pension account, pursuant to the Client wealth management agreement.

Use of Independent Managers – Minot Wealth may recommend that a Client utilize one or more unaffiliated investment managers or investment platforms (collectively "Independent Managers") in connection with a Client's investment portfolio, based on the Client's needs and objectives. In such instances, the Client may be required to authorize and enter into an investment management agreement with the Independent Manager[s] that defines the terms in which the Independent Manager[s] will provide investment management and related services. The Advisor will assist in the development of investment policy recommendations and managing the ongoing Client relationship. The Advisor will perform initial and ongoing oversight and due diligence over the selected Independent Manager[s] to ensure the Independent Managers' strategies and target allocations remain aligned with the Clients' investment objectives and overall best interests. The Client, prior to entering into an agreement with unaffiliated investment manager[s] or investment platform[s], will be provided with the Independent Manager's Form ADV 2A (or a brochure that makes the appropriate disclosures).

Financial Planning Services

Minot Wealth will typically provide a variety of financial planning services to Clients, services are offered in several areas of a Client's financial situation, depending on their goals and objectives.

Generally, such financial planning services will involve preparing a financial plan or rendering a financial consultation based on the Client's financial goals and objectives. This planning or consulting may encompass one or more areas of need, including, but not limited to investment planning, retirement planning, estate planning, personal savings, education savings and other areas of a Client's financial situation.

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs.

Minot Wealth may also refer Clients to an accountant, attorney or other specialist, as appropriate for their unique situation. For certain financial planning engagements, the Advisor will provide a written summary of Client's financial situation, observations, and recommendations. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six (6) months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations pose a potential conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor would pose a conflict, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

C. Client Account Management

Prior to engaging Minot Wealth to provide investment advisory services, each Client is required to enter into one or more advisory agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – Minot Wealth, in connection with the Client, will develop a strategy that seeks to achieve the Client's investment goals and objectives.
- Asset Allocation – Minot Wealth will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.

- Portfolio Construction – Minot Wealth will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – Minot Wealth will provide investment management and ongoing oversight of the Client's portfolio.

D. Wrap Fee Programs

Minot Wealth includes in addition to securities transaction fees for certain mutual funds, custodial costs and administrative fees (herein "Covered Costs") together with its investment advisory fees. Including these fees into a single asset-based fee is considered a "Wrap Fee Program". The Advisor customizes its investment management services for its Clients. The Advisor sponsors the Minot Wealth Wrap Fee Program solely as a supplemental disclosure regarding the combination of fees. Depending on the level of trading required for the Client's account[s] in a particular year, the Client may pay more or less in total fees than if the Client paid its own transaction fees. Please see Appendix 1 – Wrap Fee Program Brochure, which is always included as a supplement to this Disclosure Brochure.

E. Assets Under Management

As of December 31, 2020, Minot Wealth manages \$815,578,301 in Client assets, \$810,838,511 of which are managed on a discretionary basis and \$4,739,790 on a non-discretionary basis. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client shall sign one or more agreements that detail the responsibilities of Minot Wealth and the Client.

A. Fees for Advisory Services

Wealth management fees are paid quarterly, in advance of each calendar quarter, pursuant to the terms of the wealth management agreement. Investment advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. Investment advisory fees are based on the following schedule:

Assets Under Management (\$)	Annual Rate (%)
\$0 to \$5,000,000	1.00%
\$5,000,001 to \$10,000,000	0.75%
\$10,000,001 to \$25,000,000	0.65%
\$25,000,001 to \$50,000,000	0.50%
\$50,000,001 and Over	0.40%

* Certain legacy Clients may have fees schedules that differ from the above.

Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. Minot Wealth relies on its Custodian to independently value securities. Minot Wealth will conduct periodic spot checks on the Custodian's valuation procedures to ensure fee billing is accurate.

The wealth management fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Additionally, if a Client transfers or opens a new account, fees are prorated from the inception date of the account[s] to the end of the respective quarter.

Clients may make additions to and withdrawals from their account[s] at any time, subject to Minot Wealth's right to terminate an account. Additions may be in cash or securities provided that Minot Wealth reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client's account[s]. Clients may withdraw account assets on notice to Minot Wealth, subject to the usual and customary securities settlement procedures. However, Minot Wealth designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a Client's investment objectives. Minot Wealth may consult with its Clients about

Minot Wealth Management LLC

690 Canton Street, Suite 245, Westwood, MA 02090
Phone: (978) 226-4668 | <http://minotwealth.com>

the options and ramifications of transferring securities. However, Clients are advised that when transferred securities are liquidated, they are subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications.

The Advisor will perform reconciliations on a quarterly basis to capture if, in any given day, assets in excess of \$10,000 are deposited into or withdrawn from an Account after the start of the quarter. An adjustment will be made in the form of a credit or debit the following quarter to reflect the interim change in portfolio value from the date of the deposit or withdrawal until the end of the quarter.

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio utilizing one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. The Advisor will only earn its investment advisory fee as described above. The Advisor will allocate a portion of the advisory fee collected to the Independent Manager pursuant to the terms of the executed agreement between the Advisor and the Independent Manager, or the Independent Managers will not typically offer any fee discounts, but may have a breakpoint schedule which will reduce the fee with an increased level of assets placed under management with an Independent Manager. The terms of such fee arrangements are included in the Independent Manager's disclosure brochure and applicable contract[s] with the Independent Manager. The total blended fee, including the Advisor's fee and the Independent Manager's fee will not exceed 2.00% annually.

B. Fee Billing

Wealth management fees will be calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the respective quarter-end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with Minot Wealth at the end of the prior quarter. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting advisory fees to be deducted by Minot Wealth to be paid directly from their accounts held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

For Client account[s] implemented through an Independent Manager, the Client's overall fees may include Minot Wealth's investment advisory fee (as noted above) plus advisory fees and/or platform fees charged by the Independent Manager[s], as applicable. The Independent Manager may assume responsibility for calculating the Client's fees and deduct all fees from the Client's account[s]. In such instances, Minot Wealth will not charge its fee separately on those assets.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. Minot Wealth includes Covered Costs as part of its overall investment advisory fee through the Minot Wealth Wrap Fee Program. The Advisor's recommended custodian does not charge securities transaction fees for ETF and equity trades in Client accounts, but does charge for mutual funds and other types of investments. Securities transaction fees for Client-directed trades may be charged back to the Client. Please see Item 4.D. above as well as Appendix 1 – Wrap Fee Program Brochure. The Client may also incur other costs assessed by the Custodian or other parties for account related activity fees, such as wire transfer fees, fees for trades executed away from the Custodian (if applicable) and other fees.

In addition, all fees paid to Minot Wealth for wealth management services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of Minot Wealth, but would not receive the services provided by Minot Wealth which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial

situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Minot Wealth to fully understand the total fees to be paid.

D. Advance Payment of Fees and Termination

Minot Wealth is compensated for its services in advance of the quarter, in which wealth management services are rendered. Either party may request to terminate the investment advisory agreement with Minot Wealth, at any time, by providing advance written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Advisor will refund any unearned, prepaid wealth management fees from the effective date of termination to the end of the quarter. The Client's wealth management agreement with the Advisor is non-transferable without the Client's prior consent.

In the event that the Advisor has determined that an Independent Manager is no longer in the Client's best or a Client should wish to terminate their relationship with the Independent Manager, the terms for termination will be set forth in the respective agreements between the Client and those third parties. Minot Wealth will assist the Client with the termination and transition as appropriate.

E. Compensation for Sales of Securities

Minot Wealth does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

Item 6 – Performance-Based Fees and Side-By-Side Management

Minot Wealth does not charge performance-based fees for its investment advisory services. The fees charged by Minot Wealth are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client.

Minot Wealth does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

Minot Wealth provides investment advisory services to high net worth individuals, families, trusts, estates and businesses. Minot Wealth does not impose a minimum account or relationship size; however, its services are typical designed to meet the needs of high net worth Clients.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Minot Wealth primarily employs fundamental and technical analysis methods in developing investment strategies for its Clients. Research and analysis from Minot Wealth is derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that Minot Wealth will be able to accurately predict such a reoccurrence.

As noted above, Minot Wealth generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. Minot Wealth will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, Minot Wealth may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Minot Wealth will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing a Client's accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with certain components of the Advisor's investment strategy:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

Equity Risks

The Advisor may take long positions in common stocks of U.S. and non-U.S. issuers traded on national securities exchanges and over-the-counter markets. The value of equity securities varies in response to many factors. These factors include, without limitation, factors specific to an issuer and factors specific to the industry in which the issuer participates. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments, and the stock prices of such companies may suffer a decline in response. In addition, equity securities are subject to market risk, which is the risk that stock prices historically rise and fall in periodic cycles. U.S. and non-U.S. stock markets have experienced periods of substantial price volatility in the past and may do so again in the future. In addition, investments in small-capitalization, mid-capitalization and financially distressed companies may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity, and these issuers often face greater business risks.

Fixed Income Risks

Fixed income is subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4)

Minot Wealth Management LLC

690 Canton Street, Suite 245, Westwood, MA 02090
Phone: (978) 226-4668 | <http://minotwealth.com>

credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Mutual Fund Risks

The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Uncovered Options Contracts

Special risks are involved with uncovered options writing that may expose the Client to potential losses. This type of strategy may not be suitable for all Clients that have been approved for options trading. Losses that may occur could be significant and must be understood before employing this strategy. Uncovered put writing is limited to the price of the security dropping to zero. The Client should be aware of such potential loss. Uncovered call writing has unlimited loss potential. This strategy is extremely risky and the extent of possible losses should be understood by the Client.

The use of uncovered option writing should be limited to those Clients that are suitable to this investment. To employ this strategy, the Client must have substantial financial capability in which to withstand significant loss. Market movements may require the Client to meet margin calls which would require more funds or securities in the account to meet the margin requirements. Absent the deposit of funds or securities, the Clients assets in the account may be liquidated to meet the margin requirements. In addition, this type of option writing should be consistent with the Client's objectives.

Option writers are subject to liquidity in the market where open contracts may not be closed as directed, which would subject the Client to a possible assignment. If assigned, the Client may have to fulfill the terms of the contract by either purchasing a security or delivering the underlying security. The Client should be aware that regardless of the liquidity of the market, he/she is always subject to a possible assignment that may occur at a disadvantaged market condition that may result in substantial losses.

Margin Borrowings

The use of short-term margin borrowings may result in certain additional risks to a Client. For example, if securities pledged to brokers to secure a Client's margin accounts decline in value, the Client could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value.

Alternative Investments

Minot Wealth Management LLC

690 Canton Street, Suite 245, Westwood, MA 02090
Phone: (978) 226-4668 | <http://minotwealth.com>

The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. **Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.**

Item 9 – Disciplinary Information

Minot Wealth values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. Neither Minot Wealth nor its advisory personnel are involved in other business endeavors. Minot Wealth does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts.

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio with one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. In such arrangements, the Independent Manager or the Advisor may assume responsibility for calculating the Client's fees and deduct all fees from the Client's account[s].

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Minot Wealth has implemented a Code of Ethics that defines the Advisor's fiduciary commitment to each Client. This Code of Ethics applies to all persons associated with Minot Wealth ("Supervised Persons"). The Code of Ethics was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to the Client. Minot Wealth and its personnel owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of Minot Wealth Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code of Ethics covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code of Ethics, please contact the Advisor at (978) 226-4668.

B. Personal Trading with Material Interest

Minot Wealth allows Supervised Persons to purchase or sale of the same securities that may be recommended to and purchased on behalf of Clients. Minot Wealth does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. Minot Wealth does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

Minot Wealth allows Supervised Persons purchase or sale of the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities are recommended (purchase or sell) to Client presents a potential conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor has adopted a Code of Ethics, which addresses insider trading (material non-public information controls) and personal securities reporting procedures. When trading for personal accounts, Supervised Persons of Minot Wealth have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by Minot Wealth requiring reporting of personal securities trades by its employees for review by the Chief Compliance Officer ("CCO"). The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While Minot Wealth allows Supervised Persons to purchase or sell of the same securities that may be recommended to and purchased on behalf of Clients, the Advisor has implemented the following policy to ensure trades are not done to the detriment of any Client.

Supervised Persons are not permitted to trade the same equity security on the same day as Clients. Should an Access Person accidentally trade on the same day in the same security as Clients, the Advisor will correct the trade so the Client receives the same or better price. In terms of options, Supervised Persons are not permitted to trade in options at the same expiration and/or strike price as Clients. Should a Client direct the Advisor to trade with the same expiration date and strike price, the Advisor will require that Access Persons adjust the expiration and/or strike price.

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

Minot Wealth does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize Minot Wealth to direct trades to this Custodian as agreed in the investment advisory agreement. Further, Minot Wealth does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where Minot Wealth does not exercise discretion over the selection of the Custodian, it may recommend the Custodian to Clients for custody and execution services. Minot Wealth may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and its overall reputation. Clients are not obligated to use the recommended Custodian recommended by the Advisor and will not incur any extra fee or cost associated with using a custodian not recommended by Minot Wealth. However, if the recommended Custodian is not engaged, Minot Wealth may be limited in the services it can provide comparable to other clients.

Minot Wealth will generally recommend that Clients establish their account[s] at Charles Schwab & Co., Inc. ("Schwab") or Fidelity Clearing & Custody Solutions and other divisions of Fidelity Investments, Inc. ("Fidelity"). Schwab and Fidelity (the "Custodians") are FINRA-registered broker-dealers, custodians and members of SIPC and may serve as the Client's "qualified custodian". Minot Wealth maintains an institutional relationship with the Custodians, whereby the Advisor receives economic benefits from these Custodians. Please see Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars – Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with a broker-dealer/custodian in exchange for research and other services. **Minot Wealth does not participate in soft dollar programs sponsored or offered by any broker-dealer. However, the Advisor does receive certain economic benefits from the Custodians. Please see Item 14 below.**

2. Brokerage Referrals – Minot Wealth does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.

3. Directed Brokerage – All Clients are serviced on a “directed brokerage basis”, where Minot Wealth will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor’s own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client’s account[s]). In selecting the Custodian, Minot Wealth will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian. Therefore, a directed brokerage arrangement may cost more for Clients than if the Advisor had discretion to select the broker-dealer for trade execution.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker. Minot Wealth will execute its transactions through the Custodian as authorized by the Client.

Minot Wealth does not typically aggregate orders in a block trade. However, if a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular Clients’ accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Principals of Minot Wealth and periodically by the CCO. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client’s request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client’s financial situation, and/or large deposits or withdrawals in the Client’s account[s]. The Client is encouraged to notify Minot Wealth if changes occur in the Client’s personal financial situation that might adversely affect the Client’s investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian’s website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client’s account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by Minot Wealth

Participation in Institutional Advisor Platform (Schwab)

Minot Wealth has established an institutional relationship with Schwab through its “Schwab Advisor Services” unit, a division of Schwab dedicated to serving independent advisory firms like Minot Wealth. As a registered investment advisor participating on the Schwab Advisor Services platform, Minot Wealth receives access to software and related support without cost because the Advisor renders investment management services to

Minot Wealth Management LLC

Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client's funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients, but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services and financial support to Minot Wealth that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Additionally, Schwab has agreed to pay for certain services rendered by third parties for which the Advisor would otherwise have to pay. This amount is covered once the value of Client assets in accounts at Schwab reaches a certain size. Clients do not pay more for assets maintained at Schwab as a result of these arrangements. However, the Advisor does benefit from the arrangement because the cost of these services would otherwise be borne directly by the Advisor. Access to these services and financial support creates a financial incentive for the Advisor to recommend Schwab, which results in a conflict of interest. The Advisor believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients. Clients should consider these conflicts of interest when selecting a custodian.

Participation in Institutional Advisor Platform (Fidelity)

Minot Wealth has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s]. Access to the Fidelity platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

B. Client Referrals from Solicitors

Minot Wealth may engage and compensate an unaffiliated third-party (a "solicitor") for Client referrals in accordance with the requirements of Rule 206(4)-3 of the Investment Advisers Act of 1940. Clients will not pay a higher fee to Minot Wealth as a result of such payments to a solicitor. The Advisor shall enter into an agreement with the solicitor, which requires that full disclosure of the compensation and other conflicts is provided to the prospective client prior to or at the time of entering into the advisory agreement.

Item 15 – Custody

Minot Wealth does not accept or maintain custody of any Client accounts, except for the authorized deduction of the advisor's fee. All Clients must place their assets with a "qualified custodian". Clients are required to select their own Custodian to retain their funds and securities and direct Minot Wealth to utilize that Custodian for the Client's security transactions. Minot Wealth encourages Clients to review statements provided by the account

Custodian. For more information about Custodians and brokerage practices, see “Item 12 – Brokerage Practices”.

If the Client gives the Advisor authority to move money from one account to another account, the Advisor may have custody of those assets. In order to avoid additional regulatory requirements, the Custodian and the Advisor have adopted safeguards to ensure that the money movements are completed in accordance with the Client’s instructions.

Item 16 – Investment Discretion

Minot Wealth generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by Minot Wealth. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client’s execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by Minot Wealth will be in accordance with each Client’s investment objectives and goals.

Item 17 – Voting Client Securities

Minot Wealth does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither Minot Wealth, nor its management, have any adverse financial situations that would reasonably impair the ability of Minot Wealth to meet all obligations to its Clients. Neither Minot Wealth, nor any of its Advisory Persons, has been subject to a bankruptcy or financial compromise. Minot Wealth is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$1,200 or more for services to be performed six months or more in advance.

Item 4 – Services Fees and Compensation

A. Services

Minot Wealth provides customized investment advisory services for its Clients. This Wrap Fee Program Brochure is provided as a supplement to the Minot Wealth Disclosure Brochure (Form ADV 2A). This Wrap Fee Program Brochure is provided along with the complete Disclosure Brochure to provide full details of the business practices and fees when selecting Minot Wealth as your investment advisor.

As part of the investment advisory fees noted in Item 5 of the Disclosure Brochure, Minot Wealth includes in addition to securities transaction fees for certain mutual funds, the use of independent managers and custodial costs (herein “Covered Costs”) as part of the overall investment advisory fee. Securities regulations often refer to this combined fee structure as a “Wrap Fee Program”. The Advisor's recommended Custodian does not charge securities transaction fees for ETF and equity trades in Client accounts, but typically charges for mutual funds and other types of investments. The Advisor sponsors the Minot Wealth Wrap Fee Program.

The sole purpose of this Wrap Fee Program Brochure is to provide additional disclosure relating the combination of Covered Costs into a single “bundled” investment advisory fee. This Wrap Fee Program Brochure references back to the Minot Wealth Disclosure Brochure in which this Wrap Fee Program Brochure serves as an Appendix. **Please see Item 4 – Advisory Services of the Disclosure Brochure for details on Minot Wealth's investment philosophy and related services.**

B. Program Costs

Advisory services provided by Minot Wealth are offered in a wrap fee structure whereby Covered Costs are included in the overall investment advisory fee paid to Minot Wealth. As the level of activity in a Client's account[s] may vary from year to year, the annual cost to the Client may be more or less than engaging for advisory services where the Covered Costs are borne separately by the Client. The cost of the Wrap Fee Program varies depending on services to be provided to each Client, however, the Client is not charged more if there is higher trading activity or other Covered Costs. A Wrap Fee structure presents a conflict of interest as the Advisor is incentivized to limit the number of trades placed in the Client's account[s] or to utilize securities that do not have transaction fees. As noted above, the Advisor's recommended Custodian does not charge securities transaction fees for ETF and equity trades in Client accounts, but typically charges for mutual funds and other types of investments. As such, the Advisor is incentivized to utilize ETFs and other equity securities to limit the overall cost to the Advisor. The Advisor. **Please see Item 5 – Fees and Compensation of the Disclosure Brochure for complete details on fees.**

C. Fees

Investment advisory fees are paid quarterly, in advance of each calendar quarter, pursuant to the terms of the investment advisory agreement. Investment advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. Investment advisory fees are based on the following schedule:

Assets Under Management (\$)	Annual Rate (%)
\$0 to \$5,000,000	1.00%
\$5,000,001 to \$10,000,000	0.75%
\$10,000,001 to \$25,000,000	0.65%
\$25,000,001 to \$50,000,000	0.50%
\$50,000,001 and Over	0.40%

* Certain legacy Clients may have fees schedules that differ from the above.

Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. Minot Wealth relies on its Custodian to independently value securities. Minot Wealth will conduct periodic spot checks on the Custodian's valuation procedures to ensure fee billing is accurate.

Minot Wealth Management LLC

690 Canton Street, Suite 245, Westwood, MA 02090
Phone: (978) 226-4668 | <http://minotwealth.com>

The wealth management fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Additionally, if a Client transfers or opens a new account, fees are prorated from the inception date of the account[s] to the end of the respective quarter.

Clients may make additions to and withdrawals from their account[s] at any time, subject to Minot Wealth's right to terminate an account. Additions may be in cash or securities provided that Minot Wealth reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client's account[s]. Clients may withdraw account assets on notice to Minot Wealth, subject to the usual and customary securities settlement procedures. However, Minot Wealth designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a Client's investment objectives. Minot Wealth may consult with its Clients about the options and ramifications of transferring securities. However, Clients are advised that when transferred securities are liquidated, they are subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications.

The Advisor will perform reconciliations on a quarterly basis to capture if, in any given day, assets in excess of \$10,000 are deposited into or withdrawn from an Account after the start of the quarter. An adjustment will be made in the form of a credit or debit the following quarter to reflect the interim change in portfolio value from the date of the deposit or withdrawal until the end of the quarter.

For Client account[s] implemented through an Independent Manager, the Client's overall fees may include Minot Wealth's investment advisory fee (as noted above) plus advisory fees and/or platform fees charged by the Independent Manager[s], as applicable. The Independent Manager may assume responsibility for calculating the Client's fees and deduct all fees from the Client's account[s]. In such instances, Minot Wealth will not charge its fee separately on those assets.

As noted above, the Wrap Fee Program includes Covered Costs incurred in connection with the discretionary investment management services provided by Minot Wealth. Securities transaction fees for Client-directed trades may be charged back to the Client.

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. Under this Wrap Fee Program, Minot Wealth includes securities transactions costs as part of its overall investment advisory fee.

Clients will incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. In addition, all fees paid to Minot Wealth for investment advisory services or part of the Wrap Fee Program are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. Additionally, account activity fees, such as electronic funds and wire transfers fees, certificate delivery fees, markups and markdowns, bid-ask spreads, selling concessions, and other miscellaneous fees and expenses as outlined in the account opening paperwork executed with the Custodian, are generally charged to the Client. Clients are encouraged to refer to the account opening paperwork executed with the Custodian for an outline of all third party fees covered under this Wrap Fee Program. The Advisor does not control nor share in these third party fees. The Client should review all fees charged by the fund[s], third parties and the fees charged by Minot Wealth to fully understand the total fees to be paid. Please see Item 5.C. – Other Fees and Expenses in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

D. Compensation

Minot Wealth is the sponsor and portfolio manager of this Wrap Fee Program. Minot Wealth receives investment advisory fees paid by Clients for participating in the Wrap Fee Program and pays the Covered Costs associated with the management of the Client's account[s].

Item 5 – Account Requirements and Types of Clients

Minot Wealth provides investment advisory services to high net worth individuals, families, trusts, estates and businesses. Minot Wealth does not impose a minimum account or relationship size; however, its services are typically designed to meet the needs of high net worth Clients. Please see Item 7 – Types of Clients in the Disclosure Brochure for additional information.

Item 6 – Portfolio Manager Selection and Evaluation

Portfolio Manager Selection

Minot Wealth serves as sponsor and as portfolio manager for the services under this Wrap Fee Program. The Advisor also serves as the sponsor in conjunction with Independent Managers for the Wrap Fee Program.

The Advisor will assist in the development of the initial policy recommendations and managing the ongoing Client relationship. The Advisor will also perform initial and ongoing oversight and due diligence over the selected Independent Managers to ensure the Independent Managers' strategies and target allocations remain aligned with its Clients' investment objectives and overall best interests.

Methods of Analysis

Please see Item 8 of the Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on the research and analysis methods employed by the Advisor.

Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Minot Wealth will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account[s]. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor. Please see Item 8.B. – Risk of Loss in the Disclosure Brochure for details on investment risks.

Item 9 – Additional Information

A. Disciplinary Information and Other Financial Industry Activities and Affiliations

Minot Wealth values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. Minot Wealth does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts.

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio with one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. In such arrangements, the Independent Manager or the Advisor may assume responsibility for calculating the Client's fees and deduct all fees from the Client's account[s].

B. Code of Ethics, Review of Accounts, Client Referrals, and Financial Information

Minot Wealth has implemented a Code of Ethics that defines the Advisor's fiduciary commitment to each Client. This Code of Ethics applies to all persons subject to Minot Wealth's compliance program ("Supervised Persons"). While Minot Wealth allows Supervised Persons to purchase or sell of the same securities that may

be recommended to and purchased on behalf of Clients, the Advisor has implemented the following policy to ensure trades are not done to the detriment of any Client.

Supervised Persons are not permitted to trade the same equity security on the same day as Clients. Should an Access Person accidentally trade on the same day in the same security as Clients, the Advisor will correct the trade so the Client receives the same or better price. In terms of options, Supervised Persons are not permitted to trade in options at the same expiration and/or strike price as Clients. Should a Client direct the Advisor to trade with the same expiration date and strike price, the Advisor will require that Access Persons adjust the expiration and/or strike price.

Complete details on the Minot Wealth Code of Ethics can be found under Item 11 – Code of Ethics, Participation in Client Transactions and Personal Trading in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

Review of Accounts

Securities in Client accounts are monitored on a regular and continuous basis by Advisory Persons of Minot Wealth under the supervision of the Chief Compliance Officer (“CCO”). Details of the review policies and practices are provided in Item 13 of the Form ADV Part 2A – Disclosure Brochure.

Other Compensation

Participation in Institutional Advisor Platform (Schwab) – Minot Wealth has established an institutional relationship with Schwab through its “Schwab Advisor Services” unit, a division of Schwab dedicated to serving independent advisory firms like Minot Wealth. As a registered investment advisor participating on the Schwab Advisor Services platform, Minot Wealth receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client's funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients, but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services and financial support to Minot Wealth that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Additionally, Schwab has agreed to pay for certain services rendered by third parties for which the Advisor would otherwise have to pay. This amount is covered once the value of Client assets in accounts at Schwab reaches a certain size. Clients do not pay more for assets maintained at Schwab as a result of these arrangements. However, the Advisor does benefit from the arrangement because the cost of these services would otherwise be borne directly by the Advisor. Access to these services and financial support creates a financial incentive for the Advisor to recommend Schwab, which results in a conflict of interest. The Advisor believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients. Clients should consider these conflicts of interest when selecting a custodian.

In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first.
