FORM ADV PART 2 BROCHURE

This brochure provides information about the qualifications and business practices of Payant Wealth Management Group. If you have any questions about the contents of this brochure, contact us at 813-633-7333. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Payant Wealth Management Group is available on the SEC's website at www.adviserinfo.sec.gov.

Payant Wealth Management Group is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment dated March 31, 2021, we gave the following material changes to report:

IRA Rollover Recommendations

Effective December 20, 2021 (or such later date as the US Department of Labor ("DOL") Field Assistance Bulletin 2018-02 ceases to be in effect), for purposes of complying with the DOL's Prohibited Transaction Exemption 2020-02 ("PTE 2020-02") where applicable, we are providing the following acknowledgment to you. When we provide investment advice to you regarding your retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with your interests, so we operate under a special rule that requires us to act in your best interest and not put our interest ahead of yours. Under this special rule's provisions, we must:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put our financial interests ahead of yours when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in your best interest;
- Charge no more than is reasonable for our services; and
- Give you basic information about conflicts of interest.

We benefit financially from the rollover of your assets from a retirement account to an account that we manage or provide investment advice, because the assets increase our assets under management and, in turn, our advisory fees. As a fiduciary, we only recommend a rollover when we believe it is in your best interest.

Item 4 Advisory Business

Description of Services and Fees

We are a registered investment adviser based in Sun City Center, Florida. We are organized as a corporation under the laws of the State of Florida and we have been providing investment advisory services since 1998. Thomas Payant is our principal owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Financial Planning Services**
- **Wealth Management Platform - Advisor Managed Portfolios**

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm. We refer to Associated Persons who provide investment advice as Investment Adviser Representatives ("IARs") or Advisory Representatives throughout this Brochure. As used in this brochure, the words "we", "our" and "us" refer to Payant Wealth Management Group and our IARs. The words "you", "your" and "client" refer to you as either a client or prospective client of our firm.

Financial Planning Services

We offer broad-based, modular, and consultative financial planning services. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide to our firm, we will deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

We charge a fixed fee for financial planning services which generally ranges between \$750 - \$3,000. The fee is negotiable depending upon the complexity and scope of the plan, your financial situation, and your objectives. In the alternative we may charge an hourly fee for certain financial planning services at a rate of \$250 per hour which is negotiable depending on the scope and complexity of the plan, your financial situation, and your objectives. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you in advance and request that you approve the additional fee.

We require that you pay 50% of the fee in advance and the remaining portion upon the completion of the services rendered. We may, at our discretion, waive or offset the financial planning fees should you choose to implement the plan through any of our other services described below. The scope and complexity of the services provided will determine the waiver or offset of the fees.

When you receive financial planning services you may also purchase securities or insurance products offered through SagePoint pursuant to the plan or consultation. Members of our firm may receive commissions as Registered Representatives of SagePoint or insurance agents in connection with such transactions. Thus, we may have a conflict of interest when providing financial planning services to you as there may be an incentive for us to recommend specific courses of action through our financial planning services that may lead to members of our firm receiving additional compensation.

You are under no obligation to act on our financial planning recommendations and you are under no obligation to purchase products or services recommended by us or members of our firm in connection with our providing you with financial planning services, or any advisory service that we offer. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

You may terminate the financial planning agreement within five business days of the date of acceptance without penalty. After the five business day period, either party may terminate the agreement by providing 30 days written notice to the other party. You will incur a pro rata charge for services rendered prior to the termination of the agreement, based on the work performed and if you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

The Wealth Management Platform - Advisor Managed Portfolios program is offered through SagePoint Financial, Inc. ("SagePoint"). Individuals that are providing investment advice for our firm are also registered representatives of SagePoint.

WEALTH MANAGEMENT PLATFORM - ADVISOR MANAGED PORTFOLIOS

We offer the Wealth Management Platform - Advisor Managed Portfolios Program ("Advisor Managed Portfolios") providing comprehensive investment management of your assets through the application of asset allocation planning software as well as the provision of execution, clearing and custodial services through Pershing, LLC ("Pershing").

Advisor Managed Portfolios provides risk tolerance assessment, efficient frontier plotting, fund profiling and performance data, and portfolio optimization and re-balancing tools. Utilizing these tools, and based on your responses to a risk tolerance questionnaire ("Questionnaire") and discussions that we have together regarding, among other things, investment objective, risk tolerance, investment time horizon, account restrictions, and overall financial situation, we construct a portfolio of investments for you. This portfolio may consist of mutual funds, exchange traded funds, equities, options, debt securities, variable life, variable annuity sub-accounts (certain restrictions may apply) and other investments.

Each portfolio is designed to meet your individual needs, stated goals and objectives. Additionally, you have the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio.

For further Advisor Managed Portfolios details, please see the Advisor Managed Portfolios Wrap Fee Program Brochure. We provide this brochure to you prior to or concurrent with your enrollment in Advisor Managed Portfolios. Please read it thoroughly before investing.

We offer Advisor Managed Portfolios with separate advisory fees and transaction charges ("Non-Wrap Account"). As such, in addition to the quarterly account fee described below for advisory services, you will also pay separate per-trade transaction charges. We also offer Advisor Managed Portfolios as an account where no separate transactions charges apply and a single fee is paid for all advisory services and transactions ("Wrap Account").

Our Advisor Managed Portfolios account fee schedule is as follows:

Assets Under Management	Max Annualized Fee
\$50,000 - \$99,999	2.30%
\$100,000 - \$249,999	2.30%
\$250,000 - \$499,999	2.05%
\$500,000 - \$749,000	1.80%
\$750,000 - \$1,249,999	1.55%
\$1,250,000 - \$1,999,999	1.30%
\$2,000,000 - \$4,999,999	1.05%
\$5,000,000 - \$24,999,000	1.05%
Over \$25,000,000	0.80%

You will pay a quarterly account fee, in advance, based upon the market value of the assets held in your account as of the last business day of the preceding calendar quarter. Your account fees are negotiable and will be debited from your account by our custodian. You will receive a full account fee refund in the event that you terminate your client agreement with us within five business days of signing. If you terminate after the first five business days, the account fee will be credited back to you on a pro-rata basis for the unused portion of the quarter.

Additional, ancillary fees may apply. Please see the Advisor Managed Portfolios Wrap Fee Program Brochure for further details.

Please refer to the "Advisory Business" section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Types of Investments

We primarily recommend and provide advice on mutual funds, exchange traded funds and equity securities.

IRA Rollover Recommendations

Effective December 20, 2021 (or such later date as the US Department of Labor ("DOL") Field Assistance Bulletin 2018-02 ceases to be in effect), for purposes of complying with the DOL's Prohibited Transaction Exemption 2020-02 ("PTE 2020-02") where applicable, we are providing the following acknowledgment to you. When we provide investment advice to you regarding your retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with your interests, so we operate under a special rule that requires us to act in your best interest and not put our interest ahead of yours. Under this special rule's provisions, we must:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put our financial interests ahead of yours when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in your best interest;
- Charge no more than is reasonable for our services; and

- Give you basic information about conflicts of interest.

We benefit financially from the rollover of your assets from a retirement account to an account that we manage or provide investment advice, because the assets increase our assets under management and, in turn, our advisory fees. As a fiduciary, we only recommend a rollover when we believe it is in your best interest.

Assets Under Management

As of January 2, 2022, we provide continuous management services for \$231,582,992, in client assets on a discretionary basis, and \$20,189 in client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Additional Fees and Expenses

Mutual fund investments in the programs that we offer are no-load or load at NAV. Your mutual fund investments may be subject to early redemption fees, 12b-1 fees and mutual fund management fees as well as other mutual fund expenses. These fees are in addition to our fees referenced above. Please review the mutual fund prospectus for full details. Load at NAV refer to some mutual funds companies that offer their load mutual funds through the Broker/Dealer community at Net Asset Value (NAV) to some large investors. Some Fund fees include 12b-1 fees which are internal distribution fees assessed by the Fund, all or a portion of which are paid to the distributor(s) of the Funds. SagePoint and your Advisory Representative do not retain 12b-1 fees paid by Funds.

Variable annuity companies generally impose internal fees and expenses on your variable annuity investment, including contingent deferred sales charges and early redemption fees. In addition, variable annuity companies generally impose mortality charges of approximately 1.25% annually. These fees are in addition to our fees and expenses referenced above. Complete details of such internal expenses are specified and disclosed in each variable annuity company's prospectus. Please review the Variable Annuity prospectus for full details.

For clients who may be in Advisor Managed Portfolios non-wrap accounts, you will also be charged transaction fees as disclosed in the Advisor Managed Portfolios Program Brochure and on your trade confirmation. These fees are not shared with us but are transaction charges paid to SagePoint and our custodian. Please see the Other Financial Industry Activities and Affiliations section below which explains our relationship with SagePoint.

In general, we require a minimum of \$50,000 to open and maintain an Advisor Managed Portfolios, Non-Wrap Fee account and a minimum of \$100,000 for a Wrap Fee account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

There are additional fees relating to IRA and Qualified Retirement Plan accounts that you may incur such as maintenance and termination fees. You will find these fees disclosed in the account application paperwork provided to you associated with these accounts.

In addition to providing advisory services, our Advisory Representatives will likely also sell you securities products and other investment and insurance products in their capacity as registered representatives of SagePoint and as licensed insurance agents. We will receive additional compensation in connection with this activity and the amount of compensation will depend on the type of product purchased. We will have a greater financial incentive to sell certain products as opposed to

others. While our security sales are reviewed for suitability by an appointed supervisor, you should be aware of the incentives we have to sell certain securities products and that certain conflicts of interest exist.

Please be aware that you are under no obligation to purchase products or services recommended by us or members of our Firm in connection with providing you with any advisory service that we offer. At our discretion, our firm may offset our advisory fees to the extent our associated persons earn commissions in their separate capacities as registered representatives and/or insurance agents.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with Sagepoint, a securities broker-dealer, and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. In their capacity as registered representatives, these persons receive compensation in connection with the purchase and sale of securities or other investment products, including asset-based sales charges, service fees or 12b-1 fees for the sale or holding of mutual funds. Compensation earned by these persons in their capacities as registered representatives is separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice to advisory clients on behalf of our firm who are registered representatives have an incentive to recommend investment products based on the compensation received rather than solely based on your needs. Persons providing investment advice to advisory clients on behalf of our firm can select or recommend, and in many instances will select or recommend, mutual fund investments in share classes that pay 12b-1 fees when clients are eligible to purchase share classes of the same funds that do not pay such fees and are less expensive. This presents a conflict of interest. You are under no obligation, contractually or otherwise, to purchase securities products through any person affiliated with our firm who receives compensation described above.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of a capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Fees and Compensation* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We currently offer investment advisory services to individuals including high net worth individuals, trusts and estates, and corporations, and other business entities. We will offer our advisory services to pension and profit sharing plans and charitable organizations.

In general, we require a minimum of \$50,000 to open and maintain an Advisor Managed Portfolios. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Charting and Technical Analysis** - Charting Analysis involves the gathering and processing of price and volume information for a particular security. This price and volume information is analyzed using mathematical equations. The resulting data is then applied to graphing charts, which is used to predict future price movements based on price patterns and trends. When using Technical analysis we review statistics to determine trends in security prices and make our investment decisions based on those trends. This analysis may only be able to predict how an investment will perform short-term. In addition, this analysis does not take into account, the more fundamental properties of what an investment may be worth such as company performance and balance sheet variables which may play a part in determining the value of an investment. The risk of market timing based on technical analysis is that charts may not accurately predict future price movements. Current prices of securities may reflect all information known about the security and day to day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.
- **Fundamental Analysis** - When using Fundamental Analysis, we generally rely on, among other things, company earnings, balance sheet variables and management quality which are used to predict the future value of an investment. Data we review is generally considered reliable but we cannot guarantee nor have we verified its accuracy. In addition, the data that we review is sometimes subjective in nature and open to interpretation. Even if our data and interpretation of the data is correct, there may be other factors that determine the value of securities other than those considered in Fundamental Analysis. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.
- **Cyclical Analysis** - Cyclical analysis is a type of technical analysis that involves evaluating recurring price patterns and trends. The risk of cyclical analysis is that economic/business cycles may not be predictable and may have many fluctuations between long term expansions and contractions. The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.
- **Modern Portfolio Theory (MPT)** - a theory of investment which attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, by carefully diversifying the proportions of various assets. Market risk is that part of a security's risk that is common to all securities of the same general class (stocks and bonds) and thus cannot be eliminated by diversification.
- **Long Term Purchases** - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year. Using a long-term purchase strategy generally assumes the Financial Markets will go up in the long-term which may not be the case. There is also the risk that the segment of the market that you are invested in or perhaps just your particular investment will go down over time even if the overall Financial Markets advance. Purchasing investments long-term may create an opportunity cost - "locking-up" assets that may be better utilized in the short-term in other investments.
- **Short Term Purchases** - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations. Using a short-term purchase strategy generally assumes that we can predict how Financial Markets will perform in the short-term which may be very difficult.

There are many factors that can effect Financial Market performance in the short-term (such as short-term interest rate changes, cyclical earnings announcements, etc.) but may have a smaller impact over longer periods of times.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

We may use short-term trading (in general, selling securities within 30 days of purchasing the same securities) as an investment strategy when managing your account(s). Frequent trading can negatively affect investment performance, particularly through increased brokerage and other transactional costs and taxes. Short-term trading is not a fundamental part of our overall investment strategy, but we may use this strategy occasionally when we determine that it is suitable given your stated investment objectives and tolerance for risk.

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

As a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Most custodial firms use the FIFO ("First In First Out") accounting method as the default method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we primarily recommend equity securities, mutual funds and exchange traded funds (ETFs) however, we may recommend other types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stock"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. However, stock prices can be affected by many other factors including, but not limited to: the class of stock (for example, preferred or common); the health of the market sector of the issuing company; and, the overall health of the economy. In general, larger, more well established companies ("large cap") tend to be safer than smaller start-up companies ("small cap") but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.

Mutual funds and exchange traded funds are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a

manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. Exchange traded funds differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are "no load" and charge no fee to buy into, or sell out of, other types of mutual funds do charge such fees which can also reduce returns.

Investing in mutual funds and exchange traded funds involves the assumption of risk including:

- **Manager Risk:** which is the risk that an actively managed mutual fund's investment adviser will fail to execute the fund's stated investment strategy.
- **Market Risk:** which is the risk that the Stock Market will decline, decreasing the value of the securities contained within the mutual funds we recommend to you.
- **Industry Risk:** which is the risk that a group of stocks in a single industry will decline in price due to adverse developments in that industry, decreasing the value of mutual funds that are significantly invested in that industry.
- **Inflation Risk:** which is the risk that the rate of price increases in the economy deteriorates the returns associated with the mutual fund.

Risk of Loss

Listed above are some of the primary risks associated with the way we recommend investments to you, please do not hesitate to contact us to discuss these risks and others in more detail. Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Item 9 Disciplinary Information

Payant Wealth Management Group has been registered and providing investment advisory services since 1998. Neither our firm nor any of our management person has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

All representatives of our firm that provide advice to you ("Advisory Representatives") are associated with SagePoint Financial, Inc. ("SagePoint") as Registered Representatives. SagePoint is a diversified financial services company registered with the Financial Industry Regulatory Authority ("FINRA") as a broker-dealer engaged in the offer and sale of securities products. Our Advisory Representatives may recommend the purchase of securities offered by SagePoint. If you purchase these products through them, they will receive normal commissions which may be in addition to customary advisory fees. As such, Advisory Representatives may have an incentive to sell you commissionable products in addition to providing you with advisory services when such commissionable products may not be suitable.

Alternatively, they may have an incentive to forego providing you with advisory services when appropriate, and instead recommend the purchase of commissionable investments, if they deem that the payout for recommending the purchase of these investments would be higher than providing management advice on these products for an advisory fee. Therefore, a conflict of interest exists between their interests and your best interests.

While our security sales are reviewed for suitability by an appointed supervisor, you should be aware of the incentives we have to sell certain securities products and are encouraged to ask us about any conflict presented.

Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

At our discretion, we may offset our advisory fees to the extent our Associated Persons earn commissions in their separate capacities as insurance agents. Please be aware that you are under no obligation to purchase products or services recommended by us or members of our Firm in connection with providing you with any advisory service that we offer.

Arrangements with Affiliated Entities

We are affiliated with Payant Tax Services, Inc. through common control and ownership. If you require tax or accounting services, we will recommend that you use Payant Tax Services. Our advisory services are separate and distinct from the compensation paid to Payant Tax Services for their services.

We are also affiliated with Payant Insurance Solutions, LLC through common control and ownership. Therefore, persons providing investment advice on behalf of our firm may be licensed as insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate from our advisory fees. See the *Fees and Compensation* section in this brochure for more information on the compensation received by insurance agents who are affiliated with our firm. This affiliated firm is otherwise regulated by the professional organizations to which it belongs and must comply with the rules of those organizations. These rules may prohibit paying or receiving referral fees to or from investment advisers that are not members of the same organization.

Referral arrangements with an affiliated entity present a conflict of interest for us because we may have a direct or indirect financial incentive to recommend an affiliated firm's services. While we believe that compensation charged by an affiliated firm is competitive, such compensation may be higher than fees charged by other firms providing the same or similar services. You are under no obligation to use the services of any firm we recommend, whether affiliated or otherwise, and may obtain comparable services and/or lower fees through other firms.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting Martin J. Mulligan, Chief Compliance Officer at 813-633-7333.

Participation or Interest in Client Transactions

Neither our firm nor any persons associated with our firm has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities for you at the same time we or persons associated with our firm buy or sell such securities for our own accounts. We may also combine our orders to purchase securities with your orders to purchase securities ("block trading"). Please refer to the "Brokerage Practices" section in this Brochure for information on our block trading practices.

A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that we shall not have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

As described in the Other Financial Industry Activities and Affiliations Section, our Advisory Representatives are also Registered Representatives of SagePoint, a FINRA registered broker-dealer. In order to meet its FINRA supervisory obligations, SagePoint requires that all investment advisory activities that we conduct be processed through SagePoint's clearing relationships with Pershing LLC ("Pershing"). As a result, we do not have the discretion to choose the broker-dealer or commission rates to be paid. However, we do believe that Pershing's blend of execution services, commission and transaction costs as well as professionalism will allow us to seek best execution and competitive prices.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

We routinely require that you direct our firm to execute transactions through Sagepoint Financial Inc. As such, we may be unable to achieve the most favorable execution of your transactions and you may pay higher brokerage commissions than you might otherwise pay through another broker-dealer that offers the same types of services. Not all advisers require their clients to direct brokerage.

Persons providing investment advice on behalf of our firm who are registered representatives of Sagepoint Financial Inc. will recommend Sagepoint Financial Inc. to you for brokerage services. These individuals are subject to applicable rules that restrict them from conducting securities transactions away from Sagepoint Financial Inc. unless Sagepoint Financial Inc. provides the representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through Sagepoint Financial Inc. It may be the case that Sagepoint Financial Inc., charges higher transactions costs and/or custodial fees than another broker charges for the same types of services. If transactions are executed through Sagepoint Financial Inc., these individuals (in their separate capacities as registered representatives of Sagepoint Financial Inc.) may earn commission-based compensation as result of placing the recommended securities transactions through Sagepoint Financial Inc. This practice presents a conflict of interest because these registered representatives have an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on your needs. You may utilize the broker-dealer of your choice and have no obligation to purchase or sell securities through such broker as, we recommend. However, if you do not use Sagepoint Financial Inc., we may not be able to accept your account. See the *Fees and Compensation* section in this brochure for more information on the compensation received by registered representatives who are affiliated with our firm.

Block Trades

We may aggregate your orders with those of other clients in a bunched trade or trades when securities are purchased or sold. For each account that we include in the bunched trade, we must reasonably believe that the bunched order is consistent with our duty to seek best execution and may benefit you and each client participating in the aggregated order. The average price per share of each bunched trade is allocated to each account that participates in the bunched trade. Accounts that participate in the same bunched trade are charged transaction costs, if applicable, in accordance with their advisory contracts.

If a bunched order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation. Partial fills will be allocated in a way that does not consistently advantage or disadvantage particular client accounts and are generally filled pro-rata among participating accounts.

Mutual Fund Share Classes

Mutual funds are sold with different share classes, which carry different cost structures. Each available share class is described in the mutual fund's prospectus. When we purchase, or recommend the purchase of, mutual funds for a client, we select the share class that is deemed to be in the client's best interest, taking into consideration cost, tax implications, and other factors. When the fund is available for purchase at net asset value, we will purchase, or recommend the purchase of, the fund at net asset value. We also review the mutual funds held in accounts that come under our management to determine whether a more beneficial share class is available, considering cost, tax implications, and the impact of contingent deferred sales charges.

Item 13 Review of Accounts

The investment adviser representative assigned to you will monitor your accounts on an ongoing basis and will conduct account reviews at least annually to ensure that the advisory services provided to you and/or the portfolio mix are consistent with your stated or current investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,
- changes in your risk/return objectives.

We will not provide you with additional or regular written reports in conjunction with account reviews. You will receive trade confirmations, monthly or quarterly statements, and a year-end tax statement from your account custodian(s).

Financial planning updates/review will vary on a case-by-case basis and will be detailed in the client agreement.

Item 14 Client Referrals and Other Compensation

Client Referrals

We do not compensate non-employee (outside) individuals, and/or entities (Solicitors) for client referrals.

Martin Jay Mulligan, Chief Compliance Officer of our firm, provides supervisory and administrative services to our organization for which he is given a bonus based on a percentage of assets under management for any new business brought into the firm for one year after a client contracts for our services. This bonus is not based on solicitation of the client to our firm or on the management or servicing of the client.

Other Compensation

As discussed previously, all our Advisory Representatives are Registered Representatives of SagePoint. This arrangement requires us to offer you advisory services and programs sponsored or approved by SagePoint. SagePoint sets limits on how much we can charge you for these advisory services. Some advisory programs have higher fee limits than others. As such, there may be an incentive for us to recommend to you advisory services or programs with higher limits. In addition, SagePoint may charge us certain usage fees and expenses to use their advisory programs which may decrease the amount of money we make when offering investment advice to you. Therefore, there may be an incentive to provide you with advisory programs and services that may be cheaper for us to use but not as suitable to your needs as other advisory programs that SagePoint sponsors which may be more expensive for us to use.

In addition, SagePoint offers our Advisory Representatives educational, training and incentive programs for those Advisory Representatives that meet certain sales production goals. There may be an incentive for us to manage your account in ways that assist us in meeting these production goals even if such strategies may not always be suitable for your account.

Item 15 Custody

As paying agent for our firm, your independent custodian will directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other qualified custodian. You will receive account statements from the qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

Wire Transfer Authority

Our firm or persons associated with our firm may effect third party wire transfers for client accounts without client written consent per transaction for client accounts. An adviser with authority to conduct unauthorized third party wire transfers has access to the client assets, and therefore has custody of the client assets in any related accounts. Pursuant to Rule 206(4)-2 (the "Custody Rule"), we have taken steps to have controls and oversight in place to support the no-action letter issued by the SEC on February 21, 2017 (the "SEC no-action letter"). With respect to third party standing letters of authorization ("SLOA") where a client may grant us the authority to direct custodians to disburse funds to one or more third party accounts, we are deemed to have limited custody. However, we are not required to comply with the surprise examination requirement of the Custody Rule if we are otherwise in compliance with the seven representations noted in the February 21, 2017 no-action letter.

Where the Adviser acts pursuant to a SLOA, we believe we are making a good faith effort to comply with the representations noted in the SEC's no-action letter. Additionally, since many of those representations involve the qualified custodian's operations, we will collaborate closely with its custodians to ensure that the representations would be able to be met.

Item 16 Investment Discretion

We may manage your accounts on a discretionary basis upon obtaining your consent. Your consent is typically granted and evidenced in the client agreement that you sign with us. We define discretion as: the ability to trade your account, without obtaining your prior consent, the securities and amount of securities to be bought or sold, and the timing of the purchase or sale. It does not extend to the withdrawal or transfer of your account funds. Our investment authority may be subject to specified investment objectives, guidelines and/or conditions imposed by you. For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry. If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Item 17 Voting Client Securities

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We have not filed a bankruptcy petition at any time in the past ten years.

Item 19 Requirements for State-Registered Advisers

We are a federally registered investment adviser; therefore, we are not required to respond to this item.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will never sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Martin Jay Mulligan, Chief Compliance Officer at 813-633-7333, if you have any questions regarding this policy.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit or whether you are eligible to participate in class action settlements or litigation nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. In the event the trading error results in an erroneous profit, the profit would be retained by SagePoint and you will not keep the profit.
