***Part 2A Appendix 1 of Form ADV:
Envestnet Managed Account Wrap Fee Program
Brochure***

March 30, 2022

This wrap fee program brochure provides information about the qualifications and business practices of Kalos Management, Inc. If you have any questions about the contents of this brochure, please contact us at 678.356.1100. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Kalos Management, Inc. is a registered investment adviser. Registration of an investment adviser does not imply any level of skill or training. The oral and written communications of an adviser provide you with information about which you determine to hire or retain an adviser.

Additional information about Kalos Management, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov

Material Changes

Kalos Management, Inc.’s (“Kalos Management, we, us, our, ours”) last annual amendment was filed on March 30, 2021. Since that date, we made the following material changes to this brochure:

- Carol Wildermuth was named Chief Compliance Officer.

We send a summary of any material changes to our brochures to our clients (“you, your, yours”) by April 29th of each year. Any summaries of changes include the date of our last annual update of our brochure.

If you would like a copy of our most current wrap program brochure or a brochure covering any of our other services

described under “Other Advisory Business”, you may request one by contacting Carol Wildermuth, Chief Compliance Officer at 678.356.1100 or cwildermuth@kalosfinancial.com. We will provide you with a new brochure at any time without charge.

Additional information about us is available via the SEC’s website: www.adviserinfo.sec.gov. This website also provides information about any persons affiliated with Kalos Management who are registered as investment adviser representatives (“your Financial Professional” or “advisory representative”) of Kalos Management. Information on your advisory representative can be found in our brochure supplements.

Services, Fees and Compensation

Advisory Services

We offer investment advisory services to you directly and through the referrals of third parties. We either consult with you directly or through these third parties to obtain detailed financial information and other pertinent data. In providing investment advice to you and all of our clients, we consider:

- your financial situation,
- risk tolerance,
- investment horizon,
- liquidity needs,
- tax considerations,
- financial goals,
- income (current and potential),
- portfolio size,
- net worth,
- investment objectives, and
- any other issues important to your state of affairs.

Certain of our Financial Professionals directly manage client portfolios. Assets are allocated within a mix of securities that include:

- equities,
- bonds,
- mutual funds,
- exchange traded funds,
- interval funds, and
- direct participation programs (“DPP”s).

Securities and sector allocations are selected with the aid of fundamental

analysis and the review of independent research, news sources and rating services. Assets are typically managed to an allocation model.

You should notify us promptly if there are any changes in your financial situation or investment objectives. You should also notify us if you wish to impose any reasonable restrictions upon the management of your account.

Envestnet Managed Account Wrap Fee Program

Envestnet, Inc. (“Envestnet”) maintains a managed account platform that allows us to develop a customized wrap fee program by utilizing Model Portfolio Advisers or mutual funds and ETFs made available on TD Ameritrade Institutional’s custodial platform. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. (together “TD Ameritrade”), member FINRA/SIPC/NFA. TD Ameritrade is an independent SEC-registered broker-dealer.

Envestnet will act as overlay portfolio manager to our clients whose Financial Professionals select from such Model Portfolio Advisers, funds, or Allocation Models to construct their own Unified Manage Accounts. The overlay portfolio manager uses software to track your combined position from the separate accounts. Portfolio adjustments will be analyzed by the overlay system, which helps to ensure the overall portfolio will remain in balance and prevent any inefficient transactions, such as wash

sales, from occurring.

Your Financial Professional provides you with various advisory services including:

- selecting or advising you in selecting investment options,
- selecting the target allocations to each investment option,
- developing investment objectives for the designated account, and
- coordinating with Envestnet to facilitate the operation of accounts in the Program.

Kalos Management as the Model Portfolio Adviser

Daniel Wildermuth acts as the model portfolio adviser for these strategies.

Dividend, Total Growth, and Mid & Small Cap Strategies

The Dividend, Total Growth, and Mid & Small Company Strategies invest in the stocks of companies believed to offer strong performance potential based upon fundamental analysis of the individual companies. Portfolios are diversified across various sectors although management may choose to concentrate portfolios in particular sectors according to perceived opportunities.

Developed Markets Country Specific and Emerging Markets Country Specific Strategies

These two strategies provide investors with exposure to developed and emerging markets by investing primarily in country specific international exchange

traded funds that we believe offer attractive total return possibilities. While the majority of positions will invest in country specific exchange traded funds, we may include regionally focused exchange traded funds for reasons including lack of a country exchange traded funds, desire for broader coverage, lack of attractive alternatives, or other reasons that may be relevant.

U.S. Markets ETF Strategy

This strategy targets diversified exposure to various sectors of the U.S. equity markets through investments in exchange traded funds. If appropriate or attractive exchange traded funds are unavailable, mutual funds may be used as substitutes. Allocations secure a core U.S. equity market exposure and then seek to add additional sectors and equity market exposures to enhance investor returns for a given level of risk.

U.S. Fixed Income Strategy

The Fixed Income Strategy seeks to provide investors with exposure to a diversified fixed income portfolio through investments diversified across term, quality, sector, geography, government and corporate holdings, and, for international strategies, country. Credit quality of most or all holdings will be investment grade, but high-yield exposure may be included in limited amounts. Duration and maturities will generally focus on mid-term holdings, but shorter or longer term positions may also be held and possibly emphasized

depending on various economic and market conditions.

Equity Commodity Strategy

The Equity Commodity Strategy invests in the equities of firms operating in the natural resource and commodities markets as a means to gain exposure to commodities, as well as firms operating in these sectors. Other types of securities in these sectors may be used as appropriate. This strategy is not diversified across other sectors or asset classes, but may be used to further diversify existing or newly established portfolios.

Unaffiliated Model Portfolio Advisers

We may select or help you select Model Portfolio Advisers (“MPA”) who are not affiliated with Kalos Management. Information concerning their advisory services and fees is contained in each Adviser’s Firm Brochure which will be provided to you prior to any investment activity.

Fees and Compensation

We accept new clients on a fee-only basis. Our fee is calculated based upon the market value of the assets in your account on the last day of the previous quarter.

Broker-dealers and other financial institutions that hold client accounts are referred to as custodians. Your custodian determines the values of the

assets in your portfolio. Fees for the initial quarter are based on the value of your cash and securities on the date the custodian receives them and are prorated based upon the number of calendar days in the calendar quarter that our agreement is in effect.

You must authorize Envestnet in writing to have the custodian/broker-dealer pay Program fees directly by charging your account. One-fourth of the annual fee is charged each calendar quarter. Your custodian/ broker-dealer will provide you with statements that show the amount paid directly to us. You should review and verify the calculation of our fees. Your custodian/broker-dealer does not verify the accuracy of fee calculations.

Typically, you must pay Program fees in advance of receiving our services. Should you terminate the advisory agreement we have entered into within five (5) business days from the date the agreement is executed, you will receive a full refund of any fees paid.

Should either one of us terminate the advisory agreement we have entered into before the end of a billing period, any unearned fees that were deducted from your account will be returned to you by us. The amount refunded to you is calculated by dividing the most recent advisory fee you paid by the total number of days in the quarter. This daily fee is then multiplied by the number of calendar days in the quarter that our agreement was in effect. This amount,

which equals the amount we earned for the partial quarter, is subtracted from the total fee you paid in advance to determine your refund.

Wrap pricing structures allow you to pay an all-inclusive fee for management, brokerage, clearance, custody and administrative services. This includes the fee paid to your Financial Professional. We may charge accounts that do not meet minimum asset thresholds a nominal fee on a quarterly basis.

You should note that the same (or similar) services as those described above may be available from other sources at a lower cost to you. Depending upon the level of the wrap fee charges, the amount of portfolio activity in your account, the value of services that are provided, and other factors, a wrap fee can exceed the aggregate cost of services if they were to be provided separately. Generally, wrap programs are relatively less expensive for actively traded accounts. However, a non-wrapped pricing arrangement can be more cost effective for accounts that do not experience frequent trading activity.

Our wrap fee schedules are as follows:

Wrap Fee Schedule Stock Strategies

	MPA ¹ Fee	Overlay Manager Fee	Maximum Total Fee
Minimum - \$99,999	0.48%	0.19%	2.95%
\$100,000 - \$249,999	0.48%	0.19%	2.65%
\$250,000 - \$499,999	0.48%	0.19%	2.40%
\$500,000 - \$999,999	0.48%	0.19%	2.20%
\$1,000,000 - \$1,999,999	0.48%	0.19%	2.05%
\$2,000,000 - \$4,999,999	0.48%	0.19%	1.90%
Above \$5,000,000	0.48%	0.19%	1.75%

Wrap Fee Schedule US ETF Strategies

	MPA ¹ Fee	Overlay Manager Fee	Maximum Total Fee
Minimum - \$99,999	0.38%	0.09%	2.15%
\$100,000 - \$249,999	0.38%	0.09%	2.10%
\$250,000 - \$499,999	0.38%	0.09%	2.05%
\$500,000 - \$999,999	0.38%	0.09%	1.95%
\$1,000,000 - \$1,999,999	0.38%	0.09%	1.85%
\$2,000,000 - \$4,999,999	0.38%	0.09%	1.80%
Above \$5,000,000	0.38%	0.09%	1.75%

Wrap Fee Schedule International ETF Strategies

	MPA ¹ Fee	Overlay Manager Fee	Maximum Total Fee
Minimum - \$99,999	0.53%	0.09%	2.95%
\$100,000 - \$249,999	0.53%	0.19%	2.65%
\$250,000 - \$499,999	0.53%	0.19%	2.40%
\$500,000 - \$999,999	0.53%	0.19%	2.20%
\$1,000,000 - \$1,999,999	0.53%	0.19%	2.05%
\$2,000,000 - \$4,999,999	0.53%	0.19%	1.90%
Above \$5,000,000	0.53%	0.19%	1.75%

¹Unaffiliated Model Portfolio Adviser ("MPA") fees range between 25 - 75 basis points. Fees are negotiable at the sole discretion of Kalos Management.

The fee that you pay for a wrap fee account includes payment of all brokerage commissions and other trading costs of transactions effected through TD Ameritrade. However, the fee does not include mark-ups, markdowns, or payment of brokerage commissions from transactions made by a broker-dealer other than TD

Ameritrade. Such brokerage commissions, mark-ups or markdowns, and other costs would be charged to you in addition to the wrap fee. Where applicable, you are required to pay other charges such as:

- custodial fees,
- SEC fees,
- internal fees and expenses charged by mutual funds or exchange traded funds (“ETFs”), and
- other fees and taxes on brokerage accounts and securities transactions.

Mutual fund companies, ETFs, and variable annuity issuers charge internal fees and expenses for their products. These fees and expenses are in addition to any advisory fees charged by us. Complete details of these internal fees and expenses are explained in the prospectuses for each investment. You are strongly encouraged to read these explanations before investing any money. You may ask us any questions you have about fees and expenses.

If you purchase mutual funds through the custodian/broker-dealer, you may pay a transaction fee that would not be charged if the transactions were made directly through the mutual fund company. Also, mutual funds held in accounts at brokerage firms may pay internal fees that are different from funds held at the mutual fund company.

While you may purchase shares of mutual funds directly from the mutual fund company without a transaction fee,

those investments would not be part of our advisory relationship with you. This means that they would not be included in our investment strategies, investment performance monitoring, or portfolio reallocations.

Your Financial Professional may recommend our wrap program to you and, as a result of your participation in this program, will receive a portion of the fee charged by us. These payments are made as long as you participate in the program and can be greater than other forms of compensation had you paid separately for investment advice, brokerage and other services provided to you as part of a wrap fee program. As a result, your Financial Professional has a financial incentive to recommend this program over other programs or services that may be available to you.

In addition, unaffiliated MPA fees greater than Kalos Management MPA strategy fees may result in less compensation to your Financial Professional. This creates a conflict of interest because it incentivizes recommending a Kalos Management strategy over a more expensive strategy that could reduce overall compensation to the Financial Professional. However, all recommendations and investments are based upon your documented personal financial situation.

Account Requirements and Types of Clients

As a condition for starting and maintaining an advisory relationship, we generally require a minimum portfolio size of \$25,000. We, at our sole discretion, may accept clients with smaller portfolios based upon certain factors including:

- anticipated future earning capacity,
- anticipated future additional assets,
- account composition,
- related accounts, and
- pre-existing client relationships.

We provide advisory services primarily to individuals. We also provide services to high net worth individuals, pension and profit sharing plans, and charitable organizations.

Portfolio Manager Selection and Evaluation

A prospective Model Portfolio Adviser must complete a due diligence questionnaire, which covers the overview and history of the firm, key personnel, investment methodology, performance, legal and compliance, client reporting and fees, representative information, controls, website, portfolios information, investment management, brokerage, reporting, composites, and additional documentation including ADV Part 1, marketing materials, E&O insurance, etc. The questionnaire and documents are reviewed and presented to a committee who decides on approval or denial of the MPA on the wrap program platform. While there are no quantifiable criteria in place, removal of a MPA will be

performed by the due diligence committee on a case-by-case basis. The Kalos Management strategies are subject to the same review as unaffiliated MPAs.

The accuracy of Model Portfolio Adviser performance is not verified by us or any third-party. It is possible that the performance information may not be calculated on a uniform and consistent basis.

Selection of a Kalos Management-managed strategy increases the overall compensation earned by Kalos Management. In addition, unaffiliated MPA fees greater than Kalos Management MPA strategy fees may result in less compensation to your Financial Professional. This creates a conflict of interest because it incentivizes recommending a Kalos Management strategy over a more expensive strategy that could reduce overall compensation to the Financial Professional or Kalos Management. However, all recommendations and investments are based upon your documented personal financial situation. We also have policies and procedures in place that require investment decisions be made in your best interest.

Other Advisory Business

We provide the following services in addition to those described above under “Services, Fees and Compensation”. Please contact your Financial Professional if you are interested in receiving the disclosure brochures that

describe these services and their associated fees in greater detail.

Professional Investment Strategies

Kalos Management offers a variety of investment strategies to diversify your securities portfolios. Daniel Wildermuth acts as portfolio manager for these strategies. Trades for this program are placed through our affiliate, Kalos Capital, Inc. More detailed information about his portfolio management and the associated fees are provided in the wrap fee brochure. It is available upon request from your Financial Professional.

Affiliated Advisory Services

Certain of our other advisory representatives directly manage client portfolios on a wrapped or non-wrapped basis through various custodians. Assets are allocated within a mix of securities that include:

- equities,
- bonds,
- mutual funds,
- exchange traded funds,
- interval funds, and
- direct participation programs (“DPP”s).

Securities and sector allocations are selected with the aid of fundamental analysis and the review of independent research, news sources and rating services. Assets are typically managed to an allocation model. Detailed information about this program and the

relevant disclosure brochures are available upon request and will be provided to you prior to opening such an account.

Envestnet Private Wealth Management Wrap Programs

Certain of our Financial Professionals offer their clients discretionary investment management through wrap programs sponsored by Envestnet Asset Management, Inc. Detailed information about these programs can be found in Envestnet’s Wrap Fee Program Brochure, which is available upon request and will be provided you prior to opening such an account.

Unaffiliated Investment Advisers

We have entered into agreements with various unaffiliated investment advisers for the provision of certain investment advisory services. We will provide personal advisory services to you through assisting you in the selection of a particular adviser. Factors considered in helping you with this selection include:

- your Financial Professional’s preference for a particular unaffiliated investment adviser;
- your risk tolerance, goals and objectives, as well as investment experience; and,
- the amount of assets you have available for investment.

Detailed information about these programs can be found in the individual unaffiliated investment adviser’s

disclosure document, which is available upon request and will be provided to you prior to opening such an account.

Financial Planning

We can prepare and provide you with a written financial plan designed to help you achieve your financial goals and investment objectives. The preparation of such a plan will necessitate that you provide us with personal data such as:

- family records,
- budgeting,
- personal liability,
- estate information and
- additional financial goals.

The financial plan will include any or all of the following as requested or directed by you and agreed to by contract:

- asset protection,
- tax planning,
- business succession,
- strategies for exercising stock options,
- cash flow,
- education planning,
- estate planning and wealth transfer,
- charitable gifting,
- long-term care and disability planning,
- retirement planning,
- insurance planning, and
- risk management.

We do not provide accounting or legal advice. Should you choose to implement the recommendations contained in the plan, we suggest that you work closely

with your attorney, accountant, insurance agent, and stockbroker.

Performance-Based Fees

Performance-based fees are designed to give a portion of the returns of an investment to the investment adviser as a reward for positive performance. The fee is generally a percentage of the profits made on the investments. We do not charge performance-based fees on any of our client accounts.

Methods of Analysis, Investment Strategies and Risk of Loss

Individual securities are selected with the aid of fundamental analysis and the review of independent research, news sources and rating services. Fundamental analysis is a method of evaluating a company that has issued a security by attempting to measure the value of its underlying assets. It entails studying overall economic and industry conditions as well as the financial condition and the quality of the company's management. Earnings, expenses, assets, and liabilities are all important in determining the value of a company. The value is then compared to the current price of the issuing company's security to determine whether to purchase, sell or hold the security.

Our investment strategies may include long-term and short-term purchases and sales. You may place reasonable restrictions on the strategies to be employed in your portfolio and the types

of investments to be held in your portfolio.

All investments involve risks that can result in:

- loss of principal,
- a reduction in earnings (including interest, dividends and other distributions), and
- the loss of future earnings.

Additionally, these risks include:

- market risk,
- interest rate risk,
- issuer risk, and
- general economic risk.

There are also risks specific to value investing. Although these investments may appear undervalued at one time, their prices can still drop along with the market. On the other hand, it can be difficult to find enough undervalued securities in a rising market to fully diversify portfolios, because prices can still rise along with the market.

Although we manage your portfolio in a manner consistent with your risk tolerances, we cannot guarantee that our efforts will be successful. You should be prepared to bear the risk of loss.

Voting Client Securities

We have no right or obligation to make decisions or take other action with respect to proxies, tender offers, or other corporate actions regarding securities in any portfolio in this wrap program. The Overlay Manager (Envestnet) has this

right and responsibility unless reserved by a Client.

Investment Discretion

We offer our advisory services on a discretionary basis. This means that we do not need advance approval from you to determine the type and amount of securities to be bought and sold for your accounts. We also have the ability to choose the broker-dealer through which transactions will be executed and negotiate the commissions you pay. However, we do not have the ability to withdraw funds from your account (other than to withdraw our advisory fees which, may only be done with your prior written authorization.)

This discretion is used in a manner consistent with the stated investment objectives for your account, if you have given us written authorization to do so. We only exercise discretion in accounts where we have been authorized by you. This authorization is typically included in the investment advisory agreement you enter into with us.

We also offer our advisory services on a non-discretionary basis. This means that we need advance approval from you to determine the type and amount of securities to be bought and sold for your accounts.

Client Information Provided to Portfolio Managers

We work with you to identify your investment goals and objectives as well as risk tolerance in order to create an initial portfolio allocation designed to complement your financial situation and personal circumstances. We obtain this information from you initially, annually, and as you inform us of any changes, passing it on to the overlay manager as required.

Client Contact with Portfolio Managers

You have ready access to your Financial Professional who can schedule a meeting with your portfolio manager. Portfolio managers are not required to be available for unscheduled or unannounced visits or calls by clients.

Additional Information

Disciplinary Information

We have not been the subject of any legal or disciplinary events that would be material to your evaluation of our business or the integrity of our management.

Other Financial Industry Activities and Affiliations

Daniel Wildermuth and Carol Wildermuth are also principals and beneficial owners of:

- Kalos Financial, Inc.,
- Kalos Capital, Inc.,

- Asteria Wealth LLC,
- Wildermuth Advisory, LLC, and
- Wildermuth Securities, LLC.

Kalos Financial, Inc. is a state licensed insurance agency. The agency sells fixed annuities, life and health products.

Kalos Capital, Inc. is a general securities broker-dealer registered with the SEC, and FINRA, as well as, various state regulatory agencies. In this capacity, Kalos Capital, Inc. executes trades (as agent) for a commission in investment products on behalf of clients, who may or may not have an advisory fee agreement with Kalos Management, Inc.

Asteria Wealth LLC is a SEC registered investment advisory firm. Asteria Wealth LLC provides discretionary investment management through wrap programs sponsored by Envestnet Asset Management, Inc. and by Asteria Wealth LLC.

Wildermuth Advisory, LLC is a SEC registered investment advisory firm. Wildermuth Advisory, LLC serves as investment adviser to The Wildermuth Endowment Strategy Fund (WESFX).

Wildermuth Securities, LLC is broker-dealer registered with the SEC and FINRA, as well as, various state regulatory agencies. In this capacity Wildermuth Securities, LLC serves as the underwriter/sponsor of The Wildermuth Endowment Strategy Fund (WESFX).

Our advisory representatives are also licensed as registered representatives with Kalos Capital, Inc. They may also be licensed as insurance agents with various insurance companies. These arrangements present a conflict of interest because they create an incentive to make recommendations based upon the amount of compensation your Financial Professional can receive rather than based upon your needs. Selection of specific programs, products, or investments may also result in an increase in the total fees and commissions received by the related entities.

As previously noted, we will explain the specific costs associated with any recommended investments with you upon request. We also recommend no-load and load-waived mutual funds to further reduce conflicts of interest. You have the option to purchase investment and insurance products through other brokers or agents who are not affiliated with us.

Our Financial Professionals may also recommend on a nondiscretionary or discretionary basis that clients invest some or all of their assets under our management in the Wildermuth Endowment Strategy Fund, for which an affiliate serves as investment adviser. The internal investment management fees of this fund are paid to our affiliate, Wildermuth Advisory, LLC. Wildermuth Advisory, LLC and Kalos Management have common officers.

Consequently, we have a conflict of interest when we use our authority to recommend and invest client assets in the Wildermuth Endowment Strategy Fund because we receive an investment advisory fee at the advisory account level and our affiliate receives an investment advisory fee at the mutual fund level on the same assets. You are strongly encouraged to read the prospectus and discuss any questions or concerns you have about this arrangement with us. You are under absolutely no obligation to either consider or make an investment in the affiliated fund.

Code of Ethics; Participation or Interest in Client Transactions and Personal Trading

We have adopted a Code of Ethics (“Code”) to address the securities-related conduct of our advisory representatives and employees. The Code includes our policies and procedures developed to protect your interests in relation to the following:

- the duty at all times to place your interests ahead of ours;
- that all personal securities transactions of our advisory representatives and employees be conducted in a manner consistent with the Code and avoid any actual or potential conflict of interest, or any abuse of an advisory representative’s or employee’s position of trust and responsibility;
- that Financial Professionals may not take inappropriate advantage of their positions;
- that information concerning the

identity of your security holdings and financial circumstances are confidential; and

- that independence in the investment decision-making process is paramount.

We will provide a copy of the Code to you or any prospective client upon request.

We, and our affiliates, may buy or sell securities for our firms that we also recommend to clients. Your Financial Professional and our employees are also permitted to buy or sell the same securities for their personal and family accounts that are bought or sold for your account(s). The personal securities transactions by us, your Financial Professional, and our employees may raise potential conflicts of interest when they trade in a security that is:

- owned by you or
- considered for purchase or sale for you.

We have adopted policies and procedures that are intended to address these conflicts of interest. These policies and procedures:

- require our firm, advisory representatives and employees to act in your best interest,
- prohibit favoring one client over another, and
- provide for the review of transactions to discover and correct any same-day trades that result in Kalos Management, our

affiliates, an advisory representative or employee receiving a better price than a client.

Kalos Management, our affiliates, advisory representatives and employees must follow our procedures when purchasing or selling the same securities purchased or sold for you.

Review of Accounts

When Kalos acts as the MPA for your account, your portfolio positions are reviewed at least bi-weekly by the portfolio manager. Transactions are reviewed on a daily basis by a Kalos Compliance Manager. Further account reviews may be triggered by potential change including analyst reports, company news, fund management change and interest rate movement. If you select an unaffiliated MPA, information about the review of your account will be included in the disclosure information you receive about their firm.

You have 24/7 access to online account information that includes current positions, unrealized gains and losses, realized gains and losses, allocation information, transaction history, and other additional account data. You may also elect to receive your account statements quarterly in paper form for a nominal fee.

Your Financial Professional will periodically review reports provided by the unaffiliated investment advisers.

Your Financial Professional will contact you periodically to:

- review your financial situation and objectives,
- communicate information to the unaffiliated investment adviser managing the account as warranted, and
- to assist you in understanding and evaluating the services provided by the unaffiliated investment adviser.

You are expected to notify us of any changes in your financial situation, investment objectives, or account restrictions. You may also directly contact the unaffiliated investment adviser managing the account or sponsoring the program.

Client Referrals and Other Compensation

We have entered into written compensation agreements with certain unaffiliated investment adviser representatives and professionals such as CPAs, attorneys, etc. We pay these persons a percentage of the fee that you pay to us if it is determined you have become clients as a result of their direct or indirect efforts. These payments are a portion of the fee that we charge and do not result in an increase in the amount of the fee that you pay. Any solicitation or referral arrangements will comply with applicable laws that govern:

- the nature of the service,
- fees to be paid,
- disclosures to clients, and
- any necessary client consents.

We participate in the Institutional advisor program (the “Program”) offered by TD Ameritrade Institutional, a division of TD Ameritrade, Inc. (together “TD Ameritrade”), member FINRA/SIPC/NFA. Therefore, we recommend that the broker-dealer/custodian for your wrap account be TD Ameritrade. We are independently owned and operated and not affiliated with TD Ameritrade. Our use of TD Ameritrade is, however, a beneficial business arrangement for us. Information regarding the benefits of this relationship is described below.

In recommending TD Ameritrade as custodian and as the securities brokerage firm responsible for executing transactions for your portfolios, we consider at a minimum TD Ameritrade’s:

- relationship with us,
- financial strength,
- reputation,
- reporting capabilities,
- execution capabilities,
- pricing, and
- types and quality of research.

The determining factor in the selection of TD Ameritrade to execute transactions for your accounts is not the lowest possible transaction cost, but whether TD Ameritrade can provide what is in our view the best qualitative execution for your account.

TD Ameritrade provides us with access to its institutional trading and custody services, which includes:

- brokerage,

- custody,
- research, and
- access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

We are not required to place a minimum volume of transactions or maintain a minimum dollar amount of client assets to receive these services.

TD Ameritrade does not charge separately for holding our clients accounts, but may be compensated by you through other transaction-related fees associated with the securities transactions it executes for your accounts.

TD Ameritrade also makes available to us other products and services that benefit us but do not benefit you directly. Some of these products and services assist us in managing and administering our client accounts, such as software and other technology that:

- provide access to account data such as:
 - duplicate trade confirmations,
 - bundled duplicate account statements, and
 - access to an electronic communication network for client order entry and account information;
- facilitate trade execution, including:

- access to a trading desk serving advisory participants exclusively and
- access to block trading which provides the ability to combine securities transactions and then allocate the appropriate number of shares to each individual account;
- provide research, pricing information and other market data;
- facilitate payment of our fees from client accounts; and
- assist with back-office functions, record keeping and client reporting; and
- receipt of compliance publications.

TD Ameritrade also makes available to us other services intended to help us manage and further develop our business. These services may include:

- consulting,
- publications and conferences on practice management,
- information technology,
- business succession,
- regulatory compliance, and
- marketing.

TD Ameritrade may also make available or arrange for these types of services to be provided to us by independent third parties. TD Ameritrade may discount or waive the fees it would otherwise charge for some of the services it makes available to us. It may also pay all or a part of the fees of a third party providing

these services to us. Thus, we receive economic benefits as a result of our relationship with TD Ameritrade, because we do not have to produce or purchase the products and services listed above.

Because the amount of our compensation or the products or services we receive may vary depending on the custodian/broker-dealer we recommend to be used by our clients, we have a conflict of interest in making that recommendation. Our recommendation of specific custodian/broker-dealers may be based in part on the economic benefit to us and not solely on the nature, cost or quality of custody and brokerage services provided to you and our other clients. We nonetheless strive to act in your best interests at all times.

Commissions and other fees for transactions executed through the custodian/broker dealer may be higher than commissions and other fees

available if you use another custodian/broker-dealer firm to execute transactions and maintain custody of your account. We believe, however, that the overall level of services and support provided to our clients by TD Ameritrade outweighs the benefit of possibly lower transactions cost which may be available under other brokerage arrangements.

Many of the services described above are used to benefit all or a substantial number of our accounts, including accounts not maintained at through TD Ameritrade. We do not attempt to allocate these benefits to specific clients.

Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to you and we have not been the subject of a bankruptcy proceeding.
